Similar to Con E 381, except students with previous experience attempt projects with larger scope or lead students with less experience.

CON E 481F. Bidding Construction Projects II: Miscellaneous.

(0-3) Cr. 1. F. *Prereq: Permission from the instructor*

Similar to Con E 381, except students with previous experience attempt projects with larger scope or lead students with less experience.

CON E 487. Construction Engineering Design I.

(2-2) Cr. 3. F.S. *Prereq: CON E 340 (B, H), CON E 352 (B, E, M), CON E 353 (B, E, M), CON E 421, CON E 441. Student must be within two semesters of graduation*

The integrated delivery of project services as a team, including preliminary engineering design process, constructability review, interaction with the client, identification of engineering problems, developments of a proposal, identification of design criteria, cost estimating, planning and scheduling, application of codes and standards, development of feasible alternatives, selection of best alternative, and delivery of oral presentations.

CON E 488. Construction Engineering Design II.

(1-5) Cr. 3. F.S. *Prereq: CON E 380. Coreq: CON E 487*

Application of team design concepts to a construction engineering project. Project planning. Advanced construction and project management.

CON E 490. Independent Study.

Cr. 1-5. Repeatable. F.S.SS. *Prereq: Permission of instructor*

Individual study in any phase of construction engineering. Pre-enrollment contract required.

CON E 498. Cooperative Education.

Cr. R. Repeatable. F.S.SS. *Prereq: CON E 398, permission of department and Engineering Career Services*

Third and subsequent professional work periods in the cooperative education program. Students must register for this course before commencing work.

Electrical Engineering

Undergraduate Study

For the undergraduate curriculum in electrical engineering leading to the degree Bachelor of Science. This curriculum is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>.

The Department of Electrical and Computer Engineering (ECpE) at Iowa State University provides undergraduate students with the opportunity to learn electrical and computer engineering fundamentals, study applications of the most recent advances in state-of-the-art technologies, and prepare for the practice of electrical engineering. The student-faculty interaction necessary to realize this opportunity occurs within an environment that is motivated by the principle that excellence in undergraduate education is enhanced by an integrated commitment to successful, long-term research and outreach programs.

The electrical engineering curriculum offers a number of emphasis areas at the undergraduate level, including control systems, electromagnetics and nondestructive evaluation, microelectronics and photonics, VLSI, electric power and energy systems, and communications and signal processing. Students are required to choose at least one course sequence that focuses on one of these areas; therefore graduates have substantial depth in specific areas to complement the breadth obtained in the required curriculum. Students also may take elective courses in computer networking, security, computer architecture, digital systems, and software.

The program objectives for the electrical engineering program describe accomplishments that graduates are expected to attain within five years after graduation. Graduates will have applied their expertise to contemporary problem solving, be engaged professionally, have continued to learn and adapt, and have contributed to their organizations through leadership and teamwork. More specifically, the objectives for expertise, engagement, learning, leadership and teamwork are defined below for each program.

The objective of the electrical engineering program at ISU are:

- Graduates, within five years of graduation, should demonstrate peer-recognized **expertise** together with the ability to articulate that expertise and use it for contemporary problem solving in the analysis, design, and evaluation of electrical and electronic devices and systems.
- Graduates, within five years of graduation, should demonstrate **engagement** in the engineering profession, locally and globally, by contributing to the ethical, competent, and creative practice of engineering or other professional careers.
- Graduates, within five years of graduation, should demonstrate sustained **learning** and adapting to a constantly changing field through graduate work, professional development, and self study.
- Graduates, within five years of graduation, should demonstrate **leadership** and initiative to ethically advance professional and organizational goals, facilitate the achievements of others, and obtain substantive results.
- Graduates, within five years of graduation, should demonstrate a commitment to **teamwork** while working with others of diverse cultural and interdisciplinary backgrounds.

As a complement to the instructional activity, the ECpE department provides opportunities for each student to have experience with broadening activities. Through the cooperative education and internship program, students have the opportunity to gain practical industry experience.

Students have the opportunity to participate in advanced research activities, and through international exchange programs, students learn about engineering practices in other parts of the world. Well-qualified juniors and seniors in electrical engineering who are interested in graduate study may apply for concurrent enrollment in the Graduate College to simultaneously pursue both the Bachelor of Science and Master of Science, the Bachelor of Science and Master of Business Administration, or the Bachelor of Science and Master of Engineering degrees.

Students are required to prepare and to maintain a portfolio of their technical and non-technical skills. This portfolio is evaluated for student preparation during the student's curriculum planning process. Results of the evaluation are used to advise students of core strengths and weaknesses.

Courses for students who are not in the electrical engineering program: E E 442 Introduction to Circuits and Instruments, E E 448 Introduction to AC Circuits and

Motors. Credit in these courses may not be counted toward a degree in either electrical engineering or computer engineering.

Graduate Study

The department offers work for the degrees Master of Engineering, Master of Science, and Doctor of Philosophy with a major in electrical engineering and minor work to students with other majors. Minor work for electrical engineering majors is usually selected from a wide range of courses outside electrical engineering.

Master of Engineering degree is coursework only. It is recommended for off-campus students.

The degree Master of Science with thesis is recommended for students who intend to continue toward the Doctor of Philosophy degree or to undertake a career in research and development. The non-thesis Master of Science degree requires a creative component.

The department also offers a graduate certificate program in power systems engineering. Completion of the certificate requires at least 12 credits selected from:

E E 553	Steady State Analysis	3
E E 554	Power System Dynamics	3
E E 555	Advanced Energy Distribution Systems	3
E E 556	Power Electronic Systems	3
E E 653	Advanced Topics in Electric Power System Engineering	3

E E 653 Advanced Topics in Electric Power System Engineering is a repeatable course and may be used more than once to satisfy the certificate requirement.

The normal prerequisite to major in graduate work in electrical engineering is the completion of undergraduate work substantially equivalent to that required of electrical engineering students at this university. Because of the diversification in the electrical engineering graduate program, however, it is possible for a student to qualify for graduate study in certain areas of electrical engineering even though the student's undergraduate or prior graduate training has been in a discipline other than electrical engineering. Supporting work, if required, will depend on the student's background and area of research interest. Prospective students from a discipline other than electrical engineering are required to submit, with the application for admission, a statement of the proposed area of graduate study.

The department requires submission of GRE General test scores by applicants. All students whose first language is not English and who have no U.S. degree must submit TOEFL examination scores. Students pursuing the Doctor of Philosophy must complete the department qualifying process.

The Department of Electrical and Computer Engineering is a participating department in the interdepartmental graduate minor in complex adaptive systems. Students interested in this program should see the Complex Adaptive Systems section of the catalog for requirements.

The Department of Electrical and Computer Engineering is a participating department in the interdepartmental Master of Science and Doctor of Philosophy degree programs in bioinformatics and computational biology. Students interested in these programs may earn their degrees while working under an adviser in electrical and computer engineering.

Well-qualified juniors or seniors in electrical engineering who are interested in graduate study may apply for concurrent enrollment in the Graduate College to simultaneously pursue both the Bachelor of Science and Master of Science degrees, the Bachelor of Science and Master of Business Administration, or the Bachelor of Science and Master of Engineering degrees. Under concurrent enrollment, students are eligible for assistantships and simultaneously take undergraduate and graduate courses. Details are available in the Student Services Office and on the department's website.

Curriculum in Electrical Engineering

Administered by the Department of Electrical and Computer Engineering. Leading to the degree Bachelor of Science.

Total credits required: 128 See also Basic Program and Special Programs.

International Perspectives: 3 cr. ¹

U.S. Diversity: 3 cr. ¹

Communication Proficiency/Library requirement:

ENGL 150	Critical Thinking and Communication *	3
ENGL 250	Written, Oral, Visual, and Electronic Composition *	3

LIB 160	Information Literacy	1
ENGL 314 or ENGL 309	Technical Communication Report and Proposal Writing	3

* minimum grade of C

General Education Electives: 15 cr. ^{2,6}

Basic Program: 27 cr. ⁴

Complete with 2.00 GPA including transfer courses (see above for grade requirements):

CHEM 167 or CHEM 177	General Chemistry for Engineering Students General Chemistry I	4
ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
ENGR 101	Engineering Orientation	R
E E 185	Introduction to Electrical Engineering and Problem-Solving I ³	3
LIB 160	Information Literacy	1
MATH 165	Calculus I	4
MATH 166	Calculus II	4
PHYS 221	Introduction to Classical Physics I (See Basic Program rule)	5

Total Credits 27

Math and Physical Science: 16 cr.

MATH 265	Calculus III	4
MATH 267	Elementary Differential Equations and Laplace Transforms	4
MATH 207	Matrices and Linear Algebra	3
PHYS 222	Introduction to Classical Physics II	5

Total Credits 16

Electrical Engineering Core: 41 cr. ⁴

E E 285	Problem Solving Methods and Tools for Electrical Engineering	4
CPR E 281	Digital Logic	4
CPR E 288	Embedded Systems I: Introduction	4
E E 201	Electric Circuits	4
E E 230	Electronic Circuits and Systems	4
E E 224	Signals and Systems I	4
E E 303	Energy Systems and Power Electronics	3
E E 311	Electromagnetic Fields and Waves	4
E E 322	Probabilistic Methods for Electrical Engineers	3

Core Elective: one of the following ⁵

E E 321	Communication Systems I	
E E 324	Signals and Systems II	

Core Elective: one of the following: ⁵

E E 330	Integrated Electronics	
E E 332	Semiconductor Materials and Devices	

Total Credits 41

Other Remaining Courses: 29 cr.

E E 491	Senior Design Project I and Professionalism	3
E E 492	Senior Design Project II	2
I E 305	Engineering Economic Analysis	3
One of the following:		3

ENGL 309	Report and Proposal Writing *	
ENGL 314	Technical Communication *	

E E/Cpr E Technical Electives including one approved sequence ⁶ 12

Elective from Math, E E, Cpr E and/or non-E E/Cpr E ⁶ 6

Total Credits 29

* minimum grade of C

Seminar/Co-op/Internships:

E E 166	Professional Programs Orientation	R
E E 294	Program Discovery	R
E E 394	Program Exploration	R
E E 494	Portfolio Assessment	R

Co-op or internship is optional

Outcomes Assessment - Students are required to prepare and to maintain a portfolio of their technical and non-technical skills. This portfolio is evaluated for student preparation during the student's curriculum planning process. Results of the evaluation are used to advise students of core strengths and weaknesses.

Transfer Credit Requirements

The degree program must include a minimum of 30 credits at the 300-level or above in professional and technical courses earned at ISU in order to receive a B.S. in electrical engineering. These 30 credits must include E E 491 Senior Design Project I and Professionalism, E E 492 Senior Design Project II, and credits in the core professional curriculum and/or in technical electives. The Electrical and Computer Engineering Department requires a grade of C or better for any transfer credit course that is applied to the degree program.

1. These university requirements will add to the minimum credits of the program unless the university-approved courses are also approved by the department to meet other course requirements within the degree program. U.S. diversity and international perspectives courses may not be taken Pass/Not Pass.
2. Complete minimum of 6 cr. from Approved General Education Component at 300 or higher level. Complete additional 9 cr. from Approved General Education Component.
3. See Basic Program for Professional Engineering Curricula for accepted substitutions for curriculum designated courses in the Basic Program.
4. 2.00 required including transfer courses.
5. Note: E E 321 and E E 332 are 3-credit courses, whereas E E 324 and E E 330 are 4-credit courses. The core credit requirement (41 credits) assumes 7 credits taken for these options. Any core credit surplus or deficiency can be used as credits for E E technical electives.
6. From department approved lists (<http://www.ece.iastate.edu/academics/bachelors-degree-requirements>)

See also: [A 4-year plan of study grid showing course template by semester.](#)

Note: International perspectives and U.S. diversity courses are used to meet the general education electives.

Courses primarily for undergraduates:**E E 166. Professional Programs Orientation.**

(Cross-listed with CPR E). Cr. R. F.S.

(1-0) Overview of the nature and scope of electrical engineering and computer engineering professions. Overview of portfolios. Departmental rules, advising center operations, degree requirements, program of study planning, career options, and student organizations.

E E 185. Introduction to Electrical Engineering and Problem-Solving I.

(2-2) Cr. 3. F.S. Prereq: Credit or enrollment in MATH 142

Project based examples from electrical engineering. Systematic thinking process for engineering problem solving. Group problem solving. Mathematical, conceptual and computer based projects. Solving engineering problems and presenting solutions through technical reports and oral presentations. Solutions of engineering problems using computation tools and basic programming.

E E 186. Introduction to Electrical Engineering and Problem Solving II.

(0-2) Cr. 1. S. Prereq: E E 185

Project based and hands on continuation of 185. Group skills needed to work effectively in teams. Individual interactive skills for small and large groups. Learning to use tools and methods for solving electrical engineering problems.

E E 188. Bio-Electrical Engineering Fundamentals Laboratory.

(1-3) Cr. 2. Prereq: E E 185 or equivalent

Fundamental laboratory based course in bio-electrical engineering with an emphasis on acquiring and analyzing biomedical signals to obtain relevant information. Topics covered include an overview of basic medical terminology and anatomy, labs illustrating data acquisition from different body systems, and an introduction to statistical significance and its relationship to biological variability.

E E 201. Electric Circuits.

(3-2) Cr. 4. F.S. Prereq: Credit or registration in MATH 267 and PHYS 222
Emphasis on mathematical tools. Circuit elements (resistors, inductors, capacitors) and analysis methods including power and energy relationships. Network theorems. DC, sinusoidal steady-state, and transient analysis. AC power. Frequency response. Two port models. Diodes, PSPICE. Laboratory instrumentation and experimentation. Credit for only E E 201 or 442 may be used towards graduation.

E E 224. Signals and Systems I.

(3-3) Cr. 4. F.S. Prereq: E E 201, MATH 267, PHYS 222

Mathematical preliminaries. Introduction to signals and systems. Signal manipulations. System properties. LTI systems, impulse response and convolution. Fourier Series representation and properties. Continuous and discrete-time Fourier Transforms and properties. Sampling and reconstruction. Modulation and demodulation. Applications and demonstrations using Matlab.

E E 230. Electronic Circuits and Systems.

(3-3) Cr. 4. F.S. Prereq: E E 201, MATH 267, PHYS 222

Frequency domain characterization of electronic circuits and systems, transfer functions, sinusoidal steady state response. Time domain models of linear and nonlinear electronic circuits, linearization, small signal analysis. Stability and feedback circuits. Operational amplifiers, device models, linear and nonlinear applications, transfer function realizations. A/D and D/A converters, sources of distortions, converter linearity and spectral characterization, applications. Design and laboratory instrumentation and measurements.

E E 261. Transfer Orientation.

(Cross-listed with CPR E). Cr. R.

Introduction to the College of Engineering and the engineering profession specifically for transfer students. Information concerning university and college policies, procedures, and resources. Offered on a satisfactory-fail basis only.

E E 285. Problem Solving Methods and Tools for Electrical Engineering.

(3-3) Cr. 4.

Integration of field-specific computational tools for practically solving electrical engineering problems. Methods for systematically reducing problems into sequential steps compatible with computer based tools. Structuring computer programs for efficiency and maintainability. Integration of multi-platform operating systems and multi-vendor tools for solving engineering problems. Hands-on laboratory experiences using Matlab, C, and other computational tools.

E E 294. Program Discovery.

(Cross-listed with CPR E). Cr. R. Prereq: CPR E 166 or E E 166

The roles of professionals in computer and electrical engineering. Relationship of coursework to industry and academic careers. Issues relevant to today's world. Offered on a satisfactory-fail basis only.

E E 298. Cooperative Education.

Cr. R. F.S.SS. Prereq: Permission of department and Engineering Career Services

First professional work period in the cooperative education program. Students must register for this course before commencing work.

E E 303. Energy Systems and Power Electronics.

(3-0) Cr. 3. F.S. Prereq: MATH 267, Phys 222. Credit or registration in E E 224 and E E 230

Structure of competitive electric energy systems. System operation and economic optimization. Mutual inductance, transformers. Synchronous generators. Balanced three-phase circuit analysis and power calculations. Network calculations and associated numerical algorithms. Two-port circuits. Voltage regulation. Resonance and power factor correction. DC and induction motors. Power electronic circuit applications to power supplies and motor drives.

E E 311. Electromagnetic Fields and Waves.

(4-0) Cr. 4. F.S. Prereq: E E 201, MATH 265, PHYS 222, credit or registration in MATH 267

Fundamentals and applications of electric and magnetic fields and materials. Electrostatics and magnetostatics, potentials, capacitance and inductance, energy, force, torque. Uniform plane electromagnetic waves, Poynting vector. Transmission lines: transient and sinusoidal steady-state conditions, reflection coefficient.

E E 314. Electromagnetics for non Electrical Engineers.

(3-0) Cr. 3. Prereq: PHYS 222, PHYS 112, or equivalent

Conceptual study of electromagnetism and its application in engineering and related fields. EM fundamentals, EM spectrum, radiation, radiating systems, wireless, modern concepts of physics, quantum computing, transmission lines, high speed effects, waveguides, GPS and other related phenomena will be discussed and explained with the application in mind.

E E 321. Communication Systems I.(3-0) Cr. 3. F. *Prereq: E E 224*

Frequency domain analysis, spectral filtering, bandwidth. Linear modulation systems. Angle modulation systems. Phase locked loop, super-heterodyne receiver. Sampling and pulse code modulation. Digital data transmission, line coding, pulse shaping, multiplexing.

E E 322. Probabilistic Methods for Electrical Engineers.(Cross-listed with STAT). (3-0) Cr. 3. F.S. *Prereq: E E 224*

Introduction to probability with applications to electrical engineering. Sets and events, probability space, conditional probability, total probability and Bayes' rule. Discrete and continuous random variables, cumulative distribution function, probability mass and density functions, expectation, moments, moment generating functions, multiple random variables, functions of random variables. Elements of statistics, hypothesis testing, confidence intervals, least squares. Introduction to random processes.

E E 323. Introduction to Digital Signal Processing.(3-3) Cr. 4. *Prereq: E E 224*

Sampling and reconstruction. Concepts and mathematical tools in discrete-time signal processing with examples from digital signal processing and communications. Discrete-time correlation and matched-filter receivers. Discrete Fourier transform (DFT). Fast Fourier algorithms. Z transforms. Design of finite impulse response (FIR) and infinite impulse response (IIR) filters. Realizations of discrete-time systems and quantization effects. Multi-rate signal processing. Laboratory experiments illustrating DSP implementations and applications.

E E 324. Signals and Systems II.(3-3) Cr. 4. F.S. *Prereq: E E 224*

Laplace and z-Transforms, properties and inverses. Applications to LTI systems and analog/digital filters. Feedback systems and stability. State-space representation and analysis.

E E 325. Systems Biology for Engineering.(Cross-listed with BIOE). (3-0) Cr. 3. *Prereq: BIOE 210, MATH 267*

Review of systems approaches for modeling. Introduction or review of methods for gene regulation in cells and how to model them. Auto regulation of gene networks. Feedforward modeling, timing considerations. Feedback mechanisms. Kinetic and rate-limiting steps.

E E 330. Integrated Electronics.(Cross-listed with CPR E). (3-3) Cr. 4. *Prereq: E E 201, credit or enrollment in E E 230, CPR E 281*

Semiconductor technology for integrated circuits. Modeling of integrated devices including diodes, BJTs, and MOSFETs. Physical layout. Circuit simulation. Digital building blocks and digital circuit synthesis. Analysis and design of analog building blocks. Laboratory exercises and design projects with CAD tools and standard cells. Credit for only one of E E 330 or 331 may be counted toward graduation.

E E 332. Semiconductor Materials and Devices.(Cross-listed with MAT E). (3-0) Cr. 3. S. *Prereq: PHYS 222; MAT E majors: MAT E 334; CPR E and E E majors: E E 230*

Introduction to semiconductor material and device physics. Quantum mechanics and band theory of semiconductors. Charge carrier distributions, generation/recombination, transport properties. Physical and electrical properties and fabrication of semiconductor devices such as MOSFETs, bipolar transistors, laser diodes and LED's.

E E 336. Biomedical Instrumentation.(2-2) Cr. 3. *Prereq: E E 188, E E 224, E E 230*

Principles and practices of biomedical instrumentation. Topics include: the physics and measurement of biopotentials including electrocardiography (EKG), electromyography (EMG) and electro-oculography (EOG), mechanical and chemical sensors, amplifiers and filters, recording and processing biological signals from nerve cells, muscles and human body, electrode polarization, surface electrodes, power line interference, heart sound sensors, respiratory gas concentration, blood-gas sensors, noninvasive blood-gas sensors.

E E 351. Analysis of Energy Systems.(3-0) Cr. 3. *Prereq: PHYS 222*

Energy-scientific, engineering and economic foundations. Energy utilization-global and national. Sectoral analysis of energy consumption. Relationship of energy consumption and production to economic growth and environment. Technology for energy production. Economic evaluation of energy utilization and production. Scientific basis for global warming. Environmental impact of energy production and utilization. Renewable energy.

Meets International Perspectives Requirement.

E E 388. Sustainable Engineering and International Development.(Cross-listed with A B E, C E, M E, MAT E). (2-2) Cr. 3. F. *Prereq: Junior classification in engineering*

Multi-disciplinary approach to sustainable engineering and international development, sustainable development, appropriate design and engineering, feasibility analysis, international aid, business development, philosophy and politics of technology, and ethics in engineering. Engineering-based projects from problem formulation through implementation. Interactions with partner community organizations or international partners such as nongovernment organizations (NGOs). Course readings, final project/design report. Meets International Perspectives Requirement.

E E 394. Program Exploration.(Cross-listed with CPR E). Cr. R. *Prereq: CPR E 294 or E E 294*

Exploration of academic and career fields for electrical and computer engineers. Examination of professionalism in the context of engineering and technology with competencies based skills. Introduction to professional portfolio development and construction. Offered on a satisfactory-fail basis only.

E E 396. Summer Internship.Cr. R. Repeatable. SS. *Prereq: Permission of department and Engineering Career Services*

Summer professional work period. Students must register for this course before commencing work.

E E 397. Engineering Internship.Cr. R. Repeatable. F.S. *Prereq: Permission of department and Engineering Career Services*

One semester maximum per academic year professional work period. Students must register for this course before commencing work.

E E 398. Cooperative Education.Cr. R. F.S.SS. *Prereq: E E 298, permission of department and Engineering Career Services*

Second professional work period in the cooperative education program. Students must register for this course before commencing work.

E E 414. Microwave Engineering.(Dual-listed with E E 514). (3-3) Cr. 4. F. *Prereq: E E 230, E E 311*

Principles, analyses, and instrumentation used in the microwave portion of the electromagnetic spectrum. Wave theory in relation to circuit parameters. S parameters, couplers, discontinuities, and microwave device equivalent circuits. RF amplifier design, microwave sources, optimum noise figure and maximum power designs. Microwave filters and oscillators.

E E 417. Electromagnetic Radiation, Antennas, and Propagation.(Dual-listed with E E 517). (3-3) Cr. 4. S. *Prereq: E E 311*

Fundamental antenna concepts. Radiation from wire-and aperture-type sources. Radio transmission formulas. Wave and antenna polarization. Antenna arrays. Modern antenna topics. Practical antenna design. Antenna noise. Radiowave propagation in the presence of the earth and its atmosphere. Antenna measurements and computer aided analysis.

E E 418. High Speed System Engineering Measurement and Testing.(Cross-listed with CPR E). (3-2) Cr. 4. F. *Prereq: E E 230 and E E 311*

Measurement of high speed systems and mixed signal systems. Measurement accuracy and error. Network analysis and spectrum analysis used in high speed measurement and testing. Test specification process and parametric measurement. Sampling and digital signal processing concepts. Design for testability. Testing equipment. Applications.

E E 422. Communication Systems II.(3-0) Cr. 3. *Prereq: E E 321 and enrollment in E E 423*

Introduction to probability and random processes; Performance of analog systems with noise; Performance of digital communication with noise; optimum receivers, transmission impairments, and error rates; Introduction to information theory and coding: source coding, channel coding, channel capacity.

E E 423. Communication Systems Laboratory.(0-3) Cr. 1. *Prereq: E E 321, enrollment in E E 422*

Construction and evaluation of modulators, demodulators and other components for analog and digital communications. Design, simulate, and evaluate wireless communication systems and their key components. Noise measurement.

E E 432. Microelectronics Fabrication Techniques.

(Dual-listed with E E 532). (Cross-listed with MAT E). (2-4) Cr. 4. *Prereq: PHYS 222, MATH 267, E E 332 or MAT E 334 recommended*

Techniques used in modern integrated circuit fabrication, including diffusion, oxidation, ion implantation, lithography, evaporation, sputtering, chemical-vapor deposition, and etching. Process integration. Process evaluation and final device testing. Extensive laboratory exercises utilizing fabrication methods to build electronic devices. Use of computer simulation tools for predicting processing outcomes. Recent advances in processing CMOS ICs and micro-electro-mechanical systems (MEMS).

E E 435. Analog VLSI Circuit Design.

(Cross-listed with CPR E). (3-3) Cr. 4. S. *Prereq: E E 324, E E 330, E E 332, and either E E 322 or STAT 330*

Basic analog integrated circuit and system design including design space exploration, performance enhancement strategies, operational amplifiers, references, integrated filters, and data converters.

E E 438. Optoelectronic Devices and Applications.

(Dual-listed with E E 538). (3-0) Cr. 3. *Prereq: E E 311, E E 332*

Transmission and reflection of electromagnetic plane waves. Propagation in dielectric and fiber optic waveguides. LED and laser operating principles and applications. Photodetectors and solar cells. Optical modulation and switching.

E E 439. Nanoelectronics.

(3-0) Cr. 3. S. *Prereq: E E 332/MAT E 332 or MAT E 331*

Concepts of quantum mechanics relevant to nanoelectronic devices, including quantization, tunneling, and transport; overview of some of the leading technologies for nanoelectronics, including carbon nanotubes, quantum dots, and molecular transistors; fabrication methods for building nanoelectronic devices.

E E 442. Introduction to Circuits and Instruments.

(3-2) Cr. 2. F.S. *Prereq: PHYS 222, MATH 267*

Half-semester course. Basic circuit analysis using network theorems with time domain and Laplace transform techniques for resistive, resistive-inductive, resistive-capacitive, and resistive-inductive-capacitive circuits. Transient circuit behavior. Basic operational amplifiers and applications. Familiarization with common E E instrumentation and demonstration of basic principles. Credit for only 201 or 442 may be counted toward graduation; credit for 442 will not count toward graduation for E E or Cpr E majors.

E E 448. Introduction to AC Circuits and Motors.

(3-2) Cr. 2. F.S. *Prereq: E E 442*

Half-semester course. Basics of DC machines, stepper motors, AC induction motors, and synchronous generators. AC steady state analysis, transformers, and three-phase circuit analysis.

E E 451. Engineering Acoustics.

(Cross-listed with E M, M E). (2-2) Cr. 3. Alt. S., offered even-numbered years. *Prereq: Phys 221 and Math 266 or Math 267*

Properties of sound waves and noise metrics (pressure, power levels, etc). Sound sources and propagation. Principles of wave propagation in one-, two-, and three-dimensions. Wave reflection and transmission. Wave propagation in rectangular, cylindrical, and annular ducts. Acoustics fields for model noise sources. Introduction to aerodynamic noise sources in aircraft, aircraft engines, and wind turbines. Selected laboratory experiments.

E E 452. Electrical Machines and Power Electronic Drives.

(2-3) Cr. 3. S. *Prereq: E E 303, E E 324*

Basic concepts of electromagnetic energy conversion. DC motors and three-phase induction motors. Basic introduction to power electronics. Adjustable speed drives used for control of DC, induction, and AC motors. Experiments with converter topologies, DC motors, AC motors and adjustable speed drives.

E E 455. Introduction to Energy Distribution Systems.

(3-0) Cr. 3. F. *Prereq: E E 303, credit or registration in E E 324*

Overhead and underground distribution system descriptions and characteristics, load descriptions and characteristics, overhead line and underground cable models, distribution transformers, power flow and fault analysis, overcurrent protection, power factor correction, system planning and automation, and economics in a deregulated environment.

E E 456. Power System Analysis I.

(3-0) Cr. 3. F. *Prereq: E E 303, credit or registration in E E 324*

Power transmission lines and transformers, synchronous machine modeling, network analysis, power system representation, load flow.

E E 457. Power System Analysis II.

(3-0) Cr. 3. S. *Prereq: E E 303, credit or registration in E E 324*

Power system protection, symmetrical components, faults, stability. Power system operations including the new utility environment.

E E 458. Economic Systems for Electric Power Planning.

(Cross-listed with ECON). (3-0) Cr. 3. *Prereq: E E 303 or ECON 301*

Evolution of electric power industry. Power system operation and planning and related information systems. Linear and integer optimization methods. Short-term electricity markets and locational marginal prices. Risk management and financial derivatives. Basics of public good economics. Cost recovery models including tax treatment for transmission investments.

E E 459. Electromechanical Wind Energy Conversion and Grid Integration.

(Dual-listed with E E 559). (3-0) Cr. 3. *Prereq: Credit or enrollment in E E 452, E E 456*

Summary of industry status and expected growth; power extraction from the air stream; operation and modeling of electric machines, and power electronics topologies for wind energy conversion; analysis of machine-grid power electronic circuits, controller interface, and collector (distribution) networks; treatment of harmonics, flicker, over/under-voltages, filters, low-voltage ride-through, and reactive compensation; relaying; effects on transmission expansion, planning and grid operation and coordination including variability, frequency control, reserves, and electricity markets; overview of storage technologies and hybrid configurations.

E E 465. Digital VLSI Design.

(Cross-listed with CPR E). (3-3) Cr. 4. S. *Prereq: E E 330*

Digital design of integrated circuits employing very large scale integration (VLSI) methodologies. Technology considerations in design. High level hardware design languages, CMOS logic design styles, area-energy-delay design space characterization, datapath blocks: arithmetic and memory, architectures and systems on a chip (SOC) considerations. VLSI chip hardware design project.

E E 466. Multidisciplinary Engineering Design.

(Cross-listed with A B E, AER E, CPR E, ENGR, I E, M E, MAT E). (1-4) Cr. 3. Repeatable. F.S. *Prereq: Student must be within two semesters of graduation and receive permission of instructor*

Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing, and life cycle considerations. Application of design tools such as CAD, CAM, and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations and computer models and engineering drawings.

E E 467. Multidisciplinary Engineering Design II.

(Cross-listed with AER E, CPR E, ENGR, I E, M E, MAT E). (1-4) Cr. 3.

Repeatable, maximum of 2 times. F.S. *Prereq: Student must be within two semesters of graduation or receive permission of instructor.*

Build and test of a conceptual design. Detail design, manufacturability, test criteria and procedures. Application of design tools such as CAD and CAM and manufacturing techniques such as rapid prototyping. Development and testing of a full-scale prototype with appropriate documentation in the form of design journals, written reports, oral presentations and computer models and engineering drawings.

E E 475. Automatic Control Systems.

(3-0) Cr. 3. F. *Prereq: E E 324*

Stability and performance analysis of automatic control systems. The state space, root locus, and frequency response methods for control systems design. PID control and lead-lag compensation. Computer tools for control system analysis and design.

E E 476. Control System Simulation.

(2-3) Cr. 3. S. *Prereq: E E 475*

Computer aided techniques for feedback control system design, simulation, and implementation.

E E 488. Eddy Current Nondestructive Evaluation.

(Dual-listed with E E 588). (Cross-listed with MAT E). (3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq: MATH 265 and (MAT E 216 or MAT E 272 or E E 311 or PHYS 364)*

Electromagnetic fields of various eddy current probes. Probe field interaction with conductors, cracks and other material defects. Ferromagnetic materials. Layered conductors. Elementary inversion of probe signals to characterize defects. Special techniques including remote-field, transient, potential drop nondestructive evaluation and the use of Hall sensors. Practical assignments using a 'virtual' eddy current instrument will demonstrate key concepts.

E E 490. Independent Study.

Cr. arr. *Prereq: Senior classification in electrical engineering*

Investigation of an approved topic commensurate with the student's prerequisites.

E E 490H. Independent Study: Honors.

Cr. arr. *Prereq: Senior classification in electrical engineering*

Investigation of an approved topic commensurate with the student's prerequisites.

E E 491. Senior Design Project I and Professionalism.

(Cross-listed with CPR E). (2-3) Cr. 3. F.S. *Prereq: E E 322 or CPR E 308, completion of 24 credits in the E E core professional program or 29 credits in the Cpr E core professional program, ENGL 314*

Preparing for entry to the workplace. Selected professional topics. Use of technical writing skills in developing project plan and design report; design review presentation. First of two-semester team-oriented, project design and implementation experience.

E E 492. Senior Design Project II.

(Cross-listed with CPR E). (1-3) Cr. 2. F.S. *Prereq: CPR E 491 or E E 491*

Second semester of a team design project experience. Emphasis on the successful implementation and demonstration of the design completed in E E 491 or Cpr E 491 and the evaluation of project results. Technical writing of final project report; oral presentation of project achievements; project poster.

E E 494. Portfolio Assessment.

(Cross-listed with CPR E). Cr. R. *Prereq: CPR E 394 or E E 394, credit or enrollment in CPR E 491 or E E 491*

Portfolio update and evaluation. Portfolios as a tool to enhance career opportunities.

E E 496. Modern Optics.

(Cross-listed with PHYS). (3-0) Cr. 3. S. *Prereq: Credit or enrollment in PHYS 322, PHYS 365, and PHYS 480*

Review of wave and electromagnetic theory; topics selected from: reflection/refraction, interference, geometrical optics, Fourier analysis, dispersion, coherence, Fraunhofer and Fresnel diffraction, holography, quantum optics, nonlinear optics.

E E 498. Cooperative Education.

Cr. R. Repeatable. F.S.SS. *Prereq: E E 398, permission of department and Engineering Career Services*

Third and subsequent professional work periods in the cooperative education programs. Students must register for this course before commencing work.

Courses primarily for graduate students, open to qualified undergraduates:**E E 501. Analog and Mixed-Signal VLSI Circuit Design Techniques.**

(Cross-listed with CPR E). (3-3) Cr. 4. F. *Prereq: E E 435*

Design techniques for analog and mixed-signal VLSI circuits. Amplifiers; operational amplifiers, transconductance amplifiers, finite gain amplifiers and current amplifiers. Linear building blocks; differential amplifiers, current mirrors, references, cascading and buffering. Performance characterization of linear integrated circuits; offset, noise, sensitivity and stability. Layout considerations, simulation, yield and modeling for high-performance linear integrated circuits.

E E 504. Power Management for VLSI Systems.

(Cross-listed with CPR E). (3-3) Cr. 4. *Prereq: E E 435, Credit or Registration for E E 501*

Theory, design and applications of power management and regulation circuits (Linear and switching regulators, battery chargers, and reference circuits) including: Architectures, Performance metrics and characterization, Noise and stability analysis, Practical implementation and on-chip integration issues, design considerations for portable, wireless, and RF SoCs.

E E 505. CMOS and BiCMOS Data Conversion Circuits.

(Cross-listed with CPR E). (3-3) Cr. 4. Alt. S., offered even-numbered years. *Prereq: E E 501*

Theory, design and applications of data conversion circuits (A/D and D/A converters) including: architectures, characterization, quantization effects, conversion algorithms, spectral performance, element matching, design for yield, and practical comparators, implementation issues.

E E 506. Design of CMOS Phase-Locked Loops.

(Cross-listed with CPR E). (3-3) Cr. 4. *Prereq: E E 435 or E E 501 or instructor approval*

Analysis and design of phase-locked loops implemented in modern CMOS processes including: architectures, performance metrics, and characterization; noise and stability analysis; and design issues of phase-frequency detectors, charge pumps, loop filters (passive and active), voltage controlled oscillators, and frequency dividers.

E E 507. VLSI Communication Circuits.

(Cross-listed with CPR E). (3-3) Cr. 4. Alt. S., offered odd-numbered years. *Prereq: CPR E 330 or CPR E 501*

Radio frequency integrated circuits for wireless and wired communications with a focus on CMOS implementations. Discussions on fundamental concepts in RF design such as nonlinearity, sensitivity, and dynamic range will be followed with a detailed analysis and design of low-noise amplifiers, mixer, oscillators, and transceivers.

E E 508. Filter Design and Applications.

(3-3) Cr. 4. *Prereq: E E 501*

Filter design concepts. Approximation and synthesis. Transformations. Continuous-time and discrete time filters. Discrete, active and integrated synthesis techniques.

E E 509. Mixed-Signal IC Testing and Built In Self Test.

(3-0) Cr. 3. *Prereq: E E 323 or equivalent and E E 435 or E E 501*

Introduction to mixed-signal IC testing; measurement uncertainty and test validity; IEEE standard test algorithms; high performance test and built-in self test challenges; new mixed-signal test algorithms and techniques to reduce data acquisition to relax instrumentation requirements, to simplify test setup, to improve test validity, and/or to enable co-testing of heterogeneous functions.

E E 510. Topics in Electromagnetics.

Cr. 1-3. Repeatable. *Prereq: E E 311*

E E 511. Modern Optical Communications.

(3-0) Cr. 3. S. *Prereq: E E 311*

Propagation in optical media. Optical fibers. Optical sources and detectors. Fiber optic communications systems. DWDM considerations.

E E 512. Advanced Electromagnetic Field Theory I.

(3-0) Cr. 3. F. *Prereq: E E 311*

Review of static electric and magnetic fields. Maxwell's equations. Circuit concepts and impedance elements. Propagation and reflection of plane waves in isotropic media. Guided electromagnetic wave. Characteristics of common waveguides and transmission lines. Propagation in anisotropic media. Special theorems and concepts. Radiation and scattering.

E E 513. Advanced Electromagnetic Field Theory II.

(3-0) Cr. 3. S. *Prereq: E E 512*

Green's functions, perturbational and variational techniques. Analysis of microstrip lines and interconnects. Spectral domain approach, waves in layered media. Integral equations and method of moments. Inverse scattering. Electromagnetic applications.

E E 514. Microwave Engineering.

(Dual-listed with E E 414). (3-3) Cr. 4. F. *Prereq: E E 230, E E 311*

Principles, analyses, and instrumentation used in the microwave portion of the electromagnetic spectrum. Wave theory in relation to circuit parameters. S parameters, couplers, discontinuities, and microwave device equivalent circuits. RF amplifier design, microwave sources, optimum noise figure and maximum power designs. Microwave filters and oscillators.

E E 516. Computational Methods in Electromagnetics.

(3-0) Cr. 3. S. *Prereq: E E 311*

Maxwell's equations. Differential equation based methods. Finite difference and finite difference time domain methods, boundary conditions. Finite element method and applications to the analysis of practical devices. Integral equation based methods. Electric and magnetic field integral equations. Matrix solvers. Fast solution methods.

E E 517. Electromagnetic Radiation, Antennas, and Propagation.

(Dual-listed with E E 417). (3-3) Cr. 4. S. *Prereq: E E 311*

Fundamental antenna concepts. Radiation from wire-and aperture-type sources. Radio transmission formulas. Wave and antenna polarization. Antenna arrays. Modern antenna topics. Practical antenna design. Antenna noise. Radiowave propagation in the presence of the earth and its atmosphere. Antenna measurements and computer-aided analysis.

E E 518. Microwave Remote Sensing.

(Cross-listed with AGRON, MTEOR). (3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: Math 265 or equivalent*

Microwave remote sensing of Earth's surface and atmosphere using satellite-based or ground-based instruments. Specific examples include remote sensing of atmospheric temperature and water vapor, precipitation, ocean salinity, and soil moisture.

E E 519. Magnetism and Magnetic Materials.

(Cross-listed with M S E). (3-0) Cr. 3. F. *Prereq: E E 311, MAT E 211 or E E 271 or E E 272 or PHYS 364*

Magnetic fields, flux density and magnetization. Magnetic materials, magnetic measurements. Magnetic properties of materials. Domains, domain walls, domain processes, magnetization curves and hysteresis. Types of magnetic order, magnetic phases and critical phenomena. Magnetic moments of electrons, theory of electron magnetism. Technological application, soft magnetic materials for electromagnets, hard magnetic materials, permanent magnets, magnetic recording technology, magnetic measurements of properties for materials evaluation.

E E 520. Selected Topics in Communications and Signal Processing.

(3-0) Cr. 3. Repeatable.

Space-time processing. Multiuser communications, Wireless Communications, Statistical signal processing. Pattern recognition. Coding theory. Multirate communications and signal processing. Signal processing and communications applications.

E E 521. Advanced Communications.

(3-0) Cr. 3. F. Prereq: E E 422, Coreq: E E 523

Digital communication systems overview. Characterization of communication channels. Digital modulation and demodulation design and performance analysis. Channel capacity and error-control coding concepts. Waveform design for band-limited channels. Equalization. Wireless fading channels and performance.

E E 523. Random Processes for Communications and Signal Processing.

(3-0) Cr. 3. Prereq: E E 322, MATH 317

Axioms of probability; Repeated trials; Functions of a random variable and multiple random variables: covariance matrix, conditional distribution, joint distribution, moments, and joint moment generating function; Mean square estimation; stochastic convergence; Some important stochastic processes: Random walk, Poisson, Wiener, and shot noise; Markov chains; Power spectral analysis; Selected applications.

E E 524. Digital Signal Processing.

(3-0) Cr. 3. F. Prereq: E E 322, E E 424, MATH 317

Review: sampling and reconstruction of signals; discrete-time signals, systems, and transforms. Multi-rate digital signal processing and introduction to filter banks. Optimal linear filtering and prediction. Introductions to adaptive filtering and spectral estimation. Applications.

E E 527. Detection and Estimation Theory.

(3-0) Cr. 3. S. Prereq: E E 422

Statistical estimation theory and performance measures: maximum likelihood estimation, Cramer-Rao bound, Bayesian estimation, optimal demodulation, signal design. Introduction to graphical models. Hidden Markov models and Kalman filter. Classical statistical decision theory, decision criteria, binary and composite hypothesis tests. Error probability and Chernoff bound. Applications.

E E 528. Digital Image Processing.

(3-0) Cr. 3. S. Prereq: E E 322, E E 424

Review of sampling, linear algebra and probability. Classical image processing topics such as image sampling and quantization, image transforms (2D Fourier, KLT, DCT, etc), image enhancement, restoration and filtering. Image analysis topics including edge detection, segmentation, registration and tracking (uses least squares estimation, EM, Kalman filter). Medical image reconstruction from tomographic projections (Radon transform, Fourier slice theorem and reconstruction algorithms using them) and Magnetic Resonance Imaging (MRI). Basic introduction to image and video compression methods.

E E 530. Selected Topics in Electronics, Microelectronics and Photonics.

(3-0) Cr. 3. Repeatable. Prereq: E E 332

E E 532. Microelectronics Fabrication Techniques.

(Dual-listed with E E 432). (2-4) Cr. 4. Prereq: PHYS 222, MATH 267. E E 332 or MAT E 334 recommended

Techniques used in modern integrated circuit fabrication, including diffusion, oxidation, ion implantation, lithography, evaporation, sputtering, chemical-vapor deposition, and etching. Process integration. Process evaluation and final device testing. Extensive laboratory exercises utilizing fabrication methods to build electronic devices. Use of computer simulation tools for predicting processing outcomes. Recent advances in processing CMOS ICs and micro-electro-mechanical systems (MEMS).

E E 535. Physics of Semiconductors.

(Cross-listed with PHYS). (3-3) Cr. 4. Prereq: E E 311 and E E 332

Basic elements of quantum theory, Fermi statistics, motion of electrons in periodic structures, crystal structure, energy bands, equilibrium carrier concentration and doping, excess carriers and recombination, carrier transport at low and high fields, space charge limited current, photo-conductivity in solids, phonons, optical properties, amorphous semiconductors, heterostructures, and surface effects. Laboratory experiments on optical properties, carrier lifetimes, mobility, defect density, doping density, photo-conductivity, diffusion length of carriers.

E E 536. Physics of Semiconductor Devices.

(Cross-listed with PHYS). (3-0) Cr. 3. Prereq: E E 535

P-n junctions, band-bending theory, tunneling phenomena, Schottky barriers, heterojunctions, bipolar transistors, field-effect transistors, negative-resistance devices and optoelectronic devices.

E E 538. Optoelectronic Devices and Applications.

(Dual-listed with E E 438). (3-0) Cr. 3. Prereq: E E 311 or E E 332

Transmission and reflection of electromagnetic plane waves. Propagation in dielectric and fiber optic waveguides. Led and laser operating principles and applications. Photodetectors and solar cells. Optical modulation and switching.

E E 539. Electronic Properties of Materials.

(Cross-listed with M S E). (3-0) Cr. 3. Prereq: E E 332 or MAT E 331 or PHYS 322

Review of classical and quantum mechanical descriptions of electrons in solids, band theory, metallic conduction, lattice vibrations, semiconductors, semiconductor devices, dielectrics, polarization, dielectric relaxation, crystal anisotropy, ferroelectricity, piezoelectricity, superconductivity, magnetism, device applications.

E E 547. Pattern Recognition.

(3-0) Cr. 3. F. Prereq: E E 324

Mathematical formulation of pattern recognition problems and decision functions. Statistical approaches: Bayes classifier, probability density function estimation and expectation minimization. Clustering (supervised and unsupervised), learning, and neural network algorithms. Fuzzy recognition systems. Feature selection systems. Classifier comparison. Current applications.

E E 553. Steady State Analysis.

(3-0) Cr. 3. F. Prereq: E E 456, E E 457

Power flow, economic dispatch, unit commitment, electricity markets, automatic generation control, sparse matrix techniques, interconnected operation, voltage control.

E E 554. Power System Dynamics.

(3-0) Cr. 3. S. Prereq: E E 456, E E 457, E E 475

Dynamic performance of power systems with emphasis on stability. Modeling of system components and control equipment. Analysis of the dynamic behavior of the system in response to small and large disturbances.

E E 555. Advanced Energy Distribution Systems.

(3-0) Cr. 3. Prereq: E E 455

Transient models of distribution components, automated system planning and distribution automation, surge protection, reliability, power quality, power electronics and intelligent systems applications.

E E 556. Power Electronic Systems.

(3-0) Cr. 3. Prereq: E E 452

Converter topologies, AC/DC, DC/DC, DC/AC, AC/AC. Converter applications to do motor drives, power supplies, AC motor drives, power system utility applications (var compensators) and power quality.

E E 559. Electromechanical Wing Energy Conversion and Grid Integration.

(Dual-listed with E E 459). (3-0) Cr. 3. Prereq: Credit or enrollment in E E 452, E E 456

Summary of industry status and expected growth; power extraction from the air stream; operation and modeling of electric machines, and power electronics topologies for wind energy conversion; analysis of machine-grid power electronic circuits, controller interface, and collector (distribution) networks; treatment of harmonics, flicker, over/under-voltages, filters, low-voltage ride-through, and reactive compensation; relaying; effects on transmission expansion, planning and grid operation and coordination including variability, frequency control, reserves, and electricity markets; overview of storage technologies and hybrid configurations.

E E 565. Systems Engineering and Analysis.

(Cross-listed with AER E, I E). (3-0) Cr. 3. Prereq: Coursework in basic statistics

Introduction to organized multidisciplinary approach to designing and developing systems. Concepts, principles, and practice of systems engineering as applied to large integrated systems. Life cycle costing, scheduling, risk management, functional analysis, conceptual and detail design, test and evaluation, and systems engineering planning and organization. Not available for degrees in industrial engineering.

E E 566. Avionics Systems Engineering.

(Cross-listed with AER E). (3-0) Cr. 3. S. Prereq: E E 565

Avionics functions. Applications of systems engineering principles to avionics. Top down design of avionics systems. Automated design tools.

E E 570. Systems Engineering Analysis and Design.

(3-0) Cr. 3. Prereq: E E 475, E E 577

Selected topics in abstract algebra, linear algebra, real analysis, functional analysis, and optimization methods in electrical engineering.

E E 571. Introduction to Convex Optimization.

(3-0) Cr. 3.

Introduction to convex optimization problems emerging in electrical engineering. Efficiently solving convex optimization problems with the use of interior point algorithms software. Review of linear algebra, convex functions, convex sets, convex optimization problems, duality, disciplined convex programming, applications to optimal filtering, estimation, control and resources allocations, sensor network, distributed systems.

E E 573. Random Signal Analysis and Kalman Filtering.(Cross-listed with AER E, M E). (3-0) Cr. 3. F. *Prereq: E E 324 or AER E 331 or M E 370 or M E 411 or MATH 341*

Elementary notions of probability. Random processes. Autocorrelation and spectral functions. Estimation of spectrum from finite data. Response of linear systems to random inputs. Discrete and continuous Kalman filter theory and applications. Smoothing and prediction. Linearization of nonlinear dynamics.

E E 574. Optimal Control.(Cross-listed with AER E, M E). (3-0) Cr. 3. S. *Prereq: E E 577*

The optimal control problem. Variational approach. Pontryagin's principle, Hamilton-Jacobi equation. Dynamic programming. Time-optimal, minimum fuel, minimum energy control systems. The regulator problem. Structures and properties of optimal controls.

E E 575. Introduction to Robust Control.(Cross-listed with AER E, M E). (3-0) Cr. 3. *Prereq: E E 577*

Introduction to modern robust control. Model and signal uncertainty in control systems. Uncertainty description. Stability and performance robustness to uncertainty. Solutions to the H₂, H_∞, and L₁ control problems. Tools for robustness analysis and synthesis.

E E 576. Digital Feedback Control Systems.(Cross-listed with AER E, M E). (3-0) Cr. 3. F. *Prereq: E E 475 or AER E 432 or M E 411 or 414 or MATH 415; and MATH 267*

Sampled data, discrete data, and the z-transform. Design of digital control systems using transform methods: root locus, frequency response and direct design methods. Design using state-space methods. Controllability, observability, pole placement, state estimators. Digital filters in control systems. Microcomputer implementation of digital filters. Finite wordlength effects. Linear quadratic optimal control in digital control systems. Simulation of digital control systems.

E E 577. Linear Systems.(Cross-listed with AER E, M E, MATH). (3-0) Cr. 3. F. *Prereq: E E 324 or AER E 331 or MATH 415; and MATH 307*

Linear algebra review. Least square method and singular value decomposition. State space modeling of linear continuous-time systems. Solution of linear systems. Controllability and observability. Canonical description of linear equations. Stability of linear systems. State feedback and pole placements. Observer design for linear systems.

E E 578. Nonlinear Systems.(Cross-listed with AER E, M E, MATH). (3-0) Cr. 3. S. *Prereq: E E 577*

Linear vs nonlinear systems. Phase plane analysis. Bifurcation and center manifold theory. Lyapunov stability. Absolute stability of feedback systems. Input-output stability. Passivity theory and feedback linearization. Nonlinear control design techniques.

E E 588. Eddy Current Nondestructive Evaluation.(Dual-listed with E E 488). (Cross-listed with M S E). (3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq: MATH 265 and (MAT E 216 or MAT E 272 or E E 311 or PHYS 364)*

Electromagnetic fields of various eddy current probes. Probe field interaction with conductors, cracks and other material defects. Ferromagnetic materials. Layered conductors. Elementary inversion of probe signals to characterize defects. Special techniques including remote-field, transient, potential drop nondestructive evaluation and the use of Hall sensors. Practical assignments using a 'virtual' eddy current instrument will demonstrate key concepts.

E E 590. Special Topics.

Cr. 1-6. Repeatable.

Formulation and solution of theoretical or practical problems in electrical engineering.

E E 590A. Special Topics: Electromagnetic Theory.

Cr. 1-6. Repeatable.

Formulation and solution of theoretical or practical problems in electrical engineering.

E E 590B. Special Topics: Control Systems.

Cr. 1-6. Repeatable.

Formulation and solution of theoretical or practical problems in electrical engineering.

E E 590C. Special Topics: Communication Systems.

Cr. 1-6. Repeatable.

Formulation and solution of theoretical or practical problems in electrical engineering.

E E 590E. Special Topics: Computer Engineering.

Cr. 1-6. Repeatable.

Formulation and solution of theoretical or practical problems in electrical engineering.

E E 590F. Special Topics: Electric Power.

Cr. 1-6. Repeatable.

Formulation and solution of theoretical or practical problems in electrical engineering.

E E 590G. Special Topics: Electrical Materials.

Cr. 1-6. Repeatable.

Formulation and solution of theoretical or practical problems in electrical engineering.

E E 590H. Special Topics: Electronic Devices and Circuits.

Cr. 1-6. Repeatable.

Formulation and solution of theoretical or practical problems in electrical engineering.

E E 590I. Special Topics: Signal Processing.

Cr. 1-6. Repeatable.

Formulation and solution of theoretical or practical problems in electrical engineering.

E E 591. Seminar in Electronics, Microelectronics, and Photonics.

Cr. 1-3. Repeatable.

E E 594. Seminar in Electric Power.

Cr. 1-3. Repeatable.

E E 596. Seminar in Control Systems.

Cr. 1-3. Repeatable.

E E 597. Seminar in Communications and Signal Processing.

Cr. 1. Repeatable.

Offered on a satisfactory-fail basis only.

E E 599. Creative Component.

Cr. arr. Repeatable.

Courses for graduate students:**E E 621. Coding Theory.**(3-0) Cr. 3. *Prereq: E E 521*

Fundamentals of error-control coding techniques: coding gain, linear block codes. Galois fields. Cyclic codes: BCH, Reed-Solomon. Convolutional codes and the Viterbi algorithm. Trellis-coded modulation. Iterative decoding. Recent developments in coding theory.

E E 622. Information Theory.(3-0) Cr. 3. *Prereq: E E 521, E E 523*

Information system overview. Entropy and mutual information. Data Compression and source encoding. Discrete memoryless channel capacity. Noisy channel coding theorem. Rate distortion theory. Waveform channels. Advanced topics in information theory.

E E 653. Advanced Topics in Electric Power System Engineering.(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*

Advanced topics of current interest in electric power system engineering.

E E 674. Advanced Topics in Systems Engineering.(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*

Advanced topics of current interest in the areas of control theory, stochastic processes, digital signal processing, and image processing.

E E 697. Engineering Internship.

(Cross-listed with CPR E). Cr. R. Repeatable.

One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

E E 699. Research.

Cr. arr. Repeatable.

Engineering

Most of the courses with the designator of Engr are broad-based engineering courses applicable to all engineering disciplines. Several of these courses are part of the basic program which is required for engineering students. All courses are administered by the college and with the exception of ENGR 160 Engineering Problems with Computer Applications Laboratory, ENGR 340 Introduction to Wind Energy: System Design & Delivery, ENGR 466 Multidisciplinary Engineering

Design and ENGR 467 Multidisciplinary Engineering Design II Multidisciplinary Engineering Design II are coordinated through Engineering Student Services in Engineering Academic and Student Affairs.

ENGR 160	Engineering Problems with Computer Applications Laboratory	3
ENGR 340	Introduction to Wind Energy: System Design & Delivery	3
ENGR 466	Multidisciplinary Engineering Design	3
ENGR 467	Multidisciplinary Engineering Design II	3

Courses primarily for undergraduates:

ENGR 101. Engineering Orientation.

Cr. R. F.S.

Introduction to the College of Engineering and the engineering profession. Information concerning university and college policies, procedures, and resources. Undeclared sections: Considerations in choosing an engineering curriculum. Opportunities to interact with departments. Declared sections: Introduction to major-specific topics. Offered on a satisfactory-fail basis only.

ENGR 104. LEAD Program Orientation.

(1-0) Cr. 1. F.

Orientation for LEAD Learning/Living Community participants. Introduction to college and university resources, tools and techniques to promote academic, professional and social/cultural development and success. Focus on building support networks with peers, faculty, and staff. Introduction to core engineering competencies including but not limited to initiative, communication, teamwork, and cultural adaptability. Offered on a satisfactory-fail basis only.

ENGR 105. LEAD Program Seminar.

(1-0) Cr. 1. S.

Seminar for LEAD Learning/Living Community participants. Focus on professional development and exposure to various engineering disciplines through hands-on lab experiences, industry visits and networking opportunities with alumni, faculty, and staff. Development of core competencies: engineering/technical knowledge, communication and teamwork. Offered on a satisfactory-fail basis only.

ENGR 131. Learning Community Seminar.

Cr. R. F.S.

Peer-mentored review of course topics in engineering undeclared learning communities. Offered on a satisfactory-fail basis only.

ENGR 150. Foundations of Leadership Development and Learning.

(1-0) Cr. 1. F.S. Prereq: ELP students only

Leadership development with focus on global context and awareness of events shaping the context. Exposure to theory of leadership with examples. Necessary characteristics of a leader, and strategies for leadership skills development. Exposure to non-traditional career paths for engineers. Outline of personalized leadership development. Offered on a satisfactory-fail basis only.

ENGR 160. Engineering Problems with Computer Applications Laboratory.

(2-2) Cr. 3. F.S.SS. Prereq: MATH 142 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165

Solving engineering problems and presenting solutions through technical reports. Significant figures. Use of SI units. Graphing and curve-fitting. Flowcharting. Introduction to mechanics, statistics and engineering economics. Use of spreadsheet programs to solve and present engineering problems. Solution of engineering problems using computer programming languages. (The honors section includes application of programming to mobile robotics).

ENGR 160H. Engineering Problems with Computer Applications Laboratory, Honors. F.

(2-2) Cr. 3. F.S.SS. Prereq: Satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 142, MATH 165

Solving engineering problems and presenting solutions through technical reports. Significant figures. Use of SI units. Graphing and curve-fitting. Flowcharting. Introduction to mechanics, statistics and engineering economics. Use of spreadsheet programs to solve and present engineering problems. Solution of engineering problems using computer programming languages. (The honors section includes application of programming to mobile robotics).

ENGR 260. Engineering: Getting from Thought to Thing.

(3-0) Cr. 3. F.S.

What is engineering, technology and their roles in society? Investigation of engineering methods through case studies of everyday objects. Explore questions about the impact of technology in society. Apply engineering methods to design and failure analysis.

ENGR 265. Survey of the Impacts of Engineering Activity.

(3-0) Cr. 3. F.S.

Survey of the economic, environmental, societal, and political benefits and problems resulting from engineering activity. Effects of engineering projects on human health, social structures, and the environment. Examination of improvements in economic opportunities and quality of life resulting from engineering activity. Case studies of the effects of engineering activity.

ENGR 270. Survey of How Things Work.

(3-0) Cr. 3. F.S.

Removing mysteries surrounding science and technology. Identify key concepts from applied science and technology to obtain better understanding on how things work. Review and explain the principles behind the technologies which define our modern way of life. A survey of broad range of technology could include: cell phones, GPS, radio, television, computers, ultrasound, microwave ovens, automobile, bioengineering and other industrial and consumer technologies. Common day technology examples illustrating scientific knowledge and applications.

ENGR 320. International Experience Report.

Cr. 3. F.S. Prereq: Satisfactory completion of international work experience of at least ten weeks or nine credits of approved course work taken abroad. Permission of student's department prior to departure

Critique of work/study abroad experience as it relates to professional development. Taken the semester after completion of work abroad or study abroad. Written report and presentation. Offered on a satisfactory-fail basis only. Meets International Perspectives Requirement.

ENGR 327. Voices of Public Policy.

(3-0) Cr. 3. F. Prereq: Sophomore classification in engineering

Role and impact of legislative process, partisan politics, government, lobbyists, the media, expert testimony and grassroots activism on public policy. Critical analysis of context; of claims, assumptions, premises, and evidence of both sides; represented and disenfranchised populations; the ethical issues to develop personal position and courses of action to impact public policy process.

ENGR 340. Introduction to Wind Energy: System Design & Delivery.

(3-0) Cr. 3. F. Prereq: MATH 166, PHYS 222

Introduction to wind energy. Economic analysis related to wind energy. Electrical power generation, transmission, and grid operations. Tower, blade and nacelle materials and manufacturing. Tower design. Construction, transportation, supply chain and life cycle analysis for wind turbine components.

ENGR 350. Dean's Leadership Seminar.

(1-0) Cr. 1. F.S. Prereq: Selection based on demonstrated commitment to leadership development. Sophomore or higher.

Understanding the complexities of leadership in building an organization, decision-making styles, communication, managing change, building trust, shared responsibility leadership, creating legacy, prioritizing, effective use of authority, conflict, ethics, integrity, transparency, accountability. Offered on a satisfactory-fail basis only. May not apply toward a degree in Engineering

ENGR 396. Summer Internship.

Cr. R. Repeatable. SS. Prereq: Permission of adviser and Engineering Career Services

Professional or interdisciplinary work period in engineering or career-related field of a minimum of 10 weeks during the summer. Offered on a satisfactory-fail basis only.

ENGR 397. Professional Internship.

Cr. R. F.S.SS. Prereq: Permission of adviser and Engineering Career Services

Professional or interdisciplinary work period in engineering or career-related field. Enrollment limited to one semester and/or one summer per academic year. Offered on a satisfactory-fail basis only.

ENGR 466. Multidisciplinary Engineering Design.

(Cross-listed with A B E, AER E, CPR E, E E, I E, M E, MAT E). (1-4) Cr. 3. Repeatable. F.S. Prereq: Student must be within two semesters of graduation; permission of instructor.

Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing, and life cycle considerations. Application of design tools such as CAD, CAM, and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations and computer models and engineering drawings.

ENGR 467. Multidisciplinary Engineering Design II.

(Cross-listed with AER E, CPR E, E E, I E, M E, MAT E). (1-4) Cr. 3. Repeatable, maximum of 2 times. F.S. *Prereq: Student must be within two semesters of graduation or receive permission of instructor.*

Build and test of a conceptual design. Detail design, manufacturability, test criteria and procedures. Application of design tools such as CAD and CAM and manufacturing techniques such as rapid prototyping. Development and testing of a full-scale prototype with appropriate documentation in the form of design journals, written reports, oral presentations and computer models and engineering drawings.

ENGR 490E. Entrepreneurship.

Cr. 1-3. Repeatable, maximum of 3 credits. *Prereq: Junior or senior classification in engineering, college approval*

ENGR 490L. Independent Study.

Cr. 1-3. Repeatable, maximum of 3 credits. F.S.SS. Leadership.

Engineering Mechanics

Administered by the Department of Aerospace Engineering

Undergraduate Study

The undergraduate courses in mechanics are intermediate between those in physics and mathematics and the professional and design courses of the several engineering curricula. In these courses the student is expected to acquire an understanding of the basic principles and analysis techniques pertaining to the static and dynamic behavior of rigid media, deformable solids, fluids, and gasses. Physical properties of engineering materials are studied in the classroom and are tested in the laboratory. General physical laws are given mathematical expression and are made suitable for use in the solution of specific problems in machine and structural design, and in the flow and measurement of fluids.

Graduate Study

The department offers graduate programs that lead to the degrees master of science, master of engineering, and doctor of philosophy with major in engineering mechanics, and minor work to students taking major work in other departments.

The master of science degree requires a thesis and has strong research emphasis. The master of science degree is recommended for students who anticipate entering a doctoral program later. The master of engineering degree does not require either research credits or a thesis. The program is intended to give students additional instruction at the graduate level to better qualify them for advanced professional engineering work. By careful selection of electives and perhaps additional courses during the senior undergraduate year, students should be able to qualify for the master of engineering degree with an additional year of full-time study after receiving their baccalaureate degree in one of the several engineering curricula.

The master of engineering degree does require a creative component which will be obtained by registering for E M 599 Creative Component. A written report and an oral presentation will be given to the student's graduate committee.

At least 30 credits of acceptable graduate work are required for both the master of science and the master of engineering degrees. For specific course, research, and creative component requirements, see the departmental Graduate Student Handbook (<http://www.aere.iastate.edu/wp-content/blogs.dir/13/files/2011/09/Graduate-Handbook-Fall-2011.pdf>).

The normal prerequisite to major graduate work is the completion of a curriculum substantially equivalent to that required of undergraduate students in engineering at this university. However, because of the diversity of interests in graduate work in engineering mechanics, it is possible for a student to qualify for graduate study even though undergraduate or prior graduate training has been in a discipline other than engineering—e.g., physics or mathematics.

Courses primarily for undergraduates:

E M 274. Statics of Engineering.

(3-0) Cr. 3. F.S.SS. *Prereq: Credit or enrollment in MATH 166; credit or enrollment in PHYS 111 or PHYS 221*

Vector and scalar treatment of coplanar and noncoplanar force systems. Resultants, equilibrium, friction, centroids, second moments of areas, principal second moments of area, radius of gyration, internal forces, shear and bending moment diagrams.

E M 274H. Statics of Engineering: Honors.

(3-0) Cr. 3. F.S.SS. *Prereq: Credit or enrollment in MATH 166; credit or enrollment in PHYS 111 or PHYS 221*

Vector and scalar treatment of coplanar and noncoplanar force systems. Resultants, equilibrium, friction, centroids, second moments of areas, principal second moments of area, radius of gyration, internal forces, shear and bending moment diagrams.

E M 324. Mechanics of Materials.

(3-0) Cr. 3. F.S.SS. *Prereq: E M 274*

Plane stress, plane strain, stress-strain relationships, and elements of material behavior. Application of stress and deformation analysis to members subject to centric, torsional, flexural, and combined loadings. Elementary considerations of theories of failure, buckling.

E M 327. Mechanics of Materials Laboratory.

(0-2) Cr. 1. F.S.SS. *Prereq: Credit or enrollment in E M 324*

Experimental determination of mechanical properties of selected engineering materials. Experimental verification of assumptions made in 324. Use of strain measuring devices. Preparation of reports.

E M 345. Dynamics.

(3-0) Cr. 3. F.S.SS. *Prereq: E M 274, credit or enrollment in MATH 266 or MATH 267*

Particle and rigid body kinematics, Newton's laws of motion, kinetics of plane motion, rigid body problems using work-energy, linear, and angular impulse-momentum principles, vibrations.

E M 350. Introduction to Nondestructive Evaluation Engineering.

(3-0) Cr. 3. S. *Prereq: E M 324, MATH 266 or MATH 267, PHYS 222*

The physics of ultrasonic, eddy current, and x-ray testing. Introduction to linear system concepts, wave propagation, electromagnetics and radiation. Models of the generation, scattering and reception of waves in ultrasonics, the electrical impedance changes of eddy current testing, and image formation process for x-rays. Pattern recognition methods for the interpretation of measured responses.

E M 362. Principles of Nondestructive Testing.

(Cross-listed with MAT E). (3-0) Cr. 3. S. *Prereq: PHYS 112 or PHYS 222*

Radiography, ultrasonic testing, magnetic particle inspection, eddy current testing, dye penetrant inspection, and other techniques. Physical bases of tests; materials to which applicable; types of defects detectable; calibration standards, and reliability safety precautions.

E M 362L. Nondestructive Testing Laboratory.

(Cross-listed with MAT E). (0-3) Cr. 1. S. *Prereq: Credit or enrollment in MAT E 362*

Application of nondestructive testing techniques to the detection and sizing of flaws in materials and to the characterization of material's microstructure. Included are experiments in hardness, dye penetrant, magnetic particle, x-ray, ultrasonic and eddy current testing. Field trips to industrial laboratories.

E M 378. Mechanics of Fluids.

(2-2) Cr. 3. F.S.SS. *Prereq: E M 274*

Properties of fluids. Fluid statics. Kinematics and kinetics of fluid flow. Mass, momentum, and energy conservation laws; dimensional analysis; flow in pipes and channels. Selected laboratory experiments.

E M 417. Experimental Mechanics.

(Cross-listed with AER E). (2-2) Cr. 3. Alt. F., offered even-numbered years.

Prereq: E M 324

Introduction of different aspects of measuring deformation, strains, and stress for practical engineering problems. Strain gage theory and application. Selected laboratory experiments.

E M 424. Intermediate Mechanics of Materials.

(3-0) Cr. 3. F.S. *Prereq: E M 324*

Analysis of stresses, strains, and deflections. Torsion and bending of unsymmetrical members. Analysis of thick wall pressure vessels and shrink fit problems. Dynamic load effects, fatigue and fracture mechanics introduction. Work-strain energy methods.

E M 425. Introduction to the Finite Element Method.

(3-0) Cr. 3. S. *Prereq: E M 324, MATH 266 or MATH 267*

Introduction of finite element analysis through applications to one-dimensional, steady-state problems such as elastic deformation, heat and fluid flow, consolidation, beam bending, and mass transport. Transient heat conduction and wave propagation. Two-dimensional triangular and quadrilateral elements. Plane problems of torsion, thermal and potential flow, stress analysis. Simple computer programs for one- and two-dimensional problems.

E M 451. Engineering Acoustics.

(Cross-listed with M E). (2-2) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* PHYS 221 and MATH 266 or MATH 267

Properties of sound waves and noise metrics (pressure, power levels, etc). Sound sources and propagation. Principles of wave propagation in one-, two-, and three-dimensions. Wave reflection and transmission. Wave propagation in rectangular, cylindrical, and annular ducts. Acoustics fields for model noise sources. Introduction to aerodynamic noise sources in aircraft, aircraft engines, and wind turbines. Selected laboratory experiments.

E M 490. Independent Study.

Cr. arr. Repeatable. *Prereq:* Permission of instructor

E M 490H. Independent Study: Honors.

Cr. arr. Repeatable. *Prereq:* Permission of instructor

Courses primarily for graduate students, open to qualified undergraduates:**E M 510. Continuum Mechanics.**

(3-0) Cr. 3. F. *Prereq:* MATH 385

Introduction to Cartesian tensors as linear vector transformations. Kinematics of continuous deformations, Lagrangian and Eulerian descriptions of motion. Fundamental equations or balance laws of continuous media, linear and angular momentum balance. Conservation laws of momentum and energy. Introduction to constitutive equations of classical elastic solids and simple fluids. Formulations and solutions of some canonical problems.

E M 514. Advanced Mechanics of Materials.

(Cross-listed with AER E). (3-0) Cr. 3. F. *Prereq:* E M 324

Theory of stress and strain, stress-strain relationships. Unsymmetrical bending, curved beams, shear center. Torsion of thin-walled noncircular sections. Equilibrium, compatibility equations. Airy stress functions. Membrane stresses in shells, thick-walled cylinders.

E M 516. Applied Elasticity and Mechanics of Deformable Solids.

(3-0) Cr. 3. S. *Prereq:* E M 510

Fundamental mechanics of linear elasticity, formulation and solution of simple elastostatic boundary value problems. Kinematics of small deformations, constitutive equations for isotropic and anisotropic media. Field equations for elastic solids, plane strain/plane stress and some classic analytical solutions such as Boussinesq, Hertz, Kirsch, Lamé, and Mitchell. Stress functions and potential methods and introduction to finite elements.

E M 517. Experimental Mechanics.

(Cross-listed with AER E). (3-2) Cr. 4. Alt. S., offered even-numbered years.

Prereq: E M 510 or E M 514 or E M 516

Fundamental concepts for force, displacement, stress, and strain measurements. Strain gages. Full field deformation measurements with laser interferometry and digital image processing. Advanced experimental concepts at the micro and nano scale regimes.

E M 518. Waves in Elastic Solids with Applications to Ultrasonic Nondestructive Evaluation.

(3-0) Cr. 3. F. *Prereq:* MATH 385

Propagation of bulk waves, surface waves, and guided waves in isotropic and anisotropic elastic media. Transmission and reflection of waves at plane and curved interfaces. Radiation of sources with application to ultrasonic transducer beam modeling. Elastic wave scattering from cracks and inclusions. Reciprocity principles and their use in the development of an ultrasonic measurement model. Characterization and measurement of material attenuation.

E M 525. Finite Element Analysis.

(Cross-listed with AER E). (3-0) Cr. 3. S. *Prereq:* E M 425, MATH 385

Variational and weighted residual approach to finite element equations. Emphasis on two- and three-dimensional problems in solid mechanics. Isoparametric element formulation, higher order elements, numerical integration, imposition of constraints and penalty, convergence, and other more advanced topics. Use of two- and three-dimensional computer programs. Dynamic and vibrational problems, eigenvalues, and time integration. Introduction to geometric and material nonlinearities.

E M 526. Boundary Element Methods in Engineering.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* E M 514 or E M 516

Introductory boundary element methods through plane problems. Singular integrals, Cauchy principal values, integral representations and boundary integrals in one dimension. Direct and indirect formulations. Plane potential and elastostatic problems. Higher order elements, numerical integration. Regularizations. Body forces and infinite regions. Specialized fundamental solutions, half-plane and axisymmetric problems. Diffusion and wave problems. Coupling with finite elements.

E M 543. Introduction to Random Vibrations and Nonlinear Dynamics.

(Cross-listed with M E). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* 444

Vibrations of continuous systems. Nonlinear vibration phenomena, perturbation expansions; methods of multiple time scales and slowly-varying amplitude and phase. Characteristics of random vibrations; random processes, probability distributions, spectral density and its significance, the normal or Gaussian random process. Transmission of random vibration, response of simple single and two-degree-of-freedom systems to stationary random excitation. Fatigue failure due to random excitation.

E M 548. Advanced Engineering Dynamics.

(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* E M 345, MATH 266 or MATH 267

3-D kinematics and dynamics of particles and rigid bodies. Coordinate systems, calculus of variations. Lagrange's equations with constraints, modified Euler's equations, torque-free motion of rigid bodies in 3-D, moment equations with constraints.

E M 550. Fundamentals of Nondestructive Evaluation.

(Cross-listed with M S E). (3-2) Cr. 4. S. *Prereq:* E M 324, MATH 385

Principles of five basic NDE methods and their application in engineering inspections. Materials behavior and simple failure analysis. NDE reliability, and damage-tolerant design. Advanced methods such as acoustic microscopy, laser ultrasonics, thermal waves, computed tomography, and thermoelectrics are analyzed. Laboratory experiments on all basic methods: ultrasonics, eddy currents, x-ray, liquid penetrants, magnetic testing, and visual inspection are performed.

E M 552. Advanced Acoustics.

(Cross-listed with M E). (3-0) Cr. 3. F. *Prereq:* E M 451

Theoretical acoustics: wave propagation in fluids; acoustic radiation, diffraction and scattering; nonlinear acoustics; radiation force; cavitation; and ray acoustics.

E M 564. Fracture and Fatigue.

(Cross-listed with AER E, M E, M S E). (3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* E M 324 and either MAT E 216 or MAT E 273 or MAT E 392.

Undergraduates: Permission of instructor

Materials and mechanics approach to fracture and fatigue. Fracture mechanics, brittle and ductile fracture, fracture and fatigue characteristics, fracture of thin films and layered structures. Fracture and fatigue tests, mechanics and materials designed to avoid fracture or fatigue.

E M 566. Phase Transformation in Elastic Materials.

(Cross-listed with M E). (3-0) Cr. 3. S. *Prereq:* E M 510 or E M 516 or E M 514

Continuum thermodynamics and kinetics approaches to phase transformations. Phase field approach to stress- and temperature-induced martensitic transformations and twinning at the nanoscale. Nucleation and growth. Nanostructural evaluation. Analytical and numerical solutions. Surface stresses and energy. Surface-induced phase transformations. Large Strain formulation.

E M 569. Mechanics of Composite and Combined Materials.

(Cross-listed with AER E, M S E). (3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* E M 324

Mechanics of fiber-reinforced materials. Micromechanics of lamina. Macromechanical behavior of lamina and laminates. Strength and interlaminar stresses of laminates. Failure criteria. Stress analysis of laminates. Thermal moisture and residual stresses. Joints in composites.

E M 570. Wind Engineering.

(Cross-listed with AER E). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

Prereq: E M 378, E M 345

Atmospheric circulations, atmospheric boundary layer wind, bluff-body aerodynamics, aeroelastic phenomena, wind-tunnel and full-scale testing, wind-load code and standards, effect of tornado and thunderstorm winds, design applications.

E M 590. Engineering Mechanics Independent Study.

Cr. 1-4. Repeatable. *Prereq:* Permission of instructor

E M 590F. Engineering Mechanics Independent Study: Introduction to Dislocation and Plasticity.

Cr. 1-4. Repeatable. *Prereq:* Permission of instructor

E M 590H. Engineering Mechanics Independent Study: Mechanics of Thin Films and Adhesives.

Cr. 1-4. Repeatable. *Prereq:* Permission of instructor

E M 590I. Engineering Mechanics Independent Study: Mechanics of Cellular and Porous Media.

Cr. 1-4. Repeatable. *Prereq:* Permission of instructor

E M 590J. Engineering Mechanics Independent Study: Other.

Cr. 1-4. Repeatable. *Prereq:* Permission of instructor

E M 599. Creative Component.

Cr. arr. Repeatable.

Courses for graduate students:**E M 690. Engineering Mechanics Independent Study.**Cr. 1-6. Repeatable. *Prereq: Permission of instructor***E M 690N. Engineering Mechanics Independent Study: Advanced Experimental Methods.**Cr. 1-6. Repeatable. *Prereq: Permission of instructor***E M 690O. Engineering Mechanics Independent Study: Advanced Wave Propagation.**Cr. 1-6. Repeatable. *Prereq: Permission of instructor***E M 690P. Engineering Mechanics Independent Study: Advanced Materials.**Cr. 1-6. Repeatable. *Prereq: Permission of instructor***E M 690Q. Engineering Mechanics Independent Study: Advanced Computational Methods.**Cr. 1-6. Repeatable. *Prereq: Permission of instructor***E M 690R. Engineering Mechanics Independent Study: Reliability and Failure.**Cr. 1-6. Repeatable. *Prereq: Permission of instructor***E M 690S. Engineering Mechanics Independent Study: Other.**Cr. 1-6. Repeatable. *Prereq: Permission of instructor***E M 697. Engineering Internship.**Cr. R. Repeatable. *Prereq: Permission of DOGE (Director of Graduate Education), graduate classification*

One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

E M 699. Research.

Cr. arr. Repeatable.

Engineering Studies

Interdepartmental minor

The College of Engineering offers an undergraduate minor in engineering studies for non-engineering students designed to improve their understanding of engineering. This minor is not intended to train non-engineering students to do the work of practicing, degree-holding engineers. Rather, students who complete the minor in engineering studies will be able to work more effectively in their primary field by better appreciating the nature, capabilities, and limitations of engineering.

The minor in engineering studies is structured so that no student will be excluded due to insufficient preparation in mathematics or the sciences. The required courses in the minor and many of the elective courses are specifically designed to offer a range of prerequisites, so that students from all curricula will find coursework that supports an accessible and intellectually stimulating program of study.

The minor in engineering studies will be awarded only to students whose degree program is not in engineering.

Twelve additional credits from an approved list of eligible courses. Some of these approved courses are taught by the College of Engineering; additional courses are taught by other colleges. A minimum of six of those 12 credits must be courses that bear the designation "E St" or are courses offered by engineering departments. Eligible courses will include those 200-level and above courses offered by the departments in the College of Engineering that are expressly designated by that department's curriculum committee for use in the minor in engineering studies.

A minimum of 6 credits in the minor must be 300-level or above (university requirement)

Industrial Engineering

Administered by the Department of Industrial and Manufacturing Systems Engineering

Undergraduate Study

For the undergraduate curriculum in industrial engineering leading to the degree bachelor of science. The Industrial Engineering Program of this curriculum is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/>.

The Industrial Engineering (IE) Program educates its future graduates to accomplish its educational objectives in their early careers. Specifically, the

IE curriculum prepares its majors so that, within a few years after graduation, graduates' attainments are

1. industrial engineering decisions that result in well-reasoned, value-added solutions.
2. communications with stakeholders that are informative, persuasive, and constructive.
3. contributions to team goals through effective team interactions and leadership.
4. new skills and knowledge that advance professional practice and enable career advancement.

Details on industrial engineering program outcomes that foster the attainment of these objectives are available at appropriate sections of: www.imse.iastate.edu

The industrial engineering undergraduate curriculum provides students with fundamental knowledge in mathematics and science, engineering science, social science, and humanities as well as professional industrial engineering course work. Management electives provide students with an opportunity to become familiar with modern business practices that they will encounter in their career. A senior capstone design course provides students with an opportunity to solve open-ended industrial problems with an industrial partner. The cooperative education program provides students with real world experience in the profession and a good perspective on career choices. Students are encouraged to participate in international experiences through exchange programs and industrial internships.

Qualified juniors and seniors interested in graduate studies may apply to the Graduate College to concurrently pursue both B.S. and M.S. or M.Eng. degrees in Industrial Engineering, or B.S. and M.B.A. degrees.

Engineering Sales

The Engineering Sales Minor is multidisciplinary and open to undergraduates in the College of Engineering. The minor is earned by completing 15 credits including:

I E 450	Technical Sales for Engineers I	3
I E 451	Technical Sales for Engineers II	3
MKT 340	Principles of Marketing	3
MKT 343	Personal Sales	3
And one of the following:		3
I E 305	Engineering Economic Analysis	
FIN 301	Principles of Finance	
Total Credits		15

The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

Graduate Study

The department offers programs for the degrees master of engineering, master of science and doctor of philosophy with a major in industrial engineering. A formal minor is available at the M.S. and Ph.D. levels to graduate students having a major in another department. The M.Eng. degree consists of coursework designed to improve professional expertise in industrial engineering. The M.S. and Ph.D. degrees are designed to improve the student's capability to conduct research as well as their professional expertise.

The prerequisite to major graduate work is the completion of a curriculum similar to that required of undergraduate students in engineering at this institution. Because of the diversity of industrial engineering topics, it is possible for a student to qualify for graduate study even though undergraduate or prior graduate training has been in a discipline other than engineering; e.g., mathematics or physics. However, completion of a math sequence of calculus through differential equations is required.

With the help of a program of study committee, a graduate student develops an educational program in areas within industrial engineering. Typical areas of concentration include ergonomics/human factors, engineering management, human computer interfaces, advanced manufacturing systems, operations research, and information engineering.

The department offers a certificate in advanced manufacturing, in collaboration with the mechanical engineering department, which consists of four graduate courses selected from an approved list in both departments.

For additional information about graduate degree programs, admission criteria, and procedures refer to <https://www.imse.iastate.edu/graduate-program/>.

Curriculum in Industrial Engineering

Administered by the Department of Industrial and Manufacturing Systems Engineering.

Leading to the degree bachelor of science.

Total credits required: 122 cr. See also Basic Program and Special Programs. Grades of C or better are required for any transfer credit course that is applied to the degree program.

International Perspectives: 3 cr. ¹

U.S. Diversity: 3 cr. ¹

Communication Proficiency/Library requirements: 7 cr.

ENGL 150	Critical Thinking and Communication (C or better in this course)	3
ENGL 250	Written, Oral, Visual, and Electronic Composition (C or better in this course)	3
LIB 160	Information Literacy	1
Total Credits		7

Remaining Communication courses: 6 cr.

ENGL 314	Technical Communication	3
SP CM 212	Fundamentals of Public Speaking	3
Total Credits		6

Social Sciences and Humanities Electives: 12 cr. ²

Six of twelve credits must be from 200-level or above courses. Six credits must be sequential or related courses.

Basic Program: 27 cr. ³

(A minimum GPA of 2.00 required for this set of courses, including any transfer courses).

CHEM 167	General Chemistry for Engineering Students	4
ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition (see above for grade requirements)	3
ENGR 101	Engineering Orientation	R
I E 148	Information Engineering ³	3
LIB 160	Information Literacy	1
MATH 165	Calculus I	4
MATH 166	Calculus II	4
PHYS 221	Introduction to Classical Physics I (see Basic Program rule)	5
Total Credits		27

Math and Physical Science: 17 cr.

MATH 265	Calculus III	4
MATH 267	Elementary Differential Equations and Laplace Transforms	4
PHYS 222	Introduction to Classical Physics II	5
STAT 231	Probability and Statistical Inference for Engineers	4
Total Credits		17

Industrial Engineering Core: 34 cr.

(A minimum GPA of 2.00 required for this set of courses, including any transfer courses).

I E 222	Design & Analysis Methods for System Improvements	3
I E 248	Engineering System Design, Manufacturing Processes and Specifications	3
I E 271	Applied Ergonomics and Work Design	3
I E 305	Engineering Economic Analysis	3
I E 312	Optimization	3
I E 341	Production Systems	3
I E 348	Solidification Processes	3
I E 361	Statistical Quality Assurance	3

I E 413	Stochastic Modeling, Analysis and Simulation	4
I E 441	Industrial Engineering Design	3
I E 448	Manufacturing Systems Engineering	3
Total Credits		34

Other Remaining Courses: 26 cr. ²

MAT E 273	Principles of Materials Science and Engineering	3
E M 274	Statics of Engineering	3
E E 442	Introduction to Circuits and Instruments	2
M E 231	Engineering Thermodynamics I	3
Focus Electives		6
Management Electives		3
Engineering Topic Electives		6
Total Credits		26

Seminar/Co-op/Internships:

I E 101	Industrial Engineering Profession	R
Optional co-op/internship courses		

1. These university requirements will add to the minimum credits of the program unless the university-approved courses are also allowed by the department to meet other course requirements within the degree program. U.S. diversity and international perspectives courses may not be taken Pass/Not Pass.
2. For Social Sciences and Humanities, Focus, Management, and Engineering Topic Electives, choose from the department approved list. (<http://www.imse.iastate.edu/wp-content/blogs.dir/16/files/2011/06/Elective-List-2013-2014-8-12-2013.pdf>)
3. See Basic Program for Professional Engineering Curricula for accepted substitutions for curriculum designated courses in the Basic Program.

See also the following grid showing course template by semester: 4-Year Plan of Study for Industrial Engineering.

Courses primarily for undergraduates:

I E 101. Industrial Engineering Profession.

Cr. R. F.S.

(1-0) Introduce students to the industrial engineering profession, its scope, industrial engineering tools, and future trends.

I E 148. Information Engineering.

(2-2) Cr. 3. F.S. Prereq: Credit or enrollment in MATH 142

Development of information solutions for engineering problems. Fundamentals of the software development process. Engineering computations and the human/computer interface. Data models and database development. Program connectivity and network applications.

I E 222. Design & Analysis Methods for System Improvements.

(3-0) Cr. 3. S. Prereq: I E 248; credit or enrollment in I E 271.

Study of system improvement methods and strategies. Specific areas of lean system improvements include continuous improvement, setup reduction, workplace organization, inventory and waste minimization. Methods and strategies to analyze and quantify the impact of changes.

I E 248. Engineering System Design, Manufacturing Processes and Specifications.

(2-2) Cr. 3. F. Prereq: MATH 166 and PHYS 221. Credit or enrollment in I E 101 and MAT E 273.

Introduction to metrology, engineering drawings and specifications. Engineering methods for designing and improving systems. Theory, applications, and quality issues related to machining processes.

I E 271. Applied Ergonomics and Work Design.

(3-0) Cr. 3. S. Prereq: PHYS 221

Basic concepts of ergonomics and work design. Their impact on worker and work place productivity, and cost. Investigations of work physiology, biomechanics, anthropometry, work methods, and their measurement as they relate to the design of human-machine systems.

I E 298. Cooperative Education.

Cr. R. F.S.SS. Prereq: Permission of department and Engineering Career Services

First professional work period in the cooperative education program. Students must register for this course before commencing work.

IE 305. Engineering Economic Analysis.(3-0) Cr. 3. F.S.SS. *Prereq:* MATH 166

Economic analysis of engineering decisions under uncertainty. Financial engineering basics including time value of money, cash flow estimation, and asset evaluation. Make versus buy decisions. Comparison of project alternatives accounting for taxation, depreciation, inflation, and risk.

IE 312. Optimization.(3-0) Cr. 3. F. *Prereq:* Credit or enrollment in MATH 267.

Concepts, optimization and analysis techniques, and applications of operations research. Formulation of mathematical models for systems, concepts, and methods of improving search, linear programming and sensitivity analysis, network models, and integer programming.

IE 341. Production Systems.(3-0) Cr. 3. F. *Prereq:* STAT 231; credit or enrollment in IE 312

Introduction of key concepts in the design and analysis of production systems. Topics include inventory control, forecasting, material requirement planning, project planning and scheduling, operations scheduling, and other production systems such as Just-In-Time (JIT), warehousing, and global supply chains.

IE 348. Solidification Processes.(2-2) Cr. 3. S. *Prereq:* IE 248 and Mat E 273.

Theory and applications related to metal casting, welding, polymer processing, powder metallurgy, and composites manufacturing.

IE 361. Statistical Quality Assurance.(Cross-listed with STAT). (2-2) Cr. 3. F.S. *Prereq:* STAT 231, STAT 301, STAT 326 or STAT 401

Statistical methods for process improvement. Simple quality assurance principles and tools. Measurement system precision and accuracy assessment. Control charts. Process capability assessment. Experimental design and analysis for process improvement. Significant external project in process improvement.

IE 396. Summer Internship.Cr. R. Repeatable. SS. *Prereq:* Permission of department and Engineering Career Services

Summer professional work period.

IE 397. Engineering Internship.Cr. R. Repeatable. F.S. *Prereq:* Permission of department and Engineering Career Services

Professional work period for a maximum of one semester per academic year. Offered on a satisfactory-fail basis only.

IE 398. Cooperative Education.Cr. R. F.S.SS. *Prereq:* IE 298, permission of department and Engineering Career Services

Second professional work period in the cooperative education program. Students must register for this course before commencing work. Offered on a satisfactory-fail basis only.

IE 403. Introduction to Sustainable Production Systems.(Dual-listed with IE 503). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* Credit or enrollment IE 341

Quantitative introduction of sustainability concepts in production planning and inventory control. Review of material recovery (recycling) and product/component recovery (remanufacturing) from productivity perspectives. Sustainability rubrics ranging from design and process to systems. Application to multi-echelon networks subject to forward/backward flow of material and information. Closed-loop supply chains. Comparative study of sustainable vs. traditional models for local and global production systems.

IE 413. Stochastic Modeling, Analysis and Simulation.(4-0) Cr. 4. F. *Prereq:* MATH 267, STAT 231

Development and analysis of simulation models using a simulation language. Application to various areas of manufacturing and service systems such as assembly, material handling, and customer queues. Utilizing model output to make important business decisions. Fitting of data to statistical distributions. Introduction to Markov processes and other queuing models.

IE 441. Industrial Engineering Design.(1-6) Cr. 3. F.S. *Prereq:* IE 248, IE 271, IE 361; credit or enrollment in IE 341, IE 413, and IE 448

A large, open-ended design project related to an enterprise. Application of engineering design principles including problem definition, analysis, synthesis, and evaluation.

IE 446. Geometric Variability in Manufacturing.(Dual-listed with IE 546). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* IE 348, or MAT E 216, or ME 324

Assessment, accommodation, and control of geometric variability in manufacturing processes, specifically composites, metalcasting, welding, machining, and powder metallurgy. Techniques include the design of the component, tooling and process plan. The use of contact and noncontact measurement methods to assess variation.

IE 448. Manufacturing Systems Engineering.(3-0) Cr. 3. S. *Prereq:* IE 248, IE 305

Fixturing and tooling requirements for manufacturing process planning, geometric dimensioning and tolerancing, computer aided inspection, cellular and flexible manufacturing, and facility layout. Lean manufacturing principles and controlled flow production.

IE 449. Computer Aided Design and Manufacturing.

(Dual-listed with IE 549). (3-0) Cr. 3. Alt. F., offered even-numbered years.

Prereq: Prereq: IE 248 or similar manufacturing engineering course, MATH 265. Representation and interpretation of curves, surfaces and solids. Parametric curves and surfaces and solid modeling. Use of CAD software and CAD/CAM integration. Computer numerical control, CNC programming languages, and process planning.

IE 450. Technical Sales for Engineers I.(3-0) Cr. 3. F. *Prereq:* Credit or enrollment in IE 305.

Sales process methodology, techniques for building professional relationships, sales automation software, prospecting and account development, market analysis and segmentation, responding to RFQ's and RFP's in written and verbal form. Developing technical value propositions and competitive positioning, evaluating organizational decision processes and people, technical marketing strategies, sales closing strategies.

IE 451. Technical Sales for Engineers II.(3-0) Cr. 3. S. *Prereq:* IE 450

Case studies and experiential lessons on the development and application of technical sales strategies. Specific topics include developing pricing and distribution strategies, managing a sales staff and channel, developing sales teams and global sales plans, bid and negotiation strategies, time management skills, and implementing sales automation technologies.

IE 466. Multidisciplinary Engineering Design.(Cross-listed with A B E, AER E, CPR E, E E, ENGR, M E, MAT E). (1-4) Cr. 3. Repeatable. F.S. *Prereq:* Student must be within two semesters of graduation and receive permission of instructor

Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing, and life cycle considerations. Application of design tools such as CAD, CAM, and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations and computer models and engineering drawings.

IE 467. Multidisciplinary Engineering Design II.(Cross-listed with AER E, CPR E, E E, ENGR, M E, MAT E). (1-4) Cr. 3. Repeatable, maximum of 2 times. F.S. *Prereq:* Student must be within two semesters of graduation or receive permission of instructor.

Build and test of a conceptual design. Detail design, manufacturability, test criteria and procedures. Application of design tools such as CAD and CAM and manufacturing techniques such as rapid prototyping. Development and testing of a full-scale prototype with appropriate documentation in the form of design journals, written reports, oral presentations and computer models and engineering drawings.

IE 481. e-Commerce Systems Engineering.(Dual-listed with IE 581). (3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* IE 148

Design, analysis, and implementation of e-commerce systems. Information infrastructure, enterprise models, enterprise processes, enterprise views. Data structures and algorithms used in e-commerce systems, SQL, exchange protocols, client/server model, web-based views.

IE 483. Knowledge Discovery and Data Mining.(Dual-listed with IE 583). (3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* IE 148, IE 312, and STAT 231

Introduction to data warehouses and knowledge discovery. Techniques for data mining, including probabilistic and statistical methods, genetic algorithms and neural networks, visualization techniques, and mathematical programming. Advanced topics include web-mining and mining of multimedia data. Case studies from both manufacturing and service industries. A computing project is required.

I E 490. Independent Study.

Cr. 1-5. Repeatable. *Prereq: Senior classification, permission of instructor* Independent study and work in the areas of industrial engineering design, practice, or research.

I E 490A. Independent Study: Manufacturing.

Cr. 1-5. Repeatable. *Prereq: Senior classification, permission of instructor* Independent study and work in the areas of industrial engineering design, practice, or research.

I E 490B. Independent Study: Human Factors.

Cr. 1-5. Repeatable. *Prereq: Senior classification, permission of instructor* Independent study and work in the areas of industrial engineering design, practice, or research.

I E 490C. Independent Study: Operations Research.

Cr. 1-5. Repeatable. *Prereq: Senior classification, permission of instructor* Independent study and work in the areas of industrial engineering design, practice, or research.

I E 490D. Independent Study: Enterprise Computing and Information Management.

Cr. 1-5. Repeatable. *Prereq: Senior classification, permission of instructor* Independent study and work in the areas of industrial engineering design, practice, or research.

I E 490E. Independent Study: Engineering Management.

Cr. 1-5. Repeatable. *Prereq: Senior classification, permission of instructor* Independent study and work in the areas of industrial engineering design, practice, or research.

I E 490H. Independent Study: Honors.

Cr. 1-5. Repeatable. *Prereq: Senior classification, permission of instructor* Independent study and work in the areas of industrial engineering design, practice, or research.

I E 498. Cooperative Education.

Cr. R. Repeatable. F.S.SS. *Prereq: I E 298, permission of department and Engineering Career Services*
Third and subsequent professional work periods in the cooperative education program. Students must register for this course before commencing work. Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified undergraduates:**I E 501. M.S. Research Basics and Communications.**

Cr. R. Repeatable. *Prereq: Enrollment in M.S. or M.Eng. program in Industrial Engineering.*
Principles and practices for research tasks at the M.S. level including proposal writing, presentations, paper preparation, and project management. Offered on a satisfactory-fail basis only.

I E 502. M.S. Research Conduct.

Cr. R. Repeatable. *Prereq: Enrollment in M.S. program in Industrial Engineering.*
Responsible conduct of research at the M.S. level, including ethical issues in peer review, conflicts of interest, mentoring, human subjects and live animals, data management, and collaboration. Offered on a satisfactory-fail basis only.

I E 503. Introduction to Sustainable Production Systems.

(Dual-listed with I E 403). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: Credit or enrollment in I E 341*

Quantitative introduction of sustainability concepts in production planning and inventory control. Review of material recovery (recycling) and product/component recovery (remanufacturing) from productivity perspectives. Sustainability rubrics ranging from design and process to systems. Application to multi-echelon networks subject to forward/backward flow of material and information. Closed-loop supply chains. Comparative study of sustainable vs. traditional models for local and global production systems. A course project is required for graduate credit.

I E 508. Design and Analysis of Allocation Mechanisms.

(3-0) Cr. 3. *Prereq: I E 312 or MATH 307*
Market-based allocation mechanisms from quantitative economic systems perspective. Pricing and costing models designed and analyzed with respect to decentralized decision processes, information requirements, and coordination. Financial Engineering Techniques. Case studies and examples from industries such as regulated utilities, semiconductor manufacturers, and financial engineering services.

I E 510. Network Analysis.

(3-0) Cr. 3. *Prereq: I E 312*
Formulation and solution of deterministic network flow problems including shortest path, minimum cost flow, and maximum flow. Network and graph formulations of combinatorial problems including assignment, matching, and spanning trees. Introduction to deterministic and stochastic dynamic programming.

I E 513. Analysis of Stochastic Systems.

(3-0) Cr. 3. *Prereq: STAT 231*
Introduction to modeling and analysis of manufacturing and service systems subject to uncertainty. Topics include the Poisson process, renewal processes, Markov chains, and Brownian motion. Applications to inventory systems, production system design, production scheduling, reliability, and capacity planning.

I E 514. Production Scheduling.

(3-0) Cr. 3. *Prereq: I E 312, I E 341*
Introduction to the theory of machine shop systems. Complexity results for various systems such as job, flow and open shops. Applications of linear programming, integer programming, network analysis. Enumerative methods for machine sequencing. Introduction to stochastic scheduling.

I E 519. Simulation Modeling and Analysis.

(3-0) Cr. 3. *Prereq: COM S 311, STAT 401*
Event scheduling, process interaction, and continuous modeling techniques. Probability and statistics related to simulation parameters including run length, inference, design of experiments, variance reduction, and stopping rules. Aspects of simulation languages.

I E 531. Quality Control and Engineering Statistics.

(Cross-listed with STAT). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: STAT 401; STAT 342 or STAT 447*
Statistical methods and theory applicable to problems of industrial process monitoring and improvement. Statistical issues in industrial measurement; Shewhart, CUSUM, and other control charts; feedback control; process characterization studies; estimation of product and process characteristics; acceptance sampling, continuous sampling and sequential sampling; economic and decision theoretic arguments in industrial statistics.

I E 533. Reliability.

(Cross-listed with STAT). (3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: STAT 342 or STAT 432 or STAT 447*
Probabilistic modeling and inference in engineering reliability; lifetime models, product limit estimator, probability plotting, maximum likelihood estimation for censored data, Bayesian methods in reliability, system reliability models, competing risk analysis, acceleration models and analysis of accelerated test data; analysis of recurrence data; planning studies to obtain reliability data.

I E 534. Linear Programming.

(3-0) Cr. 3. *Prereq: I E 312*
Develop linear models. Theory and computational aspects of the simplex method. Duality theory and sensitivity analysis. Introduction to interior point methods and column generation. Multiobjective linear programs.

I E 537. Reliability and Safety Engineering.

(3-0) Cr. 3. *Prereq: STAT 231 or STAT 401*
Mathematical basics for dealing with reliability data, theory, and analysis. Bayesian reliability analysis. Engineering ethics in safety evaluations. Case studies of accidents in large technological systems. Fault and event tree analysis.

I E 541. Inventory Control and Production Planning.

(3-0) Cr. 3. *Prereq: I E 341*
Economic Order Quantity, dynamic lot sizing, newsboy, base stock, and (Q,r) models. Material Requirements Planning, Just-In-Time (JIT), variability in production systems, push and pull production systems, aggregate and workforce planning, and capacity management. Supply Chain Contracts.

I E 543. Wind Energy Manufacturing.

(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: Undergraduate engineering degree or permission of instructor.*
Materials, processes and systems required to produce the major components (blades, towers, nacelles) of megawatt scale wind turbines. Transportation, manufacturing siting and procurement decisions as it relates to these large components in an expanding industry.

I E 545. Rapid Prototyping and Manufacturing.

(3-0) Cr. 3. *Prereq: Prereq: I E 248 or similar manufacturing engineering course, Math 265. Undergraduates: Permission of instructor.*
Introduction to rapid prototyping processes and other rapid manufacturing methodologies. Operating principles and characteristics of current and developing rapid prototyping processes. Use of rapid prototypes in product design, development, and service. Selection of rapid prototyping systems based on rapid methodologies used in manufacturing processes and rapid tooling approaches.

IE 546. Geometric Variability in Manufacturing.

(Dual-listed with IE 446). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: IE 348, or MAT E 216, or ME 324*

Assessment, accommodation, and control of geometric variability in manufacturing processes, specifically composites, metalcasting, welding, machining, and powder metallurgy. Techniques include the design of the component, tooling and process plan. The use of contact and noncontact measurement methods to assess variation.

IE 549. Computer Aided Design and Manufacturing.

(Dual-listed with IE 449). (3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq: Prereq: IE 248 or similar manufacturing engineering course, MATH 265.* Representation and interpretation of curves, surfaces and solids. Parametric curves and surfaces and solid modeling. Use of CAD software and CAD/CAM integration. Computer numerical control, CNC programming languages, and process planning.

IE 561. Continuous Quality Improvement of Process.

(3-0) Cr. 3. *Prereq: IE 361*
Methods for continuous quality improvement in process analysis. The systems analysis for process improvement model based on W. Edwards Deming. Quality function deployment methods. Case studies of applications to manufacturing and other heavy industries. Use of process analysis computerized programs and tools for design analysis.

IE 565. Systems Engineering and Analysis.

(Cross-listed with AER E, E E). (3-0) Cr. 3. *Prereq: Coursework in basic statistics*
Introduction to organized multidisciplinary approach to designing and developing systems. Concepts, principles, and practice of systems engineering as applied to large integrated systems. Life cycle costing, scheduling, risk management, functional analysis, conceptual and detail design, test and evaluation, and systems engineering planning and organization. Not available for degrees in industrial engineering.

IE 566. Applied Systems Engineering.

(3-0) Cr. 3. *Prereq: IE 565*
Design for reliability, maintainability, usability, supportability, producibility, disposability, and life cycle costs in the context of the systems engineering process. Students will be required to apply the principles of systems engineering to a project including proposal, program plan, systems engineering management plan, and test and evaluation plan. Not available for degrees in industrial engineering.

IE 570. Systems Engineering and Project Management.

(3-0) Cr. 3. *Prereq: Coursework in basic statistics*
Systems view of projects and the processes by which they are implemented. Focuses on qualitative and quantitative tools and techniques of project management. Specific systems concepts, methodologies, and tools for effective management of both simple and complex projects. Introduction of important performance parameters for planning, cost control, scheduling, and productivity, including discussions of traditional and state of the art tools and systems.

IE 571. Occupational Biomechanics.

(3-0) Cr. 3. *Prereq: EM 274, STAT 231*
Anatomical, physiological, and biomechanical bases of physical ergonomics. Anthropometry, body mechanics, strength of biomaterials, human motor control. Use of bioinstrumentation, passive industrial surveillance techniques and active risk assessment techniques. Acute injury and cumulative trauma disorders. Static and dynamic biomechanical modeling. Emphasis on low back, shoulder and hand/wrist biomechanics.

IE 572. Design and Evaluation of Human-Computer Interaction.

(3-0) Cr. 3. *Prereq: Graduate classification*
Human factors methods applied to interface design, prototyping, and evaluation. Concepts related to understanding user characteristics, usability analysis, methods and techniques for design and evaluation of the interface. The evaluation and design of the information presentation characteristics of a wide variety of interfaces: web sites (e-commerce), computer games, information presentation systems (cockpits, instrumentation, etc.), and desktop virtual reality.

IE 576. Human Factors in Product Design.

(3-0) Cr. 3. *Prereq: IE 577*
Investigation of the human interface to consumer and industrial systems and products, providing a basis for their design and evaluation. Discussions of human factors in the product design process: modeling the human during product use; usability; human factors methods in product design evaluation; user-device interface; safety, warnings, and instructions for products; considerations for human factors in the design of products for international use.

IE 577. Human Factors.

(3-0) Cr. 3. *Prereq: IE 271, STAT 231 or STAT 401*
Physical and psychological factors affecting human performance in systems. Signal detection theory, human reliability modeling, information theory, and performance shaping applied to safety, reliability, productivity, stress reduction, training, and human/equipment interface design. Laboratory assignments related to system design and operation.

IE 581. e-Commerce Systems Engineering.

(Dual-listed with IE 481). (3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq: IE 148*
Design, analysis, and implementation of e-commerce systems. Information infrastructure, enterprise models, enterprise processes, enterprise views. Data structures and algorithms used in e-commerce systems. SQL, exchange protocols, client/server model, web-based views.

IE 582. Enterprise Modeling and Integration.

(3-0) Cr. 3. *Prereq: 3 credits in information technology or information systems*
The design and analysis of enterprise models to support information engineering of enterprise-wide systems. Representation of system behavior and structure including process modeling, information modeling, and conceptual modeling. Applications in enterprise application integration, enterprise resource planning systems, product data management systems, and manufacturing execution systems.

IE 583. Knowledge Discovery and Data Mining.

(Dual-listed with IE 483). (3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq: IE 148, IE 312, and STAT 231*
Introduction to data warehouses and knowledge discovery. Techniques for data mining, including probabilistic and statistical methods, genetic algorithms and neural networks, visualization techniques, and mathematical programming. Advanced topics include web-mining and mining of multimedia data. Case studies from both manufacturing and service industries. A computing project and an additional project with more theoretical content are required.

IE 585. Requirements Engineering.

(3-0) Cr. 3. *Prereq: 3 credits in information technology or information systems*
Principles and practices for requirements engineering as part of the product development process with emphasis on software systems engineering. Problem definition, problem analysis, requirements analysis, requirements elicitation, validation, specifications. Case studies using requirements engineering methods and techniques.

IE 588. Information Systems for Manufacturing.

(3-0) Cr. 3. *Prereq: IE 148, IE 448*
Design and implementation of systems for the collection, maintenance, and usage of information needed for manufacturing operations, such as process control, quality, process definition, production definitions, inventory, and plant maintenance. Topics include interfacing with multiple data sources, methods to utilize the information to improve the process, system architectures, and maintaining adequate and accurate data for entities internal and external to the enterprise to achieve best manufacturing practices.

IE 590. Special Topics.

Cr. 1-3. Repeatable.
Advanced study of a research topic in the field of industrial engineering.

Courses for graduate students:**IE 601. Ph.D. Research Basics and Communications.**

Cr. R. Repeatable. *Prereq: Enrollment in Ph.D. program in Industrial Engineering.* Principles and practices for conducting research at the Ph.D. level, including problem definition, proposal writing, presentations, conference proceedings, paper preparation, and project management. Offered on a satisfactory-fail basis only.

IE 602. Ph.D. Research Conduct.

Cr. R. Repeatable. *Prereq: Enrollment in Ph.D. program in Industrial Engineering* Responsible conduct of research at the Ph.D. level, including ethical issues in peer review, conflicts of interest, mentoring, human subjects and live animals, data management, and collaboration. Offered on a satisfactory-fail basis only.

IE 613. Stochastic Production Systems.

(3-0) Cr. 3. *Prereq: IE 513*
Modeling techniques to evaluate performance and address issues in design, control, and operation of systems. Markov models of single-stage make-to-order and make-to-stock systems. Approximations for non-Markovian systems. Impact of variability on flow lines. Open and closed queuing networks.

IE 631. Nonlinear Programming.(3-0) Cr. 3. *Prereq: IE 534*

Develop nonlinear models, convex sets and functions, optimality conditions, Lagrangian duality, unconstrained minimization techniques. Constrained minimization techniques covering penalty and barrier functions, sequential quadratic programming, the reduced gradient method.

IE 632. Integer Programming.(3-0) Cr. 3. *Prereq: IE 534*

Integer programming including cutting planes, branch and bound, and Lagrangian relaxation. Introduction to complexity issues and search-based heuristics.

IE 634. Computational Optimization.(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: IE 534 or equivalent.*

Theory, algorithm, and computer implementation of optimization models. Simplex, Benders decomposition, computational complexity, mixed integer linear program, linear program with complementarity constraints, inverse optimization, bilevel discrete optimization. CPLEX, Matlab, and Tomlab will be used for computer implementation.

IE 642. Simultaneous Engineering in Manufacturing Systems.(3-0) Cr. 3. *Prereq: IE 549 or ME 415*

Current engineering methods for the product life cycle process. Feature-based design, computer-aided process planning, and data-driven product engineering.

IE 671. Research Practicum in Ergonomics.(3-0) Cr. 3. Repeatable. *Prereq: IE 571 or IE 577*

Ergonomics research topic development, literature evaluation, experimental design, use of bioinstrumentation, data collection, basic data interpretation, statistical analysis, manuscript preparation.

IE 681. Cognitive Engineering.(Cross-listed with HCI). (3-0) Cr. 3. S. *Prereq: IE 577 or PSYCH 516 or HCI/PSYCH 521 or equivalent or instructor's permission*

Theoretical and methodological applications of cognitive engineering - literature evaluation, experimental analysis, study and application of bio and neurological information (electromyography (EMG) and electroencephalogram (EEG), data interpretation, statistical analysis and experimental design.

IE 690. Advanced Topics.Cr. 1-3. Repeatable. *Prereq: Permission of the instructor*

Advanced topics related to Ph.D. research in industrial engineering under the direction of the instructor.

IE 697. Engineering Internship.Cr. R. Repeatable. F.S.SS. *Prereq: Permission of department*

Professional work period for a maximum of one semester per academic year. Offered on a satisfactory-fail basis only.

IE 699. Research.

Cr. arr. Repeatable.

IE 699A. Research: Industrial Engineering.

Cr. arr. Repeatable.

IE 699C. Research: Operations Research.

Cr. arr. Repeatable.

Materials Engineering

Undergraduate Study

For the undergraduate curriculum in materials engineering leading to the degree bachelor of science. This curriculum is accredited under the General Criteria and the Materials Engineering Program Criteria by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> Materials engineering is a broadly-based discipline relating the composition, microstructure, and processing of materials to their properties, uses and performance. Materials engineering includes a variety of traditional and modern technologies involving metals, ceramics, polymers, composites, and electronic materials.

Because of its interdisciplinary nature, career opportunities for materials engineers bridge all industrial and government sectors including: materials based technologies (materials production), communication/information technologies (semiconducting materials, fiber optics), medical/environmental technologies (biomedical, energy production, waste containment), nanotechnologies, consumer products (building and construction, durable goods), and transportation industries (automotive, aerospace).

The objectives of the materials engineering program are to produce graduates who:

- practice materials engineering in a broad range of industries including materials production, semiconductors, medical/environmental, consumer products, and transportation products
- engage in advanced study in materials and related or complementary fields

Graduates in materials engineering are able to apply scientific and engineering principles to select or design the best materials to solve engineering problems. They are also able to control the microstructure of materials through processing to optimize properties and performance. They are skilled in creative, independent problem solving under time and resource constraints. Graduates will have gained experience in materials engineering practice through cooperative work experience or internships in industry, national laboratories, or other funded research work. They will have hands-on skills with a broad range of modern materials processing and characterization equipment and methods.

A degree in materials engineering relies on a strong foundation of math, chemistry and physics. The core materials courses include fundamentals of materials, kinetics and thermodynamics, mechanical properties, computational methods, design, and professional practice experience. Students tailor their programs to their goals and interests through the selection of a specialization from the three available: ceramic materials, metallic materials and polymeric materials. Additional technical electives can be taken in other areas of interest. The breadth and depth of the program provide excellent preparation for both immediate entry into industry or further study in graduate school.

The department also offers a cooperative education program that combines classroom learning with work experience.

Well qualified juniors in materials engineering who are interested in graduate study may apply for concurrent enrollment during their senior year in the Graduate College to simultaneously pursue both bachelor of science and master of science degrees. See Materials Science and Engineering for more information.

Curriculum in Materials Engineering

Administered by the Department of Materials Science and Engineering.

Leading to the degree bachelor of science.

Total credits required: 128 cr. Any transfer credit courses applied to the degree program require a grade of C or better. See also Basic Program and Special Programs.

International Perspectives: 3 cr.¹

U.S. Diversity: 3 cr.¹

Communication Proficiency/Library requirement (minimum grade of C):

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
LIB 160	Information Literacy	1
One of the following (minimum grade of C)		3
ENGL 302	Business Communication	
ENGL 309	Report and Proposal Writing	
ENGL 314	Technical Communication	
JL MC 347	Science Communication	

General Education Electives: 15 cr.

Complete 12 cr. from approved list with a minimum of 6 cr. but no more than 9 cr. from one designator, and a maximum of 9 cr. of 100-level courses². Complete one course (3 cr.) from the following with a minimum grade of C:

ENGL 302	Business Communication	3
ENGL 309	Report and Proposal Writing	3
ENGL 314	Technical Communication	3
JL MC 347	Science Communication	3

Basic Program: 27 cr.

Complete with 2.00 GPA including transfer courses:

CHEM 167	General Chemistry for Engineering Students	4
or CHEM 177	General Chemistry I	
ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition (see above for grade requirements)	3
ENGR 101	Engineering Orientation	R

ENGR 160	Engineering Problems with Computer Applications Laboratory ³	3
LIB 160	Information Literacy	1
MATH 165	Calculus I	4
MATH 166	Calculus II	4
PHYS 221	Introduction to Classical Physics I (See Basic Program)	5
Total Credits		27

Math and Physical Science: 18 cr.

CHEM 177L	Laboratory in General Chemistry I	1
CHEM 178	General Chemistry II	3
CHEM 178L	Laboratory in College Chemistry II	1
MATH 265	Calculus III	4
MATH 267	Elementary Differential Equations and Laplace Transforms	4
PHYS 222	Introduction to Classical Physics II	5
Total Credits		18

Materials/Specialties Engineering Core: 41 cr.

Complete with 2.00 GPA including transfer courses:

MAT E 214	Structural Characterization of Materials	3
MAT E 215	Introduction to Materials Science and Engineering I	3
MAT E 215L	Introduction to Materials Science and Engineering I - Lab	1
MAT E 216	Introduction to Materials Science and Engineering II	4
MAT E 311	Thermodynamics in Materials Engineering	3
MAT E 314	Kinetics and Phase Equilibria in Materials	3
MAT E 316	Computational Methods in Materials	3
MAT E 317	Introduction to Electronic Properties of Ceramic, Metallic, and Polymeric Materials	3
MAT E 413	Materials Design and Professional Practice I	3
MAT E 414	Materials Design and Professional Practice II	3
MAT E 418	Mechanical Behavior of Materials	3
Students must choose one from the three areas of specialization (9 cr.): ceramic, metallic and polymeric materials.		9
Total Credits		41

The options below meet that expectation by using the following specialization courses:

Ceramic Materials:

MAT E 321	Introduction to Ceramic Science	3
MAT E 322	Introduction to Ceramic Processing	3
MAT E 425	Glasses and Advanced Ceramics	3

Metallic Materials:

MAT E 342	Structure/Property Relations in Nonferrous Metals	3
MAT E 443	Physical Metallurgy of Ferrous Alloys	3
MAT E 444	Corrosion and Failure Analysis	3

Polymeric Materials:

MAT E 351	Introduction to Polymeric Materials	3
MAT E 454	Polymer Composites and Processing	3

Other Courses: 27 cr.

E M 274	Statics of Engineering	3
E M 324	Mechanics of Materials	3
Technical electives from list of materials courses ²		9
Technical electives from approved departments ²		9
Non-remedial course ²		3
Total Credits		27

Seminar/Co-op/Internships

MAT E 201	Materials Science and Engineering - Professional Planning	R
-----------	---	---

Co-op and internships are optional

1. These university requirements will add to the minimum credits of the program unless the university-approved courses are also approved by the department to meet other course requirements within the degree program. U.S. diversity and international perspectives courses may not be taken Pass/Not Pass.
2. Choose from department approved list (<http://www.mse.iastate.edu/wp-content/blogs.dir/17/files/2012/07/UG-HANDBK2012-for-web-FINAL.pdf>).
3. See Basic Program for Professional Engineering Curricula for accepted substitutions for curriculum designated courses in the Basic Program.

Note: A Mat E student may take up to 9 credit hours from General Education and free electives on a P/NP basis, except for courses used to meet the diversity and international perspectives requirement. S/F courses (different from P/NP) will be considered for these requirements on a course-by-course basis.

See also: A 4-year plan of study grid showing course template by semester.

Courses primarily for undergraduates:**MAT E 201. Materials Science and Engineering - Professional Planning.**

Cr. R. S. Prereq: *Sophomore classification in Mat E*

Preparation for a career in materials engineering; experiential learning, resumes, interviewing, Myers-Briggs Type Indicator, leadership, undergraduate research, international opportunities, graduate school preparation and opportunities, and alternative career paths. Offered on a satisfactory-fail basis only.

MAT E 214. Structural Characterization of Materials.

(2-3) Cr. 3. S. Prereq: *MAT E 215, credit or enrollment in PHYS 221*

Structural characterization of ceramic, electronic, polymeric and metallic materials. Techniques include optical and electron microscopy, x-ray diffraction, and thermal analysis. Identification of materials type, microstructure, and crystal structure.

MAT E 215. Introduction to Materials Science and Engineering I.

(3-0) Cr. 3. F.S. Prereq: *Math 165 AND (CHEM 177 or CHEM 167)*

Materials Engineering majors only. Structure and properties of ceramic, electronic, polymeric and metallic materials, emphasizing differences based on structure and bonding. Phase equilibria and phase transformations. Only one of Mat E 215, 273, or 392 may count toward graduation.

MAT E 215L. Introduction to Materials Science and Engineering I - Lab.

(0-3) Cr. 1. F.S. Prereq: *Credit or enrollment in MAT E 215 or MAT E 273 or MAT E 392*

Materials Engineering majors only. Laboratory exercise in materials.

MAT E 216. Introduction to Materials Science and Engineering II.

(2-3) Cr. 4. F.S. Prereq: *MAT E 215, Chem 178, Credit or enrollment in PHYS 222*

Materials Engineering majors only. Fundamentals of ceramic, polymeric, and composite materials; degradation, electronic, thermal, magnetic, and optical properties of materials. Materials for energy, biomaterials, and nanomaterials. Laboratory exercises in materials property measurements.

MAT E 220. Globalization and Sustainability.

(Cross-listed with ANTHR, ENV S, GLOBE, M E, SOC, T SC). (3-0) Cr. 3. F.S.

An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department. Meets International Perspectives Requirement.

MAT E 273. Principles of Materials Science and Engineering.

(3-0) Cr. 3. F.S.SS. Prereq: *Sophomore classification; CHEM 167 or CHEM 177; MATH 165*

Introduction to the structure and properties of engineering materials. Structure of crystalline solids and imperfections. Atomic diffusion. Mechanical properties and failure of ductile and brittle materials. Dislocations and strengthening mechanisms. Phase equilibria, phase transformations, microstructure development, and heat treatment principles of common metallurgical systems including steels and aluminum alloys. Structure and mechanical properties of ceramic, polymeric and composite materials. Thermal properties of materials. Corrosion and degradation. Basic electronic properties of materials. Engineering applications. Only one of Mat E 215, 272, 273, or 392 may count toward graduation

MAT E 298. Cooperative Education.

Cr. R. F.S.SS. Prereq: *Permission of department and Engineering Career Services*

First professional work period in the cooperative education program. Students must register for this course before commencing work.

MAT E 311. Thermodynamics in Materials Engineering.

(3-0) Cr. 3. F. *Prereq:* CHEM 178, credit or enrollment in MAT E 216, PHYS 222, and MATH 267

Basic laws of thermodynamics applied to phase equilibria, transformations, and reactions in multicomponent multiphase materials systems; Thermodynamic descriptions of heterogeneous systems; Binary and ternary phase diagrams; interfaces, surfaces, and defects.

MAT E 314. Kinetics and Phase Equilibria in Materials.

(3-0) Cr. 3. S. *Prereq:* MAT E 216, MAT E 311

Kinetic phenomena and phase equilibria relevant to the origins and stability of microstructure in metallic, ceramic and polymeric systems. Application of thermodynamics to the understanding of stable and metastable phase equilibria, interfaces and their effects on stability: defects and diffusion, empirical rate equations for transformation kinetics, driving forces and kinetics of nucleation, diffusional and diffusionless phase transformations.

MAT E 316. Computational Methods in Materials.

(3-0) Cr. 3. S. *Prereq:* MAT E 215

Use of mathematical and statistical computer tools for materials design and analysis. Applications of statistical principles to problems concerned with materials. Computer-assisted design of experiments.

MAT E 317. Introduction to Electronic Properties of Ceramic, Metallic, and Polymeric Materials.

(3-0) Cr. 3. F. *Prereq:* MAT E 216 and PHYS 222

Materials Engineering majors only. Introduction to electronic properties of materials and their practical applications. Classical conduction models and electronic properties of metallic and ceramic materials. Elementary quantum mechanics and band theory of electron states in solids. Quantum theory of metallic conduction. Elementary semiconductor theory and devices. Polarization and dielectric properties of materials. Electron conduction in polymeric systems. Magnetic properties and applications of metals and ceramics.

MAT E 321. Introduction to Ceramic Science.

(3-0) Cr. 3. F. *Prereq:* MAT E 216

Ceramic crystal structures, defects, diffusion and transport. Phase equilibria and microstructures. Powder packing. Thermal, electronic, optical and magnetic properties of ceramics.

MAT E 322. Introduction to Ceramic Processing.

(2-3) Cr. 3. S. *Prereq:* MAT E 321

Synthesis and characterization of ceramic powders. Colloidal phenomena, rheology of suspensions, ceramic forming methods, and drying. High temperature ceramic reactions, liquid and solid-state sintering, grain growth, microstructure development. Processing/microstructure/property relationships.

MAT E 332. Semiconductor Materials and Devices.

(Cross-listed with E E). (3-0) Cr. 3. S. *Prereq:* PHYS 222; *MAT E majors:* MAT E 334; *CPR E and E E majors:* E E 230

Introduction to semiconductor material and device physics. Quantum mechanics and band theory of semiconductors. Charge carrier distributions, generation/recombination, transport properties. Physical and electrical properties and fabrication of semiconductor devices such as MOSFETs, bipolar transistors, laser diodes and LED's.

MAT E 334. Electronic & Magnetic Properties of Metallic Materials.

(3-0) Cr. 3. S. *Prereq:* MAT E 317

Electronic conduction in metals and the properties of conducting materials. Quantum mechanical behavior of free electrons and electrons in potentials wells, bonds and lattices. Development of the band theory of electron states in solids and the Free and Nearly Free Electron models. Density-of-states in energy bands and the Fermi-Dirac statistics of state occupancy. Quantum mechanical model of metallic conduction; Brillouin zones and Fermi surfaces. Additional topics include the thermal properties of metals, electron phase transitions in metallic alloys and the BCS theory of superconductivity. Classical and quantum mechanical treatment of the origins of magnetism in materials; orbital and spin angular momentum. Theory of magnetic behavior in dia-, para-magnetic, ferromagnetic materials.

MAT E 342. Structure/Property Relations in Nonferrous Metals.

(2-3) Cr. 3. F. *Prereq:* MAT E 216

Processing of metals and alloys to obtain desired mechanical properties by manipulation of their microstructure and composition of constituent phase(s). Relevance of defects to mechanical properties, plastic flow. Strengthening mechanisms in metals and alloys. Microstructure, heat treatment and mechanical properties of engineering alloys. Metal-matrix composites.

MAT E 351. Introduction to Polymeric Materials.

(3-0) Cr. 3. F. *Prereq:* MAT E 216

Introduction to polymeric materials, synthesis, structure and properties. Relationship between polymer composition, processing and properties.

MAT E 362. Principles of Nondestructive Testing.

(Cross-listed with E M). (3-0) Cr. 3. S. *Prereq:* PHYS 112 or PHYS 222
Radiography, ultrasonic testing, magnetic particle inspection, eddy current testing, dye penetrant inspection, and other techniques. Physical bases of tests; materials to which applicable; types of defects detectable; calibration standards, and reliability safety precautions.

MAT E 362L. Nondestructive Testing Laboratory.

(Cross-listed with E M). (0-3) Cr. 1. S. *Prereq:* Credit or enrollment in MAT E 362

Application of nondestructive testing techniques to the detection and sizing of flaws in materials and to the characterization of material's microstructure. Included are experiments in hardness, dye penetrant, magnetic particle, x-ray, ultrasonic and eddy current testing. Field trips to industrial laboratories.

MAT E 370. Toying with Technology.

(Cross-listed with CPR E). (2-2) Cr. 3. F.S. *Prereq:* C I 201 or C I 202

A project-based, hands-on learning course. Technology literacy, appreciation for technological innovations, principles behind many technological innovations, hands-on laboratory experiences based upon simple systems constructed out of LEGOs and controlled by small microcomputers. Future K-12 teachers will leave the course with complete lesson plans for use in their upcoming careers.

MAT E 388. Sustainable Engineering and International Development.

(Cross-listed with A B E, C E, E E, M E). (2-2) Cr. 3. F. *Prereq:* Junior classification in engineering

Multi-disciplinary approach to sustainable engineering and international development, sustainable development, appropriate design and engineering, feasibility analysis, international aid, business development, philosophy and politics of technology, and ethics in engineering. Engineering-based projects from problem formulation through implementation. Interactions with partner community organizations or international partners such as nongovernment organizations (NGOs). Course readings, final project/design report. Meets International Perspectives Requirement.

MAT E 389. Applied Methods in Sustainable Engineering.

(Cross-listed with M E). (3-0) Cr. 3. Repeatable, maximum of 2 times. SS.

Learning how to work in a cross disciplinary engineering team to develop and implement appropriate solutions for cooking, lighting, farming, and sanitation in a rural village in Mali. Engineering principles necessary for the projects to be worked on including lighting solutions in a village without electricity, new construction materials, water, etc. Application of engineering principles from core courses. Design conception, feasibility, production, and implementation within context of local cultures and needs. Emphasis on creating real solutions that can be implemented with the constraints imposed by cost, time, manufacturing capability, and culture.

Meets International Perspectives Requirement.

MAT E 391. Introduction to US Women's roles in Industry and Preparation for Summer Study.

(3-0) Cr. 3. S.

Introduction to the historical role of women as related to US industry, family and community with emphasis on the years 1830 - 1945, but also related to the current climate. Topics completed in 392 with arranged lectures at Brunel University. Orientation for Brunel summer study program. Offered on a satisfactory-fail basis only. Credit for graduation allowable only upon completion of Mat E 392. Meets U.S. Diversity Requirement

MAT E 392. Principles of Materials Science and Engineering.

(3-0) Cr. 3. SS. *Prereq:* MAT E 391, CHEM 167 or CHEM 177

Structure and properties of ceramic, electronic, polymeric and metallic materials, emphasizing differences based on structure and bonding. Phase equilibria and phase transformations. Taught on Brunel University campus. Offered on a satisfactory-fail basis only. Only one of Mat E 215, 273, or 392 may count toward graduation.

Meets International Perspectives Requirement.

MAT E 396. Summer Internship.

Cr. R. Repeatable. SS. *Prereq:* Permission of department and Engineering Career Services

Summer professional work period.

MAT E 397. Engineering Internship.

Cr. R. Repeatable. F.S. *Prereq:* Permission of department and Engineering Career Services; junior classification

Professional work period, one semester maximum per academic year.

MAT E 398. Cooperative Education.

Cr. R. F.S.SS. *Prereq:* MAT E 298, permission of department and Engineering Career Services

Second professional work period in the cooperative education program. Students must register for this course before commencing work.

MAT E 413. Materials Design and Professional Practice I.(2-2) Cr. 3. F. *Prereq:* Senior status in Mat E

Fundamentals of materials engineering design, information sources, team behavior, professional preparation, quantitative design including finite-element analysis and computer aided design, materials selection, informatics and combinatorial methods. Analysis of design problems, development of solutions, selected case studies. Oral presentation skills. Preparations for spring project.

MAT E 414. Materials Design and Professional Practice II.(2-2) Cr. 3. S. *Prereq:* Senior status in Mat E

Integration of materials processing, structure/composition, properties and performance principles in materials engineering problems. Multi-scale design of materials, materials processing, case studies including cost analysis, ethics, risk and safety. Team projects specified by either industry or academic partners. Written and oral final project reports.

MAT E 418. Mechanical Behavior of Materials.(3-0) Cr. 3. S. *Prereq:* MAT E 216 and credit or enrollment in E M 324

Mechanical behavior of ceramics, metals, polymers, and composites. Relationships between materials processing and atomic aspects of elasticity, plasticity, fracture, and fatigue. Life prediction, stress-and failure analysis.

MAT E 425. Glasses and Advanced Ceramics.(2-3) Cr. 3. F. *Prereq:* MAT E 321

Composition, structure, properties and manufacturing of inorganic glasses. Properties and applications of advanced ceramics. Structural, thermal, optical, electronic, magnetic and biological applications of ceramic materials. Contemporary topics in ceramic engineering. Laboratory exercises in preparation and characterization of glasses and advanced ceramics.

MAT E 432. Microelectronics Fabrication Techniques.(Dual-listed with M S E 532). (Cross-listed with E E). (2-4) Cr. 4. *Prereq:* PHYS 222, MATH 267. E E 332 or MAT E 334 recommended

Techniques used in modern integrated circuit fabrication, including diffusion, oxidation, ion implantation, lithography, evaporation, sputtering, chemical-vapor deposition, and etching. Process integration. Process evaluation and final device testing. Extensive laboratory exercises utilizing fabrication methods to build electronic devices. Use of computer simulation tools for predicting processing outcomes. Recent advances in processing CMOS ICs and micro-electro-mechanical systems (MEMS).

MAT E 433. Advanced Electronic Materials.(2-3) Cr. 3. F. *Prereq:* MAT E 334

Advanced concepts in band theory of solids including chemical bonding in solids and the linear combination of atomic orbitals, phase transitions in electronic, magnetic, and optical materials. Dielectric materials, ferroelectricity, piezoelectricity, sensors, and non-stoichiometric conductors. Optical properties, optical spectra of materials, optoelectronic devices. Magnetic and superconducting materials.

MAT E 443. Physical Metallurgy of Ferrous Alloys.(2-3) Cr. 3. S. *Prereq:* 214, 216, credit or enrollment in 311

Production and processing of ferrous metals. Extraction of pig iron from ore. Steelmaking processes. Equilibrium and nonequilibrium phases in the Fe-C system. Properties and processing of cast irons, plain carbon and alloy steels, stainless and specialty steels. Transformation diagrams, hardenability, and surface treatments. Continuous casting, forging, hot rolling, quenching, and tempering as they apply to ferrous materials. Cost and mechanical performance considerations in cast iron and steel selection and heat treatment.

MAT E 444. Corrosion and Failure Analysis.(2-2) Cr. 3. S. *Prereq:* MAT E 216 and credit or enrollment in MAT E 418

Corrosion and corrosion control of metallic systems. Corrosion fundamentals, classification of different types of metallic corrosion, corrosion properties of various engineering alloys, corrosion control. Failure analysis. Characteristics of common types of metallic failures, case studies of failures, designing to reduce failure risk.

MAT E 454. Polymer Composites and Processing.(Dual-listed with M S E 554). (3-0) Cr. 3. S. *Prereq:* MAT E 351

Basic concepts in polymer composites, blends, and block copolymers. Phase separation and miscibility, microstructures and mechanical behavior. Fiber reinforced and laminated composites. Viscosity, rheology, viscoelasticity of polymers. Polymer melt processing methods such as injection molding and extrusion; selection of suitable processing methods and their applications.

MAT E 456. Biomaterials.(Dual-listed with M S E 556). (Cross-listed with BIOE). (3-0) Cr. 3. F. *Prereq:* MAT E 216 or MAT E 273 or MAT E 392

Presentation of the basic chemical and physical properties of biomaterials, including metals, ceramics, and polymers, as they are related to their manipulation by the engineer for incorporation into living systems. Role of microstructure properties in the choice of biomaterials and design of artificial organs, implants, and prostheses.

MAT E 457. Chemical and Physical Metallurgy of Rare Earth Metals.

(Dual-listed with M S E 557). (3-0) Cr. 3. Alt. S., offered even-numbered years.

Prereq: MAT E 311 or CHEM 325 AND CHEM 324 or PHYS 322

Electronic configuration, valence states, minerals, ores, beneficiation, extraction, separation, metal preparation and purification. Crystal structures, phase transformations and polymorphism, and thermochemical properties of rare earth metals. Chemical properties: inorganic and organometallic compounds, alloy chemistry, nature of the chemical bonding. Physical properties: mechanical and elastic properties, magnetic properties, resistivity, and superconductivity.

MAT E 466. Multidisciplinary Engineering Design.

(Cross-listed with A B E, AER E, CPR E, E E, ENGR, I E, M E). (1-4) Cr. 3.

Repeatable. F.S. *Prereq:* Student must be within two semesters of graduation and receive permission of the instructor

Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing and life cycle considerations. Application of design tools such as CAD, CAM, and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations, computer models and engineering drawings.

MAT E 467. Multidisciplinary Engineering Design II.

(Cross-listed with AER E, CPR E, E E, ENGR, I E, M E). (1-4) Cr. 3. Repeatable,

maximum of 2 times. F.S. *Prereq:* Student must be within two semesters of graduation or receive permission of instructor.

Build and test of a conceptual design. Detail design, manufacturability, test criteria and procedures. Application of design tools such as CAD and CAM and manufacturing techniques such as rapid prototyping. Development and testing of a full-scale prototype with appropriate documentation in the form of design journals, written reports, oral presentations and computer models and engineering drawings.

MAT E 481. Computational Modeling of Materials.(Dual-listed with M S E 581). (3-0) Cr. 3. F. *Prereq:* Math 265 and (MatE 311 or ChE 381 or Chem 325 or Phys 304)

Introduction to the basic methods used in the computational modeling and simulation of materials, from atomistic simulations to methods at the mesoscale. Students will be expected to develop and run sample programs. Topics to be covered include, for example, electronic structure calculations, molecular dynamics, Monte Carlo, phase-field methods, etc.

MAT E 488. Eddy Current Nondestructive Evaluation.(Dual-listed with M S E 588). (Cross-listed with E E). (3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq:* MATH 265 and (MAT E 216 or MAT E 272 or E E 311 or PHYS 364)

Electromagnetic fields of various eddy current probes. Probe field interaction with conductors, cracks and other material defects. Ferromagnetic materials. Layered conductors. Elementary inversion of probe signals to characterize defects. Special techniques including remote-field, transient, potential drop nondestructive evaluation and the use of Hall sensors. Practical assignments using a 'virtual' eddy current instrument will demonstrate key concepts.

MAT E 490. Independent Study.

Cr. arr. Repeatable.

Investigation of individual research or special topics.

MAT E 498. Cooperative Education.Cr. R. Repeatable. F.S.SS. *Prereq:* MAT E 398, permission of department and Engineering Career Services

Third and subsequent professional work periods in the cooperative education program. Students must register for this course before commencing work.

Materials Science and Engineering

Graduate Study

The department offers work toward the following advanced degrees: Master of Engineering in Materials Science and Engineering, Master of Science in Materials Science and Engineering and Doctor of Philosophy in Materials Science and Engineering.

Built on a foundation of thermodynamics, kinetics of phase transformations, mechanical behavior, physical properties, solid state science, and the structure and chemistry of materials, the graduate program offers advanced studies in many areas of materials science and engineering, including the design and control of materials for structural, electronic, photonic, magnetic, optical, and biological functionality. Graduates of the program have a fundamental understanding of the critical aspects of the field and how they are applied to real materials systems. The program is highly flexible and research-oriented, where students work carefully with their major professor in tailoring the various academic and research components to meet their interests.

With the ability to address complex problems in materials science while considering the various constraints inherent to both academic and industrial environments, our graduates are well prepared for a wide range of academic and research-related careers. They are skilled in carrying out independent and collaborative research, able to communicate effectively in formal and informal settings, and are proficient at writing persuasive technical articles and grant proposals.

The department boasts excellent facilities for academic materials research, maintaining a wide range of faculty laboratories across the ISU campus. In addition, departmental research is highly integrated with the operation of several Research Centers, such as the Ames Laboratory, the Center for Nondestructive Evaluation, the Microelectronics Research Center, and the Center for Advanced Technology Development. These laboratories offer excellent resources and opportunities for graduate student research.

Prerequisite to major graduate work is completion of an undergraduate curriculum in physical science, biological science, or engineering discipline. Graduate students from disciplines other than materials science and engineering may expect that supplemental coursework will be needed, in addition to the required graduate coursework. Well qualified students (juniors) enrolled in the undergraduate materials engineering program at Iowa State University can apply to the Graduate College for admission to the concurrent enrollment program, where students may simultaneously pursue both master of science and bachelor of science degrees.

The requirements for the M. Eng., M.S. and Ph.D. degrees are established by the student's program of study committee within the established guidelines of the Graduate College. Minimum requirements include coursework, research (M.S. and Ph.D. only), proposal (M.S. and Ph.D. only), preliminary oral examination (Ph.D. only), dissertation (M.S. and Ph.D. only), and a final oral examination (M.S. and Ph.D. only). Academic coursework requirements include 31 credits for the M.Eng. degree, 21 credits for the M.S. degree and 32 credits for the Ph.D., with additional specific rules for choices available from the department.

There are no foreign language requirements for any of the graduate degrees administered by the Department of Materials Science and Engineering. Graduate students wishing to declare a formal minor in materials science and engineering will have at least one materials science and engineering faculty member serving on their program of study committee. For the M. Eng., M.S. and Ph.D. degrees, they will take a minimum of 8 materials science and engineering course credits for the M. Engr. or M.S. degrees and a minimum of 12 materials science and engineering course credits for the Ph.D. degree.

Courses primarily for graduate students, open to qualified undergraduates:

M S E 510. Fundamentals of Structure and Chemistry of Materials.

(3-0) Cr. 3. F. *Prereq: MATH 165, PHYS 221, and CHEM 167*
Geometric and algebraic representations of symmetry. Pair distribution function. Structure, chemistry, and basic properties of covalent, ionic, and metallic solids, glasses and liquids, and polymers. Interactions of materials with particles and waves. Relationships between direct and reciprocal spaces. The kinematical theory of diffraction, with an introduction to the dynamical theory.

M S E 519. Magnetism and Magnetic Materials.

(Cross-listed with E E). (3-0) Cr. 3. F. *Prereq: E E 311, MAT E 211 or E E 271 or E E 272 or PHYS 364*

Magnetic fields, flux density and magnetization. Magnetic materials, magnetic measurements. Magnetic properties of materials. Domains, domain walls, domain processes, magnetization curves and hysteresis. Types of magnetic order, magnetic phases and critical phenomena. Magnetic moments of electrons, theory of electron magnetism. Technological application, soft magnetic materials for electromagnets, hard magnetic materials, permanent magnets, magnetic recording technology, magnetic measurements of properties for materials evaluation.

M S E 520. Thermodynamics and Kinetics in Multicomponent Materials.

(3-0) Cr. 3. F. *Prereq: MAT E 311 or CHEM 321, MATH 266 or MATH 267*
A review of the fundamental principles of heat, work, basic thermodynamic relations, and criteria for equilibrium. Analytical treatments for the thermodynamic description of multicomponent chemical solutions and reacting systems are developed and employed to predict phase equilibria in materials systems. Builds on the thermodynamic construction to treat the kinetics of chemical reactions and phase transformations. Topics include general first order and second order transitions, along with chemical diffusion. Detailed examples involving nucleation and diffusion limited growth, spinodal decomposition, martensitic transformations, magnetic and electric transitions, and glass formation will be considered.

M S E 521. Mechanical Behavior and Manufacturing of Polymers and Composites.

(Cross-listed with M E). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: M E 324 or MAT E 272 and E M 324*

Effect of chemical structure and morphology on properties. Linear viscoelasticity, damping and stress relaxation phenomena. Structure and mechanics of filler and fiber reinforced composites. Mechanical properties and failure mechanisms. Material selection and designing with polymers. Processing of polymer and composite parts.

M S E 530. Solid State Science.

(3-0) Cr. 3. S. *Prereq: MAT E 334 or E E 332 or PHYS 322*

Development of a quantitative description of the electronic structure of solids starting with fundamentals of atoms, atomic bonding, basic crystallography, and band theory of solids. Continuum properties of solids in response to electromagnetic fields and thermal gradients. Quantitative description of the atomistic properties of solids through electron-electron interactions, electron-phonon interactions, and dipole interactions.

M S E 532. Microelectronics Fabrication Techniques.

(Dual-listed with MAT E 432). (2-4) Cr. 4. *Prereq: PHYS 222, MATH 267. E E 332 or MAT E 334 recommended*

Techniques used in modern integrated circuit fabrication, including diffusion, oxidation, ion implantation, lithography, evaporation, sputtering, chemical-vapor deposition, and etching. Process integration. Process evaluation and final device testing. Extensive laboratory exercises utilizing fabrication methods to build electronic devices. Use of computer simulation tools for predicting processing outcomes. Recent advances in processing CMOS ICs and micro-electro-mechanical systems (MEMS).

M S E 539. Electronic Properties of Materials.

(Cross-listed with E E). (3-0) Cr. 3. *Prereq: E E 332 or MAT E 331 or PHYS 322*

Review of classical and quantum mechanical descriptions of electrons in solids, band theory, metallic conduction, lattice vibrations, semiconductors, semiconductor devices, dielectrics, polarization, dielectric relaxation, crystal anisotropy, ferroelectricity, piezoelectricity, superconductivity, magnetism, device applications.

M S E 540. Mechanical Behavior of Materials.

(3-0) Cr. 3. F. *Prereq: MAT E 418, MATH 266 or MATH 267*

Mechanical behavior of materials with emphasis on micromechanics of deformation in three generic regimes: elasticity, plasticity, and fracture. A materials science approach is followed to understand and model the mechanical behavior that combines continuum mechanics, thermodynamics, kinetics, and microstructure. Some topics include elastic properties of materials, permanent deformation mechanisms at different temperatures (e.g., via dislocation motion and creep), and fracture in ductile and brittle materials. Specific classes of materials that are studied: metals, ceramics, polymers, glasses and composites.

M S E 550. Fundamentals of Nondestructive Evaluation.

(Cross-listed with E M). (3-2) Cr. 4. S. *Prereq: E M 324, MATH 385*

Principles of five basic NDE methods and their application in engineering inspections. Materials behavior and simple failure analysis. NDE reliability, and damage-tolerant design. Advanced methods such as acoustic microscopy, laser ultrasonics, thermal waves, computed tomography, and thermoelectrics are analyzed. Laboratory experiments on all basic methods: ultrasonics, eddy currents, x-ray, liquid penetrants, magnetic testing, and visual inspection are performed.

M S E 551. Characterization Methods in Materials Science.

(2-3) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: MAT E 214*

Characterization of ceramic, metal, polymer and glassy materials using modern analytical techniques. Spectroscopic (IR, Raman, UV/VIS/NIR, and NMR), thermal (DSC, DTA/TGA, and DMA) methods, mechanical and rheological testing, magnetic and electrical characterization, and powder characterization.

M S E 552. Scanning and Auger Electron Microscopy.(2-3) Cr. 3. F. *Prereq: PHYS 222*

Characterization of materials using scanning electron microscope (SEM), electron microprobe, and auger spectrometer. Compositional determination using energy and wavelength dispersive x-ray and Auger spectroscopies. Specimen preparation. Laboratory covers SEM operation.

M S E 554. Polymer Composites and Processing.(Dual-listed with MAT E 454). (3-0) Cr. 3. S. *Prereq: MAT E 351*

Basic concepts in polymer composites, blends, and block copolymers. Phase separation and miscibility, microstructures and mechanical behavior. Fiber reinforced and laminated composites. Viscosity, rheology, viscoelasticity of polymers. Polymer melt processing methods such as injection molding and extrusion; selection of suitable processing methods and their applications.

M S E 556. Biomaterials.(Dual-listed with MAT E 456). (3-0) Cr. 3. F. *Prereq: MAT E 216 or MAT E 273 or MAT E 392*

Presentation of the basic chemical and physical properties of biomaterials, including metals, ceramics, and polymers, as they are related to their manipulation by the engineer for incorporation into living systems. Role of microstructure properties in the choice of biomaterials and design of artificial organs, implants, and prostheses.

M S E 557. Chemical and Physical Metallurgy of Rare Earth Metals.

(Dual-listed with MAT E 457). (3-0) Cr. 3. Alt. S., offered even-numbered years.

Prereq: MAT E 311 or CHEM 325 AND CHEM 324 or PHYS 322

Electronic configuration, valence states, minerals, ores, beneficiation, extraction, separation, metal preparation and purification. Crystal structures, phase transformations and polymorphism, and thermochemical properties of rare earth metals. Chemical properties: inorganic and organometallic compounds, alloy chemistry, nature of the chemical bonding. Physical properties: mechanical and elastic properties, magnetic properties, resistivity, and superconductivity.

M S E 564. Fracture and Fatigue.(Cross-listed with AER E, E M, M E). (3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq: E M 324 and either MAT E 216 or MAT E 273 or MAT E 392.**Undergraduates: Permission of instructor*

Materials and mechanics approach to fracture and fatigue. Fracture mechanics, brittle and ductile fracture, fracture and fatigue characteristics, fracture of thin films and layered structures. Fracture and fatigue tests, mechanics and materials designed to avoid fracture or fatigue.

M S E 569. Mechanics of Composite and Combined Materials.

(Cross-listed with AER E, E M). (3-0) Cr. 3. Alt. S., offered even-numbered years.

Prereq: E M 324

Mechanics of fiber-reinforced materials. Micromechanics of lamina. Macromechanical behavior of lamina and laminates. Strength and interlaminar stresses of laminates. Failure criteria. Stress analysis of laminates. Thermal moisture and residual stresses. Joints in composites.

M S E 570. Toying With Technology for Practicing Teachers.(Cross-listed with C I). (2-0) Cr. 2. SS. *Prereq: C I 201 or 202 or 505 or equivalent*

A project-based, hands-on learning course. Technology literacy, appreciation for technological innovations, principles behind many technological innovations, hands-on experiences based upon simple systems constructed out of LEGOs and controlled by small microcomputers. Other technological advances with K-12 applications will be explored. K-12 teachers will leave the course with complete lesson plans for use in their classrooms.

M S E 581. Computational Modeling of Materials.(Dual-listed with MAT E 481). (3-0) Cr. 3. F. *Prereq: Math 265 and (MatE 311 or ChE 381 or Chem 325 or Phys 304)*

Introduction to the basic methods used in the computational modeling and simulation of materials, from atomistic simulations to methods at the mesoscale. Students will be expected to develop and run sample programs. Topics to be covered include, for example, electronic structure calculations, molecular dynamics, Monte Carlo, phase-field methods, etc.

M S E 588. Eddy Current Nondestructive Evaluation.(Dual-listed with MAT E 488). (Cross-listed with E E). (3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq: MATH 265 and (MAT E 216 or MAT E 272 or E E 311 or PHYS 364)*

Electromagnetic fields of various eddy current probes. Probe field interaction with conductors, cracks and other material defects. Ferromagnetic materials. Layered conductors. Elementary inversion of probe signals to characterize defects. Special techniques including remote-field, transient, potential drop nondestructive evaluation and the use of Hall sensors. Practical assignments using a 'virtual' eddy current instrument will demonstrate key concepts.

M S E 590. Special Topics.Cr. arr. Repeatable. *Prereq: Permission of instructor***M S E 599. Creative Component.**

Cr. arr. Repeatable.

Courses for graduate students:**M S E 601. Materials Seminar.**(1-0) Cr. 1. Repeatable. F.S. *Prereq: MSE Graduate Student Status*

Seminar course - presentations given on a weekly basis by leading U.S. and International researchers that are experts in their respective fields closely related to Materials Science.

M S E 610. Academic Teaching Practices.(2-0) Cr. 2. Repeatable. S. *Prereq: Permission of instructor*

Provides instructional and directed experience in undergraduate level teaching practices. Students engage in lesson planning, classroom/laboratory teaching, student and course assessment, web-based lessons, and other aspects of academic course delivery.

M S E 620. Fundamentals of Phase Transformations.(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: M S E 520*

Explores various advanced theoretical treatments of the energetics and kinetics of multicomponent materials. Topics include analytical and computational descriptions of thermodynamic quantities, experimental measurement of essential physical properties, analytical and computational treatments of kinetic processes, and the use of theoretical predictions of phase equilibria and evolution in materials systems.

M S E 630. Physical Properties of Solids.(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq: M S E 530*

Advanced course in the behavior of solids within the framework of solid state physics and chemistry. Includes magnetic, dielectric, transport, and optical phenomena in solids. Influence of phase transformations and crystal symmetry on the physical properties.

M S E 651. Powder Diffraction Methods.(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: M S E 510*

Advanced structural characterization of materials using powder diffraction. Production of X-ray and neutron radiation. Review of symmetry, group and kinematical theories of diffraction. Mathematical and computational backgrounds of powder diffraction data. Introduction to single crystal diffraction methods, origin of powder diffraction pattern, history of the technique. Modern powder diffraction methods. Indexing of powder diffraction patterns, figures of merit, precise lattice parameters. Phase problem, determining crystal structures from symmetry and geometry, Patterson, direct and Fourier methods. Rietveld method, precise crystal structures: atomic parameters, qualitative and quantitative phase identification, preferred orientation, grain size, strain, residual stress, order-disorder. Powder diffraction at non-ambient conditions. Applications of powder diffraction: data bases, phase transformations, phase diagrams, local structures, magnetism.

M S E 690. Advanced Topics in Materials Science.Cr. arr. Repeatable. *Prereq: Permission of instructor***M S E 697. Engineering Internship.**Cr. R. Repeatable. F.S.SS. *Prereq: Permission of department, graduate classification*

One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

M S E 699. Research.

Cr. arr. Repeatable.

Mechanical Engineering Undergraduate Study

For the undergraduate curriculum in mechanical engineering leading to the degree bachelor of science. This curriculum is accredited under the General Criteria and Mechanical Engineering Program Criteria by the Engineering Accreditation Commission of ABET, <http://www.abet.org/>.

Mechanical engineers apply the principles of motion, energy, and force to create mechanical solutions to technological problems, thereby realizing devices and systems that make life better. About one-fifth of all engineers practicing today are mechanical engineers. Their skills are used in research, development, design, testing, production, technical sales, technical management, as well as medicine, law, and business. Mechanical engineers are characterized by personal creativity, breadth of knowledge, and versatility. For these reasons they are found to function and thrive as valuable members and leaders of multidisciplinary teams. Mechanical engineers are employed in a wide range of industries; examples include agricultural/heavy equipment, biomedical, consulting, energy and power, manufacturing, product design and transportation.

The mechanical engineering curriculum at Iowa State University is dedicated to preparing students for productive careers in the state, nation, and the world and has the following objectives:

1. Graduates will have utilized a foundation in engineering and science to improve lives and livelihoods through a successful career in mechanical engineering or other fields.
2. Graduates will have become effective collaborators and innovators, leading or participating in efforts to address social, technical and business challenges.
3. Graduates will have engaged in life-long learning and professional development through self-study, continuing education or graduate and professional studies in engineering, business, law or medicine.

The mechanical engineering curriculum is organized to provide students with a broad foundation in mathematics, science, engineering, social science and humanities. The mechanical engineering disciplinary areas emphasized are design and optimization, dynamic systems and control, materials processing and mechanics, and thermo-fluid sciences. Elective courses provide additional emphasis in terms of the student's unique educational goals, whether they include immediate entry into industry or further professional or graduate study.

A major focus throughout the mechanical engineering curriculum is a series of experiences that emphasize engineering design, culminating in a capstone design experience in the senior year. Students will develop engineering judgment through open-ended problems that require establishment of reasonable engineering assumptions and realistic constraints. Development of skills needed to be independent, creative thinkers, effective communicators, and contributing team members is emphasized throughout the curriculum. Students also develop an understanding of the societal context in which they will practice engineering, including environmental, legal, aesthetic, and human aspects.

Students are encouraged to participate in the cooperative education program or to obtain engineering internships, both domestically and abroad. Study abroad is encouraged, and the department has exchange programs with several universities around the world. These experiences help students to round out their education and to better prepare for careers in the increasingly global practice of engineering.

Energy Systems Minor

<http://www.me.iastate.edu/energy-systems-minor/>

The Energy Systems minor is administered by the mechanical engineering department and is open to all undergraduates in the College of Engineering. The minor may be earned by completing 15 credits from the following courses. The complete list of approved elective courses can be found here (<http://www.me.iastate.edu/energy-systems-minor/>).

Required courses		
ECON 380	Environmental and Resource Economics	3
E E 351	Analysis of Energy Systems	3
Electives: Choose from a list of approved courses		9
Total Credits		15

The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

Nuclear Engineering Minor

<http://www.me.iastate.edu/students/degrees-and-programs/engineering-minors/>

The nuclear engineering minor is administered by the mechanical engineering department and is open to all undergraduates in the College of Engineering. The minor may be earned by completing 15 credits from the following courses. A complete list of approved courses can be found here (<http://www.me.iastate.edu/students/degrees-and-programs/engineering-minors/>).

Required courses		
NUC E 401	Nuclear Radiation Theory and Engineering	3
Electives: Choose from a list of approved courses.		12
Total Credits		15

The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

Graduate Study

The department offers programs for the degrees Master of Engineering (M. Eng.), Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) with a major in mechanical engineering. The M.Eng. degree is a coursework-only degree designed to improve professional expertise in mechanical engineering. The M.S. and Ph.D. degrees are designed to improve the student's capability to conduct

research as well as their professional expertise. Although co-major and formal minor programs are not offered in mechanical engineering, courses may be used for minor work by students taking major work in other departments.

Well-qualified juniors and seniors in mechanical engineering who are interested in graduate study may apply for concurrent enrollment in the Graduate College to simultaneously pursue both the Bachelor of Science and Master of Science, the Bachelor of Science and Master of Business Administration. Under concurrent enrollment, students are eligible for assistantships and simultaneously take undergraduate and graduate courses. Details are available in the Graduate Programs Office and on the department's website (<http://www.me.iastate.edu/>).

The graduate program offers advanced study in a variety of thrust areas, including biological and nanoscale sciences, clean energy technologies, complex fluid systems, design and manufacturing innovation, and simulation and visualization.

The department offers students the opportunity to broaden their education by participating in minor programs in established departments, interdepartmental programs, or other experiences as approved by their program of study committees.

The requirements for advanced degrees are established by the student's program of study committee within established guidelines of the Graduate College. Graduate students who have not completed an undergraduate program of study substantially equivalent to that required of undergraduate students in the department can expect that additional supporting coursework will be required.

Program requirements can be found on the department webpage (<http://www.me.iastate.edu/>) and in the Mechanical Engineering Graduate Student Handbook.

Curriculum in Mechanical Engineering

Administered by the Department of Mechanical Engineering. Leading to the degree bachelor of science.

Total credits required: 130 cr. See also Basic Program and Special Programs.

International Perspectives: 3 cr. ¹

U.S. Diversity: 3 cr. ¹

Communication Proficiency/Library requirement (minimum grade of C):

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
LIB 160	Information Literacy	1
Choose one of the following communication courses		3
ENGL 302	Business Communication	
ENGL 309	Report and Proposal Writing	
ENGL 314	Technical Communication	
SP CM 212	Fundamentals of Public Speaking	

General Education Electives: 15 cr.

ECON 101	Principles of Microeconomics	3
or ECON 102	Principles of Macroeconomics	
General Education (Social Science or Humanities) ²		12
Total Credits		15

Basic Program: 27 cr. ⁴

CHEM 167	General Chemistry for Engineering Students	4
or CHEM 177	General Chemistry I	
ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
ENGR 101	Engineering Orientation	R
M E 160	Mechanical Engineering Problem Solving with Computer Applications ³	3
LIB 160	Information Literacy	1
MATH 165	Calculus I	4
MATH 166	Calculus II	4
PHYS 221	Introduction to Classical Physics I	5
Total Credits		27

Math and Physical Science: 20 cr.

M E 170	Engineering Graphics and Introductory Design	3
CHEM 167L	Laboratory in General Chemistry for Engineering	1
or CHEM 177L	Laboratory in General Chemistry I	
MATH 265	Calculus III	4
4 credits from the following:		4
MATH 267	Elementary Differential Equations and Laplace Transforms	
MATH 266 & MATH 268	Elementary Differential Equations and Laplace Transforms	
PHYS 222	Introduction to Classical Physics II	5
STAT 305	Engineering Statistics	3
Total Credits		20

Mechanical Engineering Core: 50 cr.⁴

E M 274	Statics of Engineering	3
E M 324	Mechanics of Materials	3
E M 345	Dynamics	3
E E 442	Introduction to Circuits and Instruments	2
E E 448	Introduction to AC Circuits and Motors	2
MAT E 273	Principles of Materials Science and Engineering	3
M E 270	Introduction to Mechanical Engineering Design	3
M E 231	Engineering Thermodynamics I	3
M E 324	Manufacturing Engineering	3
M E 324L	Manufacturing Engineering Laboratory	1
M E 325	Mechanical Component Design	3
M E 332	Engineering Thermodynamics II	3
M E 335	Fluid Flow	4
M E 370	Engineering Measurements	3
M E 421	System Dynamics and Control	4
M E 436	Heat Transfer	4
One Senior Capstone Design course from the following		3
M E 415	Mechanical Systems Design	
M E 442	Heating and Air Conditioning Design	
M E 466	Multidisciplinary Engineering Design	
M E 486	Appropriate Technology Design	
Total Credits		50

Other Remaining Courses: 18 cr.

Complete 15 cr. Technical Electives ²		15
Complete one of the following communication courses with a minimum grade of C		3
ENGL 302	Business Communication	
ENGL 309	Report and Proposal Writing	
ENGL 314	Technical Communication	
SP CM 212	Fundamentals of Public Speaking	
Total Credits		18

Seminar/Co-op/Internships:

M E 202	Mechanical Engineering - Professional Planning	R
Co-op/Internship optional		

- These university requirements will add to the minimum credits of the program unless the university-approved courses are also approved by the department to meet other course requirements within the degree program. U.S. diversity and international perspectives courses may not be taken Pass/Not Pass.
- Choose from department approved list of technical electives (<http://www.me.iastate.edu/students/degrees-and-programs/bs-degree/degree-requirements/tech-electives>) and general education electives (<http://www.me.iastate.edu/students/degrees-and-programs/bs-degree/degree-requirements/general-education>). Note: electives used to meet graduation requirements may not be taken Pass-Not Pass (P-NP).
- See Basic Program for Professional Engineering Curricula for accepted substitutions for curriculum designated courses in the Basic Program.
- 2.00 GPA average required including transfer courses.

Transfer Credit Requirements

The Mechanical Engineering Department requires a grade of a C or better for any transfer credit course that is applied to the degree program. The degree program must include a minimum of 15 credits taken from courses offered through the Mechanical Engineering Department at Iowa State University. Of these 15 credits, three must be from one of the senior capstone design courses. The remaining 12 credits may be from the core curriculum program (if a student is deficient in these courses) or from 400-level M E technical electives. No more than 3 credits of independent study shall be applied to meet the 12 credit requirement.

See also: A 4-year plan of study grid showing course template by semester.

Courses primarily for undergraduates:**M E 160. Mechanical Engineering Problem Solving with Computer Applications.**

(2-2) Cr. 3. F.S. *Prereq:* MATH 142 or satisfactory scores on Mathematics placement examinations; credit or enrollment in MATH 165.

Introduction to the field of Mechanical Engineering through problem-solving in a range of topics including statics, mechanics of materials and thermo-fluids. Techniques to professionally present and communicate solutions. Use of MATLAB computer programming to aid problem solving, including curve fitting and graphing. Only one of M E 160, ENGR 160, Aer E 160, C E 160, CPR E 185, E E 185, S E 185 and I E 148 may count towards graduation.

M E 170. Engineering Graphics and Introductory Design.

(2-2) Cr. 3. F.S. *Prereq:* Satisfactory scores on mathematics placement assessments; credit or enrollment in MATH 142

Integration of fundamental graphics, computer modeling, and engineering design. Applications of multiview drawings and dimensioning. Techniques for visualizing, analyzing, and communicating 3-D geometries. Application of the design process including written and oral reports. Freehand and computer methods.

M E 190. Learning Communities.

(1-0) Cr. 1. Repeatable. F.S.

Enrollment in M E learning communities.

M E 202. Mechanical Engineering - Professional Planning.

(1-0) Cr. R. F.S. *Prereq:* Sophomore classification

Preparation for a career in mechanical engineering; discussion of opportunities for leadership, undergraduate research, experiential learning.

M E 220. Globalization and Sustainability.

(Cross-listed with ANTHR, ENV S, GLOBE, MAT E, SOC, T SC). (3-0) Cr. 3. F.S.

An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department. Meets International Perspectives Requirement.

M E 231. Engineering Thermodynamics I.

(3-0) Cr. 3. F.S.SS. *Prereq:* MATH 265, CHEM 167, PHYS 222

Fundamental concepts based on zeroth, first and second laws of thermodynamics. Properties and processes for ideal gases and solid-liquid-vapor phases of pure substances. Applications to vapor power cycles. Credit for either M E 231 or 330, but not both, may be applied toward graduation.

M E 270. Introduction to Mechanical Engineering Design.

(1-6) Cr. 3. F.S. *Prereq:* M E 170 or equivalent, PHYS 221

Overview of mechanical engineering design with applications to thermal and mechanical systems. Introduction to current design practices used in industry. Semester-long team project focused on addressing societal needs. Past projects include designing human powered charging systems and products for developing nations.

M E 298. Cooperative Education.

Cr. R. F.S.SS. *Prereq:* Permission of department

First professional work period in the cooperative education program. Students must register for this course before commencing work.

M E 324. Manufacturing Engineering.

(3-0) Cr. 3. F.S.SS. *Prereq:* M E 270, E M 324, MAT E 273 and M E 324L or permission of instructor

Fundamentals of manufacturing processes including forming, machining, casting and welding with emphasis on design considerations in manufacturing. Mechanical behavior of metallic materials. Modern manufacturing practices.

M E 324L. Manufacturing Engineering Laboratory.(0-2) Cr. 1. F.S.SS. *Prereq: M E 270, M A T E 273*

Laboratory exercises in metrology, mechanical testing (tensile/compression and hardness tests), computer aided design (CAD), machining operations, metal welding, metal casting, and bulk/sheet metal forming.

M E 325. Mechanical Component Design.(3-0) Cr. 3. F.S.SS. *Prereq: M E 170, E M 324, S T A T 305*

Philosophy of design and design methodology. Consideration of stresses and failure models useful for static and fatigue loading. Analysis, selection and synthesis of machine elements.

M E 332. Engineering Thermodynamics II.(3-0) Cr. 3. F.S.SS. *Prereq: M E 231*

Gas power cycles. Fundamentals of gas mixtures, psychrometry, and thermochemistry. Applications to one-dimensional compressible flow, refrigeration, air conditioning and combustion processes.

M E 335. Fluid Flow.(3-2) Cr. 4. F.S.SS. *Prereq: Credit or enrollment in M E 332, E M 345, M A T H 266 or M A T H 267*

Incompressible and compressible fluid flow fundamentals. Dimensional analysis and similitude. Internal and external flow applications. Lab experiments emphasizing concepts in thermodynamics and fluid flow. Written reports are required.

M E 370. Engineering Measurements.(2-3) Cr. 3. F.S.SS. *Prereq: E E 442, S T A T 305*

Fundamentals of design, selection, and operation of components of measuring systems. Measurement processes, data acquisition systems, analysis of data, and propagation of measurement uncertainty.

M E 388. Sustainable Engineering and International Development.(Cross-listed with A B E, C E, E E, M A T E). (2-2) Cr. 3. F. *Prereq: Junior classification in engineering*

Multi-disciplinary approach to sustainable engineering and international development, sustainable development, appropriate design and engineering, feasibility analysis, international aid, business development, philosophy and politics of technology, and ethics in engineering. Engineering-based projects from problem formulation through implementation. Interactions with partner community organizations or international partners such as nongovernment organizations (NGOs). Course readings, final project/design report. Meets International Perspectives Requirement.

M E 389. Applied Methods in Sustainable Engineering.

(Cross-listed with M A T E). (3-0) Cr. 3. Repeatable, maximum of 2 times. SS.

Learning how to work in a cross disciplinary engineering team to develop and implement appropriate solutions for cooking, lighting, farming, and sanitation in a rural village in Mali. Engineering principles necessary for the projects to be worked on including lighting solutions in a village without electricity, new construction materials, water, etc. Application of engineering principles from core courses. Design conception, feasibility, production, and implementation within context of local cultures and needs. Emphasis on creating real solutions that can be implemented with the constraints imposed by cost, time, manufacturing capability, and culture.

Meets International Perspectives Requirement.

M E 396. Summer Internship.

Cr. R. Repeatable. SS. *Prereq: Permission of department and Engineering Career Services*

Summer professional work period.

M E 397. Engineering Internship.

Cr. R. Repeatable. F.S. *Prereq: Permission of department and Engineering Career Services*

Professional work period, one semester maximum per academic year.

M E 398. Cooperative Education.

Cr. R. F.S.SS. *Prereq: M E 298, permission of department and Engineering Career Services*

Second professional work period in the cooperative education program. Students must register for this course before commencing work.

M E 410. Mechanical Engineering Applications of Mechatronics.(2-2) Cr. 3. S. *Prereq: E E 442, E E 448, credit or enrollment in M E 421*

Fundamentals of sensor characterization, signal conditioning and motion control, coupled with concepts of embedded computer control. Digital and analog components used for interfacing with computer controlled systems. Mechanical system analysis combined with various control approaches. Focus on automation of hydraulic actuation processes. Laboratory experiences provide hands-on development of mechanical systems.

M E 411. Automatic Controls.(2-2) Cr. 3. F. *Prereq: M E 421*

Methods and principles of automatic control. Pneumatic, hydraulic, and electrical systems. Representative applications of automatic control systems. Mathematical analysis of control systems.

M E 412. Ethical Responsibilities of a Practicing Engineer.(3-0) Cr. 3. F. *Prereq: Credit or enrollment in M E 325*

The study of ethics in engineering design and the engineering profession. A comprehensive look at when ethical decisions must be made and an approach to make them. The approach takes into account moral, legal, technical, experiential, and standards to aid in ethical decision making. Each area will be studied through lectures, debates, guest speakers, class discussion, and case studies.

M E 413. Fluid Power Engineering.(Cross-listed with A B E). (2-2) Cr. 3. F. *Prereq: Credit or enrollment in E M 378 or M E 335, A B E 216 or M E 270*

Properties of hydraulic fluids. Performance parameters of fixed and variable displacement pumps and motors. Hydraulic circuits and systems. Hydrostatic transmissions. Characteristics of control valves. Analysis and design of hydraulic systems for power and control functions.

M E 415. Mechanical Systems Design.(0-6) Cr. 3. F.S. *Prereq: M E 324, M E 325*

Mechanical Engineering Capstone Design course. Team approach to solving design problems involving mechanical systems. Teams will use current design practices they will encounter in industry. Document decisions concerning form and function, material specification, manufacturing methods, safety, cost, and conformance with codes and standards. Solution description includes oral and written reports. Projects often worked with industry sponsors.

M E 417. Advanced Machine Design.(Dual-listed with M E 517). (3-0) Cr. 3. S. *Prereq: M E 325, M A T E 273*

Stress life, strain life, and fracture mechanics approaches to fatigue life and design with metals, polymers and ceramics. Introduction to material selection in design of machine components. Thermal and structural considerations in design of machine components and hybrid materials. Course project and relevant literature review required for graduate credit.

M E 418. Mechanical Considerations in Robotics.(Dual-listed with M E 518). (3-0) Cr. 3. S. *Prereq: Credit or enrollment in M E 421*

Three dimensional kinematics, dynamics, and control of robot manipulators, hardware elements and sensors. Laboratory experiments using industrial robots.

M E 419. Computer-Aided Design.(3-0) Cr. 3. F. *Prereq: M E 325*

Theory and applications of computer-aided design. Computer graphics programming, solid modeling, assembly modeling, and finite element modeling. Mechanical simulation, process engineering, rapid prototyping and manufacturing integration.

M E 421. System Dynamics and Control.(3-2) Cr. 4. F.S.SS. *Prereq: E E 442, E E 448, E M 345, M A T H 267*

Modeling and simulation of mechanical, electrical, fluid, and/or thermal systems. Development of equations of motion and dynamic response characteristics in time and frequency domains. Fundamentals of classical control applications, including mathematical analysis and design for closed loop control systems. Introduction to computer interfacing for simulation, data acquisition, and control. Laboratory exercises for hands-on system investigation and control implementation.

M E 423. Creativity and Imagination for Engineering and Design.(Dual-listed with M E 523). (3-0) Cr. 3. F. *Prereq: Graduate classification*

Broad exposure to the study of creativity, both in scientific research and in engineering design practice. Exploration of the subject includes readings from a variety of fields; in-class discussion and activities; and individual and team projects that enable students to develop their creativity. Graduate students also will do independent research on creativity and develop a related teaching module.

M E 425. Optimization Methods for Complex Designs.(Dual-listed with M E 525). (3-0) Cr. 3. S. *Prereq: M E 160, M A T H 265*

Optimization involves finding the 'best' according to specified criteria. Review of a range of optimization methods from traditional nonlinear to modern evolutionary methods such as Genetic algorithms. Examination of how these methods can be used to solve a wide variety of design problems across disciplines, including mechanical systems design, biomedical device design, biomedical imaging, and interaction with digital medical data. Students will gain knowledge of numerical optimization algorithms and sufficient understanding of the strengths and weaknesses of these algorithms to apply them appropriately in engineering design. Experience includes code writing and off-the-shelf routines. Numerous case-studies of real-world situations in which problems were modeled and solved using advanced optimization techniques.

M E 433. Alternative Energy.(3-0) Cr. 3. F. *Prereq:* *PHYS 221/PHYS 222 and CHEM 167*

Basic principles, performance, and cost analysis of alternative energy systems including biofuels, bioenergy, wind, solar, fuel cells, storage and other alternative energy systems. Performance analysis and operating principles of systems and components, and economic analysis for system design and operation will be taught. Emphasis is on alternative energy technologies needed to meet our future energy needs at various scales ranging from household to city to national levels.

M E 436. Heat Transfer.(3-2) Cr. 4. F.S.SS. *Prereq:* *M E 335*

Heat transfer by conduction, convection, and radiation. Similarity concepts in heat, mass, and momentum transfer. Methods for determination of heat transfer coefficients. Combined modes of heat transfer. Heat exchangers. Lab experiments emphasizing concepts in thermodynamics and heat transfer. Written reports are required.

M E 437. Introduction to Combustion Engineering.(3-0) Cr. 3. S. *Prereq:* *Credit in M E 332 or equivalent and credit or enrollment in M E 335 or equivalent.*

Introduction to the fundamentals of combustion and the analysis of combustion systems for gaseous, liquid, and solid fuels-including biomass fuels. Combustion fundamentals are applied to the analysis of engines; turbines, biomass cookstoves; suspension, fixed-bed, and fluidized-bed furnaces; and other combustion devices.

M E 441. Fundamentals of Heating, Ventilating, and Air Conditioning.(3-0) Cr. 3. F. *Prereq:* *Credit or enrollment in M E 436*

Space conditioning and moist air processes. Application of thermodynamics, heat transfer, and fluid flow principles to the analysis of heating, ventilating, and air conditioning components and systems. Performance and specification of components and systems.

M E 442. Heating and Air Conditioning Design.(1-5) Cr. 3. S. *Prereq:* *M E 441*

Design criteria and assessment of building environment and energy requirements. Design of heating, ventilating, and air conditioning systems. System control and economic analysis. Oral and written reports required.

M E 444. Elements and Performance of Power Plants.(3-0) Cr. 3. S. *Prereq:* *M E 332, credit or enrollment in M E 335*

Basic principles, thermodynamics, engineering analysis of power plant systems. Topics include existing power plant technologies, the advanced energyplex systems of the future, societal impacts of power production, and environmental and regulatory concerns.

M E 448. Fluid Dynamics of Turbomachinery.(Cross-listed with AER E). (3-0) Cr. 3. S. *Prereq:* *M E 335 or equivalent*

Applications of principles of fluid mechanics and thermodynamics in performance analysis and design of turbomachines. Conceptual and preliminary design of axial and radial flow compressors and turbines using velocity triangles and through-flow approaches.

M E 449. Internal Combustion Engines.(3-1) Cr. 3. F. *Prereq:* *M E 335*

Basic principles, thermodynamics, combustion, and exhaust emissions of spark-ignition and compression-ignition engines. Laboratory determination of fuel properties and engine performance. Effects of engine components and operating conditions on performance. Written reports required.

M E 451. Engineering Acoustics.(Cross-listed with E M). (2-2) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* *PHYS 221 and MATH 266 or MATH 267*

Properties of sound waves and noise metrics (pressure, power levels, etc). Sound sources and propagation. Principles of wave propagation in one-, two-, and three-dimensions. Wave reflection and transmission. Wave propagation in rectangular, cylindrical, and annular ducts. Acoustics fields for model noise sources. Introduction to aerodynamic noise sources in aircraft, aircraft engines, and wind turbines. Selected laboratory experiments.

M E 456. Machine Vision.(Dual-listed with M E 556). Cr. 3. Repeatable. *Prereq:* *MATH 317, M E 421 or permission of instructor*

Broad exposure to the study of creativity, both in scientific research and in engineering design practice. Exploration of the subject includes readings from a variety of fields; in-class discussion and activities; and individual and team projects that enable students to develop their creativity. Graduate students also will do independent research on creativity and develop a related teaching module.

M E 466. Multidisciplinary Engineering Design.(Cross-listed with A B E, AER E, CPR E, E E, ENGR, I E, MAT E). (1-4) Cr. 3. Repeatable. F.S. *Prereq:* *Student must be within two semesters of graduation and permission of instructor.*

Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing and life cycle considerations. Application of design tools such as CAD, CAM and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations, computer models and engineering drawings.

M E 467. Multidisciplinary Engineering Design II.(Cross-listed with AER E, CPR E, E E, ENGR, I E, MAT E). (1-4) Cr. 3. Repeatable, maximum of 2 times. F.S. *Prereq:* *Student must be within two semesters of graduation or receive permission of instructor.*

Build and test of a conceptual design. Detail design, manufacturability, test criteria and procedures. Application of design tools such as CAD and CAM and manufacturing techniques such as rapid prototyping. Development and testing of a full-scale prototype with appropriate documentation in the form of design journals, written reports, oral presentations and computer models and engineering drawings.

M E 475. Modeling and Simulation.(3-0) Cr. 3. S. *Prereq:* *M E 421, credit or enrollment in M E 436*

Introduction to computer solution techniques required to simulate flow, thermal, and mechanical systems. Methods of solving ordinary and partial differential equations and systems of algebraic equations; interpolation, numerical integration; finite difference and finite element methods.

M E 479. Sustainability Science for Engineering Design.(3-0) Cr. 3. S. *Prereq:* *Any engineering design course*

Scientific principles and quantitative methods concerning sustainability. Analysis of environmental issues associated with engineering design and product manufacturing in an economic and social context. Heuristic and analytical methods for assessing the sustainability of existing or potential product/service designs. Application to a design problem in teams.

M E 484. Technology, Globalization and Culture.(Dual-listed with M E 584). (Cross-listed with WLC). (3-0) Cr. 3. F. *Prereq:* *senior classification for M E 484; graduate classification for M E 584*

Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists. Meets International Perspectives Requirement.

M E 486. Appropriate Technology Design.(3-0) Cr. 3. F. *Prereq:* *M E 231, M E 270, enrollment in M E 335; or permission of instructor.*

Hands-on design experience utilizing knowledge acquired in core mechanical engineering courses. Emphasis with engineering problem formulation and solution, oral and written communication, team decision-making and ethical conduct. Design projects include engineering considerations in appropriate technology which have multidisciplinary components in economics and sociology.

M E 490. Independent Study.Cr. 1-6. Repeatable. *Prereq:* *Senior classification*

Investigation of topics holding special interest of students and faculty. Election of course and topic must be approved in advance by supervising faculty.

M E 490H. Independent Study: Honors.Cr. 1-6. Repeatable. *Prereq:* *Senior classification*

Investigation of topics holding special interest of students and faculty. Election of course and topic must be approved in advance by supervising faculty.

M E 490J. Independent Study: Thermodynamics and Energy Utilization.Cr. 1-6. Repeatable. *Prereq:* *Senior classification*

Investigation of topics holding special interest of students and faculty. Election of course and topic must be approved in advance by supervising faculty.

M E 490M. Independent Study: Nuclear Engineering.Cr. 1-6. Repeatable. *Prereq:* *Senior classification*

Investigation of topics holding special interest of students and faculty. Election of course and topic must be approved in advance by supervising faculty.

M E 490O. Independent Study: Design and Optimization.Cr. 1-6. Repeatable. *Prereq:* *Senior classification*

Investigation of topics holding special interest of student and faculty. Election of course and topic must be approved in advance by supervising faculty.

M E 490P. Dynamic Systems and Controls.

Cr. 1. Repeatable. *Prereq: Senior classification*
Investigation of topics holding special interest of student and faculty. Election of course and topic must be approved in advance by supervising faculty.

M E 490Q. Independent Study: Materials Processing and Mechanics.

Cr. 1-6. Repeatable. *Prereq: Senior classification*
Investigation of topics holding special interest of student and faculty. Election of course and topic must be approved in advance by supervising faculty.

M E 490R. Independent Study: Thermo-fluids.

Cr. 1-6. Repeatable. *Prereq: Senior classification*
Investigation of topics holding special interest of student and faculty. Election of course and topic must be approved in advance by supervising faculty.

M E 490S. Independent Study: Emerging Areas.

Cr. 1-6. Repeatable. *Prereq: Senior classification*
Investigation of topics holding special interest of student and faculty. Election of course and topic must be approved in advance by supervising faculty.

M E 498. Cooperative Education.

Cr. R. Repeatable. F.S.SS. *Prereq: M E 298, permission of department and Engineering Career Services*
Third and subsequent professional work periods in the cooperative education program. Students must register for this course before commencing work.

Courses primarily for graduate students, open to qualified undergraduates:**M E 511. Advanced Control Design.**

(3-0) Cr. 3. S. *Prereq: M E 411*
Application of control design methods using continuous, discrete, and frequency-based models. Approaches include classical, pole assignment, model reference, internal model, and adaptive control methods. Mechanical design projects.

M E 517. Advanced Machine Design.

(Dual-listed with M E 417). (3-0) Cr. 3. S. *Prereq: M E 325, MAT E 273*
Stress life, strain life, and fracture mechanics approaches to fatigue life and design with metals, polymers and ceramics. Introduction to material selection in design of machine components. Thermal and structural considerations in design of machine components and hybrid materials. Course project and relevant literature review required for graduate credit.

M E 518. Mechanical Considerations in Robotics.

(Dual-listed with M E 418). (3-0) Cr. 3. S. *Prereq: Credit or enrollment in 421*
Three dimensional kinematics, dynamics, and control of robot manipulators, hardware elements and sensors. Laboratory experiments using industrial robots.

M E 520. Material and Manufacturing Considerations in Design.

(3-0) Cr. 3. F. *Prereq: M E 324, M E 325*
Integration of materials, design and manufacturing. Materials selection. Design for assembly and manufacturing (DFMA). Design and redesign to facilitate cost-effective manufacturing using material selection and DFMA software.

M E 521. Mechanical Behavior and Manufacturing of Polymers and Composites.

(Cross-listed with M S E). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: M E 324 or MAT E 272 and E M 324*
Effect of chemical structure and morphology on properties. Linear viscoelasticity, damping and stress relaxation phenomena. Structure and mechanics of filler and fiber reinforced composites. Mechanical properties and failure mechanisms. Material selection and designing with polymers. Processing of polymer and composite parts.

M E 523. Creativity and Imagination for Engineering and Design.

(Dual-listed with M E 423). (3-0) Cr. 3. F. *Prereq: Graduate classification*
Broad exposure to the study of creativity, both in scientific research and in engineering design practice. Exploration of the subject includes readings from a variety of fields; in-class discussion and activities; and individual and team projects that enable students to develop their creativity. Graduate students also will do independent research on creativity and develop a related teaching module.

M E 525. Optimization Methods for Complex Designs.

(Dual-listed with M E 425). (Cross-listed with HCI). (3-0) Cr. 3. S. *Prereq: M E 160, MATH 265*

Optimization involves finding the 'best' according to specified criteria. Review of a range of optimization methods from traditional nonlinear to modern evolutionary methods such as Genetic algorithms. Examination of how these methods can be used to solve a wide variety of design problems across disciplines, including mechanical systems design, biomedical device design, biomedical imaging, and interaction with digital medical data. Students will gain knowledge of numerical optimization algorithms and sufficient understanding of the strengths and weaknesses of these algorithms to apply them appropriately in engineering design. Experience includes code writing and off-the-shelf routines. Numerous case-studies of real-world situations in which problems were modeled and solved using advanced optimization techniques.

M E 527. Mechanics of Machining and Finishing Processes.

(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: M E 324*
Mechanics of material removal for ductile materials. Shear zone theory. Oblique cutting. Heat transfer in machining. Milling and grinding. Mechanics of material removal for brittle materials. Optimal selection and design of cutting parameters. Control of machining processes. Principles of precision finishing. Design considerations for machining and finishing processes.

M E 528. Micro/Nanomanufacturing.

(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: M E 324*
Concepts and applications of micro/nanotechnology appropriate to the manufacturing field. An overview of micro/nano-fabrication techniques including mechanical, EDM, laser and lithography. MEMS device fabrication. Scaling laws. Top down and bottom up approaches of nanomanufacturing. Experimental or theoretical project leading to potential submission of a manuscript for journal or conference.

M E 530. Advanced Thermodynamics.

(3-0) Cr. 3. F. *Prereq: M E 332*
Fundamentals of thermodynamics from the classical viewpoint with emphasis on the use of the first and second laws for analysis of thermal systems. Generalized thermodynamic relationships. Computer applications of thermodynamic properties and system analysis. Selected topics.

M E 531. Advanced Energy Systems and Analysis.

Cr. 3. Repeatable. *Prereq: any undergraduate thermodynamics course; mathematics through differential equations*
Introduction to energy systems including economic and thermodynamic principles. Various production systems will be analyzed. Application to transportation and building systems will be emphasized. Sustainability, climate change and other current energy system topics.

M E 532. Compressible Fluid Flow.

(Cross-listed with AER E). (3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: AER E 311*
Thermodynamics of compressible flow. Viscous and inviscid compressible flow equations. One dimensional steady flow; isentropic flow, normal shock waves oblique and curved shocks. Method of characteristics. Subsonic, transonic, supersonic and hypersonic flows. Compressible boundary layers.

M E 535. Thermochemical Processing of Biomass.

(Cross-listed with BRT). (3-0) Cr. 3. S. *Prereq: Undergraduate course work in thermodynamics and transport phenomena*
Introduction to thermal and catalytic processes for the conversion of biomass to biofuels and other biobased products. Topics include gasification, fast pyrolysis, hydrothermal processing, syngas to synfuels, and bio-oil upgrading. Application of thermodynamics, heat transfer, and fluid dynamics to bioenergy and biofuels.

M E 536. Advanced Heat Transfer.

(3-0) Cr. 3. S. *Prereq: M E 436*
Advanced treatment of heat transmission by conduction, convection, and radiation.

M E 538. Advanced Fluid Flow.

(3-0) Cr. 3. F. *Prereq: Credit or enrollment in M E 436*
Detailed analysis of incompressible/compressible, viscous/inviscid, laminar/turbulent, and developing fluid flows on a particle/point control volume basis.

M E 542. Advanced Combustion.

(3-0) Cr. 3. S. *Prereq: M E 332 or CH E 381*
Thermochemistry and transport theory applied to combustion. Gas phase equilibrium. Energy balances. Reaction kinetics. Flame temperatures, speed, ignition, and extinction. Premixed and diffusion flames. Combustion aerodynamics. Mechanisms of air pollution.

M E 543. Introduction to Random Vibrations and Nonlinear Dynamics.

(Cross-listed with E M). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* 444

Vibrations of continuous systems. Nonlinear vibration phenomena, perturbation expansions; methods of multiple time scales and slowly-varying amplitude and phase. Characteristics of random vibrations; random processes, probability distributions, spectral density and its significance, the normal or Gaussian random process. Transmission of random vibration, response of simple single and two-degree-of-freedom systems to stationary random excitation. Fatigue failure due to random excitation.

M E 545. Thermal Systems Design.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* M E 436

Integrating thermodynamics, fluid mechanics, and heat transfer to model thermal equipment and to simulate thermal systems. Second law and parametric analysis; cost estimation, life cycle analysis and optimization. Some computer programming required.

M E 546. Computational Fluid Mechanics and Heat Transfer I.

(Cross-listed with AER E). (3-0) Cr. 3. F. *Prereq:* M E 355

Basic concepts of discretization, consistency, and stability. Explicit and, implicit methods for ordinary differential equations. Methods for each type of partial differential equation. Iterative solution methods; curvilinear grids. Examples of basic algorithms.

M E 547. Computational Fluid Mechanics and Heat Transfer II.

(Cross-listed with AER E). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

Prereq: AER E 546

Application of computational methods to current problems in fluid mechanics and heat transfer. Methods for solving the Navier-Stokes and reduced equation sets such as the Euler, boundary layer, and parabolized forms of the conservation equations. Introduction to relevant aspects of grid generation and turbulence modeling.

M E 552. Advanced Acoustics.

(Cross-listed with E M). (3-0) Cr. 3. F. *Prereq:* E M 451

Theoretical acoustics: wave propagation in fluids; acoustic radiation, diffraction and scattering; nonlinear acoustics; radiation force; cavitation; and ray acoustics.

M E 556. Machine Vision.

(Dual-listed with M E 456). Cr. 3. Repeatable. *Prereq:* MATH 317, M E 421 or permission of instructor

Broad exposure to the study of creativity, both in scientific research and in engineering design practice. Exploration of the subject includes readings from a variety of fields; in-class discussion and activities; and individual and team projects that enable students to develop their creativity. Graduate students also will do independent research on creativity and develop a related teaching module.

M E 557. Computer Graphics and Geometric Modeling.

(Cross-listed with COM S, CPR E). (3-0) Cr. 3. F.S. *Prereq:* M E 421, programming experience in C

Fundamentals of computer graphics technology. Data structures. Parametric curve and surface modeling. Solid model representations. Applications in engineering design, analysis, and manufacturing.

M E 561. Scanning Probe Microscopy.

(2-1) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* First year physics, chemistry

Introduction to the scanning probe microscope (SPM, also known as atomic force microscope or AFM) and associated measurement techniques. Overview or instrumentation system, basic principles of operation, probe-sample interaction and various operational modes to obtain micro/nanoscale structure and force spectroscopy of material surfaces. Examples of SPM significance and applications in science and engineering research, nanotechnology and other industries. Laboratory work involving use of a scanning probe microscope system is an integral part of the course.

M E 563. Micro and Nanoscale Mechanics.

(3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq:* E M 324 and M E 325

Review of Fundamentals: (Elasticity, Electromagnetism, Mechanical response), Mechanics of thermally, electrostatically and magnetically actuated microsystems, Mechanics and design of nanostructured materials, mechanics of surface stress engineering and its implications to sensors and thin film structures.

M E 564. Fracture and Fatigue.

(Cross-listed with AER E, E M, M S E). (3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* E M 324 and either MAT E 216 or MAT E 273 or MAT E 392.

Undergraduates: Permission of instructor

Materials and mechanics approach to fracture and fatigue. Fracture mechanics, brittle and ductile fracture, fracture and fatigue characteristics, fracture of thin films and layered structures. Fracture and fatigue tests, mechanics and materials designed to avoid fracture or fatigue.

M E 566. Phase Transformation in Elastic Materials.

(Cross-listed with E M). (3-0) Cr. 3. S. *Prereq:* EM 510 or EM 516 or EM 514

Continuum thermodynamics and kinetics approaches to phase transformations. Phase field approach to stress- and temperature-induced martensitic transformations and twinning at the nanoscale. Nucleation and growth. Nanostructural evaluation. Analytical and numerical solutions. Surface stresses and energy. Surface-induced phase transformations. Large Strain formulation.

M E 573. Random Signal Analysis and Kalman Filtering.

(Cross-listed with AER E, E E). (3-0) Cr. 3. F. *Prereq:* E E 324 or AER E 331 or M E 370 or M E 411 or MATH 341

Elementary notions of probability. Random processes. Autocorrelation and spectral functions. Estimation of spectrum from finite data. Response of linear systems to random inputs. Discrete and continuous Kalman filter theory and applications. Smoothing and prediction. Linearization of nonlinear dynamics.

M E 574. Optimal Control.

(Cross-listed with AER E, E E). (3-0) Cr. 3. S. *Prereq:* E E 577

The optimal control problem. Variational approach. Pontryagin's principle, Hamilton-Jacobi equation. Dynamic programming. Time-optimal, minimum fuel, minimum energy control systems. The regulator problem. Structures and properties of optimal controls.

M E 575. Introduction to Robust Control.

(Cross-listed with AER E, E E). (3-0) Cr. 3. *Prereq:* E E 577

Introduction to modern robust control. Model and signal uncertainty in control systems. Uncertainty description. Stability and performance robustness to uncertainty. Solutions to the H₂, H_∞, and L₁ control problems. Tools for robustness analysis and synthesis.

M E 576. Digital Feedback Control Systems.

(Cross-listed with AER E, E E). (3-0) Cr. 3. F. *Prereq:* E E 475 or AER E 432 or M E 411 or 414 or MATH 415; and MATH 267

Sampled data, discrete data, and the z-transform. Design of digital control systems using transform methods: root locus, frequency response and direct design methods. Design using state-space methods. Controllability, observability, pole placement, state estimators. Digital filters in control systems. Microcomputer implementation of digital filters. Finite wordlength effects. Linear quadratic optimal control in digital control systems. Simulation of digital control systems.

M E 577. Linear Systems.

(Cross-listed with AER E, E E, MATH). (3-0) Cr. 3. F. *Prereq:* E E 324 or AER E 331 or MATH 415; and MATH 307

Linear algebra review. Least square method and singular value decomposition. State space modeling of linear continuous-time systems. Solution of linear systems. Controllability and observability. Canonical description of linear equations. Stability of linear systems. State feedback and pole placements. Observer design for linear systems.

M E 578. Nonlinear Systems.

(Cross-listed with AER E, E E, MATH). (3-0) Cr. 3. S. *Prereq:* E E 577

Linear vs nonlinear systems. Phase plane analysis. Bifurcation and center manifold theory. Lyapunov stability. Absolute stability of feedback systems. Input-output stability. Passivity theory and feedback linearization. Nonlinear control design techniques.

M E 580. Virtual Environments, Virtual Worlds, and Application.

(Cross-listed with HCI). (3-0) Cr. 3. F. *Prereq:* Senior or Graduate status.

A systematic introduction to the underpinnings of Virtual Environments (VE), Virtual Worlds, advanced displays and immersive technologies; and an overview of some of the applications areas particularly virtual engineering.

M E 584. Technology, Globalization and Culture.

(Dual-listed with M E 484). (Cross-listed with WLC). (3-0) Cr. 3. F. *Prereq:* senior classification for M E 484; graduate classification for M E 584

Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists.

Meets International Perspectives Requirement.

M E 590. Special Topics.

Cr. 1-8. Repeatable.

M E 590Q. Special Topics: Independent Literature Investigation.

Cr. 1-8. Repeatable.

M E 590T. Special Topics: Biological and Nanoscale Sciences.

Cr. 1-8. Repeatable.

M E 590U. Special Topics: Complex Fluid Systems.

Cr. 1-8. Repeatable.

M E 590V. Special Topics: Clean Energy Technologies.

Cr. 1-8. Repeatable.

M E 590W. Special Topics: Design and Manufacturing Innovation.

Cr. 1-8. Repeatable.

M E 590Z. Special Topics: Simulation and Visualization.

Cr. 1-8. Repeatable.

M E 599. Creative Component.

Cr. arr. Repeatable.

Courses for graduate students:**M E 600. Seminar.**

Cr. R. Repeatable.

(1-0).

M E 625. Surface Modeling.(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: M E 557, programming experience in C*

Theory and implementation of contemporary parametric sculptured surface modeling technology. Non-uniform rational B-spline (NURBS) curves and surfaces. Fundamental computational algorithms. Construction techniques. Advanced modeling topics. Computer projects.

M E 632. Multiphase Flow.(Cross-listed with CH E). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: M E 538*

Single particle, multiparticle and two-phase fluid flow phenomena (gas-solid, liquid-solid and gas-liquid mixtures); particle interactions, transport phenomena, wall effects; bubbles, equations of multiphase flow. Dense phase (fluidized and packed beds) and ducted flows; momentum, heat and mass transfer. Computer solutions.

M E 637. Convection Heat Transfer.(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq: M E 436*

Convection heat transfer to internal or external flows under laminar or turbulent conditions. Dimensionless parameters. Classical solutions of Newtonian viscous flows. Forced and free convection. Special topics.

M E 638. Radiation Heat Transfer.(3-0) Cr. 3. F. *Prereq: M E 436*

Techniques for analysis of radiation in enclosures. Radiative properties of surfaces. Radiative transfer in participating media. Combined modes of transfer. Approximate methods of analysis.

M E 647. Advanced High Speed Computational Fluid Dynamics.

(Cross-listed with AER E). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

Prereq: AER E 547

An examination of current methods in computational fluid dynamics. Differencing strategies. Advanced solution algorithms for unstructured meshes. Grid generation. Construction of higher-order CFD algorithms. Parallel computing. Current applications. Use of state of the art CFD codes.

M E 690. Advanced Topics.

Cr. arr. Repeatable.

Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 690G. Advanced Topics: Advanced Machine Design.

Cr. arr. Repeatable.

Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 690O. Advanced Topics: Engineering Computation.

Cr. arr. Repeatable.

Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 690Q. Advanced Topics: Independent Literature Investigation.

Cr. arr. Repeatable.

Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 690T. Advanced Topics: Biological and Nanoscale Sciences.

Cr. arr. Repeatable. F.S.SS.

Investigation of Special Topics: Biological and Nanoscale Sciences of special interest to graduate students in mechanical engineering.

M E 690U. Advanced Topics: Complex Fluid Systems.

Cr. arr. Repeatable. F.S.SS.

Investigation of Special Topics: Complex Fluid Systems of special interest to graduate students in mechanical engineering.

M E 690V. Advanced Topics: Clean Energy Technologies.

Cr. arr. F.S.SS.

Investigation of Special Topics: Clean Energy Technologies of special interest to graduate students in mechanical engineering.

M E 690W. Advanced Topics: Design and Manufacturing Innovation.

Cr. arr. Repeatable.

Investigation of Design & Manufacturing Innovation of special interest to graduate students in mechanical engineering.

M E 690Z. Advanced Topics: Simulation and Visualization.

Cr. arr. Repeatable. F.S.SS.

Investigation of Special Topics: Simulation and Visualization of special interest to graduate students in mechanical engineering.

M E 697. Engineering Internship.Cr. R. Repeatable. *Prereq: Permission of Director of Graduate Education, graduate classification*

One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

M E 699. Research.

Cr. arr. Repeatable.

Offered on a satisfactory-fail basis only.

Non-destructive Evaluation Engineering

Minor supervised by an interdisciplinary faculty committee, administered by Aerospace Engineering.

The NDE minor is a unique opportunity for engineering students to acquire a multi-disciplinary engineering qualification in the rapidly evolving field of Nondestructive Evaluation.

Undergraduate Study

Students interested in completing the NDE engineering minor must be enrolled in the College of Engineering at Iowa State University. They must submit the "Request for Minor" form and complete the minimum prescribed 16 credit-hours of course work defined below. Acceptance is based on approval by the administering department, Aerospace Engineering.

The course requirements for the undergraduate minor in NDE are:

MAT E/E M 362	Principles of Nondestructive Testing	3
MAT E/E M 362L	Nondestructive Testing Laboratory	1
Two of the following NDE specific courses		6-7
M S E/E M 550	Fundamentals of Nondestructive Evaluation	
E M 350	Introduction to Nondestructive Evaluation Engineering	
MAT E 488	Eddy Current Nondestructive Evaluation	
Independent study course		
Two of the following		6-7
AER E 321	Flight Structures Analysis	
AER E 421	Advanced Flight Structures	
AER E 423	Composite Flight Structures	
E E 323	Introduction to Digital Signal Processing	4
E E 418	High Speed System Engineering Measurement and Testing	4
CPR E 418	High Speed System Engineering Measurement and Testing	4
I E 348	Solidification Processes	3
I E 361	Statistical Quality Assurance	3
STAT 231	Probability and Statistical Inference for Engineers	
STAT 305	Engineering Statistics	
or MAT E 316	Computational Methods in Materials	
STAT 322	Probabilistic Methods for Electrical Engineers	
AER E 422	Vibrations and Aeroelasticity	
AER E 426	Design of Aerospace Structures	
E M 424	Intermediate Mechanics of Materials	
E M 425	Introduction to the Finite Element Method	
M E 417	Advanced Machine Design	
M E 418	Mechanical Considerations in Robotics	
MAT E 418	Mechanical Behavior of Materials	
MAT E 443	Physical Metallurgy of Ferrous Alloys	

MAT E 444	Corrosion and Failure Analysis
Total Credits	34-36

A combined average grade of C or higher is required in courses applied to the minor and the minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

Nuclear Engineering

<http://www.me.iastate.edu/students/degrees-and-programs/engineering-minors/>

Minor administered by Mechanical Engineering

The nuclear engineering undergraduate minor allows engineering students to acquire a formal background in nuclear engineering topics that will not only benefit them, but also fulfill a societal need for future hiring of engineers. Through this program, students can enroll in a formal minor that enables them to acquire a basic and fundamental knowledge of nuclear sciences and engineering, thus enabling them to pursue employment in any one of a number of fields associated with the construction, operation or regulation of nuclear power generation.

Students completing this minor acquire a body of knowledge in the fundamentals of nuclear science and engineering. The required courses selected ensures that all graduates of the nuclear engineering minor obtain a minimum body of knowledge in nuclear science and engineering that would allow them to apply their specialized field of engineering knowledge to nuclear-related applications, such as nuclear plant and site construction, nuclear power plant operations, nuclear safety and radiation protection.

The supporting courses that are listed in this program provide an opportunity for students to build upon the knowledge gained in the required courses by taking either more advanced courses or more specialized courses dealing with specific areas of nuclear engineering.

Undergraduate Study

Students interested in completing the nuclear engineering minor must be enrolled in the College of Engineering at Iowa State University. They should complete and submit the "Request for Minor" form. The selection process is based on approval by the administering department, Mechanical Engineering.

The course requirements for the undergraduate minor in nuclear engineering are:

Required course:

NUC E 401	Nuclear Radiation Theory and Engineering	3
Four of the following:		12
NUC E 402	Nuclear Reactor Engineering	
NUC E 405	Radiation Protection and Shielding	
NUC E 410	Nuclear Reactor Theory	
NUC E 411	Nuclear Reactor Analysis	
NUC E 441	Probabilistic Risk Assessment	
NUC E 461	Radiation Detection, Measurement and Simulation	
NUC E 490	Independent Study	

The minor must include at least nine credits which are beyond the total used to meet curriculum requirements for the bachelors degree in engineering.

Nuclear engineering courses are provided through an inter-institutional distance education program offered through the Web. Some of the courses that comprise this minor are offered at Iowa State University, while others are offered through four of the Big 12 Engineering Consortium universities that have formal nuclear engineering departments or programs. The four universities offering an assortment of nuclear engineering courses via web-based distance education are Texas A & M (TAMU), the University of Missouri Columbia (UMC), Kansas State University (KSU) and the University of Texas at Austin (UTA).

Courses primarily for undergraduates:

NUC E 401. Nuclear Radiation Theory and Engineering.

(3-0) Cr. 3. F. Prereq: *PHYS 222, MATH 266 or MATH 267*

Atomic and nuclear physics. Radioactivity and reaction rates. Cross sections. Introduction to neutron diffusion theory. Engineering applications of radiation theory.

NUC E 402. Nuclear Reactor Engineering.

(3-0) Cr. 3. S. Prereq: *NUC E 401*

WWW only. Fission and chain reactions. Neutron diffusion and moderation. Reactor equations. Fermi Age theory. Multigroup and multiregional analysis.

NUC E 405. Radiation Protection and Shielding.

(3-0) Cr. 3. Prereq: *NUC E 401*

WWW only. Basic principles and concepts of radiation protection and design: dosimetric units and response functions, hazards of radiation dose, radiation sources, basic methods for dose evaluation, and shielding design techniques for photons and neutrons.

NUC E 410. Nuclear Reactor Theory.

(3-0) Cr. 3. F. Prereq: *NUC E 401*

WWW only. An introduction to neutron diffusion theory, neutron moderation, conditions for criticality of nuclear reactors.

NUC E 411. Nuclear Reactor Analysis.

(3-0) Cr. 3. S. Prereq: *NUC E 410*

WWW only. Group diffusion method. Multiregion reactors, heterogeneous reactors. Reactor kinetics, changes in reactivity.

NUC E 430. Nuclear Energy and Society.

(3-0) Cr. 3. Alt. S., offered even-numbered years. Prereq: *NUC E 401*

The relationship between nuclear energy and society is examined from the perspective of significant events in the commercial nuclear power industry. Event analysis includes differences and similarities of technologies along with environmental impact. Political, social, media and regulatory responses for each event are discussed along with the impact on future plant design.

NUC E 441. Probabilistic Risk Assessment.

(3-0) Cr. 3. S. Prereq: *STAT 305 or equivalent*

Methods for analysis of nuclear power systems. Fault tree and event tree analysis methods. Mathematical basics for dealing with reliability data, theory, and analysis. Case studies of accidents in nuclear power systems.

NUC E 461. Radiation Detection, Measurement and Simulation.

(3-0) Cr. 3. S. Prereq: *NUC E 401*

Principles of nuclear radiation safety and detection. Radiation energy spectroscopy. Counting statistics and error analysis. Monte Carlo simulation of radiation transport. Detection system performance parameters. Design projects.

NUC E 490. Independent Study.

Cr. 1-3. Repeatable, maximum of 3 credits. Prereq: *Junior Classification*

Investigation of nuclear engineering topics. Election of course and topic must be approved in advance by supervising faculty.

Software Engineering

Undergraduate Study

For the undergraduate curriculum in Software Engineering (<http://www.se.iastate.edu>) leading to the degree Bachelor of Science. This curriculum is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>.

This curriculum is jointly administered by the Department of Computer Science and the Department of Electrical and Computer Engineering at Iowa State University. The Software Engineering program provides undergraduate students with the opportunity to learn software engineering fundamentals, to study applications of state-of-the art software technologies and to prepare for the practice of software engineering. The student-faculty interaction necessary to realize this opportunity occurs within an environment motivated by the principle that excellence in undergraduate education is enhanced by an integrated commitment to successful, long-term research and outreach programs.

The software engineering curriculum offers emphasis areas in software engineering principles, process and practice. Students may also take elective courses in computer engineering and computer science.

Program Educational Objectives

Within five years of graduation, the graduates should:

1. attain a **productive career** in Software Engineering or related fields;
2. attain **leadership** roles and become **effective collaborators** to advance professional and organizational goals;
3. engage in **continuous learning** and professional development.

We expect that these objectives will be manifested in our graduates through the following five key attributes: (a) *peer-recognized expertise*, (b) *engagement in professional practice*, (c) *sustained learning*, (d) *leadership* and (e) *teamwork*.

Demonstration of expertise involves applying state-of-the-art practices for solving problems in the design, development, validation, evolution and sustainment of (software) products. Demonstration of professional engagement involves contributing locally and globally to the use of ethical, competent, and creative practices in industry, academia or the public sector. Demonstration of sustained learning involves the ability to adapt to rapid technological, environmental, and organizational changes through self-study and group study and through opportunities of professional development or graduate study. Demonstration of leadership involves the ability to take initiative, and to facilitate the advancements of individuals and the community by influencing others and by having a widespread, positive impact on critical issues and projects. Finally, demonstration of teamwork involves the ability to work with collaborators who have varied expertise, and with diverse cultural and interdisciplinary backgrounds.

As a complement to the instructional activity, the Department of Computer Science and the Department of Electrical and Computer Engineering provide opportunities for each student to have experience with broadening activities. Students have the opportunity to gain practical industry experience in the cooperative education and internship program. Students have the opportunity to participate in advanced research activities. Through international exchange programs, students learn about engineering practices in other parts of the world.

Curriculum in Software Engineering

Administered by the Department of Electrical and Computer Engineering in the College of Engineering and the Department of Computer Science in the College of Liberal Arts and Sciences.

Leading to the degree bachelor of science.

Total credits required: 125 cr. See also Basic Program and Special Programs.

International Perspectives: 3 cr.¹

U.S. Diversity: 3 cr.¹

Communication Proficiency/Library requirement (minimum grade of C):

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
LIB 160	Information Literacy	1
ENGL 314	Technical Communication	3
Total Credits		10

General Education Electives: 15 cr.²

Choose 1 course from the following:		3
ECON 101	Principles of Microeconomics	
ECON 102	Principles of Macroeconomics	
I E 305	Engineering Economic Analysis	
Arts and Humanities		6
Social Sciences		3
Additional Arts and Humanities or Social Sciences course		3
Total Credits		15

Basic Program: 27 cr.

Complete with 2.00 GPA including transfer courses:

CHEM 167	General Chemistry for Engineering Students	4
or CHEM 177	General Chemistry I	
ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition (see above for grade requirements)	3
ENGR 101	Engineering Orientation	R
or S E 101	Software Engineering Orientation	
S E 185	Problem Solving in Software Engineering ³	3
LIB 160	Information Literacy	1
MATH 165	Calculus I	4
MATH 166	Calculus II	4
PHYS 221	Introduction to Classical Physics I (See Basic Program rule)	5
Total Credits		27

Math and Physical Science: 11 cr.

COM S 227	Introduction to Object-oriented Programming	4
COM S 228	Introduction to Data Structures	3
MATH 267	Elementary Differential Equations and Laplace Transforms	4
Total Credits		11

Software Engineering Core: 34 cr.

Complete with 2.00 GPA including transfer courses:

CPR E 281	Digital Logic	4
Choose one of the following:		3
COM S 229	Advanced Programming Techniques	
CPR E 288	Embedded Systems I: Introduction	
Choose one of the following:		3
COM S 321	Introduction to Computer Architecture and Machine-Level Programming	
CPR E 381	Computer Organization and Assembly Level Programming	
Choose one of the following:		3
COM S 352	Introduction to Operating Systems	
CPR E 308	Operating Systems: Principles and Practice	
Choose one of the following:		3
COM S 330	Discrete Computational Structures	
CPR E 310	Theoretical Foundations of Computer Engineering	
COM S 311	Design and Analysis of Algorithms	3
COM S 363	Introduction to Database Management Systems	3
COM S 309	Software Development Practices	3
S E 319	Software Construction and User Interfaces	3
S E 329	Software Project Management	3
S E 339	Software Architecture and Design	3
Note: CPR E 288, CPR E 381 and CPR E 308 are 4-credit courses. The core credit requirement (34 credits) is given in terms of 3-credit courses. If the 4-credit courses are taken instead, then the extra credits will be used as credits for Supplementary Electives.		
Total Credits		34

Other Remaining Courses: 38 cr.

S E 491	Senior Design Project I and Professionalism	3
S E 492	Senior Design Project II	2
S E 494	Software Engineering Portfolio Development	R
SP CM 212	Fundamentals of Public Speaking	3
STAT 330	Probability and Statistics for Computer Science	3
One of the following ENGL courses (with a minimum grade of C)		3
ENGL 309	Report and Proposal Writing	
ENGL 314	Technical Communication	
Math Elective: Choose one from the following list		3
MATH 207	Matrices and Linear Algebra	
MATH 304	Combinatorics	
MATH 314	Graphs Theory	
MATH 317	Theory of Linear Algebra	
Software Engineering Electives ²		6
Technical Elective ²		3
Supplementary Elective ²		9
Open Elective		3
Total Credits		38

Seminar/Co-op/Internships

S E 166	Careers in Software Engineering	R
Co-op or internship (S E 396, S E 397, S E 398) is optional		

Transfer Credit Requirements

The degree program must include a minimum of 30 credits at the 300-level or above in professional and technical courses earned at ISU in order to receive a B.S. in software engineering. These 30 credits must include , S E 492 Senior Design Project II, and credits in the core professional curriculum and/or in

technical electives. The software engineering degree program requires a grade of C or better for any transfer credit course that is applied to the degree program.

1. These university requirements will add to the minimum credits of the program unless the university-approved courses are also approved by the department to meet other course requirements within the degree program. U.S. diversity and international perspectives courses may not be taken Pass/Not Pass.
2. Choose from department approved lists. (<https://www.se.iastate.edu/files/2011/10/SE-Technical-Electives-6-121.pdf>)
3. See Basic Program for Professional Engineering Curricula for accepted substitutions for curriculum designated courses in the Basic Program.

See also: A 4-year plan of study grid showing course template by semester.

Note: International perspectives and U.S. diversity courses are used to meet the general education electives (<https://www.se.iastate.edu/files/2011/10/General-Education-Requirements-and-Lists-Color-Coded-US-and-IP-courses.pdf>).

Courses primarily for undergraduates:

S E 101. Software Engineering Orientation.

Cr. R.
Introduction to the procedures, policies, and resources of Iowa State University and the department of Computer Science and Electrical and Computer Engineering. Information on engineering and computer-based professions.

S E 166. Careers in Software Engineering.

Cr. R.
Overview of the nature and scope of the software engineering profession. Relationship of coursework to careers. Departmental rules, student services operations, degree requirements, program of study planning, career options, and student organizations.

S E 185. Problem Solving in Software Engineering.

(3-1) Cr. 3. *Prereq: Credit or enrollment in MATH 142*
Introduction to software engineering and computer programming. Systematic thinking process for problem solving in the context of software engineering. Group problem solving. Solving software engineering problems and presenting solutions through computer programs, written documents and oral presentations. Introduction to principles of programming, software design, and extensive practice in design, writing, running, debugging, and reasoning about programs.

S E 298. Cooperative Education.

Cr. R. F.S.SS. *Prereq: Permission of department and Career Services*
First professional work period in the cooperative education program. Students must register for this course before commencing work.

S E 319. Software Construction and User Interfaces.

(Cross-listed with COM S). (3-0) Cr. 3. F. *Prereq: COM S 228*
Basic theory of grammars, parsing. Language paradigms. State transition and table-based software design. Review of principles of object orientation, object oriented analysis using UML. Frameworks and APIs. User interface architecture, evaluation of user interface. Design of windows, menus, and commands. Introduction to formal specification and model-based software design. Introduction to domain-specific software engineering.

S E 329. Software Project Management.

(Cross-listed with CPR E). (3-0) Cr. 3. *Prereq: COM S 309*
Process-based software development. Capability Maturity Model (CMM). Project planning, cost estimation, and scheduling. Project management tools. Factors influencing productivity and success. Productivity metrics. Analysis of options and risks. Version control and configuration management. Inspections and reviews. Managing the testing process. Software quality metrics. Modern software engineering techniques and practices.

S E 339. Software Architecture and Design.

(Cross-listed with CPR E). (3-0) Cr. 3. *Prereq: S E 319*
Modeling and design of software at the architectural level. Architectural styles. Basics of model-driven architecture. Object-oriented design and analysis. Iterative development and unified process. Design patterns. Design by contract. Component based design. Product families. Measurement theory and appropriate use of metrics in design. Designing for qualities such as performance, safety, security, reliability, reusability, etc. Analysis and evaluation of software architectures. Introduction to architecture definition languages. Basics of software evolution, reengineering, and reverse engineering. Case studies. Introduction to distributed system software.

S E 342. Principles of Programming Languages.

(Cross-listed with COM S). (3-1) Cr. 3. F.S. *Prereq: COM S 321; COM S 330 or CPR 310; either COM S 309, COM S 362 or COM S 363; ENGL 250*
Study of concepts in programming languages and major programming paradigms, especially functional programming. Special emphasis on design tradeoffs that enable students to make sound choices of programming languages for a given software development task. Programming projects.

S E 396. Summer Internship.

Cr. R. Repeatable. SS. *Prereq: Permission of department and Career Services*
Summer professional work period.

S E 397. Software Engineering Internship.

Cr. R. Repeatable. F.S. *Prereq: Permission of department and Career Services*
One semester maximum per academic year professional work period.

S E 398. Cooperative Education.

Cr. R. F.S.SS. *Prereq: S E 298, permission of department and Career Services*
Second professional work period in the cooperative education program. Students must register for this course before commencing work.

S E 409. Software Requirements Engineering.

(Cross-listed with COM S). (3-0) Cr. 3. F. *Prereq: COM S 309, ENGL 250, SP CM 212*
The requirements engineering process, including identification of stakeholders, requirements elicitation techniques such as interviews and prototyping, analysis fundamentals, requirements specification, and validation. Use of Models: State-oriented, Function-oriented, and Object-oriented. Documentation for Software Requirements. Informal, semi-formal, and formal representations. Structural, informational, and behavioral requirements. Non-functional requirements. Use of requirements repositories to manage and track requirements through the life cycle. Case studies, software projects, written reports, and oral presentations will be required.

S E 412. Formal Methods in Software Engineering.

(Cross-listed with COM S, CPR E). (3-0) Cr. 3. S. *Prereq: COM S 330 or CPR E 310; COM S 311, STAT 330*
A study of formal techniques for model-based specification and verification of software systems. Topics include logics, formalisms, graph theory, numerical computations, algorithms, and tools for automatic analysis of systems.

S E 416. Software Evolution and Maintenance.

(Cross-listed with CPR E). (3-0) Cr. 3. *Prereq: COM S 309*
Practical importance of software evolution and maintenance, systematic defect analysis and debugging techniques, tracing and understanding large software, impact analysis, program migration and transformation, refactoring, tools for software evolution and maintenance, experimental studies and quantitative measurements of software evolution. Written reports and oral presentation.

S E 417. Software Testing.

(Cross-listed with COM S). (3-0) Cr. 3. S. *Prereq: COM S 309, COM S 319, ENGL 250, SP CM 212*
Comprehensive study of software testing, principles, methodologies, management strategies and techniques. Test models, test design techniques (black box and white box testing techniques), integration, regression, system testing methods, and software testing tools.

S E 490. Independent Study.

Cr. arr. Repeatable. *Prereq: Senior classification in software engineering*
Investigation of an approved topic.

S E 491. Senior Design Project I and Professionalism.

(2-3) Cr. 3. *Prereq: S E 329, completion of 29 credits in the S E core professional program, ENGL 314*
Preparing for entry to the workplace. Selected professional topics. Use of technical writing skills in developing project plan and design report; project poster. First of two-semester team-oriented, project design and implementation experience.

S E 492. Senior Design Project II.

(1-3) Cr. 2. *Prereq: S E 491*
Second semester of a team design project experience. Emphasis on the successful implementation and demonstration of the design completed in S E 491 and the evaluation of project results. Technical writing of final project report; oral presentation of project achievements.

S E 494. Software Engineering Portfolio Development.

Cr. R. F.S. *Prereq: Credit or enrollment in S E 491*
Portfolio assessment for Software Engineers. Guidelines and Advice to improve software engineering portfolios and to better use portfolios as a tool to enhance career opportunities.

SE 498. Cooperative Education.

Cr. R. Repeatable. F.S.SS. Prereq: SE 398, permission of department and Career Services

Third and subsequent professional work periods in the cooperative education program. Students must register for this course before commencing work.

Systems Engineering

Administered by the Department of Industrial and Manufacturing Systems Engineering

Systems Engineering Master's Degree

The Systems Engineering Program focuses on developing an individual's analytical skills to design, evaluate, and build modern complex engineered systems. Engineers who can conceptualize, model, and integrate hardware, software, data, and humans are critical in technology driven multi-disciplinary design teams. The Iowa State University Master of Engineering in Systems Engineering Program is designed to train engineers to excel in the technology driven design environment commonly found in developing modern complex engineered systems. The program can be completed on line or in residence, part-time or full-time.

Admission Requirements

Unrestricted admission requires (1) a 3.0 grade point average from an ABET accredited undergraduate engineering program, (2) two years of engineering experience or current full-time employment as an engineer, (3) calculus, engineering statistics, and engineering economy. A GRE is not required for this program.

Applicants for admission to the Systems Engineering Program apply through the Graduate College at Iowa State University. Each applicant must submit:

- Application and application fee
- Official academic transcripts
- Three letters of recommendation
- Resume

Applications should be submitted as early as possible before the beginning of the semester for which admission is sought. Individuals may also take up to 9 credits at Iowa State as a non-degree seeking student and then transfer them to the program when they are admitted.

The Master of Engineering in Systems Engineering Program at Iowa State University is focused on supporting working professionals so teaching or research assistantships typically are not available.

Degree Requirements

Systems Engineering Core (12 credits):

- IE 564 Decision Analysis in Systems Design
- IE 565 Systems Engineering and Analysis
- IE 570 Systems Engineering and Project Management
- IE 585 Requirements Engineering

Supporting Courses (eighteen credits):

Six graduate courses in engineering, science or a related field.

Students working in research and development who are interested in furthering their research skills may select a creative component option as part of their supporting courses.

Iowa State University offers a Systems Engineering Certificate program composed of the core courses and an independent study (IE 590).

Note: Students typically are allowed to transfer up to 6 credit hours of non-ISU graduate credit into their degree program.

Please see the Systems Engineering & Engineering Management Student Handbook for complete information.

College of Human Sciences

Pamela White, Dean

Carla Peterson, Associate Dean Research and Graduate Education

Linda Serra Hagedorn, Associate Dean Undergraduate Programs; International Affairs; Diversity, Equity, and Community; Student Services

Debra Sellers, Associate Dean and Director of Human Sciences Extension and Outreach

www.hs.iastate.edu/

Divisions of the College

- Apparel, Educational Studies, and Hospitality Management
- Food Science and Human Nutrition
- Kinesiology
- Human Development and Family Studies
- School of Education

The College of Human Sciences provides an integrative approach to improving the quality of life for individuals, families, schools and communities by linking discovery, science, creativity, and practice; applying the knowledge of learning in all endeavors; and developing leaders for roles in research, education, business and industry, and health and human services.

The College of Human Sciences (CHS) was founded in 2005 and fosters innovative synergies in teaching and learning in addition to the discovery of new knowledge, and in many ways is reinventing how human potential can be enhanced. Members of the college strive to improve the quality of people's lives - helping them learn better, live longer, and lead lives that are more productive and fulfilling.

Recommended High School Preparation

Recommended preparation for students entering most departments of the College of Human Sciences should include 4 years of English (including speech) with emphasis in composition and communication skills; 3 years each of mathematics and natural sciences, and at least 2 years of social science and/or humanities. In addition, students interested in Elementary Education or Early Childhood Education are advised to complete three or more years of high school study in one foreign language.

Information for Prospective Students

Each student in the College of Human Sciences works closely with an academic adviser who is associated with the program in which the student is majoring. Advisers assist students in developing academic programs and in adjusting to university life. They also provide information and guidance about career choices. Advisers attempt to assist students as they develop their schedule of classes to meet their goals, interests, and capabilities.

The college offers a number of orientation sessions during the summer for students planning to enter in the fall. Incoming students are encouraged to attend an orientation session so that academic assessments can be made and appropriate classes may be scheduled for the following term.

Open Option Status

The College of Human Sciences offers an open option for entering students who have not selected a specific area of study. An orientation course helps students explore the opportunities available. Program planning information can be obtained from the open option adviser in the College of Human Sciences Student Services Office.

Planned Transfer Programs

By careful planning, students may begin their education at another college and then transfer their courses to a curriculum within the College of Human Sciences with maximum efficiency in meeting the degree requirements. The college works closely with community colleges in Iowa and surrounding states to facilitate a transfer to Iowa State University. For more information, call 1-800-522-0683 or visit the College of Human Sciences Student Services.

Families Extension

Students may prepare for a career in the Cooperative Extension Service by enrolling in a curriculum in the College of Human Sciences that provides them with a broad subject matter base for conducting educational programs for families. Advice on choice of courses should be sought from the Family and Consumer Sciences Education and Studies program, the associate dean and director of Iowa State University Extension to Families programs, the director of Iowa State University Extension to Youth and 4-H programs, or the Extension Human Resources office.

Undergraduate Core Curriculum

Purpose

The College of Human Sciences has established core learning outcomes to provide the unifying foundation critical to personal and professional success for all College of Human Sciences undergraduate students. Assessment of College of Human Sciences' core learning outcomes will measure student competence in four (4) areas. Assessment results will be used by CHS students, faculty and staff to enhance student learning experiences.

Four components

The core identifies the expected minimum outcomes that each undergraduate in the college must meet:

Communication - Communicate with clear purpose, workable organization and effective style in written, oral, visual and electronic (WOVE) formats without distracting errors in usage or convention.

Self-Assessment/Self Reflection - Consistently and realistically analyze and evaluate one's own knowledge, abilities and actions in comparison to professional standards and create action plans to enhance personal and professional efficacy.

Critical Thinking - Generate, acquire and evaluate information based on scientific evidence, creative processes, and logical and ethical reasoning to make decisions and solve problems in one's personal, professional and community endeavors.

Social Justice - Articulate and demonstrate a clear concept of a just society in which individuals and groups equitably share in societal benefits within a global community.

Expectations for departments/programs

Departments/programs are expected to identify courses at three levels where the learning outcomes will be assessed. At least one significant educational activity will be embedded in introductory, intermediate and advanced coursework for each outcome.

General Education

Students in the College of Human Sciences are required to complete a program in general education which is integrated in their professional training and extends through the undergraduate curriculum.

The general education program emphasizes intellectual growth and personal development as contrasted with specific career preparation.

The program aims to stimulate a desire for learning and intellectual endeavor, develop understanding and appreciation for the physical and cultural world, encourage independent thinking and analysis, increase competence in all aspects of communication, and create an understanding of individuals as social, psychological, and physical beings.

The student is expected to complete studies in three groups in general education. Areas represented below are not departmental titles. In some cases, courses relating to a given area may be found in several different departments. Credits listed are minimum requirements.

Minimum Group Requirements in the College of Human Sciences

I. Communication Skills (10 cr.): ENGL 150, ENGL 250; LIB 160; and 3 credits in oral communication

II. Biological and physical sciences and mathematical disciplines (9 cr.): at least 3 credits in mathematical disciplines

III. Social sciences and humanities (15 cr.): at least 6 credits in social sciences and at least 6 credits in humanities

Accreditation and Licensure

The following program-specific accreditation/ licensure/registrations have been attained by departments within the college:

Department of Apparel, Educational Studies, and Hospitality Management:

Hospitality Management is accredited by the Accreditation Commission for Programs in Hospitality Administration, the accrediting agency of the International Council on Hotel, Restaurant, and Institutional Education.

Apparel Merchandising, and Design major is affiliated with the American Apparel and Footwear Association's Education Foundation. The design primary option is accredited by the National Association of Schools in Art and Design.

Department of Food Science and Human Nutrition:

Food Science and Industry, and Food Science and Technology curricula are approved by the Institute of Food Technologists.

Dietetics Internship and the Didactic Program in Dietetics are accredited by the Accreditation Council for Education in Nutrition and Dietetics, the accrediting agency of the Academy of Nutrition and Dietetics.

Department of Kinesiology:

Athletic Training Option is accredited by the Commission on Accreditation of Athletic Training Education.

Department of Human Development and Family Studies:

Child Development Laboratory School is accredited by the National Association for the Education of Young Children (NAEYC), Academy for Early Childhood Programs, and licensed by the Iowa Department of Human Services, 5 Star Rating from the Iowa Quality Rating System.

Family and Consumer Sciences Education Teacher Licensure Program is licensed by the Iowa Department of Education and the Iowa Board of Educational Examiners.

Teacher Education and Licensure

All Iowa State University Teacher Education Programs are accredited by the Iowa Department of Education and the Iowa Board of Educational Examiners.

All students who are recommended by Iowa State University for teacher licensure must meet the requirements of the University Teacher Education Program and be recommended by the School of Education's Director of Teacher Education.

Each student will be enrolled in the department in which he or she plans to major and must meet the graduation requirements of that department and the college in which it is located.

For details concerning the professional teacher education requirements and the areas of specialization requirements, see Teacher Education.

Double Majors

Undergraduate students may elect a second major from the departments and program areas listed above, or from a major field offered for the bachelor's degree in another college of the university. Double majors may be prohibited between majors as determined by the appropriate curriculum committees.

The major departments must approve the degree program, and if those majors involve two colleges, both deans must approve. Such programs must fulfill the general education requirements of the college of the primary major. If one major leads to the B.A. degree and the other to the B.S. degree, the degree awarded will be the one offered by the department of the primary major. If the primary major may lead to either a B.A. or a B.S., a student may choose to receive either degree. In this case, the student must satisfy the requirements of each major and of the degree that is chosen for the primary major.

Students with a primary major in another college who wish to take a second major in the College of Human Sciences are required to meet all requirements for the major, prerequisites and supporting courses.

Two Bachelor's Degrees

Any degree offered by the College of Human Sciences may be earned together with a degree in this or any other college of the university. For the requirements for two degrees, see Index, Bachelor's Degree, Two.

International and Cross Cultural Programs

International experience opportunities are available and encouraged through the College of Human Sciences to broaden international and cross-cultural perspectives. Scholarships and other forms of financial assistance are available which provide partial support for students studying abroad. The College has established collaborative programs with universities around the world including Glasgow Caledonian University, Glasgow, Scotland; Soonchunhyang University, Asan, South Korea; University of Pretoria, Pretoria, South Africa; the London College of Fashion, London, England; Lorenzo de Medici, Florence, Italy; Academia Italiana, Florence, Italy; Paris American Academy, Paris, France; Henan Normal University, Xinxiang, China; Wuhan Textile University, Wuhan, China; Donghua University, Shanghai, China; University of Agricultural Sciences,

Dharwad, India, and the Universiti Putra Malaysia, Selangor, Malaysia. Students also have an opportunity to participate in group study abroad programs in Europe, Africa, Central and South American, and Asia.

Other opportunities may be developed through consultation with the college director of international programs and the student's adviser; for example, students have acquired internships and studied in such countries as Ghana, Rwanda, Spain, Ireland, China, England, Australia, Germany, France, and Costa Rica. Opportunities for international student teaching are available in Indonesia, Norway, Poland, Ecuador, Italy, and New Zealand. Faculty members bring diversity and global perspectives to instruction and research through their work in India, South Korea, Central and South America, China, Vietnam, Africa, Middle East, and Europe.

Honors Program

High achieving students, with a grade point average of above 3.50, are invited to apply to the Honors Program. Honors students are encouraged to develop a creative program of study expanding their interests while meeting individual educational objectives. Students in the Honors Program also participate in University Honors Seminars, Honors Courses and complete an honors project. For further information, contact the College Honors Committee or academic adviser. See <http://www.hs.iastate.edu/academics/honors/> and Index, Honors Program.

Preparation for Graduate Study

Students considering graduate studies should gain background knowledge in basic subjects related to their area of interest. Undergraduate mathematics, statistics, and research methods courses are useful as preparation for advanced study in graduate school. Upon completion of graduate programs, students are qualified for leadership positions in public and private institutions and for teaching, research, and extension positions in colleges and universities.

Graduate Curricula

- Apparel, Events, & Hospitality Management – www.aeshm.hs.iastate.edu
- Food Science & Human Nutrition – www.fshn.hs.iastate.edu
- Human Development & Family Studies – www.hdfs.hs.iastate.edu
- Kinesiology – www.kin.hs.iastate.edu
- School of Education - www.education.iastate.edu

Graduate study in the College of Human Sciences is conducted through the Graduate College. Details are found in the Graduate College section of this catalog, (www.grad-college.iastate.edu) and on department websites.

Majors

For more information about a major, see:

1. the curriculum descriptions in this section of the catalog
2. the department catalog section under Courses and Programs
3. department websites.

Apparel, Merchandising, and Design

Options: Merchandising; Creative and Technical Design; and Product Development and Sourcing—Administered by the Department of Apparel, Events, and Hospitality Management. See Curriculum in Apparel, Merchandising, and Design

Athletic Training

Administered by the Department of Kinesiology. See Curriculum in Kinesiology

Child, Adult, and Family Services

Options: Child Programs; Youth Programs; and Adult/Family Programs — Administered by the Department of Human Development and Family Studies. See Curriculum Child, Adult, and Family Services

Culinary Science

Administered by the Department of Food Science and Human Nutrition. See Curriculum in Culinary Science

Diet and Exercise B.S./M.S.

Administered by the Departments of Food Science and Human Nutrition, and Kinesiology. See Curriculum in Diet and Exercise

Dietetics

Administered by the Department of Food Science and Human Nutrition. See Curriculum in Dietetics

Early Childhood Education - Unified

Administered jointly by the School of Education and the Department of Human Development and Family Studies. See Curriculum in Early Childhood Education

Elementary Education

Administered by the School of Education. See Curriculum in Elementary Education

Event Management

Administered by the Department of Apparel, Events, and Hospitality Management. See Curriculum in Event Management

Family and Consumer Sciences Education and Studies

Options: Communications; Professional Studies; Teacher Licensure— Administered by the Department of Human Development and Family Studies. See Curriculum in Family and Consumer Sciences Education and Studies

Financial Counseling and Planning

Administered by the Department of Human Development and Family Studies. See Curriculum in Financial Counseling and Planning

Food Science

Options: Consumer Food Science; Food Science and Industry; Food Science and Technology—Administered by the Department of Food Science and Human Nutrition. See Curriculum in Food Science

Hospitality Management

Administered by the Department of Apparel, Events, and Hospitality Management. See Curriculum in Hospitality Management

International Studies (secondary major only)

The International Studies Program is an interdisciplinary program which may be taken only as a second major. Students pursuing a second major in international studies must complete the International Studies Program as described in this catalog (see Index, International Studies).

Kinesiology & Health

Options: Community and Public Health; Exercise Science; Physical Education Teacher Education; and Pre-Health Professions —Administered by the Department of Kinesiology. See Curriculum in Kinesiology

Nutritional Science

Options: Pre-Health Professional and Research; and Nutrition and Wellness— Administered by the Department of Food Science and Human Nutrition. See Curriculum in Nutritional Science

Secondary Education

The College of Human Sciences provides secondary education licensure programs in conjunction with subject matter areas, or majors, offered by various departments across the university campus. These subject matter areas include agriculture, biology, chemistry, earth sciences, english, family and consumer sciences, health, history-social sciences, mathematics, music, physics, physical education, and world languages. See Index, Teacher Education

Minors

Minors are available to all Iowa State students. Minors consist of at least 15 credits including 6 credits taken at Iowa State University in courses numbered 300 or above. A student may not apply the same course to two different minors. The minor must include 9 credits that are not used to meet any other department, college or university requirement. Minors are available in the following areas:

Apparel, Merchandising, and Design - See <http://www.aeshm.hs.iastate.edu/majors/amd/#minor>

Athletic Coaching - See <http://www.kin.hs.iastate.edu/programs/minors/coaching/>

Child, Adult, and Family Services - See <http://www.hdfs.hs.iastate.edu/undergraduate-majors/minors/#child-adult-and-family-services>

Culinary Science - See <http://www.fshn.hs.iastate.edu/undergraduate-programs/minors/>

Dance - See <http://www.kin.hs.iastate.edu/programs/dance/minor/>

Educational Services in Family and Consumer Sciences - See <http://www.hdfs.hs.iastate.edu/undergraduate-majors/minors/#educational-services-in-family-and-consumer-sciences>

Event Management - See <http://www.aeshm.hs.iastate.edu/majors/event-management/#minor>

Exercise Science - See <http://www.kin.hs.iastate.edu/programs/minors/exercise-science/>

Financial Counseling and Planning - See <http://www.hdfs.hs.iastate.edu/undergraduate-majors/minors/#financial-counseling-and-planning>

Food Safety (interdepartmental minor) - See <http://www.fshn.hs.iastate.edu/undergraduate-programs/minors/>

Food Science - See <http://www.fshn.hs.iastate.edu/undergraduate-programs/minors/>

Gerontology (interdisciplinary minor) - <http://www.gerontology.iastate.edu/programs/ugrad-minor/>

Health Promotion - See <http://www.kin.hs.iastate.edu/programs/minors/health-promotion/>

Hospitality Management - See <http://www.aeshm.hs.iastate.edu/majors/hospitality-management/#minor>

Learning Technologies - See <http://www.education.iastate.edu/te/programs/digital-learning/>

Kinesiology - See <http://www.kin.hs.iastate.edu/programs/minors/kinesiology/>

Nutrition - See <http://www.fshn.hs.iastate.edu/undergraduate-programs/minors/>

Sport and Recreation - See <http://www.kin.hs.iastate.edu/programs/minors/sport-and-recreation/>

See Index for minor requirements for specific departments and programs.

Certificates

Undergraduate Certificates

An undergraduate certificate provides a way to give formal recognition of focused study in a specialized area that is less comprehensive than required for an undergraduate major. At Iowa State University, an undergraduate certificate is awarded concurrently or after baccalaureate requirements are finished. The following undergraduate certificate is available in the College of Human Sciences:

Merchandising Certificate - see <http://www.aeshm.hs.iastate.edu/majors/>

Graduate Certificates

Graduate certificates provide formal recognition of focused graduate study in an area of specialization that is less comprehensive than required for a master's degree. At Iowa State University, a graduate certificate may be earned either before, after, or concurrently with the master's or doctoral degree. The following graduate certificates are available in the College of Human Sciences:

Applied Research Methods in Human Sciences Certificate - see www.elps.hs.iastate.edu/resev_certificate.php

Community College Leadership Certification - see www.cclp.hs.iastate.edu/

Community College Teaching Certificate - see www.education.iastate.edu/graduate/ccl/teaching-cert/

Development and Family Sciences Advanced Research Design and Methods - see www.hdfs.hs.iastate.edu/graduate/curriculum/certificates/

Dietetics Internship Certificate - see www.dietetics.iastate.edu/

Family Financial Planning Certificate - see www.hdfs.hs.iastate.edu/graduate/curriculum/ms-fcs/

Family Well Being in Diverse Society - see www.hdfs.hs.iastate.edu/graduate/curriculum/certificates/#family-well-being-in-diverse-society

Gerontology Certificate - see www.hdfs.hs.iastate.edu/graduate/curriculum/ms-fcs/

Infant and Early Childhood Mental Health - see www.hdfs.hs.iastate.edu/graduate/curriculum/certificates/#infant-and-early-childhood-mental-health

Instructional Design Certificate - see www.education.iastate.edu/te/graduate/certificates/instructional-design/

Life Span Development - see www.hdfs.hs.iastate.edu/graduate/curriculum/certificates/

Literacy Coaching Certificate - see www.education.iastate.edu/te/graduate/literacy/literacy-coaching/

Principal Endorsement (Pre-LEAD) - see www.education.iastate.edu/graduate/ed-admin/principal/

Social Justice Certificate - see www.education.iastate.edu/graduate/social-justice/certificate/

Special Education Certificate - see www.education.iastate.edu/te/graduate/special-education/

Athletics

Administered by the Department of Kinesiology.

Courses primarily for undergraduates:

ATH 101. Intercollegiate Athletics.

Cr. 1. Repeatable, maximum of 4 credits. F.S. *Prereq: Permission of head coach* Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101B. Intercollegiate Athletics: Basketball (men).

Cr. 1. Repeatable, maximum of 4 credits. F.S. *Prereq: Permission of head coach* Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101C. Intercollegiate Athletics: Basketball (women).

Cr. 1. Repeatable, maximum of 4 credits. F.S. *Prereq: Permission of head coach* Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101D. Intercollegiate Athletics: Cross Country (men).

Cr. 1. Repeatable, maximum of 4 credits. F.S. *Prereq: Permission of head coach* Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101E. Intercollegiate Athletics: Cross Country (women).

Cr. 1. Repeatable, maximum of 4 credits. F.S. *Prereq: Permission of head coach* Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101F. Intercollegiate Athletics: Football (men).

Cr. 1. Repeatable, maximum of 4 credits. F.S. *Prereq: Permission of head coach* Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101G. Intercollegiate Athletics: Golf (men).

Cr. 1. Repeatable, maximum of 4 credits. F.S. *Prereq: Permission of head coach* Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101J. Intercollegiate Athletics: Gymnastics (women).

Cr. 1. Repeatable, maximum of 4 credits. F.S. *Prereq: Permission of head coach* Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101K. Intercollegiate Athletics: Softball (women).

Cr. 1. Repeatable, maximum of 4 credits. F.S. *Prereq: Permission of head coach* Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101M. Intercollegiate Athletics: Swimming/Diving (women).

Cr. 1. Repeatable, maximum of 4 credits. F.S. *Prereq: Permission of head coach* Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101O. Intercollegiate Athletics: Tennis (women).

Cr. 1. Repeatable, maximum of 4 credits. F.S. *Prereq: Permission of head coach* Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101P. Intercollegiate Athletics: Track and Field (men).

Cr. 1. Repeatable, maximum of 4 credits. F.S. *Prereq: Permission of head coach* Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101Q. Intercollegiate Athletics: Track and Field (women).

Cr. 1. Repeatable, maximum of 4 credits. F.S. *Prereq: Permission of head coach* Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101R. Intercollegiate Athletics: Volleyball (women).

Cr. 1. Repeatable, maximum of 4 credits. F.S. *Prereq: Permission of head coach* Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101S. Intercollegiate Athletics: Wrestling (men).

Cr. 1. Repeatable, maximum of 4 credits. F.S. *Prereq: Permission of head coach* Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101T. Intercollegiate Athletics: Golf (women).

Cr. 1. Repeatable, maximum of 4 credits. F.S. *Prereq: Permission of head coach* Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101U. Intercollegiate Athletics: Soccer (women).

Cr. 1. Repeatable, maximum of 4 credits. F.S. *Prereq: Permission of head coach* Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

Curriculum and Instruction

Missions and Goals

The Department of Curriculum and Instruction aspires to prepare transformative leaders in teaching, learning, and curriculum within diverse pre-K-16 settings through exemplary teaching, research and outreach. In order to reach this vision, we have the following mission. As an engaged community of scholars and teacher educators, we seek to:

- Enhance Iowa's families, schools, and communities through exemplary education and teacher preparation;
- Provide educators and students with the knowledge, skills, and experience necessary to become transformative leaders in an increasingly changing and interdependent world; and
- Support the advancement of specialized academic disciplines through exemplary research and scholarship.

Undergraduate Study

The Department of Curriculum and Instruction provides the professional education coursework that leads to licensure of pre-service teachers. Majors offered in the department include Elementary Education (K-6), and Early Childhood Education-Unified (birth through age 8). The Early Childhood Education-Unified major is an interdepartmental program administered by the Departments of Curriculum and Instruction and Human Development and Family Studies.

Students who are interested in teaching at the secondary level (7-12) major in a specific discipline (e.g. Mathematics, Science, English, Social Studies) and complete the additional coursework in Curriculum and Instruction required for a teaching license.

Editor's Note: The Iowa Board of Educational Examiners has mandated changes to the teacher licensure requirements which will impact students graduating after

September 1, 2015. Students must consult with an education academic adviser to review these curriculum changes.

Elementary Education and Early Childhood Education-Unified majors must complete a professional course sequence:

C I 201	Learning Technologies in the PK-6 Classroom	3
C I 204	Social Foundations of Education in the United States	3
C I 245	Strategies in Teaching	2
C I 268	Strategies Practicum	1
C I 332	Educational Psychology of Young Learners	3
C I 406	Multicultural Foundations of School and Society: Introduction	3
SP ED 250	Education of the Exceptional Learner in a Diverse Society	3

Total Credits 18

Secondary education students must complete a professional course sequence:

C I 202	Learning Technologies in the 7-12 Classroom	3
C I 204	Social Foundations of Education in the United States	3
C I 333	Educational Psychology	3
C I 406	Multicultural Foundations of School and Society: Introduction	3
SP ED 401	Teaching Secondary Students with Exceptionalities in General Education	3

Total Credits 15

Some secondary licensure areas also require C I 426 Principles of Secondary Education.

The Curriculum and Instruction department offers a minor in Learning Technologies that may be earned by registering for the program and completing the following courses:

C I 201	Learning Technologies in the PK-6 Classroom	3
or C I 202	Learning Technologies in the 7-12 Classroom	
COM S 107	Applied Computer Programming	3
or COM S 207	Fundamentals of Computer Programming	
or MAT E 370	Toying with Technology	
or CPR E 370	Toying with Technology	
C I 280B	Pre-Student Teaching Experience I: Learning Technologies	1-2
C I 302	Principles and Practices of Learning with Technology	3
C I 407	Principles and Practices of Distance Learning	3
C I 454	Emerging Topics in Learning Technologies (3 credits required)	1-3

Total Credits 14-17

The Department of Curriculum and Instruction offers courses that can lead to a reading endorsement for grades K-8 or grades 5-12. Students seeking a K-8 endorsement should consult with a Curriculum and Instruction academic adviser. The 5-12 endorsement is offered collaboratively with the English Department. Students seeking this endorsement should consult with an adviser in the English Department. Inquiries can be sent to the Licensure Analyst in Teacher Education Services (133 MacKay) to receive a list of courses needed for an Iowa State University reading endorsement. Prerequisites for the reading endorsement courses are listed in the catalog course descriptions.

Early Childhood Education-Unified

The undergraduate curriculum in Early Childhood Education-Unified leads to the Bachelor of Science Degree. See curriculum.

The curriculum in Early Childhood Education – Unified is planned for students preparing to teach young children and work with their families. This program leads to careers in working with young children (both those who are typically developing and those with special needs) from birth through age eight. Graduates in this curriculum may teach in early childhood (preschool and primary) classrooms or home based programs, with emphasis on inclusive services. Graduates may be employed by either public or private agencies or schools. This curriculum has been approved by the Iowa Department of Education and meets requirements for the early childhood education - unified teacher license. The program is an interdepartmental major administered by the Department of Curriculum and Instruction and the Department of Human Development and Family Studies within the College of Human Sciences.

Early childhood education-unified majors must satisfy a world languages requirement for graduation.

Students who enroll in early childhood education-unified must apply to and be accepted into the teacher education program prior to enrolling in advanced courses. All early childhood education-unified students, including those seeking a double major, must meet general education requirements for teacher licensure. Iowa State University is in compliance with the Iowa Department of Education's mandate for a performance-based system of teacher training. The State of Iowa has developed and implemented a competency system to evaluate the performance of all teachers. A detailed list of the twelve Iowa State University Teacher Education Standards and the eight State of Iowa Teaching Standards, along with other information about the University Teacher Education Program, can be found at <http://www.teacher.hs.iastate.edu/>, the teacher education website. Additional information is also available from the student's academic adviser. Students in early childhood education – unified must meet the performance outcome standards for teacher licensure. Standards are assessed in coursework through artifacts such as assignments, projects, or practicum participation. These standards assessments are based on the early childhood content standards for endorsement 100 in the State of Iowa. These include competencies in (1) child growth, development, and learning, (2) developmentally appropriate learning environment and curriculum implementation, (3) health, safety, and nutrition, (4) family and community collaboration, and (5) professionalism. Pre-student teaching field experiences and student teaching experiences in at least two different settings is required. Students will receive both formative and summative evaluations of their progress toward meeting these outcomes throughout their program at Iowa State University

Elementary Education

The undergraduate curriculum in elementary education leads to the Bachelor of Science degree.

The curriculum in elementary education is planned for students preparing to teach at the elementary school level. This program leads to careers in working with school-aged children in kindergarten through sixth grade. Graduates in this curriculum may teach in elementary classrooms in either public or private schools.

Endorsements in art, English/language arts, English as a Second Language (ESL), health, history, music, basic science, social studies, mathematics, special education (Instructional Strategist I: Mild/Moderate Disabilities K-8), and speech communication/theater are available for elementary education students. An endorsement for teaching world languages in elementary schools is available through the Department of World Languages and Cultures.

Elementary education majors must satisfy a world languages requirement for graduation.

Students who enroll in elementary education must apply and be accepted into the teacher education program prior to enrolling in advanced elementary education courses. Iowa Department of Education licensure requirements state that every student must meet the performance outcome standards for teacher licensure. Standards will be assessed in each course and students will receive both formative and summative evaluations of their progress toward meeting these standards throughout their program at Iowa State University. A detailed explanation of the standards and assessment process may be found on the department's website (<http://www.education.iastate.edu/>). The same information is also available from the student's academic adviser.

Graduates of the elementary education program will be able to demonstrate:

- their understanding of concepts and structures of disciplines, tools of inquiry, how students learn and develop, and the effects of individual differences on learning;
- a broad range of instructional strategies, including knowledge of technology applicable to instruction;
- the ability to stimulate active inquiry with collaboration and supportive interaction among their students; and
- their ability to develop professional relationships with colleagues, parents, and agencies that support students and their learning in appropriate settings.

Secondary Education

For specific requirements for each area of specialization, see Teacher Education and curricula for the college in which the chosen degree major is sought.

Students seeking recommendations for a license to teach in the secondary schools must be admitted to the teacher education program and pursue a program that includes the professional core:

C I 202	Learning Technologies in the 7-12 Classroom	3
C I 204	Social Foundations of Education in the United States	3

C I 333	Educational Psychology	3
C I 406	Multicultural Foundations of School and Society: Introduction	3
C I 426	Principles of Secondary Education	3
SP ED 401	Teaching Secondary Students with Exceptionalities in General Education	3
Total Credits		18

Notes:

- Students seeking licensure in physical education, agriculture and science do not take C I 426 Principles of Secondary Education.
- Students seeking a teaching license in physical education must see an adviser in the Department of Kinesiology in the College of Human Sciences.
- All students who are recommended by Iowa State University for teacher licensure must meet the requirements of the teacher education program and be recommended by the Associate Dean for Teacher Education.
- Each student must meet the performance outcome standards for teacher licensure. Each standard will be assessed in every major. Students will receive both formative and summative evaluations of their progress toward meeting these outcomes throughout their program at Iowa State University.
- A detailed explanation of the standards and assessment process may be found at <http://www.education.iastate.edu/>. For more information, students should contact the academic adviser in their major. Each student will be enrolled in the department in which he or she plans to major, and must meet the graduation requirements of that department and the college in which it is situated.

Graduate Study

The Department of Curriculum and Instruction offers work for the degrees Master of Science, Master of Education, and Doctor of Philosophy with a major in education and minor work to students taking major work in other departments. Within the education major in the Department of Curriculum and Instruction a student may earn an education degree with no area of specialization (master's and doctorate) or specialize in special education (master's only), or curriculum and instructional technology (master's and doctorate). The special education specialization is designed to prepare candidates as practitioners and researchers in the field of mild/moderate disabilities or behavioral disorders/learning disabilities. The specialization in curriculum and instructional technology is designed to prepare candidates as researchers and practitioners in the fields of curriculum and instructional technology.

Students may also opt not to select an area of specialization. These students are asked to select a focus area for their graduate study. Focus areas include educational foundations, world language education, literacy education, mathematics education, multicultural education and international curriculum studies, and science education. See the Curriculum and Instruction web site at <http://www.ci.hs.iastate.edu/> for more information on these focus areas.

A minor is available in curriculum and instructional technology at both the master's and doctoral level. Information about the minors can be found on the web at http://www.citl.iastate.edu/student/degree_programs.php.

Prerequisite to major graduate work in education is preparation substantially equivalent to the completion of one of the undergraduate curricula in education offered at Iowa State University, or graduate preparation in a discipline to be used as a teaching field in a community college or university, and adequate proof that the student ranks above average in scholastic ability and promise of professional competence.

The world language requirement, if any, for the Ph.D. degree will be determined by the student's program of study committee. If no world language is required, the total program must consist of a minimum of 78 semester credits, at least 12 of which must be earned outside the education major, and at least 16 of which must be earned outside the area of specialization. Statistics and research methods may not be included in the 16 credits. Should world language be included, the program of study committee may adjust the minimum program requirement downward, but in no instance may the program of study be less than 72 semester credits. Students whose native language is not English may substitute competence in English. All applicants for the Ph.D. must submit Graduate Record Examination (GRE) scores.

Other graduate programs related to education (including General Graduate Studies) may be planned for students on the basis of previous education and experiences as well as future plans and needs. Students should refer to Agricultural Education and Studies, Family and Consumer Sciences Education, Kinesiology, Educational Leadership and Policy Studies, and General Graduate Studies or to graduate level course offerings within other departments.

Graduate Teacher Licensure Programs

A Master of Arts in Teaching degree program leading to teacher licensure (science only) is available to students who currently have a bachelor's degree in science (or a closely related field). A teacher licensure program in mathematics education is also available to graduate students (Department of Curriculum and Instruction). Teacher licensure at the graduate level is also offered in agricultural education (College of Agriculture and Life Sciences) and family and consumer sciences (College of Human Sciences). The Department of Curriculum and Instruction provides the professional education coursework.

Students in a graduate teacher licensure program must complete:

SP ED 501	Teaching Secondary Students with Exceptionalities in General Education	3
C I 505	Using Technology in Learning and Teaching	3
C I 506	Multicultural Foundations of School and Society: Advanced	3
C I 529	Educational Psychology and the Secondary Classroom	3
H P C 504	Studies in the Foundations of Education in the United States	3
Total Credits		15

Mathematics licensure students also take C I 526 Principles of Secondary Education.

Graduate level teaching endorsements are offered through the Department of Curriculum and Instruction. Graduate students who seek a teaching endorsement in special education, but do not wish to pursue a master's degree can incorporate those courses in a professional certificate program. Endorsement programs include Instructional Strategist I: Mild/Moderate Disabilities (K-8 or 5-12), or Instructional Strategist II: Behavior Disorders/Learning Disabilities, and special education consultant. A graduate level reading endorsement is also available.

Graduate Certificate Programs

The Department of Curriculum and Instruction offers Graduate Certificate programs to allow students to enhance their skills outside of full degree programs. The Certificate programs currently offered include Instructional Design, Literacy Coaching, and Special Education.

The Instructional Design Certificate is designed for those working in education, training, professional development, design, and/or outreach who wish to accredit and enhance their knowledge and skills in instructional design. All credits earned toward the Instructional Design Certificate are Iowa State University graduate credits and can be earned before, after, or concurrently with a master or doctoral degree. More information about the Instructional Design Certificate is available at <http://www.ci.hs.iastate.edu/gcert-ic/>.

The Literacy Coaching Certificate program consists of a series of advanced graduate level courses (17 semester credits) aimed at preparing eligible classroom teachers, instructional leaders, and other school personnel to serve in literacy leadership roles with the goal of improving teacher practices and student achievement in diverse PreK-12 school settings. The Literacy Coaching Certificate program provides a unique opportunity to develop deep expertise in literacy research, policy, and practice, as well as skill in leadership at a leading university supported by two outstanding programs within the College of Human Sciences at Iowa State University: Literacy Education and Educational Administration. More information about the Literacy Coaching Certificate is available at <http://www.ci.hs.iastate.edu/literacy/index.php>.

The Special Education Certificate program allows educators who already hold a general education teaching license to complete the coursework necessary to each a teaching endorsement in Special Education. Both the Instructional Strategist I: Mild/Moderate Disabilities (K-6 and 712) and the Instructional Strategist II: Behavior Disorders/Learning Disabilities endorsements are available. The programs use a hybrid distance education model to provide accessible coursework, combining video conferencing with a limited number of on-campus sessions. More information about the Special Education Certificate program is available at <http://www.ci.hs.iastate.edu/sped/gradprosp.php>.

Curriculum in Elementary Education

The curriculum in Elementary Education is planned for students preparing to teach in grades kindergarten through six. For additional information, see Index, Elementary Education.

Teaching endorsements in areas closely related to elementary education, are available for elementary education majors. These include Art, English as Second Language K-12, English/Language Arts, Health, History, Mathematics, Music, Science (basic), Social Studies, Special Education (Instructional Strategist I: Mild/

Moderate K-8), Speech Communication/Theater, World Language. See Teacher Education, Courses and Programs, for additional information about endorsements.

Additional teaching endorsements, available at the graduate level to individuals who hold a valid Iowa teaching license, include the following: K-6 world language, reading, and special education (Instructional Strategist II: Behavior Disorders/Learning Disabilities, ages 5-21).

A minor in learning technologies is available; see requirements under Curriculum and Instruction Courses and Programs.

Communication Proficiency

To meet graduation requirements, all students must have a C (2.0) or better for each of ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition.

U.S. Diversity and International Perspectives

To meet graduation requirements, all students must complete 3 cr. of course work in U.S. Diversity and 3 cr. in International Perspectives. See department for approved lists of courses.

World Language and Culture Requirement

Elementary education majors must satisfy a graduation requirement equivalent to the first year of university-level study in one world language (normally, completion of a two-semester sequence in any one world language). The requirement may be met by completion of three or more years of high school study in one world language.

Students who have completed three or more years of French, German, or Spanish in high school may not receive graded credit for WLC 101/102 in those languages; test-out credit (T credit) may be obtained by passing an appropriate examination or by completing an advanced sequence (200-level or higher) in that language. If these students choose to take WLC 101/102 on a remedial basis, they will be graded S-F. Certification in American Sign Language is recognized by the University and satisfies the world languages requirement for the curriculum in elementary education.

Total credits required: 128.5.

General Education*: 45.5

Communication skills:

LIB 160	Information Literacy	1
ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
Select one of the following:		3
COMST 102	Introduction to Interpersonal Communication	
COMST 218	Conflict Management	
COMST 317	Small Group Communication	
SP CM 212	Fundamentals of Public Speaking	
SP CM 312	Business and Professional Speaking	
SP CM 313	Communication in Classrooms and Workshops	
SP CM 322	Argumentation, Debate, and Critical Thinking	
SP CM 327	Persuasion	
Total Credits		10

Social sciences:

HD FS 102	Individual and Family Life Development	3
or PSYCH 230	Developmental Psychology	
American Government or American History		3
Option		3
Total Credits		9

Humanities:

Select 9 cr.

Mathematics:

MATH 195	Mathematics for Elementary Education I	3
MATH 196	Mathematics for Elementary Education II	3
One course from the following		3
MATH 104	Introduction to Probability	
MATH 105	Introduction to Mathematical Ideas	
MATH 140	College Algebra	
MATH 142	Trigonometry and Analytic Geometry	

MATH 150	Discrete Mathematics for Business and Social Sciences
MATH 160	Survey of Calculus
MATH 165	Calculus I
MATH 181	Calculus and Mathematical Modeling for the Life Sciences I
MATH 297	Intermediate Topics for School Mathematics
STAT 101	Principles of Statistics

Total Credits 9

Biological/Physical Sciences:

Biological Sciences 3

ANTHR 202	Introduction to Biological Anthropology and Archaeology
BIOL 101	Introductory Biology
BIOL 155	Human Biology
BIOL 173	Environmental Biology
BIOL 211	Principles of Biology I
BIOL 255	Fundamentals of Human Anatomy
BIOL 256	Fundamentals of Human Physiology
BIOL 258	Human Reproduction

Physical Sciences 3

ASTRO 120	The Sky and the Solar System
ASTRO 150	Stars, Galaxies, and Cosmology
CHEM 160	Chemistry in Modern Society
CHEM 163	College Chemistry
CHEM 177	General Chemistry I
GEOL 100	The Earth
GEOL 101	Environmental Geology: Earth in Crisis
MTEOR 206	Introduction to Weather and Climate
PHYS 101	Physics for the Nonscientist
PHYS 111	General Physics

Option 3

Total Credits 9

Area of specialization**: 18 cr.

(Require 24 cr.; 9 cr. from an area specialization may be used to meet other requirements.)

Professional education**: 68 cr.

Required courses: 24 Credits

C I 201	Learning Technologies in the PK-6 Classroom	3
C I 204	Social Foundations of Education in the United States	3
C I 245	Strategies in Teaching	2
C I 268	Strategies Practicum	1
C I 332	Educational Psychology of Young Learners	3
C I 406	Multicultural Foundations of School and Society: Introduction	3
HD FS 226	Development and Guidance in Middle Childhood	3
HD FS 240	Literature for Children	3
SP ED 250	Education of the Exceptional Learner in a Diverse Society	3

Total Credits 24

Required methods: 21 Credits

21 Credits Required

C I 377	The Teaching of Reading and Language Arts in the Primary Grades (K-3)	4
C I 468A	Pre-Student Teaching Experience II: Primary Grades, Reading and Language Arts	1
C I 378	The Teaching of Reading and Language Arts in the Intermediate Grades (4-6)	4
C I 468B	Pre-Student Teaching Experience II: Intermediate Grades, Reading and Language Arts	1
C I 448	Teaching Children Mathematics	3
C I 468C	Pre-Student Teaching Experience II: Primary Grades, Mathematics	1
C I 449	The Teaching of Science	3

C I 468D	Pre-Student Teaching Experience II: Intermediate Grades, Science	1
----------	--	---

C I 443	The Teaching of Social Studies	3
---------	--------------------------------	---

Related Methods: 6 Credits

Choose 6 credits from the following:

H S 275	Health Education in the Elementary School	3
ARTED 211	Introduction to Art Education	3
MUSIC 265	Music in Elementary Education	2
KIN 284	Elementary and Pre-school Movement Education	3

Student teaching: 16 Credits

Choose 16 credits from the following:

C I 416A	Supervised Student Teaching - Elementary: Primary grades (K-3)	arr	†
C I 416D	Supervised Student Teaching - Elementary: International Student Teaching - Primary Grades	arr	†
C I 416B	Supervised Student Teaching - Elementary: Intermediate grades (4-6)	arr	†
C I 416E	Supervised Student Teaching - Elementary: International Student Teaching - Intermediate Grades	arr	†
SP ED 416	Supervised Student Teaching (special education students only)	arr	†

† Arranged with instructor.

Orientation: 1 Credit

C I orientation course. See department for details

C I 315	Transfer Orientation
---------	----------------------

One of the following:

*Refer to departmental curriculum sheet, available from adviser, for specific course requirements

**Must receive a C or above in each of the courses listed

Courses primarily for undergraduates:

C I 201. Learning Technologies in the PK-6 Classroom.

(2-2) Cr. 3. F.S.Alt. SS., offered odd-numbered years.

Overview of ways to use educational technologies to support instruction in PK-6 settings. Focus on pedagogical approaches that integrate technologies to support learning in the content areas. Laboratory experiences include development of activities to use tool software, multimedia, web page development, digital video and other technologies to facilitate learning and teaching.

C I 202. Learning Technologies in the 7-12 Classroom.

(2-2) Cr. 3. F.S.Alt. SS., offered even-numbered years.

Overview of ways to use educational technologies to support instruction in 7-12 settings. Focus on pedagogical approaches that integrate technologies to support learning in the content areas. Laboratory experiences include development of activities to use tool software, multimedia, web page development, digital video and other technologies to facilitate learning and teaching.

C I 204. Social Foundations of Education in the United States.

(3-0) Cr. 3. F.S.SS.

Introduction to the historical and contemporary landscape of schooling in the United States. Emphasis is placed on topics and tensions in the relationship between school and society (e.g. equity of access to education and competing purposes of education) and the implications of these topics and tensions for teaching and learning in public schools. Designed for prospective teachers.

C I 208. Early Childhood Education Orientation.

(Cross-listed with HD FS). Cr. 1. F.S. *Prereq: classification as ECE major*

Overview of early childhood education (birth-grade 3) teacher licensure requirements. Program planning and university procedures. Required of all students majoring in early childhood education. Offered on a satisfactory-fail basis only.

C I 216. Learning Community Orientation to Teacher Education.

(1-0) Cr. 1. F. *Prereq: First semester freshman Elementary Education major or other majors interested in seeking pre-K to grade 12 teacher certification*

Learning community for transition to university community life. Overview of pre-K to grade 12 teacher certification requirements in Iowa and other states. Program and career planning. Offered on a satisfactory-fail basis only.

C I 219. Orientation to Teacher Education: Math, Science, FCS Education, and History/Social Science Majors.

Cr. 1. F.S. *Prereq: Students seeking teacher licensure in mathematics, science family and consumer sciences, or history/social sciences in grades 5-12*
Overview of mathematics, science, family and consumer sciences and history/social sciences secondary education (grades 5-12), teacher licensure requirements in Iowa and other states. Program and career planning. Offered on a satisfactory-fail basis only.

C I 245. Strategies in Teaching.

(2-0) Cr. 2. F.S. *Prereq: C I 204; HD FS 220 or HD FS 224 or HD FS 226 (or concurrent enrollment in one of these courses); concurrent enrollment in C I 268; sophomore standing*

Introduction to elementary education teaching strategies, classroom management, and curriculum organization. Open to students in the elementary education curriculum or the early childhood education curriculum.

C I 268. Strategies Practicum.

(0-2) Cr. 1. F.S. *Prereq: C I 204*

Clinical experience, to be taken concurrently with C I 245. Offered on a satisfactory-fail basis only.

C I 280. Pre-Student Teaching Experience I.

(1-8) Cr. 0.5-2. Repeatable. F.S.

Pre-Student teaching experience in area educational settings. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280A. Pre-Student Teaching Experience I: Core Experience.

(1-8) Cr. 1-2. Repeatable. F.S. *Prereq: Restricted to students with admission to teacher education.*

Pre-Student teaching experience in school settings. 1/2 day of time needed. Clinical Experience Level 2. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280B. Pre-Student Teaching Experience I: Learning Technologies.

(1-8) Cr. 1-2. Repeatable. F.S. *Prereq: C I 201 or C I 202. Permission of instructor for 2 credits.*

Pre-Student teaching experience in learning technologies in school settings. 2 1/2-hour blocks of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280C. Pre-Student Teaching Experience I: Native American Tutoring.

(1-8) Cr. 1. Repeatable. F.S.

Pre-Student teaching experience in Native American tutoring in school settings. 2 1/2 hour blocks of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280D. Pre-Student Teaching Experience: Museum Education.

(1-8) Cr. 0.5-2. Repeatable. F.S.SS. *Prereq: C I 280A may be taken alone. For enrollment in C I 280B-I, C I 280A must be either a prerequisite or taken concurrently*

Field experience in area educational settings. 2 1/2-hour blocks of time needed for field experience. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280E. Pre-Student Teaching Experience I: Multicultural Youth.

(1-8) Cr. 1-2. Repeatable. F.S. *Prereq: C I 280A must be either a prerequisite or taken currently; permission of instructor for 2 credits.*

Pre-Student teaching experience for multicultural youth in school settings. 2 1/2-hour blocks of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280I. Pre-Student Teaching Experience I: Mild/Moderate Disabilities.

(1-8) Cr. 1-2. Repeatable. F. *Prereq: Admission to teacher education; concurrent enrollment in SP ED 330.*

Pre-Student teaching experience in mild/moderate disabilities in school settings. 2 1/2-hour blocks of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only.

C I 280K. Pre-Student Teaching Experience I: Music.

(Cross-listed with MUSIC). Cr. 0.5. Repeatable. S.

Pre-student teaching experience in music in school settings. Permission of Music coordinator required prior to enrollment. Clinical Experience Level 1. Offered on a satisfactory-fail basis only.

C I 280L. Pre-Student Teaching Experience I: Secondary Education.

Cr. 0.5. Repeatable. F.S.

Pre-student teaching experience for secondary education students in school settings. 2 1/2 hour blocks of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only.

C I 280M. Pre-Student Teaching Experience I: Secondary Science.

(1-8) Cr. 1-2. Repeatable. S. *Prereq: Permission of instructor for 2 credits.*

Pre-student teaching experience in secondary science in school settings. 2 1/2-hour blocks of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280N. Pre-Student Teaching Experience I: Learning Community.

(1-8) Cr. 1. Repeatable. F.S. *Prereq: Permission of department required.*

Pre-student teaching experience for Preparing Tomorrow's Teachers learning community students in school settings. 2 1/2-hour blocks of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280O. Pre-Student Teaching Experience 1: Art Education.

(1-8) Cr. 1. Repeatable. F.S. *Prereq: Permission of the Art and Design Department required.*

Pre-student teaching experience in art education in school settings. 2 1/2-hour blocks of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280P. Pre-Student Teaching Experience I: English as a Second Language (ESL).

(0-4) Cr. 1. Repeatable, maximum of 2 times. F.S. *Prereq: Admission to teacher education.*

Pre-student teaching experience in English as a Second Language. 1/2 day of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only.

C I 280T. Pre-Student Teaching Experience I: Mathematics and Literacy Tutoring.

Cr. 1. Repeatable. F.S. *Prereq: Permission of instructor*

Pre-student teaching experience tutoring in a school setting focused on mathematics and/or literacy. Two, one-hour blocks of time per week needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only.

C I 290. Independent Study.

Cr. 1-3. *Prereq: 6 credits in education, permission of department chair*

Independent study, under faculty supervision, of a topic in the field of education.

C I 302. Principles and Practices of Learning with Technology.

(2-2) Cr. 3. F.S. *Prereq: C I 201 or C I 202*

Advanced integration of learning technologies into K-12 educational contexts. Students will examine current trends in the use of learning technologies with K-12 students; explore the use of Web 2.0 applications in the classroom; and delve into issues and trends in classroom technology use. Required for Learning Technologies minor.

C I 315. Transfer Orientation.

Cr. 1. F.S.

Overview of elementary education requirements, curricular opportunities, and university procedures. Program planning. Required of all transfer students majoring in elementary education. Offered on a satisfactory-fail basis only.

C I 332. Educational Psychology of Young Learners.

(3-0) Cr. 3. F.S. *Prereq: PSYCH 230 or HD FS 102, open only to majors in Early Childhood Education or Elementary Education*

Psychological theory relevant to classroom learning, cognition, motivation, classroom management and assessment for children from birth to grade 6. Implications of theory for teaching children and for assessing learning in educational settings with young and grade school aged children.

C I 333. Educational Psychology.

(Cross-listed with PSYCH). (3-0) Cr. 3. F.S. *Prereq: PSYCH 230 or HD FS 102,*

application to the teacher education program or major in psychology
Classroom learning with emphasis on theories of learning and cognition, and instructional techniques. Major emphasis on measurement theory and the classroom assessment of learning outcomes.

C I 347. Nature of Science.

(Dual-listed with C I 547). (3-0) Cr. 3. F. *Prereq: C I 280M; concurrent enrollment in C I 418 or instructor permission*

The intersection of issues in the history, philosophy sociology, and psychology of science and their application to and impact on science teaching and learning, science teacher education, and science education research.

C I 377. The Teaching of Reading and Language Arts in the Primary Grades (K-3).

(4-0) Cr. 4. F.S.SS. *Prereq: admission to teacher education program, C I 245, SP ED 250, HD FS 240, HD FS 226 (EI Ed majors) or HD FS 221 (ECE majors); concurrent enrollment in C I 448, C I 468A, C I 468C (EI Ed majors) or C I 438, C I 468F, C I 468G, SP ED 368, HD FS 343 (ECE majors)*

Theories, teaching strategies, and instructional materials pertinent to teaching reading, writing, listening, and speaking to children in kindergarten through third grade.

C I 378. The Teaching of Reading and Language Arts in the Intermediate Grades (4-6).

(4-0) Cr. 4. F.S.SS. *Prereq: C I 377; concurrent enrollment in C I 449, C I 468B, C I 468D*

Theories and processes of literacy. Application through reading and writing across the curriculum, integration of language arts, literature-based instruction, and metacognitive strategies.

C I 395. Teaching Reading in Middle and Secondary Schools.

(Dual-listed with C I 595). (3-0) Cr. 3. F. *Prereq: C I 204 and junior standing*
Analysis and application of strategies to enhance students' literacy development in middle and secondary school settings.

C I 406. Multicultural Foundations of School and Society: Introduction.

(3-0) Cr. 3. F.S.SS. *Prereq: C I 201 or C I 202, C I 332 or C I 333, junior classification, admission to teacher education program*
Awareness and nature of cultural pluralism; need for multicultural education; multicultural concepts and theories; cultural groups - their perceptions, needs, and contributions; problems and issues regarding ethnocentrism, prejudice, and discrimination based on race, ethnicity, socioeconomic class, sex/gender, sexual identity, and language in the school environment; curriculum infusion and transformation, multicultural interaction, design and execution of teaching strategies.

Meets U.S. Diversity Requirement

C I 407. Principles and Practices of Distance Learning.

(Dual-listed with C I 507). (2-2) Cr. 3. F.SS. *Prereq: C I 201 or C I 202; convenient access to the Web*

Review of flexible and distance learning (FDL) cases in a variety of contexts and pedagogic styles, identification of underlying principles and frameworks for best practice in this field.

C I 416. Supervised Student Teaching - Elementary.

Cr. arr. F.S. *Prereq: GPA 2.5; full admission to teacher education; senior classification; C I 378, C I 443, C I 448, C I 449; reservation required*
Supervised teaching experience in the elementary grades.

C I 416A. Supervised Student Teaching - Elementary: Primary grades (K-3).

Cr. arr. F.S. *Prereq: GPA 2.5; full admission to teacher education; senior classification; C I 378, C I 443, C I 448, C I 449; reservation required*
Supervised teaching experience in the elementary grades.

C I 416B. Supervised Student Teaching - Elementary: Intermediate grades (4-6).

Cr. arr. F.S. *Prereq: GPA 2.5; full admission to teacher education; senior classification; C I 378, C I 443, C I 448, C I 449; reservation required*
Supervised teaching experience in the elementary grades.

C I 416C. Supervised Student Teaching - Elementary: World Language.

Cr. arr. F.S. *Prereq: GPA 2.5; full admission to teacher education; senior classification; C I 378, C I 443, C I 448, C I 449; reservation required*
Supervised teaching experience in the elementary grades.

C I 416D. Supervised Student Teaching - Elementary: International Student Teaching - Primary Grades.

Cr. arr. F.S. *Prereq: GPA 2.5; full admission to teacher education; senior classification; C I 378, C I 443, C I 448, C I 449; reservation required*
Supervised teaching experience in the elementary grades.

C I 416E. Supervised Student Teaching - Elementary: International Student Teaching - Intermediate Grades.

Cr. arr. F.S. *Prereq: GPA 2.5; full admission to teacher education; senior classification; C I 378, C I 443, C I 448, C I 449; reservation required*
Supervised teaching experience in the elementary grades.

C I 417. Student Teaching.

Cr. arr. F.S. *Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 417A. Student Teaching: Social Studies-Middle School.

(Dual-listed with C I 517A). Cr. arr. F.S. *Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 417B. Student Teaching: Physical Sciences.

(Dual-listed with C I 517B). Cr. arr. F.S. *Prereq: Full admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in physical sciences grades 5-12.

C I 417C. Student Teaching: Mathematics.

(Dual-listed with C I 517C). Cr. arr. F.S. *Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 417D. Student Teaching: Biological Sciences.

(Dual-listed with C I 517D). Cr. arr. F.S. *Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 417E. Student Teaching: English and Literature.

(Cross-listed with ENGL). Cr. arr. F.S. *Prereq: ENGL 494, admission to teacher education, approval of coordinator the semester prior to student teaching*
Full-time teaching in secondary English: long term and unit planning, lesson planning, classroom teaching practice in English language arts.

C I 417G. Student Teaching: World Language.

(Dual-listed with C I 517G). (Cross-listed with WLC). Cr. arr. F.S. *Prereq: minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 417J. Student Teaching: Earth Sciences.

(Dual-listed with C I 517J). Cr. arr. F.S. *Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 417M. Student Teaching: Science-Basic.

(Dual-listed with C I 517M). Cr. arr. F.S. *Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 417N. Student Teaching: International.

(Dual-listed with C I 517N). Cr. arr. F.S. *Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 417P. Student Teaching: Social Studies-High School.

(Dual-listed with C I 517P). Cr. arr. F.S. *Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 417R. Student Teaching: Music-Elementary.

(Dual-listed with C I 517R). (Cross-listed with MUSIC). Cr. arr. F.S. *Prereq: Minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 417S. Student Teaching: Music-Secondary.

(Dual-listed with C I 517S). (Cross-listed with MUSIC). Cr. arr. F.S. *Prereq: Minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 418. Secondary Science Methods I: A Research-Based Framework for Teaching Science.

(Dual-listed with C I 518). (2-0) Cr. 2. F. *Prereq: C I 280M; concurrent enrollment in C I 347 and C I 468J*
Development of a research-based framework for teaching science that includes student goals, congruent student actions, the character and role of science inquiry, teaching behaviors and strategies, contemporary learning theories, and self evaluation.

C I 419. Secondary Science Methods II.

(Dual-listed with C I 519). (2-0) Cr. 2. S. *Prereq: C I 418 or C I 518, undergraduate students must register concurrently for C I 468K*
Advancing a research-based framework for teaching science in a variety of school settings, emphasizing the teacher's role, the development and revision of science curriculum, exceptional learners, content area reading strategies, management strategies, technology and student assessment.

C I 420. Bilingualism, Bilingual Education, and U.S. Mexican Youth.

(Dual-listed with C I 520). (3-0) Cr. 3. F. *Prereq: C I 406*
Introduction to research on bilingualism and examination of the social, historical, and political contexts of bilingual education in U.S. schools. Attention to policy environment, school program structure, mode of classroom instruction, family and community context, and attainment of bilingualism and biculturalism for U.S. Mexican youth.

C I 426. Principles of Secondary Education.

(Dual-listed with C I 526). (3-0) Cr. 3. F.S.SS. *Prereq: C I 202, senior classification, admission to teacher education program*
The curriculum, human relations, student evaluation, support services, classroom management, organization of schools, legal aspects of schools, professionalism, and career planning.

C I 433. Teaching Social Studies in the Primary Grades.

(2-0) Cr. 2. F.S. *Prereq: C I 377, HD FS 224; concurrent enrollment in C I 439, SP ED 355, SP ED 455*
Emphasis is placed on providing appropriate social studies learning experiences (e.g. curriculum content, instructional strategies, and assessment) for primary grade children.

C I 438. Teaching Mathematics in the Primary Grades.

(2-0) Cr. 2. F.S. *Prereq: HD FS 224; MATH 195, MATH 196 (minimum grade of C- in both Math 195 and MATH 196), concurrent enrollment in C I 377, C I 468F, C I 468G, SP ED 368*
Study, development, and application of current methods for providing appropriate mathematics learning experiences for primary grade children. Formal and informal assessment strategies and instructional methods for diverse learners.

C I 439. Teaching Science in the Primary Grades.

(2-0) Cr. 2. F.S. *Prereq: C I 377, HD FS 224; concurrent enrollment in C I 433, C I 468I, SP ED 355, SP ED 455*
Study, development, and application of current methods for providing appropriate science learning experiences and processes for primary grade children. Formal and informal assessment strategies and instructional methods for diverse learners.

C I 443. The Teaching of Social Studies.

(3-0) Cr. 3. F.S.SS. *Prereq: C I 377*
Emphasis is placed on providing appropriate social studies learning experiences (e.g. curriculum content, instructional strategies, and assessment) for primary and intermediate grade children.

C I 448. Teaching Children Mathematics.

(3-0) Cr. 3. F.S.SS. *Prereq: MATH 195 (minimum grade of C-), MATH 196 (minimum grade of C-); concurrent enrollment in C I 377, C I 468A, C I 468C*
Study, development, and application of current methods for providing appropriate mathematical learning experiences for primary and intermediate children. Includes critical examination of factors related to the teaching and learning of mathematics.

C I 449. The Teaching of Science.

(3-0) Cr. 3. F.S.SS. *Prereq: C I 377, concurrent enrollment in C I 378, C I 468B, C I 468D, junior classification*
Procedures for teaching science to children. Emphasis on developmental implications, teaching processes and methods, current programs, and assessment of learning in science.

C I 450. Ethnicity and Learning.

(Dual-listed with C I 550). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: C I 332 or C I 333, C I 406
Examination of cultural relevance in education. Development and application of strategies and techniques for implementing multicultural goals and multiethnic perspectives in PreK-12 school classroom settings.
Meets U.S. Diversity Requirement

C I 452. Corrective Reading.

(Dual-listed with C I 552). (3-0) Cr. 3. S. *Prereq: C I 378 or equivalent; undergraduate students must register concurrently for SP ED 365, SP ED 436; graduate students must have a teaching license*
Identification, analysis and correction of reading problems in five areas: print knowledge, integration of print knowledge, oral reading fluency, vocabulary, and comprehension.

C I 454. Emerging Topics in Learning Technologies.

(2-2) Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS. *Prereq: C I 201 or C I 202*
Development and application of emerging technology topics related to digital learning. Series of 1-3 credit on-line learning modules on topics such as grant writing, interactive on-line tools, social networking, gaming technologies, technology leadership in schools, and web/graphic design. Required for the Learning Technologies minor.

C I 456. Integrating Technology into the Reading and Language Arts Curriculum.

(Dual-listed with C I 556). (3-0) Cr. 3. F.SS. *Prereq: C I 201 or C I 202, C I 377*
Methods and strategies used to integrate technology into the reading and language arts curriculum. Use and evaluation of reading and language arts software for elementary classrooms.

C I 468. Pre-Student Teaching Experience II.

(2-2) Cr. 1-2. F.S.SS. *Prereq: Admission to teacher education program*
Application of current methods, and instructional experiences with children in a supervised elementary, middle, or high school classroom while engaged in other methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

C I 468A. Pre-Student Teaching Experience II: Primary Grades, Reading and Language Arts.

Cr. 1. F.S.SS. *Prereq: Admission to teacher education program*
Application of current methods and instructional experiences with children in a supervised K-3 elementary classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

C I 468B. Pre-Student Teaching Experience II: Intermediate Grades, Reading and Language Arts.

Cr. 1. F.S.SS. *Prereq: Admission to teacher education program*
Application of current methods and instructional experiences with children in a supervised 3-6 elementary classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

C I 468C. Pre-Student Teaching Experience II: Primary Grades, Mathematics.

Cr. 1. F.S.SS. *Prereq: Admission to teacher education program*
Application of current methods, and instructional experiences with children in a supervised K-3 elementary classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

C I 468D. Pre-Student Teaching Experience II: Intermediate Grades, Science.

Cr. 1. F.S.SS. *Prereq: Admission to teacher education program*
Application of current methods and instructional experiences with children in a supervised 3-6 elementary classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

C I 468E. Pre-Student Teaching Experience II: World Languages.

Cr. 1. F. *Prereq: Admission to teacher education program*
Application of current methods, and instructional experiences with children in a supervised K-6 elementary classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

C I 468F. Pre-Student Teaching Experience II: Primary Grades Inclusive, Literacy.

Cr. 1. F.S. *Prereq: Admission to teacher education program*
Application of current methods and instructional experiences with children in a supervised K-3 inclusive elementary classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

C I 468G. Pre-Student Teaching Experience II: Primary Grades Inclusive, Mathematics.

Cr. 1. F.S. *Prereq: Admission to teacher education program*
Application of current methods and instructional experiences with children in a supervised K-3 inclusive elementary classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

C I 468I. Pre-Student Teaching Experience II: Primary Grades Inclusive, Science.

Cr. 1. F.S. *Prereq: Admission to teacher education program*
Application of current methods and instructional experiences with children in a supervised K-3 inclusive elementary classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

C I 468J. Pre-Student Teaching Experience II: Secondary Science I.

Cr. 2. F. *Prereq: Admission to teacher education program*
Application of current methods and instructional experiences with children in a supervised grade 5-12 science classroom while engaged in other elementary methods courses. Clinical Supervision Level 3. Offered on a satisfactory-fail basis only.

C I 468K. Pre-Student Teaching Experience II: Secondary Science II.

Cr. 2. S. *Prereq: Admission to teacher education program*
Application of current methods and instructional experiences with children in a supervised 5-12 science classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

C I 468R. Pre-Student Teaching Experience II: Intermediate Grades, Reading Endorsement.

Cr. 1. F.S.SS. *Prereq: Admission to teacher education program. Permission of School of Education required; concurrent enrollment in C I 378*
Application of current methods and instructional experiences with children in a supervised 3-6 elementary classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

C I 480. Pre-Student Teaching Experience III.

Cr. 0.5-2. Repeatable, maximum of 2 times. F.S. *Prereq: Admission to Teacher Education*
Observation and participation in a variety of school settings after admission to the teacher education program. Permission of area coordinator required prior to enrollment. (S/F grading may be used in some offerings of some sections.).

C I 480A. Pre-Student Teaching Experience III: History/Social Sciences.

(Cross-listed with HIST). Cr. 2. Repeatable, maximum of 2 times. F. *Prereq: Admission to Teacher Education*
Supervised participation in a 5-12 school setting. Permission of History/Social Sciences coordinator required prior to enrollment. 1/2 day of time needed. Clinical Supervision Level 3.

C I 480B. Field Experience for Secondary Teaching Preparation: Physical Sciences.

Cr. 0.5. Repeatable, maximum of 2 times. F.S. *Prereq: Permission of area coordinator required prior to enrollment*
Observation and participation in a variety of school settings after admission to the teacher preparation program. Physical Sciences.

C I 480C. Pre-Student Teaching Experience III: Mathematics.

Cr. 0.5-2. Repeatable, maximum of 2 times. F.S. *Prereq: Admission to teacher education*
Supervised participation mathematics in a 5-12 school setting. Permission of mathematics coordinator required prior to enrollment. 1/2 day of time needed. Clinical Experience Level 3.

C I 480D. Field Experience for Secondary Teaching Preparation: Biological Sciences.

Cr. 0.5. Repeatable, maximum of 2 times. F.S. *Prereq: Permission of area coordinator required prior to enrollment*
D. Biological Sciences.

C I 480E. Pre-Student Teaching Experience III: English.

Cr. 1-2. Repeatable, maximum of 2 times. F.S. *Prereq: Admission to teacher education*
Supervised participation in a 5-12 school setting. Cross listed with English 480K. Permission of English coordinator required prior to enrollment. 1/2 day of time needed. Clinical Experience Level 3.

C I 480G. Pre-Student Teaching Experience III: World Languages and Cultures.

Cr. 1-2. Repeatable, maximum of 2 times. F.S. *Prereq: Admission to teacher education*
Supervised participation in a 5-12 school setting. Permission of World Languages and Cultures coordinator required prior to enrollment. 1/2 day of time needed. Clinical Experience Level 3.

C I 480J. Field Experience for Secondary Teaching Preparation: Earth Science.

Cr. 0.5. Repeatable, maximum of 2 times. F.S.
J. Earth Science.

C I 480K. Pre-Student Teaching Experience III: Music.

(Cross-listed with MUSIC). Cr. 1. Repeatable, maximum of 2 times. F.S. *Prereq: Admission to teacher education*
Participation in a K-12 school setting. Cross-listed with Music 480K. Permission of Music coordinator required prior to enrollment. Clinical Experience Level 2. Offered on a satisfactory-fail basis only.

C I 480S. Pre-Student Teaching Experience III: English as a Second Language (ESL).

(0-4) Cr. 2. Repeatable, maximum of 2 times. *Prereq: C I 280S, ENGL/LING 219; ENGL/LING 220; ENGL/LING 511; admission to teaching education.*
Supervised participation in a school setting. Permission of ESL area coordinator required prior to enrollment. 1/2 day of time needed. Clinical experience level 3. Offered on a satisfactory-fail basis only.

C I 481. Philosophy of Education.

(Dual-listed with H P C 581). (3-0) Cr. 3. SS. *Prereq: Graduate classification*
Introduction to Western philosophy of education. Emphasis is placed on enduring debates about the purpose(s) of education in a just society. Readings include classic and contemporary texts.

C I 486. Methods in Elementary School World Language Instruction.
(Cross-listed with LING, WLC). (3-0) Cr. 3. F. *Prereq: 25 credits in a world language*

Planning, implementation, and assessment of standards-based, student-centered, and thematic instruction in the elementary (K-8) classroom. Special emphasis on K-8 students' communicative skills, cultural knowledge, and content learning.

C I 487. Methods in Secondary School World Language Instruction.

(Cross-listed with LING, WLC). (3-0) Cr. 3. F. *Prereq: 25 credits in a world language, admission to the teacher education program*
Theories and principles of contemporary world language learning and teaching. Special emphasis on designing instruction and assessments for active learning.

C I 488. Supervised Tutoring in Reading.

(Dual-listed with C I 588). (2-2) Cr. 3. F.S.SS. *Prereq: concurrent enrollment in or completion of one course in corrective reading; diagnosis and correction of reading problems; graduate status required for C I 588*

Using formal and informal diagnostic procedures to plan and implement individualized reading instruction. Field experience in tutoring and a related research project.

C I 490. Independent Study.

Cr. 1-3. F.S.SS. *Prereq: GPA of 2.5 or more for preceding semester*

C I 490A. Independent Study: Education.

(Cross-listed with MUSIC). Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor; 12 credits in music, approval of department head*

C I 490C. Independent Study: Curriculum Construction.

Cr. 1-3. F.S.SS. *Prereq: GPA of 2.5 or more for preceding semester*

C I 490D. Independent Study: Principles of Education.

Cr. 1-3. F.S.SS. *Prereq: GPA of 2.5 or more for preceding semester*

C I 490E. Independent Study: Methods of Teaching.

Cr. 1-3. F.S.SS. *Prereq: GPA of 2.5 or more for preceding semester*

C I 490F. Independent Study: Educational Psychology.

Cr. 1-3. F.S.SS. *Prereq: GPA of 2.5 or more for preceding semester*

C I 490G. Independent Study: Digital Learning.

Cr. 1-3. F.S.SS. *Prereq: GPA of 2.5 or more for preceding semester*

C I 490H. Independent Study: Honors.

Cr. 1-3. F.S.SS. *Prereq: GPA of 2.5 or more for preceding semester*

C I 490J. Independent Study: Multicultural Education.

Cr. 1-3. F.S.SS. *Prereq: GPA of 2.5 or more for preceding semester*

C I 490K. Independent Study: History/Social Sciences.

Cr. 1-3. F.S.SS. *Prereq: GPA of 2.5 or more for preceding semester*

C I 490L. Independent Study: Literacy Education.

Cr. 1-3. F.S.SS. *Prereq: GPA of 2.5 or more for preceding semester*

C I 490M. Independent Study: Mathematics Education.

Cr. 1-3. F.S.SS. *Prereq: GPA of 2.5 or more for preceding semester*

C I 490N. Independent Study: World Language.

Cr. 1-3. F.S.SS. *Prereq: GPA of 2.5 or more for preceding semester*

C I 490O. Independent Study: Foundations of Education.

Cr. 1-3. F.S.SS. *Prereq: GPA of 2.5 or more for preceding semester*

C I 490P. Independent Study: Science Education.

Cr. 1-3. F.S. *Prereq: GPA of 2.5 or more for preceding semester*
Independent Study in science education.

C I 494. Practice and Theory of Teaching Literature in the Secondary Schools.

(Cross-listed with ENGL). (3-0) Cr. 3. F.S. *Prereq: ENGL 310, ENGL 397, 9 other credits in English beyond ENGL 250, PSYCH 333, admission to teacher education program*

Portfolio review. Current theories and practices in the teaching of literature to secondary school students. Integrating literary study and writing. Preparation and selection of materials. Classroom presentation. Unit planning. (Taken concurrently with C I 280, Cr. 2, and Sp Ed 450).

C I 495B. Independent Study: Teaching Speech.

(Cross-listed with SP CM). (3-0) Cr. 3. F. *Prereq: C I 301; 9 credits in speech communication; minimum GPA of 2.5 in speech communication courses*
Problems, methods, and materials related to teaching speech, theatre, and media in secondary schools.

C I 497. Teaching Secondary School Mathematics.

(Cross-listed with MATH). (3-0) Cr. 3. F. *Prereq: 15 credits in college mathematics and admission to a teacher licensure program, concurrent enrollment in C I 426 or C I 526; C I 480C*

Theory and methods for teaching mathematics in grades 5-12. Includes critical examination of instructional strategies, curriculum materials, learning tools, assessment methods, Common Core State Standards-Mathematics, and equity issues.

C I 498. Methods of Teaching History/Social Sciences.

(Cross-listed with HIST). (3-0) Cr. 3. F.S. *Prereq: Concurrent enrollment in HIST 480A; Admission to teacher education and 30 credits in subject-matter field* Concurrent enrollment in 480A; Admission to teacher education and 30 credits in subject-matter field. Theories and processes of teaching and learning secondary history/social sciences. Emphasis on development and enactment of current methods, assessments, and curriculum materials for providing appropriate learning experiences.

Courses primarily for graduate students, open to qualified undergraduates:

C I 501. Foundations of Digital Learning.

(3-0) Cr. 3. F.SS. *Prereq: Graduate classification*

Educational philosophies and theories of instructional technology. Application of research to the production and use of instructional technology for learning and teaching. Equipment operation.

C I 503. Designing Effective Learning Environments.

(3-0) Cr. 3. F. *Prereq: 501*

Introduction to theories and models of instructional design. Design decision-making based on the analysis of performance problems and instructional inputs. Practical experience with the design and development of instruction and evaluation principles.

C I 504. Evaluating Digital Learning Environments.

(Cross-listed with HCI). (3-0) Cr. 3. S. *Prereq: C I 501*

Principles and procedures to plan, design, and conduct effective evaluation studies (formative, summative, usability) in different settings are studied. Opportunities to engage in real or simulated evaluation projects of substantial scope are provided. Create evaluation instruments, develop methods with which to evaluate a product or program, conduct try-outs or usability sessions, analyze the data, report the findings, and recommendations are some of the course activities.

C I 505. Using Technology in Learning and Teaching.

(3-0) Cr. 3. F.S.SS. *Prereq: Graduate classification*

Teaching and learning using computers. Selection and evaluation of software and hardware for teaching and learning. Research on computers. Tool software. Telecommunications. Trends in computer-based instruction.

C I 506. Multicultural Foundations of School and Society: Advanced.

(3-0) Cr. 3. F.S.SS. *Prereq: 6 graduate credits in education*

Theories, legal bases, and principles of multicultural education. Pluralism and contributing cultures in the United States; presence and contributions of cultural group diversity with implications for educational programs, curriculum development, classroom instruction, materials utilization and development; problems and issues regarding ethnocentrism, prejudice, and discrimination based on race, ethnicity, socioeconomic class, sex/gender, sexual identity, and language in the school environment; curriculum infusion and transformation, multicultural interaction, design and execution of teaching strategies and techniques; inquiry and research on multicultural education issues.

C I 507. Principles and Practices of Distance Learning.

(Dual-listed with C I 407). (2-2) Cr. 3. F.SS. *Prereq: C I 201 or C I 202; convenient access to the Web*

Review of flexible and distance learning (FDL) cases in a variety of contexts and pedagogic styles, identification of underlying principles and frameworks for best practice in this field.

C I 508. Algebra in the K-12 Classrooms.

(3-0) Cr. 3. F. *Prereq: C I 448 or C I 497*

Focus on Algebraic concept explorations and associated procedures. Use of research-based strategies and appropriate technologies to apply fundamental ideas of patterning, coordinate graphing, and relationships among variables into K-12 classrooms. Additional topics facilitate critical examination of K-12 curriculum, pedagogy, and assessment.

C I 509. Geometry in the K-12 Classrooms.

(3-0) Cr. 3. S. *Prereq: C I 448 or C I 497*

Euclidean and non-Euclidean geometry explorations with a focus on pedagogical issues in the K-12 classroom. Use of research-based strategies and appropriate technologies to teach geometry in K-12 classrooms. Additional topics from discrete mathematics, history and philosophy of geometry and fractal geometries.

C I 511. Technology Diffusion, Leadership and Change.

(3-0) Cr. 3. S. *Prereq: Admission to graduate study, C I 501 or equivalent and C I 505 or equivalent*

Principles and practices of technology diffusion, leadership and school change. Readings and coursework focus on technology diffusion in a broad sense, and examine more closely how this has played out in educational contexts. Leadership is addressed relative to frameworks and strategies for professional development and organizational change.

C I 512. Research Trends in Digital Learning.

(3-0) Cr. 3. F. *Prereq: Admission to graduate study and at least two courses in research and foundations of instructional technology*

Critical review of current research trends in educational technology. Designed to consolidate graduate students' knowledge of current trends, issues in research, and methods of conducting research in practice.

C I 513. Mathematical Problem Solving in K-12 Classrooms.

(3-0) Cr. 3. F. *Prereq: 6 credits of mathematics, C I 448 or C I 497 or C I 597 or permission of instructor*

Strategies for improving problem solving skills across all strands of mathematics (e.g., geometry, algebra, number theory) will be emphasized. Issues surrounding the appropriate role of problem solving in K-12 mathematics classrooms will also be discussed, including distinctions among teaching "about," "for," and "through" problem solving. Note: This course is open to undergraduate students, but it is a graduate level course.

C I 514. Introduction to the Purposes and Complexities of Science Teaching.

(1-2) Cr. 2. SS. *Prereq: Admission to M.A.T. program*

Introduction to critical issues facing science education, science education goals reflecting contemporary purposes of schooling, and how people learn science.

C I 515. Action Research in Education.

(3-0) Cr. 3. S. *Prereq: Admission to graduate study, one course in research methods, educational inquiry, statistics, educational psychology, or instructional design*

Philosophy and methods of conducting and communicating action research focused on improving educational practices. Designed specifically for practicing teachers.

C I 516. Antiracist Curriculum Development and Implementation.

(2-2) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: 9 credits in education*

Introduction to historical, sociological, philosophical and pedagogical foundations of antiracist/multicultural education. Examination of causes of racism, other forms of discrimination, and intergroup conflict from different theoretical perspectives and experiential exercises.

C I 517. Student Teaching.

(Dual-listed with C I 417). Cr. arr. F.S. *Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching* Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 517A. Student Teaching: Social Studies-Middle School.

(Dual-listed with C I 417A). Cr. arr. F.S. *Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching* Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 517B. Student Teaching: Physical Sciences.

(Dual-listed with C I 417B). Cr. arr. F.S. *Prereq: Full admission to teacher education, approval of coordinator during semester before student teaching* Evaluation of instruction, lesson planning, and teaching in physical sciences grades 5-12.

C I 517C. Student Teaching: Mathematics.

(Dual-listed with C I 417C). Cr. arr. F.S. *Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching* Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 517D. Student Teaching: Biological Sciences.

(Dual-listed with C I 417D). Cr. arr. F.S. *Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching* Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 517G. Student Teaching: World Language.

(Dual-listed with C I 417G). (Cross-listed with WLC). Cr. arr. F.S. *Prereq: minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching* Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 517J. Student Teaching: Earth Sciences.

(Dual-listed with C I 417J). Cr. arr. F.S. *Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 517M. Student Teaching; Science-Basic.

(Dual-listed with C I 417M). Cr. arr. F.S. *Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 517N. Student Teaching: International.

(Dual-listed with C I 417N). Cr. arr. F.S. *Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 517P. Student Teaching: Social Studies-High School.

(Dual-listed with C I 417P). Cr. arr. F.S. *Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 517R. Student Teaching: Music-Elementary.

(Dual-listed with C I 417R). (Cross-listed with MUSIC). Cr. arr. F.S. *Prereq: Minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 517S. Student Teaching: Music-Secondary.

(Dual-listed with C I 417S). (Cross-listed with MUSIC). Cr. arr. F.S. *Prereq: Minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 518. Secondary Science Methods I: A Research-Based Framework for Teaching Science.

(Dual-listed with C I 418). (2-0) Cr. 2. F. *Prereq: C I 280M; concurrent enrollment in C I 347 and C I 468J*
Development of a research-based framework for teaching science that includes student goals, congruent student actions, the character and role of science inquiry, teaching behaviors and strategies, contemporary learning theories, and self evaluation.

C I 519. Secondary Science Methods II.

(Dual-listed with C I 419). (2-0) Cr. 2. S. *Prereq: C I 418 or C I 518, undergraduate students must register concurrently for C I 468K*
Advancing a research-based framework for teaching science in a variety of school settings, emphasizing the teacher's role, the development and revision of science curriculum, exceptional learners, content area reading strategies, management strategies, technology and student assessment.

C I 520. Bilingualism, Bilingual Education, and U.S. Mexican Youth.

(Dual-listed with C I 420). (3-0) Cr. 3. F. *Prereq: C I 406*
Introduction to research on bilingualism and examination of the social, historical, and political contexts of bilingual education in U.S. schools. Attention to policy environment, school program structure, mode of classroom instruction, family and community context, and attainment of bilingualism and biculturalism for U.S. Mexican youth.

C I 523. Teaching Mathematics to Struggling Elementary Learners.

(3-0) Cr. 3. SS. *Prereq: C I 438 or C I 448*
Instructional methods and assessment techniques for elementary students struggling to learn mathematics. Emphasis on current research and practices for at-risk students and students with disabilities.

C I 526. Principles of Secondary Education.

(Dual-listed with C I 426). (3-0) Cr. 3. F.S.SS. *Prereq: C I 202, senior classification, admission to teacher education program*
The curriculum, human relations, student evaluation, support services, classroom management, organization of schools, legal aspects of schools, professionalism, and career planning.

C I 529. Educational Psychology and the Secondary Classroom.

(3-0) Cr. 3. SS. *Prereq: Bachelor's degree; admission into a graduate level teacher licensure program*

Analysis of psychological research theory related to learning, cognition, motivation, individual differences, and teaching techniques. Student and classroom assessment to facilitate positive learning outcomes. Adaption and differentiation of instruction to meet individual learners' needs. This course can only be used for teacher licensure programs. It is not acceptable for use in meeting the non-licensure M.Ed., M.S. or Ph.D. requirements.

C I 533. Educational Psychology of Learning, Cognition, and Memory.

(Cross-listed with PSYCH). (3-0) Cr. 3. F.
Learning, cognition, and memory in educational/training settings.

C I 541. How People Learn: Implications for Teaching Science.

(3-0) Cr. 3. *Prereq: Bachelor's degree*
Current learning theories within science education and their application to science classrooms. Examination of models which assist the implementation of these theories of learning.

C I 546. Advanced Pedagogy in Science Education.

(3-0) Cr. 3. S.SS. *Prereq: Bachelor's degree*
Critical examination of pedagogy, emphasizing teacher behaviors and strategies, methods of self-assessment, action research, and current issues and trends in science education.

C I 547. Nature of Science.

(Dual-listed with C I 347). (3-0) Cr. 3. F. *Prereq: C I 280M; concurrent enrollment in C I 418 or instructor permission*
The intersection of issues in the history, philosophy sociology, and psychology of science and their application to and impact on science teaching and learning, science teacher education, and science education research.

C I 548. Restructuring Science Activities.

(3-0) Cr. 3. SS. *Prereq: Admission to teacher education or teaching license*
Modification of laboratory activities and other everyday science activities so they are more congruent with how students learn, the nature of science, and the National Science Education Standards.

C I 550. Ethnicity and Learning.

(Dual-listed with C I 450). (3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: C I 332 or C I 333, C I 406*
Examination of cultural relevance in education. Development and application of strategies and techniques for implementing multicultural goals and multiethnic perspectives in PreK-12 school classroom settings.
Meets U.S. Diversity Requirement

C I 551. Foundations of Reading and Language Arts.

(3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq: Teaching license*
Analyzing, discussing, and researching the theory and practice of current literacy issues.

C I 552. Corrective Reading.

(Dual-listed with C I 452). (3-0) Cr. 3. S. *Prereq: C I 378 or equivalent; undergraduate students must register concurrently for SP ED 365, SP ED 436; graduate students must have a teaching license*
Identification, analysis and correction of reading problems in five areas: print knowledge, integration of print knowledge, oral reading fluency, vocabulary, and comprehension.

C I 553. Teaching Struggling Adolescent Readers.

(Cross-listed with SP ED). (3-0) Cr. 3. SS. *Prereq: Teaching license*
Instructional strategies for enhancing the fluency, vocabulary and comprehension of struggling adolescent readers. Attention to content-area reading materials and strategies.

C I 554. Reading and Responding to Children's Literature.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq: Senior status or teaching license*
Research and discussion of issues surrounding the classroom use of literature for children and young adults including censorship, diversity, selection, and the influences of technology.

C I 555. Literacy, Leadership, and Advocacy.

(3-0) Cr. 3. S. *Prereq: Graduate Standing*
Examination of the roles of literacy specialists/coaches in diverse pre-K-12 schools and communities. Particular focus placed on current theories, research, standards, and policies relative to literacy processes and instruction, including culturally responsive literacy; processes of successful literacy coaching; and methods of supporting teachers and other school personnel in planning, implementing, and evaluating literacy instruction for all students.

C I 556. Integrating Technology into the Reading and Language Arts Curriculum.

(Dual-listed with C I 456). (3-0) Cr. 3. F.SS. *Prereq: C I 201 or C I 202, C I 377*
Methods and strategies used to integrate technology into the reading and language arts curriculum. Use and evaluation of reading and language arts software for elementary classrooms.

C I 565. Literacy: Connecting Research, Policy and Practice.

(3-0) Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly. *Prereq: Graduate standing*

Critical examination of current policy initiatives and reform efforts that affect how literacy is viewed, assessed, and practiced, as well as how literacy professionals are prepared for their roles in public schools and colleges.

C I 567. Teaching Mathematics to Struggling Secondary Learners.

(Cross-listed with SP ED). (3-0) Cr. 3. *Prereq: Secondary teaching experience*

Instructional methods and assessment techniques for secondary students struggling to learn mathematics. Particular emphasis on current research, practices, and trends in mathematics interventions for at-risk students and students with disabilities.

C I 570. Toying With Technology for Practicing Teachers.

(Cross-listed with M S E). (2-0) Cr. 2. SS. *Prereq: C I 201 or 202 or 505 or equivalent*

A project-based, hands-on learning course. Technology literacy, appreciation for technological innovations, principles behind many technological innovations, hands-on experiences based upon simple systems constructed out of LEGOs and controlled by small microcomputers. Other technological advances with K-12 applications will be explored. K-12 teachers will leave the course with complete lesson plans for use in their classrooms.

C I 578. Pedagogy, Equality of Opportunity, and the Education of Blacks in the United States.

(3-0) Cr. 3. *Prereq: Graduate or senior level status or permission of instructor*

This course takes a nonlinear, reflective view of the historical, social, economic, political, and legal contexts of the education of African Americans in the U.S. Educational theories and philosophies, Critical Race Theory and Black Feminist Thought form the framework for investigating broad-based, multiple issues of education for African Americans in the U.S. as they are situated in the prevailing dominant views.

C I 588. Supervised Tutoring in Reading.

(Dual-listed with C I 488). (2-2) Cr. 3. F.S.SS. *Prereq: concurrent enrollment in or completion of one course in corrective reading; diagnosis and correction of reading problems; graduate status required for C I 588*

Using formal and informal diagnostic procedures to plan and implement individualized reading instruction. Field experience in tutoring and a related research project.

C I 590. Special Topics.

Cr. 1-3. F.S. *Prereq: 9 graduate credits in education*

C I 590A. Special Topics: Curriculum.

Cr. 1-3. F.S. *Prereq: 9 graduate credits in education*

C I 590B. Special Topics: Digital Learning.

Cr. 1-3. F.S. *Prereq: 9 graduate credits in education*

C I 590C. Special Topics: Science Education.

Cr. 1-3. F.S. *Prereq: 9 graduate credits in education*

C I 590D. Special Topics: Secondary Education.

Cr. 1-3. F.S. *Prereq: 9 graduate credits in education*

C I 590F. Special Topics: Multicultural Education.

Cr. 1-3. F.S. *Prereq: 9 graduate credits in education*

C I 590G. Special Topics: Mathematics Education.

Cr. 1-3. F.S. *Prereq: 9 graduate credits in education*

C I 590I. Special Topics: Elementary Education.

Cr. 1-3. F.S. *Prereq: 9 graduate credits in education*

C I 590J. Special Topics: World Language Education.

Cr. 1-3. F.S. *Prereq: 9 graduate credits in education*

C I 590K. Special Topics: Educational Psychology.

Cr. 1-3. F.S. *Prereq: 9 graduate credits in education*

C I 590L. Special Topics: Social Studies Education.

Cr. 1-3. F.S. *Prereq: 9 graduate credits in education*

C I 590M. Special Topics: Literacy Education.

Cr. 1-3. F.S. *Prereq: 9 graduate credits in education*

C I 591. Graduate Level Pre-Student Teaching Experience.

(0-2) Cr. 1-4. Repeatable, maximum of 3 times. F.S. *Prereq: 15 graduate credits in special area; admission to teacher education.*

Supervised pre-student teaching experience in secondary schools. Supervision level 3.

C I 591C. Supervised Field Experience: Elementary Education.

(0-2) Cr. 1-6. F.S.SS. *Prereq: 15 graduate credits in special area*

Supervised on-the-job field experience in special area.

C I 591D. Graduate Level Pre-Student Teaching Experience: Secondary Science.

(0-2) Cr. 1-4. Repeatable. F.S. *Prereq: 15 graduate credits in specialty area; admission to teacher education*

Supervised pre-student teaching experience in secondary science education. Supervision level 3.

C I 591G. Graduate Level Pre-Student Teaching Experience: Secondary Mathematics Education.

(0-2) Cr. 1-4. Repeatable. F.S. *Prereq: 15 graduate credits in specialty area; admission to teacher education*

Supervised pre-student teaching experience in mathematics education. Supervision level 3.

C I 591M. Supervised Field Experience: Literacy.

(0-2) Cr. 1-6. F.S.SS. *Prereq: 15 graduate credits in special area*

Supervised on-the-job field experience in special area.

C I 593. Workshops.

Cr. 1-3. F.S. *Prereq: 9 graduate credits in education*

C I 593A. Workshops: Curriculum.

Cr. 1-3. F.S. *Prereq: 9 graduate credits in education*

Cr. 1-3. F.S. *Prereq: 9 graduate credits in education*

C I 593I. Workshops: Elementary Education.

Cr. 1-3. F.S. *Prereq: 9 graduate credits in education*

C I 593J. Workshops: World Language Education.

Cr. 1-3. F.S. *Prereq: 9 graduate credits in education*

C I 593K. Workshops: Educational Psychology.

Cr. 1-3. F.S. *Prereq: 9 graduate credits in education*

C I 593L. Workshops: Social Studies Education.

Cr. 1-3. F.S. *Prereq: 9 graduate credits in education*

C I 593M. Workshops: Literacy Education.

Cr. 1-3. F.S. *Prereq: 9 graduate credits in education*

C I 594. Contemporary Curriculum Theory and Principles.

(3-0) Cr. 3. F. *Prereq: Graduate standing*

Theoretical and historical perspectives of contemporary curriculum; social, cultural, and epistemological aspects of curriculum theory; diverse philosophical positions and approaches to understanding curriculum as it relates to educational settings.

C I 595. Teaching Reading in Middle and Secondary Schools.

(Dual-listed with C I 395). (3-0) Cr. 3. F. *Prereq: C I 204 and junior standing*

Analysis and application of strategies to enhance students' literacy development in middle and secondary school settings.

C I 597. Teaching Secondary School Mathematics.

(3-0) Cr. 3. F. *Prereq: 15 credits in college mathematics; and either in a teacher licensure program or in the process of applying, concurrent enrollment in C I 426 or C I 526*

Theory and methods for teaching mathematics in grades 7-12. Includes critical examination of instructional strategies, curriculum materials, learning tools, assessment methods, National Standards in Mathematics Education, and equity issues.

C I 599. Creative Component.

Cr. 1-3. F.S.SS. *Prereq: 9 graduate credits in education*

C I 599A. Creative Component: Curriculum.Cr. 1-3. F.S.SS. *Prereq: 9 graduate credits in education***C I 599B. Creative Component: Digital Learning.**Cr. 1-3. F.S.SS. *Prereq: 9 graduate credits in education***Courses for graduate students:****C I 601. Foundations of Educational Inquiry.**(3-0) Cr. 3. F. *Prereq: Admission to a doctoral program*

First of a two-course sequence designed to welcome new Curriculum and Instruction PhD students into the community of educational scholars. Inquiry into (1) the history of education as an academic field of study; (2) the philosophical underpinnings of social scientific and educational inquiry; and (3) the contemporary landscape of the field of education.

C I 602. Educational Inquiry in Action.(3-0) Cr. 3. S. *Prereq: C I 601*

Second in a sequence welcoming new Curriculum and Instruction PhD students into the community of educational scholars. Opportunities to learn about a variety of faculty research in the department, engage faculty in conversation about their research, and continue reflecting on the theory and practice of educational inquiry.

C I 603. Advanced Learning Environments Design.(Cross-listed with HCI). (3-0) Cr. 3. S. *Prereq: C I 503*

Exploration of advanced aspects of the instructional design process. Application of analysis, design, development and production, evaluation, implementation, and project management principles. Focus on the production and use of instructional technology with an emphasis on the instructional design consulting process. Theory and research in instructional technology provides the foundation for design decisions.

C I 610. Digital Learning in Teacher Education.(2-0) Cr. 2. F. *Prereq: C I 505*

Research on using technology in teacher education programs. Application examples studied. Field component involving relating material from class to a teacher education situation.

C I 611. Philosophical Foundations of Digital Learning.(3-0) Cr. 3. *Prereq: 12 graduate credits in curriculum and instruction*

Exploration of philosophies of science that serve as foundations for research and practice in instructional technology, including positivism, post-positivism, interpretivism/constructivism, and critical theory. The roles of language, nature of truth and reality, and acceptable ways of knowing are explored in terms of their implications for instructional technology design, delivery, research, and scholarship.

C I 612. Socio-psychological Foundations of Digital Learning.(3-0) Cr. 3. *Prereq: 12 graduate credits in curriculum and instruction*

Exploration of theories of learning and associated instructional models that are the foundation for research and practice in education and educational technology, including behaviorism, information processing theory, and cognitive science. Emphasis on cognitive and social constructivist paradigms and the creation and use of constructivist learning environments supported by technology.

C I 615. Seminar.

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615A. Seminar: Curriculum.

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615B. Seminar: Digital Learning.

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615C. Seminar: Science Education.

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615D. Seminar: Secondary Education.

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615F. Seminar: Multicultural Education.

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615G. Seminar: Mathematics Education.

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615I. Seminar: Elementary Education.

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615J. Seminar: World Language Education.

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615K. Seminar: Educational Psychology.

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615L. Seminar: Social Studies Education.

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615M. Seminar: Literacy Education.

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

Courses primarily for undergraduates:**SP ED 250. Education of the Exceptional Learner in a Diverse Society.**

(3-0) Cr. 3. F.S. *Prereq: C I 204*

An overview of students with diverse learning needs, including legal foundations. Emphasis on early identification; educational programming, services and strategies; and preparation for community living in a heterogeneous society. Meets U.S. Diversity Requirement

SP ED 330. Introduction to Instruction for Students with Mild/Moderate Disabilities.

(3-0) Cr. 3. F. *Prereq: SP ED 250, concurrent enrollment in C I 280I, C I 377*

Educational services and programming for students with mild/moderate disabilities examined from an historical perspective. Current trends, issues, impact of federal and state laws, and identification procedures. Characteristics of students with mild/moderate disabilities.

SP ED 334. Teaching Exceptional Learners in the General Classroom.

(3-0) Cr. 3. F. *Prereq: Concurrent enrollment in SP ED 330*

Evidence-based teaching strategies and instructional accommodations for inclusive education. Emphasis on managing challenging behavior.

SP ED 355. Classroom Assessment in Inclusive Primary Settings.

(2-0) Cr. 2. F.S. *Prereq: Concurrent enrollment in SP ED 455; C I 433, C I 439, C I 468I*

Examination and application of strategies for determining special educational needs, planning and evaluating instructional programs, and monitoring student progress.

SP ED 365. Classroom Assessment for Special Education.

(3-0) Cr. 3. S. *Prereq: SP ED 330; C I 377*

Formal and informal diagnostic instruments. Determination of special education needs. Planning, adaptation, and formative evaluation of instructional programs for students with mild/moderate disabilities.

SP ED 368. Teaching in Inclusive Primary Settings.

(1-0) Cr. 1. F.S. *Prereq: Concurrent enrollment in C I 377, C I 438, C I 468F, C I 468G*

Federal and state law. Service delivery models. Issues related to providing instruction that meets the needs of diverse learners in inclusive primary settings.

SP ED 401. Teaching Secondary Students with Exceptionalities in General Education.

(2-2) Cr. 3. F.S.

Overview of characteristics and needs of exceptional children/youth and appropriate service delivery options. Legal foundations for special education. Emphasis on co-teaching models, differentiated instruction, accommodations for instruction and assessment, and collaboration among professionals and parents.

SP ED 416. Supervised Student Teaching.

Cr. arr. F.S. *Prereq: Full admission to teacher education, senior classification, elementary education major; SP ED 330, SP ED 334, SP ED 365, SP ED 436, SP ED 439, C I 280I, C I 452*

Reservation required.

SP ED 436. Instructional Methods for Students with Mild/Moderate Disabilities.

(3-0) Cr. 3. S. *Prereq: C I 245, concurrent enrollment in SP ED 365*

Evidence-based instructional strategies/techniques in academic areas and materials for individual instruction and classroom management for elementary students with mild/moderate disabilities.

SP ED 455. Instructional Methods for Inclusive Primary Settings.

(2-0) Cr. 2. F.S. *Prereq: Concurrent enrollment in SP ED 355; C I 433, C I 439, C I 468I*

Evidence-based instructional strategies and techniques in academic areas that support the learning of students with diverse learning needs. Emphasis on accommodations and alternative teaching strategies to meet individual student needs.

SP ED 459. Pre-Student Teaching Experience III: Mild/Moderate Disabilities.

(0-2) Cr. 1. F. *Prereq: SP ED 330, SP ED 339, SP ED 365, SP ED 436; admission to teacher education.*

Observation and involvement with students with mild/moderate disabilities in school settings. Concurrent enrollment in Sp Ed 460. 1/2 day of time needed. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

SP ED 460. Special Education Seminar.

(1-0) Cr. 1. F. *Prereq: SP ED 436, concurrent enrollment in SP ED 459*

Application of evidence-based instructional strategies/techniques in academic and behavioral areas with students who have mild/moderate disabilities. Discussion of professional practices.

SP ED 464. Collaborative Partnerships in Special Education.

(3-0) Cr. 3. F. *Prereq: SP ED 365, SP ED 436*

Collaborative skills used in education of students with mild/moderate disabilities. Includes collaboration between general and special education teachers, parents, paraeducators, and other education professionals and agencies.

SP ED 490. Independent Study.

Cr. 1-5. F.S. *Prereq: 12 credits in elementary education, permission of department chair*

Courses primarily for graduate students, open to qualified undergraduates:**SP ED 501. Teaching Secondary Students with Exceptionalities in General Education.**

(3-0) Cr. 3. SS. *Prereq: Baccalaureate degree*

Overview of characteristics and needs of exceptional children/youth and appropriate service delivery options. Legal foundations for special education. Emphasis on co-teaching models, differentiated instruction, accommodations for instruction and assessment, and collaboration among professionals and parents. Students complete a literature review on a topic related to students with exceptionalities and their content area.

SP ED 510. Foundations in Mild/Moderate Disabilities.

(3-0) Cr. 3. S. *Prereq: SP ED 501 or equivalent*

Historical and legal foundations for special education. Characteristics, prevalence, and etiology of mild/moderate disabilities. Historical and contemporary models of programming for students with disabilities.

SP ED 511. Foundations of Behavior Disorders and Learning Disabilities.

(3-0) Cr. 3. S. *Prereq: Sp Ed 501 or equivalent*

Study of theory, characteristics, and special education service delivery models to students with moderate/severe behavior/learning disabilities in the public schools and residential settings.

SP ED 515. Assessment of Children and Youth with Disabilities.

(3-0) Cr. 3. F. *Prereq: SP ED 510 or SP ED 511*

Formal and informal methods of assessment for identification/eligibility, IEP development, and progress monitoring. Formative evaluation of academic and behavioral skills, including curriculum-based measurement and functional behavioral assessment.

SP ED 517. Research Review.

(2-0) Cr. 2. SS. *Prereq: RESEV 550, SP ED 515*

Critical review of recent research in education and related behavioral sciences as applied to education of students with disabilities. Examination of multiple research methodologies.

SP ED 520. Evidence-based Practices for Mild/Moderate Disabilities.

(3-0) Cr. 3. Prereq: SP ED 510, SP ED 515

Evidence-based instructional methods for meeting the academic and behavioral needs of students with mild/moderate disabilities. Includes methods, strategies, and behavior management techniques appropriate for students with mild or moderate disabilities.

SP ED 530. Evidence-based Practices in Behavior Disorders.

(3-0) Cr. 3. S. Prereq: SP ED 511, SP ED 515

Current research on evidence-based interventions designed to improve the behavior and social skills of students with moderate/severe behavior disorders. Particular emphasis on positive behavioral supports and behavior change strategies.

SP ED 540. Evidence-based Practices in Learning Disabilities.

(3-0) Cr. 3. S. Prereq: SP ED 511, SP ED 515

Current research on evidence-based interventions designed to improve the academic performance of students with moderate/severe learning disabilities. Particular emphasis on methods for improving reading, written expression, and mathematics, as well as performance in content-area instruction.

SP ED 553. Teaching Struggling Adolescent Readers.

(Cross-listed with C I). (3-0) Cr. 3. SS. Prereq: Teaching license

Instructional strategies for enhancing the fluency, vocabulary and comprehension of struggling adolescent readers. Attention to content-area reading materials and strategies.

SP ED 555. Career Education and Transition for Youth with Disabilities.

(2-0) Cr. 2. SS. Prereq: SP ED 510 or SP ED 511

Examination of the academic, personal, social, employability, and daily living skills needed for a satisfactory adult life. Exploration of curricula, programs, and services to meet these needs.

SP ED 560. Classroom Management/Behavior Support.

(3-0) Cr. 3. F. Prereq: Teaching license

Emphasis on positive behavioral supports and understanding behavior and its context through a functional behavioral approach. Design and development of carefully planned behavioral intervention programs for groups and individual students in general and special education settings.

SP ED 564. Collaborative Consultation.

(3-0) Cr. 3. F. Prereq: SP ED 515, SP ED 520 or SP ED 530 or SP ED 540

Models of consultation. Characteristics and methods to promote effective collaboration with families, paraprofessionals, other school personnel, and representatives of other agencies. Includes specific attention to IEP development as a collaborative process.

SP ED 565. Role of the Consultant.

(1-0) Cr. 1. Prereq: SP ED 564

Explore role of the educational consultant in different settings (state department, area education agency, school district, private). Examine roles in relationship to models (mental health, collaborative, organization).

SP ED 567. Teaching Mathematics to Struggling Secondary Learners.

(Cross-listed with C I). (3-0) Cr. 3. Prereq: Secondary teaching experience

Instructional methods and assessment techniques for secondary students struggling to learn mathematics. Particular emphasis on current research, practices, and trends in mathematics interventions for at-risk students and students with disabilities.

SP ED 570. Systems-level Supports for Youth with Behavior and Learning Disabilities.

(3-0) Cr. 3. SS. Prereq: SP ED 511

Overview of support systems (education, juvenile justice, mental health, communities) that serve students with special education needs. Working with and supporting families.

SP ED 590. Special Topics.

Cr. 1-5. F.S. Prereq: 15 credits in education, permission of department chair

SP ED 591. Supervised Field Experience.

(0-2) Cr. 1-6. F.S. Prereq: 15 graduate credits in special area, admission to the graduate program in special education

Supervised on-the-job field experience in special areas.

SP ED 591G. Supervised Field Experience: Mild/Moderate Disabilities, K-8.

(0-2) Cr. 1-6. F.S. Prereq: 15 graduate credits in special area, admission to the graduate program in special education

Supervised on-the-job field experience in special areas.

SP ED 591H. Supervised Field Experience: Mild/Moderate Disabilities, 5-12.

(0-2) Cr. 1-6. F.S. Prereq: 15 graduate credits in special area, admission to the graduate program in special education

Supervised on-the-job field experience in special areas.

SP ED 591K. Supervised Field Experience: Behavior Disorders/Learning Disabilities, Ages 5-21.

(0-2) Cr. 1-6. F.S. Prereq: 15 graduate credits in special area, admission to the graduate program in special education

Supervised on-the-job field experience in special areas.

SP ED 599. Creative Component.

Cr. 1-5. F.S.SS. Prereq: 15 credits in education

Courses for graduate students:**SP ED 615. Seminar.**

(1-0) Cr. 1. Repeatable, maximum of 2 credits.

Selected topics in special education. Analysis of current special education research. Evaluation of impact upon the profession. Implications for additional research.

SP ED 699. Research.

Cr. arr. Prereq: 15 credits in education

Culinary Science (H SCI)

Curriculum in Culinary Science

Administered by the Department of Food Science and Human Nutrition

Total Degree Requirement: 120 cr.

Students must fulfill International Perspectives and U.S. Diversity requirements by selecting coursework from approved lists. These courses may also be used to fulfill other area requirements. Only 65 cr. from a two-year institution may apply to the degree which may include up to 16 technical cr.; 9 P-NP cr. of electives; 2.00 minimum GPA.

International Perspectives: 3 cr.**U.S. Diversity: 3 cr.****Communications and Library: 10 cr.**

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
LIB 160	Information Literacy	1
SP CM 212	Fundamentals of Public Speaking	3
Total Credits		10

Humanities and Social Sciences: 6-12 cr.

Select Humanities course from approved list	3	
If H Sci student, select:	6	
Additional Humanities course		
Additional Humanities or Social Science course		
ECON 101	Principles of Microeconomics	3

Ethics and Environmental: 3-6 cr.

FS HN 342	World Food Issues: Past and Present	3
If AgLS student, select from:	2-3	
ENV S 120	Introduction to Renewable Resources	
ENV S 201	Introduction to Environmental Issues	

Mathematical Sciences: 6-8 cr.

Select at least 3 credits from:	3-4	
MATH 140	College Algebra	
MATH 142	Trigonometry and Analytic Geometry	
MATH 160	Survey of Calculus	
MATH 165	Calculus I	
MATH 181	Calculus and Mathematical Modeling for the Life Sciences I	
Select at least 3 credits from:	3-4	
STAT 101	Principles of Statistics	
STAT 104	Introduction to Statistics	
Total Credits	6-8	

Physical Sciences: 9 cr.

CHEM 163	College Chemistry	4
or CHEM 177	General Chemistry I	
CHEM 163L	Laboratory in College Chemistry	1

or CHEM 177L	Laboratory in General Chemistry I	
CHEM 231	Elementary Organic Chemistry	3
CHEM 231L	Laboratory in Elementary Organic Chemistry	1
Total Credits		9

Biological Sciences: 12-13 cr.

BBMB 301	Survey of Biochemistry	3
BIOL 211	Principles of Biology I	3
BIOL 212	Principles of Biology II	3
MICRO 201	Introduction to Microbiology	2-3
or MICRO 302	Biology of Microorganisms	
MICRO 201L	Introductory Microbiology Laboratory	1
or MICRO 302L	Microbiology Laboratory	
Total Credits		12-13

Animal Science Coursework: 6 cr.

AN S 270	Foods of Animal Origin	2
AN S 270L	Foods of Animal Origin Laboratory	1
AN S 460	Processed Meats	3
Total Credits		6

Food Science and Human Nutrition: 41 cr.

FS HN 101	Food and the Consumer	3
FS HN 104	Introduction to Professional Skills in Culinary Science	1
FS HN 110	Professional and Educational Preparation	1
FS HN 167	Introduction to Human Nutrition	3
FS HN 203	Contemporary Issues in Food Science and Human Nutrition	1
FS HN 214	Scientific Study of Food	3
FS HN 215	Advanced Food Preparation Laboratory	2
FS HN 265	Nutrition for Active and Healthy Lifestyles	3
FS HN 311	Food Chemistry	3
FS HN 311L	Food Chemistry Laboratory	1
FS HN 314	Foundations of Culinary Science	1
FS HN 403	Food Laws, Regulations, and the Regulatory Process	2
FS HN 405	Food Quality Assurance	3
FS HN 406	Sensory Evaluation of Food	3
FS HN 411	Food Ingredient Interactions and Formulations	2

Go to FS HN courses.

Dance

Administered by the Department of Kinesiology.

Coursework in dance provides opportunities for students to develop an understanding and appreciation of dance as part of a liberal education. Those

interested in teaching dance and Physical Education in the public schools may major in Kinesiology and Health (Teacher Licensure option) and minor in Dance.

An interdisciplinary Performing Arts major with a Dance emphasis is available through the College of Liberal Arts and Sciences. For further information see Index, Theatre and Performing Arts.

Courses primarily for undergraduates:**DANCE 120. Modern Dance I.**

(0-3) Cr. 1. F.S.

Introduction and practice of basic dance concepts, including preparatory techniques and guided creativity problems. No previous modern dance experience required. Offered on a satisfactory-fail basis only.

DANCE 130. Ballet I.

(0-3) Cr. 1. F.S.

Introduction to the basic skills, vocabulary, and tradition of ballet with concentration on control and proper alignment. No previous ballet experience required. Offered on a satisfactory-fail basis only.

DANCE 140. Jazz I.

(0-3) Cr. 1. F.S.

Introduction to the modern jazz style with concentration on isolation and syncopation. No previous jazz experience required. Offered on a satisfactory-fail basis only.

DANCE 150. Tap Dance I.

(0-3) Cr. 1. F.

Instruction and practice in basic tap technique and terminology. No previous tap experience required. Offered on a satisfactory-fail basis only.

DANCE 160. Ballroom Dance I.

(0-2) Cr. 1. F.S.

Instruction and practice in foxtrot, waltz, swing, cha cha, rumba, tango, and selected contemporary dances. Offered on a satisfactory-fail basis only.

DANCE 199. Dance Continuum.

Cr. 0.5-2. Repeatable, maximum of 6 credits. F.S. *Prereq: Permission of instructor* Advance registration required. Continued instruction and practice in either modern dance, recreational dance, ballet, jazz and/or compositional skills. Offered on a satisfactory-fail basis only.

DANCE 211. Fundamentals and Methods of Social and World Dance.

(1-3) Cr. 2. S.

Skill enhancement, teaching, progressions with emphasis on world and social dance. Designed for kinesiology and health majors, open to others.

DANCE 220. Modern Dance Composition.

(1-3) Cr. 2. F. *Prereq: DANCE 120 or previous modern dance experience*

Theory and practice of the creative skills involved in solo and small group composition.

DANCE 222. Modern Dance II.

(0-3) Cr. 1. F. *Prereq: DANCE 120 or previous modern dance experience*

Dance techniques emphasizing strength, balance, endurance, rhythmic activity and extended combinations.

DANCE 223. Modern Dance III.

(0-3) Cr. 1. S. *Prereq: DANCE 222*

Continued experience in dance techniques and extended combinations. Emphasis on maturation of skill and artistry. Exposure to a variety of modern dance technical styles.

DANCE 224. Concert and Theatre Dance.

(Cross-listed with THTR). (0-3) Cr. 0.5-2. Repeatable, maximum of 6 credits.

F.S. *Prereq: By audition only*

Choreography, rehearsal, and performance in campus dance concerts and/or musical theatre productions. Offered on a satisfactory-fail basis only.

DANCE 232. Ballet II.

(0-3) Cr. 1. S. *Prereq: Previous ballet experience*

Technical skills in the classical movement vocabulary. Emphasis on alignment, techniques, sequence development, and performing quality.

DANCE 233. Ballet III.

(0-3) Cr. 1. F. *Prereq: DANCE 232*

Concentration on technical proficiency at the intermediate level. Pointe work and partnering opportunities available.

DANCE 242. Jazz II.

(0-3) Cr. 1. S. *Prereq: Previous jazz dance experience*

Dance concepts within the jazz idiom. Instruction in extended movement sequences and artistic interpretation.

DANCE 270. Dance Appreciation.

(3-0) Cr. 3. F.S.SS.

Introduction to the many forms and functions of dance in world cultures. Develop abilities to distinguish and analyze various dance styles. No dance experience required.

DANCE 320. Sound and Movement.(2-2) Cr. 3. S. *Prereq:* DANCE 220

Intermediate composition based on the relationship of movement to improvised sounds, rhythmic scores, and the musical works of composers from various periods.

DANCE 360. History and Philosophy of Dance.(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* DANCE 270

Study of the history of dance from early to modern times with emphasis on the theories and philosophies of contemporary modern dance, dancers, and dance educators.

DANCE 370. Advanced Studies in Dance.Cr. 1-3. Repeatable, maximum of 8 credits. F.S. *Prereq:* 2 credits in dance

Advance registration required. Designed to meet special interests and talents of students to include both group and independent study in various aspects of dance as a performing art including production, choreography, and performance.

DANCE 384. Teaching Children's Dance.

(1-3) Cr. 2. S.

Content, experiences, and methods of a comprehensive dance program at the elementary school level. Theories and practice in guiding elementary school children in expressive movement experiences.

DANCE 385. Methods of Teaching Dance.

(1-3) Cr. 2. F.

Methods and techniques of teaching social and world dance forms. Introduction to teaching educational modern dance.

DANCE 386. Teaching Dance Technique and Composition.(1-3) Cr. 2. *Prereq:* DANCE 320

Teaching of dance as an expressive art form with emphasis on technique, rhythm, and the creative teaching process.

DANCE 490. Independent Study.Cr. 1-3. Repeatable, maximum of 6 credits. *Prereq:* 6 credits in dance and permission of coordinator

Independent study of problems or areas of interest in dance.

DANCE 490A. Independent Study: Dance.Cr. 1-3. Repeatable, maximum of 6 credits. F.S. *Prereq:* 6 credits in dance and permission of coordinator

Independent study of problems or areas of interest in dance.

DANCE 490H. Independent Study in Dance - Honors.Cr. 1-3. Repeatable, maximum of 6 credits. F.S. *Prereq:* 6 credits in dance and permission of coordinator

Independent study of problems or areas of interest in dance for those admitted to the honors program.

Diet and Exercise (H SCI)

Curriculum in Diet and Exercise B.S./M.S.

Administered by the Department of Food Science and Human Nutrition and Department of Kinesiology

This is an accelerated program with concurrent enrollment in the undergraduate and graduate degree programs. Courses included have been approved as meeting the academic requirements of the Didactic Program in Dietetics (DPD) in preparation for admission to accredited dietetics internship programs; the DPD is accredited by the Accreditation Council for Education in Nutrition and Dietetics, the accrediting agency of the Academy of Nutrition and Dietetics. There is a \$30 fee for the verification statement of completion of the accredited dietetics program. Additionally, courses are included to meet the American College of Sports Medicine (ACSM) requirements for certification at the level of Health Fitness Instructor.

Total Degree Requirements: 124 cr. for bachelor's degree and 34-41 cr. for master's degree

Students must fulfill International Perspectives and U.S. Diversity requirements by selecting coursework from approved lists. These courses may also be used to fulfill other area requirements.

International Perspectives: 3 cr.**U.S. Diversity: 3 cr.****Communications and Library: 10 cr.**

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
LIB 160	Information Literacy	1
SP CM 212	Fundamentals of Public Speaking	3

Go to KIN courses.

Dietetics - Undergraduate Program (H SCI)

Curriculum in Dietetics

Administered by the Department of Food Science and Human Nutrition

The dietetics undergraduate curriculum meets the academic requirements as the Didactic Program in Dietetics and is accredited by the Accreditation Council for Education in Nutrition and Dietetics, the accrediting agency of the Academy of Nutrition and Dietetics. Graduates of the program are eligible to apply for admission to accredited supervised practice programs/dietetic internships. There is a \$30 fee for the verification statement of completion of the accredited dietetics program.

Total Degree Requirement: 120 cr.

Students must fulfill International Perspectives and U.S. Diversity requirements by selecting coursework from approved lists. These courses may also be used to fulfill other area requirements. Only 65 cr. from a two-year institution may apply to the degree which may include up to 16 technical cr.; 9 P-NP cr. of electives; 2.00 minimum GPA.

International Perspectives: 3 cr.

U.S. Diversity: 3 cr.

Communications and Library: 10 cr.

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
LIB 160	Information Literacy	1
SP CM 212	Fundamentals of Public Speaking	3
Total Credits		10

Humanities and Social Sciences: 6-12 cr.

Select Humanities course from approved list	3	
PSYCH 101	Introduction to Psychology	3
If H Sci student, select:	6	
Additional Humanities course		
Additional Humanities or Social Science course		

Ethics and Environmental: 3-6 cr.

FS HN 342	World Food Issues: Past and Present	3
If AgLS student, select from:	2-3	
ENV S 120	Introduction to Renewable Resources	
ENV S 201	Introduction to Environmental Issues	

Mathematical Sciences: 6-8 cr.

Select at least 3 credits from:	3-4	
MATH 140	College Algebra	
MATH 142	Trigonometry and Analytic Geometry	
MATH 160	Survey of Calculus	
MATH 165	Calculus I	
MATH 181	Calculus and Mathematical Modeling for the Life Sciences I	
Select at least 3 credits from:	3-4	
STAT 101	Principles of Statistics	
STAT 104	Introduction to Statistics	
Total Credits		6-8

Physical Sciences: 9-12 cr.

Select from:	5-8	
CHEM 163 & 163L	College Chemistry and Laboratory in College Chemistry

HRI 380L	Quantity Food Production and Service Management Experience	2
HRI 391	Foodservice Systems Management I	3
HRI 392	Foodservice Systems Management II	3
Total Credits		11

Electives: 0-13 cr. Select from any university coursework to earn at least 120 total credits.

Admission to the dietetics program: Students enter the university designated as pre-dietetics. During spring semester of the second year, interested students apply to the Didactic Program in Dietetics. Admission to the program is based on overall GPA (3.0 or above required), completion of required coursework, and completion of the application with interest in becoming a registered dietitian. Students then progress toward earning a Bachelor of Science degree in Dietetics and receive a Verification Statement upon graduation, which is needed to enter an accredited dietetics internship.

Go to FS HN Courses.

Courses primarily for graduate students, open to qualified undergraduates:**DIET 511. Research Methods.**

(3-0) Cr. 3. F.S. *Prereq: enrollment in GP-IDEA MFCS in Dietetics*

An overview of diverse research approaches focusing on methods for collecting and analyzing quantitative and qualitative data. www only. Only one of DIET 511 or FCEdS 511 may count toward graduation.

DIET 524. Financial Management and Cost Controls in Dietetics.

(3-0) Cr. 3. SS. *Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Overview of the fundamental knowledge of financial management, managerial accounting, and operational cost controls for dietetics professionals. Topics include a review of managerial accounting concepts for not-for-profit organizations and for-profit organizations based on the Uniform System of Accounts, value and risk analysis, budgeting, asset management, franchising and management contracts, cost-volume-profit analyses, and operational applications for financial performance.

DIET 527. Food Writing.

(3-0) Cr. 3. F. *Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Understanding and appreciating how to communicate effectively in writing about food and food-related topics. Hands-on experience in research and writing for various audiences and types of media.

DIET 530. Nutrition in Wellness.

(3-0) Cr. 3. SS. *Prereq: enrollment in GP-IDEA MFCS in Dietetics*

Addresses wellness promotion through nutrition. Nutritional risk and protective factors will be examined in relation to public health and individual nutrition. www only.

DIET 532. Maternal and Child Nutrition.

(3-0) Cr. 3. SS. *Prereq: enrollment in GP-IDEA MFCS in Dietetics*

Critical examination of behavioral, physiological, and public health issues impacting dietary and nutritional factors that support normal growth and development. Content focuses on early stages of the life cycle: gestation, lactation, infancy, preschool, school age, and adolescence. www only.

DIET 534. Nutrition Education in the Community.

(3-0) Cr. 3. SS. *Prereq: enrollment in GP-IDEA MFCS in Dietetics*

Principles and practices of teaching individuals and groups to translate nutrition knowledge into action. Emphasis on research in and evaluation of nutrition education. www only.

DIET 538. Nutrition: A Focus on Life Stages.

(3-0) Cr. 3. SS. *Prereq: enrollment in GP-IDEA MFCS in Dietetics*

Explores influence of normal physiological stresses on nutritional needs throughout the life span. Evaluates dietary intake and identification of appropriate community nutrition services in on-line discussions. Specific considerations, such as the influence of age and cultural heritage, are incorporated. www only.

DIET 540. Nutrition and Physical Activity in Aging.

(Cross-listed with GERON). (3-0) Cr. 3. Alt. F., offered even-numbered years.

WWW only. Basic physiologic changes during aging and their impacts in health and disease. The focus will be on successful aging with special emphasis on physical activity and nutrition. Practical application to community settings is addressed.

DIET 544. Pediatric Clinical Nutrition.

(3-0) Cr. 3. F. *Prereq: enrollment in GP-IDEA MFCS in dietetics*

Examines the physiological, biochemical and nutritional aspects of disease processes relevant to infants and children up to 18 years of age. Discussion of medical nutrition therapy for a variety of medical conditions in this population including inborn errors of metabolism, food hypersensitivity, obesity, and diseases of the major organ systems. www only.

DIET 546. Phytochemicals.

(3-0) Cr. 3. F. *Prereq: enrollment in GP-IDEA MFCS in Dietetics*

Overview of phytochemicals (non-nutritive biologically active compounds) from fruits, vegetables, cereals and oilseeds. Covers recent findings of chemistry, physiological functions, and potential health implications of phytochemicals. www only.

DIET 548. Professional Development Assessment.

(1-0) Cr. 1. F.S.SS. *Prereq: Enrollment in GPIDEA MFCS in Dietetics*

Web-based course providing information and practice for student to assess and evaluate own professional development and continuing professional education needs. Completion of professional 5-year plan. Offered on a satisfactory-fail basis only.

DIET 550. Finance and Cost Controls.

(3-0) Cr. 3. F. *Prereq: enrollment in GP-IDEA MFCS in Dietetics*
Overview of the fundamental knowledge of hospitality managerial accounting, cost controls, and financial management. Important topics include financial statement analysis, cost concepts, cost-volume-profit analysis, calculating and controlling food and beverage costs, pricing, and capital budgeting. www only.

DIET 554. Statistics.

(3-0) Cr. 3. S.S. *Prereq: enrollment in GP-IDEA MFCS in Dietetics*
Tools used to make statistical decisions. Major emphasis on explanation and understanding of important concepts involved; basic theme is understanding of data and methods used to analyze such data. www only. Only one of DIET 554 or Stat 401, 495, 542 may count toward graduation by students in the GPIDEA Dietetics program.

DIET 556. Advanced Nutrition: Micronutrients.

(3-0) Cr. 3. S. *Prereq: BBMB 404 or BBMB 420 or equivalent; enrollment in GP-IDEA MFCS in Dietetics*

Integration of the molecular, cellular and physiological aspects of vitamins and minerals in mammalian systems. Interactions among nutrients, metabolic consequences of deficiencies or excesses, relevant polymorphisms, major research methodologies, and current topics related to micronutrients and non-nutrient components. www only. Only one of DIET 556 or NUTRS 502 may count toward graduation.

DIET 558. Advanced Nutrition: Macronutrients.

(3-0) Cr. 3. F. *Prereq: BBMB 404 or BBMB 420 or equivalent; enrollment in GP-IDEA MFCS in Dietetics*

Integration of the molecular, cellular and physiological aspects of macronutrients and energy metabolism in mammalian systems. Dietary energy, carbohydrates, fiber, lipids, proteins, their interactions, metabolic consequences, and major research methodologies. www only. Only one of DIET 558 or NUTRS 501 may count toward graduation.

DIET 560. Medical Nutrition and Disease.

(3-0) Cr. 3. F.S.S. *Prereq: enrollment in GP-IDEA MFCS in Dietetics*
Pathophysiology of selected acute and chronic disease states and their associated medical problems. Specific attention directed to medical nutrition needs of patients in the treatment of each disease state. www only. Only two of DIET 560 or NUTRS 561, 564 may count toward graduation.

DIET 565. Malnutrition in Low-Income Countries.

(3-0) Cr. 3. SS. *Prereq: enrollment in GP-IDEA MFCS in Dietetics*
Identification and assessment of malnutrition in low-income countries. Social, cultural, political, economic, and geographic determinants of malnutrition. Protein-energy malnutrition, vitamin and mineral deficiencies. Intervention approaches; international efforts and local sustainability. www only.

DIET 566. Nutrition Counseling and Education Methods.

(Cross-listed with FS HN). (2-2) Cr. 3. F.S. *Prereq: FS HN 361 and FS HN 362*
Application of counseling and learning theories with individuals and groups in community and clinical settings. Includes discussion and experience in building rapport, assessment, diagnosis, intervention, monitoring, evaluation, and documentation. Literature review of specific counseling and learning theories.

DIET 567. Nutrition for Dietitians.

(3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq: DIET 360; BBMB 301, undergraduate course in physiology; enrollment in GP-IDEA MFCS in Dietetics*
Study of the current scientific literature to evaluate current trends and issues in nutrition science and dietetic practice. Emerging areas of research investigating the role of nutrients in health and disease in humans will be explored. Emphasis on the impact of emerging research on nutrition recommendations and interventions designed to promote human health. www only.

DIET 568. Entrepreneurship in Dietetics.

(3-0) Cr. 3. F. *Prereq: enrollment in GP-IDEA MFCS in Dietetics*
Definition and discussion of entrepreneurship and its importance to economic and business environment. www only.

DIET 569. Dietary and Herbal Supplements.

(3-0) Cr. 3. SS. *Prereq: Enrollment in GP-IDEA MFCS in Dietetics*
Develop skills to partner with patients in making dietary supplement decisions. Explore the safe, efficacious use of botanicals and supplements in nutritional support of aging, maternal health and wellness. Discussions on supplementation in the prevention and treatment of chronic disease include: arthritis, cancer, cardiovascular, diabetes, digestive, liver and renal disorders.

DIET 570. Nutrition and Human Performance.

(3-0) Cr. 3. S. *Prereq: enrollment in GP-IDEA MFCS in Dietetics*
Develop an understanding of nutrition based on knowledge of the biochemical and physiological process and functions of specific nutrients in meeting nutritional requirements. Emphasis on the relationship of optimal nutrition and physical efficiency and performance. www only.

DIET 572. Environmental Scanning and Analysis of Current Issues in Dietetics.

(3-0) Cr. 3. F.S. *Prereq: enrollment in GP-IDEA MFCS in Dietetics*
Overview of current topics, issues, and trends in dietetics practice. www only.

DIET 573. Administration of Health Care Organizations.

(3-0) Cr. 3. SS. *Prereq: enrollment in GP-IDEA MFCS in Dietetics*
A comprehensive review of today's health care institutions and their response to the economics, social, ethical, political, legal, technological, and ecological environments. www only.

DIET 595. Proposal and Grant Writing for the Working Professional.

(3-0) Cr. 3. F. *Prereq: enrollment in GP-IDEA MFCS in Dietetics*
Grant proposal preparation experiences including writing and critiquing of proposals and budget planning. Designed for the working professional. www only.

DIET 597. Nutritional Aspects of Oncology.

(Cross-listed with NUTRS). Cr. 3. Alt. S., offered even-numbered years. *Prereq: B.S. in nutrition, dietetics, biology, or related discipline.*
Understanding of basic cancer biology and methodology used to study nutrition and cancer relationships. Using current research as a basis, the role of nutrition in specific cancers will be explored. Students will learn about sources of information for cancer prevention programs, and how to apply this information to clinical patient management.

DIET 599. Creative Component.

Cr. arr. Repeatable. F.S.SS. *Prereq: Enrollment in GPIDEA MS Dietetics*
For non-thesis option only.

Educational Leadership and Policy Studies

Departmental Mission, Vision and Goals statements

Mission:

The mission of the Department of Educational Leadership and Policy Studies is to advance the quality and effectiveness of educational institutions and individuals engaged in education. The department is guided by the missions of Iowa State University and the College of Human Sciences and embodies the concepts of the land-grant tradition of teaching, research, and service. The department is dedicated to enhancing the intellectual, cultural, social, and ethical potential of students and faculty for the benefit of Iowa, the nation, and the world. Specifically, the Department of Educational Leadership and Policy Studies:

- Provides graduate degree and career preparation programs, coursework, and other learning opportunities for students and practitioners.
- Conducts and disseminates basic and applied research for the advancement of educational theory and practice.
- Provides professional service for institutions, individuals, and organizations at all levels of education.

Vision:

Research: All Educational Leadership and Policy Studies faculty create and disseminate knowledge and promote educational inquiry that enhances educational practices at local, state, national, and international levels.

Teaching: All Educational Leadership and Policy Studies faculty engage in teaching that is consonant with the principles of adult learning and effective teaching that help students develop critical thinking and professionally relevant skills, and that provides a foundation for the application of knowledge to practice.

Service: All Educational Leadership and Policy Studies faculty, using their professional expertise, work with educators, educational institutions, and other constituent groups to solve problems.

Advising: All Educational Leadership and Policy Studies faculty foster students' professional and personal growth by guiding and inspiring them to formulate and complete relevant programs of study and to conduct high quality research.

Curricula/Program: The Educational Leadership and Policy Studies faculty develop and implement futuristic curricula and programs to ensure that students learn to think critically and perform their professional roles in an exemplary fashion.

General Goals:

The general goals of the department, and hence of each of its program areas and affiliated programs, are to:

- Conduct high quality graduate education programs, both on- and off-campus, for students seeking graduate degrees in a major in education and/or seeking professional licensure as school service personnel.
- Establish appropriate conditions, opportunities, and resources with which both faculty and graduate students may engage in scholarly activities.
- Assist the educational enterprise of Iowa in development by utilizing, when appropriate, the talents and expertise of the faculty and graduate student body in such activities as workshops, conferences, and consultation in small groups, both on- and off-campus.

Graduate Study

Degrees: The Department of Educational Leadership and Policy Studies -- ELPS -- offers work for the degrees master of science, master of education, certificate of advanced studies, and doctor of philosophy with a major in education. ELPS also offers minor work to students majoring in other fields of study. At the master's level, students may specialize in educational administration; higher education; and research and evaluation. Interested students should consult the specific program area for master's degree information related to that program.

Students may complete the Ph.D. with a major in education and a specialization in educational leadership with emphasis in either educational administration or higher education. Specific information about the requirements of the Ph.D. degree is available from the departmental office or on the web (www.elps.hs.iastate.edu/elps/elpsdoc.htm).

The following information refers only to the Ph.D. program:

Prerequisites: Prerequisite to major graduate work in educational leadership is completion of an undergraduate degree with coursework appropriate to the planned specialization, and evidence that the student ranks above average in scholastic achievement and promise of professional competence. In addition it is preferred that students complete a master's degree and 3-5 years of professional experience.

Learning Opportunities: Doctoral students in Educational Leadership and Policy Studies will complete seminars, laboratory experiences, field experiences, independent research, and a capstone experience course. In addition to the common experiences noted above, students will each select an intellectual content area that will prepare them to work in the setting of their choice.

Careers: Graduates of the doctoral program are prepared to serve as leaders in various educational settings, including school administration, community colleges, public and private colleges and universities, and public and private educational agencies.

Outcomes: Graduates of the Ph.D. program, regardless of the emphasis chosen, possess skills and knowledge related to five core domains: leadership, educational research, communication, educational evaluation, and educational foundations. By the time of graduation, students will demonstrate the necessary skills and knowledge to:

- Work effectively with individuals and groups.
- Engage in ethical decision-making and management of resources to accomplish goals.
- Engage in scholarly inquiry.
- Express ideas clearly, both orally and in writing.
- Articulate their values, beliefs, and Philosophy of life.
- Relate sensitively to individuals from diverse backgrounds.
- Use the principles of program evaluation and assessment intelligently.
- Have a clear understanding of the foundations of education, grounding their work in theory and Philosophy.
- Articulate the concepts, theories, and practices related to the educational content area emphasized in their studies.

Other Related Programs: Other graduate programs related to education (including Interdisciplinary Graduate Studies) may be more suited to the interests of potential students on the basis of previous education and experiences as well as future plans and needs. Potential students should refer to programs in the Departments of Agricultural Education and Studies, Curriculum and Instruction, Family and Consumer Sciences Education and Studies, Kinesiology, and Interdisciplinary Graduate Studies, or to graduate level course offerings within the other departments, to determine if these offerings may be more closely matched with their career interests.

The following information refers only to the masters level programs:

Prerequisites: Prerequisite to major graduate work in educational leadership is completion of an undergraduate degree with coursework appropriate to the planned specialization, and evidence that the student ranks above average in scholastic achievement and promise of professional competence.

Educational Administration (EdAdm)

Degrees and Certificates: Several programs are offered: (1) master of science degree, with thesis or creative component, in elementary or secondary school administration; (2) master of education practitioner; (3) advanced study leading to principal's license; (4) certificate of advanced studies providing post-master's training for superintendency licensure; and (5) doctor of philosophy with major in education and specialization in educational leadership. Courses are scheduled with consideration for cohort-collegial teams or groups.

Emphasis: The Educational Administration Program places dual emphasis on preparation of professional educational administrators and on the academic/scholarly aspects of educational leadership and management.

Prerequisites: Prerequisite to major graduate work in educational leadership is completion of an undergraduate degree with coursework appropriate to the planned specialization, and evidence that the student ranks above average in scholastic achievement and promise of professional competence.

Learning Opportunities: Students will complete courses, laboratory experiences, field experiences, and independent research so that they can effectively serve in leadership roles.

Careers: Graduates of Master's Degree and Certificate of Advanced Study Programs in Educational Administration are prepared for leadership roles in Pre K-12 school districts and education agencies, typically as building-level principals, assistant principals, curriculum directors, and central office administrators. Doctoral graduates are prepared for PreK-12 leadership roles and academic or leadership positions in higher education.

Outcomes: Graduates of the Certificate of Advanced Studies Program will possess administrative and leadership skills necessary for the superintendency and central office administration. By the time of graduation, students will demonstrate the necessary skills and knowledge to:

- Serve as visionary leaders, with effective skills in curricular and instructional leadership.
- Work effectively with individuals and groups, both within the district and community, to create and sustain a positive learning culture.
- Engage in ethical decision-making and effective management of human, material, and financial resources to accomplish district goals.
- Express ideas clearly to various publics, both orally and in writing.
- Articulate their values, beliefs, and Philosophies of education.
- Relate sensitively to individuals from diverse backgrounds.
- Access and utilize research information and technology to assist with organizational improvement.
- Translate educational administration concepts and theories into sound management and leadership practices.

Graduates of the Master's Program with a specialization in educational administration and the Principal Licensure Program possess administrative and leadership skills necessary for PreK-12 building-level leadership roles. Upon program completion, each student will possess the knowledge and skills to:

- Work effectively with all members of the school community to create a shared vision of learning, which builds upon the formation of a shared understanding of the purposes of schooling in a pluralistic society.
- Demonstrate effective skills in collaborative instructional leadership, including an understanding of curriculum standards, principles of effective teaching practices, and effective assessment practices that lead to improved student learning.
- Implement a system of shared governance and empower faculty, staff, students, and families in the school improvement process.
- Create and sustain a safe and caring school culture that values diversity and maintains a commitment to equity in school practices.
- Engage in ethical and moral leadership practices and the effective management of human, material, and financial resources to accomplish school goals.
- Work collaboratively with internal and external stakeholders in responding to school needs and providing community resources to support the learning process.
- Access research and use data to inform teaching and learning practices and support the process of continuous improvement.
- Apply various technologies to support and enhance administrative and instructional purposes.
- Use leadership skills to transform the school into a learning community that promotes change and sustains school improvement initiatives.

- Engage all members of the school community in critical inquiry and reflection, to promote the belief that learning is a lifelong endeavor for every individual.

Graduates of the Ph.D. Program with a specialization in educational administration will possess skills and knowledge related to the six core domains: leadership, educational research, communication, educational evaluation, educational foundations, and educational technology. By the time of graduation, students will demonstrate the necessary skills and knowledge for those outcomes as listed under the ELPS Ph.D. program outcomes.

Courses primarily for graduate students, open to qualified undergraduates:

EDADM 541. Principles of Educational Leadership.

(3-0) Cr. 3. F.S.SS. *Prereq: Teacher licensure and permission of instructor*
Basic principles of educational organizations, including an understanding of organizational behavior and theoretical approaches to administration. Exploration of substantive elements related to school reform, such as leadership, the change process, current issues in education, and developing a shared vision and mission.

EDADM 551. Supervision for Learning Environments.

(3-0) Cr. 3. F.S.SS. *Prereq: EDADM 541*
Study of effective classroom instructional practices that reflect current principles of learning. Understanding and practice of supervisory techniques that support teachers in improving the teaching and learning process, including skills in observational data collection, data analysis, collaboration, and conferencing skills.

EDADM 552. Current Issues in Site-Level Leadership.

(3-0) Cr. 3. F.S.SS. *Prereq: EDADM 541*
Essential tasks of building-level leadership and management in contemporary school settings, including: curriculum and organizational structure, theory and practice of scheduling, financial management, roles and responsibilities of governance, communication and public relations skills, home/parental involvement and relationships, project and crisis management, technology integration, school climate and culture, effective student support programs such as counseling and guidance, attendance and discipline.

EDADM 554. Leading School Reform.

(3-0) Cr. 3. F.S.SS. *Prereq: EDADM 541*
Study of principles of transformational leadership and collaborative decision-making skills. Leadership activities that facilitate the development of a school culture that embraces change and school reforms that result in high quality schools dedicated to improved student achievement.

EDADM 556. School Systems as Learning Cultures.

(3-0) Cr. 3. F.S.SS. *Prereq: EDADM 541*
Practical and theoretical perspectives on school administrative problems from critical pedagogical studies and research. Exploration of related issues such as cultural literacy, forms of authority and control, and other historical problems of schools in dealing with minorities and culturally different persons.

EDADM 557. Human Resource Development for Learning.

(3-0) Cr. 3. F.S.SS. *Prereq: EDADM 541*
Leadership theory and practice that focuses on the professional development of school staff to promote improved student learning. Principles of school personnel evaluation; legal issues related to hiring, retention, and dismissal; evaluation models for professional and classified staff; and effective professional development models to support lifelong learning and reflective practice.

EDADM 558. Diverse Learning Needs.

(3-0) Cr. 3. F.S.SS. *Prereq: EDADM 541*
Learner needs will be examined from major psycho/social perspectives with stress upon developmental phases of normal growth along with common problems encountered in schools. Issues of racism, gender bias, and socio-economic problems that influence learner responsiveness to school curricula and administrative regulations, routines, and legal requirements.

EDADM 559. Curriculum Leadership.

(3-0) Cr. 3. F.S.SS. *Prereq: EDADM 541*
Generic administrative approaches to the design and delivery of elementary and secondary school curricula including the study of the organizations for learning; cognition and learning theories; validation; concepts of balance; school goals, student assessments and reporting of progress, alignment, and professional development; development of curriculum guides; mapping; employing national standards and benchmarks.

EDADM 575. Education Law and Ethics.

(3-0) Cr. 3. F.S.SS. *Prereq: EDADM 541*
Examination of constitutional, statutory, and judicial provisions as a basis for the legal operation of educational institutions. Rights and ethical responsibilities of school leaders are examined in relation to their roles and responsibilities with boards, other school personnel, and students.

EDADM 590. Special Topics.

Cr. 1-4. Repeatable. *Prereq: 9 credits in education*

EDADM 591. Supervised Field Experience.

Cr. 1-6. Repeatable. *Prereq: EDADM 541 and admission to program and instructor's approval*
Supervised on-the-job field experience in special areas.

EDADM 591A. Supervised Field Experience: Elementary Principal.

Cr. 1-6. Repeatable. *Prereq: EDADM 541 and admission to program and instructor's approval*
Supervised on-the-job field experience in special areas.

EDADM 591B. Supervised Field Experience: Secondary Principal.

Cr. 1-6. Repeatable. *Prereq: EDADM 541 and admission to program and instructor's approval*
Supervised on-the-job field experience in special areas.

EDADM 593. Workshops.

Cr. 1-4. *Prereq: 9 credits in education*

EDADM 599. Creative Component Development.

Cr. 1-3. *Prereq: 9 credits in educational administration*

Courses for graduate students:

EDADM 615. Seminar.

Cr. 1-3. Repeatable.
In-depth study of administrative topics of contemporary interest and importance.

EDADM 615A. Seminar: Client Focus.

Cr. 1-3. Repeatable.
In-depth study of administrative topics of contemporary interest and importance.

EDADM 615B. Seminar: Research.

Cr. 1-3. Repeatable.
In-depth study of administrative topics of contemporary interest and importance.

EDADM 615C. Seminar: Quality Improvement.

Cr. 1-3. Repeatable.
In-depth study of administrative topics of contemporary interest and importance.

EDADM 615D. Seminar: Special Services.

Cr. 1-3. Repeatable.
In-depth study of administrative topics of contemporary interest and importance.

EDADM 615E. Seminar: Assessment.

Cr. 1-3. Repeatable.
In-depth study of administrative topics of contemporary interest and importance.

EDADM 615F. Seminar: Leadership.

Cr. 1-3. Repeatable.
In-depth study of administrative topics of contemporary interest and importance.

EDADM 620. Program Induction Leadership Seminar.

(3-0) Cr. 3. SS. *Prereq: EDADM 541*
Assessment of candidate skill areas, including communication, leadership, technology, and team facilitation for the development of an individualized learning plan for the program. Orientation to program expectations and leadership challenges in the context of schooling for a global society.

EDADM 621. Aligning the System for Student Achievement.

(5-0) Cr. 5. F. *Prereq: EDADM 541*
Alignment of system goals and leadership theory with student achievement, governance, systems thinking, and communication and collaboration with various publics.

EDADM 622. Maximizing Human and Financial Resources for Student Achievement.

(3-0) Cr. 3. S. *Prereq: EDADM 541*
Allocation of system resources to enhance student achievement; human resource development and negotiations; and coaching and evaluating the administrative team.

EDADM 623. Mid-Program Leadership Seminar.

(1-0) Cr. 1. SS. *Prereq: EDADM 541*
Mid-program assessment of candidate progress and exploration of leadership strategies for working with diverse populations.

EDADM 624. School Finance.

(2-0) Cr. 2. SS. *Prereq: EDADM 541*
General issues of school finance and managing school financial affairs. Role of the federal, state and local governments in educational finance, tax issues, and structures; bonding; budget procedures; and non-public school finance issues. Includes attendance at selected sessions of the Iowa School Business Management Academy in May and two additional class sessions.

EDADM 631. Achieving Results Through Accountability Strategies.(5-0) Cr. 5. F. *Prereq: EDADM 541*

Accountability strategies for applying leadership theory to student achievement, governance, systems thinking, change agency, and communication and collaboration with various publics.

EDADM 632. Using System Assets to Create a Culture of Learning.(3-0) Cr. 3. S. *Prereq: EDADM 541*

Leadership strategies to promote a culture of high student achievement; effective human capital management, including recruitment and induction of new personnel; and effective communication with parents and other patrons.

EDADM 633. Career Induction Leadership Seminar.(1-0) Cr. 1. SS. *Prereq: EDADM 541*

Development of entry plan for creating a culture of collaboration; professional growth plan for first year in new position; and authentic performance assessment of values and beliefs platform.

EDADM 634. School Business Management and Accountability.(2-0) Cr. 2. SS. *Prereq: EDADM 541*

Management of school operations; accountability and ethical business practices; risk management; school plant operations, food service and student transportation. Includes attendance at selected sessions of the Iowa School Business Management Academy in May and two additional class days.

EDADM 690. Advanced Special Topics.Cr. 1-3. Repeatable. *Prereq: 9 credits in educational administration***EDADM 691. Clinical Dilemmas of Practice.**Cr. 1-3. Repeatable, maximum of 3 credits. *Prereq: EDADM 541, admission to program, and instructor's approval*

Supervised on-the-job field leadership experience in clinical dilemmas of practice. Offered on a satisfactory-fail basis only.

EDADM 699. Dissertation Research.Cr. arr. Repeatable. *Prereq: 9 credits in education*

Courses primarily for graduate students, open to qualified undergraduates:

EL PS 591. Social Justice Field Experience.Cr. 1-3. F.S.SS. *Prereq: EL PS 620*

Supervised field experience in equity and social justice inside/outside higher education.

Courses for graduate students:

EL PS 615. Thematic Seminars.Cr. 1. F.S.SS. *Prereq: Admission to educational leadership doctoral program***EL PS 615A. Thematic Seminars: Communication and Team Building.**Cr. 1. F.S.SS. *Prereq: Admission to educational leadership doctoral program***EL PS 615B. Thematic Seminars: Governance, Politics and Policies.**Cr. 1. F.S.SS. *Prereq: Admission to educational leadership doctoral program***EL PS 615C. Thematic Seminars: Law, Equity, Equality.**Cr. 1. F.S.SS. *Prereq: Admission to educational leadership doctoral program***EL PS 615D. Thematic Seminars: Ethics, Justice, and Caring.**Cr. 1. F.S.SS. *Prereq: Admission to educational leadership doctoral program***EL PS 615E. Thematic Seminars: Problem Solving and Planning.**Cr. 1. F.S.SS. *Prereq: Admission to educational leadership doctoral program***EL PS 615F. Thematic Seminars: Critical and Creative Thinking.**Cr. 1. F.S.SS. *Prereq: Admission to educational leadership doctoral program***EL PS 616. Capstone Experience.**Cr. 3. F.S. *Prereq: 4 credits of EL PS 615*

This experience is designed to explore a topic addressed in one of the thematic seminars. The product of the capstone experience is a written paper of sufficient quality to be submitted to a scholarly journal for review.

EL PS 620. Social Justice Theory, Research, and Practice.

(3-0) Cr. 3. F.

Introduction to social justice theory, research, and practice from a variety of theoretical perspectives in the context of higher education and broader society.

EL PS 621. Pedagogies of Dissent: Radical Theories of Education, Social Justice, and Economic Democracy.(Cross-listed with W S). (3-0) Cr. 3. S. *Prereq: EL PS 620*

Critical examination of the philosophical foundations of education that seek to challenge the status quo and advance radical educational change. Exploration of macro-level (and some micro-level) issues relevant to educational change, in relation to how they inform practices of dissent and every day social relations.

EL PS 622. Decolonizing Praxis: Anti/post-colonial Theory, Research and Practice.(3-0) Cr. 3. S. *Prereq: EL PS 620*

Critically probes the philosophical and historical foundations of anti/post-colonial theory. Examination of policy, social, theoretical and educational issues from an anti/post-colonial perspective.

EL PS 624. Critical Race Theory in Higher Education.

Cr. 1-3. SS.

Exploration of the central tenets of critical race theory. Examination of policy, social and educational issues from a critical race perspective.

EL PS 625. Sexual Orientation Issues in Higher Education.

Cr. 1-3. SS.

Exploration of issues related to sexual orientation in higher education.

Examination of individual and environmental factors that influence students' success in college. Development of intervention strategies to enhance the college experience for lesbian, gay, and bisexual students.

EL PS 626. Social Justice and Social Change in Higher Education.(3-0) Cr. 3. F. *Prereq: EL PS 621*

An examination of how changes in the interest of social justice have occurred historically in American higher education. Exploration of social movements and theories of social change.

Courses primarily for graduate students, open to qualified undergraduates:

HG ED 504. Higher Education in the United States.(3-0) Cr. 3. S. *Prereq: Graduate classification*

Historical development of higher education; diversity, functions, and philosophies of colleges and universities; federal and state roles; review of general, liberal, technical, graduate, and professional education.

HG ED 540. Foundations of Leadership: Learning, Ethics, Self and Interaction.(2-0) Cr. 2. F. *Prereq: permission of instructor*

Serving as an introduction to developing practicing leaders, this course will create the foundation upon which enduring understanding of leadership will be built. Specifically explored will be learning as the foundation of human enterprise, everyday leadership, determination of common good, roots of individual's actions, sensitivity to others, merits of divergent ideas, questioning the status quo, ethics as personal responsibility and choosing to grow.

HG ED 541. Learning, Leadership, Ethics and Community.(2-0) Cr. 2. S. *Prereq: permission of instructor*

Serving as the second semester in a program to develop practicing leaders, this course will build upon the foundation started first semester to help students embrace the enduring understandings of leadership. Specifically explored will be team learning and the effect on individuals, skills required for a team to move forward, importance of decisions based on the good of the community, reflection as a means of enhancing learning, and interconnectedness of the individual, the community, and the world.

HG ED 542. Learning, Leadership, Ethics, and Teams; Knowing, Doing and Being.(2-0) Cr. 2. F. *Prereq: permission of instructor*

The overall purpose of this course is to expand the foundation started in Foundations of Leadership: Learning, Ethics, Self and Interactions and Learning, Leadership, Ethics and Community for developing practicing leadership. The focus will shift from a naive understanding of the concepts of self within a team and community to a more sophisticated understanding of knowing, being and doing leadership.

HG ED 543. Learning, Leadership, Ethics and Teams in Action.(2-0) Cr. 2. S. *Prereq: permission of instructor*

The purpose of this last (in a series of four) course is to allow students to put their knowledge, skills, and abilities related to leadership, learning, Ethics and Teams into practice. In addition to planning and implementing a major service learning project, the focus will be on the next wave of the study of leadership - connecting leadership to the research about the brain and human learning.

HG ED 544. Foundations of Leadership & Learning.(3-0) Cr. 3. F. *Prereq: graduate student classification*

First of two-course series to help leaders develop the knowledge and skills to engage the collective capacity of a group to think, learn, and achieve important purpose. The foundation for developing deep understanding about leadership, learning, and the relationships therein. Focus on application of recent knowledge about human learning in the professional practice of leadership. Relationship leadership model and relationship to other leadership models, theories, and concepts; current theories of human learning (including expert/novice and transfer of learning), and interrelationships with leadership practice; critical understanding of self; facilitating learning for others; metacognition as a habit of mind; fundamentals of group interaction theories; social interdependence, communication, trusting, trustworthy goals, decision-making, cohesion, controversy, team development; power, resources, and development of community.

HG ED 545. Connecting Leadership & Learning in Practice.(3-0) Cr. 3. F. *Prereq: Graduate student classification and completion of HG Ed 544*

Second of a two-course series designed to help leaders develop the knowledge and skills to best engage the collective capacity of a group to think, learn and achieve important purpose. Builds on foundation course to support students in creating applications of the relationships between leadership and learning. Focus on developing the habits of mind and habits of practice to best use knowledge about human learning in the professional practice of leadership. Applications of relational leadership model; applications of group interaction theories; development and implementation of action plans to achieve measurable goals; application of current theories of human learning as they relate to leadership; exploration of the fundamentals of emotional intelligence and the impacts on leadership; developing critical habits of mind to practice leadership focused on learning.

HG ED 550. Teaching, Learning and Leadership.(3-0) Cr. 3. F. *Prereq: Teacher licensure*

Current issues and practices in community college teaching and learning, and the roles and responsibilities of teachers as leaders.

HG ED 561. College Teaching.(3-0) Cr. 3. *Prereq: 6 graduate credits*

Educational theories, methods and strategies for the improvement of college instruction. Assist potential college instructors in developing knowledge of protocol, assessment, and the scholarship and art of teaching. Emphasis on the unique challenge of college teaching in a changing student population environment.

HG ED 562. Curriculum Development in Colleges.(3-0) Cr. 3. *Prereq: Graduate classification*

Modes of curriculum design, development, and change in colleges. Development of curricular leadership and evaluation strategies.

HG ED 568. Global Education Policy Analysis.(3-0) Cr. 3. *Prereq: HG ED 504*

Assessment of global education policy issues in education. Analysis of policies, implementation strategies, and policy outcomes.

HG ED 570. Current Topics in Student Affairs.Cr. 1-3. *Prereq: Graduate classification*

Current issues and new directions in student affairs practice. Topics developed to the specific needs of student affairs professionals. Primarily for off-campus.

HG ED 570D. Current Topics in Student Affairs: Residential Life.Cr. 1-3. *Prereq: Graduate classification*

Current issues and new directions in student affairs practice. Topics developed to the specific needs of student affairs professionals. Primarily for off-campus.

HG ED 570G. Current Topics in Student Affairs: Student Affairs Institute.Cr. 1-3. *Prereq: Graduate classification*

Current issues and new directions in student affairs practice. Topics developed to the specific needs of student affairs professionals. Primarily for off-campus.

HG ED 570H. Current Topics in Student Affairs: Student Diversity.Cr. 1-3. *Prereq: Graduate classification*

Current issues and new directions in student affairs practice. Topics developed to the specific needs of student affairs professionals. Primarily for off-campus.

HG ED 574. Student Affairs Practice in Higher Education.(3-0) Cr. 3. F. *Prereq: Graduate classification, admission to Higher Education Program*

An introduction to the field of student affairs practice with a consideration of student activities, counseling services, financial aid, admissions, student conduct, academic advising, and residential programs; includes community college programs.

HG ED 575. Organization and Administration of Student Affairs.(3-0) Cr. 3. S. *Prereq: Admission to Higher Education Program, HG ED 574*
Organization structures, role and function of student affairs staff; policies and decision-making for student affairs practice.**HG ED 576. Student Development in Higher Education.**(3-0) Cr. 3. F. *Prereq: Admission to Higher Education Program*

Theories of student development and their applications in student affairs programs, services, and activities are reviewed. Emphasis is placed on psychosocial, cognitive developmental, and learning theories as well as newer integrative theories.

HG ED 577. Campus Environments and Cultures.(3-0) Cr. 3. F. *Prereq: Admission to Higher Education Program*

Study of the impact of the college environment on students and use of environmental theory to create positive learning situations for students.

HG ED 578. Students in American Higher Education.(3-0) Cr. 3. F. *Prereq: Admission to Higher Education Program*

The relationship between college students and characteristics from 1950 to the present. Traditional assumptions about the impact of higher education on students will be reviewed and challenged. Campus issues and concerns relative to commuters and residential life. Participants will analyze institutional responses to students through college missions, organizational development, structure, core curriculum and retention.

HG ED 579. Counseling and Group Dynamics in Post-secondary Settings.(3-0) Cr. 3. F. *Prereq: HG ED 574, HG ED 576*

Development of effective, basic counseling skills. Understanding of group dynamics. Ability to work effectively in groups.

HG ED 580. Current Topics in Community Colleges.(1-3) Cr. 1-3. *Prereq: Graduate classification*

Current issues and new directions in community college education. Topics developed to the specific needs of colleges. For off-campus.

HG ED 580A. Current Topics in Community Colleges: Student Needs.(1-3) Cr. 1-3. *Prereq: Graduate classification*

Current issues and new directions in community college education. Topics developed to the specific needs of colleges. For off-campus.

HG ED 580B. Current Topics in Community Colleges: General and Liberal Education.(1-3) Cr. 1-3. *Prereq: Graduate classification*

Current issues and new directions in community college education. Topics developed to the specific needs of colleges. For off-campus.

HG ED 580C. Current Topics in Community Colleges: Counseling and Advising.(1-3) Cr. 1-3. *Prereq: Graduate classification*

Current issues and new directions in community college education. Topics developed to the specific needs of colleges. For off-campus.

HG ED 580D. Current Topics in Community Colleges: Adult and Continuing Education.(1-3) Cr. 1-3. *Prereq: Graduate classification*

Current issues and new directions in community college education. Topics developed to the specific needs of colleges. For off-campus.

HG ED 580E. Current Topics in Community Colleges: Development and Remedial Education.(1-3) Cr. 1-3. *Prereq: Graduate classification*

Current issues and new directions in community college education. Topics developed to the specific needs of colleges. For off-campus.

HG ED 580F. Current Topics in Community Colleges: Student Services.(1-3) Cr. 1-3. *Prereq: Graduate classification*

Current issues and new directions in community college education. Topics developed to the specific needs of colleges. For off-campus.

HG ED 580G. Current Topics in Community Colleges: Faculty and Staff Evaluation.(1-3) Cr. 1-3. *Prereq: Graduate classification*

Current issues and new directions in community college education. Topics developed to the specific needs of colleges. For off-campus.

HG ED 580H. Current Topics in Community Colleges: Organization and Administration.(1-3) Cr. 1-3. *Prereq: Graduate classification*

Current issues and new directions in community college education. Topics developed to the specific needs of colleges. For off-campus.

HG ED 580I. Current Topics in Community Colleges: Learning and Teaching.(1-3) Cr. 1-3. *Prereq: Graduate classification*

Current issues and new directions in community college education. Topics developed to the specific needs of colleges. For off-campus.

HG ED 580J. Current Topics in Community Colleges: Human Relations.(1-3) Cr. 1-3. *Prereq: Graduate classification*

Current issues and new directions in community college education. Topics developed to the specific needs of colleges. For off-campus.

HG ED 582. The Comprehensive Community College.(3-0) Cr. 3. *Prereq: Graduate classification*

The community college as a unique social and educational institution: its history, philosophy, functions, programs, faculty and student characteristics, organization and finance, trends, and issues. Reviews current research and exemplary community college practices internationally, nationally, and in Iowa.

HG ED 590. Special Topics.Cr. 1-4. *Prereq: 9 credits in education*

Independent study on specific topics arranged with an instructor.

HG ED 590A. Special Topics: Student Services.Cr. 1-4. *Prereq: 9 credits in education*

Independent study on specific topics arranged with an instructor.

HG ED 590B. Special Topics: Community Colleges.Cr. 1-4. *Prereq: 9 credits in education*

Independent study on specific topics arranged with an instructor.

HG ED 590C. Special Topics: Current Issues.Cr. 1-4. *Prereq: 9 credits in education*

Independent study on specific topics arranged with an instructor.

HG ED 590D. Special Topics: International Higher Education.Cr. 1-4. *Prereq: 9 credits in education*

Independent study on specific topics arranged with an instructor.

HG ED 590E. Special Topics: Federal and State Affairs.Cr. 1-4. *Prereq: 9 credits in education*

Independent study on specific topics arranged with an instructor.

HG ED 590F. Special Topics: Law in Higher Education.Cr. 1-4. *Prereq: 9 credits in education*

Independent study on specific topics arranged with an instructor.

HG ED 590G. Special Topics: Institutional Research.Cr. 1-4. *Prereq: 9 credits in education*

Independent study on specific topics arranged with an instructor.

HG ED 591. Supervised Field Experience.Cr. 1-4. Repeatable. *Prereq: 9 credits graduate work*

Supervised on-the-job field experience.

HG ED 593. Workshops.Cr. 1-5. Repeatable. *Prereq: 15 credits in education***HG ED 598. Capstone Seminar.**(3-0) Cr. 3. S. *Prereq: Completion of 30 credits in EL PS*

This course is designed to integrate the learning experiences of students completing the Master's Degree Program in higher education. Such issues as ethics, continuing professional development, career planning and leadership will be explored.

HG ED 599. Creative Component.Cr. arr. *Prereq: 9 credits in education***Courses for graduate students:****HG ED 615. Seminars in Higher Education.**

Cr. 1. Repeatable.
Seminar in History of Education.

H P C 615B. Seminar: Philosophy of Education.

(1-3) Cr. 1-3. Repeatable.

H P C 615C. Seminar: Comparative Education.

(1-3) Cr. 1-3. Repeatable.

H P C 690. Advanced Special Topics.

Cr. 1-3. Repeatable. F.S.
Advanced special topics.

H P C 699. Research.

Cr. arr. Repeatable.

Courses primarily for graduate students, open to qualified undergraduates:**OLHRD 541. Adult Learning.**

(3-0) Cr. 3.
Examines how adults acquire and use knowledge, skills, and attitudes within organizational settings; individual differences in learning as well as the principles and elements of the learning organization.

OLHRD 544. Performance Improvement and Change Through Learning Interventions.

(3-0) Cr. 3. *Prereq: OLHRD 541, OLHRD 542*
Examines the characteristics and elements of the performance improvement and change process, with special attention to the roles and responsibilities of employees, managers, and organizations when improving individual and organizational learning.

OLHRD 545. Learning Acquisition, Transfer, and Evaluation.

(3-0) Cr. 3. *Prereq: OLHRD 541, OLHRD 542, OLHRD 544*
Critical examination of learning acquisition, transfer, and evaluation barriers, partnerships, strategies, and activities; and the roles and responsibilities of human resource development professionals, managers, employees, and organizations in the application and evaluation of learning on the job.

Courses primarily for graduate students, open to qualified undergraduates:**RESEV 550. Introduction to Educational Research.**

(3-0) Cr. 3. F.S.SS.
Understanding the nature of quantitative and qualitative research; reviewing the literature; developing research problems and questions; research designs; data collection and analysis issues; evaluating research studies.

RESEV 552. Basic Educational Statistics.

(3-0) Cr. 3. F.
Statistical concepts and procedures for analyzing educational data; descriptive statistics, correlation, t tests, and chi square with computer applications.

RESEV 553. Intermediate Educational Statistics.

(3-0) Cr. 3. *Prereq: RESEV 552 or STAT 401*
A continuation of statistical concepts and procedures for analyzing educational data, using multiple regression and logistic regression.

RESEV 554. Intermediate Research Methods.

(3-0) Cr. 3. SS. *Prereq: RESEV 553 or STAT 404*
Intermediate quantitative research methodology in preparation for carrying out thesis and dissertation research, with an emphasis on the estimation of causal effects using observational data.

RESEV 570. Surveys in Educational Research.

(3-0) Cr. 3. S. *Prereq: RESEV 552 or equivalent*
Examination of survey design and administration in educational research. Designing surveys; developing, evaluating, and asking survey questions; survey sampling; measuring survey reliability and validity; administering mail and web surveys; decreasing survey nonresponse; conducting post-collection survey data processing; conducting survey research with integrity.

RESEV 580. Introduction to Qualitative Research Methodology.

(3-0) Cr. 3.
Qualitative research in the human sciences, emphasizing education; principles of qualitative inquiry, including theoretical foundations, research design, and fieldwork.

RESEV 590. Special Topics.

Cr. 1-3. Repeatable. F.S.SS. *Prereq: Graduate standing*
Guided reading and in research and evaluation study on special topic.

RESEV 591. Supervised Field Experience.

Cr. 2-4. Repeatable. *Prereq: RESEV 553 or RESEV 680*
Supervised on the job field experience.

RESEV 593. Workshop.

Cr. 1-3. Repeatable. F.S.SS. *Prereq: Graduate standing*
Intensive, concentrated exposure to a special educational research or evaluation problem.

RESEV 597. Program Assessment and Evaluation.

(3-0) Cr. 3. S. *Prereq: RESEV 550*
Evaluation models and professional standards. Techniques of evaluating educational programs. Emphasis on both theory and practical applications.

Courses for graduate students:**RESEV 615. Current Topics in Research and Evaluation.**

Cr. 1-3. Repeatable.

RESEV 620. College Access in Policy, Practice, and Research.

(4-0) Cr. 1-3. SS.
Exploration of the plurality of frameworks used to conceptualize college access as a social problem (for research, policy, and practice). Development of application of understandings of college access frameworks to policy, practice, and research.

RESEV 680. Critical Issues in Qualitative Inquiry.

(3-0) Cr. 3. S. *Prereq: RESEV 580*
An intensive reading and discussion course focusing on contemporary methodological theory for qualitative inquiry; examines epistemological, ontological, axiological and theoretical assumptions and their consequences for qualitative inquiry in the human sciences; interrogates core concepts of qualitative inquiry such as fieldwork, data, validity and representation.

RESEV 681. Analytical Approaches in Qualitative Inquiry.

(3-0) Cr. 3. F. *Prereq: RESEV 580 or equivalent*
Conceptions of data and analysis in qualitative methodologies; focus on applied topics in qualitative data analysis, such as narrative analysis, ethnographic analysis, life history analysis, postmodern analyses, discourse analysis, arts-based analytical strategies, constructing data; combination format of reading and discussion seminars and classroom workshops focusing on individual research projects (not for thesis or dissertation).

RESEV 690. Advanced Special Topics.

Cr. 1-3. Repeatable. *Prereq: Graduate standing*
Guided reading and/or study on special topics of an advanced nature.

RESEV 699. Research.

Cr. arr. Repeatable. F.S.SS.

Event Management

Administered by the Department of Apparel, Educational Studies, and Hospitality Management.

Department name changed to Apparel, Events, and Hospitality Management (12-2011)

The program offers study for the degree of Bachelor of Science with a major in event management. The program prepares undergraduate students for careers in leading event and meeting management businesses. Through the major, students gain background and experiences in planning, budgeting, and implementing conferences, meetings, and other special events in the public or private sectors. Course work provides students with a general education plus professional preparation focusing on the concepts and principles involved in meeting and event planning; special event management; budgets and finance; site selection; contracts, vendors, and negotiations; marketing and promotions; food and beverage management; meeting technology; and hospitality law. Supporting courses include foodservice, catering, promotion, brand management, trend analysis, fashion, and resource management. Learning experiences are provided through planning university events such as VEISHEA, Dance Marathon, and Homecoming, as well as other campus and community events.

Graduates from this program are prepared for careers in event planning (political events, celebrations, education, promotions, commemorations, trade shows, conferences, exhibitions, and conventions) and small business development (entrepreneurship). Graduates demonstrate leadership characteristics and make decisions based on integrating knowledge of financial, human resources, promotion, and event management principles. Students are required to complete an internship in event management prior to graduation.

The AESHM Department offers a minor in event management. The minor can be earned by successfully completing the following for a total of 15 credits.

9 credits are required:	9	
EVENT 271	Introduction to Event Management	3
EVENT 371	Conference and Meeting Planning	3
EVENT 471	Special Events Coordination	1-3

And six credits of the following:

AESHM 287	Principles of Management in Human Sciences	
AESHM 311	Seminar on Careers and Internships	
AESHM 340	Hospitality and Apparel Marketing Strategies	
AESHM 342	Aesthetics of Consumer Experience	
AESHM 470	Supervised Professional Internship	
AESHM 474	Entrepreneurship in Human Sciences	
Total Credits		15

Curriculum in Event Management

Administered by the Apparel, Events, and Hospitality Management Department.

Leading to the degree Bachelor of Science.

Total credits required: 123 including a minimum of 18 credits from the AESHM Department at Iowa State University for the degree. The curriculum in event management prepares students for careers in leading event and meeting management businesses. Courses are required in general education, and the professional area. Students majoring in Event Management are required to earn C- or better in all AESHM and EVENT courses. Communication Proficiency Requirement: Grade of C or better in ENGL 150 Critical Thinking and Communication, and ENGL 250 Written, Oral, Visual, and Electronic Composition.

A minor in event management is available; see requirements under Apparel, Events, and Hospitality Courses and Programs.

Cr. Degree Requirements

Communication Skills

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
LIB 160	Information Literacy	1
One of the following:		3
COMST 102	Introduction to Interpersonal Communication	
COMST 214	Professional Communication	
SP CM 212	Fundamentals of Public Speaking	
Total Credits		10

Natural Sciences and Mathematical Disciplines

Select one MATH course from:		3
MATH 104	Introduction to Probability	
MATH 105	Introduction to Mathematical Ideas	
MATH 140	College Algebra	
MATH 150	Discrete Mathematics for Business and Social Sciences	
MATH 160	Survey of Calculus	
STAT 101	Principles of Statistics	4
Natural Sciences		3
Select from: Astronomy, Biology, Biochemistry, Chemistry, Ecology, Entomology, Environmental Science, Environmental Studies, FS HN 101 or FS HN 167, Genetics, Geology, Meteorology, Horticulture, Microbiology, Physics or A M D 204		
Total Credits		10

Social Sciences

ECON 101	Principles of Microeconomics	3
6 credits from the following:		6
ECON 102	Principles of Macroeconomics	
HD FS 102	Individual and Family Life Development	
PSYCH 101	Introduction to Psychology	
PSYCH 230	Developmental Psychology	
PSYCH 280	Social Psychology	
SOC 134	Introduction to Sociology	
A M D 165	Dress and Diversity in Society	
Total Credits		9

Humanities

3 credits from the following:		3
AESHM 342	Aesthetics of Consumer Experience	
A M D 257	Museum Studies	
A M D 354	History of European and North American Dress	
A M D 356	History of Twentieth Century Fashion	

A M D 362	Cultural Perspectives of Dress	
World Languages and Cultures course suggested OR courses from African and African American Studies, American Indian Studies, Anthropology, Art History, Classical Studies, History, Literature, Philosophy, Religious Studies, Music or Dance Appreciation, Women's Studies, Theater		6-8
Total Credits		9-11

Professional Courses

37-40 credits from the following:		36-39
ACCT 284	Financial Accounting	
AESHM 112	Orientation for AESHM	
AESHM 113	Professional Development for AESHM	
AESHM 175N	Financial Applications for Retail and Hospitality Industries: Retail Merchandising	
AESHM 287	Principles of Management in Human Sciences	
AESHM 311	Seminar on Careers and Internships	
AESHM 340	Hospitality and Apparel Marketing Strategies	
AESHM 411	Seminar on Current Issues	
AESHM 438	Human Resource Management	
AESHM 470	Supervised Professional Internship	
AESHM 474	Entrepreneurship in Human Sciences	
EVENT 271	Introduction to Event Management	
EVENT 371	Conference and Meeting Planning	
EVENT 471	Special Events Coordination	
HRI 101	Introduction to the Hospitality Industry	
3 credits from:		3
ACCT 215	Legal Environment of Business	
HRI 315	Hospitality Law	
30 credits from the following:		30
A M D 467	Consumer Behavior	
ADVRT 230	Advertising Principles	
ADVRT 301	Research and Strategic Planning for Advertising and Public Relations	
AESHM 170F	Supervised Work Experience I: Event Management	
AESHM 211	Leadership Experiences and Development (LEAD)	
AESHM 222	Creative Thinking and Problem Solving	
AESHM 270F	Supervised Work Experience II: Event Management	
AESHM 272	Fashion Show Production and Promotion	
AESHM 275	Retail Merchandising	
AESHM 377	Brand Management and Promotions	
AESHM 379	Community Leadership: Examination of Social Issues	
AESHM 421	Developing Global Leadership: Maximizing Human Potential	
AESHM 472	Fashion Show Management	
ARTIS 212	Studio Fundamentals: Computers	
EVENT 333X	Entertainment Venue Management	
FS HN 111	Fundamentals of Food Preparation	
EVENT 373X	Wedding Planning and Management	
FS HN 115	Food Preparation Laboratory	
HRI 260	Global Tourism Management	
HRI 289	Contemporary Club Operations	
HRI 320	Attractions and Amusement Park Administration	
HRI 333	Hospitality Operations Cost Controls	
HRI 380	Quantity Food Production Management	
HRI 383	Introduction to Wine, Beer, and Spirits	
HRI 383LX	Introduction to Wine, Beer, and Spirits Lab	
HRI 487	Fine Dining Event Management	
P R 220	Principles of Public Relations	
P R 305	Publicity Methods	
MGMT 370	Management of Organizations	
SP CM 312	Business and Professional Speaking	
Total Credits		69-72

Courses primarily for undergraduates:

EVENT 271. Introduction to Event Management.(2-2) Cr. 3. F.S.SS. *Prereq: HRI 101*

Overview of the event management industries. Techniques and procedures required for producing successful and sustainable events.

EVENT 289. Contemporary Club Operations.(Cross-listed with HRI). (2-0) Cr. 2. F.S. *Prereq: HRI 101*

Organization and management of private clubs including city, country, and other recreational and social clubs. Field trip may be required.

EVENT 320. Attractions and Amusement Park Administration.(Cross-listed with HRI). (3-0) Cr. 3. S. *Prereq: HRI 101 or permission of instructor*

An examination of current issues in the attractions and amusement park industry will be conducted. Emphasis will be placed on development and design along with the functional departments of modern amusement parks and themed attractions.

EVENT 371. Conference and Meeting Planning.(2-2) Cr. 3. F.S. *Prereq: EVENT 271*

Application of event management principles to conference and meeting planning, trade shows, and conventions focusing on budget development, resource allocation, promotion, hospitality, and professional development.

EVENT 471. Special Events Coordination.(2-2) Cr. 1-3. Repeatable, maximum of 6 credits. F.S. *Prereq: EVENT 371; permission of instructor.*

Advanced application event management. Provide leadership and communicate direction for production of an event including developing budgets, publicity, advertising, fund raising, choreography, staging, lighting, and food.

EVENT 490. Independent Study.

Cr. arr. Repeatable. *Prereq: Sections B-D: Program approval; Section H: Full membership in Honors Program*
Independent study.

EVENT 490B. Independent Study: Conferences.

Cr. arr. Repeatable. *Prereq: Program approval*
Independent study.

EVENT 490C. Independent Study: Special Events.

Cr. arr. Repeatable. *Prereq: Program approval.*
Independent study.

EVENT 490D. Independent Study: Event Management.

Cr. arr. Repeatable. *Prereq: Sections B-D: Program approval; Section H: Full membership in Honors Program*
Independent study.

Family and Consumer Sciences

Master of Family and Consumer Sciences (M.F.C.S.)

The College of Human Sciences offers a nonthesis master's degree program that might appeal to individuals with a bachelor's degree in family and consumer sciences/home economics subject area or related disciplines. This program is considered to be a professional master's degree. For students interested in further graduate study beyond the MFCS, the nonthesis degree program may mean additional requirements before completion of a Ph.D. or other terminal degree graduate program.

Students select either a comprehensive option or a specialization option. The comprehensive option requires 36 credits covering a variety of family and consumer sciences subject matter. Off-campus courses are offered via the World Wide Web (WWW). Specializations are available in Nutrition; Dietetics; Human Development and Family Studies; Hospitality Management; and Apparel, Merchandising, and Design.

In addition, students may select a 36-credit specialization in Family Financial Planning (FFP), a 36-credit specialization in Gerontology, a 36-credit specialization in Dietetics, or a 36-credit specialization in Youth Development. The FFP, Gerontology, Dietetics, and Youth Development specializations, offered in collaboration with six to eight other universities in the Great Plains Interactive Distance Education Alliance, are offered exclusively through courses on the Web. The FFP program has been approved by the Board of Examiners of the Certified Financial Planner Board of Standards as a program with the competencies required to permit those completing the degree to sit for the CFP® Certification Examination. CFP® is a certification mark owned by the Certified Financial Planner Board of Standards.

The Program of Study committee, in consultation with the student, establishes the courses to be taken and the acceptability of transfer credits. The major professor is selected from the discipline in which the concentration of coursework will be taken. Written and oral final integrative examinations are required in lieu of a

thesis or creative component. A thesis or creative component could be included on mutual agreement of the student and major professor, with approval of the Graduate College.

Admission requirements for the MFCS include a bachelor's degree in a family and consumer sciences/home economics subject area or related disciplines, Graduate Record Examination (GRE) scores (not required for the FFP and Geron specializations), official transcripts, three letters of recommendation, a goal statement, and graduation in the upper one-half of class with a bachelor's degree from a regionally accredited U.S. institution or graduation in the upper one-half of class from a recognized foreign institution. Non-English speaking international students are required to have a TOEFL score of at least 550 at time of admission.

Graduate Certificates

<http://www.hs.iastate.edu/online-grad/programs/>

An 18-credit graduate certificate in Family Financial Planning is offered for students who do not need a master's degree and want to obtain the educational requirements of the Certified Financial Planner Board of Standards CFP® Certification Examination.

A 21-credit graduate certificate in Gerontology is offered.

A 13-credit Youth Development Specialist graduate certificate is offered.

A 13-credit graduate certificate in Youth Program Management & Evaluation is offered.

For additional information, students should contact the Research and Graduate Education Office, E262 Lagomarcino, Ames, Iowa 50011-3191, mfcsinfo@iastate.edu

Family and Consumer Sciences Education and Studies

Undergraduate Study

The curriculum in **Family and Consumer Sciences Education and Studies** offers one curriculum for the bachelor of science degree in Family and Consumer Sciences Education and Studies. (<http://catalog.iastate.edu/collegeofhumansciences/familyandconsumerscienceseducationandstudies>)

Graduates in Family and Consumer Sciences Education and Studies have a broad understanding of individual and family well-being. Graduates apply knowledge and research in family and consumer sciences content in global professional settings. They work in an integrative fashion to improve well-being by addressing and acting on complex problems confronting individuals, families, and communities. The study of Family and Consumer Sciences Education incorporates the following 16 areas (<http://www.nasafacs.org/national-standards--competencies.html>): Career, Community and Family Connections; Consumer and Family Resources; Consumer Services; Education and Early Childhood; Facilities Management and Maintenance; Family; Family and Community Services; Food Production and Services; Food Science, Dietetics, and Nutrition; Hospitality, Tourism and Recreation; Housing and Interior Design; Human Development; Interpersonal Relationship; Nutrition and Wellness; Parenting; and Textiles, Fashion and Apparel.

Students in the curriculum choose one of three options, Teacher Licensure, Communications, or Professional Studies.

Graduates of the Teacher Licensure option may teach family and consumer sciences in middle, junior high, and senior high schools. Students who enroll in Teacher Licensure must apply and be accepted into the teacher education program prior to enrolling in advanced courses and must meet general education requirements for teacher licensure. Iowa State University is in compliance with the Iowa Department of Education's mandate for a performance based

system of teacher training. The State of Iowa has developed and implemented a competency system to evaluate the performance of all teachers. A detailed list of the twelve Iowa State University Teacher Education Standards and the eight State of Iowa Teaching Standards, along with other information about the University Teacher Education Program, can be found at www.education.iastate.edu/te/. This program option is approved by the Iowa Department of Education for the preparation of comprehensive and occupational career and technical education family and consumer sciences teachers.

Graduates of the Communications option have a broad-based knowledge of family and consumer sciences and the ability to communicate in a global and technologically changing society. They are able to plan, develop, creatively present and evaluate information. Students apply the principles of educational presentations, journalism, marketing, and public relations to the family and consumer sciences field within businesses, agencies, and organizations that work to empower individuals, families, and communities.

Graduates of the Professional Studies option pursue individualized career goals in family and consumer sciences that apply integrative knowledge of family and consumer sciences in diverse careers for global settings. Students are prepared to work in a variety of careers ranging from non-profit organizations to the private sector in a business or entrepreneurial venture working with family nutrition, financial planning, life planning, current issues or other topics from the 16 content areas that affect individuals, families and communities.

Students in FCEDS may choose coursework that leads to becoming a Certified Family Life Educator (CFLE), a program that has been approved by the National Council on Family Relations. These courses provide the basic education for students interested in working with families, including adolescents, parents, or adults working to strengthen relationships. The student takes courses that support the development of knowledge and skills in family life content areas selected by the National Council on Family Relations. The certification is a voluntary credential that requires the individual to complete a degree in an approved program and to have at least two years of work experience in family life education settings.

Graduates may also choose from one of several nationally recognized professional certifications available from the American Association of Family and Consumer Sciences (AAFCS) Council for Certification. This program measures competencies of FCS professionals using high-quality, rigorous assessments. Certifications that are currently available are (<http://www.aafcs.org/CredentiaingCenter/Certification.asp>): **CFCS**: Certified in Family and Consumer Sciences; **CFCS-HDFS**: Certified in Human Development and Family Studies; **CFCS-HNFS**: Certified in Hospitality, Nutrition, and Food Science; and **CPFFE**: Certified Personal and Family Finance Educator.

Opportunities are available for obtaining a minor from other programs through careful selection of elective credits and consultation with an adviser. For example, students pursuing the Communications and Professional Studies options are encouraged to consider obtaining a minor in journalism and mass communications or in one of the content areas of family and consumer sciences such as Financial Counseling and Planning. They also are encouraged to enhance their program by selecting relevant additional courses in their area of interest. Students in the Teacher Licensure option may choose to add a minor (for example: Learning Technologies) or an additional endorsement such as Health Education, Middle School, ESL, Multi-Occupations, or Coaching Interscholastic Athletics.

There is also an opportunity to obtain a family and consumer sciences-general endorsement or teacher licensure as a post baccalaureate student.

The program offers a minor in Educational Services in Family and Consumer Sciences. The minor is earned by successfully completing 15 credits. For additional details, see <http://www.hdfs.hs.iastate.edu/undergraduate-majors/minors/#educational-services-in-family-and-consumer-sciences>.

Communication Proficiency Requirement: C or better in ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition.

Minor

The HD FS department offers a minor in Educational Services in Family and Consumer Sciences. The minor consists of at least 15 credits including 6 credits taken at Iowa State University in courses numbered 300 or above.

The Educational Services in Family and Consumer Sciences minor may be earned by completing 15 credits:

FCEDS 206	Professional Roles in Family and Consumer Sciences	2
FCEDS 306	Educational Principles for Family and Consumer Sciences	4
FCEDS 413	Planning and Assessment for Family and Consumer Sciences and Family Life Education	4

FCEDS 491A	Supervised Experiences in a Professional Setting: Communications	5
or FCEDS 491B	Supervised Experiences in a Professional Setting: Professional Studies	
Total Credits		15

Graduate Study

The program offers work for the degrees master of science, master of education, and doctor of philosophy, each with the major, family and consumer sciences education. The M.S. degree requires a thesis; the M.Ed. degree requires a creative component; the Ph.D. requires a dissertation. Minors are available.

Programs for advanced degrees with a major in family and consumer sciences education are tailored to fit the educational background, experience, and professional goals of the student. Areas of study provided by the department include program planning, curriculum, evaluation, research methods, supervision and administration, international education and development, and teacher education. Opportunities are available for strengthening one's background in subject matter in other programs in the College of Human Sciences.

Students who complete a graduate program are professional family and consumer sciences educators and teacher educators who foster program planning, implementation, and evaluation at state, national, and international levels. They are producers and disseminators of research and scholarship in family and consumer sciences education and are leaders in programs and services for clientele in diverse settings. Currently, the graduate program is not accepting new admissions.

Curriculum in Family and Consumer Sciences Education and Studies

Administered by the Department of Human Development and Family Studies. Leading to a degree bachelor of science.

This curriculum provides a broad-based program of study focusing on preparation for professional careers related to education or community leadership. Courses are required in general education and the College core. Students select one program option.

There are three choices for this curriculum.

Option 1, teacher licensure, Option 2, communications, or Option 3, professional studies. In all options, students are prepared with a broad based understanding of family and consumer sciences.

Option 1, [Teacher Licensure](#), is designed for students seeking careers as family and consumer sciences educators in a variety of settings such as middle, junior high, and senior high schools. Further information about licensure programs appears under Teacher Education.

Option 2, [Communications](#), is designed for students seeking careers emphasizing the use of principles in journalism, marketing, communications, and public relations with diverse populations in business or social agency settings as well as extension, community agencies, community colleges, and youth and adult education programs in the global community.

Option 3, [Professional Studies](#), is designed to provide students with the opportunity to pursue an individualized program which is planned with their academic advisers. Careers include working with diverse populations in extension, business, community agencies, and community colleges, or non-profit groups and organizations involving youth and adult education programs.

A minor in Educational Services in Family and Consumer Sciences is available, see requirements under Human Development and Family Studies Courses and Programs or in the catalog section Family and Consumer Sciences Education and Studies (<http://www.hdfs.hs.iastate.edu/ceds>).

Total Credits required: 122.5-123.5

Communications and library

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
One of the following		3
COMST 102	Introduction to Interpersonal Communication	
COMST 214	Professional Communication	
COMST 218	Conflict Management	
SP CM 212	Fundamentals of Public Speaking	
SP CM 312	Business and Professional Speaking	

LIB 160	Information Literacy	1
Total Credits		10

Natural sciences and mathematical disciplines

BIOL 101	Introductory Biology	3
or BIOL 155	Human Biology	
STAT 101	Principles of Statistics <small>Communications Option</small>	3-4
or STAT 104	Introduction to Statistics	
or approved MATH or STAT course from FCEDS list (Teacher Licensure & Professional Studies)		
CHEM 160	Chemistry in Modern Society	3
Teacher Licensure and Communications must have completed high school Chemistry		
Total Credits		9-10

Social sciences

ECON 101	Principles of Microeconomics	3
HD FS 102	Individual and Family Life Development	3
One of the following		3
FS HN 342	World Food Issues: Past and Present	
SOC 134	Introduction to Sociology	
Total Credits		9

Humanities

Select 6 credits from FCEDS list of approved Humanities courses

Teacher Licensure must complete 3 credits of American history or American government.

Total Credits: 6

Family and Consumer Sciences Education and Studies core

HD FS 103	Professional Principles for Working with Children and Youth	.5
HD FS 110	Freshman Learning Community Orientation	1
or HD FS 111	New Transfer Student Seminar	
FCEDS 206	Professional Roles in Family and Consumer Sciences	2
HD FS 239	Housing and Consumer Issues	3
HD FS 276	Human Sexuality	3
HD FS 283	Personal and Family Finance	3
Total Credits		12.5

Option 1: Teacher Licensure

Total Credits for FCEDS (Teacher Licensure): 122.5-123.5

C I 202	Learning Technologies in the 7-12 Classroom	3
C I 204	Social Foundations of Education in the United States	3
C I 219	Orientation to Teacher Education: Math, Science, FCS Education, and History/Social Science Majors	1
C I 333	Educational Psychology	3
C I 406	Multicultural Foundations of School and Society: Introduction	3
C I 426	Principles of Secondary Education	3
FCEDS 306	Educational Principles for Family and Consumer Sciences	4
FCEDS 413	Planning and Assessment for Family and Consumer Sciences and Family Life Education	4
FCEDS 418	Occupational, Career and Technical Programs	3
FCEDS 417A	Supervised Teaching in Family and Consumer Sciences: Vocational family and consumer sciences.	8
FCEDS 417B	Supervised Teaching in Family and Consumer Sciences: Family and consumer sciences.	8
FCEDS 480A	Pre-Student Teaching Experience in FCS Education: Practicum in FCS Labs (24 hours)	1

FCEDS 480B	Pre-Student Teaching Experience in FCS Education: Practicum in Diverse Settings (24 hours)	1
FS HN 111	Fundamentals of Food Preparation	2
FS HN 115	Food Preparation Laboratory	1
FS HN 167	Introduction to Human Nutrition	3
HD FS 224	Development in Young Children: Birth through Age 8	3
HD FS 227	Adolescent and Emerging Adulthood	3
HD FS 249	Parenting and Family Diversity Issues	3
A M D 204	Textile Science	4
A M D 221	Apparel Assembly Processes	3
SP ED 401	Teaching Secondary Students with Exceptionalities in General Education	3
One of the following		3
ARTID 250	Fundamentals of Interior Design	
ARTID 251	Human Factors in Design	
ARTID 255	Forces That Shape Interior Space	
ARTID 355	Interior Design History/Theory/Criticism I	
ARTID 356	Interior Design History/Theory/Criticism II	
HD FS 226	Development and Guidance in Middle Childhood	
HD FS 342	Guidance and Group Management in Early Childhood	
One of the following		3
AESHM 379	Community Leadership: Examination of Social Issues	
HD FS 341	Housing Finance and Policy	
HD FS 383	Fundamentals of Financial Planning	
HD FS 395	Children, Families, and Public Policy	
Total Credits		76

Option 2: Communications

Total Credits for FCEDS (Communication Option): 123.5

AESHM 287	Principles of Management in Human Sciences	3
AESHM 379	Community Leadership: Examination of Social Issues	3
ENGL 302	Business Communication	3
ENGL 314	Technical Communication	3

HD FS 486	Administration of Programs for Children, Adults and Families	3
One of the following		3
HD FS 341	Housing Finance and Policy	
HD FS 383	Fundamentals of Financial Planning	
HD FS 482	Family Savings and Investments	
One of the following		3
AESHM 342	Aesthetics of Consumer Experience	
A M D 362	Cultural Perspectives of Dress	
PHIL 340	Aesthetics	
Two of the following		6
DSN S 292	Introduction to Visual Culture Studies	
ENGL 302	Business Communication	
ENGL 314	Technical Communication	
P R 220	Principles of Public Relations	
P R 305	Publicity Methods	
FCEDS 491B	Supervised Experiences in a Professional Setting: Professional Studies	6
College of Human Science Electives, choose from AESHM, FCEDS, FS HN,13-14 HD FS, HRI, H S, or AMD (TC) minimum 9 credits at 300 level or above; elective total will vary to equal a total of 123.5 credits		
University Electives		9
Total Credits		76-77

Courses primarily for undergraduates:

FCEDS 206. Professional Roles in Family and Consumer Sciences.

(1-1) Cr. 2. F. Prereq: HD FS 103 or concurrent enrollment in HD FS 103
Influencing factors that have contributed to the development and mission of Family and Consumer Sciences. Program goals, objectives and professional ethics. Introduction to various roles in professional settings, e.g., community agencies, secondary schools, business and industry, and Cooperative Extension. Includes 12 hours of a practicum experience outside of the regular class schedule.

FCEDS 306. Educational Principles for Family and Consumer Sciences.

(3-2) Cr. 4. F. Prereq: 15 credits in family and consumer sciences subject matter
Principles of teaching and learning applied to family and consumer sciences content, including family financial literacy; reading strategies. Instructional methods appropriate for formal and nonformal educational settings. Specific strategies for diverse audiences. Includes 12 hour arranged practicum. May be used for family life certification.

FCEDS 413. Planning and Assessment for Family and Consumer Sciences and Family Life Education.

(3-2) Cr. 4. S. Prereq: FCEDS 306
Development of curriculum and assessment tools for family and consumer sciences programs for school settings. Accommodating exceptional learners. Includes 12 hours of Career and Technical Student Organization Competitive Event Assessment. May be used for family life certification.

FCEDS 417. Supervised Teaching in Family and Consumer Sciences.

Cr. 3-8. Repeatable. F.S. Prereq: FCEDS 413; 24 credits in family and consumer sciences subject matter; cumulative grade point of 2.50; full admission to teacher education

Supervised teaching experience in secondary schools. Examination of ways to implement actions that reflect a professional philosophy of family and consumer sciences for teaching middle and high school level students. Reservation required.

FCEDS 417A. Supervised Teaching in Family and Consumer Sciences: Vocational family and consumer sciences..

Cr. 3-8. Repeatable. F.S. Prereq: FCEDS 413, 24 credits in family and consumer sciences subject matter, cumulative grade point of 2.50, full admission to teacher education

Supervised teaching experience in secondary schools. Examination of ways to implement actions that reflect a professional philosophy of family and consumer sciences for teaching middle and high school level students. Reservation required.

FCEDS 417B. Supervised Teaching in Family and Consumer Sciences: Family and consumer sciences..

Cr. 3-8. Repeatable. F.S. Prereq: FCEDS 413, 24 credits in family and consumer sciences subject matter, cumulative grade point of 2.50, full admission to teacher education

Supervised teaching experience in secondary schools. Examination of ways to implement actions that reflect a professional philosophy of family and consumer sciences for teaching middle and high school level students. Reservation required.

FCEDS 418. Occupational, Career and Technical Programs.

(Dual-listed with FCEDS 518). (3-0) Cr. 3. S. Prereq: FCEDS 206; 400 hours employment in a family and consumer sciences related field.

Philosophy of career and technical education. Historical development of family and consumer sciences. Planning and implementing programs in family and consumer sciences including FCCLA. Impact of selected legislation on family and consumer sciences programs. Techniques for cooperative education, school-to-work, and work-based education programs. May be used toward Occupational Family and Consumer Sciences and Multioccupations Endorsements.

FCEDS 480. Pre-Student Teaching Experience in Family and Consumer Sciences Education.

(0-2) Cr. 1. Repeatable. F.S. Prereq: Admission to teacher education.

Laboratory experience in foods, textiles and human development in family and consumer sciences secondary programs. At least 2 hour blocks of time needed for field experience. Observation of family and consumer sciences laboratories in diverse classrooms. Planning, implementing, managing and assessing laboratory lessons in family and consumer sciences. Offered on a satisfactory-fail basis only.

FCEDS 480A. Pre-Student Teaching Experience in FCS Education: Practicum in FCS Labs (24 hours).

(0-2) Cr. 1. Repeatable. F.S. Prereq: Admission to teacher education

Laboratory experience in foods, textiles and human development in family and consumer sciences secondary programs. At least 2 hour blocks of time needed for field experience. Observation of family and consumer sciences laboratories in diverse classrooms. Planning, implementing, managing and assessing laboratory lessons in family and consumer sciences. Offered on a satisfactory-fail basis only.

FCEDS 480B. Pre-Student Teaching Experience in FCS Education: Practicum in Diverse Settings (24 hours).

(0-2) Cr. 1. Repeatable. F.S. Prereq: Admission to teacher education.

Laboratory experience in foods, textiles and human development in family and consumer sciences secondary programs. At least 2 hour blocks of time needed for field experience. Observation of family and consumer sciences laboratories in diverse classrooms. Planning, implementing, managing and assessing laboratory lessons in family and consumer sciences. Offered on a satisfactory-fail basis only.

FCEDS 490. Independent Study.

Cr. arr. F.S.SS.

FCEDS 490A. Independent Study: Adult Education.

Cr. arr. F.S.SS.

FCEDS 490C. Independent Study: Curriculum.

Cr. arr. F.S.SS.

FCEDS 490D. Independent Study: Evaluation.

Cr. arr. F.S.SS.

FCEDS 490E. Independent Study: Cooperative Extension.

Cr. arr. F.S.SS.

FCEDS 490G. Independent Study: General.

Cr. arr. F.S.SS.

FCEDS 490H. Independent Study: Honors.

Cr. arr. F.S.SS.

FCEDS 490I. Independent Study: International.

Cr. arr. F.S.SS.

FCEDS 490K. Independent Study: Occupational Education.

Cr. arr. F.S.SS.

FCEDS 490N. Independent Study: Leadership and Human Relations.

Cr. arr. F.S.SS.

FCEDS 490P. Independent Study: Special Needs/Mainstreaming.

Cr. arr. F.S.SS.

FCEDS 490R. Independent Study: Vocational Education.

Cr. arr. F.S.SS.

FCEDS 490S. Independent Study: Technology and Distance Education.

Cr. arr. F.S.SS.

FCEDS 491. Supervised Experiences in a Professional Setting.Cr. 3-8. Repeatable. F.S.SS. *Prereq: HD FS 418B; 24 credits in family and consumer sciences; reservation required*

Supervised professional experience in an approved setting such as Cooperative Extension, business, community, human service, or government agency. Offered on a satisfactory-fail basis only.

FCEDS 491A. Supervised Experiences in a Professional Setting: Communications.Cr. 3-8. Repeatable, maximum of 8 credits. F.S.SS. *Prereq: HD FS 418B; 24 credits in family and consumer sciences; reservation required*

Supervised professional experience in an approved setting such as Cooperative Extension, business, community, human service, or government agency. Offered on a satisfactory-fail basis only.

FCEDS 491B. Supervised Experiences in a Professional Setting: Professional Studies.Cr. 3-8. Repeatable, maximum of 8 credits. F.S.SS. *Prereq: HD FS 418B; 24 credits in family and consumer sciences; reservation required*

Supervised professional experience in an approved setting such as Cooperative Extension, business, community, human service, or government agency. Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified undergraduates:**FCEDS 500. Short Course: Current Family and Consumer Sciences Offerings.**Cr. 1-3. Repeatable. F.S.SS. *Prereq: 6 credits in family and consumer sciences or education***FCEDS 500A. Short Course: Adult Education.**Cr. 1-3. Repeatable. F.S.SS. *Prereq: 6 credits in family and consumer sciences or education***FCEDS 504. Intellectual Foundations of Family and Consumer Sciences Leadership.**(3-0) Cr. 3. F. *Prereq: Graduate classification*

Exposure to a variety of selected readings that provide an intellectual foundation and framework for the family and consumer sciences profession. Connects the historical and philosophical structure of the profession with perspectives leading to innovative professional action.

FCEDS 507. Program Development in Family and Consumer Sciences.(3-0) Cr. 3. SS. *Prereq: Professional experience in family and consumer sciences or related area*

Application of principles of program development to formal and nonformal educational settings, e.g., secondary school family and consumer sciences programs, training positions in business, Cooperative Extension, human services agencies.

FCEDS 508. Models for Teaching Family and Consumer Sciences.(3-0) Cr. 3. S. *Prereq: 6 credits in family and consumer sciences*

Selecting teaching strategies and instructional materials based on theories of learning and human development that reflect a professional philosophy of family and consumer sciences. Application to formal and nonformal educational settings with diverse audiences.

FCEDS 511. Research Methods.(3-0) Cr. 3. F. *Prereq: Graduate classification*

An overview of diverse research approaches focusing on methods for collecting and analyzing quantitative and qualitative data. Critique of research reports and development of research proposals.

FCEDS 515. Assessment in Family and Consumer Sciences.(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: Introductory statistical and program development skills*

Role of assessment in family and consumer sciences education programs. Planning and constructing test items and other assessments of school and nonschool learning.

FCEDS 518. Occupational, Career and Technical Programs.(Dual-listed with FCEDS 418). (3-0) Cr. 3. S. *Prereq: FCEDS 206; 400 hours employment in a family and consumer sciences related field.*

Philosophy of career and technical education. Historical development of family and consumer sciences. Planning and implementing programs in family and consumer sciences including FCCLA. Impact of selected legislation on family and consumer sciences programs. Techniques for cooperative education, school-to-work, and work-based education programs. May be used toward Occupational Family and Consumer Sciences and Multioccupations Endorsements.

FCEDS 521. International Perspectives of Family and Consumer Sciences.(3-0) Cr. 3. Alt. SS., offered even-numbered years. *Prereq: 6 credits in family and consumer sciences*

Examination of family and consumer sciences from an international perspective; focus on the roles and responsibilities of women in development. Application and adaptation of content to working with families in other countries and cultures. Student participation in cultural activities and critique of international research articles.

Meets International Perspectives Requirement.

FCEDS 590. Special Topics.Cr. arr. Repeatable. *Prereq: 6 credits in family and consumer sciences or education***FCEDS 590A. Special Topics: Adult Education.**Cr. arr. FCEDS 593. Workshop.

Cr. 1-3. Repeatable. F.S.SS. *Prereq: 6 credits in family and consumer sciences or education*

Concentrated group study of new developments in family and consumer sciences education. Sections offered will vary from year to year.

FCEDS 599. Creative Component.

Cr. arr. *Prereq: 9 graduate credits in Family and Consumer Sciences Education*

Courses for graduate students:**FCEDS 610. Seminar.**

Cr. 1. Repeatable. F.S.SS. *Prereq: Graduate classification*
Exploration of trends and issues in the profession. Offered on a satisfactory-fail basis only.

FCEDS 611. Program Evaluation in Family and Consumer Sciences.

(3-0) Cr. 3. Alt. SS., offered even-numbered years. *Prereq: FCEDS 511, FCEDS 515*

Application of program evaluation approaches and models to family and consumer sciences programs. Standards for program evaluation.

FCEDS 620. Theories of Administration in Family and Consumer Sciences.

(3-0) Cr. 3. Alt. SS., offered even-numbered years. *Prereq: Professional Experience*
Review of administrative theory; application to family and consumer sciences programs with emphasis on higher education. Administrative leadership roles and their interrelationships. Consideration of current issues.

FCEDS 690. Family and Consumer Sciences Education and Studies Advanced Topics.

Cr. arr. *Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E*

Topics for the independent study will be in any of the following areas:

FCEDS 690A. Advanced Topics: Adult Education.

Cr. arr. *Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E*

Topics for the independent study will be in any of the following areas:

FCEDS 690B. Advanced Topics: Administration.

Cr. arr. *Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E*

Topics for the independent study will be in any of the following areas:

FCEDS 690C. Advanced Topics: Curriculum.

Cr. arr. *Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E*

Topics for the independent study will be in any of the following areas:

FCEDS 690D. Advanced Topics: Evaluation.

Cr. arr. *Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E*

Topics for the independent study will be in any of the following areas:

FCEDS 690E. Advanced Topics: Teacher Education.

Cr. arr. *Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E*

Topics for the independent study will be in any of the following areas:

FCEDS 690F. Advanced Topics: Occupational, Career and Technical Education.

Cr. arr. *Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E*

Topics for the independent study will be in any of the following areas:

FCEDS 690G. Advanced Topics: General.

Cr. arr. *Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E*

Topics for the independent study will be in any of the following areas:

FCEDS 690I. Advanced Topics: International Education.

Cr. arr. *Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E*

Topics for the independent study will be in any of the following areas:

FCEDS 690J. Advanced Topics: Educational Gerontology.

Topics for the independent study will be in any of the following areas:

FCEDS 690O. Advanced Topics: Technology.

Cr. arr. *Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E*

Topics for the independent study will be in any of the following areas:

FCEDS 690P. Advanced Topics: Supervision.

Cr. arr. *Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E*

Topics for the independent study will be in any of the following areas:

FCEDS 690Q. Advanced Topics: Family/Individual Health.

Cr. arr. *Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E*

Topics for the independent study will be in any of the following areas:

FCEDS 690R. Advanced Topics: Consumer Education.

Cr. arr. Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E

Topics for the independent study will be in any of the following areas:.

FCEDS 690S. Advanced Topics: Distance Education.

Cr. arr. Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E

Topics for the independent study will be in any of the following areas:.

FCEDS 690T. Advanced Topics: Professional Education.

Cr. arr. Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E

Topics for the independent study will be in any of the following areas:.

FCEDS 690U. Advanced Topics: Research Methodology.

Cr. arr. Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E

Topics for the independent study will be in any of the following areas:.

FCEDS 699. Research.

Cr. arr. Repeatable.

Family Financial Planning Interinstitutional Graduate Program

Participating Institutions : Iowa State University; Kansas State University; Montana State University; University of Nebraska; North Dakota State University; Oklahoma State University; South Dakota State University.

Family Financial Planning is an inter-institutional distance education program offered through the Web. The student selects a home institution, which grants the degree. After admission at the home institution, the student takes courses from each of the seven institutions: Iowa State University, Kansas State University, Oklahoma State University, Montana State University, University of Nebraska, North Dakota State University, and South Dakota State University.

At Iowa State University, Family Financial Planning is a specialization within the Master of Family and Consumer Sciences degree program (MFCS-FFP) that consists of 36 semester credits. Neither a thesis nor a creative component is required. Students typically complete the program in three years while employed full time. A computer with minimum specifications, Web access, and an email address are required for completing the program.

FFP Graduate Certificate Program

The Graduate Certificate in Family Financial Planning consists of the six courses from the MFCS-FFP that contain the competencies required for the CFP® Certification Examination. Students interested in attaining the CFP® credential and not a master's degree should enroll in the certificate program.

Courses included in the FFP graduate certificate program include:

FFP 530	Fundamentals of Family Financial Planning	3
FFP 540	Estate Planning for Families	3
FFP 545	Retirement Planning, Employee Benefits, and the Family	3
FFP 555	Insurance Planning for Families	3
FFP 565	Personal Income Taxation	3
FFP 583	Investing for the Family's Future	3

Both the Master's degree and Graduate Certificate programs at Iowa State University are registered with Certified Financial Planner Board of Standards Inc. As a CFP Board-registered Program, ISU FFP courses satisfy CFP Board's education requirement, allowing an individual to sit for the CFP® Certification Examination.

Iowa State University does not certify individuals to use the CFP®, CERTIFIED FINANCIAL PLANNER™ title. CFP certification is granted only by Certified Financial Planner Board of Standards Inc. to those persons who, in addition to completing an educational requirement such as this CFP Board-Registered Program, have met its ethics, experience and examination requirements. (CFP Board of Standards web site: www.cfp.net (<http://www.cfp.net>.)

Certified Financial Planner Board of Standards Inc. owns the certification marks CFP®, CERTIFIED FINANCIAL PLANNER™ and the federally registered CFP (with flame logo), which it awards to individuals who successfully complete initial and ongoing certification requirements.

Admission Procedures: Admission to the FFP Certificate Program requires exactly the same procedures as admission to the Graduate College. See Graduate College section in the catalog.

Registration

Students choosing to receive their degree from Iowa State University complete all the admissions, registration and fee payment processes through ISU.

Courses primarily for graduate students, open to qualified undergraduates:

FFP 520. Family Systems.

(3-0) Cr. 3. F.S.SS.

Research and theory related to family functioning throughout the life cycle, especially financial decision making during crisis and conflict. Emphasis on factors that shape family values, attitudes, and behaviors from a multicultural perspective. New and emerging issues critical to family functioning are addressed.

FFP 525. Family Economics.

(3-0) Cr. 3. F.S.SS.

Major issues related to the economics of families including household production, and human capital development; the economics of crises, public policy and family life cycle spending, saving and borrowing; new and emerging issues in the field of family economics; special attention to the role of ethics in family economic issues. A theoretical and research perspective are used to illuminate the concepts in the course.

FFP 530. Fundamentals of Family Financial Planning.

(3-0) Cr. 3. F.S.SS.

The nature and functioning of financial systems, including currencies, markets, monetary and fiscal policy, and supply/demand for land, labor, and capital. Focus is on the impact of global financial interdependence on individuals and families in the U.S. Current and emerging issues, as well as current research and theory relative to financial systems.

FFP 535. Financial Counseling.

(3-0) Cr. 3. F.S.SS.

Theory and research regarding the interactive process between the client and the practitioner, including communication techniques, motivation and esteem building, the counseling environment, ethics, and methods of data intake, verification, and analysis. Other topics include legal issues, compensation, uses of technology to identify resources, information management, and current or emerging issues.

FFP 540. Estate Planning for Families.

(3-0) Cr. 3. F.S.SS.

Fundamentals of the estate planning process, including estate settlement, estate and gift taxes, property ownership and transfer, and powers of appointment. Tools and techniques used in implementing an effective estate plan, ethical considerations used in providing estate planning services, and new and emerging issues in the field. Case studies provide experience in developing estate plans suitable for varied family forms.

FFP 541. Housing and Real Estate in Family Financial Planning.

(Cross-listed with HD FS). (3-0) Cr. 3. Alt. SS., offered even-numbered years.

The role of housing and real estate in the family financial planning process, including taxation, mortgages, financial calculations, legal concerns, and ethical issues related to home ownership and real estate investments. Emphasis on emerging issues in the context of housing and real estate. (on-line course offering via Distance Education).

FFP 545. Retirement Planning, Employee Benefits, and the Family.

(3-0) Cr. 3. F.S.SS.

Study of micro and macro considerations for retirement planning. Survey of various types of retirement plans, ethical considerations in providing retirement planning services, assessing and forecasting financial needs in retirement, and integration of retirement plans with government benefits.

FFP 550. Military Personal Financial Readiness.

(3-0) Cr. 3. F.SS.

Overview of the topics relevant to the financial planning process that address the unique needs of military service members and their families.

FFP 555. Insurance Planning for Families.

(3-0) Cr. 3. F.S.SS.

In-depth study of risk management concepts, tools, and strategies for individuals and families, including life insurance; property and casualty insurance; liability insurance; accident, disability, health, and long-term care insurance; and government-subsidized programs. Current and emerging issues and ethical considerations relative to risk management. Case studies provide experience in selecting insurance products suitable for individuals and family study of investment options for clients, including common stocks, fixed income securities, convertible securities, and related choices. Relationships between investment options and employee/employer benefit plan choices. Current and emerging issues and ethics are included.

FFP 565. Personal Income Taxation.

(3-0) Cr. 3. F.S.SS.

In-depth information on income tax practices and procedures including tax regulations, tax return preparation, the tax audit processes, the appeals process, preparation for an administrative or judicial forum, and ethical considerations of taxation. New and emerging issues related to taxation. Family/individual case studies provide practice in applying and analyzing tax information and recommending appropriate tax strategies.

FFP 570. Professional Practices in Financial Planning.

(3-0) Cr. 3. F.S.SS.

Challenges of managing financial planning practices including, but not limited to: business valuation, personnel, marketing, client services, ethics and technological applications. Relying both on a theoretical as well as an applied approach, students analyze case studies that provide relevant, practical exposure to practice management issues, with a strong emphasis on current research findings.

FFP 583. Investing for the Family's Future.

(Cross-listed with HD FS). (3-0) Cr. 3. F. Prereq: HD FS 483

Evaluation of investment markets for the household. Analysis of how families choose where to put their savings. Emphasis is on using the family's overall financial and economic goals to help inform investment choices. (on-line course offering via Distance Education).

FFP 591. Practicum.

Cr. 3-6. F.S.SS.

Supervised experience in family financial planning.

FFP 595. Financial Planning - Case Studies.

(3-0) Cr. 3. F.S.SS. Prereq: FFP 530, FFP 540, FFP 545, FFP 555, FFP 565, FFP 583

Professional issues in financial planning, including ethical considerations, regulation and certification requirements, communication skills, and professional responsibility. Students are expected to utilize skills obtained in other courses and work experiences in the completion of personal finance case studies, the development of a targeted investment policy, and other related financial planning assignments.

Food Science (H SCI)

Curriculum in Food Science

Administered by the Department of Food Science and Human Nutrition

Students select one of the following options and complete all requirements for that option: food science and technology option, food science and industry option, or consumer food science option. Courses listed below are required for all of the options, except where specified by option below.

Total Degree Requirement: 120 cr.

Students must fulfill International Perspectives and U.S. Diversity requirements by selecting coursework from approved lists. These courses may also be used to fulfill other area requirements. Only 65 cr. from a two-year institution may apply to the degree which may include up to 16 technical cr.; 9 P-NP cr. of electives; 2.00 minimum GPA.

International Perspectives: 3 cr.**U.S. Diversity: 3 cr.****Communications and Library: 13 cr.**

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
LIB 160	Information Literacy	1
SP CM 212	Fundamentals of Public Speaking	3
TSM 115	Solving Technology Problems	3
Total Credits		13

Humanities and Social Sciences: 6-12 cr.

Select Humanities course from approved list	3
ECON 101 Principles of Microeconomics	3
If H Sci student, select:	6
Additional Humanities course	
Additional Humanities or Social Science course	

Ethics and Environmental: 3-6 cr.

FS HN 342 World Food Issues: Past and Present	3
If AgLS student, select from:	2-3

ENV S 120 Introduction to Renewable Resources

ENV S 201 Introduction to Environmental Issues

Mathematical Sciences: 7-12 cr.**Food science and technology option:**

Select from: 8

MATH 165 Calculus I
& MATH 166 and Calculus II

or

MATH 181 Calculus and Mathematical Modeling for the Life
& MATH 182 Sciences I
and Calculus and Mathematical Modeling for the Life
Sciences II

Select at least 3 credits from: 3-4

STAT 101 Principles of Statistics

STAT 104 Introduction to Statistics

STAT 105 Introduction to Statistics for Engineers

Total Credits 11-12

Food science and industry option, and consumer food science option:

Select at least 4 credits from: 4

MATH 160 Survey of Calculus

MATH 165 Calculus I

MATH 181 Calculus and Mathematical Modeling for the Life
Sciences I

Select at least 3 credits from: 3-4

STAT 101 Principles of Statistics

STAT 104 Introduction to Statistics

STAT 105 Introduction to Statistics for Engineers

Total Credits 7-8

Physical Sciences: 13-25 cr.**Food science and technology option:**

CHEM 177 General Chemistry I 4

CHEM 177L Laboratory in General Chemistry I 1

CHEM 178 General Chemistry II 3

CHEM 331 Organic Chemistry I 3

CHEM 331L Laboratory in Organic Chemistry I 1

CHEM 332 Organic Chemistry II 3

PHYS 111 General Physics 5

PHYS 112 General Physics 5

Total Credits 25

Food science and industry option, and consumer food science option:

Select from: 5-8

CHEM 163 College Chemistry
& 163L and Laboratory in College ChemistryCHEM 177 General Chemistry I
& 177L and Laboratory in General Chemistry I
& CHEM 178 and General Chemistry II

CHEM 231 Elementary Organic Chemistry 3

CHEM 231L Laboratory in Elementary Organic Chemistry 1

PHYS 115 Physics for the Life Sciences 4-5

or PHYS 111 General Physics

Total Credits 13-17

Biological Sciences: 12-13 cr.**Food science and technology option:**

BBMB 301 Survey of Biochemistry 3

BIOL 211 Principles of Biology I 3

BIOL 212 Principles of Biology II 3

MICRO 302 Biology of Microorganisms 3

MICRO 302L	Microbiology Laboratory	1
Total Credits		13

Food science and industry option, and consumer food science option:

BBMB 301	Survey of Biochemistry	3
BIOL 211	Principles of Biology I	3
BIOL 212	Principles of Biology II	3
MICRO 201	Introduction to Microbiology	2-3
or MICRO 302	Biology of Microorganisms	
MICRO 201L	Introductory Microbiology Laboratory	1
or MICRO 302L	Microbiology Laboratory	
Total Credits		12-13

Food Science and Human Nutrition: 43-44 cr.

FS HN 101	Food and the Consumer	3
FS HN 110	Professional and Educational Preparation	1
FS HN 167	Introduction to Human Nutrition	3
FS HN 203	Contemporary Issues in Food Science and Human Nutrition	1
FS HN 311	Food Chemistry	3
FS HN 311L	Food Chemistry Laboratory	1
FS HN 351	Introduction to Food Engineering Concepts	3
FS HN 403	Food Laws, Regulations, and the Regulatory Process	2
FS HN 405	Food Quality Assurance	3
FS HN 406	Sensory Evaluation of Food	3
FS HN 410	Food Analysis	3
FS HN 411	Food Ingredient Interactions and Formulations	2
FS HN 412	Food Product Development	3
FS HN 420	Food Microbiology	3
FS HN 471	Food Processing I	3
FS HN 480	Professional Communication in Food Science and Human Nutrition	1
For technology and industry options, 6 credits from:		
FS HN 421	Food Microbiology Laboratory	
FS HN 472	Food Processing II	
For consumer option, select 5-6 credits from:		5-6
FS HN 214	Scientific Study of Food	
& FS HN 215	and Advanced Food Preparation Laboratory	
FS HN 265	Nutrition for Active and Healthy Lifestyles	
FS HN 421	Food Microbiology Laboratory	
FS HN 472	Food Processing II	
Total Credits		43-44

Food science and industry option:

Select 6 credits from the following business courses:		6
ACCT 215	Legal Environment of Business	
ACCT 284	Financial Accounting	
ACCT 285	Managerial Accounting	
ECON 301	Intermediate Microeconomics	
ECON 320	Labor Economics	
MGMT 310	Entrepreneurship and Innovation	
MGMT 370	Management of Organizations	
MGMT 371	Organizational Behavior	
MGMT 414	International Management	
MGMT 472	Management of Diversity	
MKT 340	Principles of Marketing	
MKT 447	Consumer Behavior	
MKT 448	Global Marketing	
Total Credits		6

Consumer food science option:

Select 6 credits from the following consumer-focused courses:		6
FS HN 308	Dairy Products: Current Issues and Controversies	
P R 220	Principles of Public Relations	

P R 305	Publicity Methods	
MKT 340	Principles of Marketing	
MKT 447	Consumer Behavior	
MKT 448	Global Marketing	
Total Credits		6

Electives: 3-19 cr. Select from any university coursework to earn at least 120 total credits.

Go to FS HN courses.

Food Science and Human Nutrition (H SCI)

The Department of Food Science and Human Nutrition is jointly administered by the College of Agriculture and Life Sciences and the College of Human Sciences. All curricula offered by the department are available to students in either college. These curricula include culinary science, dietetics, diet and exercise, food science, and nutritional science. Visit the department web site at: www.fshn.hs.iastate.edu.

Undergraduate Study

Culinary science is an interdisciplinary degree combining a strong food science foundation with acquisition of culinary skills. The program includes chemistry, organic chemistry, biology, microbiology, and biochemistry as well as quantity food production, fine dining management, and food safety and sanitation. Internship experience in the food industry or culinary business is required. Culinary science graduates are qualified to work as managers and specialists in food research, product development, culinary applications, and food marketing and sales.

The Didactic Program in Dietetics (DPD) is accredited by the Accreditation Council for Education in Nutrition and Dietetics, the accrediting agency of the Academy of Nutrition and Dietetics. The dietetics undergraduate curriculum meets the academic requirements as the DPD. Additionally, the curriculum for concurrent Bachelor's and Master's degrees in diet and exercise meets the academic requirements of the DPD. Graduates of the program are eligible to apply for admission to accredited dietetics internships/supervised practice programs. Upon successful completion of the experience program, graduates are eligible to take the national examination administered by the Commission on Dietetic Registration to become a Registered Dietitian (R.D.) and to practice in the field of dietetics. There is a \$30 fee for a statement of verification of completion of the DPD. For information about verification statements provided to non-ISU students or students with degrees from international universities, see the departmental website: www.fshn.hs.iastate.edu.

Students interested in pursuing the dietetics program enter the university designated as pre-dietetics students. During spring semester of the second year, interested students apply to the Didactic Program in Dietetics. Admission to the program is based on overall GPA (3.0 or above required), completion of required coursework, completion of application and demonstrated interest in becoming a registered dietitian. Upon admission, students progress toward earning a Bachelor of Science degree in dietetics and receive a Verification Statement upon graduation, which is needed to enter an accredited dietetics internship. The dietetics program includes study in basic sciences, nutrition, and food science with applications to medical dietetics, nutrition counseling and education, and community nutrition. Foodservice management is also an important aspect of the program. Graduates work in clinical settings, consulting, food companies, food services, sports or athletic programs, corporate wellness programs, care facilities for patients from neonatal to geriatric, and community or school health programs.

A program for concurrent Bachelor of Science and Master of Science (BS/MS) degrees in diet and exercise is available. The program is jointly administered by the Department of Food Science and Human Nutrition (FS HN), within the College of Agriculture and Life Sciences and College of Human Sciences, and the Department of Kinesiology within the College of Human Sciences. Students interested in this program enroll as pre-diet and exercise students. In the fall of the third year, students apply for admission to the BS/MS program. Students not accepted into the program can continue toward completion of the BS degree in dietetics or kinesiology and health. Coursework has been designed to facilitate a 4-year graduation date for those students not accepted into the program and electing to complete a single undergraduate degree. Students accepted into the program will progress toward completion of BS/MS degrees in diet and exercise.

Food science is a discipline in which the principles of biological and physical sciences are used to study the nature of foods, the causes of their deterioration, and the principles underlying the processing and preparation of food. It is the application of science and technology to the provision of a safe, wholesome, and nutritious food supply. Biotechnology and toxicology interrelate with food science in the area of food safety. In the food industry, food scientists work in research

and development of products or processes, production supervision, quality control, marketing and sales, test kitchens and recipe development, product promotion and communication. Food scientists also work in government regulatory agencies and academic institutions.

Three options are available in food science: food science and technology, food science and industry, and consumer food science. The food science and technology and food science and industry options are approved by the Institute of Food Technologists, the national professional organization of food science. Career options include quality control/assurance; production supervision; management and sales; research careers in the food industry, government, or academia; business; journalism; food product formulation and recipe development; food promotion and communication; and consumer services in government and industry. Students who have an interest in graduate study or research are encouraged to select the food science and technology option. Students who wish to combine education in engineering with food science may select additional courses in chemical or agricultural engineering. Double majors are available and may require an additional year.

Students in food science have the opportunity to pursue a Master of Business Administration (MBA) concurrently with the Bachelor of Science (BS) degree in food science. The program is designed so students can earn both the BS in food science and MBA in five years, to meet the needs of students who are interested in management careers in the food industry. Students apply for admission to the MBA program in the spring of the third year. The program for concurrent BS in food science/MBA degrees is a rigorous 5-year program, and admission is very selective. Visit the MBA web site at: www.business.iastate.edu/masters/mba/collaborative-mba-programs.

Nutritional science offers two options: pre-health professional & research and nutrition & wellness. The pre-health professional & research option can serve as a pre-professional program for medicine, dentistry, veterinary medicine, or for graduate study in nutrition or other biological sciences. Students in the pre-health professional & research option gain a strong basic science education along with human nutrition expertise that enables them to attain the knowledge and skills necessary to work in research laboratories of colleges and universities, government agencies, industries, and foundations. Students in the nutrition & wellness option will learn about the role of nutrition and healthy eating for disease prevention and wellness with an emphasis on nutrition education for the public and community agencies as well as effective program planning and evaluation. Graduates will be prepared for employment opportunities in community and state agencies, nonprofit organizations and health promotion enterprises, or public health and related programs.

Students graduating with degrees in culinary science, dietetics, diet and exercise, food science, or nutritional science will be able to: 1) demonstrate a high level of technical competence in their chosen field, perform successfully in a graduate program, supervised practice program or entry-level professional position; 2) communicate effectively as professionals; 3) successfully solve complex problems on their own and as members of a team; 4) correctly interpret and critically evaluate research literature as well as data from professional practice; 5) critically evaluate information related to food science and nutrition issues appearing in the popular press; 6) prepare and deliver effective presentations, orally and in writing, of technical information to professionals and to the general public; 7) thoughtfully discuss ethical, social, multicultural, and environmental dimensions of issues facing professionals in their chosen field.

Communication Proficiency is certified by a grade of C or better in 6 credits of coursework in composition (ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition or other communication-intensive courses) and a grade of C or better in 3 credits of coursework in oral communication.

Minors

The department offers coursework for minors in culinary science, food science, and nutrition and participates in the interdepartmental minor in food safety. See department office or departmental website for more information about minors: <http://www.fshn.hs.iastate.edu/undergraduate-programs/minors/>.

The Interdepartmental food safety minor is designed to provide undergraduate students with exposure to the principles of food safety to complement their current major and offer new opportunities for their future careers. Depending on the student's major, the minor enhances the student's expertise in food safety issues pertinent to the student's major. Student learning outcomes include: awareness of food safety issues as they appear in each step of the food chain; ability to analyze a situation, identify food safety problems, use resources to gain additional information; develop a procedure or solution to identified problems; examine proposed solutions for viability and effectiveness; and to be able to speak and write about food safety issues. Graduates with a food safety minor are better prepared for employment in agricultural, medical, and veterinary medical agencies and with state, national and international businesses. The food

safety minor requires 15 credits of coursework with 9 credits from 3 core courses and elective courses to supplement the training in the minor. See approved list for minor courses from departmental website: <http://www.fshn.hs.iastate.edu/undergraduate-programs/minors/>.

Postbaccalaureate Program

The Iowa State University Dietetics Internship (DI) began as an AP4 program in 1989. It meets the performance requirements for experience programs for students who have completed the academic requirements of the Academy of Nutrition and Dietetics. The internship is administered through the Department of Food Science and Human Nutrition. Interns are admitted to Iowa State University as graduate students seeking a "Graduate Certificate in Dietetics Internship" which will be indicated on the final transcript. Successful completion of this program will result in the receipt of the DI Verification Statement which establishes eligibility to sit for the national standardized exam administered by the Commission on Dietetic Registration (CDR). Successful completion of the exam results in the Registered Dietitian (RD) credential. For more information, visit the website at www.dietetics.iastate.edu. There is a nonrefundable application fee of \$75.

Graduate Study

The Food Science and Human Nutrition (FSHN) Department offers coursework for the degrees master of science and doctor of philosophy with majors in food science and technology and in nutritional sciences, and minors in food science and technology and in nutrition. Graduate work in meat science is offered as a co-major in animal science and food science and technology.

Prerequisite to major work is a baccalaureate degree in food science, nutrition, or other physical or biological sciences or engineering that is substantially equivalent to those at Iowa State University.

Students taking major work for the degree doctor of philosophy either in food science and technology or in nutritional sciences may choose minors from other fields including anthropology, biorenewable resources and technology, chemistry, biochemistry, economics, education, journalism, microbiology, psychology, physiology, statistics, toxicology, or other related fields.

The interdepartmental graduate program in nutritional sciences, administered through the Graduate College, under the auspices of the Chairs of FSHN and Animal Science, will provide the structure for coordinating and enhancing interdisciplinary nutrition research and graduate education. Graduate students will be able to select from three specializations: animal nutrition, human nutrition, or molecular/biochemical nutrition. The two main departments are FSHN and Animal Science, whereas other departments (such as Kinesiology; Biochemistry, Biophysics, and Molecular Biology; Agronomy; and Statistics) may also be involved. (See Nutritional Sciences interdepartmental graduate major.)

The department offers an online 12-credit Graduate Certificate in Food Safety and Defense, in conjunction with the University of Nebraska, Lincoln, Kansas State University and the University of Missouri through the Great Plains Interactive Distance Education Alliance. Students eligible for admission to the food science master's degree program may be admitted.

The department participates in an online Master of Family and Consumer Sciences/Dietetics in conjunction with Colorado State University, Kansas State University, North Dakota State University, Oklahoma State University, South Dakota State University, University of Kansas Medical Center, and University of Nebraska through the Great Plains Interactive Distance Education Alliance. Students who are registered dietitians and are eligible for admission to the FSHN Master's degree program may be admitted.

The department offers work for concurrent B.S. and M.S. degree programs that allow students to obtain both the B.S. and M.S. degrees in 5 years. The programs are available to students majoring in nutritional science or pre-diet and exercise, and students progress toward M.S. degrees in nutritional sciences or diet and exercise, respectively. Students interested in these programs should contact the department for details. Application for admission to the Graduate College should be made during the junior year. Students begin research for the M.S. thesis or creative component during the summer after their junior year and are eligible for research assistantships.

Students graduating with advanced degrees in nutritional sciences and in food science and technology will demonstrate competency in their chosen discipline. Measurable outcomes will include the ability to: 1) design, conduct, and interpret research; 2) apply theoretical information to solve practical problems; 3) prepare and communicate discipline-specific information in written and oral forms to scientific and lay audiences; 4) facilitate learning in the classroom; 5) submit a paper for publication in a peer-reviewed journal; and 6) secure professional-level positions in academia, industry, government, or health care.

Courses primarily for undergraduates:

FS HN 101. Food and the Consumer.

(3-0) Cr. 3. F.S. *Prereq: High school biology and chemistry or 3 credits each of biology and chemistry*

The food system from point of harvest to the consumption of the food by the consumer. Properties of food constituents. Protection of food against deterioration and microbial contamination. Introduction of foods into the marketplace. Processes for making various foods. Government regulations. Use of food additives. Current and controversial topics. Electronic communication from web emphasized for class reports, notes and assignments.

FS HN 102. Nutrition for Sport Performance.

(1-0) Cr. 1. F.S.

Analysis of how the body uses nutrients for energy and how to select a balanced diet to meet specific athletic performance needs. Lecture and activities specific to students' interest. Offered on a satisfactory-fail basis only.

FS HN 104. Introduction to Professional Skills in Culinary Science.

(0-6) Cr. 1. S.

Introduction to culinary science. Students will develop fundamental culinary skills by arranged on-campus work experience (100 hours). Sessions with instructor arranged.

FS HN 110. Professional and Educational Preparation.

(1-0) Cr. 1. F.S.

Introduction to professional and educational development within the food science and human nutrition disciplines. Focus is on university and career acclimation, enhancement of communication skills, and portfolio development. Offered on a satisfactory-fail basis only.

FS HN 111. Fundamentals of Food Preparation.

(2-0) Cr. 2. F.S. *Prereq: FS HN 101 or FS HN 167; high school chemistry or CHEM 160; concurrent enrollment in FSHN 115.*

Principles involved in preparation of food products of standard quality. Influence of composition and techniques on properties of food products.

FS HN 112. Orientation to Learning and Productive Team Membership.

(Cross-listed with AER E, CON E, HORT, NREM). (2-0) Cr. 2. F.

Introduction to developing intentional learners and worthy team members. Learning as the foundation of human enterprise; intellectual curiosity; ethics as a personal responsibility; everyday leadership; effective team and community interactions including team learning and the effects on individuals; and growth through understanding self, demonstrating ownership of own learning, and internalizing commitment to helping others. Intentional mental processing as a means of enhancing learning. Interconnectedness of the individual, the community, and the world.

FS HN 114. Developing Responsible Learners and Effective Leaders.

(Cross-listed with CON E, HORT, NREM). (2-0) Cr. 2. S. *Prereq: Hort 112 or NREM 112*

Focus on team and community. Application of fundamentals of human learning; evidence of development as a responsible learner; intentional mental processing as a habit of mind; planning and facilitating learning opportunities for others; responsibility of the individual to the community and the world; leading from within; holding self and others accountable for growth and development as learners and leaders.

FS HN 115. Food Preparation Laboratory.

(0-3) Cr. 1. F.S. *Prereq: Credit or enrollment in FS HN 111 or FS HN 214*

Practice standard methods of food preparation with emphasis on quality, nutrient retention, and safety.

FS HN 167. Introduction to Human Nutrition.

(3-0) Cr. 3. F.S.SS. *Prereq: High school biology or 3 credits of biology*

Understanding and implementing present day knowledge of nutrition. The role of nutrition in the health and well being of the individual and family.

FS HN 203. Contemporary Issues in Food Science and Human Nutrition.

(1-0) Cr. 1. F.S.

Introduction to published research and discussion of current issues in food science and human nutrition. Emphasis on sources of credible information, ethics, communication and portfolio development.

FS HN 214. Scientific Study of Food.

(3-0) Cr. 3. F.S. *Prereq: FS HN 167 or FS HN 265; CHEM 231 or CHEM 331; plus concurrent enrollment in FS HN 115 or 215*

Composition and structure of foods. Principles of preparation of standard quality food products. Behavior and interactions of food constituents.

FS HN 215. Advanced Food Preparation Laboratory.

(0-6) Cr. 2. F.S. *Prereq: Credit or enrollment in FS HN 214*

Practice standard methods of food preparation with emphasis on quality, nutrient retention, and safety. Development of culinary skills and advanced food preparation.

FS HN 242. Societal Impacts on Food Systems.

(3-0) Cr. 3. S.

Description of food systems from farming practices to global marketing. Exploration of the impacts of food system choices on personal health, the environment and global society.

FS HN 262. Special Topics in Health Professions.

(1-0) Cr. 1. F.

Careers and controversies in nutritional science. Discussion of current topics in health professions involving nutrition, such as "low-carb" diets, supplements for athletic performance, "food and mood," interviews with health professionals on how they use nutrition concepts in practice.

FS HN 264. Fundamentals of Nutritional Biochemistry and Metabolism.

(3-0) Cr. 3. F. *Prereq: FS HN 167; CHEM 163, CHEM 163L; BIOL 211*

Digestion, absorption, metabolism, and biochemical functions of nutrients. Biochemical aspects of nutrient deficiencies.

FS HN 265. Nutrition for Active and Healthy Lifestyles.

(3-0) Cr. 3. S. *Prereq: FS HN 167, plus credit or enrollment in BBMB 301 or credit in FS HN 264*

Fundamentals of nutrient metabolism and nutrient requirements. Role of macronutrient metabolism in physical performance and disease prevention. Effect of manipulation of macronutrient metabolism on physical performance and disease prevention. Applications of nutrient metabolism principles to dietary recommendations and planning.

FS HN 308. Dairy Products: Current Issues and Controversies.

(3-0) Cr. 3. S.

Course will address milk chemistry, microbiology, handling, processing, regulations, organic production, and nutrition; dispel myths about dairy foods; improve critical thinking and communication skills. Students will participate in structured controversies and debate.

FS HN 311. Food Chemistry.

(3-0) Cr. 3. F. *Prereq: TSM 115, CHEM 231 and CHEM 231L or CHEM 331 and CHEM 331L; credit or enrollment in BBMB 301*

The structure, properties, and chemistry of food constituents and animal and plant commodities.

FS HN 311L. Food Chemistry Laboratory.

(0-3) Cr. 1. F. *Prereq: Credit or concurrent enrollment in FSHN 311.*

The laboratory practices of structure, properties, and chemistry of food constituents.

FS HN 314. Foundations of Culinary Science.

(1-0) Cr. 1. S. *Prereq: FSHN 104 or concurrent enrollment in FSHN 104.*

Introduction to the roles culinary scientists hold within industry including product development, research, and quality assurance. Discussions focused on professional and educational development, enhancement of communication skills, ethics and emerging issues and trends in culinary science.

FS HN 340. Foundations of Dietetic Practice.

(1-0) Cr. 1. F. *Prereq: Junior classification*

Introduction to the profession of dietetics and responsibilities associated with dietetic professional practice. Emphasis on development of a pre-professional portfolio, career options in dietetics and preparation for a dietetic internship. Leadership and professional career development for the dietitian is addressed through self reflection, creation of materials for post-baccalaureate programs and job shadowing experience. Professional issues related to dietetic practice include Code of Ethics, legal credentialing and standards of professional practice, leadership and future trends in the profession. Offered on a satisfactory-fail basis only.

FS HN 342. World Food Issues: Past and Present.

(Cross-listed with AGRON, ENV S, T SC). (3-0) Cr. 3. F.S. *Prereq: Junior classification*

Issues in the agricultural and food systems of the developed and developing world. Emphasis on economic, social, historical, ethical and environmental contexts. Causes and consequences of overnutrition/undernutrition, poverty, hunger and access/distribution. Explorations of current issues and ideas for the future. Team projects. Meets International Perspectives Requirement.

FS HN 342H. World Food Issues: Past and Present (Honors).

(3-0) Cr. 3. F.S. *Prereq: Junior classification*

Issues in the agricultural and food systems of the developed and developing world. Emphasis on economic, social, historical, ethical and environmental contexts. Causes and consequences of overnutrition/undernutrition, poverty, hunger and access/distribution. Explorations of current issues and ideas for the future. Team projects. Meets International Perspectives Requirement.

FS HN 351. Introduction to Food Engineering Concepts.

(3-0) Cr. 3. S. *Prereq:* A course in calculus and physics (PHYS 111 or PHYS 115) Methodology for solving problems in food processing and introduction to food engineering concepts including food properties, material and energy balances, sources of energy, thermodynamics, fluid flow, heat transfer, and mass transfer. Only one of 351 or A E 451 and CH E 357 allowed toward graduation. Field trip.

FS HN 360. Advanced Human Nutrition and Metabolism.

(3-0) Cr. 3. F. *Prereq:* FS HN 265, 3 credits in biochemistry; 3 credits in physiology recommended

Physiological and biochemical basis for nutrient needs; assessment of nutrient deficiency and toxicity; examination of nutrient functions and regulation of metabolism; nutrient-gene interactions.

FS HN 361. Nutrition and Health Assessment.

(1-3) Cr. 2. F.S. *Prereq:* FS HN 265; 3 credits in statistics; 3 credits in physiology recommended

The assessment of nutritional status in healthy individuals. Laboratory experiences in food composition and assessment of dietary intake, body composition, and biochemical indices of nutritional status.

FS HN 362. Nutrition in Growth and Development.

(3-0) Cr. 3. S. *Prereq:* FS HN 360; credit or enrollment in a course in physiology

Nutrient needs throughout the life cycle. Interrelationships of genes, gene expression and nutrients with physiological outcomes during human development and aging.

FS HN 364. Nutrition and Prevention of Chronic Disease.

(3-0) Cr. 3. F. *Prereq:* BIOL 256, BIOL 256L or BIOL 306

Overview of nutrients, their functions, metabolism, food sources and optimal choices for the promotion of health and wellness. Nutrition strategies for the prevention of chronic disease, including cancer, diabetes and obesity, as they apply to individuals or the wider population will be discussed.

FS HN 365. Obesity and Weight Management.

(3-0) Cr. 3. S. *Prereq:* BIOL 256 and BIOL 256L, or BIOL 306

Multifactorial aspects of obesity, maintenance of healthy weight, and the relationship of weight status and chronic disease prevention. Traditional and novel nutrition and exercise theories as well as current popular diet and exercise trends will be discussed.

FS HN 366. Communicating Nutrition Messages.

(3-0) Cr. 3. S. *Prereq:* FS HN 167 or FS HN 265

Theory and application of adult learning as it relates to the role of nutrition in health promotion and disease prevention. Discussion of nutrition education and interventions relative to the social-ecological model. Factors to consider in developing the nutrition education/intervention practicum experience using the social-ecological model. Focus on communication strategies for providing nutrition messages to diverse community audiences using various forms of media and outreach (print, radio, TV, newspaper, consumer publications, websites, community venues). Development of nutrition messages using various forms of media for a target population.

FS HN 367. Medical Terminology for Health Professionals.

(1-0) Cr. 1. S.

An independent course focused on medical terminology, abbreviations, and simple clinical mathematical calculations.

FS HN 403. Food Laws, Regulations, and the Regulatory Process.

(2-0) Cr. 2. S.S. *Prereq:* 3 credits in food science coursework at 200 level or above

Review of federal legislative and regulatory processes and documents related to food and food ingredients. Discussion of federal food safety programs, food distribution programs, related programs, and key agencies. Exploration of analogous State of Iowa processes, programs, and agencies.

FS HN 405. Food Quality Assurance.

(2-2) Cr. 3. S. *Prereq:* FS HN 214 or FS HN 311; STAT 101 or STAT 104

Basis of food quality control/assurance programs and establishment of decision-making processes using official (government and industry) instrumental, chemical, and sensory procedures. Statistical process and quality control procedures and their applications to various food systems. Development of hazard analysis procedures, specifications, grades, and standards.

FS HN 406. Sensory Evaluation of Food.

(Dual-listed with FS HN 506). (2-3) Cr. 3. F. *Prereq:* FS HN 214 or FS HN 311 or AN S 360; 3 credits in statistics

Sensory test methods and procedures used to evaluate the flavor, color and texture of foods. Relationships between sensory and instrumental measurements of color and texture. Acceptance and preference testing.

FS HN 407. Microbiological Safety of Foods of Animal Origins.

(Dual-listed with FS HN 507). (Cross-listed with MICRO). (3-0) Cr. 3. S. *Prereq:* MICRO 420

Examination of the various factors in the production of foods of animal origin, from animal production through processing, distribution and final consumption which contribute to the overall microbiological safety of the food. The two modules of this course will be 1) the procedures and processes which can affect the overall microbiological safety of the food, and 2) the Hazard Analysis Critical Control Point (HACCP) system.

FS HN 408. Dairy Products Evaluation.

(0-3) Cr. 1. F. *Prereq:* Permission of instructor

Experience in identifying quality defects in dairy products including milk, cottage cheese, cheddar cheese, strawberry yogurt, butter, and vanilla ice cream. Intensive training for the National Collegiate Dairy Products Evaluation competition and for dairy product evaluation in the food industry.

FS HN 410. Food Analysis.

(2-3) Cr. 3. S. *Prereq:* FS HN 214 or FS HN 311 or CHEM 211; TSM 115

An introduction to the theory and application of physical and chemical methods for determining the constituents of food. Modern separation and instrumental analysis. Use of food composition data bases.

FS HN 411. Food Ingredient Interactions and Formulations.

(1-3) Cr. 2. F.S. *Prereq:* FSHN 214 or FS HN 311 and FS HN 115, FS HN 215 or FS HN 311L.

Application of food science principles to ingredient substitutions in food products. Laboratory procedures for standard formulations and instrumental evaluation, with emphasis on problem-solving and critical thinking.

FS HN 412. Food Product Development.

(Dual-listed with FS HN 512). (1-6) Cr. 3. S. *Prereq:* FS HN 311 or FS HN 411, FSHN 471

Principles of developing consumer packaged food products. Application of skills gained in food chemistry, formulation, microbiology, and processing. Some pilot plant experiences. Electronic communication from web emphasized for class reports, notes and assignments.

FS HN 419. Foodborne Hazards.

(Cross-listed with MICRO, TOX). (3-0) Cr. 3. Alt. S., offered even-numbered years.

Prereq: MICRO 201 or MICRO 302, a course in biochemistry

Pathogenesis of human microbiological foodborne infections and intoxications, principles of toxicology, major classes of toxicants in the food supply, governmental regulation of foodborne hazards. Only one of FS HN 419 and FS HN 519 may count toward graduation.

FS HN 420. Food Microbiology.

(Cross-listed with MICRO, TOX). (3-0) Cr. 3. F. *Prereq:* MICRO 201 or MICRO 302

Effects of microbial growth in foods. Methods to control, detect, and enumerate microorganisms in food and water. Foodborne infections and intoxications.

FS HN 421. Food Microbiology Laboratory.

(Cross-listed with MICRO). (0-6) Cr. 3. F. *Prereq:* MICRO 201 or MICRO 302;

MICRO 201L or MICRO 302L. Credit or enrollment in FS HN/MICRO 420

Standard techniques used for the microbiological examination of foods. Independent and group projects on student-generated questions in food microbiology. Emphasis on oral and written communication and group interaction.

FS HN 429. Foodborne Toxicants.

(2-0) Cr. 2. Alt. F., offered odd-numbered years. *Prereq:* A course in biochemistry

Mechanisms of action, metabolism, sources, remediation or detoxification, risk assessment of major foodborne toxicants of current interest, design of HACCP plans for use in food industries targeting foodborne toxicants. Taught online only.

FS HN 461. Medical Nutrition and Disease I.

(4-0) Cr. 4. F. *Prereq:* FS HN 360, FS HN 361, FS HN 367; plus BIOL 256 and 256L or BIOL 306 or BIOL 335

(Dual-listed with NutrS 561) Pathophysiology of selected chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state.

FS HN 463. Community Nutrition.

(3-0) Cr. 3. F. *Prereq:* FS HN 265 or FS HN 360; FS HN 366 recommended

Dual-listed with NutrS 563. Survey of current public health nutrition problems among nutritionally vulnerable individuals and groups. Discussion of the multidimensional nature of those problems and of community programs addressing them. Grant writing as a means for funding community nutrition program development. Significant emphasis on written and oral communication at the lay and professional level. Field trip. Meets U.S. Diversity Requirement

FS HN 464. Medical Nutrition and Disease II.

(3-0) Cr. 3. S. *Prereq:* FS HN 360, FS HN 461; plus BIOL 256 and BIOL 256L or BIOL 306 or BIOL 335

(Dual-listed with NutrS 564) Pathophysiology of selected acute and chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state.

FS HN 466. Nutrition Counseling and Education Methods.

(Dual-listed with FS HN 566). (2-2) Cr. 3. F.S. *Prereq:* FS HN 361 and FS HN 362

Application of counseling and learning theories with individuals and groups in community and clinical settings. Includes discussion and experience in building rapport, assessment, diagnosis, intervention, monitoring, evaluation, and documentation. Literature review of specific counseling and learning theories.

FS HN 467. Molecular Basis of Nutrition in Disease Prevention.

(3-0) Cr. 3. S. *Prereq:* FS HN 360 or equivalent

Understanding the molecular basis for the role of diet in the development and prevention of common diseases such as diabetes, cancer, and vascular diseases. Translating this understanding into practical approaches for improving the health of individuals and populations.

FS HN 471. Food Processing I.

(Dual-listed with FS HN 571). (2-2) Cr. 3. F. *Prereq:* FS HN 351 or A E 451 or CH E 357; MICRO 201 or MICRO 302; CHEM 163 or CHEM 177.

Principles and applications of food processing by application of heat (blanching, pasteurization, canning, extrusion, evaporation and distillation, extrusion and dehydration) and by removal of heat (refrigeration and freezing). Emphasis on solving problems in laboratory and recitation sessions.

FS HN 472. Food Processing II.

(Dual-listed with FS HN 572). (2-3) Cr. 3. S. *Prereq:* FS HN 351 or A E 451 or CH E 357.

Principles and applications of food processing by biological (fermentation, enzymes) and nontraditional (high pressure, irradiation, pulsed electric field) preservation methods. Includes packaging, waste water treatment, and sanitation. Emphasis on solving problems in laboratory and recitation sessions.

FS HN 480. Professional Communication in Food Science and Human Nutrition.

(1-0) Cr. 1. F.S. *Prereq:* FS HN 203, senior classification in the department
Presentation of current topics using written and oral communication to a lay audience. Emphasis on communication skills for the profession.

FS HN 489. Issues in Food Safety.

(Cross-listed with AN S, HRI, VDPAM). (1-0) Cr. 1. S. *Prereq:* Credit or enrollment in FS HN 101 or FS HN 272 or HRI 233; FS HN 419 or FS HN 420; FS HN 403
Capstone seminar for the food safety minor. Case discussions and independent projects about safety issues in the food system from a multidisciplinary perspective.

FS HN 490. Independent Study.

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS. *Prereq:* Permission of instructor

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

FS HN 490A. Independent Study: Dietetics.

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS. *Prereq:* Permission of instructor

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

FS HN 490B. Independent Study: Food Science.

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS. *Prereq:* Permission of instructor

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

FS HN 490C. Independent Study: Nutrition.

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS. *Prereq:* Permission of instructor

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

FS HN 490D. Independent Study: International Experience.

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS. *Prereq:* Permission of instructor

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

FS HN 490E. Independent Study: Entrepreneurship.

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS. *Prereq:* Permission of instructor

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

FS HN 490H. Independent Study: Honors.

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS. *Prereq:* Permission of instructor

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

FS HN 491. Supervised Work Experience.

Cr. 1-4. Repeatable, maximum of 4 credits. F.S.SS. *Prereq:* Advance approval of instructor and adviser

Supervised off-campus work experience relevant to the academic major. Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

FS HN 491A. Supervised Work Experience: Dietetics.

Cr. 1-4. Repeatable, maximum of 4 credits. F.S.SS. *Prereq:* Advance approval of instructor and adviser

Supervised off-campus work experience relevant to the academic major. Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

FS HN 491B. Supervised Work Experience: Food Science.

Cr. 1-4. Repeatable, maximum of 4 credits. F.S.SS. *Prereq:* Advance approval of instructor and adviser

Supervised off-campus work experience relevant to the academic major. Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

FS HN 491C. Supervised Work Experience: Nutrition.

Cr. 1-4. Repeatable, maximum of 4 credits. F.S.SS. *Prereq:* Advance approval of instructor and adviser

Supervised off-campus work experience relevant to the academic major. Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

FS HN 491D. Supervised Work Experience: Culinary Science.

Cr. 1-4. Repeatable, maximum of 4 credits. F.S.SS. *Prereq:* Advance approval of instructor and adviser

Supervised off-campus work experience relevant to the academic major. Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

FS HN 492. Research Concepts in Human Nutrition.

(1-3) Cr. 2. F. *Prereq:* senior classification or permission of instructor; FS HN 360

Students will develop and implement research projects with faculty supervision, based on knowledge gained from nutrition, biology and chemistry courses.

Students will prepare a research proposal, conduct research and report results.

Students will gain appreciation for independent research and experience creative and innovative aspects of nutrition research.

FS HN 493. Food Preparation Workshop.

(1-3) Cr. 1-3.

Selected topics in food preparation including scientific principles, culture and culinary techniques. Variable format may include laboratory, recitation, and lecture. Offered on a satisfactory-fail basis only.

FS HN 495. Practicum.

(1-3) Cr. 2. F.S. *Prereq:* Senior classification in Nutritional Science-Nutrition and Wellness option or permission of instructor; FS HN 366; credit or enrollment in FS HN 463.

Service-learning in community activities. Students will develop, implement and assess a project that engages groups in learning and practicing concepts related to nutrition and wellness.

FS HN 496. Food Science and Human Nutrition Travel Course.

(Dual-listed with FS HN 596). Cr. 1-4. Repeatable. F.S.SS. *Prereq:* Permission of instructor

(One credit per week traveled and 1 credit for pre-departure class, if offered.)

Limited enrollment. Tour and study of food industry, culinary science, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students.

FS HN 496A. Food Science and Human Nutrition Travel Course: International travel.

(Dual-listed with FS HN 596A). Cr. 1-4. Repeatable. F.S.SS. *Prereq:* Permission of instructor

(One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students. Meets International Perspectives Requirement.

FS HN 496B. Food Science and Human Nutrition Travel Course: Domestic travel.

(Dual-listed with FS HN 596B). Cr. 1-4. Repeatable. F.S.SS. *Prereq:* Permission of instructor

(One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students.

FS HN 498. Cooperative Education.

Cr. R. Repeatable, maximum of 2 times. F.S.SS. *Prereq:* Permission of department chair.

Required for students completing professional work periods in a cooperative education program. Students must register prior to commencing each work period. Offered on a satisfactory-fail basis only.

FS HN 499. Undergraduate Research.

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS. *Prereq:* Permission of staff member with whom student proposes to work

Research under staff guidance. A maximum of 6 credits of FS HN 499 may be used toward graduation.

Courses primarily for graduate students, open to qualified undergraduates:**FS HN 505. Short Course in Food Science.**

Cr. arr. F.S.SS. *Prereq:* Permission of instructor

FS HN 506. Sensory Evaluation of Food.

(Dual-listed with FS HN 406). (2-3) Cr. 3. F. *Prereq:* FS HN 214 or FS HN 311 or AN S 360; 3 credits in statistics

Sensory test methods and procedures used to evaluate the flavor, color and texture of foods. Relationships between sensory and instrumental measurements of color and texture. Acceptance and preference testing.

FS HN 507. Microbiological Safety of Foods of Animal Origins.

(Dual-listed with FS HN 407). (Cross-listed with MICRO). (3-0) Cr. 3. S. *Prereq:* MICRO 420

Examination of the various factors in the production of foods of animal origin, from animal production through processing, distribution and final consumption which contribute to the overall microbiological safety of the food. The two modules of this course will be 1) the procedures and processes which can affect the overall microbiological safety of the food, and 2) the Hazard Analysis Critical Control Point (HACCP) system.

FS HN 511. Principles of Food Science-Chemistry.

(2-0) Cr. 2. S. *Prereq:* 3 credits in organic chemistry

Key principles and applications in the chemistry of food. This course is designed for graduate students with no previous food chemistry background.

FS HN 512. Food Product Development.

(Dual-listed with FS HN 412). (1-6) Cr. 3. S. *Prereq:* FS HN 311 or FS HN 411, FS HN 471

Principles of developing consumer packaged food products. Application of skills gained in food chemistry, formulation, microbiology, and processing. Some pilot plant experiences. Electronic communication from web emphasized for class reports, notes and assignments.

FS HN 513. Principles of Food Science-Processing.

(2-0) Cr. 2. S. *Prereq:* 3 credits each in physics and mathematics.

Key principles and applications in the processing of food. This course is designed for graduate students with no previous food processing background.

FS HN 514. Principles of Food Science-Microbiology.

(2-0) Cr. 2-1. S. *Prereq:* 3 credits each in microbiology and organic chemistry

Key principles and applications in the microbiology of food. This course is designed for graduate students with no previous food microbiology background.

FS HN 515. Regulatory Toxicology.

(Cross-listed with TOX). (1-0) Cr. 1. Alt. F., offered even-numbered years. *Prereq:* BBMB 404 or FSHN 403

Survey of approaches used by toxicologists in government and industry for generating, enforcing and complying with laws and regulations. Examine policies from multiple regulatory agencies and how risk-based decisions are made. Perform simple risk assessments and suggest ways of dealing with data gaps. Explore new types of data used in risk assessments. Taught online only.

FS HN 519. Food Toxicology.

(Cross-listed with NUTRS, TOX). (3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* A course in biochemistry

Basic principles of toxicology. Toxicants in the food supply; modes of action, toxicant defense systems, toxicant and nutrient interactions, risk assessment. Only one of FS HN 419 and FS HN 519 may count toward graduation.

FS HN 521. Microbiology of Food.

(2-0) Cr. 2. F.S.SS. *Prereq:* A course in microbiology with laboratory; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.

This course deals with the identification, enumeration, and characterization of bacteria, yeasts, and mold associated with foods and food processing. Effects of physical and chemical agents on micro-organisms will be studied. Microbiological problems in food spoilage, food preservation, food fermentation, and food-borne disease will be discussed. Offered online only.

FS HN 522. Advanced Food Microbiology and Biotechnology.

(2-0) Cr. 2. Alt. SS., offered odd-numbered years. *Prereq:* Food microbiology, a course in biochemistry; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.

This course will cover basic principles in biotechnology and applied food microbiology, including current topics of interest in food biotechnology. Students will be introduced to recombinant DNA techniques and how they are applied to genetically modify microorganisms, the use of nucleic acids as tools of rapid detection of microorganisms in foods, basic enzyme immobilization and downstream processing techniques, and regulatory aspects of food biotechnology. Offered online only.

FS HN 523. A Multidisciplinary Overview of Food Safety and Security.

(2-0) Cr. 2. F.S.SS. *Prereq:* A course in biology or chemistry; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.

Multidisciplinary food safety and security perspectives provided by numerous subject matter experts. Topics include food safety policy, ag bioterrorism, border security, animal ID, food defense and site security, risk analysis, crisis communication, epidemiology, HACCP, and more. Offered online only.

FS HN 524. Food Microbiology.

(3-0) Cr. 3. F. *Prereq:* A course in microbiology with laboratory; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.

Food Microbiology looks at the nature, physiology, and interactions of microorganisms in foods. The course is an introduction to food-borne diseases, the effect of food processing systems on the microflora of foods, principles of food preservation, food spoilage, and foods produced by microorganisms. Additionally, the course looks at food plant sanitation and criteria for establishing microbial standards for food products. Offered online only.

FS HN 525. Principles of HACCP.

(2-0) Cr. 2. F.S. *Prereq:* Undergraduate biology and chemistry courses; enrollment in GP-IDEA Food Safety and Defense Certificate or permission of instructor.

A comprehensive study of the Hazard Analysis and Critical Control Point System and its application in the food industry. Offered online only.

FS HN 526. Ethnic Foods: Food Safety, Food Protection and Defense.

(2-0) Cr. 2. SS. *Prereq:* Graduate standing; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.

Understanding of the various factors that impact safety of ethnic and imported ethnic foods; knowledge about the handling, preparation, processing and storage of ethnic and imported foods and food products; science-based characterization of representative ethnic foods. Offered online only.

FS HN 527. Microbiology of Fermented Foods.

(2-0) Cr. 2. SS. *Prereq:* Food microbiology; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.

Microbiology of fermented foods covers the physiology, biochemistry, and genetics of microorganisms important in food fermentations. The course looks at how microorganisms are used in fermentations and the effects of processing and manufacturing conditions on production of fermented foods. Offered online only.

FS HN 528. Food Protection and Defense-Essential Concepts.

(2-0) Cr. 2. F.S.SS. *Prereq:* Enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.

This course will provide students with an understanding of the principles required in a food defense program for a food manufacturing, warehousing or distribution center. The topics covered include: defining threats and aggressors; the Bioterrorism Act; food defense teams; vulnerability assessments; security programs; recall and traceability basics; security inspections; crisis management; emergency preparedness; and workplace violence. Offered online only.

FS HN 529. Foodborne Toxicants.

(Cross-listed with TOX). (2-0) Cr. 2. F. *Prereq:* A course in biochemistry; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.

Mechanisms of action, metabolism, sources, remediation/detoxification, risk assessment of major foodborne toxicants of current interest, design of HACCP plans for use in food industries targeting foodborne toxicants, discussion of toxicants from a food defense perspective. Offered online only.

FS HN 542. Introduction to Molecular Biology Techniques.

(Cross-listed with B M S, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. *Prereq:* Graduate classification
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

FS HN 542A. Introduction to Molecular Biology Techniques: DNA Techniques.

(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. *Prereq:* Graduate classification
Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

FS HN 542C. Introduction to Molecular Biology Techniques: Cell Techniques.

(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S. *Prereq:* Graduate classification
Includes immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

FS HN 542D. Introduction to Molecular Biology Techniques: Plant Transformation.

(Cross-listed with B M S, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S. *Prereq:* Graduate classification
Includes Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

FS HN 542E. Introduction to Molecular Biology Techniques: Proteomics.

(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F. *Prereq:* Graduate classification
Includes two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

FS HN 542F. Introduction to Molecular Biology Techniques: Metabolomics.

(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F. *Prereq:* Graduate classification
Includes metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

FS HN 542G. Introduction to Molecular Biology Techniques: Genomic.

(Cross-listed with B M S, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S. *Prereq:* Graduate classification
Offered on a satisfactory-fail basis only.

FS HN 546. Classroom Strategies for Nutrition Education.

(2-2) Cr. 3. S. *Prereq:* HD FS 340 or HD FS 343 or HD FS 344 or KIN 312 or KIN 375 or H S 275 or H S 375 or FCEDS 306

Overview of education theories used in nutrition education. Discussion and skill building exercises to integrate various models and strategies into a variety of pre-K through 12 classroom settings. Discussion of picky eating, role modeling, family meals, and primary prevention efforts relative to eating disorders including body image and cultural criticism. Distance only.

FS HN 554. Dietetic Internship I.

(0-22) Cr. 5. S.SS.

For students enrolled in the Dietetic Internship program only. Supervised practice experience in operational management, medical nutrition therapy and community nutrition. Experiences and activities designed to meet accreditation standards.

FS HN 555. Dietetic Internship II.

(0-18) Cr. 4. F.S. *Prereq:* Concurrent enrollment or successful completion of FS HN 554

For students enrolled in the Dietetic Internship program only. Supervised practice experience in operational management, medical nutrition therapy and community nutrition. Experiences and activities designed to meet accreditation standards.

FS HN 556. Dietetic Internship III.

(0-22) Cr. 5. F.SS. *Prereq:* Concurrent enrollment or successful completion of FS HN 554 and FS HN 555

For students enrolled in the Dietetic Internship program only. Supervised practice experience in operational management, medical nutrition therapy and community nutrition. Experiences and activities designed to meet accreditation standards.

FS HN 566. Nutrition Counseling and Education Methods.

(Dual-listed with FS HN 466). (Cross-listed with DIET). (2-2) Cr. 3. F.S. *Prereq:* FS HN 361 and FS HN 362

Application of counseling and learning theories with individuals and groups in community and clinical settings. Includes discussion and experience in building rapport, assessment, diagnosis, intervention, monitoring, evaluation, and documentation. Literature review of specific counseling and learning theories.

FS HN 571. Food Processing I.

(Dual-listed with FS HN 471). (2-3) Cr. 3. F. *Prereq:* FS HN 351 or A E 451 or CH E 357; MICRO 201 or MICRO 302; CHEM 163 or CHEM 177.

Principles and applications of food processing by application of heat (blanching, pasteurization, canning, extrusion, evaporation and distillation, extrusion and dehydration) and by removal of heat (refrigeration and freezing). Emphasis on solving problems in laboratory and recitation sessions.

FS HN 572. Food Processing II.

(Dual-listed with FS HN 472). (2-3) Cr. 3. S. *Prereq:* FS HN 351 or A E 451 or CH E 357.

Principles and applications of food processing by biological (fermentation, enzymes) and nontraditional (high pressure, irradiation, pulsed electric field) preservation methods. Includes packaging, waste water treatment, and sanitation. Emphasis on solving problems in laboratory and recitation sessions.

FS HN 575. Processed Foods.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* FS HN 214 or FS HN 311; a course in nutrition

This course will examine effect of industrial and domestic food processing on the nutrient content of food and risk of developing chronic disease.

FS HN 580. Orientation to Food Science and Nutrition Research.

(1-0) Cr. 1. F.

Orientation to and discussion of research interests in food science and nutrition. Discussion of policy and ethical issues in the conduct of research. Intended for entering students in FS HN and related disciplines. Offered on a satisfactory-fail basis only.

FS HN 581. Seminar.

(1-0) Cr. 1. S.

Discussion and practice of oral presentation of scientific data in a professional setting. Discussion of issues related to data presentation. Offered on a satisfactory-fail basis only.

FS HN 590. Special Topics.

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

FS HN 590A. Special Topics: Nutrition.

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

FS HN 590B. Special Topics: Food Science.

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

FS HN 590C. Special Topics: Teaching.

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

FS HN 596. Food Science and Human Nutrition Travel Course.

Cr. 1-4. Repeatable. F.S.SS. *Prereq:* Permission of instructor
(One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students.

FS HN 596A. Food Science and Human Nutrition Travel Course: International travel.

(Dual-listed with FS HN 496A). Cr. 1-4. Repeatable. F.S.SS. *Prereq:* Permission of instructor

(One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students. Meets International Perspectives Requirement.

FS HN 596B. Food Science and Human Nutrition Travel Course: Domestic travel.

(Dual-listed with FS HN 496B). Cr. 1-4. Repeatable. F.S.SS. *Prereq:* Permission of instructor

(One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students.

FS HN 599. Creative Component.

Cr. arr.
Nonthesis option only.

Courses for graduate students:**FS HN 606. Instrumental Measurement of Food Quality.**

(2-3) Cr. 3. Alt. F., offered even-numbered years. *Prereq: FS HN 311 or FS HN 411 or FS HN 502 or BBMB 404*

Principles of instrumental measurements of color, aroma, flavor, texture, and rheology. Techniques and instrumentation for measuring the quality of foods; relationship of these methods to food color, taste, flavor, texture, and rheological quality. Application of methods to various foods and biorenewable materials.

FS HN 610. Food & Bioprocessing Enzymology.

(Cross-listed with BRT). (2-3) Cr. 3. Alt. F., offered even-numbered years. *Prereq: FS HN 311 or FS HN 411 or FS HN 502 or BBMB 404*

Properties and applications of industrial enzymes important in food, feed, and bioprocessing, including biofuels and bioproducts. Characterization of enzyme catalytic mechanisms, kinetics, isolation, mutagenesis, and operating conditions, including evaluation of substrates, products, immobilization, enzyme inhibitors, pH, pressure, and temperature.

FS HN 612. Lipid Chemistry and Applications.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq: FS HN 311 or FS HN 411 or FS HN 502 or BBMB 404*

Structure and analysis of lipids; glyceride structure; crystal form and texture; autoxidation and chemical modification; extraction, refining and processing; applications of fats and oils in food, biofuel and biobased products.

FS HN 613. Food Proteins.

(3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq: FS HN 311 or FS HN 411 or FS HN 502 or BBMB 404*

Properties of proteins found in milk, eggs, meat, legumes, and cereal grains. Effect of processing on food proteins.

FS HN 614. Carbohydrates: Structures, Properties, and Applications.

(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: FS HN 311 or FS HN 411 or FS HN 502 or BBMB 404*

Study of chemical structures and physical properties of carbohydrates, applications of carbohydrates in foods and as biomaterial, and changes they undergo during processing and storage.

FS HN 626. Advanced Food Microbiology.

(Cross-listed with MICRO, TOX). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: FS HN 420 or FS HN 421 or FS HN 504*

Topics of current interest in food microbiology, including new foodborne pathogens, rapid identification methods, effect of food properties and new preservation techniques on microbial growth, and mode of action of antimicrobials.

FS HN 627. Rapid Methods in Food Microbiology.

(Cross-listed with MICRO, TOX). (2-0) Cr. 2. Alt. S., offered even-numbered years. *Prereq: FS HN 420 or FS HN 421 or FS HN 504*

Provides an overview of rapid microbial detection methods for use in foods. Topics include historical aspects of rapid microbial detection, basic categories of rapid tests (phenotypic, genotypic, whole cell, etc.), existing commercial test formats and kits, automation in testing, sample preparation and "next generation" testing formats now in development.

FS HN 681. Seminar.

(1-0) Cr. 1. F.S.SS.
Presentation of thesis or dissertation research. May be taken once for M.S. program and twice for the Ph.D. program.

FS HN 682. Seminar Reflection.

Cr. R. Repeatable.
Active listening and critical thinking activities related to research seminars in food science and human nutrition. Required each semester for all FSHN graduate students except when presenting thesis or dissertation research seminar. Electronic documentation.

FS HN 690. Special Problems.

Cr. arr. Repeatable. F.S.SS. *Prereq: FS HN 502 or FS HN 503 or FS HN 504 or FS HN 553 or FS HN 554*

FS HN 695. Grant Proposal Writing.

(Cross-listed with NUTRS). (1-0) Cr. 1. F. *Prereq: 3 credits of graduate course work in food science and/or nutrition*
Grant proposal preparation experiences including writing and critiquing of proposals and budget planning. Formation of grant writing teams in food science and/or nutrition. Offered on a satisfactory-fail basis only.

FS HN 699. Research in Food Science and Technology.

Cr. arr. Repeatable. F.S.SS.
Offered on a satisfactory-fail basis only.

Gerontology

Interdepartmental Minor and Interinstitutional Program

The gerontology program is designed for students desiring careers in aging-related fields and for students interested in improving their understanding of aging persons in American society. Students are expected to take courses to develop the necessary interdisciplinary breadth which, in combination with other disciplinary training, can prepare them to work with older adults.

Graduates understand the ways in which individual and societal aging influence, and are impacted by, developments in their major field of study. They have an appreciation and understanding of the cross-disciplinary aspects of human aging.

Gerontology courses are offered in the interdepartmental gerontology program in the following participating departments and programs: Architecture; Biochemistry, Biophysics, and Molecular Biology; Economics; Apparel, Educational Studies, and Hospitality Management, Food Science and Human Nutrition; Kinesiology; Human Development and Family Studies; Political Science; Psychology; and Sociology.

Undergraduate Study

Undergraduate study in this program provides the student with an opportunity to develop a minor in gerontology. A balanced grouping of courses assists the student in developing both a sensitivity to the issues and the ability to synthesize ideas from the variety of disciplines important to the study of the aging process.

Minor

Undergraduate students may minor in gerontology by taking 16 semester hours of gerontology related courses. Nine of these credits must come from the following courses:

GERON 373	Death as a Part of Living	3
GERON 377	Aging and the Family	3
GERON 378	Retirement Planning and Employee Benefits	3
GERON 463	Environments for the Aging	3

Students will participate in a prepracticum seminar, GERON 466 Gerontology Prepracticum Seminar, and will complete a supervised field practicum after all gerontology coursework is completed (GERON 467 Gerontology Practicum). A minimum of 3 semester credits must be selected from a list of supportive gerontology related courses. Supportive courses include units or topics related to aging and can be used to complement the student's major interests. The student's minor program must be approved by the undergraduate gerontology coordinator.

Graduate Study

A declared graduate minor in gerontology consists of a minimum of 12 credits taken from a list of acceptable courses, and from at least two departments. Nine of the 12 credits must be in courses that are focused specifically on aging. One 590 course (3 credits maximum) can be taken as part of the 12 credits. GERON 510 Survey of Gerontology is required for all minor students. At least one member of the gerontology faculty will be on a student's advisory committee; this person must be a member of the Graduate Faculty. Contact the coordinator to determine whether courses other than those listed below are available.

Interinstitutional Program

Iowa State University offers a Master's degree in Family and Consumer Sciences with specialization in gerontology. This is an interinstitutional distance education program offered through the Web. The student selects the home institution, which grants the degree. After admission at the home institution, the student takes courses from each of the seven institutions: Iowa State University, Kansas State University, North Dakota State University, Oklahoma State University, Texas Tech University, the University of Arkansas, and the University of Missouri.

The master's degree consists of 36 semester hours, 24 of these hours are from the following courses:

GERON 530	Perspectives in Gerontology	3
GERON 534	Adult Development	3
GERON 540	Nutrition and Physical Activity in Aging	3
GERON 545	Economics, Public Policy, and Aging	3
GERON 563	Environments for the Aging	3
GERON 577	Aging in the Family Setting	3

GERON 584	Program Evaluation and Research Methods in Gerontology	3
GERON 594	Professional Seminar in Gerontology	3

The remaining 12 credits will include electives and specific courses needed to meet the requirements of the institution awarding the degree. Neither a thesis nor a creative component is required.

Gerontology Graduate Certificate Program

The 21-credit Graduate Certificate Program in Gerontology includes the following courses from the list of core courses:

GERON 530	Perspectives in Gerontology	3
GERON 534	Adult Development	3
GERON 540	Nutrition and Physical Activity in Aging	3
GERON 594	Professional Seminar in Gerontology	3

The additional six credits required for the certificate can be chosen from the remaining core courses or from other approved elective courses. A maximum of three credits of practicum also can be included in the elective credits.

Admission Procedures: Admission to the Gerontology Certificate Program requires exactly the same procedures as admission to the Graduate College. See Graduate College section of the catalog.

Registration: Students choosing to receive their degree from Iowa State University complete all the admissions, registration, and fee payment processes through ISU.

Courses primarily for undergraduates:

GERON 234. Adult Development and Aging.

(Cross-listed with HD FS). (3-0) Cr. 3. S. Prereq: HD FS 102
Introductory exploration of the health, individual and social factors associated with adult development including young adulthood, middle age and older adulthood. Information is presented from a life-span developmental framework.

GERON 373. Death as a Part of Living.

(Cross-listed with HD FS). (3-0) Cr. 3. F.S.Alt. SS., offered even-numbered years. Prereq: HD FS 102
Consideration of death in the life span of the individual and the family with opportunity for exploration of personal and societal attitudes.

GERON 377. Aging and the Family.

(Cross-listed with HD FS). (3-0) Cr. 3. F.Alt. SS., offered odd-numbered years. Prereq: HD FS 102
Interchanges of the aged and their families. Emphasis on role changes, social interaction, and independence as influenced by health, finances, life styles, and community development.
Meets U.S. Diversity Requirement

GERON 378. Retirement Planning and Employee Benefits.

(Cross-listed with ECON, HD FS). (3-0) Cr. 3. S. Prereq: 3 credits in Principles of Economics and 3 credits in Human Development and Family Studies
Economic well-being in the context of demographic change, the present and future of Social Security, family retirement needs analysis, investment strategies and characteristics of retirement plans, helping others to work towards financial security, family economic issues for retired persons. Overview of employee and retirement benefits.
Meets U.S. Diversity Requirement

GERON 414. Gerontechnology in Smart Home Environments.

(3-0) Cr. 3. F. Prereq: Com S 227 or (Com S 207 or Geron 377 or ArtGr 271) or equivalent.
An interdisciplinary course designed for students who are interested in assistive technology, pervasive computing, mobile computing and principles of universal and inclusive design for end users, in particular, the elderly population. Students will work in semester-long projects as interdisciplinary teams to apply knowledge obtained from lectures and mutual presentations. For graduate credit students are required to submit a research report and give an oral presentation.

GERON 415. Gerontechnology in Smart Home Environments.

(3-0) Cr. 3. F. Prereq: Com S 227 or (Com S 207 or Geron 377)
An interdisciplinary course designed for students who are interested in assistive technology, pervasive computing, mobile computing and principles of universal software design for end users, in particular the elderly population. Students will have the chance to learn both about the theories and principles about aging and assistive technology, as well as to engage in the practical semester-long project while working with students from other disciplines.

GERON 463. Environments for the Aging.

(Dual-listed with GERON 563). (Cross-listed with HD FS). (3-0) Cr. 3. S. Prereq: HD FS 360 or 3 credits in housing, architecture, interior design, rehabilitation, psychology, or human development and family studies
Emphasis on independent living within residential settings including specialized shelter, supportive services, and housing management. Application of criteria appropriate for accessibility and functional performance of activities; universal design principles. Creative project provides service learning opportunities.
Meets U.S. Diversity Requirement

GERON 466. Gerontology Prepracticum Seminar.

(1-0) Cr. 1. F.S.SS. Prereq: 9 credits in core courses for the gerontology minor and approval of the gerontology undergraduate coordinator
Prepracticum training for students planning a gerontology practicum. Exploration of possible agencies for the practicum, in-depth study of a selected agency, and development of goals and objectives for the practicum.

GERON 467. Gerontology Practicum.

Cr. 3-6. Repeatable. F.S.SS. Prereq: GERON 466, advance reservation
Supervised field experience related to aging. Offered on a satisfactory-fail basis only.

GERON 490. Independent Study.

Cr. arr.
Consult program coordinator for procedure.

Courses primarily for graduate students, open to qualified undergraduates:

GERON 501. Seminar.

Cr. arr. Repeatable. F.S.SS.

GERON 510. Survey of Gerontology.

Cr. 1-3. Repeatable. S.
Provides an overview of important gerontological issues.

GERON 514. Gerontechnology in Smart Home Environments.

(3-0) Cr. 3. F. Prereq: COM S 227 or (COM S 207 or GERON 377 or ARTGR 271) or equivalent.
An interdisciplinary course designed for students who are interested in assistive technology, pervasive computing, mobile computing and principles of universal and inclusive design for end users, in particular, the elderly population. Students will work in semester-long projects as interdisciplinary teams to apply knowledge obtained from lectures and mutual presentations. For graduate credit students are required to submit a research report and give an oral presentation.

GERON 520. Women and Aging.

(3-0) Cr. 3. SS.
Women and Aging is the study of theory, research and application of issues related to women and the aging experience. This course will examine gender differences in areas such as health, mental health, income security, crime, and public policy. Attention will be given to ways in which younger women can prepare to meet the challenges and opportunities awaiting them as they age.

GERON 521. Biological Principles of Aging.

(3-0) Cr. 3. SS.
Basic biological principles of aging. Course modules include an introduction to the aging process, body systems and normal aging, and environment and the biology of aging. In addition, disorders and diseases of aging, prevention and treatment and exercise and aging topics will be covered.

GERON 522. Long-Term Care.

(3-0) Cr. 3. F.
Administration principles involved in the planning, organizing and directing of long-term care agencies. Includes an in-depth exposure to federal and state standards and regulations governing long-term care.

GERON 523. Mental Health and Aging.

(3-0) Cr. 3. S.
Introduction to the range of issues involved in aging and mental health. From a systems framework the major emotional and psychiatric problems encountered in old age will be examined including mood, anxiety, adjustment and personality disorders, dementia, cognitive problems, substance abuse, and suicide. Barriers to treatment and cohort and cultural issues will be explored.

GERON 524. Cognitive Health.

(3-0) Cr. 3. SS.
Cognitive skills form the foundation for functioning in everyday life and these skills take on added importance in older adulthood. This course focuses on selected theoretical approaches and current research related to cognitive aging. We will review normative and non-normative cognitive changes, assessment techniques, and prevention/intervention efforts. Throughout the course we will keep the role of environment and life-span implications in the forefront of our discussion.

GERON 530. Perspectives in Gerontology.

(Cross-listed with HD FS). (3-0) Cr. 3. F.

Overview of current aging issues including theory and research, critical social and political issues in aging, the interdisciplinary focus of gerontology, career opportunities, and aging in the future. (on-line course offering via Distance Education).

GERON 534. Adult Development.

(Cross-listed with HD FS). (3-0) Cr. 3. S.

Exploration of the biological, psychological and social factors associated with aging. Although the focus is on the later years, information is presented from a life-span developmental framework. Empirical studies are reviewed and their strengths, limitations and implications for normative and optimal functioning are discussed. (on-line course offering via Distance Education).

GERON 540. Nutrition and Physical Activity in Aging.

(Cross-listed with DIET). (3-0) Cr. 3. Alt. F., offered even-numbered years.

WWW only. Basic physiologic changes during aging and their impacts in health and disease. The focus will be on successful aging with special emphasis on physical activity and nutrition. Practical application to community settings is addressed.

GERON 545. Economics, Public Policy, and Aging.

(Cross-listed with HD FS). (3-0) Cr. 3. F.

Policy development in the context of the economic status of the older adult population. Retirement planning and the retirement decisions; social security and public transfer programs; intra-family transfers to/from the aged; private pensions; financing medical care; prospects and issues for the future.

GERON 563. Environments for the Aging.

(Dual-listed with GERON 463). (Cross-listed with HD FS). (3-0) Cr. 3. S. *Prereq:* HD FS 360 or 3 credits in housing, architecture, interior design, rehabilitation, psychology, or human development and family studies or permission of instructor. Emphasis on independent living within residential settings including specialized shelter, supportive services and housing management. Application of criteria appropriate for accessibility and functional performance of activities; universal design principles. Creative project provides service learning opportunities. Meets U.S. Diversity Requirement

GERON 571. Design for All People.(Cross-listed with ARCH, DSN S). (3-0) Cr. 3. S. *Prereq:* Graduate or Senior classification

Principles and procedures of universal design in response to the varying ability level of users. Assessment and analysis of existing buildings and sites with respect to standards and details of accessibility for all people, including visually impaired, mentally impaired, and mobility restricted users. Design is neither a prerequisite nor a required part of the course. Enrollment open to students majoring in related disciplines. Credit counts toward fulfillment of Studies in Architecture and Culture requirements. Meets U.S. Diversity Requirement

GERON 577. Aging in the Family Setting.(Cross-listed with HD FS). (3-0) Cr. 3. S. *Prereq:* 9 credits in social sciences or permission of instructor

Theories and research related to personal and family adjustments in later life affecting older persons and their intergenerational relationships. Related issues including demographics also are examined through the use of current literature. ,Spring 2013: on-line via Distance Education; Spring 2014: on campus.

GERON 584. Program Evaluation and Research Methods in Gerontology.

(Cross-listed with HD FS). (3-0) Cr. 3. S.

Overview of program evaluation, research methods, and grant writing in gerontology. Includes application of quantitative and qualitative methods in professional settings. (on-line course offering via Distance Education).

GERON 590. Special Topics.

Cr. arr. Repeatable.

Consult program coordinator for procedure.

GERON 591. Internship.

Cr. 1-9. Repeatable, maximum of 9 credits. F.S.SS.

Supervised experience in an area of gerontology.

GERON 594. Professional Seminar in Gerontology.

(Cross-listed with HD FS). (3-0) Cr. 3. SS.

An integrative experience for gerontology students designed to be taken near the end of the degree program. By applying knowledge gained in earlier coursework, students will strengthen skills in ethical decision-making behavior, applying these skills in gerontology-related areas such as advocacy, professionalism, family and workplace issues. Students from a variety of professions will bring their unique perspectives to bear on topics of common interest. (on-line course offering via Distance Education).

Hospitality Management

Administered by the Department of Apparel, Educational Studies, and Hospitality Management.

Department name changed to Apparel, Events, and Hospitality Management (12-2011)

The Hospitality Management (HspM) program strives for excellence in professional and leadership development for the hospitality industry through education, research, and outreach with a mission of developing leaders in the hospitality industry. Educational experiences are planned to contribute to the graduate's effectiveness as a career professional and as a person, family member, and citizen. Research and extension efforts are conducted with the purpose of improving management effectiveness and quality of services within hospitality organizations. Finally, the program is committed to serving the respective missions of Iowa State University and the College of Human Sciences and to serving the needs of the citizens of Iowa.

Undergraduate Study

The program offers work for the degree Bachelor of Science in hospitality management. Coursework is planned to provide students with a general education plus professional preparation for supervisory and executive positions in hospitality organizations. Principles of business management are presented, as well as fundamentals of hospitality operations.

Graduates demonstrate leadership characteristics and make decisions based on integrating knowledge of financial, human resources, marketing, and operational principles for managing hospitality operations. They demonstrate best practices in meeting customer expectations and use of technology to achieve operational efficiency and effectiveness.

Learning experiences are provided in the quantity food production and service facility of the Hospitality Management program and other approved establishments. Students are required to have a total of at least 600 hours of relevant work experience prior to graduation. Of the 600 hours, 200 hours are required prior to completing one year in the program.

The program offers a concurrent B.S. and M.S. degree that allows students to obtain a B.S. and M.S. degree in hospitality management in 5 years. Application for admission to the Graduate College should be made in the junior year.

Minor

A minor in Hospitality Management may be earned by successfully completing at least 15 credits of AESHM/Hsp M courses. The minor must include at least six (6) credits in courses numbered 300 or above taken at ISU. All course prerequisites must be completed prior to taking the course. All minor courses must be taken for a grade.

HRI 101	Introduction to the Hospitality Industry	3
HRI 233	Hospitality Sanitation and Safety	3
Select 9 credits from:		9
AESHM 287	Principles of Management in Human Sciences	
AESHM 438	Human Resource Management	
AESHM 474	Entrepreneurship in Human Sciences	
AESHM 477	Multi-channel Retailing	
HRI 260	Global Tourism Management	
HRI 289	Contemporary Club Operations	
HRI 315	Hospitality Law	
HRI 352	Lodging Operations Management I	
HRI 383	Introduction to Wine, Beer, and Spirits	
HRI 437	Hospitality Information Technology	
HRI 439	Advanced Hospitality Human Resource Management	
HRI 452	Lodging Operations Management II	

Total Credits 15

Graduate Study

The Hospitality Management program offers work for the Master of Science and Doctor of Philosophy degrees in hospitality management. Graduates of the program are able to interpret trends and adapt operating practices of hospitality organizations to changing economic, social, political, technological, and environmental conditions. They can manage a hospitality enterprise successfully to achieve objectives of the operation or, at the doctoral level, successfully carry out responsibilities of a hospitality educator. Graduates will make positive

contributions to the growth and improvement of the hospitality industry using current research in the decision-making process.

A degree in hospitality management is the usual background for graduate study; however, applicants with preparation in dietetics, business, or closely related fields are encouraged to apply. PhD applicants must have two (2) years of professional work experience in the field.

The Master of Science degree requires either a thesis or non-thesis (creative component) project. Students also are required to take three core courses out of the four offered in the core areas (human resources, financial management, marketing, and strategic management).

The PhD program requires a minimum of 72 credits, up to 30 of which may be applied from the Master's degree. All PhD students take a minimum of 15 research/dissertation credits.

Curriculum in Hospitality Management

Administered by the Apparel, Events, and Hospitality Management Department. Leading to the Bachelor of Science degree.

The curriculum in Hospitality Management develops students as leaders for the hospitality professions.

A minor in Hospitality Management is available; see requirements under Hospitality Management, Courses and Programs.

Students majoring in Hospitality Management are required to earn C- or better in all AESHM and HRI courses. Communication Proficiency Requirement: Grade of C or better in ENGL 150 Critical Thinking and Communication, and ENGL 250 Written, Oral, Visual, and Electronic Composition.

Degree Requirements

10 Communications and Library

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
LIB 160	Information Literacy	1
Select one from the following:		3
COMST 102	Introduction to Interpersonal Communication	
COMST 214	Professional Communication	
SP CM 212	Fundamentals of Public Speaking	
Total Credits		10

10 Natural Sciences and Mathematical Disciplines

Select one MATH course from:		3
MATH 104	Introduction to Probability	
MATH 105	Introduction to Mathematical Ideas	
MATH 140	College Algebra	
MATH 150	Discrete Mathematics for Business and Social Sciences	
MATH 160	Survey of Calculus	
STAT 101	Principles of Statistics	4
Natural Sciences (see approved list)		3
Total Credits		10

9 Social Sciences

ECON 101	Principles of Microeconomics	3
HD FS 102	Individual and Family Life Development	3
Psychology or Sociology		3
Total Credits		9

6 Humanities

AESHM 342	Aesthetics of Consumer Experience	3
Approved courses		3
Total Credits		6

49-53 Hospitality Management Professional Core Courses

AESHM 170	Supervised Work Experience I	1
AESHM 175D	Financial Applications for Retail and Hospitality Industries: Hospitality Management	2
AESHM 270D or AESHM 270P	Supervised Work Experience II - Hospitality or Supervised Work Experience II - ISU Dining	1-2
AESHM 287	Principles of Management in Human Sciences	3

AESHM 340	Hospitality and Apparel Marketing Strategies	3
AESHM 411	Seminar on Current Issues	1
AESHM 438	Human Resource Management	3
AESHM 470D or AESHM 470P	Supervised Professional Internship: Hospitality or Supervised Professional Internship: ISU Dining	3-6
HRI 101	Introduction to the Hospitality Industry	3
HRI 233	Hospitality Sanitation and Safety	3
HRI 315	Hospitality Law	3
HRI 333	Hospitality Operations Cost Controls	3
HRI 352	Lodging Operations Management I	3
HRI 380	Quantity Food Production Management	3
HRI 380L	Quantity Food Production and Service Management Experience	2
HRI 433	Hospitality Financial Management	3
HRI 439	Advanced Hospitality Human Resource Management	3
HRI 455	Introduction to Strategic Management in Foodservice and Lodging	3
Total Credits		46-50

13-15 Hospitality Management electives

Select from:

AESHM 211	Leadership Experiences and Development (LEAD)	3
AESHM 222	Creative Thinking and Problem Solving	3
AESHM 275	Retail Merchandising	3
AESHM 379	Community Leadership: Examination of Social Issues	3
AESHM 474	Entrepreneurship in Human Sciences	3
AESHM 477	Multi-channel Retailing	3
EVENT 271	Introduction to Event Management	3
Only 6 credits of EVENT courses may apply for Hospitality elective credits		
EVENT 371	Conference and Meeting Planning	3
Only 6 credits of EVENT courses may apply for Hospitality elective credits		
EVENT 471	Special Events Coordination	1-3
Only 6 credits of EVENT courses may apply for Hospitality elective credits		
HRI 189	Introduction to University Dining Services Management	1
HRI 260	Global Tourism Management	3
HRI 289	Contemporary Club Operations	2
HRI 320	Attractions and Amusement Park Administration	3
HRI 383	Introduction to Wine, Beer, and Spirits	2
HRI 437	Hospitality Information Technology	3
HRI 452	Lodging Operations Management II	3
HRI 487	Fine Dining Event Management	3

13 Supporting courses

ACCT 284	Financial Accounting	3
AESHM 112	Orientation for AESHM	2
AESHM 113	Professional Development for AESHM	1
AESHM 311	Seminar on Careers and Internships	1
FS HN 111	Fundamentals of Food Preparation *	2
FS HN 115	Food Preparation Laboratory	1
FS HN 167	Introduction to Human Nutrition *	3

* A student who has not had high school chemistry is required to take CHEM 160 Chemistry in Modern Society

16-18 Electives

123.0 Total credits

**A student who has not had high school biology is required to take BIOL 101 Introductory Biology.

Courses primarily for undergraduates:

HRI 101. Introduction to the Hospitality Industry.

(3-0) Cr. 3. F.S.

Introduction to the foodservice, lodging, and tourism components of the hospitality industry. Background information, current issues, and future challenges in various segments of the industry.

HRI 189. Introduction to University Dining Services Management.

(1-0) Cr. 1. Alt. S., offered even-numbered years.

Overview of management concepts and distinct features of university dining services.

HRI 233. Hospitality Sanitation and Safety.

(3-0) Cr. 3. F.S.

Sanitation and safety principles in hospitality operations. Issues impacting consumers and operators. Characteristics of food, supplies, and equipment as related to quality, sanitation and safety. Application of HACCP. Preparation for national foodservice sanitation certification examination.

HRI 260. Global Tourism Management.

(3-0) Cr. 3. F.S.

Overview of the global tourism industry: hospitality and related services, destination/ attractions, and transportation. Introduction to travel behavior, tourism planning and research, and economic and social impacts of tourism development. Meets International Perspectives Requirement.

HRI 289. Contemporary Club Operations.(Cross-listed with EVENT). (2-0) Cr. 2. F.S. *Prereq:* HRI 101

Organization and management of private clubs including city, country, and other recreational and social clubs. Field trip may be required.

HRI 315. Hospitality Law.(3-0) Cr. 3. S. *Prereq:* HRI 101

Laws relating to ownership and operation of hospitality organizations. The duties and rights of both hospitality business operators and customers. Legal implications of various managerial decisions.

HRI 320. Attractions and Amusement Park Administration.(Cross-listed with EVENT). (3-0) Cr. 3. S. *Prereq:* HRI 101 or permission of instructor

An examination of current issues in the attractions and amusement park industry will be conducted. Emphasis will be placed on development and design along with the functional departments of modern amusement parks and themed attractions.

HRI 333. Hospitality Operations Cost Controls.(3-0) Cr. 3. F. *Prereq:* Credit or enrollment in HRI 380, HRI 380L; 3 credits MATH

Introduction to revenue and cost systems in the hospitality industry. Application of principles related to procurement, production, and inventory controls.

HRI 352. Lodging Operations Management I.(3-0) Cr. 3. F. *Prereq:* Credit or enrollment in HRI 101, AESHM 287

Introduction to functional department activities and current issues of lodging organizations with emphasis on front office and housekeeping. Reservation activities and night audit exercises. Case studies.

HRI 380. Quantity Food Production Management.(3-0) Cr. 3. F.S. *Prereq:* HRI 233 or 2 cr MICRO; FS HN 111 or FS HN 214; FS HN 115 or 215; at least junior classification; enrollment in HRI 380L

Principles of and procedures used in quantity food production management including menu planning, food costing, work methods, food production systems, quality control, and service.

HRI 380L. Quantity Food Production and Service Management Experience.(0-6) Cr. 2. F.S. *Prereq:* HRI 233 or 2 cr MICRO; FS HN 111 or 214; FS HN 115 or 215; at least junior classification; enrollment in 380; reservation with program required

Application of quantity food production and service management principles and procedures in the program's foodservice operation.

HRI 383. Introduction to Wine, Beer, and Spirits.(2-0) Cr. 2. F.S. *Prereq:* Must be at least 21 years old

Introduction to history and methods of production for a variety of wines, beers, spirits, and other beverages. Beverage tasting and sensory analysis; product knowledge; service techniques; sales; and alcohol service related to the hospitality industry.

HRI 391. Foodservice Systems Management I.(3-0) Cr. 3. F. *Prereq:* Credit or enrollment in HRI 380, HRI 380L

Principles and techniques related to basic management, leadership, and human resource management of foodservices in health care and other on-site foodservice settings. Food safety and sanitation for on-site foodservice operations. Credit for either HRI 391 or AESHM 287 and 438 may count toward graduation. Not accepted for credit toward a major in Hospitality Management.

HRI 392. Foodservice Systems Management II.(3-0) Cr. 3. S. *Prereq:* HRI 391

Introduction to cost control in foodservice departments: procedures for controlling food, labor, and other variable costs. Application of principles related to food product selection, specification, purchase, and storage in health care and other onsite operations. Credit for either HRI 392 or 233 and 333 may count toward graduation. Not accepted for credit toward a major in Hospitality Management.

HRI 433. Hospitality Financial Management.(3-0) Cr. 3. S. *Prereq:* HRI 333; ACCT 284; ECON 101; credit or enrollment in STAT 101

Use of common financial statements, accounting ratios, and financial techniques to impact management decisions.

HRI 437. Hospitality Information Technology.(3-0) Cr. 3. F. *Prereq:* HRI 352

Introduction to hospitality information technology. Property management and point-of-sales system interfaces: customer relationship management, selecting and purchasing computer systems, electronic distribution systems, internet and its related application systems, managing internal and external communication networks. Case studies.

HRI 439. Advanced Hospitality Human Resource Management.(3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq:* AESHM 438

Emphasis on development of management personnel in hospitality organizations. Case studies.

HRI 452. Lodging Operations Management II.(3-0) Cr. 3. S. *Prereq:* HRI 352; credit or enrollment in HRI 333

Development of business plan and evaluation of business performance in a simulated environment. Operational decision making practices by applying concepts of management, operations, marketing, and finance for a computer-mediated environment.

HRI 455. Introduction to Strategic Management in Foodservice and Lodging.(3-0) Cr. 3. S. *Prereq:* AESHM 340; credit or enrollment in HRI 433 and AESHM 438

Introduction to strategic management principles and practices with an application of human resources, operations, marketing, and financial management concepts. Case studies.

HRI 487. Fine Dining Event Management.(Dual-listed with HRI 587). (2-3) Cr. 3. F. *Prereq:* HRI 380, 380L; AESHM 287;

AESHM 287 for Hospitality Management majors; 3 credits of marketing for Culinary Science majors

Creative experiences with U.S. and international foods. Application of management, marketing, and financial principles in food preparation and service in the planning and execution of fine dining events.

Meets International Perspectives Requirement.

HRI 489. Issues in Food Safety.(Cross-listed with AN S, FS HN, VDPAM). (1-0) Cr. 1. S. *Prereq:* Credit or enrollment in FS HN 101 or FS HN 272 or HRI 233; FS HN 419 or FS HN 420; FS HN 403

Capstone seminar for the food safety minor. Case discussions and independent projects about safety issues in the food system from a multidisciplinary perspective.

HRI 490. Independent Study.Cr. arr. Repeatable. *Prereq:* Sections B-E: Program approval; Section H: Full membership in Honors Program**HRI 490B. Independent Study: Hospitality Management.**Cr. arr. *Prereq:* Sections B-E: Program approval; Section H: Full membership in Honors Program**HRI 490D. Independent Study: Lodging Operations.**Cr. arr. *Prereq:* Sections B-E: Program approval; Section H: Full membership in Honors Program**HRI 490E. Independent Study: Foodservice Operations.**Cr. arr. *Prereq:* Sections B-E: Program approval; Section H: Full membership in Honors Program**HRI 490H. Independent Study: Honors.**Cr. arr. *Prereq:* Sections B-E: Program approval; Section H: Full membership in Honors Program**Courses primarily for graduate students, open to qualified undergraduates:****HRI 505. Hospitality Management Scholarship and Applications.**

(0-1) Cr. 1. F.SS.

Focus on teaching and research scholarship involving the hospitality industry.

HRI 506. Current Issues in Hospitality Management.

(0-1) Cr. 1. Repeatable. S.SS.

Focus on current issues related to the hospitality industry.

HRI 533. Financial Decision Making in Hospitality Organizations.(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* HRI 433

Concepts of financial management applied to strategic decision making.

HRI 538. Human Resources Development in Hospitality Organizations.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq: AESHM 438*
Theories of human resources management. Practices and principles related to development of management personnel.

HRI 540. Strategic Marketing.

(3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq: AESHM 340*
Application of marketing principles in developing effective marketing strategies for hospitality, apparel, and retail organizations. Evaluation of multi-dimensional marketing functions in hospitality organizations.

HRI 555. Strategic Management in Hospitality Organizations.

(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: Courses in MKT, FIN, MGMT, and HRI. Permission of instructor*
Strategic management process as a planning and decision-making framework; integration of human resources, operations, marketing, and financial management concepts.

HRI 587. Fine Dining Event Management.

(Dual-listed with HRI 487). (2-3) Cr. 3. F. *Prereq: HRI 380, 380L; AESHM 287; AESHM 287 for Hospitality Management majors; 3 credits of marketing for Culinary Science majors*
Creative experiences with U.S. and international foods. Application of management, marketing, and financial principles in food preparation and service in the planning and execution of fine dining events.
Meets International Perspectives Requirement.

HRI 590B. Special Topics: Hospitality Management.

Cr. arr. Repeatable, maximum of 3 credits. *Prereq: 9 credits in HRI at 400 level or above; application process*

HRI 590C. Special Topics: Tourism.

Cr. arr. Repeatable, maximum of 3 credits. F.S.SS. *Prereq: 9 credits in HRI at 400 level or above; application process*

HRI 590D. Special Topics: Lodging Operations.

Cr. arr. Repeatable, maximum of 3 credits. *Prereq: 9 credits in HRI at 400 level or above; application process*

HRI 590E. Special Topics: Commercial/Retail Foodservice Operations.

Cr. arr. Repeatable, maximum of 3 credits. *Prereq: 9 credits in HRI at 400 level or above; application process*

HRI 590F. Special Topics: Onsite Foodservice Operations.

Cr. arr. Repeatable, maximum of 3 credits. *Prereq: 9 credits in HRI at 400 level or above; application process*

HRI 599. Creative Component.

Cr. arr.

Courses for graduate students:**HRI 604. Professional Writing.**

(2-0) Cr. 2. S.SS. *Prereq: Enrollment in PhD program*
Development of professional written communication with emphasis on abstracts, proposals, manuscripts, and technical reports.

HRI 608. Administrative Problems.

Cr. arr. Repeatable, maximum of 4 credits. F.S.SS. *Prereq: Permission of instructor; enrollment in PhD program*
Advanced administrative problems; case studies in foodservice and lodging organizations.

HRI 633. Advanced Hospitality Financial Management.

(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: HRI 433; Enrollment in PhD program*
Theories and research in financial management with emphasis on financial performance and financing decisions.

HRI 638. Advanced Human Resources Management in Hospitality Organizations.

(3-0) Cr. 3. Alt. F., offered odd-numbered years. Alt. SS., offered even-numbered years. *Prereq: HRI 538; Enrollment in PhD program*
Research in human resources management with an emphasis on organization or unit administration.

HRI 640. Seminar on Marketing Thoughts.

(3-0) Cr. 3. Alt. S., offered even-numbered years. Alt. SS., offered even-numbered years. *Prereq: HRI 540; STAT 401. Enrollment in PhD program*
Conceptual and theoretical development of marketing strategies. Analytical and critical review of marketing research and industry practices.

HRI 652. Advanced Lodging Operations.

(3-0) Cr. 3. Alt. F., offered odd-numbered years. Alt. SS., offered even-numbered years. *Prereq: Enrollment in PhD program*
Analysis and applications of concepts and theories of operations research for lodging operations.

HRI 680. Analysis of Research in Foodservice Operations.

(3-0) Cr. 3. Alt. S., offered even-numbered years. Alt. SS., offered odd-numbered years. *Prereq: Enrollment in PhD program*
Analysis and application of theories, research, and research methods in foodservice operations.

HRI 690. Advanced Topics.

Cr. arr. Repeatable, maximum of 2 times. F.S.SS. *Prereq: Enrollment in PhD program, application process*
Advanced study of current topics in hospitality management.

HRI 690B. Advanced Topics: Hospitality Management.

Cr. arr. Repeatable, maximum of 2 times. F.S.SS. *Prereq: Enrollment in PhD program, application process*
Advanced study of current topics in hospitality management.

HRI 690C. Advanced Topics: Tourism.

Cr. arr. Repeatable, maximum of 2 times. F.S.SS. *Prereq: Enrollment in PhD program, application process*
Advanced study of current topics in hospitality management.

HRI 690D. Advanced Topics: Lodging Operations.

Cr. arr. Repeatable, maximum of 2 times. F.S.SS. *Prereq: Enrollment in PhD program, application process*
Advanced study of current topics in hospitality management.

HRI 690E. Advanced Topics: Commercial/Retail Foodservice Operations.

Cr. arr. Repeatable, maximum of 2 times. F.S.SS. *Prereq: Enrollment in PhD program, application process*
Advanced study of current topics in hospitality management.

HRI 690F. Advanced Topics: Onsite Foodservice Operations.

Cr. arr. Repeatable, maximum of 2 times. F.S.SS. *Prereq: Enrollment in PhD program, application process*
Advanced study of current topics in hospitality management.

HRI 699. Research.

Cr. arr. Repeatable. F.S.SS. *Prereq: Enrollment in PhD program*
Research.

Human Development and Family Studies

Undergraduate Study

For undergraduate curricula in Human Development and Family Studies, leading to the degree bachelor of science, see Human Sciences, Curricula.

The Department of Human Development and Family Studies offers courses that focus on the interactions among individuals, families, their resources, and their environments throughout the life span. The department offers work for the Bachelor of Science degree in four curricula: Child, Adult and Family Services; Early Childhood Education; Family and Consumer Sciences Education and Studies, and Financial Counseling and Planning.

Students graduating in Human Development and Family Studies will

1. Communicate with clear purpose, workable organization and effective style in written, oral, visual and electronic (WOVE) formats to foster collaboration, provide information and advance knowledge related to child, adult, family, and community services.
2. Consistently and realistically analyze and evaluate one's own knowledge, abilities and actions in comparison to professional standards and create action plans to enhance personal and professional efficacy related to working with children, adults, families and communities.
3. Understand content related to working with children, adults, families, and communities within chosen program. Use critical thinking skills to evaluate and utilize evidence-based practices. Use logical and ethical reasoning to make decisions and solve problems.
4. Understand the diverse needs of children, adults, and families. Ensure equitable access of children, adults, and families to appropriate environments that support healthy living. Engage children, adults, and families with socially responsible and respectful behavior.

Communication Proficiency requirement: A student must achieve a grade of C or higher in ENGL 150, Critical Thinking and Communication, and ENGL

250, Written, Oral, Visual, and Electronic Composition. A student achieving a grade of C– or lower in 150 and/or 250 must either repeat the course(s), earning a minimum grade of C, or, in consultation with the adviser and the coordinator of freshman English, complete another appropriate English writing course with a minimum grade of C.

The **Child, Adult and Family Services** curriculum leads to work in the helping professions with employment opportunities in public and private agencies. Opportunities exist to observe and work with infants, preschoolers, school-age children, adolescents, adults, and families. Graduates of the program are prepared for employment in agencies and organizations serving children, youth, families, and adults as program development specialists, coordinators, directors, teachers, direct care staff, and administrators. This flexible program provides a broad emphasis in theory, research, and application in child, adult and family services including attention to community issues and public policy.

Students in Child, Adult and Family Services may choose coursework that leads to becoming a Certified Family Life Educator (CFLE), a program that has been approved by the National Council on Family Relations. These courses provide the basic education for students interested in working with families, including adolescents, parents, or adults working to strengthen relationships. The student takes courses that support the development of knowledge and skills in family life content areas selected by the National Council on Family Relations. The certification is a voluntary credential that requires the individual to complete a degree in an approved program and to have at least two years of work experience in family life education settings. See <http://www.hdfs.hs.iastate.edu/undergraduate-majors/cfle/> and/or <http://www.ncfr.org/cfle-certification>.

The curriculum in **Early Childhood Education-Unified** prepares students to teach young children and work with their families. This program leads to careers working with young children (both those who are typically developing and those with special needs) from birth through age eight. Graduates of this program may teach in early childhood (preschool and kindergarten-3rd grade) classrooms or home based programs, with emphasis on inclusive services. Graduates may be employed by either public or private agencies or schools. This curriculum has been approved by the Iowa Department of Education and meets requirements for the early childhood education - unified teacher license, which permits individuals to teach general and special education for children from birth through age eight. The program is an interdepartmental major administered by the Department of Human Development and Family Studies and the School of Education within the College of Human Sciences.

Early childhood education majors must satisfy a world languages and cultures requirement for graduation (see below for more information on the world languages and cultures requirement).

Students who enroll in the early childhood education - unified program must apply to and be accepted into the teacher education program prior to enrolling in advanced courses. All early childhood education - unified students, including those seeking a double major, must meet general education requirements for teacher licensure. Iowa State University is in compliance with the Iowa Department of Education's mandate for a performance based system of teacher training. The State of Iowa has developed and implemented a competency system to evaluate the performance of all teachers. A detailed list of the twelve Iowa State University Teacher Education Standards and the eight State of Iowa Teaching Standards, along with other information about the University Educator Preparation Program, can be found at www.education.iastate.edu/te. Additional information is also available from the student's academic adviser.

Students in early childhood education-unified must meet the performance outcome standards for teacher licensure. Standards are assessed in coursework through artifacts such as assignments, projects, or practicum participation. These standards assessments are based on the early childhood content standards for endorsement 100 in the State of Iowa. These include competencies in

1. child growth, development, and learning
2. developmentally appropriate learning environment and curriculum implementation
3. health, safety, and nutrition
4. family and community collaboration
5. professionalism

Pre-student teaching field experiences and student teaching experience in at least two different settings are required. Students will receive both formative and summative evaluations of their progress toward meeting these outcomes throughout their program at Iowa State University.

The curriculum in **Family and Consumer Sciences Education and Studies** offers one curriculum for the Bachelor of Science degree in Family and Consumer Sciences Education and Studies. (<http://catalog.iastate.edu/collegeofhumansciences/familyandconsumerscienceseducationandstudies>)

Graduates in Family and Consumer Sciences Education and Studies have a broad understanding of individual and family well-being. Graduates apply knowledge and research in family and consumer sciences content in global professional settings. They work in an integrative fashion to improve well-being by addressing and acting on complex problems confronting individuals, families, and communities. The study of Family and Consumer Sciences Education incorporates the following 16 content areas (<http://www.nasafacs.org/national-standards--competencies.html>): Career, Community and Family Connections; Consumer and Family Resources; Consumer Services; Education and Early Childhood; Facilities Management and Maintenance; Family; Family and Community Services; Food Production and Services; Food Science, Dietetics, and Nutrition; Hospitality, Tourism and Recreation; Housing and Interior Design; Human Development; Interpersonal Relationship; Nutrition and Wellness; Parenting; and Textiles, Fashion and Apparel.

Students in the program choose one of three options, Teacher Licensure, Communications, or Professional Studies.

Students in Family and Consumer Sciences Education and Studies may choose coursework that leads to becoming a Certified Family Life Educator (CFLE), a program that has been approved by the National Council on Family Relations. These courses provide the basic education for students interested in working with families, including adolescents, parents, or adults working to strengthen relationships. The student takes courses that support the development of knowledge and skills in family life content areas selected by the National Council on Family Relations. The certification is a voluntary credential that requires the individual to complete a degree in an approved program and to have at least two years of work experience in family life education settings.

Graduates may also choose from one of several nationally recognized professional certifications available from the American Association of Family and Consumer Sciences (AAFCS) Council for Certification. This program measures competencies of FCS professionals using high-quality, rigorous assessments. Certifications that are currently available are (<http://www.aafcs.org/CredentialingCenter/Certification.asp>): CFCS: Certified in Family and Consumer Sciences; CFCS-HDFS: Certified in Human Development and Family Studies; CFCS-HNFS: Certified in Hospitality, Nutrition, and Food Science; and CPPFE: Certified Personal and Family Finance Educator.

Opportunities are available for obtaining a minor from other programs through careful selection of elective credits and consultation with an adviser. For example, students pursuing the Communications and Professional Studies options are encouraged to consider obtaining a minor in journalism and mass communications or in one of the content areas of family and consumer sciences such as financial counseling and planning. They also are encouraged to enhance their program by selecting relevant additional courses in their area of interest. Students in the Teacher Licensure option may choose to add an additional endorsement such as Health Education, Middle School, ESL, Multi-Occupations, or Coaching Interscholastic Athletics.

There is also an opportunity to obtain a family and consumer sciences-general endorsement or teacher licensure as a post baccalaureate student.

The **Financial Counseling and Planning** curriculum prepares students for careers in family financial services, offering three emphasis areas: Financial Planning, Financial Counseling or Family Financial Studies. Financial Counseling and Planning is a growing career field and appeals to students who want to work with individuals and families to help them meet their financial goals and improve their financial capability to better meet financial challenges. Based on your specific career goals you can select a path that leads to fulfilling the education requirements for the leading designations and certifications in financial counseling and planning. Graduates of the program are prepared for employment within the public and private and not-for-profit organizations including working in the banking and insurance industry and financial counseling and human service agencies. Coursework provides students with the family resource management and interpersonal skills that they need to help families thrive. Laboratory and practicum opportunities exist in the Iowa State University Financial Counseling Clinic. A required internship encourages students to apply their studies and to experience the profession in real-world settings.

Financial Counseling and Planning majors are also prepared to enter graduate programs in family financial planning, financial education, economics, finance, and law.

Juniors and seniors in Financial Counseling and Planning who are interested in graduate study may apply for concurrent enrollment in the Graduate College to simultaneously pursue both a B.S. in Financial Counseling and Planning and a M.S. in Human Development and Family Studies or a B.S. in Financial Counseling and Planning and a Graduate Certificate in Family Financial Planning. Under concurrent enrollment, students simultaneously take undergraduate and graduate courses and may be eligible for assistantships. See Graduate Study for more information (<http://www.hdfs.hs.iastate.edu/graduate/>).

Minors

The department offers minors in Child, Adult and Family Services, Educational Services in Family and Consumer Sciences, and Financial Counseling and Planning. Minors consist of at least 15 credits including 6 credits taken at Iowa State University in courses numbered 300 or above.

The Child, Adult and Family Services minor may be earned by completing 15 credits:

HD FS 102	Individual and Family Life Development	3
One of the following:		3
HD FS 224	Development in Young Children: Birth through Age 8	
HD FS 226	Development and Guidance in Middle Childhood	
HD FS 227	Adolescent and Emerging Adulthood	
HD FS 234	Adult Development and Aging	
HD FS 377	Aging and the Family	
Three of the following:		9
HD FS 249	Parenting and Family Diversity Issues	
HD FS 270	Family Communications and Relationships	
HD FS 342	Guidance and Group Management in Early Childhood	
HD FS 344	Programming for Children in Early Care and Education	
HD FS 360	Housing and Services for Families and Children	
HD FS 367	Abuse and Illness in Families	
HD FS 373	Death as a Part of Living	
HD FS 395	Children, Families, and Public Policy	
HD FS 449	Program Evaluation and Proposal Writing	
HD FS 463	Environments for the Aging	
HD FS 479	Family Interaction Dynamics	
Total Credits		15

The Education Services in Family and Consumer Sciences minor may be earned by completing 15 credits:

FCEDS 206	Professional Roles in Family and Consumer Sciences	2
FCEDS 306	Educational Principles for Family and Consumer Sciences	4
FCEDS 413	Planning and Assessment for Family and Consumer Sciences and Family Life Education	4
FCEDS 491A	Supervised Experiences in a Professional Setting: Communications	5
or FCEDS 491B	Supervised Experiences in a Professional Setting: Professional Studies	
Total Credits		15

The Financial Counseling and Planning minor may be earned by completing 15 credits:

HD FS 283	Personal and Family Finance	3
Select 12 credits from the courses below:		12
HD FS 341	Housing Finance and Policy	
HD FS 378	Retirement Planning and Employee Benefits	
HD FS 383	Fundamentals of Financial Planning	
HD FS 482	Family Savings and Investments	
HD FS 484	Estate Planning for Families	
HD FS 489	Financial Counseling	
HD FS 489L	Financial Counseling Laboratory	
Total Credits		15

Graduate Study

The department offers work for the Master of Science (thesis and non-thesis option) and Doctor of Philosophy degrees with the major in Human Development and Family Studies. Minor work for students taking major work in other departments is also available. Graduates of M.S. and Ph.D. programs in the department will understand and apply relevant theories to educational, research, and/or intervention or prevention programs. It is intended that they will produce and disseminate research results and provide leadership in human development and family studies professions.

Graduate study in Human Development and Family Studies at Iowa State University is multidisciplinary and focuses on research and practice in several content areas such as adolescent/youth development, adult development

and aging, family studies and policy, family economic well-being and financial planning, infant and child development, health and well-being, and lifespan development. In addition, the Department of Human Development and Family Studies offers coursework and experiences leading to the National Council of Family Relations certification as a family life educator.

Prerequisite to work in the major is the completion of a related undergraduate program with basic courses and/or experiences in areas such as child/human development, community and regional planning, economics, education, family studies, psychology, or sociology. Additional coursework or prerequisites (e.g. basic statistics) may be required depending on the undergraduate program and program of study. Students may be admitted to our doctoral program with either a bachelor's (MS/PhD Track, 5 years) or a master's degree (PhD Track only, 3 years). Students admitted to the PhD Track without a prior master's degree complete requirements for a thesis-based master's degree as part of their doctoral program of study.

All students take a core set of courses; the program of study is then completed with a selection of courses that meet the individual needs of the student. Students may select coursework within or across the research and practice areas. The variety of and flexibility in the coursework allows a student to tailor a program to specific academic interests. The graduate programs are based on a theory, research, and application interactive paradigm with all three areas integrated into our content and method courses.

The department offers a graduate minor in Human Development and Family Studies. To earn this minor, students in a Master's program must take 9 credits in HD FS graduate courses (500, 600 level) with a limit of 3 credits in seminar or workshop credit: (credits in 591 or 691 not allowed). To earn a minor in HD FS students in a Doctoral program must take 12 credits in HD FS graduate courses (500, 600 level) with a limit of 3 credits in seminar or workshop credit: (credits in 591 or 691 not allowed).

The department offers four Graduate Certificates available to HD FS majors as well as students in other departments and professionals in the field. The certificates emphasize application and relevance to growing diversity and demands on the work force and include Developmental and Family Sciences Advanced Research Design and Methods (15 credits); Family Well-Being in Diverse Society (12 credits); Infant and Early Childhood Mental Health (12 credits, online); and Life-span Development (12 credits, online).

The department also participates in several Master of Family and Consumer Sciences degree programs (<http://catalog.iastate.edu/collegeofhumansciences/familyandconsumersciences/>). Admission to the youth (YTH), family financial planning (FFP) and gerontology (GERON) specialization programs require submission of the Graduate College application form, transcripts, 2 letters of recommendation, resume and a goal statement.

First, students selecting this option may choose Human Development and Family Studies as the focus of their studies.

Second, a 36-credit Master of Family and Consumer Sciences-Youth Development (MFCS-YD)-or a 13-credit Youth Development Specialist Certificate or a 13-credit Youth Program Management and Evaluation Certificate- are designed to prepare individuals who work directly with youth or are involved in education and research related to youth. The courses for this program are completely online.

Third, a 36-credit Master of Family and Consumer Sciences-Family Financial Planning Program (MFCS-FFP), along with the 18-credit Graduate Certificate Program, is designed to prepare individuals to work in the financial planning field. The courses for the program are completely online. Completion of course work in the Master degree and Graduate Certificate meets the educational requirements to sit for the Certified Financial Planner (CFP) Board of Standards Certification Examination.

The department offers a Financial Counseling and Planning (FCP) concurrent degree program that allows students to obtain a B.S. in FCP and an M.S. in HD FS or a B.S. in FCP and a Graduate Certificate in Family Financial Planning in 5 years. Application for admission to the Graduate College should be made near the end of the junior year. Under concurrent enrollment, students simultaneously take undergraduate and graduate courses and may be eligible for assistantships. Students interested in these programs should contact the department for details.

Finally, the department collaborates with the interdepartmental Gerontology program; students may declare a minor in Gerontology. The Master of Family and Consumer Sciences - Gerontology program (MFCS-GERON) and the Graduate Gerontology Certificate program are designed to prepare professionals who work directly with older people or are involved in education and research related to older adults. Professionals offering direct services often are involved in health promotion programs, directing inter-generational activities, managing senior centers or retirement communities, counseling older people and their families, and helping people plan for retirement. Professionals involved in education and

research may evaluate community-based services, teach others about the aging process, develop policies and programs to serve the needs of older adults, and work with business and industry on issues related to an aging work force.

Curricula:

- **Child Adult and Family Services**
- **Early Childhood Education— Unified**
- **Family and Consumer Sciences Education and Studies**
- **Financial Counseling and Planning**

Curriculum in Child, Adult and Family Services

Administered by the Department of Human Development and Family Studies. Leading to the degree bachelor of science.

Total credits required: 120. The child, adult and family services curriculum, with options in child programs, youth programs, adult/family programs, leads to employment opportunities in the helping professions working with children, adults, and families in a variety of public and private human service agencies and organizations.

A minor in child, adult and family services is available; see requirements under Human Development and Family Studies, Undergraduate programs.

The following requirements are for the child programs, youth programs, adult/family programs:

Communications and Library: 13 credits

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
LIB 160	Information Literacy	1
One of the following:		3
COMST 102	Introduction to Interpersonal Communication	
COMST 218	Conflict Management	
SP CM 212	Fundamentals of Public Speaking	
One of the following		3
ENGL 302	Business Communication	
ENGL 309	Report and Proposal Writing	
ENGL 314	Technical Communication	
Total Credits		13

Natural Sciences and Mathematical Disciplines: 10-11 credits

One of the following		3-4
STAT 101	Principles of Statistics	
MATH 104	Introduction to Probability	
MATH 105	Introduction to Mathematical Ideas	
MATH 140	College Algebra	
MATH 142	Trigonometry and Analytic Geometry	
MATH 150	Discrete Mathematics for Business and Social Sciences	
MATH 165	Calculus I	
COM S 103	Computer Applications	4
Biology Course		3
Total Credits		10-11

Social Sciences: 9 credits

Select from HD FS list of approved social sciences courses

Humanities: 6 credits

Select from HD FS list of approved humanities courses

HD FS Orientation: 1 credit

HD FS 110	Freshman Learning Community Orientation	1
or HD FS 111	New Transfer Student Seminar	
Total Credits		1

Human Development and Family Studies Core: 19-20 credits

HD FS 102	Individual and Family Life Development	3
HD FS 269	Research in Human Development and Family Studies	3
HD FS 418B	Professional Practice Reflection/Discussion: Internships	2
HD FS 449	Program Evaluation and Proposal Writing	3
HD FS 491	Internship	8-9
Total Credits		19-20

Child, Adult and Family Services Core: 15 credits

HD FS 183	Personal Finance in Early Adulthood	1
HD FS 218	Professional Orientation and Service Learning	2
HD FS 249	Parenting and Family Diversity Issues	3
HD FS 367	Abuse and Illness in Families	3
HD FS 395	Children, Families, and Public Policy	3
HD FS 486	Administration of Programs for Children, Adults and Families	3
Total Credits		15

Programs Option: 21.5 credits

Choose [Child](#), [Youth](#) or [Adult & Family](#) program option, see below for curriculum.

Electives: 25.5-26.5 credits

Total credits: 120 credits

U.S. Diversity and International Perspectives Requirement: Students fulfill the U.S. Diversity and International Perspectives Requirement by choosing three credits of coursework from each of the university-approved lists.

Child Programs option: 21.5 credits

HD FS 103	Professional Principles for Working with Children and Youth	.5
HD FS 224	Development in Young Children: Birth through Age 8	3
HD FS 240	Literature for Children	3
HD FS 342	Guidance and Group Management in Early Childhood	3
HD FS 344	Programming for Children in Early Care and Education	4
H S 105	First Aid and Emergency Care	2
SP ED 250	Education of the Exceptional Learner in a Diverse Society	3

One of the following		3
HD FS 239	Housing and Consumer Issues	
HD FS 270	Family Communications and Relationships	
HD FS 283	Personal and Family Finance	
HD FS 360	Housing and Services for Families and Children	
HD FS 373	Death as a Part of Living	
HD FS 479	Family Interaction Dynamics	
Total Credits		21.5

Youth Programs option: 21.5 credits

HD FS 103	Professional Principles for Working with Children and Youth	.5
HD FS 226	Development and Guidance in Middle Childhood	3
HD FS 227	Adolescent and Emerging Adulthood	3
HD FS 270	Family Communications and Relationships	3

HD FS 341	Housing Finance and Policy	
HD FS 373	Death as a Part of Living	
HD FS 378	Retirement Planning and Employee Benefits	
Total Credits		21.5

Curriculum in Early Childhood Education — Unified

The curriculum in early childhood education - unified (ECE) prepares students to teach young children and work with their families. This program leads to careers working with young children (both those who are typically developing and those with special needs) from birth through third grade. Graduates in this curriculum may teach in early childhood (preschool and kindergarten - 3rd grade) classrooms and home based programs, with emphasis on inclusive services. Graduates may be employed by either public or private agencies or schools. This curriculum has been approved by the Iowa Department of Education and meets the requirements for the early childhood education - unified teacher license. The program is an interdepartmental major administered by the Department of Human Development and Family Studies and School of Education within the College of Human Sciences.

Early childhood education majors must satisfy a world languages requirement for graduation (see below for more information on the world languages requirement).

Students in early childhood education – unified must apply to and be accepted into the teacher education program prior to enrolling in advanced courses. All early childhood education-unified students, including those seeking a double major, must meet general education requirements for teacher licensure. Iowa State University is in compliance with the Iowa Department of Education's mandate for a performance-based system of teacher training. The state of Iowa has developed and implemented a competency system to evaluate the performance of all teachers. A detailed list of the twelve Teacher Education Standards along with other information about the University Educator Preparation Program, can be found at www.education.iastate.edu/te/.

Additional information is also available from the student's academic advisor. Students in early childhood education – unified must meet the performance outcome standards for teacher licensure. Standards are assessed in coursework through artifacts such as assignments, projects, or practicum participation. These standards assessments are based on the early childhood content standards for endorsement 100 in the State of Iowa. These include competencies in (1) child growth, development, and learning, (2) developmentally appropriate learning environment and curriculum implementation, (3) health, safety, and nutrition, (4) family and community collaboration, and (5) professionalism. Pre-student teaching field experiences and student teaching experiences in at least two different settings is required. Students will receive both formative and summative evaluations of their progress toward meeting these outcomes throughout their program at Iowa State University.

World Language and Culture Requirements

Early childhood education – unified majors must satisfy a graduation requirement equivalent to the first year of university-level study in one world language (normally, completion of a two-semester sequence in any one world language). The requirement may be met by completion of three or more years of high school study in one world language.

Students who have completed three or more years of French, German, or Spanish in high school may not receive graded credit for 101/102 in those languages; test-out credit (T credit) may be obtained by passing an appropriate examination or by

completing an advanced sequence (200-level or higher) in that language. If these students choose to take 101-102 on a remedial basis, they will be graded S-F.

U.S. Diversity and International Perspectives Requirement: Students in early childhood education – unified fulfill the U.S. Diversity with SP ED 250 or HD FS 240. International Perspectives Requirements are met by choosing three credits of coursework from university-approved Humanities and Social Sciences included on the ECE approved options sheet.

Curriculum in Family and Consumer Sciences Education and Studies

Administered by the Department of Human Development and Family Studies. Leading to a degree bachelor of science.

This curriculum provides a broad-based program of study focusing on preparation for professional careers related to education or community leadership. Courses are required in general education and the College core. Students select one program option.

There are three choices for this curriculum.

Option 1, teacher licensure, Option 2, communications, or Option 3, professional studies. In all options, students are prepared with a broad based understanding of family and consumer sciences.

Option 1, Teacher Licensure, is designed for students seeking careers as family and consumer sciences educators in a variety of settings such as middle, junior high, and senior high schools. Further information about licensure programs appears under Teacher Education.

Option 2, Communications, is designed for students seeking careers emphasizing the use of principles in journalism, marketing, communications, and public relations with diverse populations in business or social agency settings as well as extension, community agencies, community colleges, and youth and adult education programs in the global community.

Option 3, Professional Studies, is designed to provide students with the opportunity to pursue an individualized program which is planned with their academic advisers. Careers include working with diverse populations in extension, business, community agencies, and community colleges, or non-profit groups and organizations involving youth and adult education programs.

A minor in Educational Services in Family and Consumer Sciences is available, see requirements under Human Development and Family Studies Courses and Programs or in the catalog section Family and Consumer Sciences Education and Studies (<http://www.hdfs.hs.iastate.edu/fceds>).

Total Credits required: 122.5-123.5

Curriculum in Financial Counseling and Planning

Administered by the Department of Human Development and Family Studies. Leading to the degree bachelor of science.

The **Financial Counseling and Planning** curriculum prepares students for careers in family financial services, offering three emphasis areas: Financial Planning, Financial Counseling or Family Financial Studies. Financial Counseling and Planning is a growing career field and appeals to students who want to work with individuals and families to help them meet their financial goals and improve their financial capability to better meet financial challenges. Coursework provides students with the family resource management and interpersonal skills that they need to help families thrive. Based on your specific career goals you can select a path that leads to fulfilling the education requirements for the leading designations and certifications in financial counseling and planning. Graduates of the program are prepared for employment within the public and private and not-for-profit including working in the banking and insurance industry and financial counseling and human service agencies. A minor in Financial Counseling and Planning is available; see requirements under Human Development and Family Studies Courses and Programs.

Select 18 credits from Emphasis 1 and Emphasis 2

Courses primarily for undergraduates:

HD FS 102. Individual and Family Life Development.

(3-0) Cr. 3. F.S.SS.

Development of individuals, families, and their reciprocal relationships as affected by external factors; examined within a framework of life-span developmental tasks (physical, cognitive, language, social, emotional).

HD FS 103. Professional Principles for Working with Children and Youth.

(0.5-0) Cr. 0.5. F.S.

Introduction to professional principles and ethics, understanding of child abuse reporting, universal precautions. Completion of criminal background checks for ISU practica. Offered on a satisfactory-fail basis only.

HD FS 105. Professional Principles for Working with Adults.

(0.5-0) Cr. 0.5. F.S.

Introduction to professional principles and ethics, understanding of child, dependent adults and elder abuse reporting, working with aging adults, universal precautions. Offered on a satisfactory-fail basis only.

HD FS 110. Freshman Learning Community Orientation.(1-0) Cr. 1. F. *Prereq: Membership in HD FS Learning Community*

Introduction to the Department of Human Development and Family Studies including academic requirements and opportunities, strategies for transitioning to college, learning and study strategies, reading and reflection, and career awareness.

HD FS 111. New Transfer Student Seminar.

(1-0) Cr. 1. F.S.

Introduction to HD FS curricula and faculty for students in ChFS, FCEDS or F C P. Department and University policies and procedures, degree audits, and registration. Exploration of campus resources and strategies for student success. Offered on a satisfactory-fail basis only.

HD FS 183. Personal Finance in Early Adulthood.

(1-0) Cr. 1. F.S.

Introduction to basic concepts and budgeting practices for management of resources and prevention of financial problems commonly associated with college, including credit and student loans. Offered on a satisfactory-fail basis only.

HD FS 208. Early Childhood Education Orientation.(Cross-listed with C I). Cr. 1. F.S. *Prereq: classification as ECE major*

Overview of early childhood education (birth-grade 3) teacher licensure requirements. Program planning and university procedures. Required of all students majoring in early childhood education. Offered on a satisfactory-fail basis only.

HD FS 218. Professional Orientation and Service Learning.(2-0) Cr. 2. F.S. *Prereq: Credit or concurrent enrollment in HD FS 102. For child, adult and family services majors.*

Ethics, professional development, and career exploration in child, adult and family services. Visits to and service learning with programs that serve children, adults and families with diverse needs. Participation in service learning project required. Offered on a satisfactory-fail basis only.

HD FS 224. Development in Young Children: Birth through Age 8.(3-1) Cr. 3. F.S. *Prereq: HD FS 102 and HD FS 103*

Learning, growth, and development (typical and atypical) of children from birth through age eight. Explores importance of family, programs, and a diverse society. Strategies for observing, recording, and interpreting children's cognitive, communication, motor, social, and emotional development. Practicum.

HD FS 226. Development and Guidance in Middle Childhood.(2-2) Cr. 3. F.S. *Prereq: HD FS 102 or PSYCH 230, HD FS 103*

Typical and atypical development from 5 to 12 years of age. Development in the contexts of family, school, and society. Guidance of children in family and group settings; practicum.

HD FS 227. Adolescent and Emerging Adulthood.(3-0) Cr. 3. F.S. *Prereq: HD FS 102 or PSYCH 230*

Physical, cognitive, and socioemotional development of adolescents and young adults in the context of family, relationships, and culture.

HD FS 234. Adult Development and Aging.(Cross-listed with GERON). (3-0) Cr. 3. S. *Prereq: HD FS 102*

Introductory exploration of the health, individual and social factors associated with adult development including young adulthood, middle age and older adulthood. Information is presented from a life-span developmental framework.

HD FS 239. Housing and Consumer Issues.

(3-0) Cr. 3. F.

Introduction to factors affecting housing consumption of individuals and families, including current housing consumer issues related to housing choices, housing context of neighborhoods and communities, housing structure types, and credit and housing finance. Issues such as homelessness, housing discrimination, indoor air quality, accessible design.
Meets U.S. Diversity Requirement

HD FS 240. Literature for Children.

(3-0) Cr. 3. F.S.

Evaluation of literature for children, including an emphasis on cultural, racial, ethnic, and social diversity. Roles of literature in the overall development of children. Literature selection and use.
Meets U.S. Diversity Requirement

HD FS 249. Parenting and Family Diversity Issues.

(3-0) Cr. 3. F.S.

Parenting practices and family relationships across the lifespan. Practical knowledge and techniques about how to be an effective parent. Diverse families, discipline, and parent education programs.
Meets U.S. Diversity Requirement

HD FS 269. Research in Human Development and Family Studies.(3-0) Cr. 3. F.S. *Prereq: HD FS 102 or PSYCH 230*

Understanding and evaluating research. Use of primary and secondary data to identify and study problems related to human development and family issues, including finance and housing. An introduction to statistical concepts and computer analysis. Research participation.

HD FS 270. Family Communications and Relationships.(3-0) Cr. 3. F.S. Alt. SS., offered odd-numbered years. *Prereq: HD FS 102 or PSYCH 230*

Family communication and its functions to develop, maintain, enrich and limit family relationships. Family theories related to communication and ethical considerations when working with families.

HD FS 276. Human Sexuality.

(3-0) Cr. 3. F.S.SS.

Behavioral, biological, and psychological aspects of human sexuality within the social context of family, culture, and society. Role of sexuality in human development. Critical analysis of media and research. Communication and decision-making skills relating to sexuality issues and relationships.
Meets U.S. Diversity Requirement

HD FS 283. Personal and Family Finance.

(3-0) Cr. 3. F.S.SS.

Introduction to basic principles of personal and family finance. Budgeting, record keeping, checking and savings accounts, consumer credit, insurance, investments, and taxes.

HD FS 317. Field Experiences.Cr. 1-6. Repeatable. F.S.SS. *Prereq: Permission of instructor*

Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

HD FS 317A. Field Experiences: Early Childhood Education Programs..Cr. 1-6. Repeatable. F.S.SS. *Prereq: HD FS 343.*

Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

HD FS 317B. Field Experiences: Family Services Programs..Cr. 1-6. Repeatable. F.S.SS. *Prereq: 9 credits in HD FS.*

Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

HD FS 317C. Field Experiences: Early Childhood Special Education Programs..Cr. 1-6. Repeatable. F.S.SS. *Prereq: HD FS 224*

Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

HD FS 317D. Field Experiences: School-Age Child Care Programs..Cr. 1-6. Repeatable. F.S.SS. *Prereq: HD FS 226.*

Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

HD FS 317E. Field Experiences: Infant/Toddler Programs..

Cr. 1-6. Repeatable. F.S.SS. *Prereq: HD FS 340.*
Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

HD FS 317F. Field Experiences: Research.

Cr. 1-6. Repeatable. F.S.SS. *Prereq: HD FS 269.*
Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

HD FS 317G. Field Experiences: Family Finance Programs..

Cr. 1-6. Repeatable. F.S.SS.
Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

HD FS 317K. Field Experiences: Housing Programs..

Cr. 1-6. Repeatable. F.S.SS.
Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

HD FS 317L. Field Experiences: Policy Programs.

Cr. 1-6. Repeatable. F.S.SS.
Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

HD FS 340. Assessment and Curricula: Ages Birth through 2 Years.

(3-3) Cr. 4. F.S. *Prereq: HD FS 103; HD FS 224; admission to teacher education program*
Assessment strategies for infants and toddlers, including those with special needs. Curricula, learning environments, teaching strategies, health and nutritional practices, and schedules that are developmentally, individually, and culturally appropriate. Using assessment to plan, implement, and evaluate activities to promote physical, motor, cognitive, communication, and social emotional development; practicum.

HD FS 341. Housing Finance and Policy.

(3-0) Cr. 3. F. *Prereq: 6 credits in social sciences*
The social, economic, and governmental contexts of housing and financial decision-making at the household level. Financial considerations for residential property management.

HD FS 342. Guidance and Group Management in Early Childhood.

(2-2) Cr. 3. F.S. *Prereq: HD FS 103; HD FS 224*
Guiding prosocial development, self-regulation, and task engagement of children birth to age 8. Focus is on promoting prosocial behaviors through supportive relationships and environments within diverse home, center, or school settings. Functional behavior assessment and ongoing progress monitoring for targeted and intensive interventions. Practicum.

HD FS 343. Assessment and Programming: Ages 3 through 6 Years.

(3-3) Cr. 4. F.S. *Prereq: HD FS 103; HD FS 224; HD FS 240; admission to teacher education program*
Assessment strategies for preschool and kindergarten children, including those with special needs. Learning environments, schedules, activities, nutritional practices, and teaching strategies that are developmentally, individually, and culturally appropriate. Using assessment to plan, implement, and evaluate activities to promote physical motor, cognitive, communication, and social emotional development; practicum.

HD FS 344. Programming for Children in Early Care and Education.

(3-3) Cr. 4. F.S. *Prereq: HD FS 103; HD FS 224*
Programming in inclusive child care centers and family child care homes, including those with special needs, aged birth through 8 years. Developing, implementing, and evaluating learning environments; activities and materials; behavioral guidance and classroom management practices; health and nutritional practices; and schedules to ensure developmental, individual, and cultural appropriateness. Monitoring children's development and behavior to promote physical, motor, cognitive, communication, and social emotional development. Learning to collaborate effectively with parents and staff.

HD FS 345. Adapting Programming in Inclusive Settings.

(3-0) Cr. 3. F.S. *Prereq: Credit or concurrent enrollment in HD FS 340 or HD FS 343; SP ED 250*
Adapting instruction, materials, and equipment to meet developmental needs of young children birth through age 8 with diverse learning needs and multiple disabilities in inclusive settings. Addressing individualized education programs; special health care needs, challenging behavior, and positioning and handling techniques.

HD FS 360. Housing and Services for Families and Children.

(3-0) Cr. 3. F. *Prereq: 6 credits in social sciences*
Approaches to and assessment of housing and services that assist those with special needs including those with disabilities, low-income, children at risk, single-parents, and the homeless. Emphasis on community settings; e.g., residential facilities, group housing, shelters and transitional housing.
Meets U.S. Diversity Requirement

HD FS 367. Abuse and Illness in Families.

(3-0) Cr. 3. F.S.Alt. SS., offered even-numbered years. *Prereq: HD FS 102 or PSYCH 230*
Causes and consequences of family stressors including physical, sexual, and emotional abuse; substance abuse; and mental and physical illness across the life span. Interplay between victims, offenders, and the treatment system.

HD FS 373. Death as a Part of Living.

(Cross-listed with GERON). (3-0) Cr. 3. F.S.Alt. SS., offered even-numbered years. *Prereq: HD FS 102*
Consideration of death in the life span of the individual and the family with opportunity for exploration of personal and societal attitudes.

HD FS 377. Aging and the Family.

(Cross-listed with GERON). (3-0) Cr. 3. F.Alt. SS., offered odd-numbered years. *Prereq: HD FS 102*
Interchanges of the aged and their families. Emphasis on role changes, social interaction, and independence as influenced by health, finances, life styles, and community development.
Meets U.S. Diversity Requirement

HD FS 378. Retirement Planning and Employee Benefits.

(Cross-listed with ECON, GERON). (3-0) Cr. 3. S. *Prereq: 3 credits in Principles of Economics and 3 credits in Human Development and Family Studies*
Economic well-being in the context of demographic change, the present and future of Social Security, family retirement needs analysis, investment strategies and characteristics of retirement plans, helping others to work towards financial security, family economic issues for retired persons. Overview of employee and retirement benefits.
Meets U.S. Diversity Requirement

HD FS 383. Fundamentals of Financial Planning.

(3-0) Cr. 3. F. *Prereq: HD FS 283*
Fundamental principles of the financial planning process, client/planner interactions, time value of money applications as well as analyses of ethics review, financial statements, cash flow and debt management, education planning, retirement planning, tax planning, and estate planning needs of families.

HD FS 395. Children, Families, and Public Policy.

(3-0) Cr. 3. F.S.Alt. SS., offered odd-numbered years. *Prereq: HD FS 269 or equivalent*
Public policy and politics as they affect children and families. Examination of how individuals and groups influence policy. Investigation of current issues and programs influencing the well-being and welfare of children and families.

HD FS 416. Human Development and Family Studies Seminar.

Cr. arr. Repeatable. F.S.SS. *Prereq: 8 credits in human development and family studies*
Intensive study of a selected topic in human development and family studies.

HD FS 417. Supervised Student Teaching.

Cr. 8. Repeatable. *Prereq: Reservation required*

HD FS 417C. Supervised Student Teaching: Early Childhood Special Education Programs. F.S..

Cr. 8. Repeatable. *Prereq: GPA 2.5, full admission to teacher education program, HD FS 455; HD FS 456. Teaching experience with preschool children with disabilities.*

HD FS 418. Professional Practice Reflection/Discussion.

Cr. arr. Repeatable. F.S.
Discussion of professional practice experience. Offered on a satisfactory-fail basis only.

HD FS 418A. Professional Practice Reflection/Discussion: Teaching.

(0.5-0) Cr. 0.5. F.S. *Prereq: Taken concurrently with HD FS 417*
Discussion of HD FS 417 student teaching field experience. Offered on a satisfactory-fail basis only.

HD FS 418B. Professional Practice Reflection/Discussion: Internships.

(2-0) Cr. 2. F.S. *Prereq: Junior classification*
Process and development of skills necessary for professional preparation and practice including career planning, resume writing, and interviewing. Strategies for successful career management. Offered on a satisfactory-fail basis only.

HD FS 449. Program Evaluation and Proposal Writing.(3-0) Cr. 3. F.S. *Prereq:* HD FS 269

Theory and practice of program evaluation and proposal writing in human services including needs assessment, outcome development and measurement, and proposal components. Assessment of programs' success in meeting goals.

HD FS 455. Curricula for Ages 3 through 6 Years.(3-3) Cr. 4. F.S. *Prereq:* HD FS 343, HD FS 345, SP ED 355 and SP ED 455

Program models and methods leading to development and organization of appropriate curricula in preschool and kindergarten programs for young children with diverse learning needs. Government regulations and professional standards for child programming. Teaming with parents, colleagues, and paraprofessionals to plan, implement, and evaluate developmentally and culturally appropriate individualized education plans in inclusive settings; practicum.

HD FS 456. Building Partnerships and Engaging Families.(3-0) Cr. 3. F.S. *Prereq:* HD FS 340 or HD FS 344

Family systems and the application of family centered principles in early intervention and home-based services. Impact of disability on families with young children and strategies for delivering family-centered interventions and service coordination. Understanding and measuring family outcomes of early intervention. Understanding foundations of theory and policy, establishing effective partnerships, and building family capacity through effective supports and services. Experiences with families.

HD FS 463. Environments for the Aging.

(Dual-listed with HD FS 563). (Cross-listed with ARTID, GERON). (3-0) Cr.

3. S. *Prereq:* HD FS 360 or 3 credits in housing, architecture, interior design, rehabilitation, psychology, or human development and family studies

Emphasis on independent living within residential settings including specialized shelter, supportive services, and housing management. Application of criteria appropriate for accessibility and functional performance of activities; universal design principles. Creative project provides service learning opportunities. Meets U.S. Diversity Requirement

HD FS 479. Family Interaction Dynamics.(3-0) Cr. 3. F.S. *Prereq:* HD FS 102 or equivalent; HD FS 269 or equivalent; 9 hours in social sciences; junior or senior status

Analysis of research related to family interaction processes across the family life span. Emphasis on relationship dynamics and cultural differences.

HD FS 482. Family Savings and Investments.(3-0) Cr. 3. F. *Prereq:* HD FS 283

Management of family financial resources; emphasis on savings and the investment planning process; issues facing financial planners who manage family assets. Identification of investment options including common stocks, fixed income securities, convertible securities, and related choices.

HD FS 484. Estate Planning for Families.(3-0) Cr. 3. S. *Prereq:* HD FS 283

Study of estate planning focusing on efficient conservation and transfer of wealth, consistent with client's goals. Legal, tax, financial and non-financial aspects of estate planning process; trusts, wills, probate, advanced directives, charitable giving, wealth transfers and related taxes.

HD FS 485. Capstone Course in Family Financial Planning.(3-0) Cr. 3. S. *Prereq:* HD FS 283, HD FS 378, HD FS 383, HD FS 484, HD FS 488, ACCT 485, FIN 361

Development and refinement of competencies required by personal financial planners to work with individuals and families in meeting financial objectives. Utilization of skills obtained in financial planning emphasis to complete one or more financial planning narratives.

HD FS 486. Administration of Programs for Children, Adults and Families.(3-0) Cr. 3. F.S. *Prereq:* Junior classification; 6 credits in HD FS at 300 level and above

Examination of purpose, policies, staffing, operations, and clientele of organizations serving children, adults and families with diverse needs. Management/leadership principles and techniques, including an introduction to financial management involved. Administrators/supervisors role in staff hiring, supervision, evaluation and development, as well as program evaluation, goal setting, strategic planning, and advocacy will be explored,...

HD FS 489. Financial Counseling.(Dual-listed with HD FS 589). (3-0) Cr. 3. F. *Prereq:* Graduate classification

Personal, social/psychological and legal climates affecting family financial decisions. A life cycle approach to financial decision making. Development of financial counseling and planning skills to assist families and individuals to become self-sufficient in family financial management.

HD FS 489L. Financial Counseling Laboratory.

(Dual-listed with HD FS 589L). (0-2) Cr. 1. Repeatable, maximum of 4 credits. F.S.

Prereq: Instructor permission

Practical experience in remedial, preventative, and productive approaches to both financial and housing counseling in one-on-one and/or group settings.

HD FS 490. Independent Study.Cr. arr. *Prereq:* 6 credits in human development and family studies
Consult department office for procedure.**HD FS 490A. Independent Study: Child and Family Studies.**Cr. arr. *Prereq:* 6 credits in human development and family studies
Consult department office for procedure.**HD FS 490B. Independent Study: Housing.**Cr. arr. *Prereq:* 6 credits in human development and family studies
Consult department office for procedure.**HD FS 490C. Independent Study: Family Finance.**Cr. arr. *Prereq:* 6 credits in human development and family studies
Consult department office for procedure.**HD FS 490F. Independent Study: Early Childhood Education.**Cr. arr. *Prereq:* 6 credits in human development and family studies
Consult department office for procedure.**HD FS 490G. Independent Study: Early Childhood Special Education.**Cr. arr. *Prereq:* 6 credits in human development and family studies
Consult department office for procedure.**HD FS 490H. Independent Study: Honors.**Cr. arr. *Prereq:* 6 credits in human development and family studies
Consult department office for procedure.**HD FS 490I. Independent Study: Human Development and Family Studies.**Cr. arr. *Prereq:* 6 credits in human development and family studies
Consult department office for procedure.**HD FS 490L. Independent Study: Policy Programs.**Cr. arr. *Prereq:* 6 credits in human development and family studies
Consult department office for procedure.**HD FS 491. Internship.**Cr. 4-9. Repeatable, maximum of 9 credits. F.S.SS. *Prereq:* HD FS 418B; permission of instructor; senior classification; minimum 2.0 GPA; reservation required one semester before placement

Supervised work experience related to the student's curriculum. Offered on a satisfactory-fail basis only.

HD FS 493. Workshop.(Dual-listed with HD FS 593). Cr. arr. Repeatable. F.S.SS. *Prereq:* Senior classification

Workshop in HD FS.

HD FS 499. Research.Cr. arr. Repeatable, maximum of 6 credits. F.S.SS. *Prereq:* Consult department office for procedures.

Supervised research experience.

Courses primarily for graduate students, open to qualified undergraduates:**HD FS 501. Graduate Study Orientation.**(2-0) Cr. 2. F. *Prereq:* Admission to HD FS Graduate program

Orientation to graduate study, professional development and the field of human development and family studies. Curriculum, portfolios, faculty research interests, research ethics, dissemination of research, career planning, and teaching philosophies discussed.

HD FS 503. Quantitative Research Methods.(3-0) Cr. 3. S. *Prereq:* STAT 401 or RESEV 553; concurrent enrollment in HD FS 505 or permission of instructor

Concepts, methods, and strategies for research in human development and family studies. Topics include the nature of scientific research, measurement, types of research in human development and family studies, validity of research designs, methods of data gathering, and strategies for and issues in the study of change.

HD FS 504. Qualitative Research Methods.(3-0) Cr. 3. F. *Prereq:* 9 credits of social sciences or permission of instructor

Introduction to qualitative research methodology. Application of fieldwork methods, analysis, interpretation, and writing through individual qualitative research projects.

HD FS 505. Application of Quantitative Research Methods.(3-0) Cr. 3. S. *Prereq:* STAT 401 or RESEV 553; concurrent enrollment in HD FS 503 or permission of instructor

Coding, entry and manipulation of research data. Practical applications with interactive statistical software.

HD FS 510. Theories of Human Development.

(3-0) Cr. 3. F.SS. *Prereq: 9 credits of social sciences or permission of instructor*
Theoretical approaches and current research in child, adolescent, and adult development. Individual life span perspectives. Policy implications. (Summer course offering is on-line).

HD FS 511. Family Theory.

(3-0) Cr. 3. S. *Prereq: 9 credits in social sciences or permission of instructor*
Theoretical approaches and current research in family development. Review the nature and value of theory to the study of the family and evaluate the use of theory in empirical research. Policy implications.

HD FS 530. Perspectives in Gerontology.

(Cross-listed with GERON). (3-0) Cr. 3. F.
Overview of current aging issues including theory and research, critical social and political issues in aging, the interdisciplinary focus of gerontology, career opportunities, and aging in the future. (on-line course offering via Distance Education).

HD FS 534. Adult Development.

(Cross-listed with GERON). (3-0) Cr. 3. S.
Exploration of the biological, psychological and social factors associated with aging. Although the focus is on the later years, information is presented from a life-span developmental framework. Empirical studies are reviewed and their strengths, limitations and implications for normative and optimal functioning are discussed. (on-line course offering via Distance Education).

HD FS 538. Developmental Disabilities.

(Cross-listed with PSYCH). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: 9 credits in human development and family studies or psychology or permission of instructor
Theories, research, and current issues regarding the intersection of development and disabilities. Investigation of interventions with individuals and families. (on-line course offering via Distance Education).

HD FS 541. Housing and Real Estate in Family Financial Planning.

(Cross-listed with FFP). (3-0) Cr. 3. Alt. SS., offered even-numbered years.
The role of housing and real estate in the family financial planning process, including taxation, mortgages, financial calculations, legal concerns, and ethical issues related to home ownership and real estate investments. Emphasis on emerging issues in the context of housing and real estate. (on-line course offering via Distance Education).

HD FS 545. Economics, Public Policy, and Aging.

(Cross-listed with GERON). (3-0) Cr. 3. F.
Policy development in the context of the economic status of the older adult population. Retirement planning and the retirement decisions; social security and public transfer programs; intra-family transfers to/from the aged; private pensions; financing medical care; prospects and issues for the future.

HD FS 555. Current Issues and Research in Early Childhood Services.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq: 9 credits in social sciences or permission of instructor*
Analysis of contemporary and historical early childhood/early intervention/early childhood special education model programs and services. Examination of relationships among service systems and implementation, program quality, teacher effectiveness, and outcomes for children with and without disabilities. (on-line course offering via Distance Education).

HD FS 563. Environments for the Aging.

(Dual-listed with HD FS 463). (Cross-listed with ARTID, GERON). (3-0) Cr. 3. S. *Prereq: HD FS 360 or 3 credits in housing, architecture, interior design, rehabilitation, psychology, or human development and family studies*
Emphasis on independent living within residential settings including specialized shelter, supportive services, and housing management. Application of criteria appropriate for accessibility and functional performance of activities; universal design principles. Creative project provides service learning opportunities. Meets U.S. Diversity Requirement

HD FS 566. Family Policy.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq: 9 credits in social sciences or permission of instructor*
Explores current, enduring, and some controversial family policies and programs. Examines the effect of public policies on families and children, especially those at risk. Describes work roles in family policy and the interaction of family researchers and policymakers.

HD FS 567. Family Stress, Abuse, and Illness.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq: 9 credits in social sciences or permission of instructor*
Explores research related to family stress within romantic, parent-child, and sibling relationships. Examines contemporary theory and research on the nature, causes, and consequences of family stressors. These stressors include, but are not limited to economic distress; physical and emotional abuse; substance abuse; and mental and physical illness across the life span.

HD FS 568. Individual and Family Assessment.

(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: HD FS 510 or permission of instructor*
Use of interviews, observational assessments, direct tests with individuals and families for research and intervention. Opportunities to practice assessments.

HD FS 575. Cross-cultural Perspectives about Families and Children.

(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: 6 credits in social sciences or permission of instructor*
Review about cultural influences on the development of children, youth, and family life here in the United States and internationally. Using various strategies including DVDs, readings, and interviews, students will reflect upon their own culture and the child rearing practices, family roles, values, and traditions in different cultures. Discussion may also include the impact on human rights and social justice of particular practices. (on-line course offering via Distance Education). Meets International Perspectives Requirement.

HD FS 577. Aging in the Family Setting.

(Cross-listed with GERON). (3-0) Cr. 3. S. *Prereq: 9 credits in social sciences or permission of instructor*
Theories and research related to personal and family adjustments in later life affecting older persons and their intergenerational relationships. Related issues including demographics also are examined through the use of current literature. ,Spring 2013: on-line via Distance Education; Spring 2014: on campus.

HD FS 579. Family Well-being across the Lifespan.

(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: 9 credits in social sciences or permission of instructor*
Review of current research to provide a theoretical and practical understanding of the economic, social, and psychological factors that influence interpersonal relationships and individual well-being within the institution of the family system. Economic and policy effects considered. (on-line course offering via Distance Education).

HD FS 581. International Study in Human Development and Family Studies.

Cr. 1-12. Repeatable, maximum of 12 credits. F.S.SS. *Prereq: Permission by application*
Limited enrollment. Supervised international study experiences in Human Development and Family Studies. Countries vary.

HD FS 581A. International Study in HD FS: Practicum.

Cr. 1-12. Repeatable, maximum of 12 credits. F.S.SS. *Prereq: Permission by application*
Limited enrollment. Supervised international study experiences in Human Development and Family Studies. Countries vary.

HD FS 581B. International Study in HD FS: Exchange.

Cr. 1-12. Repeatable, maximum of 12 credits. F.S.SS. *Prereq: Permission by application*
Limited enrollment. Supervised international study experiences in Human Development and Family Studies. Countries vary.

HD FS 581C. International Study in HD FS: Group Study.

Cr. 1-12. Repeatable, maximum of 12 credits. F.S.SS. *Prereq: Permission by application*
Limited enrollment. Supervised international study experiences in Human Development and Family Studies. Countries vary.

HD FS 583. Investing for the Family's Future.

(Cross-listed with FFP). (3-0) Cr. 3. F. *Prereq: HD FS 483*
Evaluation of investment markets for the household. Analysis of how families choose where to put their savings. Emphasis is on using the family's overall financial and economic goals to help inform investment choices. (on-line course offering via Distance Education).

HD FS 584. Program Evaluation and Research Methods in Gerontology.

(Cross-listed with GERON). (3-0) Cr. 3. S.
Overview of program evaluation, research methods, and grant writing in gerontology. Includes application of quantitative and qualitative methods in professional settings. (on-line course offering via Distance Education).

HD FS 585. Program Evaluation.

(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: 6 credits in graduate level social sciences or permission of instructor*

Theoretical and practical issues related to design and implementation of program evaluation. Includes theory, design, implementation, analysis and report writing to assist programs to be successful in meeting program goals.

HD FS 588. Family Economics.

(3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq: 6 credits in sociology or economics*

Analysis of family income, wealth, and economic well-being. Emphasis on effects of family behavior and public policies on the adequacy and security of income across the family life cycle. Implications of resource allocation within the family for adult and child well-being.

HD FS 589. Financial Counseling.

(Dual-listed with HD FS 489). (3-0) Cr. 3. F. *Prereq: Graduate classification*

Personal, social/psychological and legal climates affecting family financial decisions. A life cycle approach to financial decision making. Development of financial counseling and planning skills to assist families and individuals to become self-sufficient in family financial management.

HD FS 589L. Financial Counseling Laboratory.

(Dual-listed with HD FS 489L). (0-2) Cr. 1. Repeatable, maximum of 4 credits. F.S. *Prereq: Instructor permission*

Practical experience in remedial, preventative, and productive approaches to both financial and housing counseling in one-on-one and/or group settings.

HD FS 590. Special Topics.

Cr. arr. Repeatable. *Prereq: Permission of instructor*

Consult department office on procedure for filing a written plan of study.

HD FS 590I. Special Topics: Human Development and Family Studies.

Cr. arr. Repeatable. *Prereq: Permission of instructor*

Consult department office on procedure for filing a written plan of study.

HD FS 591. Internship.

Cr. arr. Repeatable. F.S.SS. *Prereq: 10 graduate credits*

Supervised experience in an area of human development and family studies.

HD FS 591I. Internship: Human Development and Family Studies.

Cr. arr. Repeatable. F.S.SS. *Prereq: 10 graduate credits*

Supervised experience in an area of human development and family studies.

HD FS 593. Workshop.

(Dual-listed with HD FS 493). Cr. arr. Repeatable. F.S.SS. *Prereq: Senior classification*

Workshop in HD FS.

HD FS 594. Professional Seminar in Gerontology.

(Cross-listed with GERON). (3-0) Cr. 3. SS.

An integrative experience for gerontology students designed to be taken near the end of the degree program. By applying knowledge gained in earlier coursework, students will strengthen skills in ethical decision-making behavior, applying these skills in gerontology-related areas such as advocacy, professionalism, family and workplace issues. Students from a variety of professions will bring their unique perspectives to bear on topics of common interest. (on-line course offering via Distance Education).

HD FS 599. Creative Component.

Cr. arr. F.S.SS. *Prereq: 9 graduate credits in HD FS*

Nonthesis students creative component (e.g., a special report, capstone course, integrated field experience, annotated bibliography, research project, design, or other creative endeavor). A minimum of five credits of independent work is required on the programs of study (POS). Creative component format determined cooperation with the POS committee.

Courses for graduate students:**HD FS 603. Advanced Quantitative Methods.**

(3-0) Cr. 3. S. *Prereq: HD FS 503, HD FS 505; STAT 402 or STAT 404 or permission of instructor*

Methodological and analytical issues in research in human development and family studies. Advanced research design and measurement, selection of statistical techniques, and issues in the interpretation of findings.

HD FS 604. Advanced Qualitative Methods.

(3-0) Cr. 3. S. *Prereq: HD FS 504 or permission of instructor*

Research methodologies including phenomenology, grounded theory, ethnography, and case studies. Methods of data collection and analysis procedures. Issues of ethics and interpretation of findings.

HD FS 605. Multi-level Modeling.

(Cross-listed with PSYCH). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

Prereq: HD FS 503 and HD FS 505 or STAT 404 or permission of instructor

Rationale for and interpretation of random coefficient models. Strategies for the analysis of multi-level and panel data including models for random intercepts, random slopes, and growth curves. Applications including HLM, SAS, PROC MIX, and MPLUS.

HD FS 606. Advanced Structural Equation and Longitudinal Modeling.

(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: HD FS 603 or STAT 404 or permission of instructor*

Rationale for and interpretation of advanced structural equation modeling for the analysis of longitudinal data. Emphasis will be placed on developing a working familiarity with some of the common statistical procedures, coupled with their application through the use of statistical software potentially including AMOS, LISREL, SAS, and MPLUS.

HD FS 607. Research Methods: Mixed Methods.

(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: HD FS 503, HD FS 504, HD FS 505, or permission of instructor*

Foundations of mixed methods research, controversies, and philosophical concerns. Rationale for and interpretation of mixed methods designs. Research design, sampling, data collection, data analysis, results, and interpretation.

HD FS 608. Grant Writing for Research.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq: HD FS 503, HD FS 505, and HD FS 504 or permission of instructor*

Understand how to identify funding sources as well as the fundamental components of a federal research grant proposal such as the abstract or summary, background and significance, specific aims/goals and objectives, project design and methods, sustainability, assessment, broader impacts, dissemination, budget, budget justification, and cover letter. (Summer course offering is on-line via Distance Education).

HD FS 616. Seminar.

Cr. arr.

May be repeated. F.S.SS.

HD FS 631. Child Development.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq: HD FS 510 or permission of instructor*

Young children's cognitive, physical, communication, and social-emotional development, typical and atypical, will be examined. Research on current trends in the field will be emphasized. (on-line course offering via Distance Education).

HD FS 632. Support and Interventions in Early Childhood.

(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: HD FS 510 or permission of instructor*

Issues related to special learning needs of children ages 3-8. Design and implementation of group and individual intervention strategies including Positive Behavioral Interventions and Supports. Discussion of coaching strategies to improve intervention implementation. (on-line course offering via Distance Education).

HD FS 633. Infant Mental Health.

(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: HD FS 510 or permission of instructor*

Examination of the individual, interpersonal, and familial factors that influence infant (birth through age 3) mental health. Analysis of the risk and protective factors that influence these systems and their potential effects on social-emotional development. Current issues relating to effective programs for improving parent-infant interactions and additional supports available to families. (on-line course offering via Distance Education).

HD FS 634. Adolescence and Emerging Adulthood.

(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: HD FS 510 or permission of instructor*

Theory and research on biopsychosocial, cognitive, physical and sexual development from early adolescence to emerging adulthood. Contexts of development including families, peers, schools, neighborhoods, romantic relationships, economics and public policies are considered. (on-line course offering via Distance Education).

HD FS 635. Adult Development and Aging.

(3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq: HD FS 510 or permission of instructor*

Exploration of the biological, psychological and social factors associated with aging. Although the focus is on the later years, information is presented from a life-span developmental framework. Empirical studies are reviewed and their strengths, limitations and implications for normative and optimal functioning are discussed. (on-line course offering via Distance Education).

HD FS 690. Advanced Topics.

Cr. arr. Repeatable. *Prereq: Permission of instructor and enrollment in Ph.D. program*

HD FS 690I. Advanced Topics: Human Development and Family Studies.

Cr. arr. Repeatable. *Prereq: Permission of instructor and enrollment in Ph.D. program*

HD FS 691. Internship.

Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor*
Supervised practice and experience in the following specified areas: Offered on a satisfactory-fail basis only.

HD FS 691A. Internship: College Teaching.

Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor*
Supervised practice and experience in the following specified areas: Offered on a satisfactory-fail basis only.

HD FS 691B. Internship: Research.

Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor*
Supervised practice and experience in the following specified areas: Offered on a satisfactory-fail basis only.

HD FS 691D. Internship: Professional Experience.

Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor*
Supervised practice and experience in the following specified areas: Offered on a satisfactory-fail basis only.

HD FS 699. Research.

Cr. arr. Repeatable.
Offered on a satisfactory-fail basis only.

HD FS 699I. Research: Human Development and Family Studies.

Cr. arr. Repeatable.
Offered on a satisfactory-fail basis only.

Kinesiology

Mission

We promote health and well-being by creating and disseminating knowledge about physical activity and active living. Through discovery, learning and engagement we improve the lives of citizens of Iowa, the United States and the world.

Goals

The department has identified the following goals to support this mission:

1. We seek to improve the lives of citizens of Iowa, the United States, and the world by the creation and dissemination of knowledge about physical activity and its relationship to health and well-being.
2. We prepare scholars and professionals in the study of physical activity at the undergraduate and graduate levels.
3. We educate the public and the University community in the scientific aspects of physical activity especially exercise, sport, and the role of movement throughout the lifespan.

Undergraduate Study

The Department of Kinesiology offers two Bachelor of Science degrees: Athletic Training and Kinesiology & Health. The undergraduate curriculum major/option is comprised of three components: general education, required departmental courses and the major/option courses. The intent of the general education component is to promote intellectual and personal growth and to prepare students for success in the basic, advanced and major/option components. Required courses provide an introduction to the field and fundamental principles of physical activity, fitness, health and disease.

B.S. degree in Athletic Training

Certified Athletic Trainers are allied medical health professionals who specialize in the prevention, assessment, treatment and rehabilitation of injuries to athletes and physically active individuals who are engaged in physical and athletic activities. To gain certification, candidates must graduate from a CAATE accredited athletic training education program and successfully pass the Board of Certification (BOC) examination. Many states also have licensure requirements to practice athletic training. The Athletic Training education program at Iowa State University, accredited since 2001, includes various athletic training clinical rotations including high school, physical therapy clinics, surgical observation experiences, and emergency room observation. The Athletic Training Program utilizes a competitive admission process for undergraduate students.

B.S. degree in Kinesiology & Health

The Kinesiology & Health major includes four specialization options. Options comprise a focused area of study within Kinesiology and Health. Coursework within each specialization option builds upon personal and scholarly learning by enabling students to master content and skills specific to career applications. Options available are:

1. Community and Public Health
2. Exercise Science
3. Pre-Health Professions
4. Physical Education/Teacher Education

Academic options within the Kinesiology & Health major

Students in the Community and Public Health option are prepared for professional employment at local, state or national health agencies, medical centers, and other public organizations that seek to promote health in the population. The curriculum prepares students to take the Certified Health Education Specialist certification examination upon graduation.

Students in the Exercise Science option are prepared for professional roles as health and fitness leaders or program managers. Employment opportunities include work in corporate fitness programs, health clubs, cardiac rehabilitation programs or personal training. Graduates are able to plan, implement and supervise exercise programs which will improve fitness and health. Graduates also have a basic understanding of economic and management issues related to business applications in the health and fitness field.

Students in the Pre-Health Professions option utilize an interdisciplinary approach to the study of human movement. In so doing, they become prepared for graduate study in Kinesiology or advanced study leading to careers in medicine, physical therapy, physician assistant or other healthcare profession.

Students in the Physical Education/Teacher Education option are prepared to teach physical education in grades K-12 and to meet the State of Iowa learning outcomes for teachers. Graduates can plan developmentally appropriate physical education, and individualize instruction and assessment for diverse audiences. Enrollment in the Physical Education/Teacher Education option is limited because of accreditation requirements and the provision of more individualized field experiences.

Learning outcomes for the undergraduate degree

Despite the diversity of options, the learning outcomes comprise a common framework for each student as they progress through Iowa State University.

The learning outcomes emphasized in academic coursework in the Department of Kinesiology are:

Communication

Uses clear and effective written, oral, visual, and electronic (WOVE) communication techniques to foster inquiry, collaboration, and engagement in physical activity and health related settings.

Lifelong learning, assessment, and self-reflection

Analyzes and evaluates one's own knowledge, abilities and actions relative to professional standards, seeks opportunities to grow professionally, and utilizes self-assessment and assessment of others to foster physical, cognitive, social, and emotional well-being.

Content knowledge, discovery, and critical thinking

Understands fundamental concepts of physical activity and health, conducts scientific inquiry, and applies critical thinking to solve problems from personal, scholarly, and professional perspectives.

Ethics, diversity, and social justice

Demonstrates leadership and social responsibility to improve quality of life for others and ensures equitable access for diverse groups by creating appropriate environments to initiate and maintain a physically active, healthy lifestyle.

Other Program Offerings:

B.S./M.S. degree in Diet and Exercise

A combined Bachelor of Science and Master of Science (B.S./M.S.) degree in Diet and Exercise is available. The program is jointly administered by the Department of Food Science and Human Nutrition (FS HN), within the College of Agriculture and Life Sciences and the College of Human Sciences, and the Department of Kinesiology, within the College of Human Sciences. Students interested in this program must enroll as freshmen in the Pre-Diet and Exercise program. In the fall of the junior year, students will apply for admission to the B.S./M.S. program. Students not accepted into the program will continue toward completion of a B.S. degree in Dietetics or Kinesiology & Health. Coursework has been designed to facilitate a 4-year graduation date for those students not accepted into the program and electing to complete a single undergraduate degree. Students accepted into the program will progress toward completion of B.S./M.S. degrees in Diet and Exercise.

Endorsement to coach interscholastic athletics

The State Department of Education has provided for the endorsement of licensed teachers for the coaching of athletic teams in schools. The endorsement does not lead to licensure to teach physical education. For requirements of the program, leading to the coaching endorsement, see Teacher Education, Requirements for Areas of Specialization.

Endorsement to teach health education

Those interested in teaching health education in the public schools may get a primary endorsement or an additional endorsement. The State Department of Education has approved the Health Teaching Licensure for grades 5-12.

Basic Activity Instruction Program

The department offers a wide selection of beginning, intermediate, and advanced courses in the areas of aquatics, dance, and sports. These courses are designed to serve general education purposes for all students.

Dance

Coursework in dance provides opportunities for students to develop an understanding and appreciation of dance as part of a liberal education. Those interested in teaching dance and Physical Education in the public schools may major in Kinesiology and Health (Teacher Licensure option) and minor in Dance.

An interdisciplinary Performing Arts major with a Dance emphasis is available through the College of Liberal Arts and Sciences. For further information see Index, Theatre and Performing Arts.

Graduate Study

The Department of Kinesiology graduate seeks to integrate discovery and learning by preparing graduate students to understand and create basic and applied knowledge in the study of physical activity, exercise and sport. The normal prerequisite to major graduate work is the satisfactory completion of a curriculum essentially equivalent to that required of undergraduate students in kinesiology at this university. However, it is possible for students to qualify for graduate study if undergraduate preparation has been in a related area.

Students in the M.S. and Ph.D. degrees are required to complete original research and write a thesis or dissertation. There is a non-thesis degree option for M.S. students requiring more coursework and an internship experience or other creative component. Specific information about the requirements for these degree options is available from the department office or from the department web site (<http://www.kin.hs.iastate.edu/graduate>).

The department participates in the interdepartmental minor in gerontology (see Index).

Curriculum in Athletic Training

The athletic training major prepares students for a career as an athletic trainer in high school, college or professional settings or for work in other settings (such as sports medicine clinics, the military, industry, and fitness centers). See program details for course requirements. Admission procedures and technical standards can be found at www.cycloneathletictraining.com (<http://www.cycloneathletictraining.com>).

Curriculum in Kinesiology and Health

The curriculum in Kinesiology and Health is designed for students preparing to enter professional areas related to the health, physical activity, exercise or sport science fields. Students majoring in Kinesiology & Health may select one of four options:

1. Community and Public Health
2. Exercise Science
3. Pre-Health Professions
4. Physical Education Teacher Education

Minors in athletic coaching, dance, exercise science, health promotion, kinesiology, and sport and recreation are available; see requirements under Kinesiology, Undergraduate Programs.

A major in Performing Arts with a dance emphasis is available; see requirements under Curriculum in Performing Arts in Theatre.

Communication Proficiency

In order to meet graduation requirements, all students must earn an average of C (2.0) or better in ENGL 150 and ENGL 250, with neither grade being lower than a C-. Students not meeting this condition must earn a C or better in an advanced writing course:

ENGL 220	Descriptive English Grammar	3
ENGL 302	Business Communication	3
ENGL 309	Report and Proposal Writing	3
ENGL 314	Technical Communication	3

U.S. Diversity and International Perspectives

In order to meet graduation requirements, all students must complete 3 cr. of course work in U.S. Diversity and 3 cr. in International Perspectives. See university approved list.

General Education: Minimum of 38.5 credits required

Physical and Life Sciences: 8 cr. min required

BIOL 255	Fundamentals of Human Anatomy	3
BIOL 255L	Fundamentals of Human Anatomy Laboratory	1
BIOL 256	Fundamentals of Human Physiology	3
BIOL 256L	Fundamentals of Human Physiology Laboratory	1

Additional option-specific requirements are:

Community and Public Health

BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
CHEM 163	College Chemistry	4
CHEM 163L	Laboratory in College Chemistry	1
MICRO 201	Introduction to Microbiology	2
MICRO 201L	Introductory Microbiology Laboratory	1
FS HN 167	Introduction to Human Nutrition	3

Exercise Science

PHYS 115	Physics for the Life Sciences	4
----------	-------------------------------	---

Physical Education Teacher Education

PHYS 115	Physics for the Life Sciences	4
----------	-------------------------------	---

Pre-Health Professions

PHYS 111	General Physics	4-5
or PHYS 115	Physics for the Life Sciences	

Mathematics and Statistics: 3 cr. min required

Option-specific requirements are:

Community and Public Health

From the following:		3-4
STAT 101	Principles of Statistics	
or STAT 104	Introduction to Statistics	
or STAT 226	Introduction to Business Statistics I	

Exercise Science

From the following:		2-3
MATH 140	College Algebra	
or MATH 142	Trigonometry and Analytic Geometry	

or MATH 165	Calculus I	
From the following:		3-4
STAT 101	Principles of Statistics	
or STAT 104	Introduction to Statistics	
or STAT 226	Introduction to Business Statistics I	

Physical Education Teacher Education

One of the following:		2-3
MATH 104	Introduction to Probability	
or MATH 140	College Algebra	
or MATH 142	Trigonometry and Analytic Geometry	
or MATH 150	Discrete Mathematics for Business and Social Sciences	
or MATH 165	Calculus I	

Pre-Health Professions

One of the following:		3-4
MATH 142	Trigonometry and Analytic Geometry	3
or MATH 140	College Algebra	
or MATH 165	Calculus I	
or MATH 181	Calculus and Mathematical Modeling for the Life Sciences I	
One of the following:		3-4
STAT 101	Principles of Statistics	
or STAT 104	Introduction to Statistics	
or STAT 226	Introduction to Business Statistics I	

Social Sciences: 9 cr. min required**Option-specific requirements are:****Community and Public Health**

PSYCH 101	Introduction to Psychology	3
or PSYCH 230	Developmental Psychology	

Exercise Science

PSYCH 101	Introduction to Psychology	3
or PSYCH 230	Developmental Psychology	
SOC 134	Introduction to Sociology	3

Physical Education Teacher Education

PSYCH 230	Developmental Psychology	3
SOC 134	Introduction to Sociology	3

Pre-Health Professions

PSYCH 101	Introduction to Psychology	3
or PSYCH 230	Developmental Psychology	
SOC 134	Introduction to Sociology	3

Humanities: 6 cr. min required

Choose from department approved list.

Communications: 13 cr. min required

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
SP CM 212	Fundamentals of Public Speaking	3
LIB 160	Information Literacy	1
One of the following		3
ENGL 302	Business Communication	
ENGL 314	Technical Communication	
SP CM 312	Business and Professional Speaking	

Program requirements:

The following courses are required in all majors and options:

H S 110	Personal and Consumer Health	3
KIN 252	Disciplines and Professions in Kinesiology and Health	1
KIN 253	Orientation in Kinesiology and Health	1
KIN 258	Physical Fitness and Conditioning	2

KIN 358	Physiology of Exercise (*)	3
H S 350	Human Diseases (*)	3

* A grade of C- or better is required.

Total cr. required: A minimum of 124 credits is required, with a minimum of 46 credits in courses numbered 300 or above.

Courses for Kinesiology and Health Major**Option 1. Community and Public Health**

This option prepares students for careers in health promotion and disease prevention. Students are prepared for work in state and local health agencies, community and government programs, hospitals, worksite health programs, and not-for-profit organizations. Graduates are eligible to take the Certified Health Education Specialist (CHES) exam.

Option Requirements:

P R 220	Principles of Public Relations	3
or P R 305	Publicity Methods	
H S 105	First Aid and Emergency Care	2
H S 215	Drug Education	3
H S 310	Community and Public Health (*)	3
H S 380	Worksite Health Promotion	3
H S 385	Strategies for Professional School and Field Experience Opportunities	R
H S 430	Community Health Program Development	3
H S 485	Directed Field Experience in Health Promotion (take 10 to 16 credits)	1-16

HD FS 449	Program Evaluation and Proposal Writing	3
or ENGL 309	Report and Proposal Writing	
P R 220	Principles of Public Relations	3
or P R 305	Publicity Methods	
KIN 366	Exercise Psychology (*)	3

One of the following

ENGL 313	Rhetorical Website Design	
or HD FS 395	Children, Families, and Public Policy	

Electives: 11-18 credits

* A grade of C- or better is required.

Option 2. Exercise Science

This option prepares students for careers in exercise/fitness promotion. Students are prepared as health/fitness specialists, personal trainers, strength and conditioning specialists, and health coaches. Students find work in fitness centers, worksite health programs, medical facilities, cardiac rehabilitation centers, and other agencies that provide fitness services. Students are eligible to sit for certification exams offered by the American College of Sports Medicine and the National Strength & Conditioning Association.

Option Requirements:

KIN 259	Leadership Techniques for Fitness Programs	2
KIN 266	Advanced Strength Training and Conditioning	2
KIN 345	Management of Health-Fitness Programs and Facilities	3
KIN 355	Biomechanics (*)	3
KIN 360	Sociology of Sport and Exercise (*)	3
KIN 366	Exercise Psychology (*)	3
KIN 372	Motor Control and Learning Across the Lifespan (*)	3
KIN 385	Strategies for Professional School and Field Experience Opportunities	R
KIN 458	Principles of Fitness Assessment and Exercise Prescription (*)	4
KIN 459	Internship in Exercise Leadership	1
KIN 462	Medical Aspects of Exercise	3
KIN 485A	Internship in Exercise Science: Health/Fitness Management. (take 8 to 16 crs)	8-16

H S 380	Worksite Health Promotion	3
A TR 220	Basic Athletic Training	2
or H S 305	Instructor's First Aid and Cardio-pulmonary Resuscitation	

Electives: 15-25 credits

* A grade of C- or better is required.

Option 3. Physical Education Teacher Education

This option is for students seeking a license to teach K-12 physical education. All courses required for licensure have a minimum grade requirement of a C or C-. Students interested in a coaching and/or a health endorsement must complete additional coursework.

Option Requirements:

KIN 230	Fundamentals of Aquatics	1
KIN 231	Fundamentals of Tumbling and Gymnastics	1
KIN 238	Fundamentals of Outdoor and Adventure Activities	1
KIN 232	Fundamentals of Indoor Team Sports	1
or KIN 233	Fundamentals of Outdoor Team Sports	
KIN 235	Fundamentals of Racquet Sports	1
or KIN 236	Fundamentals of Individual Sports	
KIN 280	Directed Field Experience in Elementary Physical Education	1
KIN 281	Directed Field Experience in Secondary Physical Education	1
KIN 312	Movement Education in Elementary School Physical Education	3
KIN 313	Teaching Secondary Physical Education (*)	3
KIN 355	Biomechanics (*)	3
KIN 360	Sociology of Sport and Exercise (*)	3
KIN 365	Sport Psychology (*)	3
KIN 372	Motor Control and Learning Across the Lifespan (*)	3
KIN 395	Adapted Physical Education	3
KIN 417	Supervised Teaching in Physical Education in the Secondary School	arr †
KIN 418	Supervised Teaching in Physical Education in the Elementary School	8
KIN 471	Measurement in Physical Education	3
KIN 475	Physical Education Curriculum Design and Program Organization	3
DANCE 211	Fundamentals and Methods of Social and World Dance	2
H S 105	First Aid and Emergency Care (*)	2
H S 305	Instructor's First Aid and Cardio-pulmonary Resuscitation (*)	2
C I 202	Learning Technologies in the 7-12 Classroom	3
C I 204	Social Foundations of Education in the United States	3
C I 406	Multicultural Foundations of School and Society: Introduction	3

Electives: 6 credits

† Arranged with instructor.

Option 4. Pre-Health Professions

This option is for students interested in graduate study or for those who are preparing for professional programs in medicine, physical therapy, physician assistant, and other healthcare professions. Course work provides background in human movement while completing the requirements for entry into graduate or professional school.

Option Requirements:

BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
BIOL 212	Principles of Biology II	3
BIOL 212L	Principles of Biology Laboratory II	1
KIN 355	Biomechanics (*)	3
KIN 360	Sociology of Sport and Exercise (*)	3
KIN 365	Sport Psychology (*)	3
or KIN 366	Exercise Psychology	
KIN 372	Motor Control and Learning Across the Lifespan (*)	3
KIN 385	Strategies for Professional School and Field Experience Opportunities	R
9 cr. from the following		9
KIN 455	Research Topics in Biomechanics	

KIN 458 Principles of Fitness Assessment and Exercise Prescription

KIN 462 Medical Aspects of Exercise

KIN 467 Exercise and Health: Behavior Change

KIN 472 Neural Basis of Human Movement

KIN 480 Functional Anatomy

KIN 481 Biomechanics Lab

KIN 482 Exercise Physiology Lab

KIN 483 Exercise Psychology Lab

KIN 484 Assessment and Control of Locomotion

KIN 495 Seminar in Exercise and Sport Science

Specialization Requirements: Sciences as required by professional schools. 14-30 credits

Electives: 5-24 credits

* A grade of C- or better is required.

Minors

Athletic Coaching

The minor requires a minimum of 17 credits and may be earned by completing the following:

A TR 220	Basic Athletic Training	2
KIN 315	Coaching Theory and Administrative Issues	3
KIN 365	Sport Psychology	3
BIOL 155	Human Biology	3
or BIOL 255	Fundamentals of Human Anatomy	
PSYCH 230	Developmental Psychology	3
3 cr. from the following		3
KIN 355	Biomechanics	
or KIN 358	Physiology of Exercise	

Dance

The minor requires a minimum of 21 credits and may be earned by completing the following:

DANCE 220	Modern Dance Composition	2
DANCE 222	Modern Dance II	1
DANCE 270	Dance Appreciation	3
DANCE 320	Sound and Movement	3
DANCE 360	History and Philosophy of Dance	3
DANCE 384	Teaching Children's Dance	2
DANCE 385	Methods of Teaching Dance	2
DANCE 386	Teaching Dance Technique and Composition	2

3 additional credits selected from dance courses numbered 200 or above.*

*Participation in Orchestral I or II is recommended.

Exercise Science

The minor requires a minimum of 17 credits and may be earned by completing the following:

KIN 258	Physical Fitness and Conditioning	2
KIN 358	Physiology of Exercise	3
KIN 366	Exercise Psychology	3
3-6 cr. from the following		3-6
A TR 220	Basic Athletic Training	
KIN 259	Leadership Techniques for Fitness Programs	
KIN 266	Advanced Strength Training and Conditioning	
KIN 345	Management of Health-Fitness Programs and Facilities	
KIN 360	Sociology of Sport and Exercise	
3-6 cr. from the following		3-6
KIN 458	Principles of Fitness Assessment and Exercise Prescription	
KIN 462	Medical Aspects of Exercise	
KIN 467	Exercise and Health: Behavior Change	

Health promotion

The minor requires a minimum of 18 credits and may be earned by completing the following:

H S 110	Personal and Consumer Health	3
H S 350	Human Diseases	3
H S 380	Worksite Health Promotion	3
3-6-cr. from the following		
H S 215	Drug Education	
H S 305	Instructor's First Aid and Cardio-pulmonary Resuscitation	
H S 310	Community and Public Health	
3-6 cr. from the following		
H S 430	Community Health Program Development	
KIN 467	Exercise and Health: Behavior Change	

Kinesiology

The minor requires a minimum of 15 credits and may be earned by completing the following: (For non-majors only.)

KIN 355	Biomechanics	3
KIN 358	Physiology of Exercise	3
KIN 360	Sociology of Sport and Exercise	3
KIN 372	Motor Control and Learning Across the Lifespan	3
KIN 365	Sport Psychology	3
or KIN 366	Exercise Psychology	

Sport and Recreation

The minor requires a minimum of 18 credits and may be earned by completing the following:

KIN 315	Coaching Theory and Administrative Issues	3
KIN 365	Sport Psychology	3
KIN 360	Sociology of Sport and Exercise	3
KIN 399	Recreational Sport Management	3
MGMT 370	Management of Organizations	3
3 cr. from the following		
ADVRT 230	Advertising Principles	
HRI 260	Global Tourism Management	
P R 220	Principles of Public Relations	
P R 305	Publicity Methods	
MGMT 310	Entrepreneurship and Innovation	
MGMT 313	Feasibility Analysis and Business Planning	
MGMT 371	Organizational Behavior	
MGMT 471	Personnel and Human Resource Management	

Courses primarily for undergraduates:

A TR 218. Orientation to Athletic Training Clinical Experience.

(0-2) Cr. 0.5. F.

Pre-athletic training clinical experience designed to orientate students to the athletic training profession prior to enrolling in athletic training course sequence. Students will observe athletic trainers in various athletic training clinical sites. Open to pre-athletic training students only. Offered on a satisfactory-fail basis only.

A TR 219. Clinical Practicum in Athletic Training.

(0-2) Cr. 1. F.

Athletic training clinical experiences designed to review human anatomical structures including origin, insertion, action, innervations of muscles. Students will gain experience with palpation of these structures to help identify location of anatomical landmarks. Students will also gain experience identifying bones, ligaments, and tendons. Open to athletic training students only.

A TR 220. Basic Athletic Training.

(1-2) Cr. 2. Prereq: BIOL 155 or BIOL 255 and BIOL 256

Introduction to methods of prevention and immediate care of athletic injuries. Basic information concerning health supervision of athletes, and some basic wrapping and strapping techniques for common injuries. Non A TR majors only.

A TR 221. Pre-Athletic Training Clinical Practicum.

(0-3) Cr. 1. S. Prereq: Credit or enrollment in KIN 222 and permission of athletic training program director

Athletic training clinical observation experiences to accompany 222. Utilize knowledge to evaluate, analyze and demonstrate appropriate taping, wrapping and basic skill techniques. Open to students interested in the athletic training option. Offered on a satisfactory-fail basis only.

A TR 222. Basic Athletic Training for Athletic Trainers.

(2-2) Cr. 3. S. Prereq: BIOL 255, BIOL 255L

Provides pre-athletic training students with the knowledge of the profession of a certified athletic trainer, factors associated with injury prevention, treatment, emergency care of athletic injuries, protective equipment, basic organization, administrative, and legal concepts in the athletic training setting. To be taken concurrently with 221.

A TR 223. Clinical Practicum in Athletic Training.

(0-3) Cr. 1. F. Prereq: Permission of Athletic Training Program Director

Athletic training clinical experiences for athletic training students during pre-season intercollegiate football. Clinical experiences include: Professional Rescuer CPR, AED certification, emergency splinting and spineboarding, medical record keeping and HIPPA regulations, environmental conditions, prevention of injury screening strategies, athletic training room and education program policies and procedures, review of athletic taping techniques, acute injury management, mouthpiece formation, and anatomy review. Offered on a satisfactory-fail basis only.

A TR 224. Evaluation of Athletic Injuries I.

(2-3) Cr. 3. F. Prereq: Permission of athletic training program director

Sport injury assessment procedures and evaluation techniques for lower body injuries. Includes an overview of mechanisms of injury, general musculoskeletal disorders, and spine or neurological dysfunction. Designed for students in the athletic training major.

A TR 225. Athletic Injuries I Clinical Practicum.

(0-3) Cr. 1. F. Prereq: Permission of athletic training program director

Athletic training clinical experience to accompany 224. Open to students in the athletic training major. Offered on a satisfactory-fail basis only.

A TR 226. Evaluation of Athletic Injuries II.

(2-3) Cr. 3. S. Prereq: Permission of athletic training program director

Sport injury assessment procedures and evaluation techniques for lower body injuries. Includes an overview of common illnesses of athletes and sport specific injuries. Designed for students in the athletic training major.

A TR 227. Athletic Injuries II Clinical Practicum.

(0-3) Cr. 1. S. Prereq: Permission of athletic training program director

Athletic training clinical experience to accompany 226. Open to students in the athletic training major. Offered on a satisfactory-fail basis only.

A TR 240. Introduction to Taping, Equipment, and Bracing Techniques.

(0-3) Cr. 1. S. Prereq: Permission of athletic training program director

Basic information and laboratory instruction regarding basic taping techniques, athletic equipment fitting procedures, and the use and proper fitting of prophylactic braces. Open to students in the athletic training major. Offered on a satisfactory-fail basis only.

A TR 323. Therapeutic Modalities for Athletic Trainers.

(2-2) Cr. 3. F. Prereq: Permission of athletic training program director

Theory and technique of therapeutic modalities used in the management of injuries.

A TR 324. Therapeutic Modalities Clinical Practicum.

(0-3) Cr. 1. F. Prereq: Permission of athletic training program director

Athletic training clinical experience to accompany 323. Open to students in athletic training major. Offered on a satisfactory-fail basis only.

A TR 326. Rehabilitation of Athletic Injuries.

(2-2) Cr. 3. S. Prereq: Permission of athletic training program director

Theory and practical application of rehabilitation principles used in the management of athletic injuries.

A TR 327. Rehabilitation of Athletic Injuries Clinical Practicum.

(0-3) Cr. 1. S. Prereq: Permission of athletic training program director

Athletic training clinical experience to accompany 326. Open to students in the athletic training major. Offered on a satisfactory-fail basis only.

A TR 425. Organization and Administration of Athletic Training.

(3-0) Cr. 3. F. Prereq: Permission of athletic training program director, senior classification

Current administrative, professional, and legal issues pertaining to athletic training. Job search techniques and strategies including preparation of materials for athletic training students.

A TR 450. Medical Concerns for the Athletic Trainer.

(3-0) Cr. 3. F. *Prereq: Permission of athletic training program director*
Current medical issues and concerns, including pathology of illness and injury, dermatological conditions, exposure to allied health care professionals, and pharmacological indications in relation to the profession of athletic training and in patient/athlete care.

A TR 488. Evidence Based Medicine Discussion in Athletic Training.

Cr. 2. S. *Prereq: Permission of athletic training program director*
Clinical experiences in application of athletic training techniques under supervision of certified athletic trainers. Participation in monthly research journal discussion. Offered on a satisfactory-fail basis only.

A TR 489. Review of Athletic Training Competencies and Clinical Proficiencies.

Cr. 1. F.S. *Prereq: Senior classification, permission of athletic training program director*

Preparation for professional endorsement and certification by review of required competencies and clinical proficiencies. Required for endorsement or approval to sit for Board of Certification Exam. Offered on a satisfactory-fail basis only.

Courses primarily for undergraduates:**DANCE 120. Modern Dance I.**

(0-3) Cr. 1. F.S.
Introduction and practice of basic dance concepts, including preparatory techniques and guided creativity problems. No previous modern dance experience required. Offered on a satisfactory-fail basis only.

DANCE 130. Ballet I.

(0-3) Cr. 1. F.S.
Introduction to the basic skills, vocabulary, and tradition of ballet with concentration on control and proper alignment. No previous ballet experience required. Offered on a satisfactory-fail basis only.

DANCE 140. Jazz I.

(0-3) Cr. 1. F.S.
Introduction to the modern jazz style with concentration on isolation and syncopation. No previous jazz experience required. Offered on a satisfactory-fail basis only.

DANCE 150. Tap Dance I.

(0-3) Cr. 1. F.
Instruction and practice in basic tap technique and terminology. No previous tap experience required. Offered on a satisfactory-fail basis only.

DANCE 160. Ballroom Dance I.

(0-2) Cr. 1. F.S.
Instruction and practice in foxtrot, waltz, swing, cha cha, rumba, tango, and selected contemporary dances. Offered on a satisfactory-fail basis only.

DANCE 199. Dance Continuum.

Cr. 0.5-2. Repeatable, maximum of 6 credits. F.S. *Prereq: Permission of instructor*
Advance registration required. Continued instruction and practice in either modern dance, recreational dance, ballet, jazz and/or compositional skills. Offered on a satisfactory-fail basis only.

DANCE 211. Fundamentals and Methods of Social and World Dance.

(1-3) Cr. 2. S.
Skill enhancement, teaching, progressions with emphasis on world and social dance. Designed for kinesiology and health majors, open to others.

DANCE 220. Modern Dance Composition.

(1-3) Cr. 2. F. *Prereq: DANCE 120 or previous modern dance experience*
Theory and practice of the creative skills involved in solo and small group composition.

DANCE 222. Modern Dance II.

(0-3) Cr. 1. F. *Prereq: DANCE 120 or previous modern dance experience*
Dance techniques emphasizing strength, balance, endurance, rhythmic activity and extended combinations.

DANCE 223. Modern Dance III.

(0-3) Cr. 1. S. *Prereq: DANCE 222*
Continued experience in dance techniques and extended combinations. Emphasis on maturation of skill and artistry. Exposure to a variety of modern dance technical styles.

DANCE 224. Concert and Theatre Dance.

(Cross-listed with THTRE). (0-3) Cr. 0.5-2. Repeatable, maximum of 6 credits. F.S. *Prereq: By audition only*
Choreography, rehearsal, and performance in campus dance concerts and/or musical theatre productions. Offered on a satisfactory-fail basis only.

DANCE 232. Ballet II.

(0-3) Cr. 1. S. *Prereq: Previous ballet experience*
Technical skills in the classical movement vocabulary. Emphasis on alignment, techniques, sequence development, and performing quality.

DANCE 233. Ballet III.

(0-3) Cr. 1. F. *Prereq: DANCE 232*
Concentration on technical proficiency at the intermediate level. Pointe work and partnering opportunities available.

DANCE 242. Jazz II.

(0-3) Cr. 1. S. *Prereq: Previous jazz dance experience*
Dance concepts within the jazz idiom. Instruction in extended movement sequences and artistic interpretation.

DANCE 270. Dance Appreciation.

(3-0) Cr. 3. F.S.SS.
Introduction to the many forms and functions of dance in world cultures. Develop abilities to distinguish and analyze various dance styles. No dance experience required.

DANCE 320. Sound and Movement.

(2-2) Cr. 3. S. *Prereq: DANCE 220*
Intermediate composition based on the relationship of movement to improvised sounds, rhythmic scores, and the musical works of composers from various periods.

DANCE 360. History and Philosophy of Dance.

(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: DANCE 270*
Study of the history of dance from early to modern times with emphasis on the theories and philosophies of contemporary modern dance, dancers, and dance educators.

DANCE 370. Advanced Studies in Dance.

Cr. 1-3. Repeatable, maximum of 8 credits. F.S. *Prereq: 2 credits in dance*
Advance registration required. Designed to meet special interests and talents of students to include both group and independent study in various aspects of dance as a performing art including production, choreography, and performance.

DANCE 384. Teaching Children's Dance.

(1-3) Cr. 2. S.
Content, experiences, and methods of a comprehensive dance program at the elementary school level. Theories and practice in guiding elementary school children in expressive movement experiences.

DANCE 385. Methods of Teaching Dance.

(1-3) Cr. 2. F.
Methods and techniques of teaching social and world dance forms. Introduction to teaching educational modern dance.

DANCE 386. Teaching Dance Technique and Composition.

(1-3) Cr. 2. *Prereq: DANCE 320*
Teaching of dance as an expressive art form with emphasis on technique, rhythm, and the creative teaching process.

DANCE 490. Independent Study.

Cr. 1-3. Repeatable, maximum of 6 credits. *Prereq: 6 credits in dance and permission of coordinator*
Independent study of problems or areas of interest in dance.

DANCE 490A. Independent Study: Dance.

Cr. 1-3. Repeatable, maximum of 6 credits. F.S. *Prereq: 6 credits in dance and permission of coordinator*
Independent study of problems or areas of interest in dance.

DANCE 490H. Independent Study in Dance - Honors.

Cr. 1-3. Repeatable, maximum of 6 credits. F.S. *Prereq: 6 credits in dance and permission of coordinator*
Independent study of problems or areas of interest in dance for those admitted to the honors program.

Courses primarily for undergraduates:**H S 105. First Aid and Emergency Care.**

(1-2) Cr. 2. F.S.SS.
Discussion and application of the basic techniques of utilizing bloodborne pathogen safety measures, administering first aid and cardiopulmonary resuscitation. ARC layperson certification available.

H S 110. Personal and Consumer Health.

(3-0) Cr. 3. F.S.
Physical, mental, emotional and social aspects of health as a basis for understanding and preventing health problems. False and misleading advertising and effects of cultists and faddists on consumer health. Study of legislation and agencies concerned with consumer protection and health insurance.

H S 215. Drug Education.

(3-0) Cr. 3. F.S. *Prereq: PSYCH 101 or PSYCH 230*
Discussion of use, abuse and addiction of mood modifying substances in contemporary society. Includes study of tobacco, alcohol, and other drugs.

H S 275. Health Education in the Elementary School.

(3-0) Cr. 3. F.S. *Prereq: HD FS 102 or HD FS 226*
An overview of school health services, healthy school environment, physical activity promotion, and health instruction for teachers at the elementary level. Credit for both H S 275 and 375 may not be applied toward graduation.

H S 285. Pre-Internship in Kinesiology and Health.

(Cross-listed with KIN). Cr. 1-2. F.S.SS. *Prereq: Kinesiology and Health major and permission of internship coordinator*
Pre-internship experience with a health or fitness organization based on option. Offered on a satisfactory-fail basis only.

H S 305. Instructor's First Aid and Cardio-pulmonary Resuscitation.

(1-2) Cr. 2. F.S. *Prereq: H S 105*
Discussion and practice of skills needed to teach first aid and cardiopulmonary resuscitation. ARC certification available.

H S 310. Community and Public Health.

(3-0) Cr. 3. F.S. *Prereq: H S 110*
Introduction to community health problems, programs of prevention, environmental health agencies, and health services. Study of local, state, and national community health agencies, their purposes and functions.

H S 350. Human Diseases.

(3-0) Cr. 3. F.S.SS. *Prereq: H S 110 and BIOL 255, BIOL 256*
Discussion of disease process and ill-health in the twentieth century. Emphasis on epidemiology, prevention, treatment, and the understanding of the etiology of communicable and noncommunicable diseases.

H S 375. Teaching-Learning Process in Health Education.

(3-0) Cr. 3. F.S. *Prereq: H S 105, H S 110, H S 215*
Principles, methods, materials, and resources involved in the teaching of health. Includes organization and development of the health education curriculum (K-12). Credit for both H S 275 and 375 may not be applied toward graduation.

H S 380. Worksite Health Promotion.

(3-0) Cr. 3. F.S. *Prereq: KIN 258, KIN 366*
The design and implementation of worksite health promotion programs and the benefits these programs have for both employees and employers. Review of various health risk appraisals and planning theory-based incentive programs designed to promote positive lifestyles.

H S 385. Strategies for Professional School and Field Experience Opportunities.

(Cross-listed with KIN). Cr. R. F.S. *Prereq: Junior classification; to be taken minimum of two semesters prior to graduation or field experience placement.*
Search techniques and preparation of relevant material for work and/or professional school admission. Information specifically related to health care and kinesiology fields. Field experience process and procedures will be reviewed.

H S 390. Administration of the School Health Program.

(3-0) Cr. 3. F. *Prereq: H S 310*
History and legal basis of school health programs. Procedures for developing, organizing, administering, and evaluating a modern program of health services, healthful school living, and health instruction. Includes administration, community and school relationships.

H S 417. Supervised Teaching in Health Education in the Secondary School.

Cr. 12. F.S. *Prereq: H S 375*
Advance registration required.

H S 417A. Supervised Teaching in Health Education in the Secondary School: Initial Endorsement.

Cr. 14. F.S. *Prereq: H S 375*
Students must be fully admitted to Teacher Education and must apply for approval to enroll at the beginning of the semester prior to registering.

H S 417B. Supervised Teaching in Health Education in the Secondary School: Additional Endorsement.

Cr. arr. F.S. *Prereq: H S 375*
Students must be fully admitted to Teacher Education and must apply for approval to enroll at the beginning of the semester prior to registering.

H S 430. Community Health Program Development.

(3-0) Cr. 3. F. *Prereq: H S 380*
Techniques of needs assessment, program design, administration, and evaluation of community health education programs in various settings.

H S 485. Directed Field Experience in Health Promotion.

Cr. 1-16. *Prereq: All required health studies courses and permission of coordinator*
Advance registration required. Supervised experience in health promotion field. Offered on a satisfactory-fail basis only.

H S 490. Independent Study.

Cr. 1-3. Repeatable, maximum of 6 credits. *Prereq: 6 credits in health studies and permission of coordinator*

Courses primarily for undergraduates:**KIN 101. Swimming I.**

(0-3) Cr. 1. F.S.SS.
Basic course for nonswimmers. Emphasis on two fundamental strokes and personal water safety skills. Offered on a satisfactory-fail basis only.

KIN 102. Swimming II.

(0-3) Cr. 1. F.S. *Prereq: KIN 101 or equivalent skill*
Intermediate course. Emphasis on learning and improving five basic strokes and personal water safety skills. Offered on a satisfactory-fail basis only.

KIN 108. Aquatic Fitness.

(0-3) Cr. 1. F.S. *Prereq: KIN 102 or equivalent skill*
Water related exercises, activities, and swimming workouts to improve physical fitness. Offered on a satisfactory-fail basis only.

KIN 122. Badminton.

(0-2) Cr. 1. F.S.SS.
Introduction to fundamental badminton skills and strategic game play. Offered on a satisfactory-fail basis only.

KIN 129. Bowling.

(0-2) Cr. 1. F.S.SS.
Introduction to bowling skills and strategic game play. Offered on a satisfactory-fail basis only.

KIN 135. Golf.

(0-2) Cr. 1. F.S.SS.
Introduction to fundamental golf skills and strategic game play. Offered on a satisfactory-fail basis only.

KIN 144. Racquetball.

(0-2) Cr. 1. F.S.SS.
Introduction to fundamental racquetball skills and strategic game play. Offered on a satisfactory-fail basis only.

KIN 153. Ice Skating.

(0-2) Cr. 1. F.S.SS.
Introduction to fundamental ice skating skills and strategic game play. Offered on a satisfactory-fail basis only.

KIN 158. Tennis.

(0-2) Cr. 1. F.S.SS.
Introduction to basic skills (forehand, backhand, service) and basic knowledge of game play. Offered on a satisfactory-fail basis only.

KIN 163. Physical Fitness.

(0-3) Cr. 1. F.S.SS.
Evaluation of fitness status. Exercises, activities, and programs to improve physical fitness. Improve physical fitness and weight control. Offered on a satisfactory-fail basis only. Credit for only KIN 163 or 258 may be applied toward graduation.

KIN 164. Walking for Fitness.

(0-3) Cr. 1. F.S.SS.
Fitness walking as an activity to improve health and fitness; values of this type of activity as a lifetime endeavor with knowledge and usage of pedometers. Offered on a satisfactory-fail basis only.

KIN 165. Running for Fitness.

(0-2) Cr. 1. F.S.SS.
Running as a physical activity to improve physical fitness and health. Promotion of this activity as a lifetime endeavor. Offered on a satisfactory-fail basis only.

KIN 166. Weight Training.

(0-3) Cr. 1. F.S.SS.
Introduction to fundamental skills of weight training and strategic game play. Offered on a satisfactory-fail basis only.

KIN 168. Judo.

(0-2) Cr. 1. F.S.

Fundamentals of self defense, focusing on throwing with the hands, hips and feet as well as applying pins, chokes and arm-bars. The physical skills will be taught focused on training through development of courtesy, integrity, perseverance, self control, & indomitable spirit. Emphasis on learning a way of life that promotes personal development, physical health and citizenship. Offered on a satisfactory-fail basis only.

KIN 170. Tae Kwon Do/Karate I.

(0-2) Cr. 1. F.S.

Teaches fundamentals of self-defense, focusing on hand and foot striking and blocking techniques. The physical skills will be taught focused on training through development of courtesy, integrity, perseverance, self-control and indomitable spirit. It will be emphasized that each student learns a way of life that promotes personal development, physical health and citizenship. Offered on a satisfactory-fail basis only.

KIN 171. Tae Kwon Do/Karate II.

(0-2) Cr. 1. F.S.

Teaches advanced application of self-defense focusing on hand and foot striking and blocking techniques. The physical skills will be taught focused on training through development of courtesy, integrity, perseverance, self-control and indomitable spirit. It will be emphasized that each student learns a way of life that promotes personal development, physical health and citizenship. Offered on a satisfactory-fail basis only.

KIN 173. Hap Ki Do/Martial Self-Defense.

(0-2) Cr. 1. F.S.

Teaches fundamentals of self-defense focusing on joint locks, pressure points and throwing techniques to escape from an attacker. The physical skills will be taught focused on training through development of courtesy, integrity, perseverance, self-control and indomitable spirit. It will be emphasized that each student learns a way of life that promotes personal development, physical health & citizenship. Offered on a satisfactory-fail basis only.

KIN 182. Volleyball.

(0-2) Cr. 1. F.S.SS.

Introduction to fundamental volleyball skills and strategic game play. Offered on a satisfactory-fail basis only.

KIN 185. Soccer.

(0-2) Cr. 1. F.S.SS.

Introduction to fundamental soccer skills and strategic game play. Offered on a satisfactory-fail basis only.

KIN 210. Concepts of Fitness and Wellness.

(2-0) Cr. 2. F.S.

Coverage of behavioral skills needed to adopt and maintain lifestyles conducive to fitness and wellness. Provides students with knowledge and skills needed to adopt and maintain healthy lifestyles. Includes self-assessments and content on physical activity, nutrition, weight control, stress management and other lifestyle behaviors related to health. For non-kinesiology majors.

KIN 230. Fundamentals of Aquatics.(0-3) Cr. 1. S. *Prereq: KIN 101 or equivalent. Eligibility for admission to KIN teacher education program*

Basic water safety and emergency water safety. Skill enhancement, understanding, and progressions.

KIN 231. Fundamentals of Tumbling and Gymnastics.(0-3) Cr. 1. F. *Prereq: Eligibility for admission to KIN teacher education program*

Fundamentals of tumbling and gymnastics apparatus. Skill enhancement, analysis, understanding practice and the development of progressions.

KIN 232. Fundamentals of Indoor Team Sports.(0-3) Cr. 1. S. *Prereq: Eligibility for admission to KIN teacher education program*

Fundamentals of indoor team sports, for example basketball, volleyball, team handball. Skill enhancement, analysis, understanding practice and the development of progressions.

KIN 233. Fundamentals of Outdoor Team Sports.(0-3) Cr. 1. F. *Prereq: Eligibility for admission to KIN teacher education program*

Fundamentals of outdoor team sports, for example flag football, soccer, softball. Skill enhancement, analysis, understanding practice and the development of progressions.

KIN 235. Fundamentals of Racquet Sports.(0-3) Cr. 1. S. *Prereq: Eligibility for admission to KIN teacher education program*

Fundamentals of racquet sports, for example tennis, badminton, racquetball. Skill enhancement, analysis, understanding practice and the development of progressions.

KIN 236. Fundamentals of Individual Sports.(0-3) Cr. 1. F. *Prereq: Eligibility for admission to KIN teacher education program*

Fundamentals of individual sports, for example track and field, golf, archery and bowling. Skill enhancement, analysis, understanding practice and the development of progressions.

KIN 238. Fundamentals of Outdoor and Adventure Activities.(0-3) Cr. 1. F. *Prereq: Eligibility for admission to KIN teacher education program*

Techniques of individual and group facilitation for initiatives involving outdoor adventure activity. Topics include ropes/challenge course events, activity presentation, and sequencing, safety techniques, preparation principles and new games philosophy. Participation is required in one weekend of fieldwork.

KIN 252. Disciplines and Professions in Kinesiology and Health.

(1-0) Cr. 1. F.S.

Overview of the various disciplines and professions that comprise the field of Kinesiology (the study of human movement) and help students determine the career option that best fits their interests.

KIN 253. Orientation in Kinesiology and Health.(1-0) Cr. 1. F.S. *Prereq: Concurrent enrollment or credit in KIN 252*

Overview of ISU policies and procedures, academic advising operations, degree requirements, program of study planning, and campus resources. Kinesiology and Health majors only. Offered on a satisfactory-fail basis only.

KIN 254. Learning Communities in Kinesiology/Health.(0.5-0) Cr. 0.5. F.S. *Prereq: Concurrent enrollment or credit in KIN 253*

Semester long course for new students in the Kinesiology Learning Community to be taken concurrently with the general orientation class for Kinesiology majors. Students will take field trips and work with faculty, staff and mentors to explore careers in kinesiology and complete assignments related to identification & development of their skills and interests. Kinesiology and health majors only. Offered on a satisfactory-fail basis only.

KIN 258. Physical Fitness and Conditioning.(1-3) Cr. 2. F.S. *Prereq: Kinesiology and health majors only*

Development of personal fitness using a variety of conditioning and exercise techniques such as aerobics, weight training, and aquatic fitness. Introduction to acute and chronic responses to exercise, and the role of exercise in health promotion and weight management. Credit for only one of the following courses may be applied toward graduation: KIN 163, 258.

KIN 259. Leadership Techniques for Fitness Programs.(1-3) Cr. 2. F.S. *Prereq: KIN 258*

Development of exercise leadership skills for a variety of activities. Includes planning, promotion, and teaching techniques for developing fitness in others using a variety of exercise modalities including aerobics, weight training, and aquatic fitness. Kinesiology and health majors only.

KIN 266. Advanced Strength Training and Conditioning.(1-2) Cr. 2. F.S. *Prereq: KIN 258*

This course is designed to enhance the student's current level of knowledge and expertise to an advanced level in the area of strength training and conditioning. The course will prepare students interested in taking the National Strength and Conditioning Association Certified and Conditioning Specialist's exam. The course will focus on the assessment and implementation of training programs with strong emphasis on the areas of resistance training, metabolic training, flexibility, reaction time, speed, and agility. Kinesiology and health majors only and permission of instructor needed.

KIN 280. Directed Field Experience in Elementary Physical Education.

(0-3) Cr. 1. F.S.

Observing, planning, and facilitating movement experiences of children in an elementary school setting. Offered on a satisfactory-fail basis only.

KIN 281. Directed Field Experience in Secondary Physical Education.(0-3) Cr. 1. F. *Prereq: Admission to Educator Preparation Program*

Observing, planning, and facilitating movement experiences of students in a public school setting. Offered on a satisfactory-fail basis only.

KIN 284. Elementary and Pre-school Movement Education.(2-3) Cr. 3. F.S.SS. *Prereq: 3 credits in human development and family studies*

Approaches to teaching movement skills, health-related fitness and school-based physical activities (in the classroom, in PE, during recess) to pre-school and elementary school age children are covered. Emphasis is placed on planning and conducting developmentally appropriate movement experiences for preschool and elementary aged children throughout the school day based upon educational psychology, exercise psychology and motor development research. Practical experience is provided. Credit in only one of the following courses may be applied toward graduation: KIN 284, 312.

KIN 285. Pre-Internship in Kinesiology and Health.

(Cross-listed with H S). Cr. 1-2. F.S.SS. *Prereq: Kinesiology and Health major and permission of internship coordinator*
Pre-internship experience with a health or fitness organization based on option. Offered on a satisfactory-fail basis only.

KIN 312. Movement Education in Elementary School Physical Education.

(2-2) Cr. 3. F. *Prereq: Concurrent enrollment in KIN 280*
Planning for management and instruction of developmentally appropriate physical education for children pre-school through elementary school. Laboratory experience required. Credit for only one in the following courses can be applied toward graduation: KIN 284, 312.

KIN 313. Teaching Secondary Physical Education.

(2-3) Cr. 3. S. *Prereq: Admission to Educator Preparation Program*
Current theory, practice and research on teaching focusing on management, instructional, and learning styles of students in secondary schools.

KIN 315. Coaching Theory and Administrative Issues.

(3-0) Cr. 3. F.S.SS.
Study in the theory, ethics, strategy, and mechanics of coaching various interscholastic and/or intercollegiate sports. Emphasis on formulating a philosophy, identifying goals and psychological aspects, teaching skills, and developing strategies.

KIN 345. Management of Health-Fitness Programs and Facilities.

(3-0) Cr. 3. F.S.
Application of management concepts to the fitness industry, e.g., understanding customers, marketing, program management, financial management, legal issues, and evaluation and planning.

KIN 355. Biomechanics.

(3-0) Cr. 3. F.S.SS. *Prereq: PHYS 111 or PHYS 115*
Mechanical basis of human performance; application of mechanical principles to exercise, sport and other physical activities.

KIN 358. Physiology of Exercise.

(3-0) Cr. 3. F.S.SS. *Prereq: BIOL 255, BIOL 255L, BIOL 256 and BIOL 256L*
Physiological basis of human performance; effects of physical activity on body functions.

KIN 360. Sociology of Sport and Exercise.

(3-0) Cr. 3. F.S. *Prereq: SOC 134 and one of STAT 101, STAT 104 or STAT 226/ STAT 326, or KIN 471*
Sport and exercise as social systems and as institutions related to other institutions such as the polity, the economy, mass media, and education.

KIN 363. Basic Electrocardiography.

(2-0) Cr. 2. Alt. F., offered even-numbered years.
Understanding of human electrocardiography, including normal and abnormal 12-lead ECGs and arrhythmia identification.

KIN 365. Sport Psychology.

(3-0) Cr. 3. F.S. *Prereq: PSYCH 101 or PSYCH 230*
Psychological factors that influence performance in sport settings. The influence of personality, anxiety, motivation, social factors, and psychological skills training.

KIN 366. Exercise Psychology.

(3-0) Cr. 3. F.S.SS. *Prereq: PSYCH 101 or PSYCH 230*
Psychological theories for understanding and predicting health-oriented exercise behavior. Psychological and psychobiological responses to exercise. Psychological interventions for increasing exercise participation and adherence rates.

KIN 372. Motor Control and Learning Across the Lifespan.

(3-0) Cr. 3. F.S.SS. *Prereq: PSYCH 101 or PSYCH 230, BIOL 255, BIOL 256*
Introduction to major concepts of neuromotor control, behavioral motor control and motor learning in the child, adult and older adult, with emphasis on the adult system.

KIN 385. Strategies for Professional School and Field Experience Opportunities.

(Cross-listed with H S). Cr. R. F.S. *Prereq: Junior classification; to be taken minimum of two semesters prior to graduation or field experience placement.*
Search techniques and preparation of relevant material for work and/or professional school admission. Information specifically related to health care and kinesiology fields. Field experience process and procedures will be reviewed.

KIN 391. Service Learning Leadership Experience.

Cr. 1-3. Repeatable. F.S.
Applied service learning experiences designed to provide students with opportunities to apply classroom knowledge to real world applications. Students will gain professional skills and programming experience while supporting health, education and wellness programming in school, work site or community settings. Offered on a satisfactory-fail basis only.

KIN 395. Adapted Physical Education.

(Dual-listed with KIN 595). (2-3) Cr. 3. F. *Prereq: KIN 312*
Specific disabling conditions in terms of etiology, characteristics, needs, and potential for movement experiences. Techniques of assessment, prescription, adaptation of activities, methods, and program planning. Laboratory experience required. KIN 595 may not be taken by students who have previously earned credit in KIN 395

KIN 399. Recreational Sport Management.

(3-0) Cr. 3. F. *Prereq: SOC 134*
The role of sport in developing fitness, recreational opportunities, and tourism, with special emphasis on issues related to youth sport, volunteerism, and the marketing of sport events and facilities.

KIN 417. Supervised Teaching in Physical Education in the Secondary School.

Cr. arr. F.S. *Prereq: KIN 281, KIN 313, KIN 355, KIN 358, KIN 395, KIN 471, KIN 475; admission to Teacher Education; approval before enrolling in the course.*
Supervised teaching in the secondary schools.

KIN 418. Supervised Teaching in Physical Education in the Elementary School.

Cr. 8. F.S. *Prereq: KIN 280, KIN 312, KIN 355, KIN 358, KIN 395, KIN 471, KIN 475. Students must be fully admitted to Teacher Education and must apply for approval to enroll at the beginning of the semester prior to registering*
Supervised teaching in the elementary schools.

KIN 445. Legal Aspects of Sport.

(3-0) Cr. 3. S.
Students will understand legal concepts and terminology relevant to sport/activity, identify strategies for limiting liability in sport/fitness programs, and identify solutions for elimination of discriminatory practices in sport and physical activity.

KIN 455. Research Topics in Biomechanics.

(3-0) Cr. 3. *Prereq: KIN 355 or permission of instructor*
Examination of biomechanics and kinesiology research literature to evaluate the application of mechanical principles and analyses to human movement in exercise, sport, physical activity, and activities of daily living and to assess research outcomes and their implications for motor performance, movement energetic, musculoskeletal loading, and injury.

KIN 458. Principles of Fitness Assessment and Exercise Prescription.

(3-2) Cr. 4. F.S. *Prereq: KIN 358*
Physiological principles of physical fitness; design and administration of fitness programs; testing, evaluation, and prescription; cardiac risk factor modification.

KIN 459. Internship in Exercise Leadership.

(0-3) Cr. 1. *Prereq: C- or better in KIN 259, CPR certification, concurrent enrollment in KIN 458*
Observation and practice of exercise leadership techniques in an on-campus adult fitness program.

KIN 462. Medical Aspects of Exercise.

(3-0) Cr. 3. F.S. *Prereq: KIN 358*
The role of exercise in preventive medicine. Impact of exercise on various diseases, and the effect of various medical conditions on the ability to participate in vigorous exercise and competitive sports. Principles of exercise testing and prescription for individuals with these conditions. Environmental and nutritional aspects of exercise.

KIN 467. Exercise and Health: Behavior Change.

(Dual-listed with KIN 567). (3-0) Cr. 3. S. *Prereq: Introductory course with emphasis on exercise psychology (i.e., KIN 366 or equivalent)*
Advanced analysis of theoretical health behavior models and their application to physical activity behavior. Includes practical techniques, tools and interventions (e.g., counseling skills, motivational interviewing) to enhance exercise prescription and motivation, and considerations for working with special populations.

KIN 471. Measurement in Physical Education.

(Dual-listed with KIN 571). (3-0) Cr. 3. S.
Study of grading, assessment and evaluation in physical education with a focus on measuring cognitive and psycho-motor achievement.

KIN 472. Neural Basis of Human Movement.

(Dual-listed with KIN 572). (3-0) Cr. 3. S. Prereq: KIN 372 or PSYCH 310
Addresses the role of the central nervous system in the control of voluntary human movement, with the focus on the cerebral cortex, basal ganglia and cerebellum. Content organized around specific nervous system damage (such as stroke, apraxia, spasticity, or spinal cord damage) and functional movements (such as reaching and grasping, balance and gait). Converging evidence from human movement disorders, brain imaging, animal lesion and single cell studies provide the primary basis for the content.

KIN 475. Physical Education Curriculum Design and Program Organization.

(Dual-listed with KIN 575). (3-0) Cr. 3. F. Prereq: Admission to Educator Preparation Program
Current theory, practices and principles applied to curriculum development for programs in physical education, K-12. Organizing for teaching in a variety of school settings.

KIN 480. Functional Anatomy.

(3-0) Cr. 3. F.S. Prereq: KIN 355; BIOL 155 or BIOL 255 and BIOL 256
The structure and function of human muscular, skeletal and nervous systems. The relationship of these systems to efficient and safe human motion.

KIN 481. Biomechanics Lab.

(0-2) Cr. 1. Prereq: KIN 355
Learning lab techniques in Biomechanics and engaging in the experimental process.

KIN 482. Exercise Physiology Lab.

(0-2) Cr. 1. Prereq: KIN 358
Learning lab techniques in Exercise Physiology and engaging in the experimental process.

KIN 483. Exercise Psychology Lab.

(0-2) Cr. 1. Prereq: KIN 366
Learning lab techniques in Exercise Psychology and engaging in the experimental process.

KIN 484. Assessment and Control of Locomotion.

(0-2) Cr. 1. Prereq: KIN 372
Learning lab techniques in Motor Control and engaging in the experimental process.

KIN 485. Internship in Exercise Science.

Cr. 1-16. Prereq: Senior classification and advance registration
Observation and practice in fitness agencies. Offered on a satisfactory-fail basis only.

KIN 485A. Internship in Exercise Science: Health/Fitness Management..

Cr. 1-16. Prereq: Prereq: C- or better in KIN 458 and KIN 459, Kinesiology and Health majors only. Cumulative GPA 2.0.
Observation and practice in selected sport and exercise science agencies. Offered on a satisfactory-fail basis only.

KIN 485B. Internship in Exercise Science: Sport and Physical Activity..

Cr. 1-16. Prereq: Prereq: Kinesiology and Health majors only. Cumulative GPA 2.0.
Observation and practice in selected sport and exercise science agencies. Offered on a satisfactory-fail basis only.

KIN 490. Independent Study.

Cr. 1-3. Repeatable, maximum of 6 credits. Prereq: 6 credits from KIN advanced core and permission of coordinator
Independent study of problems of areas of interest in exercise and sport science and related areas.

KIN 490A. Independent Study: Exercise and Sport Science.

Cr. 1-3. Repeatable, maximum of 6 credits. Prereq: 6 credits from KIN advanced core and permission of coordinator
Independent study of problems of areas of interest in exercise and sport science and related areas.

KIN 490H. Independent Study: Honors.

Cr. 1-2. Repeatable, maximum of 4 credits. Prereq: 6 credits from KIN advanced core and permission of coordinator
Independent study of problems of areas of interest in exercise and sport science and related areas.

KIN 495. Seminar in Exercise and Sport Science.

Cr. 0.5-1. Prereq: Senior classification
Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified undergraduates:

KIN 501. Research Methods in Physical Activity.

(3-0) Cr. 3. Repeatable. Prereq: Graduate classification in kinesiology and health
Methods and techniques used in the design and interpretation of research involving physical activity. Emphasis on styles of writing, library use, and computer applications.

KIN 505. Research Laboratory Techniques in Exercise Physiology.

(0-4) Cr. 2. Prereq: KIN 358 or equivalent course with basic laboratory experience
Application and use of laboratory research equipment in exercise physiology, including operation, calibration, and use in selected situations.

KIN 510. Advanced Medical Aspects of Exercise.

(2-0) Cr. 2. Prereq: KIN 358
The role of exercise in preventive medicine. Impact of exercise on various diseases, and the effect of various medical conditions on the ability to participate in vigorous exercise and competitive sports. Principles of exercise testing and prescription for individuals with these conditions.

KIN 512. Movement Education in Elementary School Physical Education.

(2-2) Cr. 3. F.
Planning for management and instruction of developmentally appropriate physical education for children pre-school through elementary school. Laboratory experience required. Emphasis on evaluating published research on physical education and school-wide physical activity.

KIN 515. Injury Biomechanics.

(3-0) Cr. 3. Alt. S., offered even-numbered years. Prereq: Kin 355 or permission of instructor.

Utilization of biomechanical principles to model injury mechanisms. Introduction to tissue mechanics of bone, articular cartilage, ligament, tendon, and muscle. Biomechanics of lower extremity, upper extremity, and head/neck/trunk injuries.

KIN 516. Quantitative Analysis of Human Movement.

(3-1) Cr. 3. Prereq: KIN 355
Application of the principles of mechanics to the analysis of human motion. Investigation of the effects of kinematics and kinetics on the human body with special emphasis on exercise and sport applications. Includes consideration of two-dimensional and three-dimensional imaging techniques and force measurements.

KIN 517. Musculoskeletal Modeling.

(3-1) Cr. 3. F. Prereq: KIN 355 or permission from instructor
Systematic problem-solving approaches and design of computer programs for biomechanical analyses. Estimation of anthropometric parameters and mechanical properties of muscles, bones, and joints. Integration of anthropometrics, kinematics, and muscle mechanics into simulations of human movement.

KIN 518. Student Teaching in Elementary Physical Education.

(0-8) Cr. 8. F.S. Prereq: KIN 512, KIN 570, KIN 575
Student teaching for 8 weeks in an elementary school.

KIN 519. Student Teaching in Secondary Physical Education.

(0-8) Cr. 8. F.S. Prereq: KIN 512, KIN 570, KIN 575
Student teaching for 8 weeks in a middle or high school.

KIN 520. The Social Analysis of Sport.

(3-0) Cr. 3. Prereq: KIN 360; open to majors only or by permission of instructor
Sociological analysis of sport with emphasis on sociological theory, sports structure, and function in modern industrialized society; the systems of sport in regard to their role structure; formal organization, and professionalization and its differentiation along social class, age, and sex.

KIN 521. Advanced Topics in Exercise and Sport Psychology.

(3-0) Cr. 3. Prereq: KIN 365 or KIN 366, 3 courses in psychology; open to majors only or by permission of instructor
Aspects of psychology which form a basis for understanding and explaining behavior in the context of exercise and sport. Emphasis on evaluating published research, particularly theory and research methodology. Student presentations.

KIN 549. Advanced Vertebrate Physiology I.

(Cross-listed with AN S, NUTRS). (4-0) Cr. 4. F. Prereq: Biol 335; credit or enrollment in BBMB 404 or BBMB 420
Overview of mammalian physiology. Cell biology, endocrinology, cardiovascular, respiratory, immune, digestive, skeletal muscle and reproductive systems.

KIN 550. Advanced Physiology of Exercise I.

(2-3) Cr. 3. Prereq: KIN 505
Concepts and methods of assessing neurological, muscular, cardiovascular, and respiratory adjustments to exercise.

KIN 551. Advanced Physiology of Exercise II.

(2-3) Cr. 3. Prereq: KIN 505
Analysis of factors affecting work capacity and performance. Human energy metabolism concepts and measurement.

KIN 552. Advanced Vertebrate Physiology II.

(Cross-listed with AN S, NUTRS). (3-0) Cr. 3. S. *Prereq: BIOL 335; credit or enrollment in BBMB 404 or BBMB 420*

Cardiovascular, renal, respiratory, and digestive physiology.

KIN 558. Physical Fitness - Principles, Programs and Evaluation.

(2-3) Cr. 3. *Prereq: KIN 358*

Physiological principles of physical fitness, design and administration of fitness programs; testing, evaluation, and prescription; electrocardiogram interpretation.

KIN 560. Principles of Motor Control and Learning.

(2-3) Cr. 3. *Prereq: KIN 372*

Theoretical perspectives of motor control and learning will be examined as well as factors that facilitate motor learning. Motor control and learning will also be addressed by studying functional tasks such as reach and grasp, posture and locomotor, handwriting, catching and/or speech.

KIN 561. Motor Development and Physical Activity.

(2-0) Cr. 2-3. *Prereq: PSYCH 230*

Addresses theories and underlying mechanisms of motor development and motor control applied to typically and atypically developing children. Developmental control of balance, locomotion, reach-to-grasp, and other functional skills will be discussed, as will the role of physical activity in a child's life.

KIN 567. Exercise and Health: Behavior Change.

(Dual-listed with KIN 467). (3-0) Cr. 3. S. *Prereq: Introductory course with emphasis on exercise psychology (i.e., KIN 366 or equivalent)*

Advanced analysis of theoretical health behavior models and their application to physical activity behavior. Includes practical techniques, tools and interventions (e.g., counseling skills, motivational interviewing) to enhance exercise prescription and motivation, and considerations for working with special populations.

KIN 570. Physical Activity Assessment for Health Related Research.

(2-2) Cr. 3.

This course will cover the broad scope of research in physical activity and public health. Emphasis will be placed on the application of physical activity assessment techniques since accurate measures are needed to more accurately assess the health benefits from physical activity and to evaluate the effectiveness of behavioral interventions designed to promote physical activity.

KIN 571. Measurement in Physical Education.

(Dual-listed with KIN 471). (3-0) Cr. 3. S.

Study of grading, assessment and evaluation in physical education with a focus on measuring cognitive and psycho-motor achievement.

KIN 572. Neural Basis of Human Movement.

(Dual-listed with KIN 472). (3-0) Cr. 3. *Prereq: KIN 372 or PSYCH 310*

Addresses the role of the central nervous system in the control of voluntary human movement, with the focus on the cerebral cortex, basal ganglia and cerebellum. Content organized around specific nervous system damage (such as stroke, apraxia, spasticity, or spinal cord damage) and functional movements (such as reaching and grasping, balance and gait). Converging evidence from human movement disorders, brain imaging, animal lesion and single cell studies provide the primary basis for the content.

KIN 575. Physical Education Curriculum Design and Program Organization.

(Dual-listed with KIN 475). (3-0) Cr. 3. F. *Prereq: Admission to Educator Preparation Program*

Current theory, practices and principles applied to curriculum development for programs in physical education, K-12. Organizing for teaching in a variety of school settings.

KIN 590. Special Topics.

Cr. 1-3. Repeatable.

KIN 590A. Special Topics: Physical Education.

Cr. 1-3. Repeatable.

KIN 590B. Special Topics: Health and Exercise Promotion.

Cr. 1-3. Repeatable.

KIN 590D. Special Topics: Exercise Physiology.

Cr. 1-3. Repeatable.

KIN 590E. Special Topics: Sport Sociology.

Cr. 1-3. Repeatable.

KIN 590F. Special Topics: Sport/Exercise Psychology.

Cr. 1-3. Repeatable.

KIN 590G. Special Topics: Motor Behavior.

Cr. 1-3. Repeatable.

KIN 590H. Special Topics: Biomechanics.

Cr. 1-3. Repeatable.

KIN 590I. Special Topics: Research Ethics.

Cr. 1-3. Repeatable.

KIN 591. Supervised Field Experience.

Cr. 1-6. *Prereq: 10 graduate credits in kinesiology and/or related areas*
Supervised on-the-job field experience in special areas.

KIN 591A. Supervised Field Experience: Physical Education.

Cr. 1-6. *Prereq: 10 graduate credits in kinesiology and/or related areas*
Supervised on-the-job field experience in special areas.

KIN 591B. Supervised Field Experience: Health and Exercise Promotion.

Cr. 1-6. *Prereq: 10 graduate credits in kinesiology and/or related areas*
Supervised on-the-job field experience in special areas.

KIN 591D. Supervised Field Experience: Exercise Physiology.

Cr. 1-6. *Prereq: 10 graduate credits in kinesiology and/or related areas*
Supervised on-the-job field experience in special areas.

KIN 592. Practicum in College Teaching.

Cr. 1-3. Repeatable, maximum of 3 credits. F.S.SS.

Supervised experience with teaching an upper division, classroom-based course. Offered on a satisfactory-fail basis only.

KIN 595. Adapted Physical Education.

(Dual-listed with KIN 395). (2-3) Cr. 3. F. *Prereq: KIN 375*

Specific disabling conditions in terms of etiology, characteristics, needs, and potential for movement experiences. Techniques of assessment, prescription, adaptation of activities, methods, and program planning. Laboratory experience required. KIN 595 may not be taken by students who have previously earned credit in KIN 395.

KIN 599. Creative Component.

Cr. 1-3. Repeatable.

Courses for graduate students:**KIN 615. Seminar.**

Cr. 1-3. Repeatable.

KIN 620. Advance Research Methods in Physical Activity.

(3-0) Cr. 3. S. *Prereq: KIN 501, STAT 401 and STAT 402. Doctoral students only*
Culminating seminar designed to synthesize statistical and design courses with practical research issues using data from physical activity.

KIN 699. Research.

Cr. 1-6. Repeatable.

Nutritional Science Undergraduate Program (H SCI)

Curriculum in Nutritional Science

Administered by the Department of Food Science and Human Nutrition

Pre-Health Professional and Research Option**Total Degree Requirement: 120 cr.**

Students must fulfill International Perspectives and U.S. Diversity requirements by selecting coursework from approved lists. These courses may also be used to fulfill other area requirements. Only 65 cr. from a two-year institution may apply to the degree which may include up to 16 technical cr.; 9 P-NP cr. of electives; 2.00 minimum GPA.

International Perspectives: 3 cr.**U.S. Diversity: 3 cr.****Communications and Library: 13 cr.**

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
ENGL 314	Technical Communication	3
LIB 160	Information Literacy	1
SP CM 212	Fundamentals of Public Speaking	3
Total Credits		13

Humanities and Social Sciences: 6-12 cr.

Select Humanities courses from approved list	3
Select Social Science course from approved list	3
If H Sci student, select:	6

Additional Humanities course	
Additional Humanities or Social Science course	

Ethics and Environmental: 3-6 cr.

FS HN 342	World Food Issues: Past and Present	3
If AgLS student, select from:		2-3
ENV S 120	Introduction to Renewable Resources	
ENV S 201	Introduction to Environmental Issues	

Mathematical Sciences: 6-12 cr.

Select at least 3 credits from:		3-8
MATH 140	College Algebra	
MATH 142	Trigonometry and Analytic Geometry	
MATH 160	Survey of Calculus	
MATH 165	Calculus I	
MATH 165 & MATH 166	Calculus I and Calculus II	
MATH 181	Calculus and Mathematical Modeling for the Life Sciences I	
MATH 181 & MATH 182	Calculus and Mathematical Modeling for the Life Sciences I and Calculus and Mathematical Modeling for the Life Sciences II	
Select at least 3 credits from:		3-4
STAT 101	Principles of Statistics	
STAT 104	Introduction to Statistics	

Total Credits		6-12
---------------	--	------

Physical Sciences: 17 cr.

CHEM 177	General Chemistry I	4
CHEM 177L	Laboratory in General Chemistry I	1
CHEM 178	General Chemistry II	3
CHEM 178L	Laboratory in College Chemistry II	1
CHEM 331	Organic Chemistry I	3
CHEM 331L	Laboratory in Organic Chemistry I	1
CHEM 332	Organic Chemistry II	3
CHEM 332L	Laboratory in Organic Chemistry II	1
Total Credits		17

Biological Sciences: 24-29 cr.

BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
BIOL 212	Principles of Biology II	3
BIOL 212L	Principles of Biology Laboratory II	1
BIOL 255	Fundamentals of Human Anatomy	3
BIOL 255L	Fundamentals of Human Anatomy Laboratory	1
BIOL 306	Metabolic Physiology of Mammals	3-4
or BIOL 335	Principles of Human and Other Animal Physiology	
BIOL 313	Principles of Genetics	3
Select at least 3 credits from:		3-6
BBMB 301	Survey of Biochemistry	
BBMB 316	Principles of Biochemistry	
BBMB 404 & BBMB 405	Biochemistry I and Biochemistry II	
MICRO 201	Introduction to Microbiology	2-3
or MICRO 302	Biology of Microorganisms	
MICRO 201L	Introductory Microbiology Laboratory	1
or MICRO 302L	Microbiology Laboratory	
Total Credits		24-29

Food Science and Human Nutrition: 37 cr.

FS HN 110	Professional and Educational Preparation	1
FS HN 167	Introduction to Human Nutrition	3
FS HN 203	Contemporary Issues in Food Science and Human Nutrition	1
FS HN 265	Nutrition for Active and Healthy Lifestyles	3

FS HN 360	Advanced Human Nutrition and Metabolism	3
FS HN 361	Nutrition and Health Assessment	2
FS HN 362	Nutrition in Growth and Development	3
FS HN 467	Molecular Basis of Nutrition in Disease Prevention	3
FS HN 480	Professional Communication in Food Science and Human Nutrition	1
FS HN 492	Research Concepts in Human Nutrition	2
Select at least 15 additional credits from:		15
BIOL 314	Principles of Molecular Cell Biology	
FS HN 214 & FS HN 115	Scientific Study of Food and Food Preparation Laboratory (select lab FS HN 115 or 215)	
FS HN 242	Societal Impacts on Food Systems	
FS HN 311	Food Chemistry	
FS HN 365	Obesity and Weight Management	
FS HN 367	Medical Terminology for Health Professionals	
FS HN 403	Food Laws, Regulations, and the Regulatory Process	
FS HN 419	Foodborne Hazards	
FS HN 420	Food Microbiology	
FS HN 461	Medical Nutrition and Disease I	
FS HN 463	Community Nutrition	
FS HN 464	Medical Nutrition and Disease II	
FS HN 466	Nutrition Counseling and Education Methods	
FS HN 490C	Independent Study: Nutrition	
FS HN 499	Undergraduate Research	
FS HN 575	Processed Foods	
NUTRS 501	Biochemical and Physiological Basis of Nutrition: Macronutrients and Micronutrients	
NUTRS 503	Biology of Adipose Tissue	
NUTRS 504	Nutrition and Epigenetic Regulation of Gene Expression	
NUTRS 562	Assessment of Nutritional Status	
PHYS 111	General Physics	
or PHYS 221	Introduction to Classical Physics I	
PHYS 112	General Physics	
or PHYS 222	Introduction to Classical Physics II	
Total Credits		37

Electives: 0-12 cr. Select from any university coursework to earn at least 120 total credits. Students planning to apply to health professional programs should review entrance requirements and select appropriate courses as electives.

Concurrent B.S. and M.S. Program: Well-qualified students in Nutritional Science, pre-health professional and research option, who are interested in graduate study may apply for concurrent enrollment in the Graduate College to simultaneously pursue both a Bachelor of Science (B.S.) degree in Nutritional Science and a Master of Science (M.S.) degree in Nutritional Sciences. For more information, refer to www.fshn.hs.iastate.edu

Nutrition and Wellness Option**Total Degree Requirement: 120 cr.**

Students must fulfill International Perspectives and U.S. Diversity requirements by selecting coursework from approved lists. These courses may also be used to fulfill other area requirements. Only 65 cr. from a two-year institution may apply to the degree which may include up to 16 technical cr.; 9 P-NP cr. of electives; 2.00 minimum GPA.

FS HN 495 Practicum	2
Total Credits	36

Electives: 9-18 cr. At least 9 credits of electives must be 300-400 level courses. Select from any university coursework to earn at least 120 total credits.

Go to FS HN courses.

College of Liberal Arts and Sciences

Beate Schmittmann, Dean
 Arne Hallam, Associate Dean
 Martin Spalding, Associate Dean
 Amy Slagell, Associate Dean
 Ruth W. Swenson, Associate Dean Emerita
 Zora D. Zimmerman, Associate Dean Emerita

www.las.iastate.edu/

The College of Liberal Arts and Sciences is the academic home, the foundation, for many essential learning disciplines. The college provides students with all the components of a modern liberal education. Students may choose to study in various fields of the physical, biological, and social sciences; in mathematical disciplines; in methods and systems of communication; and in the arts and humanities.

Learning and Teaching Mission

The primary mission of the college is to promote learning in all its dimensions by providing the student with ample opportunities to acquire the requisite knowledge, abilities, and skills to succeed in the world beyond the university. Through coursework within the major and in general education, students will develop skills in reasoning, analysis, and communication; achieve an understanding of the intellectual, historical, and artistic foundations of culture; and work to strengthen their abilities to interact with people, cultures, and the environment in an ethical and sensitive manner. To achieve these learning goals, the college asks students to acquire depth in learning within disciplines of their own choosing, and to acquire breadth through general education courses and electives.

The Curriculum

A baccalaureate degree in liberal arts and sciences is the end result of a curriculum that connects and integrates study in a major with general education. Requirements for a degree are deliberately flexible. Students select programs of study suited to a variety of interests and goals. Students having academic interests not fully met by departmental majors may also pursue a major offered by one of the college's interdepartmental programs or may apply for an undergraduate major in interdisciplinary studies (See Index, Cross-Disciplinary Studies, Courses and Programs). The college participates in the University Honors Program; thus, students with exceptional academic promise can develop unique and challenging programs of study.

The college has four curricula: a curriculum in Liberal Arts and Sciences, leading to the bachelor of arts or the bachelor of science degree; a curriculum in music, leading to the bachelor of music degree; a curriculum in liberal studies, leading to the bachelor of liberal studies degree; and a curriculum in software engineering, leading to the bachelor of science degree.

High School Preparation/ Admission Requirements

Students entering the college are required to present evidence of the following high school preparation:

4 years of English (Typically this preparation includes courses in British, American, and world literature in which critical reading and writing skills are emphasized and courses in speech and composition, including at least one senior-level writing course.)

3 years of social studies (Typically such preparation includes two semesters of world history, two semesters of American history, and a semester of American government. Electives can be chosen from areas such as economics, sociology, or psychology.)

2 years of a single world language (Three years or more of a single world language are strongly recommended for students who wish to continue their work in that language. A minimum of three years of a single world language is required to fulfill the world language graduation requirement in the College of Liberal Arts and Sciences.)

3 years of mathematics (Such preparation shall include two semesters of beginning algebra, two semesters of geometry, and two semesters of intermediate algebra. A fourth year of study involving analytic geometry, trigonometry, linear algebra, and/or calculus is strongly recommended for students who will major in mathematical or scientific disciplines.)

3 years of science (At least two of these years shall be chosen from biology, chemistry, and physics.)

Recommended but not required as a condition of admission to the College of Liberal Arts and Sciences is one semester of computer experience. (Such a course should stress problem-solving with computers and should not substitute for courses in mathematics. In schools where computer use is an integral part of most courses, separate instruction in computers is not necessary.)

Students who transfer from another college or university with at least 24 credits of satisfactory coursework may be exempt from most of these requirements. Students who do not meet the requirements listed here may be admitted with a limited number of deficiencies. Contact the college office for further information about resolving these deficiencies.

Transfer Students

To graduate from the College of Liberal Arts and Sciences, a transfer student must complete the general requirements of the college as well as those of the university. Students planning to transfer to Iowa State University for the purpose of enrolling in the College of Liberal Arts and Sciences are advised to contact the college office for information concerning degree program requirements. Prospective transfer students are urged to learn about the academic programs that are of interest to them well before arriving on campus so that pretransfer courses are appropriate to the planned major and transferable toward graduation from ISU. Additional information concerning transfer credit evaluation may be obtained through the Office of Admissions as well as the department in which a student is interested.

A transfer student in the College of Liberal Arts and Sciences may choose to graduate under the catalog in effect at the time of his or her graduation or under one of the two immediately preceding catalogs, provided that it covers the period of his or her enrollment either at Iowa State or any other accredited school. Full requirements of the chosen catalog must be met except that adjustments will be made in instances where courses are no longer available or where programs have been changed. A transfer student is responsible for reviewing his/her transfer credit evaluation with the academic adviser during the first semester of enrollment.

University Requirements

The university requirements for the bachelor's degree, including statements of academic standards, learning goals, the university residence requirement, the Communication proficiency requirement, U.S. diversity and international perspectives requirement, and the library requirement, appear in the Colleges and Curricula portion at the beginning of this catalog.

Curriculum in Liberal Arts and Sciences

To obtain a bachelor's degree from the College of Liberal Arts and Sciences, curriculum in liberal arts and sciences, an undergraduate student must earn a minimum of 120 semester credits including a minimum of 32 semester credits earned in residence at Iowa State University. In addition, the student must meet general education, communication proficiency, library proficiency, world language, and advanced credit requirements, as well as the requirements of a major. Courses taken on a pass/not pass basis may be counted toward the required

total of 120 credits, and may be used to meet the advanced credit requirement, if appropriate, but may not be used to satisfy any other graduation requirement. No more than 9 credits of 490 (Independent Study) courses in a single discipline may be counted toward graduation.

General Education Requirements and Learning Goals

The central importance of a general education is reflected in the learning goals of each of three disciplinary areas. Whereas the courses in a major are designed to develop mastery of a specific field or discipline, courses in general education are designed to establish a strong, intellectual foundation for all specializations. Students earn the minimum credits listed in each of the three general education areas in courses not required by the department of the first major listed on the degree program. Interdisciplinary courses may be used to satisfy requirements in any area for which they have been approved, but a student may not apply the same course to more than one area.

Credit by Examination Program

Individual departments may use CLEP Subject Tests for testout of specific courses. Students in the College of Liberal Arts and Sciences may use CLEP General Test credits as free electives but not toward any of the general education area requirements.

World Language Requirement

The faculty of the College of Liberal Arts and Sciences believes that undergraduate students should acquire elementary practical experience in a second language, should be introduced to the theoretical study of language structure, and should begin to develop an understanding of a second culture through study of that culture's language.

As a means of achieving this objective, a student must satisfy a graduation requirement equivalent to the first year of university-level study in one world language (normally, completion of a two-semester sequence in any one world language). Students who have completed three or more years of high-school world language study (or the equivalent academic record or certification of proficiency in American Sign Language) are deemed to have met the LAS World Language Requirement. These students may not enroll in or receive credit for 101 or 102 in those languages nor may they take those courses on a remedial basis; test-out credit may be obtained by passing an appropriate examination or by completing an advanced sequence (200-level or higher) in that language.

Students who have completed more than one year but less than three years of high-school world language study may satisfy the World Language Requirement by (a) passing the exam for credit at the 102 level, (b) receiving a passing grade in a 102 world language course, (c) receiving a passing grade in a world language course at the 200-level or higher, (d) being a native speaker of a language other than English and passing English 150 and 250 with a grade of C- or better, (e) completing a major in any world language, or (f) in the case of Spanish, earning a passing grade in SPAN 097 Accelerated Spanish Review.

Before enrolling in either SPAN 097 Accelerated Spanish Review or a 102 level language course, students are advised to take the on-line placement test available at www.language.iastate.edu. SPAN 097 is designed for students who need additional remedial work in the language at the first-year level (101-102) and are not planning to continue their language study at the second-year level (201-202). Students who have completed SPAN 097 and wish to pursue further study in Spanish at the 201-202 level may enroll in 102.

Questions about the World Language Requirement and how to meet it should be directed to the Department of World Languages and Cultures. Credits applied toward the World Language Requirement cannot be used to satisfy the general education requirements, but students who have fulfilled the World Language Requirement may apply additional courses in world languages toward the appropriate general education areas.

Advanced Communication Skills

The continued development of communication skills following the sophomore year is the responsibility of the student's major department. The department promotes this development by adopting measures to certify the writing proficiency of its own majors. Certification occurs upon satisfactory completion of a designated course in which writing is evaluated and is a significant component. This designated course may be either a course required in the student's program or an advanced writing course offered by the Department of English, for example:

ENGL 302	Business Communication	3
ENGL 305	Creative Writing: Nonfiction	3
ENGL 314	Technical Communication	3

General Education Areas

The central importance of a general education is reflected in the learning goals of each of three disciplinary areas. Whereas the courses in a major are designed to develop mastery of a specific field or discipline, courses in general education are designed to establish a strong, intellectual foundation for all specializations. The general education areas with their minimum credit requirements for the College of Liberal Arts and Sciences are:

- **Arts and Humanities**—(Minimum 12 credits). The student should develop an understanding of human cultural heritage and history, and an appreciation of reasoning and the aesthetic value of human creativity.
- **Natural Sciences and Mathematical Disciplines**—(Minimum 11 credits, including 3 in the mathematical disciplines and 8 in the natural sciences). The student should experience science as a rational search for understanding the structure and behavior of the natural world, and should appreciate mathematics as a valuable tool of the sciences and as an intrinsically important way of thinking.
- **Social Sciences**—(Minimum 9 credits). The student should develop an appreciation of the principal methods of studying human behavior and an understanding of the structure and functioning of institutions.

Lists of courses approved for the three general education areas are available from the LAS College website.

Because students fulfill, in part, the learning goals of the area of their first major by taking courses in their programs of study, the minimum number of general education credits required in the area of the first major is reduced from that listed above by 3 credits. Students in Liberal Studies or Interdisciplinary Studies majors must complete the minimum requirements in all three areas.

Courses from the department of the first major may not be applied to general education requirements. Courses cross-listed with a course in the student's first major may be used to satisfy either major requirements or general education requirements, but may not be used more than once. Interdisciplinary courses may be used to satisfy requirements in any area for which they have been approved, but a student may not apply the same course more than once.

Advanced Credit Requirements

To obtain a baccalaureate degree from the College of Liberal Arts and Sciences, curriculum in liberal arts and sciences, a student must earn at least 45 credits at the 300 level or above taken at a four-year college. All such credits, including courses taken on a pass/not pass basis, may be used to meet this requirement.

The major must contain at least 8 credits in courses taken at Iowa State University that are numbered 300 or above and in which the student's grade is C or higher. In addition, the average grade of all courses in the major (those courses listed under major on the degree audit) must be 2.0 or higher.

The major in interdisciplinary studies (B.A., B.S.) is available for undergraduate students who have unique interdisciplinary educational goals. Such a major is designed by the faculty and the student and is approved only when the educational goals cannot be met by a reasonable combination of existing majors, minors, and electives. (See Index, Interdisciplinary Studies.)

A curriculum in liberal studies leading to a bachelor of liberal studies degree (B.L.S.) is also available. (See Index, Liberal Studies.)

The Major

See the Majors tab above.

Double Majors

Students may elect a second major from the departments and program areas in the College of Liberal Arts and Sciences, or from a major field offered for the bachelor's degree in another college of the university. Double majors between the following are not allowed: Chemistry with Biochemistry and Agricultural Biochemistry; Biology with Animal Ecology, Agricultural Biochemistry, Biochemistry, Genetics, and Microbiology.

The major departments must then approve the degree program, and if those majors involve two colleges, both deans must approve. Such programs must fulfill the general education requirements of the college of the primary major. If one major leads to the B.A. degree and the other to the B.S. degree, the degree awarded will be the one offered by the department of the primary major.

If the primary major may lead to either a B.A. or a B.S., a student may choose to receive either degree. In all cases, the student must satisfy the requirements

of each major and of the degree that is chosen for the primary major. Students with a primary major in another college who wish to take a second major in the College of Liberal Arts and Sciences are not required to meet the Liberal Arts and Sciences General Education and World Language Requirements.

A student may earn two degrees in the Liberal Arts and Sciences curriculum with two appropriate majors and at least 30 additional credits. Either the B.A. or the B.S. in this curriculum may be earned with the Bachelor of Music. A major in Liberal Arts and Sciences may not be added to a Bachelor of Liberal Studies or a Bachelor of Music degree. Any degree offered by this college may be earned together with a degree with a major in any other college of the university. For the requirements for two degrees, see Index, Bachelor's Degree Requirements.

Minors

A minor, which is optional, must consist of at least 15 credits, with at least 6 credits in courses numbered 300 and above taken at ISU with a grade of C or higher. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

A list of minors offered by the college of Liberal Arts and Sciences can be found on the University Minors page.

Courses applied toward the general education groups may be used to meet the requirements of a minor. See University Minors page for more information.

If a student declares a minor and completes the requirements specified by the offering department/program, the minor will be recorded on the transcript.

Certificate Programs

The LAS College also administers certificate programs in Community Leadership and Public Service and in Latin American Studies. Students interested in pursuing these certificates are advised to consult with their academic adviser and with the relevant program that administers the certificate. Completion of a certificate will be recorded on the transcript.

Electives

Students will take additional courses, freely elected, sufficient to accumulate a total of 120 credits. These additional courses together with the general education courses may be used to meet the requirements of a minor or of another major, provided that they are taken on a graded basis.

Planning the Program of Study

Careful, comprehensive planning is important for meeting graduation requirements and taking advantage of the resources offered by the university. Each student is encouraged to work with his or her academic adviser in developing a four year plan as soon as possible after declaration of the major. A degree audit listing all completed courses and those remaining to be taken for fulfillment of the degree requirements in the student's chosen major is provided to the student and the adviser each semester. The student should review the audit each semester and consult with the adviser when changes are required. Any changes to the audit must be approved by the academic adviser and by the dean's office. Students are responsible for reviewing and updating their degree audits in a timely fashion in order to avoid delays in graduation.

During the first two years, students should meet proficiency requirements in ISU Comm Foundations (English 150, 250) and Information Literacy (LIB 160) and make progress toward meeting the general education requirements. The third and fourth years should emphasize completion of the major (and minor, if elected) and general education requirements, and should give the student an opportunity to take electives. Careful planning of the Program of Study is necessary especially for students seeking academic enhancements such as Study Abroad, National Student Exchange, and Internships.

Academic Advising Learning Outcomes

Through their experience with academic advising, students will:

Develop an understanding of the structure, application, and goals of a liberal arts education in relation to their academic development.

Be able to formulate appropriate questions, seek information, and evaluate and apply academic advice.

Know the requirements, policies and protocol of the university, college, and department as they relate to their educational experience.

Understand how degree programs can be enhanced by study and experiences tailored to their intellectual and personal goals.

Be able to identify and utilize university resources effectively to:

- Satisfy degree requirements
- Plan programs of study, including selection of appropriate courses and registration
- Discover how interests, skills and goals connect to fields of study and careers
- Link curricular and co-curricular activities
- Research and prepare for advanced study and/or careers
- Share responsibility for a mentor-mentee relationship between advisee and adviser.

The Open Option

Many students entering Iowa State University do not wish to declare a major. They want time to become familiar with the academic opportunities that the university offers and to determine the best match between their academic interests and abilities. These students enter Iowa State University as Open Option majors.

The Open Option experience is designed to help students explore majors and careers, become acquainted with the entire university, and make successful adjustments to the academic expectations of Iowa State. Open Option students are assigned academic advisers in the Liberal Arts and Sciences Student Academic Services Office. These advisers help students with academic and career development.

During the first year, an orientation class introduces students to all of the colleges and majors on campus. An optional career development class in the second semester guides students in selecting a major and career that match their academic and personal goals.

Aided by their adviser, Open Option students select courses that allow them to sample their academic interests before committing to a specific university major. Open Option students typically declare a major during their second or third semester. In addition, students who may have started in a specific field and have discovered it is not meeting their needs may transfer into Open Option for a semester or two while they decide on a new major.

Honors Program

Students enrolled in the College of Liberal Arts and Sciences are encouraged to participate in the University Honors Program.

Liberal Arts and Sciences Honors is designed to add depth and breadth to students' programs of study and intellectual development. Students in Liberal Arts and Sciences Honors benefit from the resources and capabilities of a large and dynamic research university along with the small class sizes and intellectual community that characterize smaller, selective liberal arts colleges. Membership in LAS Honors offers specific benefits to students such as collaborations with individual faculty members on Honors projects, extended library loan privileges, 24-hour use of the Jischke Honors Building and priority registration for classes.

LAS Honors encourages freshmen as well as more advanced students to join. Graduation in the Honors Program is recognized by a special notation on the student's diploma and permanent record. Honors students wear white Honors cords at graduation.

Reserve Officers' Training Corps Programs (ROTC)

The College of Liberal Arts and Sciences also offers students the opportunity to combine their academic programs with ROTC programs in Military Science (Army), Naval Science, and Air Force Aerospace Studies.

Teacher Licensure

Teaching licenses are issued by the Iowa Board of Educational Examiners. The Recommending Officer for the ISU University Teacher Education Program submits each candidate file after that candidate is determined to be eligible for licensure. Teaching licenses are issued for a specific teaching level, e.g., grades 5-12. A subject area endorsement is listed on the candidate's license. The licensee may have multiple subject area endorsements listed.

Students in the College of Liberal Arts and Sciences who complete the approved licensure program in music education (BM degree with Vocal K-12 option or Instrumental K-12 option) may apply for a teaching license that allows them to teach music in grades K-12. Students who plan to teach in secondary schools (grades 5-12) may qualify for a license by completing an approved licensure program in one of the following LAS majors:

- Biology
- Chemistry
- Earth Science
- English

- History
- Mathematics
- Physics
- World Languages and Cultures (Endorsements are available in French, German, and Spanish.)

Students may also add these additional endorsements to their primary license:

- English as a Second Language
- General Science
- Physical Science
- Social Studies
- Speech Communication
- World Languages and Cultures (Latin and Russian)

For further information, see Teacher Education.

Preprofessional Programs

Students in the College of Liberal Arts and Sciences may participate in preprofessional programs in human health-related fields, law, and theology by taking the courses required for admission to professional schools. Students may enter the college with the designation Premed, Prelaw, or Preprofessional Health Programs. Most will earn a bachelor's degree by choosing a major and meeting the requirements for the major while taking the preprofessional courses.

Others will spend one to three years as students in the college before transferring to a professional school to which they have applied and been accepted. For further information, see Index, Preprofessional Study.

Experiential Learning (Internship/Co-op Program)

The Experiential Learning (Internship/Co-op) Program assists students in gaining career-related experience while going to school. Internships/Co-ops provide students with the opportunity to gain specific skills, apply academic knowledge in practical situations, pretest their career choice, earn a salary, and establish a network of professional contacts.

Most internships are full-time and last for a semester or a summer, but a part-time experience is possible. Students wishing to receive academic credit for their internship must make arrangements with relevant faculty in advance of their internship experience. In contrast, co-op students work full-time on an extended basis (work two semesters) or on an alternating basis (work, school, work, etc.) during any semester (fall, spring, summer).

It may take students participating in the Experiential Learning (Internship/Co-op) Program an additional semester or more to complete their academic curriculum requirements. For additional information, contact Liberal Arts and Sciences Career Services.

Curriculum for Bachelor of Music

The Department of Music offers a Bachelor of Music degree (B.Mus.) as well as a Bachelor of Arts degree in music. For information about both degrees, see Music, Courses and Programs.

In order to receive teacher certification in music, students must earn the bachelor of music degree.

Candidates for the bachelor of music will complete the following requirements.

Credits:

38.5-46.5 General education

47 Music core

31-52.5 Music option

(Students must select one of the following options: music education [vocal or instrumental], performance [voice, piano, organ, string instruments, wind or percussion instrument], or composition.)

Curriculum for Bachelor of Liberal Studies

The LAS College administers a bachelors degree program in Liberal Studies. This degree, the bachelor of liberal studies (B.L.S.), was established by the three Iowa Regent universities to meet the needs of Iowans who want to earn a college degree but whose circumstances present obstacles to completing a traditional on-campus degree program. The B.L.S. is a general studies degree in the liberal arts. There is no traditional major. Instead, students take coursework in three areas of distribution. These areas may be focused in a single discipline or diversified over

several disciplines. With the assistance of a B.L.S. adviser, students can structure a program that meets their individual educational, vocational or personal goals.

For specific degree requirements, see Liberal Studies.

Curriculum for Software Engineering

A bachelor of science degree in software engineering is jointly administered by the Department of Electrical and Computer Engineering (College of Engineering) and the Department of Computer Science (College of Liberal Arts and Sciences). The program is aimed at creating high-quality software in a systematic, controlled, and efficient manner. The specific objective of the program is to educate students on principles, processes, techniques, and tools for producing, analyzing, specifying, designing and evolving software. A broader objective is to cultivate among students intellectual curiosity, problem solving skills, good learning habits, effective communication skills, leadership, and teamwork.

This interdepartmental program enables students to take a range of Software Engineering courses, as well as elective courses from both Computer Science and Computer Engineering as part of their degree program.

For specific degree requirements, see Software Engineering, Courses and Programs.

Departments of the College

Majors and minors in the College of Liberal Arts and Sciences are administered by the following departments:

- Air Force Aerospace Studies
- Anthropology
- Biochemistry, Biophysics, and Molecular Biology
- Chemistry
- Computer Science
- Ecology, Evolution, and Organismal Biology
- Economics
- English
- Genetics, Development, and Cellular Biology
- Geological and Atmospheric Sciences
- Greenlee School of Journalism and Communication
- History
- Mathematics
- Military Science (Army Reserve Officers' Training Corps)
- Music and Theatre
- Naval Science
- Philosophy and Religious Studies
- Physics and Astronomy
- Political Science
- Psychology
- Sociology
- Statistics
- World Languages and Cultures

The Major

A list of majors in the College of Liberal Arts and Sciences is available from the Colleges and Curricula page.

Students must show they have achieved depth in a specialized area by completing successfully the requirements and learning goals of a major. A major is comprised of 24 to 48 credits in a specific discipline as determined by the faculty. Tracks within a major must have a common 24 credit core. Some courses outside the major discipline may also be required as supporting work for the major. (See Index for page reference to individual department and program requirements.)

The major must contain at least 8 credits in courses taken at Iowa State University that are numbered 300 or above and in which the student's grade is C or higher. In addition, the average grade of all courses in the major (those courses listed under major on the degree audit) must be 2.0 or higher. Courses in the first major listed on the degree program may not be counted in the general education groups.

Courses meeting the requirement of additional majors may be counted in the general education groups. When choosing an additional major, students must confirm that the additional major is allowable (see list under "Double Majors").

African and African American Studies

Interdepartmental Undergraduate Program

Undergraduate Study

African and African American Studies, a cross-disciplinary program in the College of Liberal Arts and Sciences, offers students the opportunity to explore the African Americans' experience and African American contributions to American culture. Students in the program analyze and learn about African American experiences through the study of history, literature, art, religion, and society. They gain knowledge and develop skills and sensitivities to help them function effectively in today's diverse society.

African and African American Studies at Iowa State University is an expanding program. Most of the courses in the program satisfy general education requirements in the College of Liberal Arts and Sciences, the human relations requirement for teachers, and the university's diversity requirement. Students can minor or even design their own Interdisciplinary Studies major with an emphasis in African American Studies. Relevant courses are offered through other departments.

A minor in African and African American Studies requires six courses in the program with a minimum of 18 credits, including AF AM 201 Introduction to African American Studies Introduction to African American Studies and AF AM 460 Seminar in African American Culture Seminar in African American Culture. The remaining credits must come from at least two departments, with at least two courses taken at the junior level or above. Independent study and internship opportunities are available for credit, but do not count in the minimum requirements for the minor.

Graduate Study

Several courses can be applied to a graduate program as electives.

Courses primarily for undergraduates:

AF AM 201. Introduction to African American Studies.

(3-0) Cr. 3. F.S.

An interdisciplinary introduction to the study of African American culture. Includes history, the social sciences, literature, religion, and the arts, as well as conceptual frameworks for investigation and analysis of the African American experience. Meets U.S. Diversity Requirement

AF AM 330. Ethnic and Race Relations.

(Cross-listed with SOC). (3-0) Cr. 3. F.S.SS. *Prereq:* SOC 134

Analysis of ethnic and race relations, particularly in America; emphasis on the sociology and psychology of race and ethnic relations. Meets U.S. Diversity Requirement

AF AM 334. African American Religious Experience.

(Cross-listed with RELIG). (3-0) Cr. 3. F. *Prereq:* Prior course work in *Religious Studies* or *African American Studies* recommended

Examination of African-American experience from the perspective of black religion with attention to political, economic, social, theological and artistic expressions, including music, that serve the life of African-American communities."

Meets U.S. Diversity Requirement

AF AM 347. Studies in African American Literature.

(Cross-listed with ENGL). (3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq:* ENGL 250

Literature by African Americans, which may include study of individual authors, movements, themes, genres.

Meets U.S. Diversity Requirement

AF AM 350. Women of Color in the U.S.

(Cross-listed with W S). (3-0) Cr. 3. S. *Prereq:* 3 credits in *Women's Studies* or *African American Studies*

Economic, social, political and cultural roles of Women of Color in the U.S. Includes literary, philosophical, and artistic expressions. Myths and realities explored.

Meets U.S. Diversity Requirement

AF AM 353. History of African Americans I.

(Cross-listed with HIST). (3-0) Cr. 3. *Prereq:* *Sophomore classification*

Examines African roots of black culture and the African American experience in the United States from the colonial period through the Civil War. Topics include Atlantic Slave Trade, slavery and American identity, abolition, the emergence of Black Nationalism, and black participation in the Civil War.

Meets U.S. Diversity Requirement

AF AM 354. History of African Americans II.

(Cross-listed with HIST). (3-0) Cr. 3. *Prereq: Sophomore classification*
Explores African American political thought and political action from Reconstruction to the present. Topics include rise of Jim Crow segregation, urban migration, Garvey movement, Harlem Renaissance, Depression and world wars, Pan-Africanism, civil rights, Black Power, and black feminism.
Meets U.S. Diversity Requirement

AF AM 460. Seminar in African American Culture.

(3-0) Cr. 3. S.
Intensive study of a selected topic in African-American Studies in one or more disciplines. Selected readings of various authors, movements, eras, or genres. Primary and secondary source materials.
Meets U.S. Diversity Requirement

AF AM 490. Independent Study.

Cr. 1-3. Repeatable, maximum of 3 times.

Air Force Aerospace Studies

Undergraduate Study

The objectives of the Department of Air Force Aerospace Studies (AFAS) are to provide qualified students the opportunity to earn a commission as an active duty officer in the United States Air Force (USAF) and to build better citizens for those not interested in serving in the USAF. Entry into the Air Force Reserve Officer Training Corps (AFROTC) program is not dependent on departmental major or year in the university, and is open to all qualified students.

The curriculum is divided into two basic phases: the general military course (GMC) and the professional officer course (POC). The GMC is introductory and consists of four consecutive one-hour courses normally taken during the freshman and sophomore years.

Selection for the POC is on a competitive basis, and cadets enrolling in this course must meet certain academic, mental, physical, and moral standards. Students who have completed the GMC will compete for an enrollment allocation to participate in Field Training, a four-week summer program which provides a concentrated experience in the Air Force environment. The training program includes officer training, career orientation, expeditionary training, an introduction to typical base functions, and physical training. Prior to entry into the POC, students must successfully complete Field Training.

Upon enrollment and acceptance into the POC, all cadets are required to complete a contractual agreement with the Air Force, which obligates them to a minimum of four years of active duty as an USAF officer. Qualified cadets may compete for selection for rated duty as a pilot, combat systems operator (CSO), remotely-piloted aircraft (RPA) operator, and air battle manager (ABM). Rated duty officers receive additional specialized instruction, requiring an active duty commitment of six years for CSO, RPA, and ABM operators and 10 years for pilots.

AFROTC scholarships are available and provide payment of full tuition and fees. In addition, scholarship cadets receive a \$250-\$400 monthly subsistence allowance and \$900 per year book allowance. Scholarships can be awarded for periods of two, three, or four years, with up to one additional year for qualified applicants in selected majors. Upon acceptance of a scholarship, the student executes a contract with the USAF, and students who fail to observe the contract terms may be called to active duty in an enlisted grade or be required to repay monies received from the Air Force. To determine eligibility and initiate application procedures for the scholarship program, interested students should contact the AFAS department.

The College of Liberal Arts and Sciences offers a minor in military studies. Requirements for the minor include taking a minimum of 15 credits of ROTC instruction, which may be taken from one or more of the ROTC programs. At least six credits must be in courses numbered 300 or above.

Courses primarily for undergraduates:**AFAS 101. Introductory Leadership Laboratory I.**

(0-2) Cr. 1. F. *Prereq: Membership as a cadet in AFROTC*
Instruction on Air Force customs and courtesies; drill and ceremonies, issuing military commands, physical training, studying the environment of an Air Force officer and learning about areas of opportunity available to commissioned officers. Offered on a satisfactory-fail basis only.

AFAS 102. Introductory Leadership Laboratory II.

(0-2) Cr. 1. S. *Prereq: Membership as a cadet in AFROTC*
A continuation of AFAS 101. Air Force customs and courtesies; drill and ceremonies, issuing military commands, physical training, studying the environment of an Air Force officer and learning about areas of opportunity available to commissioned officers. Offered on a satisfactory-fail basis only.

AFAS 141. Foundations of the United States Air Force.

(1-0) Cr. 1. F.
Basic introduction to the United States Air Force and Air Force Reserve Officer Training Corps. Mission and organization of the Air Force, officership and professionalism, military customs and courtesies, Air Force officer opportunities, and communication skills.

AFAS 142. Foundations of the United States Air Force.

(1-0) Cr. 1. S.
A continuation of 141. Topics include Air Force installations, Air Force core values, leadership and team building, further study of interpersonal communication, the Oath of Office and Commissioning.

AFAS 151. Air Force Physical Training.

(0-2) Cr. 1. Repeatable. F.S. *Prereq: Membership as a cadet in AFROTC*
Use of basic military training skills and instruction to develop confidence, leadership, communication skills and physical fitness. The team approach is utilized in the instruction and application of Air Force physical fitness requirements. Students will learn various Air Force physical fitness techniques as well as how to conduct physical fitness sessions. Full participation in all events will be determined based on student's physical and medical eligibility. Offered on a satisfactory-fail basis only.

AFAS 201. Basic Leadership Laboratory I.

(0-2) Cr. 1. F. *Prereq: Membership as a cadet in AFROTC*
Instructs and critiques freshmen cadets on Air Force customs and courtesies, drill and ceremonies, issuing military commands and physical training. Offered on a satisfactory-fail basis only.

AFAS 202. Basic Leadership Laboratory II.

(0-2) Cr. 1. S. *Prereq: Membership as a cadet in AFROTC*
A continuation of AFAS 201, instructing and critiquing freshmen cadets on Air Force customs and courtesies, drill and ceremonies, issuing military commands and physical training. Offered on a satisfactory-fail basis only.

AFAS 241. The Evolution of USAF Air & Space Power I.

(1-0) Cr. 1. F.
Examines the general aspects of air and space power through a historical perspective. Utilizing this perspective, the course covers a time period from the first balloons and dirigibles to the Korean War. Historical examples are provided to illustrate the development of airpower capabilities and missions to demonstrate the evolution of what has become today's USAF air and space power.

AFAS 242. The Evolution of USAF Air & Space Power II.

(1-0) Cr. 1. S.
A continuation of AFAS 241 that examines the general aspects of air and space power through a historical perspective. Utilizing this perspective, the course covers a time period from the Korean War to the space-age global positioning systems of the Persian Gulf War. Historical examples are provided to illustrate the development of airpower capabilities and missions to demonstrate the evolution of what has become today's USAF air and space power.

AFAS 301. Intermediate Leadership Laboratory I.

(0-3) Cr. 1. F. *Prereq: Membership as a cadet in AFROTC*
Mid-level management of leadership experiences involving the planning and controlling of the military activities of the AFROTC cadet corps, physical training, the preparation and presentation of briefings and other oral and written communications, and the providing of interviews, guidance, and information that will increase the understanding, motivation, and performance of other cadets. Offered on a satisfactory-fail basis only.

AFAS 302. Intermediate Leadership Laboratory II.

(0-3) Cr. 1. S. *Prereq: Membership as a cadet in AFROTC*
A continuation of AFAS 301, mid-level management of leadership experiences involving the planning and controlling of the military activities of the AFROTC cadet corps, physical training, the preparation and presentation of briefings and other oral and written communications, and the providing of interviews, guidance, and information that will increase the understanding, motivation, and performance of other cadets. Offered on a satisfactory-fail basis only.

AFAS 341. Air Force Leadership Studies I.

(3-0) Cr. 3. F.
A look at the fundamental issues of leadership and management in the U.S Air Force; a large and diverse organization. It examines the theoretical aspects of leadership, management, communications, motivation and problem-solving while studying them against the backdrop of the U.S. Air Force. The course also conducts hands-on exercises to apply principles learned. While the curriculum is focused on the Air Force as an organization, the principles studied are applicable to most organizations.

AFAS 342. Air Force Leadership Studies II.(3-0) Cr. 3. S. *Prereq:* AFAS 341

A continuation of AFAS 341, that looks at the advanced issues of leadership and management in the U.S. Air Force; a large and diverse organization. It examines the theoretical aspects of leadership, management, communications, motivation and problem-solving while studying them against the backdrop of the U.S. Air Force. The course also conducts hands-on exercises to apply principles learned. While the curriculum is focused on the Air Force as an organization, the principles studied are applicable to most organizations.

AFAS 401. Advanced Leadership Laboratory I.(0-3) Cr. 1. F. *Prereq:* *Membership as a cadet in AFROTC*

Advanced leadership experiences involving the planning and controlling of the upper level management of military activities of the AFROTC cadet corps, physical training, the preparation and presentation of briefings and other oral and written communications, and the providing of interviews, guidance, and information that will increase the understanding, motivation, and performance of other cadets. Offered on a satisfactory-fail basis only.

AFAS 402. Advanced Leadership Laboratory II.(0-3) Cr. 1. S. *Prereq:* *Membership as a cadet in AFROTC*

A continuation of AFAS 401, advanced leadership experiences involving the planning and controlling of the military activities of the AFROTC cadet corps, physical training, the preparation and presentation of briefings and other oral and written communications, and the providing of interviews, guidance, and information that will increase the understanding, motivation, and performance of other cadets. Offered on a satisfactory-fail basis only.

AFAS 441. Preparation for Active Duty.

(3-0) Cr. 3. F.

Traces the source of military authority and responsibilities from the U.S. Constitution through the DoD to an Air Force officer. Examines the structure and capabilities of the other services and joint structures. Addresses the supervisory duties of an Air Force officer associated with administrative actions and military law as force management tools. Builds upon leadership and management skill learned in AFAS 341/342 and includes demonstrations of written and verbal communications processes.

AFAS 442. National Security Affairs.

(3-0) Cr. 3. S.

Examines the national security process through review of the Department of Defense's statutory administrative and operational relationships as context for this course's regional studies component. Reviews functions of air and space power as outlined in Air Force doctrine and introduces the concept of joint operations. Integrates these concepts with regional studies to survey issues of interest to professional military officers and governmental leaders. Selectively reviews and discusses Africa, Latin America, South Asia, East Asia, Europe, Russia and the Middle East.

Meets International Perspectives Requirement.

Anthropology

Undergraduate Study

An undergraduate major in Anthropology can serve as the nucleus for a general liberal education, or as the prerequisite for graduate training qualifying a person for positions in (1) college and university teaching, (2) research, and (3) administrative and applied positions in government, development organizations, museums, and private businesses or corporations.

Anthropology students develop a well-rounded professional education in cultural anthropology, archaeology, and biological anthropology. They learn what it means to be human through the study of culture and society, the biology and evolution of humans and other primates, and through the study of past human communities and material culture. Students learn the important historical and contemporary issues of our subdisciplines, and they learn what it means to be an Anthropologist and acquire an anthropological perspective on global issues. Students develop an appreciation of the value of cultural difference at the local, national and global levels. Students may obtain experience in archaeological, ethnographic and biological research.

Anthropology majors may choose either a bachelor of arts or a bachelor of science degree, both of which require 33 credits in anthropology. A bachelor of arts degree is obtained by fulfilling the college general education requirements plus 6 additional credits in Groups I and III. A bachelor of science degree is obtained by fulfilling the college general education requirements plus 6 additional credits in Group II.

Undergraduate students with majors in anthropology are required to take the following anthropology core courses:

ANTHR 306	Cultural Anthropology	3
ANTHR 307	Biological Anthropology	3
ANTHR 308	Archaeology	3
ANTHR 450	Historical and Theoretical Approaches in Anthropology	3
One course in statistics is required		3

A minor in anthropology consists of at least 15 credits.

One of the following in cultural anthropology:		3
ANTHR 306	Cultural Anthropology	
ANTHR 340	Magic, Witchcraft, and Religion	
ANTHR 323	Topics in Latin American Anthropology	
ANTHR 322	Peoples and Cultures of Native North America	

One of the following in archaeology or biological anthropology:

ANTHR 307	Biological Anthropology	3
or ANTHR 308	Archaeology	
or ANTHR 321	World Prehistory	
or ANTHR 315	Archaeology of North America	
or ANTHR 319	Skeletal Biology	
or ANTHR 482	Topics in Biological Anthropology	

Communication Proficiency requirement: The department requires that a student earn a grade of C or better in:

ENGL 250	Written, Oral, Visual, and Electronic Composition	3
Two of the following courses		
ENGL 302	Business Communication	
ENGL 309	Report and Proposal Writing	
ENGL 314	Technical Communication	

An additional writing-intensive course outside anthropology.

The principal sub-disciplines of anthropology are represented by the following:

1. Cultural anthropology:

ANTHR 201	Introduction to Cultural Anthropology	3
ANTHR 230	Globalization and the Human Condition	3
ANTHR 306	Cultural Anthropology	3
ANTHR 309	Introduction to Culture and Language	3
ANTHR 313	Kinship and Marriage in a Global Perspective	3
ANTHR 322	Peoples and Cultures of Native North America	3
ANTHR 323	Topics in Latin American Anthropology	3
ANTHR 332	Current Issues in Native North America	3
ANTHR 333	Asian American Material Cultures	3
ANTHR 336	Global Development	3
ANTHR 340	Magic, Witchcraft, and Religion	3
ANTHR 354	War and the Politics of Humanitarianism	3
ANTHR 411	Applied Anthropology	3
ANTHR 418	Global Culture, Consumption and Modernity	3
ANTHR 431	Ethnographic Field School	4-6
ANTHR 434B	Internship: Cultural Anthropology	2-6
ANTHR 434D	Internship: Linguistic Anthropology	2-6
ANTHR 444	Sex and Gender in Cross-cultural Perspective	3
ANTHR 450	Historical and Theoretical Approaches in Anthropology	3
ANTHR 451B	Practicum in Anthropology: Cultural Anthropology	1-3
ANTHR 451D	Practicum in Anthropology: Linguistic Anthropology	1-3
ANTHR 490B	Independent Study: Cultural Anthropology	1-5
ANTHR 490D	Independent Study: Linguistic Anthropology	1-5

2. Archaeology:

ANTHR 202	Introduction to Biological Anthropology and Archaeology	3
ANTHR 308	Archaeology	3
ANTHR 315	Archaeology of North America	3
ANTHR 320	Great Plains Archaeology	3
ANTHR 321	World Prehistory	3
ANTHR 428	Topics in Archaeological Laboratory Methods and Techniques	3
ANTHR 429	Topics in Archaeological Laboratory Methods and Techniques: Archaeological Field School	4-6
ANTHR 434A	Internship: Archaeology	2-6

ANTHR 450	Historical and Theoretical Approaches in Anthropology	3
ANTHR 451A	Practicum in Anthropology: Archaeology	1-3
ANTHR 4271	Field Archaeology	4
ANTHR 490A	Independent Study: Archaeology	1-5
3. Biological Anthropology:		
ANTHR 202	Introduction to Biological Anthropology and Archaeology	3
ANTHR 307	Biological Anthropology	3
ANTHR 319	Skeletal Biology	3
ANTHR 350	Primate Behavior	3
ANTHR 424	Forensic Anthropology	3
ANTHR 434C	Internship: Biological Anthropology	2-6
ANTHR 438	Primate Evolutionary Ecology and Behavior	3
ANTHR 445	Biological Field School	4-6
ANTHR 451C	Practicum in Anthropology: Biological Anthropology	1-3
ANTHR 490C	Independent Study: Biological Anthropology	1-5

Graduate Study

The department offers a master of arts degree with a major in anthropology. Graduate courses are offered in the areas of biological anthropology, archaeology, cultural anthropology, and anthropological history and theory. Competence in one foreign language and in statistics must be demonstrated. A thesis, based on original research, is required.

Courses primarily for undergraduates:

ANTHR 201. Introduction to Cultural Anthropology.

(3-0) Cr. 3. F.S.SS.

Comparative study of culture as key to understanding human behaviors in different societies. Using a global, cross-cultural perspective, patterns of family life, economic and political activities, religious beliefs, and the ways in which cultures change are examined.

Meets International Perspectives Requirement.

ANTHR 202. Introduction to Biological Anthropology and Archaeology.

(3-0) Cr. 3. F.S.

Human biological and cultural evolution; survey of the evidence from fossil primates, the human fossil record and the archaeological record, as well as living primates; introduction to research methods in archaeology and biological anthropology.

ANTHR 220. Globalization and Sustainability.

(Cross-listed with ENV S, GLOBE, M E, MAT E, SOC, T SC). (3-0) Cr. 3. F.S.

An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department.

Meets International Perspectives Requirement.

ANTHR 230. Globalization and the Human Condition.

(3-0) Cr. 3. F.S.

An introduction to understanding key global issues in the contemporary world. Focuses on social relations, cultural practices and political-economic linkages among Africa, the Americas, Asia, Europe and the Pacific.

Meets International Perspectives Requirement.

ANTHR 306. Cultural Anthropology.

(2-2) Cr. 3. S. Prereq: ANTHR 201

Survey of the major theoretical, methodological and empirical foundations of cultural anthropology. Participatory lab: focus on ethnographic methods through individual research projects.

Meets International Perspectives Requirement.

ANTHR 307. Biological Anthropology.

(2-2) Cr. 3. S. Prereq: ANTHR 202

Human evolution as known from fossil evidence, comparative primate studies, and genetic variations in living populations. Laboratory-tutorial sessions include study and discussion of human osteology, fossil hominids, simple Mendelian traits, and bio-ethics in applied biological anthropology.

ANTHR 308. Archaeology.

(2-2) Cr. 3. F. Prereq: ANTHR 202

Methods and techniques for the recovery and interpretation of archaeological evidence, its role in reconstructing human behavior and past environments. Laboratory sessions include experience in the interpretation of archaeological evidence, the use of classification systems, and prehistoric technologies such as ceramics and stone tools.

ANTHR 309. Introduction to Culture and Language.

(Cross-listed with LING). (3-0) Cr. 3. Prereq: ANTHR 201 recommended

Introduction to study of language, culture and society from an anthropological perspective. Focus on language and thought, ethnography of speaking, discourse and narrative, writing and literacy, and media communication. Discussion of key theories and methods of linguistic anthropology.

Meets International Perspectives Requirement.

ANTHR 313. Kinship and Marriage in a Global Perspective.

(Dual-listed with ANTHR 513). (3-0) Cr. 3. S. Prereq: ANTHR 201 recommended

Comparative and historical overview of the family, marriage and kinship. Examination of cross-cultural differences in the construction and functioning of family and kin relations; role of kinship in structuring individual and collective activities; current critical and theoretical issues in kinship studies, especially integrating work on gender and sexuality.

Meets International Perspectives Requirement.

ANTHR 315. Archaeology of North America.

(Dual-listed with ANTHR 515). (Cross-listed with AM IN). (3-0) Cr. 3. S. Prereq: ANTHR 202

Prehistory and early history of North America as reconstructed from archaeological evidence; peopling of the New World; culture- historical sequences of major culture areas; linkages of archaeological traditions with selected ethnohistorically known Native American groups.

Meets U.S. Diversity Requirement

ANTHR 319. Skeletal Biology.

(Dual-listed with ANTHR 519). (2-2) Cr. 3. F. Prereq: ANTHR 307 or college level biology

Comprehensive study of the skeletal anatomy, physiology, genetics, growth, development and population variation of the human skeleton. Applications to forensic anthropology, paleopathology and bioarchaeology are introduced.

ANTHR 320. Great Plains Archaeology.

(Dual-listed with ANTHR 520). (Cross-listed with AM IN). (3-0) Cr. 3. F. Prereq: ANTHR 202

Prehistoric societies of the Great Plains region of North America, from initial occupation to European contact; emphasis on sociocultural changes, continuities, and adaptations to changing environments using archaeological, ecological, ethnographic information.

Meets U.S. Diversity Requirement

ANTHR 321. World Prehistory.

(Dual-listed with ANTHR 521). (3-0) Cr. 3. S. Prereq: ANTHR 202 recommended

An introduction to archaeological sites from around the world including the Near East, Africa, Europe, Mesoamerica, and North and South America. Emphasis is on the interpretation of material cultural remains in reconstructing past societies.

ANTHR 322. Peoples and Cultures of Native North America.

(Dual-listed with ANTHR 522). (Cross-listed with AM IN). (3-0) Cr. 3. Prereq: ANTHR 201 or AM IN 210

Origin, distribution, and pre-contact life of the indigenous peoples of North America. Survey of culture areas; language families, social and political systems, ecological and economic adaptations, religion and spirituality; impact of European contact; cultural resilience and revitalization in contemporary American Indian life.

Meets U.S. Diversity Requirement

ANTHR 323. Topics in Latin American Anthropology.

(Dual-listed with ANTHR 523). (Cross-listed with AM IN). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 201 or ANTHR 306 recommended

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.

Meets International Perspectives Requirement.

ANTHR 323A. Latin American Anthropology: Violence and Memory.

(Dual-listed with ANTHR 523A). (Cross-listed with AM IN). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 201 or ANTHR 306 recommended

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.

ANTHR 323B. Latin American Anthropology: Social movements and Democracy.

(Dual-listed with ANTHR 523B). (Cross-listed with AM IN). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. *Prereq: ANTHR 201 or ANTHR 306 recommended*
 Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
 Meets International Perspectives Requirement.

ANTHR 323C. Latin American Anthropology: Race, Class and Gender.

(Dual-listed with ANTHR 523C). (Cross-listed with AM IN). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. *Prereq: ANTHR 201 or ANTHR 306 recommended*
 Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
 Meets International Perspectives Requirement.

ANTHR 323D. Latin American Anthropology: Regional Focus.

(Dual-listed with ANTHR 523D). (Cross-listed with AM IN). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. *Prereq: ANTHR 201 or ANTHR 306 recommended*
 Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
 Meets International Perspectives Requirement.

ANTHR 332. Current Issues in Native North America.

(Dual-listed with ANTHR 532). (Cross-listed with AM IN). (3-0) Cr. 3. S. *Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended*
 Conditions and issues of contemporary American Indian peoples, historical background of contemporary life; federal policies, treaty rights, and sovereignty. Economic development and politics on reservations, family and gender roles, cultural innovation and revitalization, urbanization, recent social movements, and other current concerns.
 Meets U.S. Diversity Requirement

ANTHR 333. Asian American Material Cultures.

(Dual-listed with ANTHR 533). (3-0) Cr. 3.
 A broad exposure to the cultural expressions of Asian Americans from the nineteenth century to the present. Analysis of everyday Asian American cultural experiences within the contexts of agency, power, and identity formation.
 Meets U.S. Diversity Requirement

ANTHR 336. Global Development.

(Dual-listed with ANTHR 536). (3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq: ANTHR 201 or ANTHR 306*
 Cross-cultural analysis of current development practices from an anthropological perspective; focus on international aid, development institutions, agrarian reform, indigenous knowledge, humanitarianism and human rights; introduction to main theories of political and economic anthropology.
 Meets International Perspectives Requirement.

ANTHR 340. Magic, Witchcraft, and Religion.

(Dual-listed with ANTHR 540). (Cross-listed with RELIG). (3-0) Cr. 3. S. *Prereq: ANTHR 201 or ANTHR 306*
 Survey of global religious belief and practice from an anthropological perspective. Emphasis on myth and ritual, shamanism, magic, witchcraft, beliefs in spirits, conceptions of the soul, mind and body relationships, and healing and therapeutic practices. Discussion of religious response to dramatic political and social change; effects of globalization on religious practice.
 Meets International Perspectives Requirement.

ANTHR 350. Primate Behavior.

(Dual-listed with ANTHR 550). (2-2) Cr. 3. F.S.SS. *Prereq: ANTHR 202 and/or basic biology course recommended*
 An introduction to the Order Primates with a focus on their behavior. Biological and social adaptations of monkeys, apes, and prosimians; basic evolutionary concepts, current trends and theories in the field of Primatology and issues related to primate conservation.

ANTHR 354. War and the Politics of Humanitarianism.

(Cross-listed with POL S). (3-0) Cr. 3. S. *Prereq: Pol S 235, Pol S 251, or Anthr 230*
 Humanitarianism as a system of thought and a system of intervention in conflict and post-conflict situations: role of humanitarian organizations and actors in addressing human suffering caused by conflict or war military action as a form of humanitarian intervention.
 Meets International Perspectives Requirement.

ANTHR 376. Classical Archaeology.

(Cross-listed with CL ST, RELIG). (3-0) Cr. 3. S.
 Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.
 Meets International Perspectives Requirement.

ANTHR 376A. Classical Archeology: Bronze Age and Early Iron Age Greece.

(Cross-listed with CL ST, RELIG). (3-0) Cr. 3. S.
 Bronze Age (Minoan and Mycenaean palatial cultures) and Early Iron Age Greece. (ca 3000-700 BCE). Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.
 Meets International Perspectives Requirement.

ANTHR 376B. Classical Archeology: Archaic through Hellenistic Greece (ca 700-30 BCE).

(Cross-listed with CL ST, RELIG). (3-0) Cr. 3. S.
 Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.
 Meets International Perspectives Requirement.

ANTHR 411. Applied Anthropology.

(Dual-listed with ANTHR 511). (3-0) Cr. 3. F. *Prereq: ANTHR 201 or ANTHR 306*
 Theoretical and practical considerations of applying anthropological knowledge to contemporary cultural, political and economic issues. Dynamics of directed change in contemporary world cultures. Principles, theories, and ethics of international development projects from a sociocultural perspective.
 Meets International Perspectives Requirement.

ANTHR 418. Global Culture, Consumption and Modernity.

(Dual-listed with ANTHR 518). (3-0) Cr. 3. F. *Prereq: ANTHR 201 or ANTHR 306 recommended*
 Cross-cultural study of the impact of globalization, with an emphasis on economic consumption and the movement of goods, ideas, and peoples across cultural and national boundaries.
 Meets International Perspectives Requirement.

ANTHR 424. Forensic Anthropology.

(Dual-listed with ANTHR 524). (2-2) Cr. 3. S. *Prereq: ANTHR 202 or ANTHR 307; ANTHR 319 recommended*
 Comprehensive study of forensic anthropology, a specialized subfield of biological anthropology. Emphasis is placed on personal identifications from extremely fragmentary, comingled, burnt, cremated and incomplete skeletal remains. All parameters of forensic study are included as they pertain to anthropology, including human variation, taphonomy, entomology, archaeology, pathology, epidemiology; genetics and the non-biological forensic disciplines. An appreciation for the wide range of medicolegal and bioethical issues will also be gained.

ANTHR 425. Professional Preparation in Anthropology.

(2-0) Cr. 2. F. *Prereq: Junior classification in anthropology or permission from the instructor*
 Instruction and guidance in the development of professional skills needed for success in academic and non-academic anthropological careers. Topics will include strategies for internship and job searches, creating resumes and CVs, composing personal statements and cover letters, and developing contacts and sources. Offered on a satisfactory-fail basis only.

ANTHR 427I. Field Archaeology.

(Cross-listed with IA LL). Cr. 4. SS.
 Nature of cultural and environmental evidence in archaeology and how they are used to model past human behavior and land use; emphasis on lowa prehistory; basic reconnaissance surveying and excavation techniques.

ANTHR 428. Topics in Archaeological Laboratory Methods and Techniques.

(Dual-listed with ANTHR 528). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S. *Prereq: ANTHR 308*
 Laboratory processing, analysis, and interpretation of archaeological materials such as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical techniques including classification, data acquisition and organization, and computer applications.

ANTHR 428A. Topics in Archaeological Laboratory Methods and Techniques: Lithics.

(Dual-listed with ANTHR 528A). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 308

Laboratory processing, analysis, and interpretation of archaeological materials such as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical techniques including classification, data acquisition and organization, and computer applications.

ANTHR 428B. Topics in Archaeological Laboratory Methods and Techniques: Ceramics.

(Dual-listed with ANTHR 528B). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 308

Laboratory processing, analysis, and interpretation of archaeological materials such as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical techniques including classification, data acquisition and organization, and computer applications.

ANTHR 428C. Topics in Archaeological Laboratory Methods and Techniques: Faunal remains.

(Dual-listed with ANTHR 528C). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 308

Laboratory processing, analysis, and interpretation of archaeological materials such as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical techniques including classification, data acquisition and organization, and computer applications.

ANTHR 428D. Topics in Archaeological Laboratory Methods and Techniques: General.

(Dual-listed with ANTHR 528D). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 308

Laboratory processing, analysis, and interpretation of archaeological materials such as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical techniques including classification, data acquisition and organization, and computer applications.

ANTHR 429. Topics in Archaeological Laboratory Methods and Techniques: Archaeological Field School.

(Dual-listed with ANTHR 529). Cr. 4-6. SS. Prereq: ANTHR 202 or ANTHR 308 Summer field school for training in archaeological reconnaissance and excavation techniques; documentation and interpretation of archaeological evidence.

ANTHR 431. Ethnographic Field School.

(Dual-listed with ANTHR 531). Cr. 4-6.

Hands-on training in ethnographic field methods; students will carry out research projects in socio-cultural anthropology, learning a variety of investigative research techniques commonly used in social sciences.

ANTHR 434. Internship.

Cr. 2-6. Repeatable, maximum of 6 credits. F.S.SS. Prereq: Junior or senior standing

Supervised practice in government agencies, museums, and business organizations. Offered on a satisfactory-fail basis only. Not more than 6 credits of internship experience may count towards the major. No credits in Anthr 434 may be used to satisfy Anthropology core courses for majors or for the Anthropology minor.

ANTHR 434A. Internship: Archaeology.

Cr. 2-6. Repeatable, maximum of 6 credits. F.S.SS. Prereq: Junior or senior standing

Supervised practice in government agencies, museums, and business organizations. Offered on a satisfactory-fail basis only. Not more than 6 credits of internship experience may count towards the major. No credits in Anthr 434 may be used to satisfy Anthropology core courses for majors or for the Anthropology minor.

ANTHR 434B. Internship: Cultural Anthropology.

Cr. 2-6. Repeatable, maximum of 6 credits. F.S.SS. Prereq: Junior or senior standing

Supervised practice in government agencies, museums, and business organizations. Offered on a satisfactory-fail basis only. Not more than 6 credits of internship experience may count towards the major. No credits in Anthr 434 may be used to satisfy Anthropology core courses for majors or for the Anthropology minor.

ANTHR 434C. Internship: Biological Anthropology.

Cr. 2-6. Repeatable, maximum of 6 credits. F.S.SS. Prereq: Junior or senior standing

Supervised practice in government agencies, museums, and business organizations. Offered on a satisfactory-fail basis only. Not more than 6 credits of internship experience may count towards the major. No credits in Anthr 434 may be used to satisfy Anthropology core courses for majors or for the Anthropology minor.

ANTHR 434D. Internship: Linguistic Anthropology.

Cr. 2-6. Repeatable, maximum of 6 credits. F.S.SS. Prereq: Junior or senior standing

Supervised practice in government agencies, museums, and business organizations. Offered on a satisfactory-fail basis only. Not more than 6 credits of internship experience may count towards the major. No credits in Anthr 434 may be used to satisfy Anthropology core courses for majors or for the Anthropology minor.

ANTHR 438. Primate Evolutionary Ecology and Behavior.

(Dual-listed with ANTHR 538). Cr. 3. S. Prereq: ANTHR 202 or ANTHR 307

Primate behavior and ecology in evolutionary perspective: biological and social adaptations of prosimians, monkeys, and apes. Introduction to the Order Primates, basic evolutionary concepts, and techniques of behavioral observation. Focus on theory and methods current in Primatology, including applied conservation biology.

ANTHR 444. Sex and Gender in Cross-cultural Perspective.

(Dual-listed with ANTHR 544). (Cross-listed with W S). (3-0) Cr. 3. S. Prereq: ANTHR 201; ANTHR 306 recommended

Cross-cultural examination of the social construction of genders out of the biological fact of sex. Emphasis on non-western societies. Topics, presented through examination of ethnographic data, will include the range of gender variation, status and roles, the institution of marriage, and symbols of gender valuation.

Meets International Perspectives Requirement.

ANTHR 445. Biological Field School.

(Dual-listed with ANTHR 545). Cr. 4-6. SS. Prereq: ANTHR 202 or BIOL 101

Summer field school for training in behavioral and ecological methods for primatologists. Proposal, data collection and analyses, and presentation of research topic in primatology.

ANTHR 450. Historical and Theoretical Approaches in Anthropology.

(3-0) Cr. 3. F. Prereq: ANTHR 306

Survey of the historical foundations of anthropology and its interrelated four sub-fields; key figures in 19th and 20th century anthropology with a focus on major theoretical contributions.

ANTHR 451. Practicum in Anthropology.

Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: ANTHR 201 or ANTHR 202 or ANTHR 308

Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.

ANTHR 451A. Practicum in Anthropology: Archaeology.

Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: ANTHR 201 or ANTHR 202 or ANTHR 308

Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.

ANTHR 451B. Practicum in Anthropology: Cultural Anthropology.

Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: ANTHR 201 or ANTHR 202 or ANTHR 308

Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.

ANTHR 451C. Practicum in Anthropology: Biological Anthropology.

Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: ANTHR 201 or ANTHR 202 or ANTHR 308

Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.

ANTHR 451D. Practicum in Anthropology: Linguistic Anthropology.

Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: ANTHR 201 or ANTHR 202 or ANTHR 308

Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.

ANTHR 482. Topics in Biological Anthropology.

(Dual-listed with ANTHR 582). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. Prereq: ANTHR 307

In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 482A. Topics in Biological Anthropology: Paleoanthropology.

(Dual-listed with ANTHR 582A). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. Prereq: ANTHR 307

In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 482B. Topics in Biological Anthropology: Primate Cognition.

(Dual-listed with ANTHR 582B). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. Prereq: ANTHR 307

In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 482C. Topics in Biological Anthropology: Population Conservation.

(Dual-listed with ANTHR 582C). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. Prereq: ANTHR 307

In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 482D. Topics in Biological Anthropology: Population Genetics and Human Evolution.

(Dual-listed with ANTHR 582D). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. Prereq: ANTHR 307

In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 490. Independent Study.

Cr. 1-5. Repeatable, maximum of 9 credits. Prereq: 9 credits in anthropology
No more than 9 credits of Anthr 490 may be counted toward graduation.

ANTHR 490A. Independent Study: Archaeology.

Cr. 1-5. Repeatable, maximum of 9 credits. Prereq: 9 credits in anthropology
No more than 9 credits of Anthr 490 may be counted toward graduation.

ANTHR 490B. Independent Study: Cultural Anthropology.

Cr. 1-5. Repeatable, maximum of 9 credits. Prereq: 9 credits in anthropology
No more than 9 credits of Anthr 490 may be counted toward graduation.

ANTHR 490C. Independent Study: Biological Anthropology.

Cr. 1-5. Repeatable, maximum of 9 credits. Prereq: 9 credits in anthropology
No more than 9 credits of Anthr 490 may be counted toward graduation.

ANTHR 490D. Independent Study: Linguistic Anthropology.

(Cross-listed with LING). Cr. 1-5. Repeatable, maximum of 9 credits. Prereq: 9 credits in anthropology.

No more than 9 credits of Anthr 490 may be counted toward graduation.

ANTHR 490H. Independent Study: Honors.

Cr. 1-5. Repeatable, maximum of 9 credits. Prereq: 9 credits in anthropology
No more than 9 credits of Anthr 490 may be counted toward graduation.

Courses primarily for graduate students, open to qualified undergraduates:**ANTHR 503. Biological Anthropology and Archaeology.**

(3-0) Cr. 3. Prereq: ANTHR 307 and ANTHR 308

History of biological anthropology and archaeology, current developments and theoretical issues related to major events in human biocultural evolution and world prehistory.

ANTHR 509. Agroecosystems Analysis.

(Cross-listed with AGRON, SOC, SUSAG). (3-4) Cr. 3. F. Prereq: Senior or above classification

Experiential, interdisciplinary examination of Midwestern agricultural and food systems, emphasizing field visits, with some classroom activities. Focus on understanding multiple elements, perspectives (agronomic, economic, ecologic, social, etc.) and scales of operation.

ANTHR 510. Theoretical Dimensions of Cultural Anthropology.

(3-0) Cr. 3. F. Prereq: 6 credits in anthropology

Survey of historical and current developments in topical and theoretical approaches to sociocultural anthropology. Examination and assessment of controversies; new research directions and theoretical approaches.

ANTHR 511. Applied Anthropology.

(Dual-listed with ANTHR 411). (3-0) Cr. 3. F. Prereq: 6 credits in anthropology, ANTHR 201 or ANTHR 306

Theoretical and practical considerations of applying anthropological knowledge to contemporary cultural, political and economic issues. Dynamics of directed change in contemporary world cultures. Principles, theories, and ethics of international development projects from a sociocultural perspective. Meets International Perspectives Requirement.

ANTHR 513. Kinship and Marriage in a Global Perspective.

(Dual-listed with ANTHR 313). (3-0) Cr. 3. S. Prereq: 6 credits in anthropology, ANTHR 201 recommended

Comparative and historical overview of the family, marriage and kinship. Examination of cross-cultural differences in the construction and functioning of family and kin relations; role of kinship in structuring individual and collective activities; current critical and theoretical issues in kinship studies, especially integrating work on gender and sexuality. Meets International Perspectives Requirement.

ANTHR 515. Archaeology of North America.

(Dual-listed with ANTHR 315). (3-0) Cr. 3. S. Prereq: ANTHR 202

Prehistory and early history of North America as reconstructed from archaeological evidence; peopling of the New World; culture- historical sequences of major culture areas; linkages of archaeological traditions with selected ethnohistorically known Native American groups.

Meets U.S. Diversity Requirement

ANTHR 518. Global Culture, Consumption and Modernity.

(Dual-listed with ANTHR 418). (3-0) Cr. 3. F. Prereq: ANTHR 201 or ANTHR 306 recommended

Cross-cultural study of the impact of globalization, with an emphasis on economic consumption and the movement of goods, ideas, and peoples across cultural and national boundaries.

Meets International Perspectives Requirement.

ANTHR 519. Skeletal Biology.

(Dual-listed with ANTHR 319). (2-2) Cr. 3. F. Prereq: ANTHR 307 or college level biology recommended

Comprehensive study of the skeletal anatomy, physiology, genetics, growth, development and population variation of the human skeleton. Applications to forensic anthropology, paleopathology, and bioarchaeology are introduced.

ANTHR 520. Great Plains Archaeology.

(Dual-listed with ANTHR 320). (3-0) Cr. 3. F. Prereq: ANTHR 202

Prehistoric societies of the Great Plains region of North America, from initial occupation to European contact; emphasis on sociocultural changes, continuities, and adaptations to changing environments using archaeological, ecological, ethnographic information.

Meets U.S. Diversity Requirement

ANTHR 521. World Prehistory.

(Dual-listed with ANTHR 321). (3-0) Cr. 3. S. Prereq: ANTHR 202 recommended

An introduction to archaeological sites from around the world including the Near East, Africa, Europe, Mesoamerica, and North and South America. Emphasis is on the interpretation of material cultural remains in reconstructing past societies.

ANTHR 522. Peoples and Cultures of Native North America.

(Dual-listed with ANTHR 322). (3-0) Cr. 3. Prereq: ANTHR 201 or AM IN 210

Origin, distribution, and pre-contact life of the indigenous peoples of North America. Survey of culture areas; language families, social and political systems, ecological and economic adaptations, religion and spirituality; impact of European contact; cultural resilience and revitalization in contemporary American Indian life.

Meets U.S. Diversity Requirement

ANTHR 523. Topics in Latin American Anthropology.

(Dual-listed with ANTHR 323). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 201 or ANTHR 306 recommended

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.

Meets International Perspectives Requirement.

ANTHR 523A. Latin American Anthropology: Violence and Memory.
(Dual-listed with ANTHR 323A). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 201 or ANTHR 306 recommended

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.

ANTHR 523B. Latin American Anthropology: Social movements and Democracy.

(Dual-listed with ANTHR 323B). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 201 or ANTHR 306 recommended

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. Meets International Perspectives Requirement.

ANTHR 523C. Latin American Anthropology: Race, Class and Gender.

(Dual-listed with ANTHR 323C). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 201 or ANTHR 306 recommended

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. Meets International Perspectives Requirement.

ANTHR 523D. Latin American Anthropology: Regional Focus.

(Dual-listed with ANTHR 323D). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 201 or ANTHR 306 recommended

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. Meets International Perspectives Requirement.

ANTHR 524. Forensic Anthropology.

(Dual-listed with ANTHR 424). (3-0) Cr. 3. S. *Prereq: ANTHR 319*

Comprehensive study of forensic anthropology, a specialized subfield of biological anthropology. Emphasis is placed on personal identifications from extremely fragmentary, commingled, burnt, cremated and incomplete skeletal remains.

All parameters of forensic study are included as they pertain to anthropology, including human variation, taphonomy, entomology archaeology, pathology, epidemiology; genetics and the non-biological forensic disciplines. An appreciation for the wide range of medicolegal and bioethical issues will also be gained.

ANTHR 528. Topics in Archaeological Laboratory Methods and Techniques.

(Dual-listed with ANTHR 428). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 308

Laboratory processing, analysis, and interpretation of archaeological materials such as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical techniques including classification, data acquisition organization, and computer applications.

ANTHR 528A. Topics in Archaeological Laboratory Methods and Techniques: Lithics.

(Dual-listed with ANTHR 428A). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 308

Laboratory processing, analysis, and interpretation of archaeological materials such as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical techniques including classification, data acquisition and organization, and computer applications.

ANTHR 528B. Topics in Archaeological Laboratory Methods and Techniques: Ceramics.

(Dual-listed with ANTHR 428B). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 308

Laboratory processing, analysis, and interpretation of archaeological materials such as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical techniques including classification, data acquisition and organization, and computer applications.

ANTHR 528C. Topics in Archaeological Laboratory Methods and Techniques: Faunal remains.

(Dual-listed with ANTHR 428C). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 308

Laboratory processing, analysis, and interpretation of archaeological materials such as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical techniques including classification, data acquisition and organization, and computer applications.

ANTHR 528D. Topics in Archaeological Laboratory Methods and Techniques: General.

(Dual-listed with ANTHR 428D). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 308

Laboratory processing, analysis, and interpretation of archaeological materials such as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical techniques including classification, data acquisition and organization, and computer applications.

ANTHR 529. Topics in Archaeological Laboratory Methods and Techniques: Archaeological Field School.

(Dual-listed with ANTHR 429). Cr. 4-6. SS. *Prereq: ANTHR 202 or ANTHR 308*
Summer field school for training in archaeological reconnaissance and excavation techniques; documentation and interpretation of archaeological evidence.

ANTHR 530. Ethnographic Field Methods.

Cr. 3. F. *Prereq: 6 credits in anthropology, permission of instructor*

Field training experience in ethnography. Problems emphasizing field studies in the contemporary societies of the world. Focus on techniques of data gathering and analysis.

ANTHR 531. Ethnographic Field School.

(Dual-listed with ANTHR 431). Cr. 4-6.

Hands-on training in ethnographic field methods; students will carry out research projects in socio-cultural anthropology, learning a variety of investigative research techniques commonly used in social sciences.

ANTHR 532. Current Issues in Native North America.

(Dual-listed with ANTHR 332). (3-0) Cr. 3. S. *Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended*

Conditions and issues of contemporary American Indian peoples, historical background of contemporary life; federal policies, treaty rights, and sovereignty. Economic development and politics on reservations, family and gender roles, cultural innovation and revitalization, urbanization, recent social movements, and other current concerns.

Meets U.S. Diversity Requirement

ANTHR 533. Asian American Material Cultures.

(Dual-listed with ANTHR 333). (3-0) Cr. 3.

A broad exposure to the cultural expressions of Asian Americans from the nineteenth century to the present. Analysis of everyday Asian American cultural experiences within the contexts of agency, power, and identity formation.

Meets U.S. Diversity Requirement

ANTHR 536. Global Development.

(Dual-listed with ANTHR 336). (3-0) Cr. 3. *Prereq: ANTHR 201 or ANTHR 306*

Cross-cultural analysis of current development practices from an anthropological perspective; focus on international aid, development institutions, agrarian reform, indigenous knowledge, humanitarianism and human rights; introduction to main theories of political and economic anthropology.

ANTHR 538. Primate Evolutionary Ecology and Behavior.

(Dual-listed with ANTHR 438). (3-0) Cr. 3. S. *Prereq: ANTHR 202 or ANTHR 307*

Primate behavior and ecology in evolutionary perspective; biological and social adaptations of prosimians, monkeys, and apes. Introduction to the Order Primates, basic evolutionary concepts, and techniques of behavioral observation. Focus on theory and methods current in Primatology, including applied conservation biology.

ANTHR 540. Magic, Witchcraft, and Religion.

(Dual-listed with ANTHR 340). (Cross-listed with RELIG). (3-0) Cr. 3. S. *Prereq: ANTHR 201 or ANTHR 306*

Survey of global religious belief and practice from an anthropological perspective. Emphasis on myth and ritual, shamanism, magic, witchcraft, beliefs in spirits, conceptions of the soul, mind and body relationships, and healing and therapeutic practices. Discussion of religious response to dramatic political and social change; effects of globalization on religious practice.

Meets International Perspectives Requirement.

ANTHR 541. Seminar in Forensic Sciences.

(1-0) Cr. 1. Repeatable. S. *Prereq: One 200-level science course or graduate classification*

Seminars by professional criminalists, research scientists, Certificate students, and educators. Emphasis on opportunities for research and development, citizen involvement, and educational outreach related to forensic science. Weekly report required.

ANTHR 542. Independent Research and Presentation in Forensic Science.

(1-0) Cr. 1. S. *Prereq: Enrollment in the Graduate Certificate in Forensic Sciences*
Research topic approved by course instructor. Written and oral reports required.

Oral report given in forensics seminar, Chem 540.

ANTHR 544. Sex and Gender in Cross-cultural Perspective.

(Dual-listed with ANTHR 444). (Cross-listed with W S). (3-0) Cr. 3. S. *Prereq:* ANTHR 201; ANTHR 306 recommended

Cross-cultural examination of the social construction of genders out of the biological fact of sex. Emphasis on non-western societies. Topics, presented through examination of ethnographic data, will include the range of gender variation, status and roles, the institution of marriage, and symbols of gender valuation.

Meets International Perspectives Requirement.

ANTHR 545. Biological Field School.

(Dual-listed with ANTHR 445). Cr. 4-6. SS. *Prereq:* ANTHR 202 or BIOL 101 and permission of instructor

Summer field school for training in behavioral and ecological methods for primatologists. Proposal, data collection and analyses, and presentation of research topic in primatology.

ANTHR 550. Primate Behavior.

(Dual-listed with ANTHR 350). (2-2) Cr. 3. F.S.SS. *Prereq:* ANTHR 202 and/or basic biology course recommended.

An introduction to the Order Primates with a focus on their behavior. Biological and social adaptations of monkeys, apes, and prosimians; basic evolutionary concepts, current trends and theories in the field of Primatology and issues related to primate conservation.

ANTHR 582. Topics in Biological Anthropology.

(Dual-listed with ANTHR 482). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. *Prereq:* ANTHR 307

In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 582A. Topics in Biological Anthropology: Paleoanthropology.

(Dual-listed with ANTHR 482A). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. *Prereq:* ANTHR 307

In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 582B. Topics in Biological Anthropology: Primate Cognition.

(Dual-listed with ANTHR 482B). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. *Prereq:* ANTHR 307

In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 582C. Topics in Biological Anthropology: Population Conservation.

(Dual-listed with ANTHR 482C). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. *Prereq:* ANTHR 307

In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 582D. Topics in Biological Anthropology: Population Genetics and Human Evolution.

(Dual-listed with ANTHR 482D). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. *Prereq:* ANTHR 307

In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 590. Graduate Independent Study.

(Cross-listed with A ECL, EEOB, IA LL). Cr. 1-4. Repeatable. SS. *Prereq:* Graduate classification and permission of instructor

ANTHR 590I. Special Topics: Graduate Independent Study.

(Cross-listed with A ECL, EEOB, IA LL). Cr. 1-4. Repeatable. SS. *Prereq:* Graduate classification and permission of instructor

ANTHR 591. Orientation to Anthropology.

(1-0) Cr. 1. F. *Prereq:* Admission to the Anthropology Graduate Program
Introduction to the Anthropology program, including the requirements for successful degree completion, department administrative procedures, ethics in anthropology and current trends in the four subfields of anthropology. Required of graduate students. Offered on a satisfactory-fail basis only.

Courses for graduate students:**ANTHR 610. Foundations of Sustainable Agriculture.**

(Cross-listed with A B E, AGRON, SOC, SUSAG). (3-0) Cr. 3. F. *Prereq:* Graduate classification, permission of instructor

Historical, biophysical, socioeconomic, and ethical dimensions of agricultural sustainability. Strategies for evaluating existing and emerging agricultural systems in terms of the core concepts of sustainability and their theoretical contexts.

ANTHR 699. Research.

Cr. arr. Repeatable.

ANTHR 699I. Research.

(Cross-listed with A ECL, EEOB, GDCE, IA LL). Cr. 1-4. Repeatable.

American Indian Studies

Interdepartmental Undergraduate Minor

The American Indian Studies Program is a cross-disciplinary program in the College of Liberal Arts and Sciences that emphasizes perspectives from American Indian Studies, Anthropology, art, history, literature, political science and sociology. The primary goal of the American Indian Studies program is to conduct interdisciplinary investigations of the intellectual practices, lived history, values, political status, rights, and responsibilities of tribal nations. Students have the opportunity to learn about the cultural heritage of American Indians, their historical relationship with non-Indians, and their participation in contemporary American society. They analyze the tropes and techniques common to American Indian oral and written literatures; comparison/contrast of American Indian cultures to mainstream and other world cultures; and, articulation of the role American Indians are playing in approaches to modern social and environmental issues.

The courses in the American Indian Studies Program provide added background for students whose career interests may include multicultural education, human services, legal services, or public administration.

Within the College of Liberal Arts and Sciences, courses in American Indian Studies can be used as electives, in a minor, or in an interdisciplinary studies major (for details, see Index, Interdisciplinary Studies). Students majoring in another college who wish to use these courses should consult with their advisers.

A minor in the College of Liberal Arts and Sciences must include at least 15 credits of courses in the field. A minor in American Indian Studies must include:

AM IN 210	Introduction to American Indian Studies	3
Two courses chosen from the following:		
AM IN 310	Topics in American Indian Studies	
AM IN 322	Peoples and Cultures of Native North America	
AM IN 332	Current Issues in Native North America	
AM IN 346	American Indian Literature	

And two additional courses chosen from the program courses listed below. The American Indian Studies Program Committee will, upon application by the student and review of the program, certify that the student has completed a minor in American Indian Studies.

Because course offerings vary from year to year, any student interested in a minor in American Indian Studies should contact the American Indian Studies office for advising. See Index.

Courses primarily for undergraduates:**AM IN 210. Introduction to American Indian Studies.**

(3-0) Cr. 3. F.S.SS.

Introduction to the multidisciplinary aspects of American Indian studies. Topics include literature, the arts, history, anthropology, sociology, education, and contemporary Indian politics. Guest lectures, media presentations, and discussion of assigned readings.

Meets U.S. Diversity Requirement

AM IN 240. Introduction to American Indian Literature.

(Cross-listed with ENGL). (3-0) Cr. 3. F. *Prereq:* Credit in or exemption from ENGL 150

Appreciation of oral and written forms of American Indian literatures. Tropes and techniques in oral, visual and written texts. Focus on the role of American Indians in interdisciplinary approaches to modern social and environmental issues as expressed in literary works.

Meets U.S. Diversity Requirement

AM IN 310. Topics in American Indian Studies.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S.

Issues within specific topical areas of American Indian society and culture, such as social work with Indian families, tribal government, and environmental policy.

Meets U.S. Diversity Requirement

AM IN 315. Archaeology of North America.

(Cross-listed with ANTHR). (3-0) Cr. 3. S. *Prereq: ANTHR 202*
Prehistory and early history of North America as reconstructed from archaeological evidence; peopling of the New World; culture- historical sequences of major culture areas; linkages of archaeological traditions with selected ethnohistorically known Native American groups.
Meets U.S. Diversity Requirement

AM IN 320. Great Plains Archaeology.

(Cross-listed with ANTHR). (3-0) Cr. 3. F. *Prereq: ANTHR 202*
Prehistoric societies of the Great Plains region of North America, from initial occupation to European contact; emphasis on sociocultural changes, continuities, and adaptations to changing environments using archaeological, ecological, ethnographic information.
Meets U.S. Diversity Requirement

AM IN 322. Peoples and Cultures of Native North America.

(Cross-listed with ANTHR). (3-0) Cr. 3. *Prereq: ANTHR 201 or AM IN 210*
Origin, distribution, and pre-contact life of the indigenous peoples of North America. Survey of culture areas; language families, social and political systems, ecological and economic adaptations, religion and spirituality; impact of European contact; cultural resilience and revitalization in contemporary American Indian life.
Meets U.S. Diversity Requirement

AM IN 323. Topics in Latin American Anthropology.

(Cross-listed with ANTHR). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. *Prereq: ANTHR 201 or ANTHR 306 recommended*
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
Meets International Perspectives Requirement.

AM IN 323A. Latin American Anthropology: Violence and Memory.

(Cross-listed with ANTHR). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. *Prereq: ANTHR 201 or ANTHR 306 recommended*
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.

AM IN 323B. Latin American Anthropology: Social movements and Democracy.

(Cross-listed with ANTHR). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. *Prereq: ANTHR 201 or ANTHR 306 recommended*
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
Meets International Perspectives Requirement.

AM IN 323C. Latin American Anthropology: Race, Class and Gender.

(Cross-listed with ANTHR). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. *Prereq: ANTHR 201 or ANTHR 306 recommended*
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
Meets International Perspectives Requirement.

AM IN 323D. Latin American Anthropology: Regional Focus.

(Cross-listed with ANTHR). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. *Prereq: ANTHR 201 or ANTHR 306 recommended*
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
Meets International Perspectives Requirement.

AM IN 328. American Indian Religions.

(Cross-listed with RELIG). (3-0) Cr. 3.
An introduction to the beliefs and rituals of Native American religious traditions, with attention to cultural and historical contexts and implications.
Meets U.S. Diversity Requirement

AM IN 332. Current Issues in Native North America.

(Cross-listed with ANTHR). (3-0) Cr. 3. S. *Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended*
Conditions and issues of contemporary American Indian peoples, historical background of contemporary life; federal policies, treaty rights, and sovereignty. Economic development and politics on reservations, family and gender roles, cultural innovation and revitalization, urbanization, recent social movements, and other current concerns.
Meets U.S. Diversity Requirement

AM IN 342. American Indian Women Writers.

(Cross-listed with W S). (3-0) Cr. 3. *Prereq: ENGL 250*
Literature of American Indian women writers which examines their social, political, and cultural roles in the United States. Exploration of American Indian women's literary, philosophical, and artistic works aimed at recovering elements of identity, redescribing stereotypes, resisting colonization, and constructing femininity.
Meets U.S. Diversity Requirement

AM IN 346. American Indian Literature.

(Cross-listed with ENGL). (3-0) Cr. 3. *Prereq: ENGL 250*
Survey of literature by Native Americans from pre-Columbian tales and songs to contemporary novels and poetry.
Meets U.S. Diversity Requirement

AM IN 426. Topics in Native American Architecture.

(Cross-listed with ARCH, DSN S). (3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: Junior classification*
History, theory, and principles of Native American/American Indian architecture, landscape architecture and planning considering relationships to the culture, visual arts, site, and surroundings. Credit counts toward fulfillment of Studies in Architecture and Culture. A maximum of 6 credits of ARCH 426 may be applied to degree program.
Meets U.S. Diversity Requirement

AM IN 490. Independent Study.

Cr. arr. Repeatable, maximum of 9 credits. *Prereq: 6 credits in American Indian studies; permission of instructor*
Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits in Am In 490 may be counted toward graduation.

Biochemistry, Biophysics, and Molecular Biology Undergraduate Study

The department offers majors in biochemistry or biophysics in the College of Liberal Arts and Sciences and a major in agricultural biochemistry in the College of Agriculture and Life Sciences.

Biochemists and biophysicists seek to understand life processes in terms of chemical and physical principles. They conduct research in the frontiers of biology such as metabolic networking; structure and function of enzymes, membranes, and hormones; computational approaches; genomic and proteomic technology; protein engineering; plant biotechnology; muscle structure and function; and the design and evaluation of drugs for the treatment of disease. Biochemistry, biophysics and molecular biology provide the basis for much of modern biotechnology. Graduates have opportunities in industry, especially the biotechnology sector, in universities, veterinary and medical schools, and government laboratories. Students who meet the necessary high scholastic standards have the opportunity to continue their education to pursue advanced degrees in graduate school, medicine, pharmacy or veterinary medicine.

Graduates of biochemistry, agricultural biochemistry and biophysics understand the chemical principles of biological systems including molecular biology. They have developed laboratory expertise in modern biochemical techniques, including the ability to analyze data and prepare scientific reports. Most have participated in undergraduate research and have developed the skills necessary for both written and oral presentations at a level that will serve the student both within the university and in postgraduate professional life. Graduates have the experience of interacting with persons of different disciplines and cultures. Students have the training in biological and physical science and mathematics to solve problems of broad scope in biological, biomedical and environmental sciences and to provide leadership in diverse scientific and technological arenas.

Graduate Study

The department offers work for the degrees master of science and doctor of philosophy with majors in biochemistry and biophysics and with interdepartmental majors in genetics, immunobiology, MCDB (molecular, cellular, and developmental biology), plant physiology, and toxicology. Minor work is offered to students taking major work in other departments.

Prerequisite to graduate work is a sound undergraduate background in biology, chemistry, mathematics, and physics.

All graduate students are required by the department to teach as part of their training for an advanced degree.

The department offers a B.S./M.S. program in biochemistry that allows students to obtain both the B.S. and M.S. degrees in five years. The program is open

to students in the College of Liberal Arts and Sciences and in the College of Agriculture. Students interested in this program should contact the department office for details. Application for admission to the Graduate College should be made near the end of the junior undergraduate (third) year. Students would begin research for the M.S. thesis during the summer semester after their junior year and are eligible for research assistantships.

Agricultural Biochemistry Major in the College of Agriculture and Life Sciences

For the undergraduate curriculum leading to the degree bachelor of science, see College of Agriculture, Agricultural biochemistry.

Biochemistry or Biophysics Majors in the College of Liberal Arts and Sciences

Biochemistry and biophysics are recommended to students whose career interests involve advanced graduate or medical study or employment in biochemistry or biophysics, or in related areas of the biological or medical sciences.

Biochemistry undergraduate major program of study

BBMB 101	Introduction to Biochemistry	1
BBMB 102	Introduction to Biochemistry Laboratory	1
BBMB 201	Chemical Principles in Biological Systems	2
BBMB 404	Biochemistry I	3-4
or BBMB 501	Comprehensive Biochemistry I	
BBMB 405	Biochemistry II	3-4
or BBMB 502	Comprehensive Biochemistry II	
BBMB 411	Techniques in Biochemical Research	4
BBMB 490	Independent Study (Not required)	1-3
BBMB 499	Undergraduate Research (Not required but strongly encouraged)	1-5

Take one of the following:

CHEM 201	Advanced General Chemistry	
CHEM 177 & CHEM 178	General Chemistry I and General Chemistry II	
CHEM 201L	Laboratory in Advanced General Chemistry	1
or CHEM 177N	Laboratory in General Chemistry I	
or CHEM 177L	Laboratory in General Chemistry I	
CHEM 211	Quantitative and Environmental Analysis	2
CHEM 211L	Quantitative and Environmental Analysis Laboratory	2

One of the following:

CHEM 322L	Laboratory in Physical Chemistry	
CHEM 321L & BBMB 561L	Laboratory in Physical Chemistry and Laboratory in Molecular Biophysics	
CHEM 324	Introductory Quantum Mechanics	3
CHEM 325	Chemical Thermodynamics	3
CHEM 331	Organic Chemistry I	3
CHEM 332	Organic Chemistry II	3
CHEM 333L	Laboratory in Organic Chemistry I (for Chemistry and Biochemistry Majors)	1-2
or CHEM 331L	Laboratory in Organic Chemistry I	
CHEM 334L	Laboratory in Organic Chemistry II (for Chemistry and Biochemistry Majors)	2
or CHEM 332L	Laboratory in Organic Chemistry II	
MATH 165	Calculus I	4
MATH 166	Calculus II	4
MATH 265	Calculus III	3-4
or MATH 266	Elementary Differential Equations	
or MATH 267	Elementary Differential Equations and Laplace Transforms	
PHYS 221	Introduction to Classical Physics I	5
PHYS 222	Introduction to Classical Physics II	5
BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
or BIOL 212L	Principles of Biology Laboratory II	
or BIOL 313L	Genetics Laboratory	
BIOL 212	Principles of Biology II	3
BIOL 313	Principles of Genetics	3

BIOL 314	Principles of Molecular Cell Biology	3
Biological Science electives	from Biology, Genetics or Microbiology	4
Total Credits		74-84

Communication Proficiency (Minimum grade C-)

LIB 160	Information Literacy	1
ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
One course from the following:		
ENGL 305	Creative Writing: Nonfiction	3
ENGL 309	Report and Proposal Writing	3
ENGL 314	Technical Communication	3
BBMB 411	Techniques in Biochemical Research	4

Biophysics undergraduate major program of study

BBMB 101	Introduction to Biochemistry	1
BBMB 102	Introduction to Biochemistry Laboratory	1
BBMB 404	Biochemistry I	3
BBMB 411	Techniques in Biochemical Research	4
BBMB 461	Molecular Biophysics	2
or BBMB 561	Molecular Biophysics	
CHEM 177N	Laboratory in General Chemistry I	1
or CHEM 177L	Laboratory in General Chemistry I	

Take one of the following:

CHEM 201	Advanced General Chemistry	
CHEM 177 & CHEM 178	General Chemistry I and General Chemistry II	

One of the following:

CHEM 211	Quantitative and Environmental Analysis	2
CHEM 211L	Quantitative and Environmental Analysis Laboratory	2
CHEM 322L	Laboratory in Physical Chemistry	
CHEM 321L & BBMB 561L	Laboratory in Physical Chemistry and Laboratory in Molecular Biophysics	
CHEM 324	Introductory Quantum Mechanics	3
CHEM 325	Chemical Thermodynamics	3
CHEM 331	Organic Chemistry I	3
CHEM 332	Organic Chemistry II	3
MATH 165	Calculus I	4
MATH 166	Calculus II	4
MATH 265	Calculus III	4
MATH 266	Elementary Differential Equations	3
MATH 207	Matrices and Linear Algebra	3
or MATH 317	Theory of Linear Algebra	
PHYS 221	Introduction to Classical Physics I	5

One course from the following:

MATH 481	Numerical Methods for Differential Equations	
STAT 407	Methods of Multivariate Analysis	
STAT 430	Empirical Methods for the Computational Sciences	
PHYS 222	Introduction to Classical Physics II	5
COM S 207	Fundamentals of Computer Programming	3
STAT 305	Engineering Statistics	3-4
or STAT 231	Probability and Statistical Inference for Engineers	
BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
or BIOL 212L	Principles of Biology Laboratory II	
BIOL 212	Principles of Biology II	3
Additional 300+ or higher level courses in biochemistry, biophysics, biological sciences, chemistry or physics.		9
Total Credits		78-79

Communication Proficiency (Minimum grade C-)

LIB 160	Information Literacy	1
ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3

One course from the following:

ENGL 305	Creative Writing: Nonfiction	3
ENGL 309	Report and Proposal Writing	3
ENGL 314	Technical Communication	3
BBMB 411	Techniques in Biochemical Research	4

Biochemistry minor is offered in both the College of Liberal Arts and Sciences and Agriculture and Life Sciences

BBMB 404	Biochemistry I	3
BBMB 405	Biochemistry II	3
BBMB 411	Techniques in Biochemical Research	4
One course from the following:		2-3
BBMB 461	Molecular Biophysics (2 crs)	
BBMB 561	Molecular Biophysics (2 crs)	
CHEM 325	Chemical Thermodynamics	
300+ level courses in BBMB or CHEM to 15 cr total		3-4
Total Credits		15-17

These lists of courses should not be regarded as statements of fixed requirements or as complete outlines of the work necessary for the major. They are given solely for the convenience of students or advisers who wish to estimate the amount of basic study that may be needed.

See also the B.S./M.S. program under Graduate Study.

Courses primarily for undergraduates:

BBMB 101. Introduction to Biochemistry.

(1-0) Cr. 1. F.

Research activities, career opportunities in biochemistry and biophysics, and an introduction to the structure of biologically important compounds. For students majoring in biochemistry, agricultural biochemistry or biophysics or considering one of these majors.

BBMB 102. Introduction to Biochemistry Laboratory.

(0-2) Cr. 1. S. Prereq: Credit or enrollment in CHEM 177 and CHEM 177L or CHEM 201 and CHEM 201L

Topics in the scientific background of biochemistry, such as macromolecules, metabolism, and catalysis. Laboratory experimentation covers biochemical concepts and the study of bio-molecules including proteins, lipids and nucleic acids. A significant component is practice in scientific communication. For students majoring in biochemistry, agricultural biochemistry or biophysics or considering one of these majors.

BBMB 201. Chemical Principles in Biological Systems.

(2-0) Cr. 2. S. Prereq: Credit or enrollment in CHEM 332

Survey of chemical principles as they apply in biological systems including: water, organic chemistry of functional groups in biomolecules and biochemical cofactors, weak bonds and their contribution to biomolecular structure, oxidation-reduction reactions and redox potential, thermodynamic laws and bioenergetics, chemical equilibria and kinetics, inorganic chemistry in biological systems, data presentation. The subjects will be taught using molecules from biological systems as examples. Intended for majors in biochemistry, biophysics or agricultural biochemistry.

BBMB 221. Structure and Reactions in Biochemical Processes.

(3-0) Cr. 3. F. Prereq: CHEM 163, CHEM 167, or CHEM 177

Fundamentals necessary for an understanding of biochemical processes.

Primarily for students in agriculture. Not acceptable for credit toward a major in biochemistry, biophysics, or agricultural biochemistry. Credit for both BBMB 221 and Chem 231 may not be applied toward graduation.

BBMB 301. Survey of Biochemistry.

(3-0) Cr. 3. F.S.SS. Prereq: CHEM 231 or CHEM 331

A survey of biochemistry: structure and function of amino acids, proteins, carbohydrates, lipids, and nucleic acids; enzymology; metabolism; biosynthesis; and selected topics. Not acceptable for credit toward a major in biochemistry, biophysics, or agricultural biochemistry.

BBMB 316. Principles of Biochemistry.

(3-0) Cr. 3. F. Prereq: CHEM 231 or CHEM 331; BIOL 212.

Understanding biological systems at the molecular level; chemistry of biological macromolecules, enzyme function and regulation, metabolic pathways; integration of metabolism in diverse living systems. For students in biology and related majors who do not require the more rigorous treatment of biochemistry found in BBMB 404/405. Not acceptable for credit toward a major in biochemistry, biophysics, or agricultural biochemistry.

BBMB 404. Biochemistry I.

(3-0) Cr. 3. F. Prereq: CHEM 332

A general overview for graduate and advanced undergraduate students in agricultural, biological, chemical and nutritional sciences. Chemistry of amino acids, proteins, carbohydrates, and lipids, vitamins; protein structure; enzymology; carbohydrate metabolism. Credit for both BBMB 420 and the BBMB 404 - 405 sequence may not be applied toward graduation.

BBMB 405. Biochemistry II.

(3-0) Cr. 3. S. Prereq: BBMB 404

A general overview for graduate and advanced undergraduate students in agricultural, biological, chemical, and nutritional sciences. Metabolism of carbohydrates, amino acids, nucleotides and lipids; formation, turnover, and molecular relationships among DNA, RNA, and proteins; genetic code; regulation of gene expression; selected topics in the molecular physiology of plants and animals. Credit for both BBMB 420 and the BBMB 404 - BBMB 405 sequence may not be applied toward graduation.

BBMB 411. Techniques in Biochemical Research.

(2-8) Cr. 4. F. Prereq: Credit or enrollment in BBMB 404 or BBMB 501; CHEM 211

Laboratory experimentation and techniques for studying biochemistry, including: chromatographic methods; electrophoresis; spectrophotometry; enzyme purification; enzyme kinetics; and characterization of carbohydrates, proteins, lipids, and nucleic acids.

BBMB 420. Physiological Chemistry.

(3-0) Cr. 3. F. Prereq: CHEM 332, BBMB 301 or BIOL 314

Structure and function of proteins; enzymology; biological oxidation; chemistry and metabolism of carbohydrates, lipids, amino acids and nucleic acids; protein synthesis and the genetic code; relationship of biochemistry to selected animal diseases. Biochemistry of higher animals emphasized. Not acceptable for credit toward a major in agricultural biochemistry or biochemistry. Acceptable for credit toward a major in biophysics. Credit for both BBMB 420 and the BBMB 404 - 405 sequence may not be applied toward graduation.

BBMB 430. Prokaryotic Diversity and Ecology.

(Dual-listed with BBMB 530). (Cross-listed with MICRO). (3-0) Cr. 3. Alt. S., offered odd-numbered years. Prereq: MICRO 302, MICRO 302L

Survey of the diverse groups of prokaryotes emphasizing important and distinguishing metabolic, phylogenetic, morphological, and ecological features of members of those groups.

BBMB 440. Laboratory in Microbial Physiology, Diversity, and Genetics.

(Cross-listed with MICRO). (2-6) Cr. 4. F. Prereq: MICRO 302, MICRO 302L, CHEM 332, BIOL 313L

Fundamental techniques and theory for studying the cellular mechanisms and diversity of microbial life. Experimental techniques will include isolation and physiological characterization of bacteria that inhabit different environments. Also included are techniques for phylogenetic characterization, measuring gene expression, and genetic manipulation of diverse species of bacteria. Essential components for the effective communication of scientific results are also emphasized.

BBMB 461. Molecular Biophysics.

(Dual-listed with BBMB 561). (2-0) Cr. 2. S. Prereq: Credit or enrollment in CHEM 324 and CHEM 325

Physical methods for the study of molecular structure and organization of biological materials. X-ray diffraction, nuclear magnetic resonance, hydrodynamics and fluorescence spectroscopy. Registration for the graduate credit commits the student to graduate-level examinations, which differ from undergraduate-level examinations in the number and/or difficulty of questions.

BBMB 490. Independent Study.

Cr. 1-3. Repeatable. F.S.SS. Prereq: College of Agriculture: junior or senior classification and permission of instructor; College of Liberal Arts and Sciences: permission of instructor.

Independent study with a faculty mentor. No more than 9 credits of BBMB 490 may count toward graduation.

BBMB 490H. Independent Study, Honors.

Cr. 1-3. Repeatable. F.S.SS. Prereq: College of Agriculture: junior or senior classification and permission of instructor; College of Liberal Arts and Sciences: permission of instructor

Independent study with a faculty mentor. No more than 9 credits of BBMB 490 may count toward graduation.,

BBMB 499. Undergraduate Research.

Cr. 1-5. Repeatable. F.S.SS. Prereq: Permission of faculty member with whom student proposes to work.

Independent research under faculty guidance.

Courses primarily for graduate students, open to qualified undergraduates:

BBMB 501. Comprehensive Biochemistry I.

(4-0) Cr. 4. F. Prereq: CHEM 211, CHEM 332; a previous course in biochemistry is strongly recommended

Chemical composition of living matter and the chemistry of life processes. Chemical characterization of amino acids, proteins, carbohydrates and lipids; enzymology and co-enzymes; metabolism of carbohydrates; biological oxidations.

BBMB 502. Comprehensive Biochemistry II.

(4-0) Cr. 4. S. Prereq: BBMB 501

Chemical composition of living matter and the chemistry of life processes. Metabolism of lipids, amino acids, and nucleotides; membrane biochemistry; biosynthesis of DNA, RNA, and proteins; gene regulation; selected topics.

BBMB 503. Bioinorganic Chemistry.

(Cross-listed with CHEM). (2-0) Cr. 2. Alt. S., offered even-numbered years.

Prereq: CHEM 402 or BBMB 405

Essential elements: transport and storage of ions and of oxygen; metalloenzymes and metallocoenzymes; electron-transfer processes in respiration and photosynthesis; metabolism of nonmetals and redox processes involved in it; medicinal aspects of inorganic chemistry.

BBMB 520. Genetic Engineering.

(Cross-listed with GDCB, MCDB). (3-0) Cr. 3. Alt. S., offered even-numbered years. Prereq: GEN 411 or BBMB 405

Strategies and rationale of recombinant DNA technologies. The methodology of genetic engineering in basic research and implications for applied research will be considered. Topics include: basic tools of molecular cloning, targeted mutagenesis, fluorescent proteins, protein expression systems, and transgenic model systems.

BBMB 530. Prokaryotic Diversity and Ecology.

(Dual-listed with BBMB 430). (Cross-listed with MICRO). (3-0) Cr. 3. Alt. S., offered odd-numbered years. Prereq: MICRO 302, MICRO 302L

Survey of the diverse groups of prokaryotes emphasizing important and distinguishing metabolic, phylogenetic, morphological, and ecological features of members of those groups.

BBMB 542. Introduction to Molecular Biology Techniques.

(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

BBMB 542A. Introduction to Molecular Biology Techniques: DNA Techniques.

(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification
Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

BBMB 542C. Introduction to Molecular Biology Techniques: Cell Techniques.

(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S. Prereq: Graduate classification
Includes immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

BBMB 542D. Introduction to Molecular Biology Techniques: Plant Transformation.

(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

BBMB 542E. Introduction to Molecular Biology Techniques: Proteomics.

(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F. Prereq: Graduate classification
Includes two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

BBMB 542F. Introduction to Molecular Biology Techniques: Metabolomics.

(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F. Prereq: Graduate classification
Includes metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

BBMB 542G. Genomic Techniques.

(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

BBMB 552. Biomolecular NMR Spectroscopy.

(2-0) Cr. 2. Alt. F., offered even-numbered years. Prereq: CHEM 325 or permission of instructor

Advanced solution state Nuclear Magnetic Resonance spectroscopy as applied to biological systems. Topics include theoretical principles of NMR, practical aspects of experimental NMR, methodologies for protein structure determination, NMR relaxation, recent advances in NMR spectroscopy.

BBMB 561. Molecular Biophysics.

(Dual-listed with BBMB 461). (2-0) Cr. 2. S. Prereq: Credit or enrollment in CHEM 324 and CHEM 325

Physical methods for the study of molecular structure and organization of biological materials. X-ray diffraction, nuclear magnetic resonance, hydrodynamics and fluorescence spectroscopy. Registration for graduate credit commits the student to graduate-level examinations, which differ from undergraduate-level examinations in the number and/or difficulty of questions.

BBMB 561L. Laboratory in Molecular Biophysics.

(1-3) Cr. 2. S. Prereq: Credit or enrollment in BBMB 461/BBMB 561

Practice in methods of X-ray diffraction, nuclear magnetic resonance, hydrodynamics and fluorescence spectroscopy as applied to macromolecules.

BBMB 569. Bioinformatics III (Structural Genome Informatics).

(Cross-listed with BCB, COM S, CPR E). (3-0) Cr. 3. F. Prereq: BCB 567, GEN 411, STAT 430

Algorithmic and statistical approaches in structural genomics including protein, DNA and RNA structure. Structure determination, refinement, representation, comparison, visualization, and modeling. Analysis and prediction of protein secondary and tertiary structure, disorder, protein cores and surfaces, protein-protein and protein-nucleic acid interactions, protein localization and function.

BBMB 590. Special Topics.

Cr. arr.

By arrangement.

BBMB 593. Workshop in Biochemistry and Biophysics.

Cr. 1. Repeatable. F.S. Prereq: Permission and signature of course administrator required.

Workshops in selected topics in biochemistry and biophysics. Credit in this course does not meet the requirement for advanced graduate electives in Biochemistry. Spring only: BBMB Undergraduate Research Symposium participation. Scheduled class meetings are required in addition to attending the symposium.

Courses for graduate students:**BBMB 607. Plant Biochemistry.**

(2-0) Cr. 2. Alt. F., offered even-numbered years. Prereq: BBMB 405 or BBMB 502

Description of unique aspects of plant biochemistry including lipid metabolism, cell wall structure, secondary metabolism, phytoalexin biosynthesis, and plant defenses.

BBMB 615. Molecular Immunology.

(Cross-listed with MICRO, V MPM). (3-0) Cr. 3. Alt. F., offered odd-numbered years. Prereq: BBMB 405 or BBMB 502

Current topics in molecular aspects of immunology: T and B cell receptors; major histocompatibility complex; antibody structure; immunosuppressive drugs and viruses; and intracellular signaling pathways leading to expression of genes that control and activate immune function.

BBMB 622. Carbohydrate Chemistry.

(2-0) Cr. 2. Alt. S., offered even-numbered years. Prereq: BBMB 404 or BBMB 501

Structure, occurrence, properties, function, and chemical and enzymatic modifications of monosaccharides, oligosaccharides, polysaccharides, and glycoproteins.

BBMB 632. Kinetics of Enzyme Action.

(2-0) Cr. 2. Alt. F., offered even-numbered years. Prereq: BBMB 501

Fundamental and advanced enzyme kinetics. Topics include integrated rate equations, methods for deriving initial-rate equations, inhibition, product effects, methods for verifying kinetic mechanisms, allostery, hysteresis, isotope effects, and complex kinetic mechanisms.

BBMB 642. Mechanisms of Enzymatic Catalysis.

(2-0) Cr. 2. Alt. S., offered odd-numbered years. Prereq: BBMB 404, BBMB 420, or BBMB 501

The chemical basis of enzymatic catalysis with emphasis on mechanisms of substrate recognition, general acid-base catalysis and stereo-electronic factors.

BBMB 645. Molecular Signaling.

(2-0) Cr. 2. Alt. S., offered odd-numbered years. *Prereq: BBMB 405, BBMB 420, or BBMB 502*

Molecular mechanisms of cellular signaling including receptor activation, desensitization and cross talk, signal transduction pathways, and nuclear receptors. Discussion includes a variety of cell surface receptors and their hormone; growth factor and extracellular matrix activators; protein kinases; caspase and transcription factor downstream signals; lipids, gases and cyclic nucleotides as regulators of cell signaling. Course content includes current literature, student and instructor presentations and research proposal writing.

BBMB 652. Protein Chemistry - Chemical Methods.

(2-0) Cr. 1. Alt. F., offered odd-numbered years. *Prereq: BBMB 404 or BBMB 501* First 8 weeks. Chemical reactions as a means of determining protein structure and biological function.

BBMB 653. Protein Chemistry - Physical Methods.

(2-0) Cr. 1. Alt. F., offered odd-numbered years. *Prereq: BBMB 404 or BBMB 501* Second 8 weeks. Protein structure determination as a means of understanding biological function.

BBMB 660. Membrane Biochemistry.

(2-0) Cr. 2. Alt. F., offered even-numbered years. *Prereq: BBMB 405 or BBMB 502*

Protein and lipid constituents of biological membranes. Structure and topography of membrane proteins. Selected topics concerning the membrane proteins involved in diverse biochemical processes, such as energy transduction transport across membranes, neurotransmission and signal transduction.

BBMB 661. Current Topics in Neuroscience.

(Cross-listed with GDCB, NEURO). (2-0) Cr. 2-3. Repeatable. Alt. S., offered even-numbered years. *Prereq: NEURO 556 (or comparable course) or permission of instructor*

Topics may include molecular and cellular neuroscience, neurodevelopment, neuroplasticity, neurodegenerative diseases, cognitive neuroscience, sensory biology, neural integration, membrane biophysics, neuroethology, techniques in neurobiology and behavior.

BBMB 675. Nucleic Acid Structure and Function.

(2-0) Cr. 2. Alt. F., offered even-numbered years. *Prereq: BBMB 405 or BBMB 502*

In-depth discussion of nucleic acid properties, structures and structure/function relationships. Interactions between nucleic acids and proteins will be emphasized.

BBMB 676. Biochemistry of Gene Expression in Eucaryotes.

(Cross-listed with MCDB). (2-0) Cr. 2. Alt. S., offered even-numbered years. *Prereq: BBMB 404 or BBMB 501, BBMB 405 or BBMB 502 or GDCB 511* Analysis of the biochemical processes involved in expression of eucaryotic genes and the regulation thereof, including RNA polymerase, transcriptional regulatory proteins, enhancers and silencers, chromosome structure, termination, RNA processing, RNA transport, RNA turnover, small RNAs translational regulation, protein turnover.

BBMB 681. Advanced Seminar.

Cr. 1. Repeatable. F.S. *Prereq: Permission of instructor* Student presentations.

BBMB 682. Departmental Seminar.

Cr. R. F.S. *Prereq: Permission of instructor* Faculty, staff and invited guest research seminar.

BBMB 696. Research Seminar.

(Cross-listed with AGRON, FOR, GDCB, HORT, PLBIO). Cr. 1. Repeatable. F.S. Research seminars by faculty and graduate students. Offered on a satisfactory-fail basis only.

BBMB 698. Seminar in Molecular, Cellular, and Developmental Biology.

(Cross-listed with GDCB, MCDB, MICRO, V MPM). (2-0) Cr. 1-2. Repeatable. F.S. Student and faculty presentations.

BBMB 699. Research.

Cr. arr. Repeatable. F.S. *Prereq: Permission of instructor*

Bioinformatics and Computational Biology Undergraduate Undergraduate study

Undergraduate study in BCBio is jointly administered by the Department of Computer Science, the Department of Genetics, Development, and Cell Biology,

and the Department of Mathematics. The undergraduate B.S. degree is offered through the College of Liberal Arts and Sciences.

Bioinformatics and Computational Biology is an interdisciplinary science at the interfaces of the biological, informational and computational sciences. The science focuses on a variety of topics. These include gene identification, expression, and evolution; RNA, protein, and genome structure; and molecular and cellular systems and networks. The large group of participating faculty provides students with a multidimensional perspective on bioinformatics and computational biology and presents them with broad range of possibilities to get involved in research.

This major will prepare students for careers at the interfaces of biological, informational and computational sciences. BCBio graduates with a B.S. seeking direct employment will find ready markets for their talents in agricultural and medical biotechnology industries, as well as in academia, national laboratories, and clinics. Although some students find employment directly after their baccalaureate training, many students will continue their education in one of the many excellent graduate programs in bioinformatics and computational biology that now exist.

Participation in this field requires that students achieve a high level of competence not only in biology, but also in mathematics, computer science, and statistics. As a result, the program includes required courses from many different disciplines. Graduates demonstrate an above-average ability to synthesize methods from these different disciplines to solve problems.

In addition to basic degree requirements listed in the Curriculum in Liberal Arts and Sciences, BCBio majors must satisfy the following requirements:

A. Complementary Courses for the BCBio Major (34 cr)

One of the following	12
CHEM 177 & 177L & CHEM 178	General Chemistry I and Laboratory in General Chemistry I and General Chemistry II
CHEM 201 & 201L & CHEM 331	Advanced General Chemistry and Laboratory in Advanced General Chemistry and Organic Chemistry I
PHYS 221	Introduction to Classical Physics I
STAT 330	Probability and Statistics for Computer Science
or STAT 341	Introduction to the Theory of Probability and Statistics I
STAT 430	Empirical Methods for the Computational Sciences
BIOL 211	Principles of Biology I
BIOL 211L	Principles of Biology Laboratory I
BIOL 212	Principles of Biology II
BIOL 212L	Principles of Biology Laboratory II
BIOL 314	Principles of Molecular Cell Biology
Total Credits	34

B. Core Courses Within the BCBio Major (48 cr)

GEN 313	Principles of Genetics	3
GEN 313L	Genetics Laboratory	1
GEN 409	Molecular Genetics	3
COM S 227	Introduction to Object-oriented Programming	4
COM S 228	Introduction to Data Structures	3
COM S 363	Introduction to Database Management Systems	3
COM S 330	Discrete Computational Structures	3
or CPR E 310	Theoretical Foundations of Computer Engineering	
MATH 165	Calculus I	4
MATH 166	Calculus II	4
MATH 265	Calculus III	4
MATH 207	Matrices and Linear Algebra	3
BCBIO 110	BCBIO Orientation	0.5
BCBIO 211	Introduction to Bioinformatics and Computational Biology	3
BCBIO 401	Fundamentals of Bioinformatics and Computational Biology I	3
BCBIO 402	Fundamentals of Bioinformatics and Computational Biology II	3
BCBIO 490	Independent Study	1-5
or BCBIO 491	Team Research Projects.	
Total Credits		45.5-49.5

C. Support Electives

3-9 credits to be chosen from the following list:

BCB 593	Workshop in Bioinformatics and Computational Biology	1
BCB 596	Genomic Data Processing	3
PHYS 222	Introduction to Classical Physics II	5
BBMB 404	Biochemistry I	3
BBMB 405	Biochemistry II	3
BIOL 315	Biological Evolution	3
BIOL 423	Developmental Biology	3
BIOL 462	Evolutionary Genetics	3
BIOL 465	Morphometric Analysis	4
BIOL 472	Community Ecology	3
GEN 340	Human Genetics	3
GEN 410	Analytical Genetics	3
STAT 342	Introduction to the Theory of Probability and Statistics II	3
STAT 402	Statistical Design and the Analysis of Experiments	3
STAT 416	Statistical Design and Analysis of Gene Expression Experiments	3
STAT 432	Applied Probability Models	3
STAT 480	Statistical Computing Applications	3
MATH 266	Elementary Differential Equations	3-4
or MATH 267	Elementary Differential Equations and Laplace Transforms	
MATH 304	Combinatorics	3
MATH 314	Graphs Theory	3
MATH 385	Introduction to Partial Differential Equations	3
MATH 481	Numerical Methods for Differential Equations	3

Com S and Cpr E courses at the 300 level and above.

D. The communications and English proficiency requirements of the LAS college are met by:

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
or ENGL 250H	Written, Oral, Visual, and Electronic Composition: Honors	

And one of the following:

ENGL 309	Report and Proposal Writing	
ENGL 312	Biological Communication	
ENGL 314	Technical Communication	

The lowest grade acceptable in ENGL 150 Critical Thinking and Communication, ENGL 250 Written, Oral, Visual, and Electronic Composition or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors is C-.

Courses primarily for undergraduates:

BCBIO 110. BCBIO Orientation.

(1-0) Cr. 0.5. F.

First 8 weeks. Orientation to the area of bioinformatics and computational biology. For students considering a major in BCBIO. Specializations and career opportunities. Offered on a satisfactory-fail basis only.

BCBIO 211. Introduction to Bioinformatics and Computational Biology.

(3-0) Cr. 3. S.

Perl programming, molecular biology, biological databases, sequence alignment, homology search, identification of sequence patterns, construction of phylogenetic trees, gene function prediction, gene structure prediction, genomic annotation and comparative genomics.

BCBIO 401. Fundamentals of Bioinformatics and Computational Biology I.

(3-0) Cr. 3. F. *Prereq: BCBIO 211 and basic programming experience (e.g. COM S 207, COM S 208, COM S 227 or permission of instructor)*

Application of computer science to molecular biology. String algorithms, sequence alignments, indexing data structures, homology search methods, pattern recognition, fragment assembly, genome annotation, construction of bioinformatics databases, and gathering and distribution of biological information with the Internet.

BCBIO 402. Fundamentals of Bioinformatics and Computational Biology II.

(3-0) Cr. 3. S. *Prereq: BCBIO 401*

Genomics: Gene structure prediction, gene function prediction and comparative genomics. Post-genomics: Gene expression studies, DNA microarrays, next-generation sequencing of transcriptome. Structural biology: Protein and RNA structure predictions, structure representation, comparison and visualization. Systems biology: Signal transduction pathway inference, biological networks and systems.

BCBIO 442. Bioinformatics and Computational Biology Techniques.

(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.SS. *Prereq: BIOL 314 recommended*

Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. Offered on a satisfactory-fail basis only.

BCBIO 442A. Bioinformatics and Computational Biology Techniques: Sequence Database Searching.

(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.SS. *Prereq: BIOL 314 recommended*

Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. Offered on a satisfactory-fail basis only.

BCBIO 442B. Bioinformatics and Computational Biology: Protein Structure Databases, Visualization, and Prediction.

(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.SS. *Prereq: BIOL 314 recommended*

Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. Offered on a satisfactory-fail basis only.

BCBIO 442C. Bioinformatics and Computational Biology Techniques: Phylogenetic Analysis.

(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.SS. *Prereq: BIOL 314 recommended*

Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. Offered on a satisfactory-fail basis only.

BCBIO 442D. Bioinformatics and Computational Biology Techniques: Microarray Analysis.

(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.SS. *Prereq: BIOL 314 recommended*

Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. Offered on a satisfactory-fail basis only.

BCBIO 444. Introduction to Bioinformatics.

(Cross-listed with BCB, BIOL, COM S, CPR E, GEN). (4-0) Cr. 4. F. *Prereq: MATH 165 or STAT 401 or equivalent*

Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: database searching, sequence alignment, gene prediction, RNA and protein structure prediction, construction of phylogenetic trees, comparative and functional genomics, systems biology.

BCBIO 490. Independent Study.

Cr. 1-5. Repeatable, maximum of 9 credits. F.S.SS. *Prereq: BCBIO 211, junior or senior classification, permission of instructor*

Students in the College of Liberal Arts and Sciences may use no more than 9 credits of BCBIO 490 and 491 toward graduation.

BCBIO 491. Team Research Projects..

Cr. 1-5. Repeatable, maximum of 9 credits. *Prereq: BCBIO 211, junior or senior classification, permission of instructor*

Research projects in bioinformatics and computational biology done by teams of students. Students in the College of Liberal Arts and Sciences may use no more than 9 credits of BCBIO 490 and 491 toward graduation.

Biological/Pre-Medical Illustration

Interdepartmental Undergraduate Program

Undergraduate Study

The interdepartmental undergraduate BPM I major is designed for students who want to combine their interests and aptitudes in science and art. Based on the theme of "communicating science through art," the major prepares students for careers in biological illustration or for graduate education in medical illustration elsewhere. Graduates enter fields such as biocommunications, environmental display design, free-lance illustration, museum display design, and various careers in the publishing industry.

Entrance into the BPM I program is by application to the BPM I Advisory Committee. Eligibility is based on an academic standard of at least 2.00 CGPA on 30 credits of university level work and a consideration of artistic ability as demonstrated through submission of a portfolio of representative drawings or other art work. Freshman and transfer students usually declare pre-BPM I as their major while satisfying the conditions for entrance into the major, although other majors can be declared.

To earn the B.A. degree offered by the College of Liberal Arts and Sciences, students must complete the general education requirements in that college and take at least 41 credits in design and 32 credits in the biological sciences.

Design courses		29
DSN S 131	Design Representation	
ARTIS 230	Drawing II	
ARTIS 233	Watercolor Painting	
ARTIS 308	Computer Modeling, Rendering and Virtual Photography	
ARTIS 330	Drawing III: Life Drawing	
BPM I 323	Scientific Illustration Principles and Techniques	
BPM I 326	Illustration and Illustration Software	
BPM I 327	Illustration as Communication	
BPM I 337	Application of Scientific Illustration Techniques	
BPM I 497	Illustration Internship	
12 credits chosen from a list of approved upper level courses in art and design		12
Biological Science courses		24
LAS 101	Orientation for Open Option and Preprofessional Students	
BIOL 211	Principles of Biology I	
BIOL 211L	Principles of Biology Laboratory I	
BIOL 212	Principles of Biology II	
BIOL 212L	Principles of Biology Laboratory II	
BIOL 255	Fundamentals of Human Anatomy	
BIOL 256	Fundamentals of Human Physiology	
BIOL 351	Comparative Chordate Anatomy	
One of the following		3
BIOL 356	Dendrology	
BIOL 366	Plant Systematics	
BIOL 454	Plant Anatomy	
9 credits chosen from a list of approved biological science courses		9

Chemistry and Mathematics are also required as supporting courses. Students must earn a grade of C- or better in all art and science courses included in the major and must earn a cumulative GPA of 2.00 in both categories. A brochure is available in 102 Catt Hall that gives a detailed listing of the requirements.

Communication Proficiency Requirement. Students must earn a minimum of C in both ENGL 150 and ENGL 250 or equivalent composition courses and in one advanced writing course numbered ENGL 302 through ENGL 316.

Students in BPM I must complete a senior project or an internship experience (BPM I 497) in which they design and produce artwork that is suitable for publication or public display.

Minor

A minor in biological illustration is offered. A minimum of 17 credits must be taken, including 8 credits in biological science courses and 9 credits in art and design courses.

The biological sciences must include:

BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
BIOL 212	Principles of Biology II	3
BIOL 212L	Principles of Biology Laboratory II	1

The art and design courses must include:

BPM I 323	Scientific Illustration Principles and Techniques	3
BPM I 337	Application of Scientific Illustration Techniques	3

Advanced drawing, illustration, electronic media or painting course

For more information, contact the BPM I adviser in 102 Catt Hall or view the website listed above.

Courses primarily for undergraduates:

BPM I 323. Scientific Illustration Principles and Techniques.

(Cross-listed with ARTIS). (0-6) Cr. 3. Repeatable. *Prereq:* 6 credits in art and design and 3 credits in biological sciences
Studio basics and professional techniques in black & white, continuous tone, and color. Emphasis on tools, materials, and rendering.

BPM I 326. Illustration and Illustration Software.

(Cross-listed with ARTIS). (0-6) Cr. 3. Repeatable. *Prereq:* ARTIS 323
Application of painting, drawing, and image making techniques to communication. Development of technical abilities using illustration software. Digital and print production techniques.

BPM I 327. Illustration as Communication.

(Cross-listed with ARTIS). (0-6) Cr. 3. *Prereq:* ARTIS 326
Studio problems in illustration emphasizing composition and communication. Problem solving methodologies.

BPM I 337. Application of Scientific Illustration Techniques.

(Cross-listed with ARTIS). (0-6) Cr. 3. Repeatable, maximum of 6 credits. S. *Prereq:* ARTIS 327
Rendering techniques applied to different types of biological and scientific subjects emphasizing communication. The use of traditional and digital media. Term project required.

BPM I 395. Field Illustration.

Cr. 1-3. Repeatable, maximum of 6 credits. S.SS. *Prereq:* Permission of instructor
A combination seminar and field trip course emphasizing nature interpretation, field sketching techniques and preparation of a final illustration based on field experience.

BPM I 398. Cooperative Education.

Cr. R. F.S.SS. *Prereq:* Permission of the program cooperative education coordinator, junior classification
Required of all cooperative education students. Students must register for these courses prior to commencing each work period.

BPM I 435I. Illustrating Nature I Sketching.

(Cross-listed with IA LL). Cr. 2. SS.
Sketching plants, animals and terrain. Visual communication, development of a personal style, and integration of typographic and visual elements on a page will be emphasized.

BPM I 436I. Illustrating Nature II Photography.

(Cross-listed with IA LL). Cr. 2. SS.
Beginning to intermediate technical and compositional aspects of color photography of natural areas and their plants and animals.

BPM I 490. Independent Study.

Cr. 1-3. Repeatable, maximum of 3 credits. *Prereq:* Written approval of instructor and advisory committee chair on required form in advance of semester of enrollment

BPM I 494. Special Topics in Illustration.

Cr. 1-3. Repeatable.
Intensive exploration of illustration techniques in a studio or field setting.

BPM I 497. Illustration Internship.

Cr. 1-6. Repeatable, maximum of 6 credits. *Prereq:* Junior or senior classification in BPM I, written approval of supervising instructor and advisory committee chair on required form in advance of semester of enrollment
Offered on a satisfactory-fail basis only.

Biology

(Interdepartmental Undergraduate Program)

Iowa State University is a major center for research and education in the biological sciences. With over 200 faculty in the life sciences, students have the opportunity to learn from some of the nation's leaders in biological research and teaching and to participate in innovative, meaningful research projects that explore frontiers of biology. Few other universities have such a wealth of faculty expertise available to undergraduate students, making Iowa State's Biology Program the logical choice for those who want to participate in a thriving academic community.

The faculties of the Department of Ecology, Evolution and Organismal Biology and the Department of Genetics, Development and Cell Biology jointly offer the undergraduate biology major. This high quality academic program has the flexibility to accommodate a range of career goals while taking advantage of the university's strengths in science and technology. A bachelor's degree in biology provides excellent preparation for graduate study in biological disciplines

ranging from the molecular to the ecological levels, and for entrance into various professional schools, such as human medicine, physical therapy, or veterinary medicine. The major is well suited for those who plan to teach biology, who wish to enter government or industrial employment in health or environmental professions, or who prefer educational breadth as an end in itself. By working with our professional and faculty advisers, it is possible to design a unique program of study that will meet student needs and objectives.

Students with special interests and aptitudes should consider combining biology with a minor or a second major in another subject, such as chemistry, environmental studies, journalism, mathematics, music, statistics, or many other subjects offered by the university.

Customizing a degree

Biology encompasses an amazing diversity of disciplines and scales of study ranging from molecules to the biosphere. The Biology major offers a rich variety of coursework addressing most of the areas of biology. The major's curriculum requirements offer tremendous flexibility in creating an individualized program of study to facilitate achievement of a student's career goals, while simultaneously assuring some exposure to all areas of biology and providing complementary knowledge from supporting courses in chemistry, physics, and math/statistics.

While flexibility is the hallmark of the Biology major, the breadth of the field can also be challenging. Thus, in an effort to provide more guidance to students who desire such, the major also provides five advising tracks, or areas of specialization, for students who wish to focus on subfields of biology or who have specific career goals in mind. Course plans for each area of specialization are listed on the Biology web site. The areas are:

Pre-medical and Human Health Professions--This area emphasizes preparation for further study in medical school or allied human health professions such as dentistry, optometry, genetic counseling, physical therapy, occupational therapy, physician assistant, nursing, chiropractic, and others. It also will prepare students for a broad range of careers in the biological sciences. Students are urged to determine the specific entrance requirements for the professional schools where they might study and to plan a program of study accordingly, in addition to following the basic plan.

Pre-veterinary--An eventual degree in Veterinary Medicine can lead to a wide variety of careers, including private clinical practice in small animal medicine or agricultural animal production. But, pre-veterinary students can also prepare themselves for careers in animal research, public health, laboratory animal medicine, food safety, regulatory medicine, and education. Specific requirements for entrance to the Iowa State Veterinary College or other schools should be consulted as programs of study are planned, in addition to following the basic plan.

Molecular and Cellular Biology--Students specializing in this field will explore the structure, function, and interactions of the molecules and sub-cellular features that make up living cells. This area is particularly designed for those who plan to pursue a career in research in molecular or cell biology or in related areas such as biochemistry, genetics, microbiology, developmental biology, human medicine, or veterinary medicine. Many students in this area will choose to go on to graduate school.

Ecology and Conservation Biology--Ecologists examine the interactions and relationships that living organisms have with each other and their environment. Conservation biologists study the nature and status of Earth's biodiversity with the aim of protecting species, their habitats, and ecosystems from excessive rates of extinction and loss. Students who choose this specialization may go on to work for a non-profit environmental group; an environmental consulting firm; a local, state, or federal agency; or other related organizations. Many students in this area will choose to go on to graduate school.

Evolution and Biodiversity--This area provides students with a sound understanding of evolutionary principles and the biological patterns that result from evolutionary change. Students have the opportunity to explore, in depth, the biodiversity found within a wide range of groups of organisms. Students who choose this specialization may go on to work for a non-profit environmental group; an environmental consulting firm; a local, state, or federal agency; or other related organizations. Many students in this area will choose to go on to graduate school.

Other opportunities

Teacher licensure--Biology majors seeking licensure to teach biology in secondary schools must meet requirements of the Teacher Education Program as well as those of the Biology Program. In addition, they must apply formally for admission to the teacher education program. See the section on Teacher Education for a list of licensure areas, degree requirements, and other information about this program.

Undergraduate research--Students who have interests in biological research are encouraged to become involved in the research projects of faculty members on campus. Those doing so may receive credit for the experience in BIOL 499 Undergraduate Research Experience. Making the effort to find a suitable research mentor and engaging in research work can be one of the most valuable experiences of an undergraduate education. Internship experiences are often available at other universities, zoos, museums, governmental and non-governmental entities focused on environmental issues, and at industrial or government laboratories. Students participating in such projects may receive internship credit in BIOL 494 Biology Internship.

Field trip courses -- The Biology Program offers two field trip courses: BIOL 393 (North American Field Trips in Biology) and BIOL 394 (International Field Trips in Biology). In recent years field trip opportunities to the Boundary Waters area of Minnesota, Honduras, and Spain have been available. These courses involve a pre-trip seminar followed by one-week to one-month long field trip at a time when academic year classes are not in session. The classes are low enrollment and allow extensive interaction between instructors and students in locations of biological interest.

International experience--Because major discoveries in science often result from global efforts, biology majors are encouraged to include an international or study abroad component in their degree programs. This can be done by participating in international field trips originating from the ISU campus in BIOL 394 International Field Trips in Biology. In addition, many students choose to study abroad, attending a university in another country for up to a year as an exchange student. Minors in a foreign language can also add an international emphasis to a degree in biology.

Courses offered at other locations

In addition to biological science courses taught on campus, students may take courses at various remote locations and arrange to have the credits count toward the advanced courses required in the biology major. Attending a summer field station adds an important component to an undergraduate program of study.

Gulf Coast Research Laboratory--The Gulf Coast Research Laboratory is affiliated with the University of Southern Mississippi. Iowa State students may register for marine biology courses and transfer credit to their degree programs under the number BIOL 480 Studies in Marine Biology. Written permission of the Biology Program Director is required for this arrangement. Courses that are available each summer are listed at www.coms.usm.edu.

Summer Biological Field Stations--Courses taken at summer field stations may be transferred to Iowa State University as credit in BIOL 481 Summer Field Studies. Such stations are found throughout the country and often offer courses that emphasize the adaptation of plants and animals to unique environments. See www.biology.iastate.edu for links to Iowa Lakeside Laboratory and other field stations in different biomes, e.g. marine/coastal, Great Lakes, taiga, deciduous forests, deserts, Rocky Mts., etc.

Organization for Tropical Studies--Iowa State students may register for courses in tropical biology taught in Costa Rica by the Organization for Tropical Studies. Credit is transferred to Iowa State as BIOL 482 Tropical Biology. For further information see www.ots.duke.edu or contact the Biology Student Services Office in 103 Bessey Hall.

General requirements

Students may earn the B.S. degree in Biology from either the College of Liberal Arts and Sciences or from the College of Agriculture and Life Sciences. Students in the College of Liberal Arts and Sciences must fulfill the foreign language and general education requirements for that college. Students in the College of Agriculture and Life Sciences must meet the general education requirements for that college. Contact the Student Services Office for details regarding differences in general education and course requirements that are specific to these colleges.

Supporting course requirements-- Understanding biology requires a basic understanding of the physical sciences and mathematics. Consequently, a minimum number of credits in general chemistry, organic chemistry, biochemistry, and physics is required. See the Biology Program Web Site for specific supporting science requirements.

The Math requirement is competency based. After demonstrating competency in algebra and trigonometry, biology majors must take two semesters of calculus; or two semesters of Statistics; or one semester of calculus and one semester of Statistics chosen from a list of approved courses available on the Biology Program Web Site and in the Biology Program Office.

Given the important role of communications in the modern sciences, biology majors must demonstrate communication competency by earning a minimum of C in both ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition or equivalent composition courses and in

one advanced writing course numbered ENGL 302 through ENGL 316, or JL MC 347, or SP CM 212.

Undergraduate Study

Biology majors start their studies in the biological sciences by taking a unified biology core curriculum consisting of six integrated courses, including four with labs. The first year provides a broad introduction to the nature of life.

BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
BIOL 212	Principles of Biology II	3
BIOL 212L	Principles of Biology Laboratory II	1
Total Credits		8

During the first year, students also take BIOL 110 Introduction to Biology and BIOL 111 Opportunities in Biology, which are half semester courses designed to introduce the student to the discipline of biology and opportunities for careers in biology. Students transferring into the Biology major take BIOL 112 in place of BIOL 110.

Students then explore concepts of ecology in BIOL 312; the principles of genetics in BIOL 313 and BIOL 313L; cell and molecular biology in BIOL 314; and evolutionary biology in BIOL 315. Biology majors must take an additional 21 credits of biological science at the 300 level, or above, from an approved list of courses. Of these, at least 9 credits must be taken as BIOL courses, and a minimum of two BIOL laboratory or field courses must also be included.

Biology majors should carefully consider their selection of upper-level courses to allow them to emphasize one, or more, of the sub-disciplines of Biology relevant to their post-baccalaureate objectives. Most biology courses numbered 300 or above can be used to satisfy the additional credit requirement. Some courses taught in other departments can also be applied to the biology major. Advanced students should consider including 500 level courses in their programs. The Biology Program's web site has a complete listing of acceptable upper-level life science courses.

Biology majors must demonstrate competency in their understanding of the biological sciences. Thus, grades of C- or better in all biological science courses applied to the major are required.

Minor

A minor in Biology is offered by the Biology Program. The minor requires 15 credits in Biology and includes the completion of the specific courses listed below:

BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
BIOL 212	Principles of Biology II	3
BIOL 212L	Principles of Biology Laboratory II	1
Total Credits		8

and 7 credits in biology courses numbered 300 or above. Nine (9) credits of the required courses must apply only to the minor. For more information, see the Biology Program web site or contact the Student Services Office in 103 Bessey Hall.

Undergraduate Study

Biology majors start their studies in the biological sciences by taking a unified biology core curriculum consisting of six integrated courses, including four with labs. The first year provides a broad introduction to the nature of life.

BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
BIOL 212	Principles of Biology II	3
BIOL 212L	Principles of Biology Laboratory II	1

During the first year, students also take BIOL 110 Introduction to Biology and BIOL 111 Opportunities in Biology, which are half semester courses designed to introduce the student to the discipline of biology and opportunities for careers in biology. Students transferring into the Biology major take BIOL 112 in place of BIOL 110.

Students then explore concepts of ecology in BIOL 312; the principles of genetics in BIOL 313 and BIOL 313L; cell and molecular biology in BIOL 314; and evolutionary biology in BIOL 315. Biology majors must take an additional 21 credits of biological science at the 300 level, or above, from an approved list of courses. Of these, at least 9 credits must be taken as BIOL courses, and a minimum of two BIOL laboratory or field courses must also be included.

Biology majors should carefully consider their selection of upper-level courses to allow them to emphasize one, or more, of the sub-disciplines of Biology relevant to their post-baccalaureate objectives. Most biology courses numbered 300 or above can be used to satisfy the additional credit requirement. Some courses taught in other departments can also be applied to the biology major. Advanced students should consider including 500 level courses in their programs. The Biology Program's web site has a complete listing of acceptable upper-level life science courses.

Biology majors must demonstrate competency in their understanding of the biological sciences. Thus, grades of C- or better in all biological science courses applied to the major are required. Furthermore, in order to graduate, a student must have a cumulative average in the major of at least 2.00.

Graduate Study

Biology is an undergraduate major only. Persons interested in graduate study in the biological sciences should apply directly to one of the life science graduate programs at Iowa State University. Interdepartmental graduate offerings in Bioinformatics and Computational Biology; Ecology and Evolutionary Biology; Genetics; Molecular, Cellular and Developmental Biology; Neuroscience; Plant Biology; Toxicology; Immunobiology; and Environmental Science are also available. (See Index.)

A non-thesis master's degree in Interdisciplinary Graduate Studies (biological sciences) has been established particularly for those who wish to have a more diversified program of advanced study than that generally permitted by specific departments and programs.

Curriculum in Biology

College of Liberal Arts and Sciences

Administered by the Departments of Ecology, Evolution, and Organismal Biology; and Genetics, Development and Cell Biology. Students should consult the Biology Student Services Office, 103 Bessey (or biology@iastate.edu) for the appropriate course selections for professional or graduate school preparation.

Total Degree Requirement: 120 cr.

Only 65 cr. from a two-year institution may apply which may include up to 16 technical cr.; 9 P-NP cr. of free electives; 2.00 minimum GPA.

International Perspective: 3 cr.

U.S. Diversity: 3 cr.

Communications Proficiency (with a C or better)

English composition	3
Speech fundamentals	3
Total Credits	6

Communication/Library

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
LIB 160	Information Literacy	1
One of the following:		
SP CM 212	Fundamentals of Public Speaking	3
ENGL 312X Biological Communications (3 cr.)		
Total Credits		10

Humanities and Social Sciences

Humanities course	12
Social Science course	9
Total Credits	21

Mathematical Sciences 7 cr.

MATH 160	Survey of Calculus	4
or MATH 181	Calculus and Mathematical Modeling for the Life Sciences I	
or		
MATH 165	Calculus I	3-8
& STAT 101	and Principles of Statistics	
or STAT 104	Introduction to Statistics	
MATH 165	Calculus I	8
& MATH 166	and Calculus II	
or		

MATH 181 & MATH 182	Calculus and Mathematical Modeling for the Life Sciences I and Calculus and Mathematical Modeling for the Life Sciences II	8
or		
STAT 101	Principles of Statistics	4
or		
STAT 104 & STAT 401	Introduction to Statistics and Statistical Methods for Research Workers	7

Physical Sciences

General chemistry 5 cr. minimum

CHEM 163 & 163L	College Chemistry and Laboratory in College Chemistry	5
or		
CHEM 177 & 177L	General Chemistry I and Laboratory in General Chemistry I	5
CHEM 178 & 178L	General Chemistry II and Laboratory in College Chemistry II	4
CHEM 231 or CHEM 331	Elementary Organic Chemistry Organic Chemistry I	3
Organic chemistry: 4 cr. minimum		
CHEM 231 & 231L	Elementary Organic Chemistry and Laboratory in Elementary Organic Chemistry	4
or		
CHEM 331 & 331L	Organic Chemistry I and Laboratory in Organic Chemistry I	4
and		
CHEM 332 & 332L	Organic Chemistry II and Laboratory in Organic Chemistry II	4
Biochemistry: 3 cr.		
BBMB 316	Principles of Biochemistry	3
or		
BBMB 404	Biochemistry I	3
or		
BBMB 420	Physiological Chemistry	3
Physics: 4 cr. minimum		
PHYS 115X	Physics for Life Sciences (5 cr.)	
or		
PHYS 111 & PHYS 112	General Physics and General Physics	10

Biology: 24 cr.

All graded courses minimum C-; 2.00 GPA average required.

BIOL 110	Introduction to Biology	1
BIOL 111	Opportunities in Biology	0.5
BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
BIOL 212	Principles of Biology II	3
BIOL 212L	Principles of Biology Laboratory II	1
BIOL 312	Ecology	4
BIOL 313	Principles of Genetics	3
BIOL 313L	Genetics Laboratory	1
BIOL 314	Principles of Molecular Cell Biology	3
BIOL 315	Biological Evolution	3
Total Credits		23.5

Advanced Biology: 21 cr.

All graded courses minimum C-; 2.00 GPA average required. See the Biology Program web site for list of approved Advanced Biology courses, or consult an adviser in the Biology Student Services office, 103 Bessey Hall.

Two Advanced BIOL courses with lab or field components (from approved list)		
Biology advanced courses (from approved list)		9
Additional approved biology advanced courses		12
Total Credits		21

Botany

Interdepartmental Graduate Major

Undergraduate Study

Students wishing to pursue an undergraduate degree in the basic plant sciences are encouraged to investigate the numerous possibilities available to them at Iowa State University. The undergraduate Biology Program, jointly administered by faculties of the departments of Ecology, Evolution, and Organismal Biology (EEOB) and Genetics, Cell and Developmental Biology (GDCB), includes a wide spectrum of opportunities for students to develop their academic interests through the study of plant biology. Students can major in Biology in the College of Liberal Arts and Sciences or in the College of Agriculture. Contact the Biology Student Services office in 103 Bessey Hall for general information about the Biology Program. For those students interested in applied plant sciences, undergraduate majors in Agronomy, Horticulture, and Forestry are also available through the College of Agriculture.

Graduate Study

The Botany Graduate Program offers work for the degrees Master of Science and Doctor of Philosophy with a graduate major in Botany, and minor work for students majoring in other departments or graduate programs. Within the Botany Graduate Major, one of the following areas of specialization may be designated: aquatic and wetland ecology, cytology, ecology, morphology, mycology, physiology and molecular biology, or systematics and evolution. Relevant graduate courses that may be counted toward completion of these degrees are offered by the Departments of EEOB and GDCB, and by other departments and programs. The specific requirements for each student's course distribution and research activities are set by the Program of Study Committee established for each student individually, and must satisfy all requirements of the Graduate College (See Index). GRE (and if necessary, TOEFL) scores are required of all applicants; students are encouraged to contact faculty prior to application.

Related interdepartmental graduate majors in Ecology and Evolutionary Biology (EEOB); Environmental Science (EnSci); Genetics (IG); Molecular, Cellular and Developmental Biology (MCDB); Plant Physiology (IPPM); and Toxicology should also be investigated as possible graduate programs with specific disciplinary focus.

At present, the Botany Graduate Program is under review and may change Status in the near future. Before applying for admission to the Botany Graduate Major, prospective students should contact the Botany Graduate Program Director of Graduate Education Dr. Robert Wallace (rwallace@iastate.edu) for specific details about the program's Status and application procedures.

Chemistry

Undergraduate Study

For undergraduate curricula in liberal arts and sciences leading to the degrees Bachelor of Science and Bachelor of Arts, see Liberal Arts and Sciences, Curriculum.

Graduates holding the B.S. degree in Chemistry qualify in many fields as: teachers of Chemistry, supervisors in industry, technical sales personnel, and research chemists in federal, state, municipal, academic, or industrial laboratories. Students with high scholastic standing often continue with graduate work, where they may explore more thoroughly the specialized areas of chemistry in which they are interested.

The B.A. degree is useful for students who intend to pursue studies in parallel areas, such as secondary school teaching, or to obtain additional majors or strong minors. The B.A. degree does not prepare students as well for graduate study or professional employment in chemistry.

Graduates have firm foundations in the fundamentals and application of current chemical theories. They are able to design, carry-out, record, and analyze the results of chemical experiments. They are able to use modern instrumentation and classical techniques to identify and solve chemical problems as well as explore new areas of research. Graduates are able to communicate the results of their work to chemists, as well as non-chemists. They understand the ethical and environmental dimensions of problems and issues facing chemists. They follow the proper procedures and regulations for safe storage, labeling, use of chemicals, and disposal of chemicals. Graduates are skilled in problem solving, critical thinking, and analytical reasoning. These skills may be applied to careers in education and industry; in professions such as law, medicine, environmental sciences, and forensic sciences. The curricula in Chemistry are approved by the American Chemical Society (ACS). Students who complete the program obtain an ACS certified baccalaureate degree provided they also take

one Biochemistry course, typically BBMB 301 Survey of Biochemistry, BBMB 316 (<http://catalog.iastate.edu/azcourses/bbmb>) Principles of Biochemistry or BBMB 404 Biochemistry I and BBMB 405 (<http://catalog.iastate.edu/azcourses/bbmb>) Biochemistry II.

Liberal arts majors who wish to transfer into Chemistry at the end of their second year may still complete all degree requirements and graduate within five years.

Graduate Study

The Department offers work for the degrees Master of Science and Doctor of Philosophy with majors in Chemistry, Analytical, Inorganic, Organic, and Physical chemistry. Co-majors may be taken between areas within Chemistry or between one of the areas in Chemistry and another department. Courses in other areas of Chemistry as well as courses in other departments may be used to satisfy the requirement for coursework outside the major field. A Ph.D. student in Chemistry may choose an additional specialty in one of six areas: Materials Chemistry, Industrial Chemistry, Biomolecular Sciences, Chemistry Education, Chemical Instrumentation, and Forensic Chemistry. A minimum of ten credits is required for each additional specialty. A course which counts towards an additional specialty may also count toward the outside course requirement. A minor in Chemistry is available to students in other departments. The Department participates in the interdepartmental major in Toxicology.

The Department of Chemistry requires all graduate students majoring in Chemistry to teach as part of their training for an advanced degree. Prerequisite to major graduate work is the completion of undergraduate work in Chemistry, Mathematics, and Physics substantially equivalent to that required of undergraduate Chemistry majors at this institution.

The course numbers for general Chemistry courses include 163-178, and 201.

Index to field of work for 200 level courses and above is given by the second and third digits of course numbers:

1. Inorganic Chemistry 00-09
2. Analytical Chemistry 10-19
3. Physical Chemistry 20-29 and 60-69
4. Organic Chemistry 30-39
5. Chemical Education 50-59
6. Interdisciplinary Chemistry 70-89
7. Research 99

Undergraduate students seeking the B.S. degree in Chemistry usually take courses essential to the degree program according to the following schedule:

First year

CHEM 101	Chemistry Learning Community Orientation	1
CHEM 177 & CHEM 178 or CHEM 201	General Chemistry I and General Chemistry II Advanced General Chemistry	5-7
CHEM 177L or CHEM 177N or CHEM 201L	Laboratory in General Chemistry I Laboratory in General Chemistry I Laboratory in Advanced General Chemistry	1
CHEM 211	Quantitative and Environmental Analysis	2
CHEM 211L	Quantitative and Environmental Analysis Laboratory	2
MATH 165	Calculus I	4
MATH 166	Calculus II	4
ENGL 150	Critical Thinking and Communication	3
LIB 160	Information Literacy	1

Second year

CHEM 110	Cutting-Edge Chemistry: Research and Career Opportunities	1
CHEM 331	Organic Chemistry I	3
CHEM 332	Organic Chemistry II	3
CHEM 333L	Laboratory in Organic Chemistry I (for Chemistry and Biochemistry Majors)	2
CHEM 334L	Laboratory in Organic Chemistry II (for Chemistry and Biochemistry Majors)	2
MATH 265	Calculus III	4
PHYS 221	Introduction to Classical Physics I	5
PHYS 222	Introduction to Classical Physics II	5

ENGL 250	Written, Oral, Visual, and Electronic Composition	3
or ENGL 250H	Written, Oral, Visual, and Electronic Composition: Honors	

Third year

CHEM 324	Introductory Quantum Mechanics	3
CHEM 325	Chemical Thermodynamics	3
CHEM 322L	Laboratory in Physical Chemistry	3
CHEM 316	Instrumental Methods of Chemical Analysis	2
CHEM 316L	Instrumental Analysis Laboratory	2
CHEM 301	Inorganic Chemistry	2
CHEM 550	Safety in the Chemical Laboratory	1

Plus a foreign language requirement.

Fourth year

CHEM 402	Advanced Inorganic Chemistry	3
CHEM 401L	Inorganic Chemistry Laboratory	1
ENGL 314	Technical Communication	3
Two advanced Chemistry courses (min 4 credits)		4-6

CHEM 399 Undergraduate Research or CHEM 499 Senior Research is strongly recommended. Credits earned in 399/499/490 may only be used to meet one of the advanced course requirements.

Chemistry majors seeking certification to teach Chemistry in secondary schools must meet the requirements of the College of Human Sciences as well as those of the Chemistry program. In addition, they must apply formally for admission to the teacher education program.

Undergraduate students seeking the B.A. degree in Chemistry have the following courses in their degree programs as minimum requirements:

One of the following sequences: 6-8

CHEM 177 & CHEM 178 & 177L or CHEM 177N	General Chemistry I and General Chemistry II and Laboratory in General Chemistry I Laboratory in General Chemistry I	
CHEM 167 & CHEM 178 & 167L	General Chemistry for Engineering Students and General Chemistry II and Laboratory in General Chemistry for Engineering	
CHEM 201 & 201L	Advanced General Chemistry and Laboratory in Advanced General Chemistry	
CHEM 211	Quantitative and Environmental Analysis	2
CHEM 211L	Quantitative and Environmental Analysis Laboratory	2
CHEM 301	Inorganic Chemistry	2
CHEM 316	Instrumental Methods of Chemical Analysis	2
CHEM 316L	Instrumental Analysis Laboratory	2
CHEM 324	Introductory Quantum Mechanics	3
CHEM 321L or CHEM 322L	Laboratory in Physical Chemistry Laboratory in Physical Chemistry	2-3
CHEM 325	Chemical Thermodynamics	3
CHEM 331	Organic Chemistry I	3
CHEM 331L	Laboratory in Organic Chemistry I	1
CHEM 332	Organic Chemistry II	3
CHEM 332L	Laboratory in Organic Chemistry II	1
The following are required as supporting work:		12
MATH 165	Calculus I	
MATH 166	Calculus II	
PHYS 221	Introduction to Classical Physics I	
PHYS 222	Introduction to Classical Physics II	

Minor

The Department offers a minor in chemistry which may be earned by credit in:

CHEM 177	General Chemistry I	4
CHEM 177L	Laboratory in General Chemistry I	1
or		
CHEM 167 & 167L	General Chemistry for Engineering Students and Laboratory in General Chemistry for Engineering	5
CHEM 178	General Chemistry II	3
CHEM 211	Quantitative and Environmental Analysis	2

CHEM 211L	Quantitative and Environmental Analysis Laboratory	2
CHEM 324	Introductory Quantum Mechanics	3
CHEM 331	Organic Chemistry I	3
CHEM 331L	Laboratory in Organic Chemistry I	1
And one of the following:		2-5
CHEM 301	Inorganic Chemistry	
CHEM 316 & 316L	Instrumental Methods of Chemical Analysis and Instrumental Analysis Laboratory	
CHEM 325 & CHEM 321L or CHEM 322L	Chemical Thermodynamics and Laboratory in Physical Chemistry Laboratory in Physical Chemistry	
CHEM 332 & 332L	Organic Chemistry II and Laboratory in Organic Chemistry II	

The total minimum credits in Chemistry thus will be 20 to 23 depending on which advanced courses are selected.

Communication Proficiency requirement: The Department requires a grade of C– or better in each of:

ENGL 150 & ENGL 250 or ENGL 250H	Critical Thinking and Communication and Written, Oral, Visual, and Electronic Composition Written, Oral, Visual, and Electronic Composition: Honors	3-6
----------------------------------	--	-----

Courses primarily for undergraduates:

CHEM 050. Preparation for College Chemistry.

(3-0) Cr. arr. F.S. *Prereq:* 1 year high school algebra

An in-depth active learning experience designed to impart the fundamental concepts and principles of chemistry, with an emphasis on mathematics skills and logical thinking. For students intending to enroll in general chemistry and who have not taken high school chemistry or who have not had a high school college preparatory chemistry course who need a review of chemical problem solving and chemical concepts. Credit for Chem 50 does not count toward graduation.

CHEM 101. Chemistry Learning Community Orientation.

(1-0) Cr. 1. F.S. *Prereq:* Member of the Chemistry Learning Community.

Integration of first year and transfer students into the chemistry program. Introduction and overview of degree requirements and support services on campus, assistance with transition to college and community life, and team-building and leadership activities. Offered on a satisfactory-fail basis only.

CHEM 102L. Physical Sciences for Elementary Education.

(Cross-listed with PHYS). (1-5) Cr. 3. S. *Prereq:* MATH 195 or MATH 140

Introduction to physics and chemistry via weekly, guided-inquiry laboratories. Topics to include states of matter and changes in states of matter, sound, light, electricity, magnetism, heat, forces and how they are related to an object's motion.

CHEM 110. Cutting-Edge Chemistry: Research and Career Opportunities.

(1-0) Cr. 1. F.

Overview of careers in chemistry: industrial, governmental, and academic careers; literature and compound search instruction; professional ethics; and an introduction to joining a research lab. For students majoring or minoring in chemistry or chemistry-related fields. Offered on a satisfactory-fail basis only.

CHEM 160. Chemistry in Modern Society.

(3-0) Cr. 3. F.S.

Aspects of chemistry visible to a non-scientist in our society. A survey of selected areas of chemistry with emphasis on the interface between chemistry and other fields of human activity.

CHEM 163. College Chemistry.

(4-0) Cr. 4. F.S.SS. *Prereq:* 1 year of high school algebra and geometry and Chem 50, or 1 year of high school chemistry; and credit or enrollment in CHEM 163L

A general survey of chemistry with an emphasis on conceptual problems for those who are not physical and biological science or engineering majors. Nomenclature, chemical reactions, stoichiometry, atomic structure, periodic properties, chemical bonding, states of matter, solutions, thermochemistry, acid-base theory, oxidation-reduction reactions, basic chemical kinetics, and chemical equilibrium. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 163L. Laboratory in College Chemistry.

(0-3) Cr. 1. F.S.SS. *Prereq:* Credit or enrollment for credit in CHEM 163

Laboratory to accompany CHEM 163. Must be taken with CHEM 163. Only one of Chem 163L, CHEM 167L, and CHEM 177L may count toward graduation.

CHEM 167. General Chemistry for Engineering Students.

(4-0) Cr. 4. F.S. *Prereq:* MATH 140 or high school equivalent and 1 year of high school chemistry or CHEM 50

Principles of chemistry and properties of matter explained in terms of modern chemical theory with emphasis on topics of general interest to the engineer. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 167L. Laboratory in General Chemistry for Engineering.

(0-3) Cr. 1. F.S. *Prereq:* Credit or enrollment for credit in CHEM 167

Laboratory to accompany 167. Only one of Chem 163L, 167L, and 177L may count toward graduation.

CHEM 177. General Chemistry I.

(4-0) Cr. 4. F.S.SS. *Prereq:* MATH 140 or high school equivalent, and CHEM 50 or 1 year high school chemistry, and credit or enrollment in CHEM 177L. Chemistry and biochemistry majors may consider taking CHEM 201

The first semester of a two semester sequence which explores chemistry at a greater depth and with more emphasis on concepts, problems, and calculations than 163. Recommended for physical and biological science majors, chemical engineering majors, and all others intending to take 300-level chemistry courses. Principles and quantitative relationships, stoichiometry, chemical equilibrium, acid-base chemistry, thermochemistry, rates and mechanism of reactions, changes of state, solution behavior, atomic structure, periodic relationships, chemical bonding. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 177L. Laboratory in General Chemistry I.

(0-3) Cr. 1. F.S.SS. *Prereq:* Credit or enrollment for credit in CHEM 177

Laboratory to accompany 177. 177L must be taken with 177. Only one of Chem 163L, 167L, and 177L may count toward graduation.

CHEM 177N. Laboratory in General Chemistry I.

(0-3) Cr. 1. F. *Prereq:* Credit or enrollment for credit in CHEM 177. For chemistry and biochemistry majors

Laboratory to accompany CHEM 177. CHEM 177N must be taken with CHEM 177. Only one of Chem 163L, CHEM 167L, and CHEM 177N may count toward graduation.

CHEM 178. General Chemistry II.

(3-0) Cr. 3. F.S.SS. *Prereq:* CHEM 177, CHEM 177L

Continuation of 177. Recommended for physical or biological science majors, chemical engineering majors, and all others intending to take 300-level chemistry courses. Credit by examination (test-out exams) for 178 is available only to students who are not currently enrolled in the course.

CHEM 178L. Laboratory in College Chemistry II.

(0-3) Cr. 1. F.S.SS. *Prereq:* CHEM 177L and credit or enrollment for credit in CHEM 178

Laboratory to accompany 178. 178L is not a necessary co-requisite with 178.

CHEM 201. Advanced General Chemistry.

(5-0) Cr. 5. F. *Prereq:* MATH 140 or high school equivalent, one year of high school chemistry, and one year high school physics or advanced chemistry. Co-enrollment in CHEM 201L.

A one-semester course in general chemistry designed to give students an in-depth, broad-based view of modern chemistry, and, in part, to facilitate participation in independent undergraduate research. Topics include stoichiometry, atomic and molecular structure, chemical bonding, kinetics, chemical equilibria, and thermodynamics. Discussion of current trends in various chemical disciplines, which may be given by guest experts in chemistry, biochemistry, and chemical engineering, will help the student appreciate the scope of the chemical sciences and how research is carried out. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 201L. Laboratory in Advanced General Chemistry.

(0-3) Cr. 1. F. *Prereq:* Credit or enrollment for credit in CHEM 201

Laboratory to accompany 201. Introductory lab experience in synthesis and analysis to prepare students for research activities. 201L must be taken with 201. Only one of 163L, 167L, 177L, 177N or 201L may count toward graduation.

CHEM 211. Quantitative and Environmental Analysis.

(2-0) Cr. 2. F.S. *Prereq:* CHEM 163 and CHEM 163L, CHEM 201 and CHEM 201L; or credit or enrollment in CHEM 178; and concurrent enrollment in CHEM 211L

Theory and practice of elementary volumetric, chromatographic, electrochemical and spectrometric methods of analysis. Chemical equilibrium, sampling, and data evaluation. Emphasis on environmental analytical chemistry; the same methods are widely used in biological and materials sciences as well.

CHEM 211L. Quantitative and Environmental Analysis Laboratory.

(0-6) Cr. 2. F.S. *Prereq:* Credit or enrollment for credit in CHEM 211

Introductory laboratory experience in volumetric, spectrometric, electrochemical and chromatographic methods of chemical analysis.

CHEM 231. Elementary Organic Chemistry.

(3-0) Cr. 3. F.S.SS. *Prereq:* CHEM 163, CHEM 163L, or CHEM 177, CHEM 177L; *credit or enrollment in CHEM 231L*

A survey of modern organic chemistry including nomenclature, structure and bonding, and reactions of hydrocarbons and important classes of natural and synthetic organic compounds. For students desiring only an elementary course in organic chemistry. Students in physical or biological sciences and premedical or preveterinary curricula should take the full year sequence 331 and 332 (with the accompanying laboratories 331L and 332L). Only one of Chem 231 and 331 or BBMB 221 may count toward graduation.

CHEM 231L. Laboratory in Elementary Organic Chemistry.

(0-3) Cr. 1. F.S.SS. *Prereq:* *Credit or enrollment for credit in CHEM 231; CHEM 163L or CHEM 177L*

Laboratory to accompany 231. 231L must be taken with 231. Only one of Chem 231L and 331L may count toward graduation.

CHEM 298. Cooperative Education.

Cr. R. F.S.SS. *Prereq:* *Permission of the Department cooperative education coordinator; sophomore classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

CHEM 299. Undergraduate Research (for Freshmen and Sophomores).

Cr. arr. Repeatable, maximum of 6 credits. *Prereq:* *Permission of staff member with whom student proposes to work*

CHEM 301. Inorganic Chemistry.

(2-0) Cr. 2. S. *Prereq:* CHEM 324

Atomic and molecular structure and bonding principles; molecular shapes and symmetry; acids and bases; solid-state structures and properties; inorganic chemistry of H, B, C.

CHEM 316. Instrumental Methods of Chemical Analysis.

(2-0) Cr. 2. F. *Prereq:* CHEM 211, CHEM 211L, Math 166, and concurrent enrollment in CHEM 316L; *PHYS 222 recommended*

Quantitative and qualitative instrumental analysis. Operational theory of instruments, atomic and molecular absorption and emission spectroscopy, electroanalysis, mass spectrometry, liquid and gas chromatography, electrophoresis, literature of chemical analysis.

CHEM 316L. Instrumental Analysis Laboratory.

(0-6) Cr. 2. F. *Prereq:* *Credit or enrollment in CHEM 316*

Advanced laboratory experience in UV-visible spectrophotometry, atomic absorption and emission spectrometry, electrochemistry, gas and liquid chromatography, electrophoresis, mass spectrometry, and other instrumental methods.

CHEM 321L. Laboratory in Physical Chemistry.

(1-3) Cr. 2. S. *Prereq:* *Credit or enrollment in CHEM 324 or CHEM 325.*

Error analysis; use of computers for interfacing to experiments and for data analysis; thermodynamics, infrared and optical spectroscopy, lasers. Not applicable towards the B.S. degree in Chemistry. Only one of Chem 321L and 322L may count toward graduation.

CHEM 322L. Laboratory in Physical Chemistry.

(1-6) Cr. 3. S. *Prereq:* CHEM 324 or CHEM 325.

Error analysis; use of computers for interfacing to experiments and for data analysis; thermodynamics, surface science, infrared and optical spectroscopy, lasers. Only one of Chem 321L and 322L may count toward graduation.

CHEM 324. Introductory Quantum Mechanics.

(3-0) Cr. 3. F.S. *Prereq:* CHEM 178, MATH 166; *PHYS 222 recommended.*

Quantum mechanics, atomic and molecular structure, spectroscopy, kinetic theory of gases, chemical kinetics.

CHEM 325. Chemical Thermodynamics.

(3-0) Cr. 3. F.S. *Prereq:* CHEM 178, MATH 166; *PHYS 222 recommended*

Classical thermodynamics 1st, 2nd, and 3rd laws with applications to gases and interfacial systems, multicomponent, multiphase equilibrium of reacting systems, surface chemistry, and electrochemical cells. Students taking a two-semester physical chemistry sequence are advised to take 324 first; in the spring semester, a molecular-based section of this course, stressing statistical thermodynamics, is offered for which knowledge of 324 is useful.

CHEM 331. Organic Chemistry I.

(3-0) Cr. 3. F.S.SS. *Prereq:* CHEM 178 or CHEM 201, *enrollment in CHEM 331L highly recommended*

The first half of a two semester sequence. Modern organic chemistry including nomenclature, synthesis, structure and bonding, reaction mechanisms. For students majoring in physical and biological sciences, premedical and pre-veterinary curricula, chemistry and biochemistry. Students desiring only one semester of organic chemistry should take 231 and 231L, not 331. Only one of Chem 231 and 331 may count toward graduation.

CHEM 331L. Laboratory in Organic Chemistry I.

(0-3) Cr. 1. F.S.SS. *Prereq:* CHEM 177L; *credit or enrollment for credit in CHEM 331*

Laboratory to accompany 331. Chemistry and biochemistry majors are encouraged to take 333L. Only one of Chem 231L and 331L may count toward graduation.

CHEM 332. Organic Chemistry II.

(3-0) Cr. 3. F.S.SS. *Prereq:* CHEM 331; *enrollment in CHEM 332L highly recommended*

Continuation of 331. Modern organic chemistry including nomenclature, synthesis, structure and bonding, reaction mechanisms, natural products, carbohydrates and proteins. For students majoring in physical and biological sciences, premedical and pre-veterinary curricula, chemistry and biochemistry.

CHEM 332L. Laboratory in Organic Chemistry II.

(0-3) Cr. 1. F.S.SS. *Prereq:* CHEM 331L; *credit or enrollment for credit in CHEM 332*

Laboratory to accompany 332. Chemistry and biochemistry majors are encouraged to take 334L.

CHEM 333L. Laboratory in Organic Chemistry I (for Chemistry and Biochemistry Majors).

(0-6) Cr. 2. F. *Prereq:* *Credit or enrollment for credit in CHEM 331*

Laboratory to accompany 331 for chemistry and biochemistry majors.

CHEM 334L. Laboratory in Organic Chemistry II (for Chemistry and Biochemistry Majors).

(0-6) Cr. 2. S. *Prereq:* CHEM 333L, *credit or enrollment for credit in CHEM 332*

Laboratory to accompany 332 for chemistry and biochemistry majors.

CHEM 398. Cooperative Education.

Cr. R. F.S.SS. *Prereq:* *Permission of the Department cooperative education coordinator; junior classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

CHEM 399. Undergraduate Research.

Cr. arr. *Prereq:* *Permission of instructor with whom student proposes to work and junior or senior classification*

Undergraduate research. No more than six total credits of Chem 399 and Chem 499 may count toward graduation. Credits earned in 399/499/490 may only be used to meet one of the advanced course requirements for the B.S. degree.

CHEM 401L. Inorganic Chemistry Laboratory.

(0-3) Cr. 1. F. *Prereq:* CHEM 301

Preparation and characterization of inorganic and organometallic compounds by modern techniques. For students majoring in chemistry or biochemistry.

CHEM 402. Advanced Inorganic Chemistry.

(3-0) Cr. 3. F. *Prereq:* CHEM 301; *CHEM 331 recommended*

Chemistry of the d and f metals. Structure, bonding, electronic spectra, and reaction mechanisms. Aspects of organometallic solid state and bioinorganic chemistry.

CHEM 490. Independent Study.

Cr. arr. *Prereq:* *Completion of 6 credits in chemistry at the 300 level or higher and permission of instructor*

No more than 9 credits of Chem 490 may count toward graduation.

CHEM 498. Cooperative Education.

Cr. R. F.S.SS. *Prereq:* *Permission of the Department cooperative education coordinator; senior classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

CHEM 499. Senior Research.

Cr. 2-3. Repeatable, maximum of 6 credits. *Prereq:* *Permission of instructor with whom student proposes to work; B average in all chemistry, physics, and mathematics courses*

Research in chosen area of chemistry, with final written report as senior thesis. This course should be elected for two consecutive semesters. For students majoring in chemistry. No more than six total credits for Chem 399 and 499 may count toward graduation.

Courses primarily for graduate students, open to qualified undergraduates:

CHEM 501L. Inorganic Preparations.

(0-3) Cr. 1. F. *Prereq:* CHEM 402

Preparation and characterization of inorganic and organometallic compounds by modern research techniques.

CHEM 502. Advanced Inorganic Chemistry.

(3-0) Cr. 3. F. *Prereq:* CHEM 301; CHEM 331 recommended

Chemistry of the main group (s, p) and transition (d, f) metals. Structure, bonding, electronic spectra, and reaction mechanisms. Aspects of organometallic, solid state, bioinorganic, and nano chemistry.

CHEM 503. Bioinorganic Chemistry.

(Cross-listed with BBMB). (2-0) Cr. 2. Alt. S., offered even-numbered years.

Prereq: CHEM 402 or BBMB 405

Essential elements; transport and storage of ions and of oxygen; metalloenzymes and metallocoenzymes; electron-transfer processes in respiration and photosynthesis; metabolism of nonmetals and redox processes involved in it; medicinal aspects of inorganic chemistry.

CHEM 505. Physical Inorganic Chemistry.

(3-0) Cr. 3. S. *Prereq:* CHEM 402 or CHEM 502 and CHEM 324

Elementary group theory and molecular orbital theory applied to inorganic chemistry. Spectroscopic methods of characterization of inorganic compounds and organometallic compounds.

CHEM 511. Advanced Analytical Chemistry.

(3-0) Cr. 3. F. *Prereq:* CHEM 316 and CHEM 316L

General methods of quantitative inorganic and organic analysis. Aqueous and nonaqueous titrimetry; selective reagents; sampling and sample dissolution; modern instrumentation; sensors; atomic and molecular microscopy; bioanalytical methods; data evaluation; chemometrics; and analytical literature.

CHEM 512. Electrochemical Methods of Analysis.

(3-0) Cr. 3. F. *Prereq:* CHEM 316 and CHEM 316L, CHEM 324, and CHEM 322L

Principles of convective-diffusional mass transport in electroanalysis. Applications of potentiometry, voltammetry, and coulometry. Introduction to heterogeneous and homogeneous kinetics in electroanalysis. Analog and digital circuitry. Interfacing.

CHEM 513. Analytical Molecular and Atomic Spectroscopy.

(3-0) Cr. 3. S. *Prereq:* CHEM 316 and CHEM 316L, CHEM 324, CHEM 322L

Introduction to physical optics and design of photometric instruments. Principles of absorption, emission, fluorescence, and Raman spectroscopy. Error and precision of optical methods. Ultraviolet, visible, and infrared methods of qualitative and quantitative organic and inorganic analysis.

CHEM 516. Analytical Separations.

(3-0) Cr. 3. F. *Prereq:* CHEM 316 and CHEM 316L, CHEM 324, CHEM 322L

Principles and examples of inorganic and organic separation methods applied to analytical chemistry. Solvent extraction, volatilization, ion exchange, liquid and gas chromatography, and electrophoresis.

CHEM 531. Organic Synthesis I.

(2-0) Cr. 2. S. *Prereq:* CHEM 332

Survey of organic functional group transformations.

CHEM 532. Organic Synthesis II.

(2-0) Cr. 2. F. *Prereq:* CHEM 531

Synthesis of complex organic compounds including natural products.

CHEM 537. Physical Organic Chemistry I.

(3-0) Cr. 3. F. *Prereq:* CHEM 332

Survey of reactive intermediates including cations, anions, carbenes, and radicals.

CHEM 538. Physical Organic Chemistry II.

(3-0) Cr. 3. S. *Prereq:* CHEM 537

Molecular structure, stereochemistry, introduction to reaction mechanisms, thermodynamic and kinetic data, linear free energy relationships, isotope effects, orbital symmetry.

CHEM 550. Safety in the Chemical Laboratory.

(1-0) Cr. 1. S. *Prereq:* CHEM 332L

Introduction to laboratory safety and chemical hygiene. Use of engineering controls and personal protective equipment. Chemical storage and waste disposal practices. Handling hazardous chemicals. Radiation safety and laser safety. Offered on a satisfactory-fail basis only.

CHEM 555. Teaching College Chemistry.

(2-0) Cr. 2. Alt. S., offered even-numbered years. *Prereq:* Graduate or senior classification.

Methods of instruction, strategies and techniques for effective teaching and learning along with practice teaching in undergraduate chemistry recitation and laboratory courses. Cooperative learning, guided-inquiry, learning cycles, conceptual change, models and modeling, concept maps, visualization, computer simulations, web-based delivery systems, and learning theories.

CHEM 561. Fundamentals of Quantum Mechanics.

(4-0) Cr. 4. F. *Prereq:* CHEM 324

Schrodinger equation and exact solutions; square wells and barriers; harmonic oscillator; the hydrogen atom; atomic orbitals; operators including angular momenta; time-independent and time-dependent perturbation theory; Schrodinger and Heisenberg representations; unitary operators; interaction picture, density matrix.

CHEM 562. Fundamentals of Atomic and Molecular Quantum Mechanics.

(3-0) Cr. 3. S. *Prereq:* CHEM 561, credit or enrollment in CHEM 583

Variational method, many electron atoms; addition of angular momentum, self-consistent field method for open and closed shells, linear combinations of atomic orbitals, origin of chemical bonding, many-electron diatomic and polyatomic molecules, treatments of electron correlation, approximation methods.

CHEM 563. Statistical Mechanics.

(3-0) Cr. 3. S. *Prereq:* CHEM 325

Microscopic and macroscopic properties, laws of thermodynamics, ensembles and distribution functions, applications to gases, solids, and chemical equilibrium.

CHEM 564. Molecular Spectroscopy and Structure.

(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* CHEM 505 or CHEM 562

Maxwell's field equations, interaction of light with matter including time-dependent perturbation theory, microwave, vibrational (infra-red, Raman) and electronic spectroscopies, symmetry derived selection rules, special lineshapes and introduction to nonlinear and coherent laser spectroscopies.

CHEM 571. Solid-State Chemistry.

(2-0) Cr. 2. Alt. S., offered odd-numbered years. *Prereq:* CHEM 301, CHEM 324

Structural principles, synthetic strategies, analytical methods, and chemical bonding issues applied to solids. Atomic packings and networks, short-range vs. long-range order, defects; phase diagrams, reactive fluxes, chemical transport; diffraction, spectroscopy; energy bands and their bonding interpretations.

CHEM 572. Spectrometric Identification of Organic Compounds.

(2-3) Cr. 3. F. *Prereq:* CHEM 332

Principles of infrared, ultraviolet, nuclear magnetic resonance, and mass spectroscopy as applied to organic chemistry.

CHEM 574. Organometallic Chemistry of the Transition Metals.

(2-0) Cr. 2. Alt. S., offered even-numbered years. *Prereq:* CHEM 301, CHEM 332

Transition metal complexes of ligands such as cyclopentadienyl, olefins, acetylenes, benzenes, and carbon monoxide. Homogeneous catalysis.

CHEM 576. Surface Chemistry.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* CHEM 324

Gas-surface interactions and techniques of characterization. Idealized surface lattices, surface tension, Wulff plots, work function, adsorbate-adsorbate interactions, 2D phase diagrams, diffusion, thin film growth, adsorption and desorption mechanisms/energetics/kinetics, adsorption isotherms, vacuum techniques, electron- and ion-based spectroscopies for surface analysis (including AES, FIM, XPS, UPS, EXAFS, EELS, SIMS, LEED and STM).

CHEM 577. Mass Spectrometry.

(3-0) Cr. 3. S. *Prereq:* Permission of instructor

Basic physics, instrumentation, chemical and biological applications of mass spectrometry.

CHEM 578. Chemical Kinetics and Mechanisms.

(2-0) Cr. 2. Alt. F., offered even-numbered years. *Prereq:* CHEM 324

Rates and mechanisms; reversible, consecutive, and competing reactions; chain mechanisms; kinetic isotope effects; very rapid reactions; acid-base catalysis, theories of unimolecular reactions; transition state and Marcus theories.

CHEM 579. Introduction to Research in Chemistry.

Cr. R. F.

Introduction to the various areas of research in chemistry at Iowa State University.

CHEM 580. Introduction to Computational Quantum Chemistry.

(3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq:* CHEM 324
Basic principles of quantum mechanics, schrodinger equation. Hartree-Fock/
molecular orbital theory, introduction to group theory, introduction to modern
methods of computational chemistry; applications include molecular structure,
potential energy surfaces and their relation to chemical reactions; molecular
spectroscopy, photochemistry, solvent effects and surface chemistry.

CHEM 581. Principles of Lasers and Optics.

(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* CHEM 324, Phys 222
Students with weak background should take Chem 580. For students working
with lasers and optics; stimulated adsorption and emission based on the classical
electron oscillator model; population inversion, laser amplification; laser pumping;
oscillation and cavity modes; laser beam characterization; linear propagation;
design of laser resonators, ray and wave optics; nonlinear optics.

CHEM 583. Chemical Group Theory.

(1-0) Cr. 1. F. *Prereq:* CHEM 324
Basic concepts and theorems, representation theory; point groups, molecular
orbitals, molecular states, molecular vibrations, rotation group and angular
momenta; space groups and crystals; permutation group, antisymmetry, and spin
states.

CHEM 599. Nonthesis Research.

Cr. arr. *Prereq:* Permission of instructor concerned

Courses for graduate students:**CHEM 600. Seminar in Inorganic Chemistry.**

(1-0) Cr. 1. Repeatable, maximum of 3 times. F.S. *Prereq:* Permission of instructor

CHEM 601. Selected Topics in Inorganic Chemistry.

(2-0) Cr. 1-2. F.S. *Prereq:* Permission of instructor
Topics such as molecular structure and bonding; organometallic compounds;
physical techniques of structure determination; nonaqueous solutions; Zintl
phases; transition-metal oxides; free-radical reactions; electron transfer reactions;
metal-metal bonding; and bioinorganic chemistry of nucleic acids.

CHEM 611. Seminar in Analytical Chemistry.

(1-0) Cr. 1. Repeatable. F.S. *Prereq:* Permission of instructor

CHEM 619. Special Topics in Analytical Chemistry.

(2-0) Cr. 1-2. Repeatable. F.S. *Prereq:* Permission of instructor
Raman spectroscopy, sensors, spectroelectrochemistry, capillary electrophoresis,
analytical plasmas, chemometrics and bioanalytical chemistry.

CHEM 631. Seminar in Organic Chemistry.

(1-0) Cr. 1. Repeatable. F.S. *Prereq:* Permission of instructor

CHEM 632. Selected Topics in Organic Chemistry.

(2-0) Cr. 1-2. Repeatable. F.S. *Prereq:* CHEM 537
Topics of current interest in organic chemistry such as spectroscopy, physical
organic chemistry, photochemistry, organometallic chemistry, mechanisms of
oxidations and reductions, modern organic synthesis, reactive intermediates,
bioorganic chemistry, and polymers.

CHEM 660. Seminar in Physical Chemistry.

(1-0) Cr. 1. Repeatable. S. *Prereq:* Permission of instructor

CHEM 667. Special Topics in Physical Chemistry.

(2-0) Cr. 1-2. F.S. *Prereq:* Permission of instructor
Advanced and recent developments in physical chemistry are selected for each
offering.

CHEM 699. Research.

Cr. arr. Repeatable. *Prereq:* Permission of instructor

Classical Studies

Interdepartmental Undergraduate Program

The Classical Studies program is a cross-disciplinary program in the College of
Liberal Arts and Sciences which offers an integrated curriculum of courses in the
languages, literatures, history, and thought of ancient Greece and Rome from
prehistoric times to the reign of the Emperor Constantine. Complete and current
information about the Program may be found on-line at: <http://www.las.iastate.edu/>

Courses in Classical Studies provide background for students whose major fields
of study or career interests include Anthropology, English, World Languages and
Cultures, History, Music, Philosophy, Women's Studies, law, medicine, material
culture, political science, the life sciences and related fields. Students who wish to
pursue an interdisciplinary major in Classical Studies should consult the Program
Chair.

A student who wishes to declare a minor must successfully complete the following
requirements:

a) One of the following sets of courses in ancient language:

GREEK 101 & GREEK 102	Elementary Ancient Greek I and Elementary Ancient Greek II
or	
LATIN 101 & LATIN 102	Elementary Latin I and Elementary Latin II
or	
CL ST 201 & GREEK 101	Technical Terminologies in the Professions and Elementary Ancient Greek I
or	
CL ST 201 & LATIN 101	Technical Terminologies in the Professions and Elementary Latin I

b) One of the following courses: 3

CL ST 273	Greek and Roman Mythology
or CL ST 275	The Ancient City

c) Three additional courses (not used to meet other requirements) from those
listed below or approved by the program committee. Two of these classes (6
crs.) must be at the 300-level or above. 9

CL ST 201	Technical Terminologies in the Professions
CL ST 273	Greek and Roman Mythology
CL ST 273H	Greek and Roman Mythology: Honors
CL ST 275	The Ancient City
CL ST 275H	The Ancient City: Honors
CL ST 304	Cultural Heritage of the Ancient World
CL ST 310	Ancient Philosophy
CL ST 350	Rhetorical Traditions
CL ST 353	World Literature: Western Foundations through Renaissance
CL ST 367	Christianity in the Roman Empire
CL ST 372	Greek and Roman Tragedy and Comedy
CL ST 372H	Greek and Roman Tragedy and Comedy: Honors
CL ST 373	Heroes of Greece, Rome, and Today
CL ST 373H	Heroes of Greece, Rome, and Today: Honors
CL ST 374	Women and Men in the Ancient Mediterranean World
CL ST 376	Classical Archaeology
CL ST 376A	Classical Archeology: Bronze Age and Early Iron Age Greece
CL ST 376B	Classical Archeology: Archaic through Hellenistic Greece (ca 700-30 BCE)
CL ST 383	Greek and Roman Art
CL ST 383H	Greek and Roman Art: Honors
CL ST 394	The Archaeology of Greece: An Introduction
CL ST 395	Study Abroad: The Archaeology of Greece
CL ST 402	Greek Civilization
CL ST 403	Roman Civilization
CL ST 404	Roman Social History
CL ST 430	Foundations of Western Political Thought
CL ST 480	Seminar in Classical Studies
CL ST 490	Independent Study
CL ST 512A	Proseminar in European History, Ancient
CL ST 594A	Seminar in European History: Ancient
ART H 378	Popes and Caesars: 2000 Years of Art History in Rome
GREEK 201	Intermediate Classical Greek
GREEK 332	Introduction to Classical Greek Literature
GREEK 490	Independent Study
HIST 280	Introduction to History of Science I
LATIN 201	Intermediate Latin
LATIN 332	Introduction to Latin Literature
LATIN 490	Independent Study

Courses primarily for undergraduates:**CL ST 201. Technical Terminologies in the Professions.**

(3-0) Cr. 3. F.S.
Essential vocabulary and concepts in English that are derived from Latin and
Ancient Greek. Formation and usage of technical terminology. Cultural influence
of the classical languages. Analysis of technical writing.

CL ST 273. Greek and Roman Mythology.

(3-0) Cr. 3. F.SS.

Survey of the legends, myths of the classical world with emphasis on the principal gods, and heroes, and their relation to ancient social, psychological, and religious practices; some attention may be given to important modern theories.

Meets International Perspectives Requirement.

CL ST 273H. Greek and Roman Mythology: Honors.

(4-0) Cr. 4. F.SS.

Survey of the legends, myths of the classical world with emphasis on the principal gods, and heroes, and their relation to ancient social, psychological, and religious practices; some attention may be given to important modern theories.

Meets International Perspectives Requirement.

CL ST 275. The Ancient City.

(3-0) Cr. 3. F.S.

Examination of ancient urban life, including historical context, physical space, material culture, religion, literature, and art; examination of civic identity (the "polis"). Contrast between the concepts of urban and rural. Examples drawn from specific ancient cities; some attention to modern methods of recovering the conditions of ancient urban life and the fundamental concept of the city in European history.

Meets International Perspectives Requirement.

CL ST 275H. The Ancient City: Honors.

(4-0) Cr. 4. F.S.

Examination of ancient urban life, including historical context, physical space, material culture, religion, literature, and art; examination of civic identity (the "polis"). Contrast between the concepts of urban and rural. Examples drawn from specific ancient cities; some attention to modern methods of recovering the conditions of ancient urban life and the fundamental concept of the city in European history.

Meets International Perspectives Requirement.

CL ST 304. Cultural Heritage of the Ancient World.(Cross-listed with HIST). (3-0) Cr. 3. *Prereq: Sophomore classification*

Historical examination of art, literature, thought, and religious beliefs of major civilizations of the ancient Mediterranean countries until the end of the 8th century.

CL ST 310. Ancient Philosophy.(Cross-listed with PHIL). (3-0) Cr. 3. F. *Prereq: PHIL 201*

Survey of ancient Greek philosophy, focusing on the pre-Socratics, Plato, and Aristotle. Questions concerning being, knowledge, language, and the good life are treated in depth.

CL ST 350. Rhetorical Traditions.(Cross-listed with ENGL, SP CM). (3-0) Cr. 3. S. *Prereq: ENGL 250*

Ideas about the relationship between rhetoric and society in contemporary and historical contexts. An exploration of classical and contemporary rhetorical theories in relation to selected topics that may include politics, gender, race, ethics, education, science, or technology.

CL ST 353. World Literature: Western Foundations through Renaissance.(Cross-listed with ENGL). (3-0) Cr. 3. F.S. *Prereq: ENGL 250*

Representative works from the drama, epics, poetry, and prose of the Ancient World through the late sixteenth century. May include Homer, Aeschylus, Sappho, Catullus, Dante, Marie de France, Boccaccio, Christine de Pizan, Cervantes, and others.

Meets International Perspectives Requirement.

CL ST 367. Christianity in the Roman Empire.

(Cross-listed with RELIG). (3-0) Cr. 3.

An historical introduction to the rise of Christianity in the Roman empire, with special attention to the impact of Greco-Roman culture on the thought and practice of Christians and the interaction of early Christians with their contemporaries.

CL ST 372. Greek and Roman Tragedy and Comedy.(3-0) Cr. 3. S. *Prereq: CL ST 273 or CL ST 275 or one course in Latin or Greek or ENGL 250*

Greek and Roman drama from the beginnings until today. Readings in English from authors such as Aeschylus, Sophocles, Euripides, Aristophanes, Menander, Plautus, Terence, Seneca. Course may cover performance, theories of comedy and tragedy, recent and current expressions of the comic and tragic in film and other media.

Meets International Perspectives Requirement.

CL ST 372H. Greek and Roman Tragedy and Comedy: Honors.(4-0) Cr. 4. S. *Prereq: CL ST 273 or CL ST 275 or one course in Latin or Greek or ENGL 250*

Greek and Roman drama from the beginnings until today. Readings in English from authors such as Aeschylus, Sophocles, Euripides, Aristophanes, Menander, Plautus, Terence, Seneca. Course may cover performance, theories of comedy and tragedy, recent and current expressions of the comic and tragic in film and other media.

Meets International Perspectives Requirement.

CL ST 373. Heroes of Greece, Rome, and Today.(3-0) Cr. 3. F. *Prereq: CL ST 273 or CL ST 275 or one course in Latin or Greek or ENGL 250.*

Cultural and political significance of ancient epic, especially in Greece and Rome. Course may include study of the heroic code in antiquity and its modern expressions including in film. Readings in English from authors such as Homer and Vergil.

Meets International Perspectives Requirement.

CL ST 373H. Heroes of Greece, Rome, and Today: Honors.(4-0) Cr. 4. F. *Prereq: CL ST 273 or CL ST 275 or one course in Latin or Greek or ENGL 250.*

Cultural and political significance of ancient epic, especially in Greece and Rome. Course may include study of the heroic code in antiquity and its modern expressions including in film. Readings in English from authors such as Homer and Vergil.

Meets International Perspectives Requirement.

CL ST 374. Women and Men in the Ancient Mediterranean World.(Cross-listed with HIST, W S). (3-0) Cr. 3. S. *Prereq: Any one course in Cl St, W S, Latin, or Greek*

Chronological and topical survey of the status of women and men, focusing on sex/gender issues in the Ancient Mediterranean world; study of constructs of the female and the feminine. Readings from ancient and modern sources. Emphasis on ancient Near East, Egypt, Greece, and Rome.

Meets International Perspectives Requirement.

CL ST 376. Classical Archaeology.

(Cross-listed with ANTHR, RELIG). (3-0) Cr. 3. S.

Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.

Meets International Perspectives Requirement.

CL ST 376A. Classical Archeology: Bronze Age and Early Iron Age Greece.

(Cross-listed with ANTHR, RELIG). (3-0) Cr. 3. S.

Bronze Age (Minoan and Mycenaean palatial cultures) and Early Iron Age Greece. (ca 3000-700 BCE). Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.

Meets International Perspectives Requirement.

CL ST 376B. Classical Archeology: Archaic through Hellenistic Greece (ca 700-30 BCE).

(Cross-listed with ANTHR, RELIG). (3-0) Cr. 3. S.

Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.

Meets International Perspectives Requirement.

CL ST 376C. Roman Archaeology (ca 1000 BCE-400 CE).

(3-0) Cr. 3. S.

Chronological survey of the material culture of the ancient Roman world and the role of archaeological context in understanding the varied aspects of ancient Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored. Meets International Perspectives Reqmt

CL ST 383. Greek and Roman Art.

(Dual-listed with CL ST 583). (Cross-listed with ART H, DSN S). (3-0) Cr. 3.

Prereq: ART H 583: Graduate classification or permission of instructor.

Greek art from Neolithic to Hellenistic periods. Roman art from the traditional founding to the end of the empire in the West.

CL ST 383H. Greek and Roman Art: Honors.

(Cross-listed with ART H, DSN S). (3-0) Cr. 3-4.

Greek art from Neolithic to Hellenistic periods. Roman art from the traditional founding to the end of the empire in the West.

CL ST 394. The Archaeology of Greece: An Introduction.

(2-0) Cr. 2. Repeatable, maximum of 4 credits. S.
Introduction to the topography, history, archaeology, monuments and art of Greece from the Bronze Age through the Ottoman period; attention given to the culture of modern Greece, preparatory to study abroad in Greece (Cl St 395). Meets International Perspectives Requirement.

CL ST 395. Study Abroad: The Archaeology of Greece.

Cr. 2-6. Repeatable, maximum of 9 credits. SS. *Prereq:* CL ST 394
Supervised on-site instruction in the archaeology, monuments, and art of Greece from the Bronze Age through the Ottoman period; attention given to the culture of modern Greece.
Meets International Perspectives Requirement.

CL ST 402. Greek Civilization.

(Cross-listed with HIST). (3-0) Cr. 3. *Prereq:* *Sophomore classification*
Ancient Greece from the Bronze Age to the Hellenistic period; evolution of the Greek polis and its cultural contributions, with a particular emphasis on the writings of Herodotus and Thucydides.

CL ST 403. Roman Civilization.

(Cross-listed with HIST). (3-0) Cr. 3. *Prereq:* *Sophomore classification*
Ancient Rome from the Regal Period to the fall of the Western Empire; evolution of Roman institutions and Rome's cultural contributions studied through original sources.

CL ST 404. Roman Social History.

(Cross-listed with HIST). (3-0) Cr. 3. *Prereq:* *Sophomore classification*
Examines major topics in Roman social history during the late Republic and early Empire, such as class, family, slavery, religion, and the economy.

CL ST 430. Foundations of Western Political Thought.

(Cross-listed with POL S). (3-0) Cr. 3. *Prereq:* *6 credits in political science, philosophy, or European history*
Study of original texts in political thought ranging from the classical period to the renaissance. Topics such as justice, freedom, virtue, the allocation of political power, the meaning of democracy, human nature, and natural law.

CL ST 480. Seminar in Classical Studies.

(3-0) Cr. 3. Repeatable, maximum of 9 credits. *Prereq:* *30 credits in Classical Studies or related courses, permission of Program Chair*
Advanced study of a selected topic in Classical Studies. Research paper or project selected by the student.

CL ST 490. Independent Study.

Cr. 1-6. Repeatable, maximum of 9 credits. *Prereq:* *7 credits in classical studies at the 200 level or higher; permission of the Program Chair*
Designed to meet the needs of students who wish to study specific topics in classical civilization in areas where courses are not offered, or to pursue such study beyond the limits of existing courses.

Courses primarily for graduate students, open to qualified undergraduates:**CL ST 512. Proseminar in European History.**

(3-0) Cr. 3. *Prereq:* *Permission of instructor.*
Readings in European history.

CL ST 512A. Proseminar in European History, Ancient.

(Cross-listed with HIST). (3-0) Cr. 3. Repeatable. *Prereq:* *Permission of instructor*
Readings in European history.

CL ST 583. Greek and Roman Art.

(Dual-listed with CL ST 383). (Cross-listed with ART H, DSN S). (3-0) Cr. 3.
Prereq: *Graduate classification and permission of instructor*
Greek art from Neolithic and Hellenistic periods. Roman art from the traditional founding to the end of the empire in the West.

CL ST 594. Seminar in European History.

(3-0) Cr. 3. Repeatable. *Prereq:* *Permission of instructor*
Topics vary each time offered.

CL ST 594A. Seminar in European History: Ancient.

(Cross-listed with HIST). (3-0) Cr. 3. Repeatable. *Prereq:* *Permission of instructor*
Topics vary each time offered.

Communication Disorders

Administered by the Department of Psychology.

Courses primarily for undergraduates:**CMDIS 170. Speech Improvement for Nonnative Speakers.**

(2-0) Cr. 2.
For nonnative speakers of English only. Development of effective English vowel and consonant productions, accommodation processes that occur in context, intelligibility in conversational English, and appropriate stress patterns. Offered on a satisfactory-fail basis only.

CMDIS 275. Introduction to Communication Disorders.

(Cross-listed with LING). (3-0) Cr. 3.
Survey of nature, causes, and types of major communication disorders including phonological, adult and child language, voice, cleft palate, fluency, and hearing disorders.

CMDIS 286. Communicating with the Deaf.

(Cross-listed with LING). (3-0) Cr. 3.
Learn to communicate with the deaf using Signed English and Signed Pidgin English. Other topics covered include types, causes, and consequences of hearing loss, hearing technology (hearing aids, assistive listening devices, and cochlear implants), education of hearing-impaired children, Deaf culture, and the history of manual communication.
Meets U.S. Diversity Requirement

CMDIS 371. Phonetics and Phonology.

(Cross-listed with LING). (3-0) Cr. 3. *Prereq:* *ENGL 219*
Analysis of speech through study of individual sounds, their variations, and relationships in context; English phonology; practice in auditory discrimination and transcription of sounds of American English; description of speech sounds in terms of their production, transmission, and perception.

CMDIS 471. Language Development.

(Cross-listed with LING). (3-0) Cr. 3. *Prereq:* *CMDIS 275 or PSYCH 230 or ENGL 219 or LING 219*
Theories and developmental processes related to the components of language (semantics, syntax, morphology, phonology, and pragmatics); the development of metalinguistic knowledge; theories and developmental processes of reading.

Communication Studies

The Communication Studies Major

www.commstudies.las.iastate.edu

The Communication Studies Program focuses on human communication, exploring the ways humans create and negotiate meaning. Communication Studies majors master a focused course of inquiry into interpersonal processes as they create and sustain relationships and impact individuals, groups, and organizations. The Communication Studies curriculum builds primarily on social science traditions in developing a liberal arts education emphasizing human communication. Students in the Communication Studies major study applied communication theory and research in interpersonal, small group, organizational, intercultural, and other contexts.

The Communication Studies (ComSt) major teaches students how to think critically, giving them the ability to examine complex communication issues, and develop and implement strategies grounded in evidence-based research. This prepares students for careers in business and industry and graduate education. Students majoring in ComSt will find their career opportunities enhanced in professions requiring applied communication expertise, e.g., human resource management, public relations, training and development, sales management, recruitment, event planning, sales, management, organizational development, business communication, law, and international and intercultural relations.

ComSt majors must earn at least 120 credits, with 45 credits at the 300-400 levels, and a minimum of 33 credits in ComSt.

Communication Proficiency Requirement

To meet the University's Communication Proficiency requirement students are required to take:

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
or ENGL 250H	Written, Oral, Visual, and Electronic Composition: Honors	
Plus one of the following:		3
ENGL 302	Business Communication	
ENGL 309	Report and Proposal Writing	
ENGL 314	Technical Communication	
ENGL 415	Business and Technical Editing	

An average of C- is required in ENGL 150 Critical Thinking and Communication, ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition, Honors), and this additional writing course.

The Communication Studies Major

Core Requirements (15 credits)

COMST 101	Introduction to Communication Studies	3
COMST 102	Introduction to Interpersonal Communication	3
COMST 203	Introduction to Communication Research Methods	3
COMST 301	Human Communication Theory	3
Plus one of the following:		3
COMST 214	Professional Communication	
COMST 218	Conflict Management	
Total Credits		15

Upper Division Requirements (15 credits). Select five courses from the following

COMST 310	Intercultural Communication	3
COMST 311	Studies in Interpersonal Communication	3
COMST 313	Leadership Communication Theories	3
COMST 314	Organizational Communication	3
COMST 317	Small Group Communication	3
COMST 319	Communication Training and Development	3
COMST 325	Nonverbal Communication	3
COMST 330	Computer Mediated Communication	3
Total Credits		15

Capstone Course Requirement (3 credits)

COMST 404	Research Seminar	3
-----------	------------------	---

Credits in COMST 384 Applied Organizational Communication, may not be applied toward the upper division requirements.

In accordance with college requirements, an overall average in Communication Studies courses of C (2.0) or better is required.

Enhancement Requirement (4 credits)

COM S 103	Computer Applications	4
-----------	-----------------------	---

Additional Recommended Courses

STAT 101	Principles of Statistics	4
COMST 450	Special Topics in Communication Studies	3

The Communication Studies Minor (18 credits)

The requirements for a minor in ComSt may be fulfilled by credit in:

COMST 101	Introduction to Communication Studies	3
COMST 102	Introduction to Interpersonal Communication	3
COMST 203	Introduction to Communication Research Methods	3
COMST 301	Human Communication Theory	3
Plus six credits in 300-level ComSt courses.		6
Credits in COMST 384 Applied Organizational Communication, may not be applied toward the minor. Students must earn an overall average of C (2.0) or better in all courses taken for the minor.		
Total Credits		18

Courses primarily for undergraduates:

COMST 101. Introduction to Communication Studies.

(3-0) Cr. 3.

An introduction to communication theory, the development and functions of communication, and a survey of interpersonal, small group, organizational, and intercultural communication.

COMST 101L. Introduction to Communication Studies: Laboratory.

(0-1) Cr. 0.5. *Prereq:* Concurrent enrollment in COMST 101.

Laboratory component of COMST 101. Skill building, experiential activities, and in-depth discussions relevant to the study of communication.

COMST 102. Introduction to Interpersonal Communication.

(3-0) Cr. 3.

Application of communication principles, theory, and research to the process of interpersonal communication; includes verbal and nonverbal communication, listening, and conflict management. Particular emphasis given to using communication to manage interpersonal relationships.

COMST 203. Introduction to Communication Research Methods.

(3-0) Cr. 3.

An introduction to analyzing and conducting communication research. Provides an overview of quantitative and qualitative approaches to communication research.

COMST 214. Professional Communication.

(3-0) Cr. 3.

Communication theory and skill development in organizational settings. Emphasis on interpersonal skill development, team and meeting facilitation, informational interviewing, individual and team presentations, and self-assessment.

COMST 218. Conflict Management.

(3-0) Cr. 3.

Exploration of communication theories, principles and methods associated with effective conflict management.

COMST 301. Human Communication Theory.

(3-0) Cr. 3. *Prereq:* COMST 101

Examination of the major theories related to human communication; with particular emphasis on theories underlying interpersonal, small group, organizational, and intercultural communication.

COMST 310. Intercultural Communication.

(3-0) Cr. 3. *Prereq:* COMST 101, COMST 102, COMST 203, COMST 301

Examines the theories, principles and research on intercultural communication to enhance cultural sensitivity and to recognize, accept, and adapt to cultural diversity. Interactive assignments.

Meets International Perspectives Requirement.

COMST 311. Studies in Interpersonal Communication.

(3-0) Cr. 3. *Prereq:* COMST 101, COMST 102, COMST 203, COMST 301

This class focuses on studies of contemporary interpersonal communication concepts and theories. Emphasis on research that examines issues central to communication in interpersonal relationships.

COMST 313. Leadership Communication Theories.

(3-0) Cr. 3. F.S. *Prereq:* COMST 101, COMST 102, COMST 203, COMST 301

Investigation of theories, research and principles of leadership communication. Exploration of the contexts in which leadership and communication occurs, with emphasis on the connection between communication and leadership and the dyadic linkage of leader and follower.

COMST 314. Organizational Communication.

(3-0) Cr. 3. *Prereq:* COMST 101, COMST 102, COMST 203, COMST 301

Theory and research in organizational communication; strategies for assessing and improving individual and organizational communication effectiveness; an understanding of how organizational meaning is created and sustained through human communication.

COMST 317. Small Group Communication.

(3-0) Cr. 3. *Prereq:* COMST 101, COMST 102, COMST 203, COMST 301

Theory and research in small group communication; application to group decision-making and leadership. Includes communication analyses of groups and teams.

COMST 319. Communication Training and Development.

(3-0) Cr. 3. *Prereq:* COMST 101, COMST 102, COMST 203, COMST 301

Theories and approaches to communication training and development; includes adult learning theory. Emphasis on the design, presentation and assessment of communication skills in organizational contexts.

COMST 325. Nonverbal Communication.

(3-0) Cr. 3. *Prereq:* COMST 101, COMST 102, COMST 203, COMST 301

Approaches to studying nonverbal communication. Foci include topics such as facial affect, gestures, gaze, use of space, and parsing intention in social interaction.

COMST 330. Computer Mediated Communication.

(3-0) Cr. 3. *Prereq:* COMST 101, COMST 102, COMST 203, COMST 301

Theories and approaches related to mediated communication in interpersonal and organizational settings. Focus on how new technology impacts human interaction and relationships.

COMST 384. Applied Organizational Communication.

(3-0) Cr. 3. *Prereq: COMST 101, COMST 102 or equivalent course.*
Theory and research of micro-level organizational communication, including interpersonal and small group interactions taking place in a professional setting. Topics include interpersonal dynamics in such areas as conflict, generational communication, negotiation, superior/subordinate communication, external communication, and virtual communication. Not available for major credit.

COMST 404. Research Seminar.

(Dual-listed with COMST 504). (3-0) Cr. 3. Repeatable, maximum of 9 credits.
Prereq: COMST 301 plus 3 additional communication studies classes from the following list: COMST 310, COMST 311, COMST 313, COMST 314, COMST 317, COMST 319, COMST 325, or COMST 330.
Capstone communication studies course. Students develop an original research study linked to the study of communication. Data are collected and analyzed. Results are presented in a final research paper and a presentation.

COMST 450. Special Topics in Communication Studies.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S.
Research and theory related to special topics and issues in communication studies.

COMST 490. Independent Study.

Cr. 1-3. Repeatable, maximum of 6 credits. *Prereq: 9 credits in communication studies and junior classification*
Application must be submitted for approval the semester prior to the independent study.

COMST 491. Research Practicum.

Cr. arr. Repeatable, maximum of 6 credits. F.S.SS. *Prereq: COMST 203, COMST 301 plus permission of instructor.*
Providing research assistance on projects conducted by Communication Studies faculty.

COMST 497. Professional Internship.

Cr. 1-3. Repeatable, maximum of 6 credits. *Prereq: 12 hours in Communication Studies including COMST 203, COMST 301, and one other 300-level COMST class. Junior Classification. Application required.*
100 hours of on-site professional work per credit hour plus completion of the academic requirement set by the internship committee. Application should be submitted in the term prior to the term in which the internship will be served. Internship cannot be used to meet degree requirement in Communication Studies.

Courses primarily for graduate students, open to qualified undergraduates:**COMST 504. Research Seminar.**

(Dual-listed with COMST 404). (3-0) Cr. 3. Repeatable, maximum of 9 credits.
Prereq: COMST 301 plus 3 additional communication studies classes from the following list: COMST 310, COMST 311, COMST 313, COMST 314, COMST 317, COMST 319, COMST 325, or COMST 330.
Capstone communication studies course. Students develop an original research study linked to the study of communication. Data are collected and analyzed. Results are presented in a final research paper and a presentation.

COMST 590. Special Topics.

Cr. 1-4. Repeatable.
Application must be submitted for approval the semester prior to the independent study.

Computer Science

Undergraduate Study

The department offers curricula leading to the baccalaureate degree in computer science, a minor in computer science, and participates in curricula leading to the baccalaureate degree in software engineering.

Major in Computer Science

The curriculum leading to the baccalaureate degree in computer science is designed to prepare students for positions as computer scientists with business, industry, or government, or for graduate study in computer science. The main educational objectives of the computer science program at Iowa State University are that its graduates demonstrate expertise, engagement, and learning within three to five years after graduation.

- **Expertise:** Graduated students should have the ability to establish peer-recognized expertise in the discipline. They should have the ability to articulate this expertise by formulating and solving problems of interest, by creating or deriving value through the application of technology, and by using mathematical foundations, algorithmic principles, and computer science theory in designing, implementing, and evaluating computer-based systems and processes which meet the desired needs of their employers.

- **Engagement:** Graduated students should have the ability to be engaged in the profession through the practice of computer science in industry, academia, or the public sector. They should demonstrate effective teaming and commitment to working with others by applying communications skills and professional knowledge.

- **Learning:** Graduated students should have the ability to engage in sustained learning through graduate work, professional improvement opportunities, and self study so that they can adapt to the role played by information processing in ever-changing areas of science, technology, and society.

Graduate Study

The department offers work for the degrees of Master of Science and Doctor of Philosophy with a major in Computer Science. The Doctor of Philosophy degree may also be earned with computer science as a co-major with some other discipline. Additionally, the department offers a minor to students majoring in other disciplines.

Established research areas include algorithms, artificial intelligence, computational complexity, computer architecture, bioinformatics, computational biology, computer networks, database systems, formal methods, information assurance, machine learning and neural networks, multimedia, operating systems, parallel and distributed computing, programming languages, robotics, and software engineering. There are also numerous opportunities for interdisciplinary research.

Typically, students beginning graduate work in Computer Science have completed a bachelor's degree or equivalent in Computer Science. However, some students with undergraduate majors in other areas, such as Mathematical, physical, or biological science or engineering become successful graduate students in Computer Science.

For the degree Master of Science, a minimum of 31 semester credits is required. A thesis demonstrating research and the ability to organize and express significant ideas in computer science is required.

The purpose of the doctoral program is to train students to do original research in Computer Science. Each student is also required to attain knowledge and proficiency commensurate with a leadership role in the field. The Ph.D. requirements are governed by the student's program of study committee within established guidelines of the department and the graduate college. They include coursework, demonstrated proficiency in four areas of Computer Science, a research skills requirement, a preliminary examination, and a doctoral dissertation and final oral examination. The department recommends that all graduate students majoring in Computer Science teach as part of their training for an advanced degree.

Curriculum in Computer Science

Students wishing to pursue the B.S. degree in computer science must first successfully complete the pre-major program consisting of Com S 227, Com S 228, and Math 165; all with a grade of C- or above.

A student seeking a B.S. degree in computer science must satisfy the requirements of the University and College of Liberal Arts and Sciences (see Liberal Arts and Sciences, Curriculum) and the departmental requirements.

The departmental requirements consist of a minimum of 44 credits in computer science and satisfaction of written and oral requirements. Students must earn at least a C- in each course taken to fulfill the Degree Program.

The following courses are required:

COM S 101	Orientation	R
COM S 203	Careers in Computer Science	R
CPR E 281	Digital Logic	4
COM S 227	Introduction to Object-oriented Programming	4
COM S 228	Introduction to Data Structures	3
COM S 229	Advanced Programming Techniques	3
COM S 309	Software Development Practices	3
COM S 311	Design and Analysis of Algorithms	3
COM S 321	Introduction to Computer Architecture and Machine-Level Programming	3
COM S 330	Discrete Computational Structures	3
COM S 331	Theory of Computing	3
COM S 342	Principles of Programming Languages	3
COM S 352	Introduction to Operating Systems	3
COM S 362	Object-Oriented Analysis and Design	3

or COM S 363	Introduction to Database Management Systems	
Total Credits		38

In addition, students are required to take two 400-level courses from following groups - one from Group B and one from Group B, W, or N:

Group B (courses in this group require oral as well as written reports):

COM S 401	Projects in Computing Applications	3
S E 416	Software Evolution and Maintenance	3
(Or CPR E 416)		
CPR E 416	Software Evolution and Maintenance ((Or S E 416))	3
(Or S E 416)		
COM S 417	Software Testing	3
COM S 425	High Performance Computing for Scientific and Engineering Applications	3
COM S 430	Advanced Programming Tools	3
COM S 437	Computer Game and Media Programming	3
COM S 455	Simulation: Algorithms and Implementation	3
COM S 461	Principles and Internals of Database Systems	3
COM S 472	Principles of Artificial Intelligence	3
COM S 474	Elements of Neural Computation	3

Group W (courses in this group require written reports):

COM S 418	Introduction to Computational Geometry	3
MATH 421	Logic for Mathematics and Computer Science	3
MATH 481	Numerical Methods for Differential Equations	3
CPR E 431	Basics of Information System Security	3
CPR E 458	Real Time Systems	3
CPR E 489	Computer Networking and Data Communications	4

Group N:

COM S 418	Introduction to Computational Geometry	3
MATH 421	Logic for Mathematics and Computer Science	3
MATH 481	Numerical Methods for Differential Equations	3
CPR E 431	Basics of Information System Security	3
CPR E 458	Real Time Systems	3
CPR E 489	Computer Networking and Data Communications	4

Toward satisfying requirements of the College of Liberal Arts and Sciences, the following courses should be included:

PHIL 343	Philosophy of Technology	3
SP CM 212	Fundamentals of Public Speaking	3
14 credits of Math and Statistics		14
MATH 165	Calculus I	4
MATH 166	Calculus II	4

One Statistics course from:

STAT 105	Introduction to Statistics for Engineers	3
STAT 231	Probability and Statistical Inference for Engineers	4
STAT 305	Engineering Statistics	3
STAT 330	Probability and Statistics for Computer Science	3
STAT 341	Introduction to the Theory of Probability and Statistics I	3

At least one Math course from:

MATH 265	Calculus III	4
MATH 266	Elementary Differential Equations	3
MATH 304	Combinatorics	3
MATH 314	Graphs Theory	3
MATH 317	Theory of Linear Algebra	4

13 credits of Natural Science: 13

This should include at least one of the following 2-course sequences and their labs:

BIOL 211 & 211L	Principles of Biology I and Principles of Biology Laboratory I	4
BIOL 212 & 212L	Principles of Biology II and Principles of Biology Laboratory II	4
CHEM 177 & 177L	General Chemistry I and Laboratory in General Chemistry I	5

CHEM 178 & 178L	General Chemistry II and Laboratory in College Chemistry II	4
-----------------	---	---

PHYS 221	Introduction to Classical Physics I	5
PHYS 222	Introduction to Classical Physics II	5

In addition, courses from the following list can be taken to bring the natural science credits to a minimum of 13:

ANTHR 202	Introduction to Biological Anthropology and Archaeology	3
ANTHR 307	Biological Anthropology	3
BBMB 221	Structure and Reactions in Biochemical Processes	3
BIOL 204	Biodiversity	2
BIOL 258	Human Reproduction	3
BIOL 312	Ecology	4
BIOL 355	Plants and People	3
CHEM 163	College Chemistry *	4
ENT 370	Insect Biology	3
ENV S 324	Energy and the Environment	3
FS HN 167	Introduction to Human Nutrition	3
GEN 313	Principles of Genetics	3
GEN 313L	Genetics Laboratory	1
GEN 320	Genetics, Agriculture and Biotechnology	3
GEOL 100	The Earth **	3
GEOL 101	Environmental Geology: Earth in Crisis	3
GEOL 102	History of the Earth	3
GEOL 105	Gems and Gemstones	1
GEOL 108	Introduction to Oceanography	3
GEOL 201	Geology for Engineers and Environmental Scientists	3
GEOL 451	Applied and Environmental Geophysics	3
MAT E 215 & 215L	Introduction to Materials Science and Engineering I and Introduction to Materials Science and Engineering I - Lab	4
MTEOR 206	Introduction to Weather and Climate	3
MTEOR 301	General Meteorology	4
PSYCH 310	Brain and Behavior	3
PHYS 221 or HIGHER		

Footnotes

* CHEM 163-231

** GEOL 100-108

The following courses meet the communication proficiency requirement:

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
One of the following		

ENGL 302	Business Communication	3
ENGL 305	Creative Writing: Nonfiction	3
ENGL 309	Report and Proposal Writing	3
ENGL 314	Technical Communication	3

The minimum grade accepted in each of the three required English courses is a C-.

Students transferring from other institutions must take at least 45 credits at the 300 level or higher at Iowa State University while resident here; of these at least 15 credits should be in our department.

Students must earn a C- or better in each course in the department which is a prerequisite to a course listed in the student's degree program.

Undergraduate Minor in Computer Science

The Department of Computer Science offers an undergraduate minor in Computer Science. The minor requires at least 19 credits in computer science courses.

COM S 227	Introduction to Object-oriented Programming	4
COM S 228	Introduction to Data Structures	3
COM S 229	Advanced Programming Techniques	3
9 credits in courses 300 level or above		9

Undergraduate Curriculum in Software Engineering

The Department of Computer Science together with the Department of Electrical and Computer Engineering also offer a curriculum leading to an undergraduate

degree in software engineering. The software engineering curriculum offers emphasis areas in software engineering principles, process, and practice. Students may also take elective courses in computer engineering and computer science.

See Index, Software Engineering. For curriculum information, see also College of Engineering and College of Liberal Arts and Sciences.

Courses primarily for undergraduates:

COM S 101. Orientation.

Cr. R. F.S.

Introduction to the procedures and policies of Iowa State University and the Department of Computer Science, test-outs, honorary societies, etc. Issues relevant to student adjustment to college life will also be discussed. Offered on a satisfactory-fail basis only.

COM S 103. Computer Applications.

Cr. 4. F.S.SS.

Introduction to computer literacy and applications. Applications: Windows, Internet browser/HTML, word processing, spreadsheets, database management and presentation software. Literacy: history of computing, structure of computers, telecommunications, computer ethics, computer crime, and history of programming languages. No prior computer experience necessary. Course is offered online only. Students must attend an orientation session the first week of class.

COM S 104. Introduction to Computers.

(1.5-1) Cr. 2. F.S.

Offered first 8 weeks and last 8 weeks. Use of personal computer and workstation operating systems and beginning programming. Project-oriented approach to computer operation and programming, including use of tools to aid in programming. Topics from computer history, using basic Windows and Unix tools, program structure, expression, variables, decision and logic, and iteration. No prior computer experience necessary.

COM S 107. Applied Computer Programming.

(3-0) Cr. 3. F.S.

Introduction to computer programming for non-majors using a language such as the Visual Basic language. Basics of good programming and algorithm development. Graphical user interfaces.

COM S 108. Applied Computer Programming II.

(3-0) Cr. 3. F.S. *Prereq: Com S 107 or equivalent*

Advanced programming applications in Visual Basic for non-majors. Emphasis on programming projects including sorting, file processing, database processing, web programming, and graphics and animation. Students will learn problem solving techniques and advanced programming skills to build real-world applications.

COM S 201. Computer Programming in COBOL.

(3-0) Cr. 3. SS.

Computer programming in COBOL. Emphasis on the design, writing, debugging, and testing of business applications programs in a transaction-oriented environment.

COM S 203. Careers in Computer Science.

Cr. R. F.S.

Computer science as a profession. Introduction to career fields open to computer science majors. Relationship of coursework to careers. Presentations by computer science professionals. Offered on a satisfactory-fail basis only.

COM S 207. Fundamentals of Computer Programming.

(Cross-listed with MIS). (3-1) Cr. 3. F.S. *Prereq: MATH 150 or placement into MATH 140/MATH 141/MATH 142 or higher*

An introduction to computer programming using an object-oriented programming language. Emphasis on the basics of good programming techniques and style. Extensive practice in designing, implementing, and debugging small programs. Use of abstract data types. Interactive and file I/O. Exceptions/error-handling. This course is not designed for computer science, software engineering, and computer engineering majors. Credit may not be applied toward graduation for both Com S 207/MIS 207 and Com S 227.

COM S 208. Intermediate Computer Programming.

(3-1) Cr. 3. S. *Prereq: MIS/COM S 207, credit or enrollment in MATH 151, MATH 160, or MATH 165*

Intermediate-level programming techniques. Emphasis on designing, writing, testing, debugging, and documenting medium-sized programs. Data structures and their uses. Dynamic memory usage. Inheritance and polymorphism. Algorithm design and efficiency: recursion, searching, and sorting. Event-driven and GUI programming. The software development process. This course is not designed for computer science, software engineering and computer engineering majors. Credit may not be applied toward the major in computer science, software engineering, or computer engineering.

COM S 227. Introduction to Object-oriented Programming.

(3-2) Cr. 4. F.S.

An introduction to object-oriented design and programming techniques. Symbolic and numerical computation. Recursion and iteration. Modularity procedural and data abstraction, specifications and subtyping. Object-oriented techniques. Imperative programming. Emphasis on principles of programming and object-oriented design through extensive practice in design, writing, running, debugging, and reasoning about programs. This course is designed for majors. Credit may not be applied toward graduation for both Com S 207 and 227.

COM S 228. Introduction to Data Structures.

(3-1) Cr. 3. F.S. *Prereq: Minimum of C- in 227, credit or enrollment in MATH 165*

An object-oriented approach to data structures and algorithms. Object-oriented analysis, design, and programming, with emphasis on data abstraction, inheritance and subtype polymorphism. Abstract data type specification and correctness. Collections and associated algorithms, such as stacks, queues, lists, trees. Searching and sorting algorithms. Graphs. Data on secondary storage. Analysis of algorithms. Emphasis on object-oriented design, writing and documenting medium-sized programs. This course is designed for majors.

COM S 229. Advanced Programming Techniques.

(3-0) Cr. 3. F.S. *Prereq: COM S 228, credit or enrollment in MATH 166*

Object-oriented programming experience using a language suitable for exploring advanced topics in programming. Topics include memory management, parameter passing, inheritance, compiling, debugging, and maintaining programs. Significant programming projects.

COM S 252. Linux Operating System Essentials.

(3-0) Cr. 3. F. *Prereq: COM S 107 or COM S 207 or COM S 227*

Introduction to installation, utilization, and administration of Linux systems. Topics include open-source software, package installation and management, shell programming and command-line utilities, process and service management, account management, network configuration, file sharing, interoperation with other computers and operating systems, automation, and system security.

COM S 290. Independent Study.

Cr. arr. F.S. *Prereq: Permission of instructor*

Offered on a satisfactory-fail basis only.

COM S 290H. Independent Study: Honors.

Cr. arr. F.S. *Prereq: Permission of instructor*

Offered on a satisfactory-fail basis only.

COM S 309. Software Development Practices.

(3-1) Cr. 3. F.S. *Prereq: Minimum of C- in COM S 228*

A practical introduction to methods for managing software development. Process models, requirements analysis, structured and object-oriented design, coding, testing, maintenance, cost and schedule estimation, metrics. Programming projects.

COM S 311. Design and Analysis of Algorithms.

(3-1) Cr. 3. F.S. *Prereq: Minimum of C- in COM S 228; MATH 166, ENGL 250, and COM S 330 or CPR E 310*

Basic techniques for design and analysis of efficient algorithms. Sorting, searching, graph algorithms, computational geometry, string processing and NP-completeness. Design techniques such as dynamic programming and the greedy method. Asymptotic, worst-case, average-case and amortized analyses. Data structures including heaps, hash tables, binary search trees and red-black trees. Programming projects.

COM S 319. Software Construction and User Interfaces.

(Cross-listed with S E). (3-0) Cr. 3. F. *Prereq: COM S 228*

Basic theory of grammars, parsing. Language paradigms. State transition and table-based software design. Review of principles of object orientation, object oriented analysis using UML. Frameworks and APIs. User interface architecture, evaluation of user interface. Design of windows, menus, and commands. Introduction to formal specification and model-based software design. Introduction to domain-specific software engineering.

COM S 321. Introduction to Computer Architecture and Machine-Level Programming.

(3-1) Cr. 3. F.S. *Prereq: Minimum of C- in COM S 228, CPR E 281 and ENGL 250*

Introduction to computer architecture and organization. Emphasis on evaluation of performance, instruction set architecture, datapath and control, memory-hierarchy design, and pipelining. Assembly language on a simulator.

COM S 330. Discrete Computational Structures.

(3-1) Cr. 3. F.S. *Prereq: Minimum of C- in COM S 228 and MATH 166; ENGL 250*

Concepts in discrete mathematics as applied to computer science. Logic, proof techniques, set theory, relations, graphs, combinatorics, discrete probability and number theory.

COM S 331. Theory of Computing.

(Cross-listed with LING). (3-1) Cr. 3. F.S. *Prereq:* Minimum of C- in COM S 228, MATH 166, and in COM S 330 or CPR E 310; ENGL 250

Models of computation: finite state automata, pushdown automata and Turing machines. Study of grammars and their relation to automata. Limits of digital computation, unsolvability and Church-Turing thesis. Chomsky hierarchy and relations between classes of languages.

COM S 336. Introduction to Computer Graphics.

(3-0) Cr. 3. F. *Prereq:* COM S 229, CoReq MATH 307 or MATH 317

Basic algorithms, design, and programming of interactive computer graphics systems and hardware. Topics include 2D and 3D transformations, 3D viewing, visible surface algorithms, collision detection, illumination models, shading, ray tracing, shadows, transparency and texture mapping.

COM S 342. Principles of Programming Languages.

(Cross-listed with S E). (3-1) Cr. 3. F.S. *Prereq:* Minimum of C- in COM S 228, COM S 330 or CPR E 310

Study of concepts in programming languages and major programming paradigms, especially functional programming. Special emphasis on design tradeoffs that enable students to make sound choices of programming languages for a given software development task. Programming projects.

COM S 350. Number Theory.

(Cross-listed with MATH). (3-0) Cr. 3. S. *Prereq:* MATH 166

Divisibility, integer representations, primes and divisors, linear diophantine equations, congruences, and multiplicative functions. Applications to cryptography.

COM S 352. Introduction to Operating Systems.

(3-1) Cr. 3. F.S. *Prereq:* COM S 229, and COM S 321; ENGL 250

Survey of operating system issues. Introduction to hardware and software components including: processors, peripherals, interrupts, management of processes, threads and memory, deadlocks, file systems, protection, virtual machines and system organization, and introduction to distributed operating systems. Programming projects.

COM S 362. Object-Oriented Analysis and Design.

(3-0) Cr. 3. F.S. *Prereq:* Minimum of C- in COM S 228; ENGL 250

Object-oriented requirements analysis and systems design. Design notations such as the Unified Modeling Language. Design Patterns. Group design and programming with large programming projects.

COM S 363. Introduction to Database Management Systems.

(3-0) Cr. 3. F.S. *Prereq:* Minimum of C- in COM S 228; ENGL 250

Relational, object-oriented, and semistructured data models and query languages. SQL, ODMG, and XML standards. Database design using entity-relationship model, data dependencies and object definition language. Application development in SQL-like languages and general purpose host languages with application program interfaces. Information integration using data warehouses, mediators and wrappers. Programming Projects.

COM S 398. Cooperative Education.

Cr. R. *Prereq:* Permission of department chair

Required of all cooperative students. Students must register for this course prior to commencing each work period.

COM S 401. Projects in Computing Applications.

(2-2) Cr. 3. F. *Prereq:* ENGL 250, SP CM 212, COM S 309, and either COM S 362 or COM S 363

Applications of software development methods (requirements collection and analysis, software design, project management, documentation and testing), programming techniques, database designs and administration, network application programming to solve computing needs in business settings. A study of practical applications of emerging technologies in computing. Emphasis on semester-long team programming projects. Lab assignments. Oral and written reports.

COM S 409. Software Requirements Engineering.

(Dual-listed with COM S 509). (Cross-listed with S E). (3-0) Cr. 3. F. *Prereq:* COM S 309, ENGL 250, SP CM 212

The requirements engineering process, including identification of stakeholders, requirements elicitation techniques such as interviews and prototyping, analysis fundamentals, requirements specification, and validation. Use of Models: State-oriented, Function-oriented, and Object-oriented. Documentation for Software Requirements. Informal, semi-formal, and formal representations. Structural, informational, and behavioral requirements. Non-functional requirements. Use of requirements repositories to manage and track requirements through the life cycle. Case studies, software projects, written reports, and oral presentations will be required.

COM S 410. Distributed Software Development.

(Dual-listed with COM S 510). (3-0) Cr. 3. F. *Prereq:* COMS 228, COMS 229, COMS 309

Team with students at foreign universities to develop a software application. Importance of distributed development. Design for distributed development, effective processes for distributed development, and cultural issues in distributed development, organizing for distributed development, communication techniques and skills for distributed development, including oral presentations.

COM S 412. Formal Methods in Software Engineering.

(Dual-listed with COM S 512). (Cross-listed with CPR E, S E). (3-0) Cr. 3. S. *Prereq:* COM S 330 or CPR E 310; COM S 311, STAT 330

A study of formal techniques for model-based specification and verification of software systems. Topics include logics, formalisms, graph theory, numerical computations, algorithms, and tools for automatic analysis of systems.

COM S 414. Gerontechnology in Smart Home Environments.

(Dual-listed with COM S 514). (3-0) Cr. 3. F. *Prereq:* Com S 227 or (Com S 207 or Geron 377 or ArtGr 271) or equivalent.

An interdisciplinary course designed for students who are interested in assistive technology, pervasive computing, mobile computing and principles of universal and inclusive design for end users, in particular, the elderly population. Students will work in semester-long projects as interdisciplinary teams to apply knowledge obtained from lectures and mutual presentations. For graduate credit students are required to submit a research report and give an oral presentation.

COM S 415. Gerontechnology in Smart Home Environments.

(3-0) Cr. 3. F. *Prereq:* Com S 227 or (Com S 207 or Geron 377)

An interdisciplinary course designed for students who are interested in assistive technology, pervasive computing, mobile computing and principles of universal software design for end users, in particular the elderly population. Students will have the chance to learn both about the theories and principles about aging and assistive technology, as well as to engage in the practical semester-long project while working with students from other disciplines.

COM S 417. Software Testing.

(Cross-listed with S E). (3-0) Cr. 3. S. *Prereq:* COM S 309, COM S 319, ENGL 250, SP CM 212

Comprehensive study of software testing, principles, methodologies, management strategies and techniques. Test models, test design techniques (black box and white box testing techniques), integration, regression, system testing methods, and software testing tools.

COM S 418. Introduction to Computational Geometry.

(Dual-listed with COM S 518). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

Prereq: COM S 311 or permission of instructor

Introduction to data structures, algorithms, and analysis techniques for computational problems that involve geometry. Line segment intersection, polygon triangulation, 2D linear programming, range queries, point location, arrangements and duality, Voronoi diagrams and Delaunay triangulation, convex hulls, robot motion planning, visibility graphs. Other selected topics. Programming assignments.

COM S 421. Logic for Mathematics and Computer Science.

(Cross-listed with MATH). (3-0) Cr. 3. S. *Prereq:* MATH 301 or MATH 307 or MATH 317 or COM S 330

Propositional and predicate logic. Topics selected from Horn logic, equational logic, resolution and unification, foundations of logic programming, reasoning about programs, program specification and verification, model checking and binary decision diagrams, temporal logic and modal logic.

COM S 425. High Performance Computing for Scientific and Engineering Applications.

(Cross-listed with CPR E). (3-1) Cr. 3. S. *Prereq:* COM S 311, COM S 330, ENGL 250, SP CM 212

Introduction to high performance computing platforms including parallel computers and workstation clusters. Discussion of parallel architectures, performance, programming models, and software development issues. Sample applications from science and engineering. Practical issues in high performance computing will be emphasized via a number of programming projects using a variety of programming models and case studies. Oral and written reports.

COM S 426. Introduction to Parallel Algorithms and Programming.

(Dual-listed with COM S 526). (Cross-listed with CPR E). (3-2) Cr. 4. F. *Prereq:* CPR E 308 or COM S 321, CPR E 315 or COM S 311

Models of parallel computation, performance measures, basic parallel constructs and communication primitives, parallel programming using MPI, parallel algorithms for selected problems including sorting, matrix, tree and graph problems, fast Fourier transforms.

COM S 430. Advanced Programming Tools.

(3-1) Cr. 3. F. *Prereq:* COM S 311, COM S 362 or COM S 363, ENGL 250, SP CM 212

Topics in advanced programming techniques and tools widely used by industry (e.g., event-driven programming and graphical user interfaces, standard libraries, client/server architectures and techniques for distributed applications). Emphasis on programming projects in a modern integrated development environment. Oral and written reports.

COM S 433. Computational Models of Nanoscale Self-Assembly.

(Dual-listed with COM S 533). (3-0) Cr. 3. S. *Prereq:* Minimum of C- in COM S 331 or consent of the instructor

Modeling and analysis of natural and engineered systems that spontaneously assemble themselves from small components. Topics include biomolecular self-assembly, tile assembly models, computation via self-assembly, distributed folding, origami models, and self-repair. Emphasis on mathematical methods of describing, simulating, programming, and verifying the behaviors of self-assembling systems. Graduate credit requires a written or oral report on current research.

COM S 437. Computer Game and Media Programming.

(3-0) Cr. 3. S. *Prereq:* COM S 336 or permission of instructor

Students will learn video game programming using current game engine interfaces with real hardware. Particular attention is paid to the console architecture, development environment, tool chains, 2D graphics, 3D graphics, controllers, memory management, and audio systems. Students will complete the course by writing a simple game that runs on console hardware.

COM S 440. Principles and Practice of Compiling.

(Dual-listed with COM S 540). (3-1) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* COM S 331, COM S 342, ENGL 250, SP CM 212

Theory of compiling and implementation issues of programming languages. Programming projects leading to the construction of a compiler. Projects with different difficulty levels will be given for 440 and 540. Topics: lexical, syntax and semantic analyses, syntax-directed translation, runtime environment and library support. Written reports.

COM S 444. Introduction to Bioinformatics.

(Cross-listed with BCB, BCBIO, BIOL, CPR E, GEN). (4-0) Cr. 4. F. *Prereq:* MATH 165 or STAT 401 or equivalent

Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: database searching, sequence alignment, gene prediction, RNA and protein structure prediction, construction of phylogenetic trees, comparative and functional genomics, systems biology.

COM S 454. Distributed and Network Operating Systems.

(Dual-listed with COM S 554). (Cross-listed with CPR E). (3-1) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* COM S 311, COM S 352, ENGL 250, SP CM 212

Laboratory course dealing with practical issues of design and implementation of distributed and network operating systems and distributed computing environments (DCE). The client server paradigm, inter-process communications, layered communication protocols, synchronization and concurrency control, and distributed file systems. Graduate credit requires additional in-depth study of advanced operating systems. Written reports.

COM S 455. Simulation: Algorithms and Implementation.

(Dual-listed with COM S 555). (3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* COM S 311 and COM S 330, STAT 330, ENGL 150, SP CM 212

Introduction to discrete-event simulation with a focus on computer science applications, including performance evaluation of networks and distributed systems. Overview of algorithms and data structures necessary to implement simulation software. Discrete and continuous stochastic models, random number generation, elementary statistics, simulation of queuing and inventory systems, Monte Carlo simulation, point and interval parameter estimation. Graduate credit requires additional in-depth study of concepts. Oral and written reports.

COM S 461. Principles and Internals of Database Systems.

(Dual-listed with COM S 561). (3-1) Cr. 3. F. *Prereq:* COM S 311, ENGL 250, SP CM 212 and COM S 363

Models for structured and semistructured data. Algebraic, first order, and user-oriented query languages. Database schema design. Physical storage, access methods, and query processing. Transaction management, concurrency control, and crash recovery. Database security. Information integration using data warehouses, mediators, wrappers, and data mining. Parallel and distributed databases, and special purpose databases. Oral and written reports.

COM S 472. Principles of Artificial Intelligence.

(Dual-listed with COM S 572). (3-1) Cr. 3. F. *Prereq:* COM S 311, COM S 330 or CPR E 310, STAT 330, ENGL 250, SP CM 212, COM S 342 or comparable programming experience

Specification, design, implementation, and selected applications of intelligent software agents and multi-agent systems. Computational models of intelligent behavior, including problem solving, knowledge representation, reasoning, planning, decision making, learning, perception, action, communication and interaction. Reactive, deliberative, rational, adaptive, learning and communicative agents and multiagent systems. Artificial intelligence programming. Graduate credit requires a research project and a written report. Oral and written reports.

COM S 474. Elements of Neural Computation.

(3-1) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* COM S 311, COM S 330 or CPR E 310, STAT 330, MATH 165, ENGL 250, SP CM 212, COM S 342 or comparable programming experience

Introduction to theory and applications of neural computation and computational neuroscience. Computational models of neurons and networks of neurons. Neural architectures for associative memory, knowledge representation, inference, pattern classification, function approximation, stochastic search, decision making, and behavior. Neural architectures and algorithms for learning including perceptions, support vector machines, kernel methods, bayesian learning, instance based learning, reinforcement learning, unsupervised learning, and related techniques. Applications in Artificial Intelligence and cognitive and neural modeling. Hands-on experience is emphasized through the use of simulation tools and laboratory projects. Oral and written reports.

COM S 477. Problem Solving Techniques for Applied Computer Science.

(Dual-listed with COM S 577). (3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* COM S 228; COM S 330 or CPR E 310, MATH 166, MATH 307 or MATH 317, or consent of the instructor

Selected topics in applied mathematics and modern heuristics that have found applications in areas such as geometric modeling, graphics, robotics, vision, human machine interface, speech recognition, computer animation, etc. Polynomial interpolation, roots of polynomials, resultants, solution of linear and nonlinear equations, approximation, data fitting, fast Fourier transform, linear programming, nonlinear optimization, Lagrange multipliers, genetic algorithms, integration of ODEs, curves, curvature, Frenet Formulas, cubic splines, and Bezier curves. Programming components. Written report for graduate credit.

COM S 481. Numerical Methods for Differential Equations.

(Cross-listed with MATH). (3-0) Cr. 3. S. *Prereq:* MATH 265 and either MATH 266 or MATH 267; knowledge of a programming language

First order Euler method, high order Runge-Kutta method, and multistep method for solving ordinary differential equations. Finite difference and finite element methods for solving partial differential equations. Local truncation error, stability, and convergence for finite difference method. Numerical solution space, polynomial approximation, and error estimate for finite element method.

COM S 486. Fundamental Concepts in Computer Networking.

(3-0) Cr. 3. S. *Prereq:* COM S 352

An introduction to fundamental concepts in the design and implementation of computer communication in both the wired and wireless networks, their protocols, and applications. Layered network architecture in the Internet, applications, transport, Socket APIs, network, and data link layers and their protocols, multimedia networking, and network security.

COM S 487. Principles of Distributed and Network Programming.

(Dual-listed with COM S 587). (3-0) Cr. 3. F. *Prereq:* Com s 352 or Cpr E 489 or equivalent.

Programming paradigms for building distributed and networking applications, including multithreaded client-server programming, socket programming, distributed object frameworks and programming suites, and web computing and security. Introduction to some on-going research issues in distributed and networking applications, including peer-to-peer computing, multimedia communications, and mobile computing and networking. Graduate credit requires a written report and an oral presentation.

COM S 490. Independent Study.

Cr. arr. Repeatable, maximum of 9 credits. F.S. *Prereq:* 6 credits in computer science, permission of instructor

Offered on a satisfactory-fail basis only. No more than 9 credits of Com S 490 may be counted toward graduation.

COM S 490H. Independent Study: Honors.

Cr. arr. Repeatable, maximum of 9 credits. F.S. *Prereq:* 6 credits in computer science, permission of instructor

Offered on a satisfactory-fail basis only. No more than 9 credits of Com S 490 may be counted toward graduation.

Courses primarily for graduate students, open to qualified undergraduates:

COM S 502. Complex Adaptive Systems Seminar.

(Cross-listed with CAS). (1-0) Cr. 1. F.S. *Prereq:* Admission to CAS minor
Understanding core techniques in artificial life is based on basic readings in complex adaptive systems. Techniques of complex system analysis methods including: evolutionary computation, neural nets, agent based simulations (agent based computational economics). Large-scale simulations are to be emphasized, e.g. power grids, whole ecosystems.

COM S 503. Complex Adaptive Systems Concepts and Techniques.

(Cross-listed with CAS). (3-0) Cr. 3. S. *Prereq:* Admission to CAS minor or related field

Survey of complex systems and their analysis. Examples are drawn from engineering, computer science, biology, economics and physics.

COM S 509. Software Requirements Engineering.

(Dual-listed with COM S 409). (3-0) Cr. 3. F. *Prereq:* COM S 309, ENGL 250, SP CM 212

The requirements engineering process, including identification of stakeholders, requirements elicitation techniques such as interviews and prototyping, analysis fundamentals, requirements specification, and validation. Use of Models: State-oriented, Function-oriented, and Object-oriented. Documentation for Software Requirements. Informal, semi-formal, and formal representations. Structural, informational, and behavioral requirements. Non-functional requirements. Use of requirements repositories to manage and track requirements through the life cycle. Case studies, software projects, written reports, and oral presentations will be required.

COM S 510. Distributed Software Development.

(Dual-listed with COM S 410). (3-0) Cr. 3. F. *Prereq:* COMS 228, COMS 229, COMS 309

Team with students at foreign universities to develop a software application. Importance of distributed development. Design for distributed development, effective processes for distributed development, and cultural issues in distributed development, organizing for distributed development, communication techniques and skills for distributed development, including oral presentations.

COM S 511. Design and Analysis of Algorithms.

(Cross-listed with CPR E). (3-0) Cr. 3. F. *Prereq:* COM S 311

A study of basic algorithm design and analysis techniques. Advanced data structures, amortized analysis and randomized algorithms. Applications to sorting, graphs, and geometry. NP-completeness and approximation algorithms.

COM S 512. Formal Methods in Software Engineering.

(Dual-listed with COM S 412). (3-0) Cr. 3. S. *Prereq:* COM S 311, COM S 330

A study of formal techniques for model-based specification and verification of software systems. Topics include logics, formalisms, graph theory, numerical computations, algorithms and tools for automatic analysis of systems. Graduate credit requires in-depth study of concepts.

COM S 514. Gerontechnology in Smart Home Environments.

(Dual-listed with COM S 414). (3-0) Cr. 3. F. *Prereq:* Com S 227 or (Com S 207 or Geron 377 or ArtGr 271) or equivalent.

An interdisciplinary course designed for students who are interested in assistive technology, pervasive computing, mobile computing and principles of universal and inclusive design for end users, in particular, the elderly population. Students will work in semester-long projects as interdisciplinary teams to apply knowledge obtained from lectures and mutual presentations. For graduate credit students are required to submit a research report and give an oral presentation.

COM S 515. Software System Safety.

(3-0) Cr. 3. F. *Prereq:* COM S 309 or COM S 311, COM S 342

An introduction to the analysis, design, and testing of software for safety-critical and high-integrity systems. Analysis techniques, formal verification, fault identification and recovery, model checking, and certification issues. Emphasizes a case-based and systematic approach to software's role in safe systems.

COM S 518. Introduction to Computational Geometry.

(Dual-listed with COM S 418). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

Prereq: COM S 311 or permission of instructor

Introduction to data structures, algorithms, and analysis techniques for computational problems that involve geometry. Line segment intersection, polygon triangulation, 2D linear programming, range queries, point location, arrangements and duality, Voronoi diagrams and Delaunay triangulation, convex hulls, robot motion planning, visibility graphs. Other selected topics. Programming assignments. A scholarly report must be submitted for graduate credit.

COM S 525. Numerical Analysis of High Performance Computing.

(Cross-listed with CPR E, MATH). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* CPR E 308 or MATH 481; experience in scientific programming; knowledge of FORTRAN or C

Introduction to parallelization techniques and numerical methods for state-of-the-art high performance computers. A major component will be a final project in an area related to each student's research interests.

COM S 526. Introduction to Parallel Algorithms and Programming.

(Dual-listed with COM S 426). (Cross-listed with CPR E). (3-2) Cr. 4. F. *Prereq:* CPR E 308 or COM S 321, COM S 311

Models of parallel computation, performance measures, basic parallel constructs and communication primitives, parallel programming using MPI, parallel algorithms for selected problems including sorting, matrix, tree and graph problems, fast Fourier transforms.

COM S 531. Theory of Computation.

(3-0) Cr. 3. S. *Prereq:* COM S 331

A systematic study of the fundamental models and analytical methods of theoretical computer science. Computability, the Church-Turing thesis, decidable and undecidable problems, and the elements of recursive function theory. Time complexity, logic, Boolean circuits, and NP-completeness. Role of randomness in computation.

COM S 533. Computational Models of Nanoscale Self-Assembly.

(Dual-listed with COM S 433). (3-0) Cr. 3. S. *Prereq:* Minimum of C- in COM S 331 or consent of the instructor

Modeling and analysis of natural and engineered systems that spontaneously assemble themselves from small components. Topics include biomolecular self-assembly, tile assembly models, computation via self-assembly, distributed folding, origami models, and self-repair. Emphasis on mathematical methods of describing, simulating, programming, and verifying the behaviors of self-assembling systems. Graduate credit requires a written or oral report on current research.

COM S 540. Principles and Practice of Compiling.

(Dual-listed with COM S 440). (3-1) Cr. 3. Alt. S., offered odd-numbered years.

Prereq: COM S 331, COM S 342, ENGL 250, SP CM 212

Theory of compiling and implementation issues of programming languages. Programming projects leading to the construction of a compiler. Projects with different difficulty levels will be given for 440 and 540. Topics: lexical, syntax and semantic analyses, syntax-directed translation, runtime environment and library support. Written reports.

COM S 541. Programming Languages.

(3-1) Cr. 3. F. *Prereq:* COM S 342 or COM S 440

Survey of the goals and problems of language design. Formal and informal studies of a wide variety of programming language features including type systems. Creative use of functional and declarative programming paradigms.

COM S 544. Introduction to Bioinformatics.

(Cross-listed with BCB, CPR E, GDCB). (4-0) Cr. 4. F. *Prereq:* MATH 165 or STAT 401 or equivalent

Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: database searching, sequence alignment, gene prediction, RNA and protein structure prediction, construction of phylogenetic trees, comparative, functional genomics, and systems biology.

COM S 549. Advanced Algorithms in Computational Biology.

(Cross-listed with CPR E). (3-0) Cr. 3. Alt. S., offered even-numbered years.

Prereq: COM S 311 and either COM S 228 or COM S 208

Design and analysis of algorithms for applications in computational biology, pairwise and multiple sequence alignments, approximation algorithms, string algorithms including in-depth coverage of suffix trees, semi-numerical string algorithms, algorithms for selected problems in fragment assembly, phylogenetic trees and protein folding. No background in biology is assumed. Also useful as an advanced algorithms course in string processing.

COM S 550. Evolutionary Problems for Computational Biologists.

(3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq:* COM S 311 and some knowledge of programming

Discussion and analysis of basic evolutionary principles and the necessary knowledge in computational biology to solve real world problems. Topics include character and distance based methods, phylogenetic tree distances, and consensus methods, and approaches to extract the necessary information from sequence-databases to build phylogenetic trees.

COM S 551. Computational Techniques for Genome Assembly and Analysis. (3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq:* COM S 311 and some knowledge of programming

Introduction to practical sequence assembly and comparison techniques.

Topics include global alignment, local alignment, overlapping alignment, banded alignment, linear-space alignment, word hashing, DNA-protein alignment, DNA-cDNA alignment, comparison of two sets of sequences, construction of contigs, and generation of consensus sequences. Focus on development of sequence assembly and comparison programs.

COM S 552. Principles of Operating Systems.

(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* COM S 352

A comparative study of high-level language facilities for process synchronization and communication. Formal analysis of deadlock, concurrency control and recovery. Protection issues including capability-based systems, access and flow control, encryption, and authentication. Additional topics chosen from distributed operating systems, soft real-time operating systems, and advanced security issues.

COM S 554. Distributed and Network Operating Systems.

(Dual-listed with COM S 454). (Cross-listed with CPR E). (3-1) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* COM S 311, COM S 352, ENGL 250, SP CM 212

Laboratory course dealing with practical issues of design and implementation of distributed and network operating systems and distributed computing environments (DCE). The client server paradigm, inter-process communications, layered communication protocols, synchronization and concurrency control, and distributed file systems. Graduate credit requires additional in-depth study of advanced operating systems. Written reports.

COM S 555. Simulation: Algorithms and Implementation.

(Dual-listed with COM S 455). (3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* COM S 311 and COM S 330, STAT 330

Introduction to discrete-event simulation with a focus on computer science applications, including performance evaluation of networks and distributed systems. Overview of algorithms and data structures necessary to implement simulation software. Discrete and continuous stochastic models, random number generation, elementary statistics, simulation of queuing and inventory systems, Monte Carlo simulation, point and interval parameter estimation. Graduate credit requires additional in-depth study of concepts. Oral and written reports.

COM S 556. Analysis Algorithms for Stochastic Models.

(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* COM S 331, MATH 307, and STAT 330

Introduction to the use of stochastic models to study complex systems, including network communication and distributed systems. Data structures and algorithms for analyzing discrete-state models expressed in high-level formalisms. State space and reachability graph construction, model checking, Markov chain construction and numerical solution, computation of performance measures, product-form models, approximations, and advanced techniques.

COM S 557. Computer Graphics and Geometric Modeling.

(Cross-listed with CPR E, M E). (3-0) Cr. 3. F.S. *Prereq:* M E 421, programming experience in C

Fundamentals of computer graphics technology. Data structures. Parametric curve and surface modeling. Solid model representations. Applications in engineering design, analysis, and manufacturing.

COM S 558. Introduction to the 3D Visualization of Scientific Data.

(Cross-listed with GEOL, HCI). (2-2) Cr. 3. Alt. S., offered odd-numbered years.

Prereq: Graduate-student standing in the mathematical or natural sciences
Introduction to visualizing scientific information with 3D computer graphics and their foundation in human perception. Overview of different visualization techniques and examples of 3D visualization projects from different disciplines (natural sciences, medicine, engineering). Class project in interactive 3D visualization using the OpenDX, VTK or a similar system.

COM S 561. Principles and Internals of Database Systems.

(Dual-listed with COM S 461). (3-1) Cr. 3. F. *Prereq:* Graduate classification
Models for structured and semistructured data. Algebraic, first order, and user-oriented query languages. Database schema design. Physical storage, access methods, and query processing. Transaction management, concurrency control, and crash recovery. Database security. Information integration using data warehouses, mediators, wrappers, and data mining. Parallel and distributed databases, and special purpose databases. Oral and written reports.

COM S 562. Implementation of Database Systems.

(3-0) Cr. 3. F. *Prereq:* COM S 461 or COM S 561

Implementation topics and projects are chosen from the following: Storage architecture, buffer management and caching, access methods, design, parsing and compilation of query languages and update operations, application programming interfaces (APIs), user interfaces, query optimization and processing, and transaction management for relational, object-oriented, semistructured (XML), and special purpose database models; client-server architectures, metadata and middleware for database integration, web databases.

COM S 567. Bioinformatics I (Fundamentals of Genome Informatics).

(Cross-listed with BCB, CPR E). (3-0) Cr. 3. F. *Prereq:* COM S 208; COM S 330; STAT 341; credit or enrollment in BIOL 315, STAT 430

Biology as an information science. Review of algorithms and information processing. Generative models for sequences. String algorithms. Pairwise sequence alignment. Multiple sequence alignment. Searching sequence databases. Genome sequence assembly.

COM S 568. Bioinformatics II (Advanced Genome Informatics).

(Cross-listed with BCB, GDCB, STAT). (3-0) Cr. 3. S. *Prereq:* BCB 567, BBMB 301, BIOL 315, STAT 430, credit or enrollment in GEN 411

Advanced sequence models. Basic methods in molecular phylogeny. Hidden Markov models. Genome annotation. DNA and protein motifs. Introduction to gene expression analysis.

COM S 569. Bioinformatics III (Structural Genome Informatics).

(Cross-listed with BBMB, BCB, CPR E). (3-0) Cr. 3. F. *Prereq:* BCB 567, GEN 411, STAT 430

Algorithmic and statistical approaches in structural genomics including protein, DNA and RNA structure. Structure determination, refinement, representation, comparison, visualization, and modeling. Analysis and prediction of protein secondary and tertiary structure, disorder, protein cores and surfaces, protein-protein and protein-nucleic acid interactions, protein localization and function.

COM S 570. Bioinformatics IV (Computational Functional Genomics and Systems Biology).

(Cross-listed with BCB, CPR E, GDCB, STAT). (3-0) Cr. 3. S. *Prereq:* BCB 567, BIOL 315, COM S 311 and either 208 or 228, GEN 411, STAT 430

Algorithmic and statistical approaches in computational functional genomics and systems biology. Elements of experiment design. Analysis of high throughput gene expression, proteomics, and other datasets obtained using system-wide measurements. Topological analysis, module discovery, and comparative analysis of gene and protein networks. Modeling, analysis, simulation and inference of transcriptional regulatory modules and networks, protein-protein interaction networks, metabolic networks, cells and systems: Dynamic systems, Boolean, and probabilistic models. Multi-scale, multi-granularity models. Ontology-driven, network based, and probabilistic approaches to information integration.

COM S 572. Principles of Artificial Intelligence.

(Dual-listed with COM S 472). (3-1) Cr. 3. F. *Prereq:* COM S 311, COM S 331, STAT 330, COM S 342 or comparable programming experience

Specification, design, implementation, and selected applications of intelligent software agents and multi-agent systems. Computational models of intelligent behavior, including problem solving, knowledge representation, reasoning, planning, decision making, learning, perception, action, communication and interaction. Reactive, deliberative, rational, adaptive, learning and communicative agents. Artificial intelligence programming. Graduate credit requires a research project and a written report. Oral and written reports.

COM S 573. Machine Learning.

(3-1) Cr. 3. S. *Prereq:* COM S 311, COM S 362, STAT 330

Algorithmic models of learning. Design, analysis, implementation and applications of learning algorithms. Learning of concepts, classification rules, functions, relations, grammars, probability distributions, value functions, models, skills, behaviors and programs. Agents that learn from observation, examples, instruction, induction, deduction, reinforcement and interaction. Computational learning theory. Data mining and knowledge discovery using artificial neural networks, support vector machines, decision trees, Bayesian networks, association rules, dimensionality reduction, feature selection and visualization. Learning from heterogeneous, distributed, dynamic data and knowledge sources. Learning in multi-agent systems. Selected applications in automated knowledge acquisition, pattern recognition, program synthesis, bioinformatics and Internet-based information systems. Oral and written reports.

COM S 574. Intelligent Multiagent Systems.

(3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq:* STAT 330; COM S 331; COM S 572; COM S 573, COM S 472, or COM S 474

Specification, design, implementation, and applications of multi-agent systems. Intelligent agent architectures; infrastructures, languages and tools for design and implementation of distributed multi-agent systems; Multi-agent organizations, communication, interaction, cooperation, team formation, negotiation, competition, and learning. Selected topics in decision theory, game theory, contract theory, bargaining theory, auction theory, and organizational theory. Selected topics in knowledge representation and ontologies. Agent-based systems and the Semantic Web. Applications in distributed intelligent information networks for information retrieval, information integration, inference, and discovery from heterogeneous, autonomous, distributed, dynamic information sources.

COM S 575. Computational Perception.

(Cross-listed with CPR E, HCI). (3-0) Cr. 3. S. *Prereq:* Graduate standing or permission of instructor

This class covers statistical and algorithmic methods for sensing, recognizing, and interpreting the activities of people by a computer. This semester we will focus on machine perception techniques that facilitate and augment human-computer interaction. The main goal of the class is to introduce computational perception on both theoretical and practical levels. Participation in small groups to design, implement, and evaluate a prototype of a human-computer interaction system that uses one or more of the techniques covered in the lectures.

COM S 577. Problem Solving Techniques for Applied Computer Science.

(Dual-listed with COM S 477). (3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* COM S 228; COM S 330 or CPR E 310, MATH 166, MATH 307 or MATH 317, or consent of the instructor

Selected topics in applied mathematics and modern heuristics that have found applications in areas such as geometric modeling, graphics, robotics, vision, human machine interface, speech recognition, computer animation, etc. Homogeneous coordinates and transformations, perspective projection, quaternions and rotations, polynomial interpolation, roots of polynomials, resultants, solution of linear and nonlinear equations, approximation, data fitting, Fourier series and fast Fourier transform, linear programming, nonlinear optimization, Lagrange multipliers, parametric and algebraic curves, curvature, Frenet formulas, Bezier curves. Programming components. A scholarly report is required for graduate credit.

COM S 581. Computer Systems Architecture.

(Cross-listed with CPR E). (3-0) Cr. 3. F. *Prereq:* CPR E 381

Quantitative principles of computer architecture design, instruction set design, processor architecture: pipelining and superscalar design, instruction level parallelism, memory organization: cache and virtual memory systems, multiprocessor architecture, cache coherency, interconnection networks and message routing, I/O devices and peripherals.

COM S 583. Reconfigurable Computing Systems.

(Cross-listed with CPR E). (3-0) Cr. 3. *Prereq:* Background in computer architecture, design, and organization

Introduction to reconfigurable computing, FPGA technology and architectures, spatial computing architectures such as systolic and bit serial adaptive network architectures, static and dynamic rearrangeable interconnection architectures, processor architectures incorporating reconfigurability.

COM S 586. Computer Network Architectures.

(3-0) Cr. 3. F. *Prereq:* COM S 511, COM S 552 or CPR E 489

Design and implementation of computer communication networks: layered network architectures, local area networks, data link protocols, distributed routing, transport services, network programming interfaces, network applications, error control, flow/congestion control, interconnection of heterogeneous networks, TCP/IP, ATM networks, multimedia communications, IP and application multicast, overlay networks, network security and web computing.

COM S 587. Principles of Distributed and Network Programming.

(Dual-listed with COM S 487). (3-0) Cr. 3. F. *Prereq:* Com s 352 or Cpr E 489 or equivalent.

Programming paradigms for building distributed and networking applications, including multithreaded client-server programming, socket programming, distributed object frameworks and programming suites, and web computing and security. Introduction to some on-going research issues in distributed and networking applications, including peer-to-peer computing, multimedia communications, and mobile computing and networking. Graduate credit requires a written report and an oral presentation.

COM S 590. Special Topics.

Cr. arr. Repeatable. *Prereq:* Permission of instructor
Offered on a satisfactory-fail basis only.

COM S 592. Research Colloquia.

Cr. 1. F.S. *Prereq:* Graduate classification

Attend Computer Science Research Colloquia. Written summary is required. Offered on a satisfactory-fail basis only.

COM S 596. Genomic Data Processing.

(Cross-listed with BCB, GDCB). (3-0) Cr. 3. F. *Prereq:* Some experience in computation

Study the practical aspects of genomic data processing with an emphasis on hands-on projects. Topics include base-calling, sequence cleaning and contaminant removal; fragment assembly procedures and EST clustering methods; genome closure strategies and practices; sequence homology search and function prediction; and annotation and submission of GenBank reports. Next-generation sequencing topics like model genome resequencing, short-read assembly and transcriptome abundance measurement will also be covered.

COM S 598. Graduate Internship.

Cr. R. Repeatable. F.S.SS. *Prereq:* Graduate Classification

Supervised internship working in professional settings appropriate to the student's degree program. Academic work under faculty supervision.

COM S 599. Creative Component.

Cr. 1-3.

Creative component for nonthesis option of Master of Science degree. Offered on a satisfactory-fail basis only.

Courses for graduate students:**COM S 610. Seminar.**

Cr. arr.

Offered on a satisfactory-fail basis only.

COM S 611. Advanced Topics in Analysis of Algorithms.

(3-0) Cr. 3. Repeatable. Alt. S., offered odd-numbered years. *Prereq:* COM S 511, COM S 531

Advanced algorithm analysis and design techniques. Topics include graph algorithms, algebraic algorithms, number-theoretic algorithms, randomized and parallel algorithms. Intractable problems and NP-completeness. Advanced data structures.

COM S 612. Distributed Algorithms.

(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* COM S 511 or COM S 531

The theory of distributed computation. Algorithms, lower bounds and impossibility results. Leader Elections, mutual exclusion, consensus and clock synchronization algorithms. Synchronous, asynchronous and partially synchronous distributed systems models. Shared memory and message passing systems. Fault-tolerance and randomization. Broadcast and multicast. Wait-free object simulations. Distributed shared memory.

COM S 625. Issues in Parallel Programming and Performance.

(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* COM S 511

Parallel solutions of numerical and non-numerical problems, implementation of parallel programs on parallel machines, performance and other computational issues in parallel programming.

COM S 626. Parallel Algorithms for Scientific Applications.

(Cross-listed with CPR E). (3-0) Cr. 3. *Prereq:* CPR E 526

Algorithm design for high-performance computing. Parallel algorithms for multidimensional tree data structures, space-filling curves, random number generation, graph partitioning and load balancing. Applications to grid and particle-based methods and computational biology.

COM S 631. Advanced Topics in Computational Complexity.

(3-0) Cr. 3. Repeatable. Alt. F., offered even-numbered years. *Prereq:* COM S 531

Advanced study in the quantitative theory of computation. Time and space complexity of algorithmic problems. The structure of P, NP, PH, PSPACE, and other complexity classes, especially with respect to resource-bounded reducibilities and complete problems. Complexity relative to auxiliary information, including oracle computation and relativized classes, randomized algorithms, advice machines, Boolean circuits. Kolmogorov complexity and randomness.

COM S 633. Advanced Topics in Computational Randomness.

(3-0) Cr. 3. Repeatable. Alt. F., offered odd-numbered years. *Prereq:* COM S 531

Advanced study of the role of randomness in computation. Randomized algorithms, derandomization, and probabilistic complexity classes. Kolmogorov complexity, algorithmic information theory, and algorithmic randomness. Applications chosen from cryptography, interactive proof systems, computational learning, lower bound arguments, mathematical logic, and the organization of complex systems.

COM S 634. Theory of Games, Knowledge and Uncertainty.

(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* COM S 330
 Fundamentals of Game Theory: individual decision making, strategic and extensive games, mixed strategies, backward induction, Nash and other equilibrium concepts. Discussion of Auctions and Bargaining. Repeated, Bayesian and evolutionary games. Interactive Epistemology: reasoning about knowledge in multiagent environment, properties of knowledge, agreements, and common knowledge. Reasoning about and representing uncertainty, probabilities, and beliefs. Uncertainty in multiagent environments. Aspects and applications of game theory, knowledge, and uncertainty in other areas, especially Artificial Intelligence and Economics, will be discussed.

COM S 641. Advanced Topics in Programming Language Semantics.

(3-0) Cr. 3. Repeatable. Alt. S., offered even-numbered years. *Prereq:* COM S 531, COM S 541

Operational and other mathematical models of programming language semantics. Type systems and their soundness. Applications of semantics on areas such as program correctness, language design or translation.

COM S 652. Advanced Topics in Distributed Operating Systems.

(3-0) Cr. 3. Repeatable. Alt. F., offered odd-numbered years. *Prereq:* COM S 552

Concepts and techniques for network and distributed operating systems: Communications protocols, processes and threads, name and object management, synchronization, consistency and replications for consistent distributed data, fault tolerance, protection and security, distributed file systems, design of reliable software, performance analysis.

COM S 657. Advanced Topics in Computer Graphics.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* COM S 228, I E 557/M E 557/CPR E 557/COM S 557

Modern lighting models: Rendering Equation, Spherical Harmonics, Lafortune, Cook-Torrance. Non-polygonal primitives: volumes, points, particles. Textures: filtering, reflections creation. Graphics hardware: pipeline, performance issues, programmability in vertex and fragment path. Per-pixel lighting. Nonphotorealistic rendering. Radiosity; Ray tracing.

COM S 661. Advanced Topics in Database Systems.

(3-0) Cr. 3. Repeatable. Alt. F., offered even-numbered years. *Prereq:* COM S 461 or COM S 561

Advanced topics chosen from the following: database design, data models, query systems, query optimization, incomplete information, logic and databases, multimedia databases; temporal, spatial and belief databases, semistructured data, concurrency control, parallel and distributed databases, information retrieval, data warehouses, wrappers, mediators, and data mining.

COM S 672. Advanced Topics in Computational Models of Learning.

(3-0) Cr. 3. Repeatable. Alt. S., offered even-numbered years. *Prereq:* COM S 572 or COM S 573 or COM S 472 or COM S 474

Selected topics in Computational Learning Theory (PAC learning, Sample complexity, VC Dimension, Occam Learning, Boosting, active learning, Kolmogorov Complexity, Learning under helpful distributions, Mistake Bound Analysis). Selected topics in Bayesian and Information Theoretic Models (ML, MAP, MDL, MML). Advanced statistical methods for machine learning. Selected topics in reinforcement learning.

COM S 673. Advanced Topics in Computational Intelligence.

(3-0) Cr. 3. Repeatable. Alt. S., offered odd-numbered years. *Prereq:* COM S 572 or COM S 573 or COM S 472 or COM S 474

Advanced applications of artificial intelligence in bioinformatics, distributed intelligent information networks and the Semantic Web. Selected topics in distributed learning, incremental learning, multi-task learning, multi-strategy learning; Graphical models, multi-relational learning, and causal inference; statistical natural language processing; modeling the internet and the web; automated scientific discovery; neural and cognitive modeling.

COM S 681. Advanced Topics in Computer Architecture.

(Cross-listed with CPR E). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* CPR E 581. Repeatable with Instructor permission

Current topics in computer architecture design and implementation. Advanced pipelining, cache and memory design techniques. Interaction of algorithms with architecture models and implementations. Tradeoffs in architecture models and implementations.

COM S 686. Advanced Topics in High-Speed Networks.

(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* COM S 586

Advanced topics in IP networks and optical networks. QoS routing and scheduling, multicast, multiprotocol label switching (MPLS), traffic engineering. Optical network architectures, routing and wavelength assignment algorithms, optical multicast, traffic grooming, optical burst switching, lightpath protection/restoration schemes, and IP over WDM.

COM S 699. Research.

Cr. arr. Repeatable. *Prereq:* Approval of instructor
 Offered on a satisfactory-fail basis only.

Criminal Justice Studies

Interdepartmental Undergraduate Program

The criminal justice studies minor, a cross-disciplinary course of study in the College of Liberal Arts and Sciences, offers an opportunity for students to learn about the components of the criminal and juvenile justice systems, to become acquainted with the issues and problems affecting these systems, to apply theoretical concepts to real world problems, and to plan a career in criminal or juvenile justice.

Students who declare a minor in criminal justice studies are required to complete 15 credits of course work. Students must take five of the following six courses:

CJ ST 240	Introduction to the U.S. Criminal Justice System	3
CJ ST 241	Youth and Crime	3
CJ ST 320	American Judicial Process	3
CJ ST 332	Philosophy of Law	3
CJ ST 340	Deviant and Criminal Behavior	3
CJ ST 341	Criminology	3

Students are also required to complete a minimum of 3 credits of internship experience CJ ST 460 Criminal and Juvenile Justice Practicum. Completion of the minor requires 18 total credits.

Courses primarily for undergraduates:**CJ ST 240. Introduction to the U.S. Criminal Justice System.**

(3-0) Cr. 3. F.

Provides systematic overview of law, police organization and behavior, prosecution and defense, sentencing, the judiciary, community corrections, penology, and capital punishment. The course demonstrates the role of discretion in all of these agencies as well as the sociological influences of age, race, gender, and social class on criminal justice system processes.

CJ ST 241. Youth and Crime.

(Cross-listed with SOC). (3-0) Cr. 3. F. *Prereq:* SOC 134

An examination of delinquency that focuses on the relationship between youth as victims and as offenders, social and etiological features of delinquency, the role of the criminal justice system, delinquents' rights, and traditional and alternative ways of dealing with juvenile crime.

CJ ST 320. American Judicial Process.

(Cross-listed with POL S). (3-0) Cr. 3. S. *Prereq:* POL S 215

An overview of the American judicial process. Emphasis on specific topics such as application of constitutional rights to the states (particularly the Fourth, Fifth, Sixth, and Fourteenth Amendments), mechanics of judicial opinions, constitutional philosophies of Supreme Court Justices, decisions of first impression, and the value and scope of precedent.

CJ ST 332. Philosophy of Law.

(Cross-listed with PHIL). (3-0) Cr. 3. F.S. *Prereq:* PHIL 201 or PHIL 230

Extent of our obligation to obey the law; what constitutes just punishment; how much of the immoral should be made illegal? Relation of these questions to major theories of law and the state. Discussion of such concepts as coercion, equality, and responsibility.

CJ ST 340. Deviant and Criminal Behavior.

(Cross-listed with SOC). (3-0) Cr. 3. S.SS. *Prereq:* SOC 134

Theory and research on the etiology of types of social deviance; issues relating to crime, antisocial behavior and social policies designed to control deviant behavior.

CJ ST 341. Criminology.

(Cross-listed with SOC). (3-0) Cr. 3. F. *Prereq:* SOC 134

The nature of crime and criminology; the concept of crime; statistics and theories of criminality; major forms of crime; official responses to crime and control of crime.

CJ ST 351. Police and Society.

(Cross-listed with SOC). (3-0) Cr. 3. F.S. *Prereq:* SOC 241 or CJ ST 240

Introduction and overview of law enforcement in the United States. Theory and research on police history, function, and organization; constitutional issues of policing; and critical topics, such as community policing, officer discretion and decision-making, corruption, use of force, and racial profiling. The course illustrates the interconnections between communities, police organizations, citizens, and criminal offenders.

CJ ST 352. Punishment, Corrections, and Society.

(Cross-listed with SOC). (3-0) Cr. 3. F.S. *Prereq:* SOC 241 or CJ ST 240
Introduction and overview of corrections in the United States. Theory and research on probation, parole, intermediate sanctions, prison, inmate society, inmate behavior and misconduct, capital punishment, recidivism, correctional treatment, rehabilitation, and offender reintegration into society.

CJ ST 402. White-Collar Crime.

(Cross-listed with SOC). (3-0) Cr. 3. S. *Prereq:* SOC 241 or CJ ST 240
Introduction and overview of white-collar crime as a form of deviance. Theory and research on occupational, corporate, and organizational offending; prevalence, costs, and consequences of white-collar crime; predictors and correlates of white-collar crime; and political, business, and public policy responses to white-collar crime.

CJ ST 403. Criminal Offenders.

(3-0) Cr. 3. F.S. *Prereq:* CJ ST 240 or CJ ST 241
Introduction and overview of criminal offenders. Theory and research on epidemiology, offender typologies, etiology of violence, recidivism, societal costs, correctional supervision, treatment, and prevention of serious antisocial behavior.

CJ ST 460. Criminal and Juvenile Justice Practicum.

(Cross-listed with SOC). Cr. 3-12. Repeatable, maximum of 12 credits. F.S.SS. *Prereq:* Junior or senior classification; permission of criminal justice studies coordinator; major or minor in sociology, or criminal justice studies minor
Study of the criminal and juvenile justice systems and social control processes. Supervised placement in a police department, prosecutor's office, court, probation and parole department, penitentiary, juvenile correctional institution, community-based rehabilitation program, or related agency. Offered on a satisfactory-fail basis only. Not more than a total of 12 credits of field experience (Soc 454 and 460) may be counted toward graduation. No credits in Soc 460 may be used to satisfy minimum sociology requirements for sociology majors.

Ecology, Evolution, and Organismal Biology

Undergraduate Study

Within the Biological Sciences, studies of ecology, evolution, and organismal biology are essential in understanding the complex relationships of life on Planet Earth. Ecology focuses on the interactions among organisms as well as the interactions between organisms and their physical environments. Evolutionary theory addresses the origins and interrelationships of species. Organismal biology studies both the diversity of biological organisms and the structure and function of individual organisms.

The EEOB Department offers several undergraduate majors with other departments. Students interested in the areas of ecology, evolution, and organismal biology should major in Biology, Environmental Science, or Genetics. The Biology Major is administered and offered jointly by the EEOB and GDCB departments. The faculty of EEOB, together with those in GDCB and BBMB, administer and offer the Genetics Major. Faculty in EEOB, in cooperation with faculty from other departments on campus, administer and offer the Environmental Science Major. Each of these majors is available through the College of Liberal Arts and Sciences or through the College of Agriculture and Life Sciences. Faculty in the EEOB Department also teach undergraduate courses at Iowa Lakeside Laboratory (see the Iowa Lakeside Laboratory listing).

The Biology Major, the Environmental Science Major, and the Genetics Major prepare students for a wide range of careers in biological sciences. Some of these careers include conservation of natural resources and biodiversity, human and veterinary medicine, and life science education. These majors are also excellent preparation for graduate study in systematics, ecology, biological diversity, physiology, and related fields. Faculty members in EEOB contribute to the undergraduate courses listed below. The titles and descriptions of these courses are in the Biology section of the catalog.

BIOL 101	Introductory Biology	3
BIOL 110	Introduction to Biology	1
BIOL 111	Opportunities in Biology	0.5
BIOL 155	Human Biology	3
BIOL 173	Environmental Biology	3
BIOL 204	Biodiversity	2
BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
BIOL 212	Principles of Biology II	3
BIOL 212L	Principles of Biology Laboratory II	1

BIOL 255	Fundamentals of Human Anatomy	3
BIOL 255L	Fundamentals of Human Anatomy Laboratory	1
BIOL 256	Fundamentals of Human Physiology	3
BIOL 256L	Fundamentals of Human Physiology Laboratory	1
BIOL 258	Human Reproduction	3
BIOL 307	Women in Science and Engineering	3
BIOL 312	Ecology	4
BIOL 313	Principles of Genetics	3
BIOL 313L	Genetics Laboratory	1
BIOL 315	Biological Evolution	3
BIOL 335	Principles of Human and Other Animal Physiology	4
BIOL 336	Ecological and Evolutionary Animal Physiology	3
BIOL 351	Comparative Chordate Anatomy	5
BIOL 352	Vertebrate Histology	4
BIOL 353	Introductory Parasitology	3
BIOL 354	Animal Behavior	3
BIOL 355	Plants and People	3
BIOL 356	Dendrology	4
BIOL 364	Vertebrate Biology	3-4
BIOL 365	Vertebrate Biology	4
BIOL 366	Plant Systematics	4
BIOL 371	Ecological Methods	3
BIOL 381	Environmental Systems I: Introduction to Environmental Systems	3-4
BIOL 382	Environmental Systems II: Analysis of Environmental Systems	3
BIOL 393	North American Field Trips in Biology	1-4
BIOL 394	International Field Trips in Biology	1-4
BIOL 434	Endocrinology	3
BIOL 439	Environmental Physiology	3-4
BIOL 454	Plant Anatomy	4
BIOL 455	Bryophyte and Lichen Biodiversity	3
BIOL 456	Principles of Mycology	3
BIOL 457	Herpetology	2
BIOL 458	Ornithology	2
BIOL 459	Mammalogy	2
BIOL 462	Evolutionary Genetics	3
BIOL 465	Morphometric Analysis	4
BIOL 471	Introductory Conservation Biology	3
BIOL 472	Community Ecology	3
BIOL 474	Plant Ecology	3
BIOL 476	Functional Ecology	3
BIOL 486	Aquatic Ecology	3
BIOL 486L	Aquatic Ecology Laboratory	1
BIOL 487	Microbial Ecology	3
BIOL 488	Identification of Aquatic Organisms	1
BIOL 489	Population Ecology	3
BIOL 490	Independent Study	1-6
BIOL 491	Undergraduate Teaching Experience	1-2
BIOL 494	Biology Internship	1-3
BIOL 495	Undergraduate Seminar	1-3
BIOL 498	Cooperative Education	R

Graduate Study

The department offers graduate work leading to both Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees. EEOB graduate students major in one of several interdepartmental majors including Bioinformatics and Computational Biology, Ecology and Evolutionary Biology, Environmental Science, Genetics, Interdisciplinary Graduate Studies, Neuroscience, and Toxicology. The EEOB faculty members are active in the interdepartmental graduate majors and teach a wide range of graduate courses. Faculty research programs cover a wide range of specializations including physiology and physiological ecology; Microbiology; animal behavior; evolutionary genetics of plants and animals; modeling of evolutionary and ecological processes; plant and animal systematics; neurobiology; developmental biology; aquatic and wetland ecology; functional, population, community, landscape, and ecosystem ecology; and conservation

biology. For further information on faculty research interests check the EEOB web site (www.eeob.iastate.edu). Some EEOB faculty teach graduate courses at Iowa Lakeside Laboratory. Field Station courses are also available through the Gulf Coast Marine Laboratory and the Organization for Tropical Studies (see the Biology listing).

Prospective graduate students need a sound background in the physical and biological sciences, as well as in mathematics and English. Interested students should check the Graduate Program link from the EEOB web site for specific admission procedures and updates. The department and majors require submission of Graduate Record Examination (GRE) aptitude test scores. Subject area GRE scores are recommended. International students whose native language is other than English must also submit TOEFL or IELTS scores with their application.

Students who are enrolled in the interdepartmental graduate majors with EEOB affiliation are required to participate in departmental seminars, to participate in research activities, and to show adequate progress and professional development while pursuing their degree. For both the M.S. and Ph.D. degrees, it is expected that research conducted by the student will culminate in the writing and presentation of a thesis or dissertation. Requirements and guidelines for study are provided by the Graduate College, the EEOB faculty, and the individual student's major professor and Program of Study Committee. General information about graduate study requirements can be found at the web site for the Graduate College and requirements for the interdepartmental majors can be found by following the links from the EEOB web site above. Although not a formal requirement, the EEOB faculty recommends that students pursuing the Ph.D. include teaching experience in their graduate training.

Courses primarily for graduate students, open to qualified undergraduates:

EEOB 507. Advanced Animal Behavior.

(3-0) Cr. 3. S. *Prereq: Graduate standing, BIOL 354, or permission of instructor*
Analysis of current research in animal behavior. Topics covered may include behavioral ecology, mechanisms of behavior, evolution of behavior, applications of animal behavior to conservation biology, and applications of animal behavior to wild animals in captivity.

EEOB 514. Life History and Reproductive Strategies.

(Dual-listed with BIOL 414). (3-0) Cr. 3. F. *Prereq: BIOL 315 or equivalent; course in population ecology suggested.*

Evolution of ecological adaptations at the individual, population, community and landscape levels. Emphasis is on evolutionary mechanisms and adaptive strategies; units and mechanisms of evolution, life history strategies, species interactions and organization of communities, behavior, and patterns of distribution, speciation and macroevolution.

EEOB 531. Conservation Biology.

(Cross-listed with A ECL). (3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: BIOL 312; BIOL 313 or graduate standing*

Examination of conservation issues from a population and a community perspective. Population-level analysis will focus on the role of genetics, demography, and environment in determining population viability. Community perspectives will focus on topics such as habitat fragmentation, reserve design, biodiversity assessment, and restoration ecology.

EEOB 531I. Conservation Biology.

(Cross-listed with A ECL, IA LL). Cr. 4. Alt. SS., offered even-numbered years. *Prereq: IA LL 312I*

Population-and community-level examination of factors influencing the viability of plant and animal populations from both demographic and genetic perspectives; assessment of biodiversity; design and management of preserves.

EEOB 534. Endocrinology.

(Dual-listed with BIOL 434). (3-0) Cr. 3. S. *Prereq: BIOL 211, BIOL 212*
Chemical integration of vertebrate organisms. The structure, development, and evolution of the endocrine glands and the function and structure of their hormones.

EEOB 535. Restoration Ecology.

(Cross-listed with ENSCI, NREM). (2-3) Cr. 3. F. *Prereq: BIOL 366 or BIOL 474 or graduate standing*

Theory and practice of restoring animal and plant diversity, structure and function of disturbed ecosystems. Restored freshwater wetlands, forests, prairies and reintroduced species populations will be used as case studies.

EEOB 535I. Restoration Ecology.

(Cross-listed with A ECL, ENSCI, IA LL). Cr. 4. Alt. SS., offered even-numbered years. *Prereq: A course in ecology*

Ecological principles for the restoration of native ecosystems; establishment (site preparation, selection of seed mixes, planting techniques) and management (fire, mowing, weed control) of native vegetation; evaluation of restorations. Emphasis on the restoration of prairie and wetland vegetation.

EEOB 539. Environmental Physiology.

(Dual-listed with BIOL 439). (3-3) Cr. 3-4. Alt. S., offered even-numbered years. *Prereq: BIOL 335 or A ECL 311, physics recommended*
Graduate study in conjunction with Biol 439. Physiological adaptations to the environment with emphasis on vertebrates.

EEOB 542. Introduction to Molecular Biology Techniques.

(Cross-listed with B M S, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. *Prereq: Graduate classification*
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

EEOB 542A. Introduction to Molecular Biology Techniques: DNA Techniques.

(Cross-listed with B M S, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. *Prereq: Graduate classification*
Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

EEOB 542C. Introduction to Molecular Biology Techniques: Cell Techniques.

(Cross-listed with B M S, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S. *Prereq: Graduate classification*
Includes immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

EEOB 542D. Introduction to Molecular Biology Techniques: Plant Transformation.

(Cross-listed with B M S, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S. *Prereq: Graduate classification*
Includes Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

EEOB 542E. Introduction to Molecular Biology Techniques: Proteomics.

(Cross-listed with B M S, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F. *Prereq: Graduate classification*
Includes two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

EEOB 542F. Introduction to Molecular Biology Techniques: Metabolomics.

(Cross-listed with B M S, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F. *Prereq: Graduate classification*
Includes metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

EEOB 542G. Introduction to Molecular Biology Techniques: Genomic.

(Cross-listed with B M S, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S. *Prereq: Graduate classification*
Offered on a satisfactory-fail basis only.

EEOB 544. Introduction to Bioinformatics.

(Dual-listed with BIOL 444). (4-0) Cr. 4. F. *Prereq: MATH 165 or STAT 401 or equivalent*

Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: database searching, sequence alignment, gene prediction, RNA and protein structure prediction, construction of phylogenetic trees, comparative and functional genomics, systems biology.

EEOB 551. Plant Evolution and Phylogeny.

(Dual-listed with BIOL 451). (3-3) Cr. 4. F. *Prereq: BIOL 315 or equivalent.*
Survey of land plant evolution; phylogenetic comparison of anatomical, reproductive, and life history specializations. Relationships among bryophytes, lycophytes, pteridophytes, gymnosperms, and angiosperms emphasizing significant evolutionary changes documented by paleobotanical, morphological, and molecular studies.

EEOB 553. Agrostology.

(2-3) Cr. 3. Alt. F., offered even-numbered years. *Prereq: BIOL 366*
Structure, identification, classification, phylogeny, and economic aspects of grasses and related families.

EEOB 555. Bryophyte and Lichen Biodiversity.

(Dual-listed with BIOL 455). Cr. 3. *Prereq: BIOL 212, BIOL 212L*
Introduction to the biology and ecology of mosses, liverworts, and lichens. Emphasis on identification and diversity of local representatives of these three groups of organisms. Required field trips and service-learning.

EEOB 559. Mammalogy.(2-3) Cr. 3. S. *Prereq: BIOL 351 or A ECL 365*

Biology, ecology, and evolution of mammals. Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of mammals in ecosystems, and conservation. Laboratory focus on identification, distribution, habits, and habitats of mammals.

EEOB 560. Resource Ecology.(2-3) Cr. 3. Alt. S., offered even-numbered years. *Prereq: BIOL 212, BIOL 212L, BIOL 312; STAT 101 or STAT 104 or graduate standing*

Ecological and economical management of sustainable biological resources. Unifying current management concepts and models in wildlife, fisheries, water quality, forestry, recreation, and agriculture. Research problems.

EEOB 562. Evolutionary Genetics.(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: Permission of instructor* Seminar/discussion course covering the genetic basis of evolutionary processes in multicellular organisms.**EEOB 563. Molecular Phylogenetics.**(2-3) Cr. 3. F. *Prereq: BIOL 313 and BIOL 315*

An overview of the theory underlying phylogenetic analysis and the application of phylogenetic methods to molecular datasets. The course emphasizes a hands-on approach to molecular phylogenetics and combines lecture presentations with computer exercises and discussion of original scientific literature.

EEOB 564. Wetland Ecology.(Cross-listed with ENSCI). (3-0) Cr. 3. S. *Prereq: 15 credits in biological sciences* Ecology, classification, creation and restoration, and management of wetlands. Emphasis on North American temperate wetlands.**EEOB 564I. Wetland Ecology.**(Cross-listed with ENSCI, IA LL). Cr. 4. SS. *Prereq: IA LL 312I*

Ecology, classification, creation, restoration, and management of wetlands. Field studies will examine the composition, structure and functions of local natural wetlands and restored prairie pothole wetlands. Individual or group projects.

EEOB 565. Morphometric Analysis.(Dual-listed with BIOL 465). (3-2) Cr. 4. Alt. S., offered even-numbered years. *Prereq: STAT 401*

A comprehensive overview of the theory and methods for the analysis of biological shape with emphasis on data acquisition, standardization, statistical analysis, and visualization of results. Methods for both landmark and outline data will be discussed.

EEOB 566. Molecular Evolution.(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq: Permission of instructor*

Seminar/discussion course covering the fundamentals of molecular evolution. Emphasis is placed on original scientific literature and current topics, including rates and patterns of genetic divergence; nucleotide and allelic diversity; molecular clocks; gene duplications; genome structure; organellar genomes; polyploidy; transposable elements; and modes and mechanisms of gene and genome evolution.

EEOB 567. Empirical Population Genetics.(3-0) Cr. 3. F. *Prereq: Permission of instructor*

An overview of fundamental population genetic theory and the ecological and evolutionary factors underlying the distribution of genetic variation within and among natural populations. Emphasis on the analysis of inbreeding, breeding systems, parentage, relatedness, spatial autocorrelation, effective population size, hierarchical population models, and phylogeography.

EEOB 568. Advanced Systematics.(Cross-listed with ENT). (2-3) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: Permission of instructor*

Principles and practice of systematic biology; taxonomy, nomenclature and classification of plants and animals; sources and interpretation of systematic data; speciation; fundamentals of phylogenetic systematics.

EEOB 569. Biogeography.(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: BIOL 315 or equivalent; permission of instructor*

Principles underlying the geographic distribution of organisms throughout the world; biological influences of geological history and tectonic movements; role of climate, migration, dispersal, habitat, and phylogeny on past and present organismal distribution patterns; biogeographic methods.

EEOB 570. Landscape Ecology.

(Cross-listed with A ECL). (2-3) Cr. 3. Alt. F., offered even-numbered years.

Prereq: Permission of instructor; EEOB 588; a course in calculus

The study of ecological and evolutionary processes within a spatial context with emphasis on behavior, population, and community dynamics.

EEOB 573. Techniques for Biology Teaching.

(Cross-listed with A ECL, IA LL). Cr. 1-2. Repeatable. SS.

The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573A. Techniques for Biology Teaching : Animal Biology.

(Cross-listed with A ECL, IA LL). Cr. 1-2. Repeatable. SS.

The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573B. Techniques for Biology Teaching: Plant Biology.

(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.

The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573C. Techniques for Biology Teaching: Fungi and Lichens.

(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.

The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573D. Techniques for Biology Teaching: Aquatic Ecology.

(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.

The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573E. Techniques for Biology Teaching: Prairie Ecology.

(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.

The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573F. Techniques for Biology Teaching: Wetland Ecology.

(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.

The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573G. Techniques for Biology Teaching: Limnology.

(Cross-listed with A ECL, IA LL). Cr. 1-2. Repeatable. SS.

The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573H. Techniques for Biology Teaching: Animal Behavior.

(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.

The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573I. Techniques for Biology Teaching: Insect Ecology.

(Cross-listed with A ECL, IA LL). Cr. 1-2. Repeatable. SS.

The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573J. Techniques for Biology Teaching: Biology of Invertebrates.

(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.

The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573K. Techniques for Biology Teaching: Non-invasive Use of Living Organisms.

(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.

The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573W. Techniques for Biology Teaching: Project WET.

(Cross-listed with A ECL, IA LL). Cr. 1-2. Repeatable. SS.

The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 575I. Field Mycology.

(Cross-listed with IA LL). Cr. 4. Alt. SS., offered even-numbered years.

Identification and classification of the common fungi; techniques for identification, preservation, and culture practiced with members of the various fungi groups.

EEOB 576. Functional Ecology.

(Dual-listed with BIOL 476). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

Prereq: BIOL 312

The nature of adaptations to physical and biotic environments. Biophysical, biomechanical, and physiological bases of the structure, form, growth, distribution, and abundance of organisms.

EEOB 577. Concepts in Theoretical Ecology and Evolution.

(2-0) Cr. 1. Alt. F., offered even-numbered years.

Readings and discussion of influential ideas in ecological and evolutionary theory, with an emphasis on how models are used as conceptual tools for building synthetic paradigms. Topics are chosen according to student interests; may include spatial ecology, behavioral theory, chaos, community assembly and biodiversity, and others.

EEOB 578. Foundations of Theoretical Ecology and Evolution.(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: 1 semester of calculus or permission of instructor.*

Quantitative exploration of classic models and results in ecological and evolutionary theory. Introduction to conceptual, mathematical, and programming tools needed to build and analyze models.

EEOB 580I. Ecology and Systematics of Diatoms.

(Cross-listed with IA LL). Cr. 4. SS.

Field and laboratory study of freshwater diatoms; techniques in collection, preparation, and identification of diatom samples; study of environmental factors affecting growth, distribution, taxonomic characters; project design and execution including construction of reference and voucher collections and data organization and analysis.

EEOB 581. Environmental Systems I: Introduction to Environmental Systems.(Dual-listed with BIOL 381). (Cross-listed with ENSCI). Cr. 3-4. F. *Prereq: 12 credits of natural science including biology and chemistry*

Introduction to the structure and function of natural environmental systems. Emphasis on the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems.

EEOB 582. Environmental Systems II: Analysis of Environmental Systems.(Dual-listed with BIOL 382). (Cross-listed with ENSCI). (2-2) Cr. 3. S. *Prereq: ENSCI 581*

Continuation of EnSci 581. Systems approach to the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems.

EEOB 584. Advanced Ecosystem Ecology.

(Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered even-numbered years.

Prereq: Combined 12 credits in biology, chemistry, and physics.

Advanced studies of ecosystems and the biological and physical factors that influence their properties and dynamics. Conceptual foundations and modern approaches to ecosystem studies. Interactions among organisms, biological diversity, and ecosystem attributes. Quantitative analyses of accumulations, transformations, and fluxes of nutrients, water, and energy within and among ecosystems. Global change issues.

EEOB 585. Advanced Community Ecology.(2-3) Cr. 3. Alt. F., offered even-numbered years. *Prereq: BIOL 312*

Factors controlling species diversity, species abundance, and the structure and function of communities in space and time. Relationships between species diversity and ecosystem process rates and community stability.

EEOB 586. Aquatic Ecology.(Dual-listed with BIOL 486). (Cross-listed with ENSCI). (3-0) Cr. 3. F. *Prereq: BIOL 312 or EnSci 381 or EnSci 402 or NREM 301*

Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine, and wetland ecology.

EEOB 586L. Aquatic Ecology Laboratory.(Dual-listed with BIOL 486L). (Cross-listed with ENSCI). (0-3) Cr. 1. F. *Prereq: Concurrent enrollment in BIOL 486*

Field trips and laboratory exercises to accompany 486. Hands-on experience with aquatic research and monitoring techniques and concepts.

EEOB 587. Microbial Ecology.

(Dual-listed with BIOL 487). (Cross-listed with ENSCI, MICRO). (3-0) Cr. 3. F.

Prereq: Six credits in biology and 6 credits in chemistry

Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural systems.

EEOB 589. Population Ecology.(Dual-listed with BIOL 489). (Cross-listed with A ECL). (2-2) Cr. 3. F. *Prereq: BIOL 312, STAT 101 or STAT 104, a course in calculus, or graduate standing*

Concepts and theories of population dynamics with emphasis on models of growth, predation, competition, and regulation.

EEOB 590. Graduate Independent Study.(Cross-listed with A ECL, ANTHR, IA LL). Cr. 1-4. Repeatable. SS. *Prereq: Graduate classification and permission of instructor***EEOB 590A. Special Topics: Current Topics in Ecology.**Cr. 1-3. Repeatable. *Prereq: 10 credits in biology, permission of instructor***EEOB 590B. Special Topics: Current Topics in Evolutionary Biology.**Cr. 1-3. Repeatable. *Prereq: 10 credits in biology, permission of instructor***EEOB 590C. Special Topics: Current Topics in Organismal Biology.**Cr. 1-3. Repeatable. *Prereq: 10 credits in biology, permission of instructor***EEOB 590I. Special Topics: Graduate Independent Study.**(Cross-listed with A ECL, ANTHR, IA LL). Cr. 1-4. Repeatable. SS. *Prereq: Graduate classification and permission of instructor***EEOB 596. Ecology and Society.**(3-0) Cr. 3. *Prereq: Graduate classification in biological or environmental sciences/ studies with at least one course in ecology*

Analysis of conceptual and methodological debates in ecology. Historical development of competing research traditions and philosophies. Topics include i) methodological issues in ecological science, ii) conceptual issues in theoretical ecology, iii) conceptual issues in applied ecology, iv) relation of ecology to environmental and social issues.

EEOB 599. Creative Component.

Cr. arr.

Research toward nonthesis master's degree.

Courses for graduate students:**EEOB 611. Analysis of Populations.**(Cross-listed with A ECL). (2-2) Cr. 3. Alt. F., offered odd-numbered years. *Prereq: BIOL 312; STAT 401; a course in calculus*

Quantitative techniques for analyzing vertebrate population data to estimate parameters such as density and survival. Emphasis on statistical inference and computing.

EEOB 679. Light Microscopy.(Cross-listed with GDCB, MICRO). (2-9) Cr. 5. *Prereq: Permission of instructor*

Current theories encompassing light optics and their applications for specimen preservation, paraffin and resin sectioning, general staining, histochemistry, cytophotometry, immunocytochemistry, autoradiography, image digitization, processing and presentation, and digital macro- and micrography. Limit of 10 students.

EEOB 680. Scanning Electron Microscopy.(Cross-listed with GDCB, MICRO). (2-9) Cr. 5. *Prereq: Permission of instructor*

Current theories encompassing scanning electron optics and their applications for high and low vacuum microscopy, specimen chemical and cryopreservation methods, x-ray microanalysis, backscattered and topographic imaging, image digitization, processing and presentation. Limit of 10 students.

EEOB 681. Transmission Electron Microscopy.(Cross-listed with GDCB, MICRO). (2-9) Cr. 5. *Prereq: GDCB 679 and permission of instructor*

Current theories encompassing electron optics and their applications for chemical and physical specimen preservation, ultramicrotomy, general staining and cytochemistry, immunocytochemistry, autoradiography, negative staining and shadowing, x-ray microanalysis, image digitization, processing and presentation.

EEOB 698. Seminar.

Cr. 1. Repeatable.

Meetings of graduate students and faculty to discuss recent literature and problems under investigation.

EEOB 699. Research.

Cr. arr. Repeatable.

Research for thesis or dissertation. Offered on a satisfactory-fail basis only.

EEOB 699I. Research.

(Cross-listed with A ECL, ANTHR, GDCB, IA LL). Cr. 1-4. Repeatable.

Economics

1. Undergraduate Study

The department offers work for the degrees of bachelor of science with a major in agricultural business, bachelor of science with a major in business economics, and bachelor of science with a major in economics. The department also offers a minor in agricultural business and a minor in economics. In addition, the department participates in the interdepartmental programs in international agriculture and global resources systems offered by the College of Agriculture and Life Sciences, and the interdepartmental programs in international studies and women's studies offered by the College of Liberal Arts and Sciences. For further discussion of programs in agricultural business, see the statement below under College of Agriculture and Life Sciences. For programs in business economics, see the statement below under College of Business. For programs in economics, see the statement below under College of Liberal Arts and Sciences. Visit our web site at www.econ.iastate.edu.

Graduates of the Department of Economics have unique skills that distinguish them from other graduates. They have the ability to think and reason clearly, and can address complex issues using tools and decision making models of economics, mathematics, statistics, as well as concepts from the biological, physical, and social sciences. Graduates develop human relations skills that are essential in the work place and the community. They are able to communicate economic and business concepts to other professionals, collective organizations, governments, and the general public using a variety of means. Graduates understand the interaction of technology, human activity, and the environment. They are able to apply concepts associated with making "optimal" choices among economic alternatives. Graduates are prepared for graduate work in law, economics, and business, as well as the world of work, having learned tools of critical analysis and skills essential to getting and keeping meaningful employment.

1.1. College of Agriculture and Life Sciences

1.1.1. Major - Agricultural Business

The major in agricultural business prepares students for advanced studies and for careers in agricultural finance, management in agricultural supply and marketing industries, commodity merchandising and research, business research and management, farm and ranch operations, commercial farm management and appraisal, agricultural sales and marketing, agricultural reporting and public relations, agricultural extension, international activities, and government service. A major in agricultural business with a minor in economics is not permitted; however, a double major in agricultural business and economics is permitted.

Students majoring in Agricultural Business often choose elective coursework leading to minors in the College of Business or in the College of Agriculture and Life Sciences, or emphasizing specific areas within agricultural business such as finance, management, commodity analysis, research, agricultural sales and marketing, environmental economics, farm and ranch operations, international economics, agricultural extension, or government service.

The major in agricultural business requires a minimum of 120 credits and a 2.00 minimum GPA. Only 65 credits from a two-year institution may apply, which may include up to 16 technical credits. In addition, at most 9 P-NP credits of free electives can be applied toward the degree, and a minimum of 15 credits must be earned from courses taught by the Department of Economics at ISU. The major in agricultural business requires:

International Perspective: 3 cr. from approved course list.**U.S. Diversity: 3 cr. from approved course list.****Communication/Library: 13 cr.**

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
One of the following		3
ENGL 302	Business Communication	

ENGL 309	Report and Proposal Writing	
ENGL 314	Technical Communication	
One of the following		3
SP CM 212	Fundamentals of Public Speaking	
AGEDS 311	Presentation and Sales Strategies for Agricultural Audiences	
LIB 160	Information Literacy	1
A grade of C or better must be earned in two of the English composition courses (ENGL 150, ENGL 250, and (ENGL 302 or ENGL 309 or ENGL 314)) and the speech fundamentals course (SP CM 212 or AGEDS 311).		
Total Credits		13

Humanities and Social Sciences: 6 cr.

ECON 102	Principles of Macroeconomics	3
Three credits from approved course list.		3

Ethics: 3 cr. from approved course list.**Life Sciences: 6 cr.**

One of the following		3
BIOL 101	Introductory Biology	
BIOL 211	Principles of Biology I	
Three credits from approved course list.		3
Total Credits		6

Mathematics: 13-14 cr.

One of the following		4
MATH 160	Survey of Calculus	
MATH 165	Calculus I	
One of the following		3-4
ECON 207	Applied Economic Optimization	
MATH 166	Calculus II	
STAT 226	Introduction to Business Statistics I	3
STAT 326	Introduction to Business Statistics II	3

Physical Sciences: 5 cr.

CHEM 163 & 163L	College Chemistry and Laboratory in College Chemistry	5
Or		
PHYS 111	General Physics	5

Agricultural, Food, or Natural Resources Sciences: 6 cr. from approved course list.**General Economics: 9-10 cr.**

ECON 101	Principles of Microeconomics	3
ECON 301	Intermediate Microeconomics	3-4
One of the following		3
ECON 302	Intermediate Macroeconomics	
ECON 353	Money, Banking, and Financial Institutions	
ECON 492	Graduating Senior Survey	R

Business and Agricultural Business: 28.5 cr.

ACCT 284	Financial Accounting	3
FIN 301	Principles of Finance	3
Six credits from ACCT 285 or any 300-489 ACCT, FIN, MKT, MGMT, MIS, or SCM courses.		6
ECON 110	Orientation in Agricultural Business	0.5
ECON 235	Introduction to Agricultural Markets	3
ECON 292	Career Seminar	1
Nine credits of ECON courses from approved department list.		9
Three credits of 400-489 level ECON courses.		3

Electives: 32-35 cr.

Agricultural business majors seeking a double major in economics must take a minimum of 42 credits in economics. These include all of the economics courses required for the economics major. To double major in economics, agricultural business majors must also earn an average grade of C or higher in ECON 101

Principles of Microeconomics, ECON 102 Principles of Macroeconomics, and ECON 302 Intermediate Macroeconomics with no grade lower than a C-.

1.1.2. Minor - Agricultural Business

The Department of Economics also offers a minor in Agricultural Business. Courses to be included in the minimum of 15 credits include the following:

ECON 101	Principles of Microeconomics	3
ECON 230	Farm Business Management	3
ECON 235	Introduction to Agricultural Markets	3
ECON 301	Intermediate Microeconomics	3-4
Three credits of ECON courses from approved department list.		3

1.2. College of Business

1.2.1. Major - Business Economics

The major in business economics provides a high-quality education with a balanced emphasis in both business and economics. Graduates from the business economics major possess a unique mix of analytical and applied business skills well-suited for employment in upper level management and public service positions. Graduates also have solid preparation for graduate studies in law, economics, and in Master of Business Administration (MBA) programs. A double major in business economics and agricultural business is not permitted; a double major in business economics and economics is not permitted. A major in business economics with a minor in economics is not permitted. For the undergraduate curriculum in business economics, see College of Business.

1.3. College of Liberal Arts and Sciences

1.3.1. Major - Economics

The major in economics prepares students for advanced studies, professional degrees such as law and business administration, and for careers in finance, business and economic research, management, insurance, brokerage, real estate, labor relations, international development, and government service. Candidates for the bachelor of science degree with a major in economics must fulfill requirements established by the College of Liberal Arts and Sciences. (For details of undergraduate curricula in liberal arts and sciences, see College of Liberal Arts and Sciences, Curriculum.)

Students majoring in economics are required to take the following courses within the General Education Area of Natural Sciences and Mathematical Disciplines:

Choose one of the following:		7-8
MATH 165 & MATH 166	Calculus I and Calculus II	
MATH 165 & ECON 207	Calculus I and Applied Economic Optimization *	
MATH 160 & ECON 207	Survey of Calculus and Applied Economic Optimization *	
STAT 226	Introduction to Business Statistics I	3
STAT 326	Introduction to Business Statistics II	3

*Students who plan to take postgraduate work in economics should take MATH 165 and MATH 166.

Students must complete the following courses in economics:

ECON 101	Principles of Microeconomics	3
ECON 102	Principles of Macroeconomics	3
ECON 301	Intermediate Microeconomics	3-4
ECON 302	Intermediate Macroeconomics	3
ECON 371	Introductory Econometrics	4
Three credits of ECON courses from approved departmental list.		3
Nine credits of 400-489 level ECON courses.		9

A minimum of 15 credits of economics coursework must be earned at Iowa State University. Economics majors must maintain a C average in ECON 101 Principles of Microeconomics, ECON 102 Principles of Macroeconomics, ECON 301 Intermediate Microeconomics, and ECON 302 Intermediate Macroeconomics with no grade lower than a C-.

Communication Proficiency Requirement: The major in economics requires a grade of C or better in each of the following English courses:

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3

or ENGL 250H	Written, Oral, Visual, and Electronic Composition: Honors	
ENGL 302	Business Communication	3
or ENGL 314	Technical Communication	

Optimal progress for an economics major would be to complete the principles sequence

ECON 101	Principles of Microeconomics	3
ECON 102	Principles of Macroeconomics	3
and one of the following sequences in the freshman year:		7-8
MATH 165	Calculus I	
or MATH 166	Calculus II	
MATH 165	Calculus I	
or ECON 207	Applied Economic Optimization	
MATH 160	Survey of Calculus	
or ECON 207	Applied Economic Optimization	

The freshman-year sequences should be followed in the sophomore year by the intermediate theory sequence:

ECON 301 & ECON 302	Intermediate Microeconomics and Intermediate Macroeconomics	
---------------------	---	--

STAT 226 Introduction to Business Statistics I and STAT 326 Introduction to Business Statistics II are recommended in the sophomore year.

1.3.2. Minor - Economics

Courses to be included in the minimum of 15 credits are:

ECON 101	Principles of Microeconomics	3
ECON 102	Principles of Macroeconomics	3
ECON 301	Intermediate Microeconomics	3-4
Six credits of ECON courses from approved department list.		6

1.4. Learner Outcome Goals

In general, our goal is that all Department of Economics graduates at Iowa State are able to use economic reasoning to think critically, to make decisions and to communicate effectively, to be ethical, to respect the environment, and to be multi-culturally and internationally aware.

Specifically, with respect to:

1. Critical Thinking, all graduates of the Department of Economics are able to:

- distinguish factual statements from opinions or value judgements
- use scientific methods to analyze and interpret data
- distinguish causal relationships from correlations
- determine the accuracy of statements
- understand the usefulness of abstractions and models
- distinguish simplifying and critical assumptions from unnecessary details
- objectively critique competing viewpoints to make reasoned judgements

2. Economic Reasoning:

- distinguish positive (what is) and normative (what should be) economics
- determine the opportunity cost of alternatives
- apply the concepts of comparative advantage, specialization, and exchange to analyze resource allocation issues
- identify the conditions under which markets allocate resources efficiently or markets fail
- apply marginal economic analysis to solve problems
- conduct comparative static analyses
- pose and test hypotheses

3. Decision Making/Problem Solving:

- work effectively alone and in teams to solve problems
- use scientific methods to identify optimal choices among economic alternatives
- identify decision-makers, objectives, choice variables, incentives, and constraints
- identify and apply the solution technique best suited for a specific problem

- e) understand how conclusions depend on assumptions
 - f) obtain information by accessing electronic or traditional media, listening, or by observation
 - g) use computer and statistical methods to organize and analyze data
4. Communications:
- a) communicate economic and business concepts to professionals, organizations, governments, and the general public
 - b) summarize research activities and analysis clearly and succinctly, and document sources and methods
 - c) write clearly and effectively
 - d) speak clearly and persuasively
 - e) prepare and present visual information effectively
5. Ethics:
- a) develop ethical perspectives and sense of moral responsibility and values
 - b) discuss contemporary ethical and moral issues in professional and private life
 - c) critically evaluate their own arguments and those of others
6. Environment Awareness:
- a) understand the physical and biological properties of the environment and ecological systems
 - b) understand how economic activity, such as business or agriculture, impacts the environment
7. International/Multi-Cultural Awareness:
- a) understand cultural diversity within our own nation and around the world
 - b) know the different economic or agricultural systems in other countries
 - c) have human relation skills essential in the work place and the community

2. Graduate Study

The department offers work toward the degrees master of science and doctor of philosophy with majors in economics and agricultural economics. The department also offers minors to students with majors in other departments. Visit our web site at www.econ.iastate.edu.

Students do not need to have an undergraduate major in economics or agricultural economics in order to qualify for graduate work in the department. However, students must have completed undergraduate coursework in macroeconomics, microeconomics, statistics, calculus, and matrix algebra. Some background in Math courses emphasizing logic and proofs is preferred, particularly for the Ph.D.

Candidates for the degree master of science (thesis option) are required to complete satisfactorily 30 credits of acceptable graduate work, including preparation of a thesis.

Candidates for the degree master of science (non-thesis option) may fulfill requirements by satisfactorily completing 32 credits of coursework, including preparation of a creative component.

Programs of study for the doctorate are organized by each student in consultation with the major professor and the individual's committee. Subject to staffing constraints, the department offers coursework to support the following fields of concentration: applied econometrics, agricultural economics, financial economics, industrial organization, international economics, human resources, macroeconomics, and environmental and resource economics. Each student must complete advanced courses in microeconomic and macroeconomic theory, quantitative methods and econometrics, and two fields from the list above. Students must demonstrate competence in theory by passing qualifying examinations. Students must also participate in workshops.

Courses primarily for undergraduates:

ECON 101. Principles of Microeconomics.

(3-0) Cr. 3. Resource allocation, opportunity cost, comparative and absolute advantage. Supply and demand. Marginal analysis. Theories of production and consumption, pricing, and the market system. Perfect and imperfect competition and strategic behavior. Factor markets. Present discounted value.

ECON 101H. Principles of Microeconomics: Honors.

(3-0) Cr. 3. *Prereq: Honors program students only*
Resource allocation, opportunity cost, comparative and absolute advantage. Supply and demand. Marginal analysis. Theories of production and consumption, pricing, and the market system. Perfect and imperfect competition and strategic behavior. Factor markets. Present discounted value.

ECON 101L. Laboratory in Principles of Microeconomics.

(0-2) Cr. 1. *Prereq: Concurrent enrollment in the appropriate section of ECON 101*
Discussion of material typically covered in Econ 101. Application of economic principles to real world problems. Economic principles and basic business management concepts applied to decision-making in agribusiness operations.

ECON 102. Principles of Macroeconomics.

(3-0) Cr. 3. *Prereq: ECON 101 recommended*
Measurement of macro variables and general macro identities. Classical models of full employment. Production and growth. Savings and investment. Employment and unemployment. Money, inflation, and price levels. Operation of the U.S. banking system. Fiscal and monetary policy. Elements of international finance.

ECON 102H. Principles of Macroeconomics: Honors.

(3-0) Cr. 3. *Prereq: ECON 101 recommended; admission to the Honors program.*
Measurement of macro variables and general macro identities. Classical models of full employment. Production and growth. Savings and investment. Employment and unemployment. Money, inflation, and price levels. Operation of the U.S. banking system. Fiscal and monetary policy. Elements of international finance.

ECON 110. Orientation in Agricultural Business.

(1-0) Cr. 0.5.
Orientation course for freshman and new transfer students in agricultural business. Offered on a satisfactory-fail basis only.

ECON 207. Applied Economic Optimization.

(2-2) Cr. 3. *Prereq: MATH 151, MATH 160, MATH 165 or equivalent*
Application of linear algebra, calculus and unconstrained and constrained optimization techniques to economic problems. Learning outcomes include the ability to (i) identify the objective, decision variables and constraints in economic decision problems, (ii) represent elements of an economic problem in simple mathematical models, (iii) identify and apply mathematical tools that can be used to solve the problems, (iv) identify the strengths and limitations of the solution method, and (v) interpret the economic meaning and implications of the solution.

ECON 230. Farm Business Management.

(2-2) Cr. 3. *Prereq: ECON 101; ACCT 284*
Business and economic principles applied to decision making and problem solving in the management of a farm business. Cash flow, partial, enterprise, and whole farm budgeting. Information systems for farm accounting, analysis, and control. Obtaining and managing land, capital, and labor resources. Alternatives for farm business organization and risk management.

ECON 234. Small Business Management.

(3-0) Cr. 3. *Prereq: ECON 101*
An introduction to small business management, entrepreneurship, and economics utilizing a series of case studies. Exploration of issues related to starting or acquiring a new business and development of knowledge and skills for successful management of a small business, with an emphasis on agricultural business.

ECON 235. Introduction to Agricultural Markets.

(3-0) Cr. 3. *Prereq: ECON 101*
Basic concepts and economics principles related to markets for agricultural inputs and products. Overview of current marketing problems faced by farms and agribusinesses, farm and retail price behavior, structure of markets, food marketing channels, food quality and food safety, and the role of agriculture in the general economy. The implications of consumer preferences at the farm level. Introduction to hedging, futures, and other risk management tools.

ECON 292. Career Seminar.

(1-0) Cr. 1. *Prereq: Classification in economics or agricultural business*
Career opportunities in the various industries and government institutions. Required training and skills needed to perform successfully in different types of careers. Factors important in finding and obtaining employment either before or after graduation including personal resumes, interviewing, and letter writing.

ECON 297. Internship.

Cr. 2. Repeatable, maximum of 4 credits. *Prereq: Permission of instructor and classification in agricultural business or economics*
Students complete a research report, based on their internship or approved work experience, that examines chosen topics in management, marketing or finance. Offered on a satisfactory-fail basis only.

ECON 298. Cooperative Education.

Cr. R. Prereq: *Permission of the department cooperative education coordinator; sophomore classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

ECON 301. Intermediate Microeconomics.

(3-0) Cr. 3-4. Prereq: *ECON 101; ECON 207 or MATH 166*

Theory of consumer and business behavior; optimal consumption choices and demand; theory of firm behavior; costs, production, and supply; competitive and imperfectly competitive markets; theory of demand for and supply of factors of production; general equilibrium analysis. Recitation required for 4 credits.

ECON 301H. Intermediate Microeconomics: Honors.

(3-0) Cr. 3-4. Prereq: *ECON 101; ECON 207 or MATH 166*

Theory of consumer and business behavior; optimal consumption choices and demand; theory of firm behavior; costs, production, and supply; competitive and imperfectly competitive markets; theory of demand for and supply of factors of production; general equilibrium analysis. Recitation required for 4 credits.

ECON 302. Intermediate Macroeconomics.

(3-0) Cr. 3. Prereq: *ECON 101, ECON 102; MATH 160 or MATH 165*

Theory of income, employment, interest rates, and the price level; fiscal and monetary policy; budget and trade deficits; money and capital inflows, interest rates, and inflation.

ECON 302H. Intermediate Macroeconomics: Honors.

(3-0) Cr. 3. Prereq: *ECON 101, ECON 102; MATH 160 or MATH 165*

Theory of income, employment, interest rates, and the price level; fiscal and monetary policy; budget and trade deficits; money and capital inflows, interest rates, and inflation.

ECON 308. Agent-Based Computational Economics.

(3-0) Cr. 3. Prereq: *ECON 101*

Computational study of economies as evolving systems of autonomous interacting agents. Key ideas from game theory and complex adaptive systems theory for modeling the adaptation, learning, and co-evolution of economic agents in decentralized market economies. Evolution of behavioral norms and interaction networks. Building agent-based computational laboratories for the experimental study of market protocols and agent learning processes. Illustrative economic applications (e.g., financial markets, labor markets, agricultural markets, electricity markets, auction markets, automated Internet markets, collective usage of common-pool resources).

ECON 312. History of Economic Thought.

(3-0) Cr. 3. Prereq: *ECON 101*

The logic and explanatory value of received economic doctrines since the middle of the eighteenth century. The reflection of past economic doctrines in contemporary theory and policy. Discussion of major works by Smith, Ricardo, Mill, Marx, Marshall, Walras, Wicksell, and Keynes.

ECON 313. Economics of Sports.

(3-0) Cr. 3. Prereq: *ECON 101*

Application of economics to issues in sports, including franchising; rival leagues and barriers to entry; cooperative, competitive, and collusive behavior; player productivity and compensation; contracts, unions, and discrimination; antitrust, taxation, and subsidies. Economic concepts include supply and demand, labor economics, pricing, public finance, production, game theory, and industrial organization.

ECON 320. Labor Economics.

(3-0) Cr. 3. Prereq: *ECON 101*

Economic analysis of contemporary domestic and international labor market issues including labor supply and demand, unemployment, and employment in the U.S. and elsewhere; investments in and returns to education, training, health, immigration and migration; income inequality; labor productivity; out-sourcing and global competitiveness; work incentives; compensation including benefits; and labor policies such as minimum wages, over-time pay, discrimination, unions, and immigration. Examples drawn from the U.S. and other developed countries with reference to developing countries where relevant. Meets International Perspectives Requirement.

ECON 321. Economics of Discrimination.

(Cross-listed with W S). (3-0) Cr. 3. Prereq: *ECON 101*

Economic theories of discrimination. Analysis of the economic problems of women and minorities in such areas as earnings, occupations, and unemployment. Public policy concerning discrimination. Poverty measurement and antipoverty programs in the U.S.

Meets U.S. Diversity Requirement

ECON 325. Biorenewable Systems.

(Cross-listed with A B E, AGRON, AN S, BUSAD, TSM). (3-0) Cr. 3. F. Prereq: *ECON 101, CHEM 163 or higher, MATH 140 or higher*

Converting biorenewable resources into bioenergy and biobased products. Biorenewable concepts as they relate to drivers of change, feedstock production, processes, products, co-products, economics, and transportation/logistics.

ECON 330. Advanced Farm Business Management.

(3-2) Cr. 4. Prereq: *ECON 230*

Effective use of strategic planning, decision methods, and computer assistance for solving farm problems. Applications of economic and management theory to analyze farm business decisions using efficiency measures to assess current resource use and direct the farm business analysis, planning, and tax process.

ECON 332. Cooperatives.

(3-0) Cr. 3. Prereq: *ECON 101*

Survey of cooperative activities with emphasis on agricultural cooperatives, types of cooperatives, methods of organization and operation, principles, legal and tax aspects, cooperative finance, economic possibilities, and limitations of cooperation. Students will learn how to work together in teams to solve problems while role playing directors of cooperative boards.

ECON 334. Entrepreneurship in Agriculture.

(3-0) Cr. 3. Prereq: *ECON 101*

Introduction to the process of entrepreneurship within the agricultural and food sectors. Emphasis on opportunity recognition and assessment, resource acquisition and feasibility analysis for both private and social enterprises. Students will develop a comprehensive feasibility study for a new business or non-profit organization.

ECON 336. Agricultural Selling.

(3-0) Cr. 3. Prereq: *ECON 101*

Principles of selling with application to agricultural and food related businesses. Attitudes, value systems, and behavioral patterns that relate to agricultural sales. Electronic marketing, selling strategies, preparing for sales calls, making sales presentations, handling objections, and closing sales. Analysis of the buying or purchasing process. Evaluation of agri-selling as a possible career choice.

ECON 337. Agricultural Marketing.

(2-2) Cr. 3. Prereq: *ECON 101 required, ECON 235 recommended*

Understanding of agricultural commodity markets for grain, livestock and dairy with emphasis on marketing decisions and risk management for farmers and processors. Lab will provide hands-on applications of marketing and management tools via market simulations.

ECON 344. Public Finance.

(3-0) Cr. 3. Prereq: *ECON 101*

The economic role of governments in market economies. Public goods, externalities, income distribution, and income maintenance programs. The effect of taxes on economic behavior, descriptions of the structure of the principal U.S. taxes, and current reform proposals.

ECON 353. Money, Banking, and Financial Institutions.

(3-0) Cr. 3. Prereq: *ECON 101, ECON 102*

Theoretical and applied analysis of money, banking, and financial markets; interest rates and portfolio choice; the banking industry in transition; the money supply process; the Federal Reserve System and the conduct of monetary policy; macro implications of monetary policy; international finance.

ECON 355. International Trade and Finance.

(3-0) Cr. 3. Prereq: *ECON 101, ECON 102*

Explanations of causes of international trade and the impact of trade on welfare and employment patterns. Analysis of government policies towards trade, such as tariffs, quotas, and free trade areas. Theory of balance of payments and exchange rate determination, and the role of government policies. Examination of alternative international monetary arrangements. Meets International Perspectives Requirement.

ECON 362. Applied Ethics in Agriculture.

(Cross-listed with SOC). (3-0) Cr. 3. Prereq: *ECON 101 or SOC 134, junior or senior status in the College of Agriculture*

Identify major ethical issues and dilemmas in the conduct of agricultural and agribusiness management and decision making. Discuss and debate proper ethical behavior in these issues and situations and the relationship between business and personal ethical behavior.

ECON 364. Rural Property Appraisal.(3-0) Cr. 3. *Prereq: ECON 101*

Use of income capitalization, sales comparison and cost appraisal concepts in appraising agricultural resources. Application of underlying economic/business/management principles, especially present value, as they relate to farmland appraisal. Determination and estimation of economic impacts of special consideration and property use factors. Evaluate feasibility and profitability of investment in rural property.

ECON 370. Comparative Capitalism and Economic Transitions.(3-0) Cr. 3. *Prereq: ECON 101, ECON 102*

Theories of capitalism and the economics of transition from a planned to a market economy; the role and the creation of economic institutions supporting different economic systems. An examination of recent experiences of Eastern European countries, the former Soviet Union, China, the European Union, and the United States.

Meets International Perspectives Requirement.

ECON 371. Introductory Econometrics.(4-0) Cr. 4. *Prereq: ECON 301, ECON 302 OR ECON 353, STAT 326*

Introduction to the models and methods used to estimate relationships and test hypotheses pertaining to economic variables. Among the topics covered in the course are: Single and multiple regression analysis; functional forms; omitted variable analysis; multicollinearity; heteroskedasticity; autocorrelation; simultaneous equations; and dynamic models.

ECON 376. Rural, Urban and Regional Economics.(Cross-listed with C R P). (3-0) Cr. 3. *Prereq: ECON 101*

Firm location with respect to regional resources, transport, scale economies, externalities, and policies. Measures of local comparative advantage and specialization. Spatial markets. Population location considering jobs, wages, commuting, and local amenities. Business, residential, and farm land use and value. Migration. Other topics may include market failure, regulation, the product cycle, theories of rural and urban development, developmental policy, firm recruiting, local public goods and public finance, schools, poverty, segregation, and crime.

ECON 378. Retirement Planning and Employee Benefits.(Cross-listed with GERON, HD FS). (3-0) Cr. 3. S. *Prereq: 3 credits in Principles of Economics and 3 credits in Human Development and Family Studies*

Economic well-being in the context of demographic change, the present and future of Social Security, family retirement needs analysis, investment strategies and characteristics of retirement plans, helping others to work towards financial security, family economic issues for retired persons. Overview of employee and retirement benefits.

Meets U.S. Diversity Requirement

ECON 380. Environmental and Resource Economics.(Cross-listed with ENV S). (3-0) Cr. 3. *Prereq: ECON 101*

Natural resource availability, use, conservation, and government policy, including energy issues. Environmental quality and pollution control policies.

ECON 385. Economic Development.(Cross-listed with GLOBE). (3-0) Cr. 3. *Prereq: ECON 101, ECON 102*

Current problems of developing countries, theories of economic development, agriculture, and economic development, measurement and prediction of economic performance of developing countries, alternative policies and reforms required for satisfying basic needs of Third World countries, interrelationships between industrialized countries and the developing countries, including foreign aid.

Meets International Perspectives Requirement.

ECON 387. Economies of China and India.(3-0) Cr. 3. *Prereq: ECON 101*

The economic development of China and India within the larger historical, political, and socioeconomic contexts. The characteristics of the development paths of major industries. The drivers of and impediments for future economic development. The two economies' connections with the world economy.

Meets International Perspectives Requirement.

ECON 398. Cooperative Education.

Cr. R. *Prereq: Permission of the department cooperative education coordinator; junior classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

ECON 401. Topics in Microeconomics.(3-0) Cr. 3. *Prereq: ECON 301, STAT 226*

Advanced treatment of selected topics from one or more of the following areas: household production models, factor markets, game theory and imperfect competition, general equilibrium, intertemporal choice, asset markets, income distribution, externalities and public goods, etc.

ECON 402. Topics in Macroeconomics.(3-0) Cr. 3. *Prereq: ECON 301, ECON 302, STAT 226*

Advanced treatment of selected topics from one or more of the following areas: business cycle theory, growth theory, fiscal and monetary policy, coordination issues, open economy macroeconomics, and financial economics.

ECON 416. Industrial Organization.(3-0) Cr. 3. *Prereq: ECON 301*

Study of the structure of firms and markets and of their interaction, with emphasis on imperfectly competitive markets. Behavior of firms in strategic settings and insights of basic game-theoretic models. Welfare implications of alternative market organizations, consequences of market power, and scope for government regulation and antitrust/competition policies. Topics include monopoly and price discrimination, oligopoly models, product quality, product differentiation, vertical integration, information and advertising, patents, R&D and innovation, and regulation.

ECON 418. Introduction to Game Theory.(3-0) Cr. 3. *Prereq: ECON 301*

Systematic introduction to game theory and its uses in economics. Develops the basic framework, models and tools necessary to analyze games of strategy, including: Strategic and extensive-form representations of games; best response functions and Nash equilibrium, mixed strategies backward induction and subgame-perfect equilibrium, imperfect and incomplete information, Bayesian and sequential equilibria. Examples and applications taken from economics, business, political science, law and biology.

ECON 431. Managerial Economics.(3-0) Cr. 3. *Prereq: ECON 301*

Theory of the firm; organizational incentives and efficiency; moral hazard; role of information and decision making under uncertainty; ownership and control; business investment.

ECON 437. Commodity Marketing and Risk Management.(3-0) Cr. 3. *Prereq: ECON 235, ECON 301, STAT 326*

The purpose and performance of commodity markets. How commodity marketing institutions function. Merchandising arrangements. Distinguishing features of agricultural commodities. Hedging, arbitrage, and speculation in commodity spot, forward, futures, and options markets. Valuation theory.

ECON 455. International Trade.(3-0) Cr. 3. *Prereq: ECON 301*

Rigorous treatment of theories of international trade and international factor movements. Examination of the impact of trade and labor migration on domestic and world welfare and on the distribution of income. Theoretical analysis of government policies towards trade and factor movements, including quotas, tariffs, free trade areas and immigration restrictions. Discussion of contemporary issues and controversies concerning globalization, including multinational firms and labor migration.

Meets International Perspectives Requirement.

ECON 457. International Finance.(3-0) Cr. 3. *Prereq: ECON 302*

National income accounting and balance of payments; foreign exchange rates and exchange rate markets; money, interest rates, and exchange rate determination; prices, exchange rates, and output in the short run; international monetary arrangements; fixed versus flexible exchange rates; optimal currency areas; international capital flows; currency and financial crises in emerging markets.

Meets International Perspectives Requirement.

ECON 458. Economic Systems for Electric Power Planning.(Cross-listed with E E). (3-0) Cr. 3. *Prereq: E E 303 or ECON 301*

Evolution of electric power industry. Power system operation and planning and related information systems. Linear and integer optimization methods. Short-term electricity markets and locational marginal prices. Risk management and financial derivatives. Basics of public good economics. Cost recovery models including tax treatment for transmission investments.

ECON 460. Agricultural, Food, and Trade Policy.(Dual-listed with ECON 560). (3-0) Cr. 3. *Prereq: ECON 301 or ECON 501*

Description and analysis of economic problems of U.S. agriculture. Explanation and economic analysis of government policies and programs to develop agriculture, conserve agricultural resources, address consumer food concerns, stabilize farm prices, and raise farm incomes. The influence of macropolicy, world economy, international trade, and bioenergy on U.S. agriculture.

ECON 466. Agricultural Finance.

(3-0) Cr. 3. *Prereq: ECON 301, STAT 226, FIN 301 and ECON 353 (recommended)*

Financial analysis of agricultural businesses; liquidity, capital structure, and growth and risk of agricultural firms; capital budgeting methods; analysis of land investments, leasing, and costs of credit; financial intermediation and major financial institutions for agriculture; borrower-lender relationships, and asset-liability management techniques by financial intermediaries; public policies affecting agricultural credit markets.

ECON 480. Intermediate Environmental and Resource Economics.

(Dual-listed with ECON 580). (3-0) Cr. 3. *Prereq: ECON 301 or ECON 501*

Theories of natural resource utilization and allocation. Externalities, public goods, and environmental quality. Renewable energy, biofuels, land use change and life cycle analysis of carbon, and sustainability and resource conservation. Methodologies for analyzing natural resource and environmental problems and evaluating resource policies.

ECON 490. Independent Study.

Cr. 1-5. Repeatable, maximum of 6 credits. *Prereq: Junior or senior classification, 14 credits in economics*

Offered on a satisfactory-fail basis only. No more than 9 credits of Econ 490 may be used toward graduation

ECON 490E. Independent Study: Entrepreneurship.

Cr. 1-5. Repeatable, maximum of 6 credits. *Prereq: Junior or senior classification, 14 credits in economics*

Offered on a satisfactory-fail basis only. No more than 9 credits of Econ 490 may be used toward graduation

ECON 490H. Independent Study: Honors.

Cr. 1-5. Repeatable, maximum of 6 credits. *Prereq: Junior or senior classification, 14 credits in economics*

Offered on a satisfactory-fail basis only. No more than 9 credits of Econ 490 may be used toward graduation

ECON 492. Graduating Senior Survey.

Cr. R. *Prereq: Graduating senior*

Final preparations for graduation. The final stages of job searching, interviewing, letter writing, and resume preparation. Outcomes assessment information from graduating seniors including opinion surveys, instructor/advisor/course evaluations, exit interviews, student accomplishment surveys, job placement surveys, and comprehensive skills examinations. Departmental recognition of graduating seniors. Life as an alumnus - expectations and obligations. Convocation and commencement information. Offered on a satisfactory-fail basis only.

ECON 496. Economics International Travel Course.

Cr. 1-3. Repeatable, maximum of 6 credits. *Prereq: Sophomore status; permission of instructor.*

Tour and study of international agricultural and/or nonagricultural economies, markets, and institutions. Locations and duration of tours will vary. Limited enrollment.

Meets International Perspectives Requirement.

ECON 498. Cooperative Education.

Cr. R. *Prereq: Permission of the department cooperative education coordinator; senior classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduates:**ECON 500. Quantitative Methods in Economic Analysis I.**

(4-0) Cr. 4. *Prereq: ECON 301, 1 year of calculus, STAT 401, and permission of Director of Graduate Education*

Economic applications of selected mathematical and statistical concepts: linear models and matrix algebra; differential calculus and optimization; integral calculus and economic dynamics; probability distributions, estimation, and hypothesis testing in the analysis of economic data.

ECON 501. Microeconomics.

(4-0) Cr. 4. *Prereq: ECON 301, credit or enrollment in ECON 500 or equivalent background in calculus and statistics*

The theory of the consumer, theory of the firm, perfect and imperfect competition, welfare economics, and selected topics in general equilibrium and uncertainty.

ECON 502. Macroeconomics.

(4-0) Cr. 4. *Prereq: ECON 302, credit or enrollment in ECON 500 or equivalent background in calculus and statistics*

Models of aggregate supply and demand, theories of consumption and investment, money supply and demand, inflation, rational expectations, stabilization policy, financial markets, and international finance.

ECON 509. Applied Numerical Methods in Economics.

(2-2) Cr. 3. *Prereq: ECON 500, ECON 501; or ECON 600, ECON 601*

Use of numerical techniques to solve economic problems. Numerical differentiation and integration numeric solutions of systems of equations, static and dynamic optimization problems including unconstrained optimization, maximum likelihood methods, general nonlinear programming methods, dynamic programming and optimal control, numerical methods for solving functional equations.

ECON 510. Experimental Economics.

(3-0) Cr. 3. *Prereq: ECON 501 or ECON 601*

Introduction to experimental economics and major subject areas addressed by laboratory and field experiments. Exploration of experimental methods by concentrating on series of experiments. Applications include individual decision-making, behavioral game theory, markets, behavioral labor, public and development economics, social network, and neuroeconomics. Research project.

ECON 520. Labor Supply and Human Capital Formation.

(3-0) Cr. 3. *Prereq: ECON 501 or ECON 601*

Labor supply decisions and empirical analysis for agricultural operators and other self-employed and wage-earning households; multiple job holding; resource allocation in productive households; human capital formation by households, firms, and public institutions, which includes schooling, on-the-job training, migration, health, research, raising of children, and implications for household income and welfare; applications to problems in rural areas of developing and developed countries.

ECON 521. Labor Markets.

(3-0) Cr. 3. *Prereq: ECON 501 or ECON 601*

Analysis of labor demand and market determination of wages and employment; analysis of distortions in labor markets due to non-competitive forces, legislation, and discrimination; wage inequality, compensation and work incentives; compensating differentials; microeconomic analysis of unemployment and job search.

ECON 530. Advanced Farm Management.

(2-0) Cr. 2. *Prereq: 6 credits in economics*

Offered off campus as demand warrants. Risk management principles applied to agriculture. Sources of risk and uncertainty. Attitudes toward risk. Techniques for analyzing and controlling production, marketing, financial, legal and human risk. Designed for master of agriculture program only.

ECON 532. Managerial Economics for the Global Organization.

(3-0) Cr. 3. *Prereq: ECON 101 and enrollment in MBA or BAS program; not for economics majors*

Applications of microeconomic theory and decision analysis for firms operating in U.S. and internationally. Topics include demand & supply, consumer choice theory, production and cost theory, short run and long run business decisions, input cost and human capital differences across countries, empirical estimation of demand and supply, pricing, exchange rates, government and business, market structures and strategy.

ECON 533. Economic and Business Decision Tools.

(Cross-listed with BUSAD). (3-0) Cr. 3. *Prereq: ECON 501 or ECON 532*

Team taught by faculty in the Department of Economics and the College of Business, this course focuses on applied economic and business tools for decision making. The topics include: Monte Carlo analysis with applications to option pricing and insurance mechanism design, portfolio analysis using existing standard spreadsheet software and add-ons, dynamic programming tools for inventory management and sequential decisions, discrete choice modeling and statistical bootstrapping, and financial performance evaluation using commercially available software.

ECON 535. Applied Agricultural Marketing.

(2-0) Cr. 2. *Prereq: 6 credits in economics*

Off campus. Offered as demand warrants. Market structure and performance in the food and agricultural sector. Vertical coordination systems and pricing systems in agriculture. Market information and price forecasting. Alternative marketing methods and strategies for major Iowa agricultural commodities including the use of futures and options markets. Designed for master of agriculture program only.

ECON 537. Commodity Markets: Analysis and Strategy.

(3-0) Cr. 3. *Prereq: ECON 501 or ECON 532 or ECON 601, ECON 571 or STAT 326*

Analysis of exchange-traded and over-the-counter commodity markets, their functions and performance. Evaluation of hedging, speculation, and arbitrage strategies. Commodity transformation over space and time. Valuation of derivatives and comparison with derivatives on financial assets. Efficiency and the role of information in commodity markets. Market regulation.

ECON 545. Public Economics.(3-0) Cr. 3. *Prereq: ECON 501 or ECON 601*

Optimal taxation; excess burden; partial and general equilibrium analysis of tax incidence; social insurance; effects of taxation on labor supply and savings; economics of the health sector.

ECON 553. Applied Research in Monetary and Macroeconomics.(3-0) Cr. 3. *Prereq: ECON 502, ECON 571*

Application of economic theory to the analysis of contemporary issues in macroeconomics, monetary economics, and financial economics.

ECON 555. Issues in International Economics.(3-0) Cr. 3. *Prereq: ECON 501, ECON 502*

Theories of international trade and finance. Emphasis on current policy issues in international economics.

ECON 560. Agricultural, Food, and Trade Policy.(Dual-listed with ECON 460). (3-0) Cr. 3. *Prereq: ECON 301 or ECON 501*

Description and analysis of economic problems of U.S. agriculture. Explanation and economic analysis of government policies and programs to develop agriculture, conserve agricultural resources, address consumer food concerns, stabilize farm prices, and raise farm incomes. The influence of macroeconomic policy, world economy, international trade, and bioenergy on U.S. agriculture.

ECON 563. Issues in Government Policy Affecting Agriculture.(2-0) Cr. 2. *Prereq: ECON 101*

Off campus. Offered as demand warrants. Government policy and the policy-making process as it affects food, agriculture, and trade. Description and analysis of government policies and programs designed to address production agriculture problems and consumer food concerns. Evaluation of the interaction of agriculture and world trade as affected by U.S. and foreign government policies. Designed for master of agriculture program only.

ECON 571. Intermediate Econometrics.(3-0) Cr. 3. *Prereq: ECON 500*

Single and multiple equation regression models; dummy explanatory variables; serial correlation; heteroskedasticity; distributed lags; qualitative dependent variables; simultaneity. Use of econometric models for tests of economic theories and forecasting.

ECON 576. Spatial Economics.(3-0) Cr. 3. *Prereq: ECON 501 or ECON 601*

Analysis of location choice by firms, employees, and households emphasizing the role of spatial variations in agglomeration economies, economies of scale, distance, transport, endowments, amenities, and local government. Models of land use, urban form, spatial competition, central place theory, and migration. Techniques of discrete choice analysis, statistical analysis of categorical data, urban system modeling, and interregional computable general equilibrium.

ECON 580. Intermediate Environmental and Resource Economics.(Dual-listed with ECON 480). (3-0) Cr. 3. *Prereq: ECON 301 or ECON 501*

Theories of natural resource utilization and allocation. Externalities, public goods, and environmental quality. Renewable energy, biofuels, land use change and life cycle analysis of carbon, and sustainability and resource conservation. Methodologies for analyzing natural resource and environmental problems and evaluating resource policies.

ECON 581. Advanced Environmental Economics.(3-0) Cr. 3. *Prereq: ECON 501 or ECON 601*

Interrelationships of natural resource use and the environment. Applied welfare and benefit-cost analyses. Externalities and pollution abatement. Nonmarket valuation of resources. Property rights. Legal and social constraints. Policy approaches.

ECON 590. Special Topics.

Cr. 1-5. Repeatable.

Offered on a satisfactory-fail basis only.

ECON 599. Creative Component.

Cr. 1-5.

Offered on a satisfactory-fail basis only.

Courses for graduate students:**ECON 600. Quantitative Methods in Economic Analysis II.**(4-1) Cr. 4. *Prereq: ECON 500*

Unconstrained and equality- and inequality-constrained optimization; the Kuhn-Tucker formulation; abstract spaces; dynamic programming; dynamical systems.

ECON 601. Microeconomic Analysis I.(4-1) Cr. 4. *Prereq: ECON 301, previous or concurrent enrollment in 600 and permission of Director of Graduate Education*

Economic theory and methodology; theory of consumer behavior, theory of the competitive firm, supply and factor demand; duality relations in consumer and producer theory, welfare change measures; partial equilibrium analysis, perfect competition, monopoly; choice under uncertainty, the expected utility model, risk aversion; insurance, portfolio and production decisions under risk.

ECON 602. Macroeconomic Analysis.(4-1) Cr. 4. *Prereq: ECON 301, ECON 302, previous or concurrent enrollment in 600 and permission of Director of Graduate Education*

Neoclassical aggregate growth models; the overlapping generations model; endogenous growth models; equilibrium business cycle theories; equilibrium job search and matching; models of money; fiscal and monetary policy; income and wealth distribution.

ECON 603. Microeconomic Analysis II.(4-1) Cr. 4. *Prereq: ECON 601, ECON 602 and permission of Director of Graduate Education*

General equilibrium analysis, efficiency, and welfare; market failures, externalities, and the theory of the second best; introduction to game theory; adverse selection, signaling, screening and moral hazard.

ECON 604. Advanced Macroeconomic Analysis.(4-1) Cr. 4. *Prereq: ECON 601, ECON 602 and permission of Director of Graduate Education*

Topics will be selected from: new Keynesian approaches to business cycle theory; endogenously generated business cycles; models of credit and financial intermediation; mechanism design and time inconsistency issues; political economy models; heterogeneous-agent models with strategic interaction; path dependence, network effects, and lock-in; economies as evolving self-organizing systems.

ECON 605. Advanced Topics in Microeconomics.(3-0) Cr. 3. *Prereq: ECON 603*

Selected topics in microeconomic theory of current significance to the profession.

ECON 606. Advanced Topics in Macroeconomics.(3-0) Cr. 3. *Prereq: ECON 603, and credit or current enrollment in ECON 604*

Selected topics in macroeconomic theory of current significance to the profession.

ECON 615. Theoretical Industrial Organization.(3-0) Cr. 3. *Prereq: ECON 603*

Theoretical analysis of traditional topics in industrial organization. Review of game theory. Monopoly and oligopoly theory, price discrimination, product differentiation, research and development, diffusion of innovation, network externalities, and asymmetric information.

ECON 616. Empirical Methods in Industrial Organization.(3-0) Cr. 3. *Prereq: ECON 603, ECON 671*

Empirical methods in industrial organization. Measurement of market power. Discrete choice models of product differentiation. Empirical studies of price dynamics, entry, collusion, price discrimination, technology adoption, asymmetric information, and auctions.

ECON 618. Game Theory.(3-0) Cr. 3. *Prereq: ECON 603, or ECON 501 and permission of instructor*

Theoretical analysis and applications of strategic games, extensive form games, and cooperative games. Nash equilibrium, correlated equilibrium, Bayesian games, subgame perfect equilibrium, the core, evolutionary equilibrium, repeated games with finite automata, and common knowledge.

ECON 641. Agricultural Economics I.(3-0) Cr. 3. *Prereq: ECON 603*

Demand and supply for agricultural products, market equilibrium models, implications of government policies on the agricultural sector, evaluation of research and development policies in agriculture, and biofuel and energy policy analysis. Commodity promotion programs, food safety and consumers' valuation of product attributes.

ECON 642. Agricultural Economics II.(3-0) Cr. 3. *Prereq: ECON 603*

Advanced treatment of topics and models in agricultural economics with emphasis on stochastic models. Topics will include analysis of risk in decision making by consumers, firms and farms; analysis of risk management strategies for farmers; the economics of commodity storage; analysis of the impact of biofuels on commodity prices; and models of agricultural inputs and outputs.

ECON 653. Financial Economics.

(3-0) Cr. 3. *Prereq:* ECON 603, ECON 672. *Recommended:* ECON 674, STAT 551
Review of decision-making under uncertainty. Portfolio Theory. Theoretical foundations of asset valuation models: capital asset pricing model (CAPM), arbitrage pricing theory (APT), representative agent models, pricing of derivative securities. Complete and incomplete asset markets, credit markets, financial intermediaries, the role of government in the financial sector. Market frictions, crashes, bubbles. Applications of asset valuation models, with emphasis on their testable implications.

ECON 654. Advanced Topics in Financial Economics.

(3-0) Cr. 3. Repeatable. *Prereq:* ECON 603
Selected topics in financial economics of current significance to the profession.

ECON 655. International Trade.

(3-0) Cr. 3. *Prereq:* ECON 603
Theories of international trade; welfare and distributional aspects of trade and commercial policies. Optimal trade policies in the presence of domestic distortions; strategic trade policy; international trade and economic growth.

ECON 657. International Finance.

(3-0) Cr. 3. *Prereq:* ECON 602
The intertemporal approach to current account determination; non-traded goods and the real exchange rate; fiscal policy in the open economy; monetary approach to balance of payments and exchange rate determination; sticky price models of the open economy; exchange-rate based stabilizations; capital inflows; financial and balance of payments crises; international business cycles.

ECON 671. Econometrics I.

(4-1) Cr. 4. *Prereq:* ECON 501 and STAT 447 or STAT 542
Probability and distribution theory for univariate and multivariate normal random variables, introduction to the theory of estimators for linear models, hypothesis testing and inference, introduction to large sample properties of estimators; derivation of common estimators and their properties for the classical and general multiple regression models, hypothesis testing, forecasting, implications of specification errors - missing data, left-out regressors, measurement error, stochastic regressors.

ECON 672. Econometrics II.

(4-1) Cr. 4. *Prereq:* ECON 671
Identification, estimation, and evaluation of systems of simultaneous equations; qualitative choice and limited dependent variable models; introduction to time series methods and applications, including alternative variance specifications.

ECON 673. Microeconometrics.

(3-0) Cr. 3. *Prereq:* ECON 672, ECON 601
Econometric treatment of models arising in microeconomic applications. Methods are primarily concerned with the analysis of cross-section data. Topics may include: systems of demand equations in panel data settings, random utility models of discrete choices, production possibilities frontier estimation, and discrete/continuous models of participation and consumption.

ECON 674. Macroeconometrics.

(3-0) Cr. 3. *Prereq:* ECON 672, ECON 602
Time-series econometric techniques and their application to macroeconomics and financial markets. Techniques may include GARCH and ARCH-M models, unit-root tests, nonlinear adjustment models, structural VARs, and cointegration tests.

ECON 675. Advanced Topics in Econometrics.

(3-0) Cr. 3. Repeatable. *Prereq:* ECON 672 or STAT 543
Advanced treatment of issues important in econometrics. Topics chosen from asymptotic theory, nonlinear estimation, Bayesian and robust econometrics, econometric time series, limited dependent variables and censored regression models, nonparametric and semiparametric methods, bootstrapping and Monte Carlo techniques, etc.

ECON 680. Advanced Resource Economics.

(3-0) Cr. 3. *Prereq:* ECON 603
Dynamic allocation of scarce, exhaustible, and renewable natural resources, including minerals and energy, soil, water, forests, and fish. Social versus private decisions. Market and nonmarket considerations. Technological change. Regulation. Dynamics and uncertainty.

ECON 690. Advanced Topics.

Cr. 1-5. Repeatable.
Offered on a satisfactory-fail basis only.

ECON 691. Third-Year Paper.

Cr. 3.
Under the direction of the major professor, Ph.D. students write a formal research paper as an introduction to the dissertation research process. Offered on a satisfactory-fail basis only.

ECON 693. Workshops.

Cr. 1-3. Repeatable. *Prereq:* 6 graduate credits in chosen field
Offered on a satisfactory-fail basis only.

ECON 699. Research for Thesis or Dissertation.

Cr. arr. Repeatable.
Offered on a satisfactory-fail basis only.

English

Undergraduate Study

As one of the core disciplines of the liberal arts, English promotes an understanding of the way language functions and provides all students with fundamental skills needed to succeed in college, at work, and as citizens. Courses in the department foster critical thinking, leadership ability, and democratic engagement and prepare students to communicate effectively in college, in the workplace, and in public forums. Students interested in majoring in English can choose a

- BA in English (with possible tracks in Literature, Creative Writing, Literary Editing, or Rhetoric)
- BA in English with an emphasis in Teacher Education (required courses for licensure are marked below)
- BS in Technical Communication.

Students interested in a BS degree in English will need to complete 12 extra credits beyond the general education requirements; these credits must be taken in Linguistics, natural science, mathematics, social science, or selected courses in Kinesiology.

Those interested in civic discourse and oral communication can major in Speech Communication (see the catalog listing Speech Communication). Students in secondary education can also earn an ESL endorsement through classes in the English Department (courses are marked below).

An undergraduate major in English can be a solid basis for the professional study of law, medicine, theology, and business or careers in education, arts management, and publishing. An undergraduate major in technical communication can prepare students for careers in nonprofit and government communication, web design and communication consulting, software documentation, and scientific and technical writing and editing.

The department also provides communication courses for students across the disciplines through the ISUComm initiative. The goal of ISUComm is to strengthen student communication and enhance students' critical thinking skills by creating opportunities for them to practice communication skills throughout their academic careers. These courses include ENGL 150 and 250 (ISUComm foundation courses) and ENGL 302, 309, and 314 (ISUComm advanced communication courses). These courses benefit all ISU undergraduates by addressing written, oral, visual, and electronic communication, or WOVE. WOVE prepares students for 21st-century communication activities.

As part of Iowa State's commitment to interdisciplinary study and cultural inclusiveness, English also has strong ties with African American Studies, American Indian Studies, Classical Studies, Latina/o Studies, Linguistics, Speech Communication, and Women's Studies. In addition to course offerings in literature, creative writing, linguistics, speech communication, rhetoric, and technical communication, the field of English studies features strong connections with the technical, scientific, and environmental work that distinguishes Iowa State.

International students and other nonnative speakers of English can go to the Intensive English and Orientation Program (IEOP) in the department, which offers special courses in English for both undergraduate and graduate students who are native speakers of other languages. (See catalog entries under English Courses for Native Speakers of Other Languages and English Requirement for International Students.)

English Major Requirements

English majors are required to have, in addition to ISUComm foundation courses (ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition), at least 37 credits in English. English majors transferring from other institutions must take at least 18 of their credits in English while in residence at Iowa State.

To graduate with a major in the English Department, a student must earn at least a C (not a C-) in ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition as well as in each of the courses taken to fulfill the program of study. Earning at least a C in ISUComm foundation courses and in one advanced communication course also meets the departmental Communication Proficiency requirement.

* Indicates English courses or groups required for students seeking teacher licensure

Texts and Language: Choose 5		15
ENGL 207	Introduction to Creative Writing	
ENGL 220	Descriptive English Grammar	
ENGL 225	Survey of British Literature to 1800 *	
ENGL 226	Survey of British Literature since 1800 *	
ENGL 227	Survey of American Literature to 1865 *	
ENGL 228	Survey of American Literature since 1865 *	
ENGL 260	Introduction to Literary Study *	
Critical Reading and Textual Analysis: Choose 2		6
ENGL 275	Analysis of Popular Culture Texts	
ENGL 310	Rhetorical Analysis *	
ENGL 339	Literary Theory and Criticism	
ENGL 350	Rhetorical Traditions	
ENGL 396	Teaching the Reading of Young Adult Literature *	
Advanced Communication: Choose 1 *		3
ENGL 302	Business Communication	
ENGL 303	Free-Lance Writing for Popular Magazines	
ENGL 304	Creative Writing: Fiction	
ENGL 305	Creative Writing: Nonfiction	
ENGL 306	Creative Writing: Poetry	
ENGL 309	Report and Proposal Writing	
ENGL 313	Rhetorical Website Design	
ENGL 314	Technical Communication	
ENGL 315	Creative Writing: Screenplays	
ENGL 316	Creative Writing: Playwriting	
Choose 4: English Electives at the 200, 300, and 400 Level (does not include ENGL 250) (Students seeking teacher licensure must take 219*, 220*, 354*, and 420*.)		12
ENGL 497	Capstone Assessment *	1
Total Credits		37

Additional Courses: All English majors must complete the following requirements which may overlap with the core requirements:

Three credits in Women's or Multicultural Literature (340s, 352)*	3
Fifteen credits in English classes at the 300 level*	15
Six credits in English classes at the 400 level*	6
Nine credits in English classes with a historical perspective* (choose from the following or any 360s or 370s course)	9
ENGL 225	Survey of British Literature to 1800 *
ENGL 228	Survey of American Literature since 1865 *
ENGL 237	Survey of Film History
ENGL 350	Rhetorical Traditions
ENGL 353	World Literature: Western Foundations through Renaissance *
ENGL 354	World Literature: Seventeenth Century to the Present *
ENGL 420	History of the English Language *

See also the 4-year plan of study grid for the English BA and BS showing suggested courses by semester.

Teacher Licensure Courses

Students seeking teacher licensure in Teacher Education should consult their adviser for a complete list of courses that meet major requirements and specialized licensure requirements (see Teacher Education section in this catalog). Among those licensure requirements are the following additional courses in English:

ENGL 353	World Literature: Western Foundations through Renaissance *
ENGL 397	Practice and Theory of Teaching Writing in the Secondary Schools *

ENGL 494 Practice and Theory of Teaching Literature in the Secondary Schools *

ENGL 417 Student Teaching *

Additional course requirements outside of English for students seeking teacher licensure include the following:

C I 202	Learning Technologies in the 7-12 Classroom
C I 204	Social Foundations of Education in the United States
C I 280A	Pre-Student Teaching Experience I: Core Experience
C I 395	Teaching Reading in Middle and Secondary Schools
C I 406	Multicultural Foundations of School and Society: Introduction
C I 426	Principles of Secondary Education
SP ED 401	Teaching Secondary Students with Exceptionalities in General Education
PSYCH 230	Developmental Psychology
PSYCH 333	Educational Psychology
HIST or POL S American History or Government	
SP CM 212	Fundamentals of Public Speaking
or	THRE 358 Oral Interpretation

Some of these courses taken to meet licensure requirements may also meet General Education requirements for the college.

See also the 4-year plan of study grid for English Education showing courses by semester. (<https://nextcatalog.registrar.iastate.edu/planofstudy/liberalartsandsciences/#englishba-englisheducation>)

English Minor Requirements

The minor in English prepares students in any discipline for which communication activities are needed to succeed in their professions. Minors in English will complete 15 credits beyond ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition, all with a grade of C (not C-) or higher, 9 of which will be at the 300 or 400 levels. Twelve of these hours must be taken at Iowa State. Up to 6 of the 15 credits taken for the minor may be used to meet other degree program requirements.

ESL Endorsement Requirements

At Iowa State University, ESL is an add-on endorsement, which means that students need to be certified in another area and to take all basic teacher preparation courses. The growing number of English learners in our public schools make the ESL endorsement a useful addition to a main teaching license.

To add English as a Second Language, students must earn credits in the following courses. In some cases, relevant special topics courses or experimental courses may be substituted. Some courses have prerequisites.

ENGL 219	Introduction to Linguistics	3
OR		
ENGL 511	Introduction to Linguistic Analysis	3
ENGL 220	Descriptive English Grammar	3
OR Test Out		
ENGL 425	Second Language Learning and Teaching	3
OR		
ENGL 512	Second Language Acquisition	3
ENGL 514	Sociolinguistics	3
OR		
C I 420	Bilingualism, Bilingual Education, and U.S. Mexican Youth	3
OR		
C I 520	Bilingualism, Bilingual Education, and U.S. Mexican Youth	3
ENGL 524	Literacy: Issues and Methods for Nonnative Speakers of English	3
AND		
ENGL 518	Teaching English as a Second Language Methods and Materials	3
OR		
ENGL 525	Methods in Teaching Listening and Speaking Skills to Nonnative Speakers of English	3

Appropriate curriculum and instruction substitutes for ENGL 524 (e.g., CI 378) will be considered).

C I 280S	Pre-Student Teaching Experience I: English as a Second Language (ESL)	1
C I 480S	Pre-Student Teaching Experience III: English as a Second Language (ESL)	2

Departmental Awards and Scholarships

Each spring the English Department offers many scholarships and awards for both undergraduate and graduate students. Some undergraduate awards are for returning English and Technical Communication majors only; others are for returning students of any major who demonstrate excellence in some aspect of English or technical communication. Application forms and a list of current awards are available on the English Department website and in 206 Ross Hall early in the Spring Semester. Award winners are announced each year in April.

Graduate Study

The department offers graduate work in six majors and one graduate certificate program. We have three Master of Arts majors, one Master of Fine Arts major, two Doctor of Philosophy majors, and one TESL/TEFL Certificate. Information on application requirements and procedures for all of our graduate majors is available at <http://www.engl.iastate.edu/graduate-students/how-to-apply/>.

The Master of Arts (MA) degree programs offer various possibilities for the advanced study of writing, language, and literature. The degree requires a minimum of 30 hours of graduate credits, including a final thesis or creative component (3 credits). Both the MA in English and the MA in TESL/Applied Linguistics have language requirements that may be fulfilled in a number of ways. Students whose native language is other than English are considered to have met the language requirement after satisfying the Graduate College English requirement.

Students admitted to the MA in English choose between two areas of specialization. The Literature specialization is designed to prepare students for a variety of career paths. These include going on for a PhD; teaching at the secondary, two- and four-year college, and university levels; and working in fields such as publishing, research and administration, or non-profit organizations. The Literature and the Teaching of Reading specialization is designed for students with a teaching license who wish to take graduate literature courses and work toward a reading endorsement by taking three reading courses in Curriculum and Instruction.

The MA in Rhetoric, Composition, and Professional Communication (RCPC) prepares students for careers in business, technical, and professional communication in the private and public sectors and for teaching writing and communication at the postsecondary level.

The MA in TESL/Applied Linguistics (TESL/AL) prepares students for careers in teaching English to nonnative speakers of English, either in the U.S. or abroad. Students with MA degrees in TESL teach adults and younger learners in a wide variety of contexts, supervise language programs, work for testing organizations, and create language teaching materials. Students admitted to the degree program can choose among optional specializations: Computer-Assisted Language Learning (CALL); Language Assessment; English for Specific Purposes (ESP); Literacy; and Literature in ESL.

The Master of Fine Arts (MFA) program in Creative Writing and Environment (CWE) cultivates in its students an interdisciplinary approach to research and writing. The program's unique design allows writers to develop a heightened environmental imagination that finds expression in quality, publishable works of fiction, nonfiction, poetry, and drama. The program is designed to prepare students for careers as writers, teachers at the college and university level, and editors. The MFA degree requires 54 hours of graduate credit: a core of creative writing courses, a book-length thesis (6 credits), an experiential environmental fieldwork component (3 credits), and 12 credits in disciplines other than English (such as Landscape Architecture, Anthropology, Environmental Science, among many others) relevant to an individual student's research interests and thesis project.

The Doctor of Philosophy (PhD) in Applied Linguistics and Technology (ALT) focuses on English language teaching and assessment with particular emphasis on issues and practices related to technology use in these areas. It prepares students for a variety of academic appointments in departments of applied linguistics and English and for professional opportunities in research and development foundations, international publishing enterprises, and government agencies in the U.S. and around the world where English as a second language is taught and used for specific educational, vocational, and professional purposes. Candidates are required to complete 72 hours of graduate credit and a dissertation and to pass a portfolio assessment, a preliminary examination

(consisting of a dissertation proposal and pilot study and a written response to questions about the proposal or pilot study), and an oral defense of the dissertation.

The PhD in Rhetoric and Professional Communication (RPC) focuses on the rhetorical theory, history, pedagogy, and practice of written, oral, visual, and electronic communication (WOVE) in professional communities, such as business, industry, science, and government. The degree prepares graduates for academic positions in rhetoric, in multimodal composition, and in business, professional, and technical communication, as well as for work in the private and public sectors as professional communication specialists, editors, designers, and communications managers. Candidates are required to complete 72 hours of graduate credit and a dissertation and to pass a portfolio assessment, a preliminary examination consisting of a comprehensive examination and a special field examination, and an oral defense of the dissertation.

A Graduate Certificate in Teaching English as a Second Language/Teaching English as a Foreign Language (TESL/TEFL) prepares students to teach English to nonnative speakers of English either in the U.S. or abroad. It offers students grounding in the linguistic understanding of English and a flexible program of study with courses in teaching methodology, language assessment, and the use of technology to address students' language needs. This 12-credit program requires two prerequisites, one core requirement, and three graduate courses. All courses are cross-listed with courses in Linguistics.

The department offers graduate students an opportunity to gain professional experience through fieldwork and internships, departmental research activities, ISUComm, the Intensive English and Orientation Program (IEOP), and the Speech Communication Program. Teaching and research assistantships are available for qualified students. Teaching assistants are responsible for teaching, with faculty supervision, ISUComm Foundation Courses, courses in public speaking, English as a Second Language (ESL), and business and technical communication. Research assistants may be assigned to faculty members engaged in research projects. One or more Pearl Hogrefe Fellowships in Creative Writing covering stipend and tuition are awarded each year to outstanding graduate students. Grannis Scholarships may be awarded to new students in the Applied Linguistics and Technology doctoral program. Freda Huncke Endowment Graduate Teaching Fellowships are awarded to select first-year students.

With prior written approval from the School of Education, students may use selected courses to meet requirements for the ESL endorsement (K-12) for teachers.

The English Department at the MA level requires 9 credits of English at the 500 or 600 level in the respective major (English, RCPC, TESL/AL). A graduate minor in the English Department at the MFA level requires 12 credits of creative writing courses at the graduate level with 3 of those credits being ENGL 550 Creative Writing: Craft and Professional Practice. A graduate minor in the English Department at the PhD level requires 12 credits at the 500 or 600 level in the respective major (ALT or RPC).

Courses primarily for undergraduates:

ENGL 010. Intensive English and Orientation Program.

(21-0) Cr. arr. F.S.SS. *Prereq: Recommendation of the English Department* Full-time study of English for speakers of other languages. Brochure available from the IEOP Office, 102 Landscape Architecture, or at www.ieop.iastate.edu. Offered on a satisfactory-fail basis only.

ENGL 099. Strategies for Nonnative Speakers of English.

Cr. arr. F.S. *Prereq: Recommendation of English Department; placement in sections L and R is determined by examination; section S is open to all interested international students. Available P/NP to graduate students at their department's option*

ENGL 099L. Strategies for Nonnative Speakers of English: Strategies for Listening.

Cr. arr. F.S. *Prereq: Recommendation of English Department; placement in sections L and R is determined by examination; section S is open to all interested international students. Available P/NP to graduate students at their department's option*

ENGL 099R. Strategies for Nonnative Speakers of English: Strategies for Reading.

Cr. arr. F.S. *Prereq: Recommendation of English Department; placement in sections L and R is determined by examination; section S is open to all interested international students. Available P/NP to graduate students at their department's option*

ENGL 099S. Strategies for Nonnative Speakers of English: Academic Speaking and Pronunciation.

Cr. arr. F.S. *Prereq: Recommendation of English Department; placement in sections L and R is determined by examination; section S is open to all interested international students. Available P/NP to graduate students at their department's option*

ENGL 101. English for Native Speakers of Other Languages.

(3-0) Cr. 3. F.S. *Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)*

For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. Credit from ENGL 101 does not count toward graduation.

ENGL 101B. English for Native Speakers of Other Languages: Academic English.

(3-0) Cr. 3. F.S. *Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)*

For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. Credit from ENGL 101 does not count toward graduation.

ENGL 101C. English for Native Speakers of Other Languages: Academic English II--Undergraduates.

(3-0) Cr. 3. F.S. *Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)*

For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. Credit from ENGL 101 does not count toward graduation.

ENGL 101D. English for Native Speakers of Other Languages: Academic English II--Graduates.

(3-0) Cr. 3. F.S. *Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)*

Available P/NP to graduate students at their department's option. For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. Credit from ENGL 101 does not count toward graduation.

ENGL 120. Computers and Language.

(Cross-listed with LING). (3-0) Cr. 3.

Introduction to the use of linguistic knowledge in computer applications today and the basic computational techniques used in such applications. The development of these techniques throughout the history of computational linguistics. How the study of language has contributed to the advancement of technology and how certain computational problems have influenced the way linguists study language.

ENGL 150. Critical Thinking and Communication.

(3-0) Cr. 3. F.S.SS. *Prereq: Credit for or concurrent enrollment in LIB 160*

Application of critical reading and thinking abilities to topics of civic and cultural importance. Introduction of basic oral, visual, and electronic communication principles to support writing development. Initiation of communication portfolio.

ENGL 180. Communication Skills for International Teaching Assistants.

Cr. 1-3. Repeatable, maximum of 2 times. F.S.

Placement based upon OECT test results. Persons whose native language is English cannot take ENGL 180 for credit. No more than one section of ENGL 180 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for ENGL 180 does not apply toward graduation.

ENGL 180A. Communication Skills for International Teaching Assistants: Speaking Skills.

Cr. 3. Repeatable, maximum of 2 times. F.S.

Emphasis on pronunciation improvement and greater fluency in spoken English. Placement based upon OECT test results. Persons whose native language is English cannot take ENGL 180 for credit. No more than one section of ENGL 180 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for ENGL 180 does not apply toward graduation.

ENGL 180B. Communication Skills for International Teaching Assistants: Intermediate Spoken English.

Cr. 3. Repeatable, maximum of 2 times. F.S.

Placement based upon OECT test results. Persons whose native language is English cannot take ENGL 180 for credit. No more than one section of ENGL 180 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for ENGL 180 does not apply toward graduation.

ENGL 180C. Communication Skills for International Teaching Assistants: Advanced Spoken English.

Cr. 3. Repeatable, maximum of 2 times. F.S.

For students who have completed ENGL 180A or ENGL 180B but have not reached the passing level on the OECT test. Placement based upon OECT test results. Persons whose native language is English cannot take ENGL 180 for credit. No more than one section of ENGL 180 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for ENGL 180 does not apply toward graduation.

ENGL 180D. Communication Skills for International Teaching Assistants: Presentation Skills.

Cr. 3. Repeatable, maximum of 2 times. F.S.

Developing explanations, leading discussions and handling questions in a teaching environment. Placement based upon OECT test results. Persons whose native language is English cannot take ENGL 180 for credit. No more than one section of ENGL 180 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for ENGL 180 does not apply toward graduation.

ENGL 180E. Communication Skills for International Teaching Assistants: Supervised Independent Study.

Cr. 1-3. Repeatable, maximum of 2 times. F.S.

Seminar with individual observation and consultation. Placement based upon OECT test results. Persons whose native language is English cannot take 180 for credit. No more than one section of ENGL 180 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for ENGL 180 does not apply toward graduation.

ENGL 201. Introduction to Literature.

(3-0) Cr. 3. *Prereq: Credit in or exemption from 150*

Study of selected examples of drama, poetry, short fiction, and the novel drawn from both British and American literature. Recommended for nonmajors.

ENGL 207. Introduction to Creative Writing.

(3-0) Cr. 3. F.S. *Prereq: Credit in or exemption from 150*

Course introduces students to the fundamentals of writing fiction, poetry, and creative nonfiction. Extensive readings in all three genres. Students learn creative processes through writing exercises, workshops, and conferences.

ENGL 219. Introduction to Linguistics.

(Cross-listed with LING). (3-0) Cr. 3. F.S. *Prereq: Sophomore classification*

Introduction to linguistic concepts and principles of linguistic analysis with English as the primary source of data. Sound and writing systems, sentence structure, vocabulary, and meaning. Issues in the study of usage, regional and social dialects, language acquisition, and language change.

ENGL 220. Descriptive English Grammar.

(Cross-listed with LING). (3-0) Cr. 3. F.S. *Prereq: ENGL 250*

Overview of grammatical structures and functions. Parts of speech; phrase, clause, and sentence structure; sentence types and sentence analysis; rhetorical grammar and sentence style; terminology. Not a remedial, English composition, or ESL course.

ENGL 225. Survey of British Literature to 1800.

(3-0) Cr. 3. *Prereq: ENGL 250*

Representative works of British literature from the origins to 1800 in historical, cultural, and literary contexts. Will include multiple genres.

ENGL 226. Survey of British Literature since 1800.

(3-0) Cr. 3. *Prereq: ENGL 250*

Representative works from 1800 to the present in historical, cultural, and literary contexts. Will include multiple genres and may include texts that reflect and/or critique the impact and legacy of the British empire on its former colonies, i.e., postcolonial literature.

ENGL 227. Survey of American Literature to 1865.

(3-0) Cr. 3. *Prereq: ENGL 250*

Representative works of American literature from its origins (including indigenous and conquest literatures) through the end of the Civil War in historical, cultural, and literary contexts. Will include multiple genres.

ENGL 228. Survey of American Literature since 1865.

(3-0) Cr. 3. Prereq: ENGL 250

Representative works written in the United States since the Civil War in historical, cultural, and literary contexts, with attention to the cultural and ethnic diversity of Americans. Will include multiple genres.

ENGL 237. Survey of Film History.

(3-0) Cr. 3. F. Prereq: Credit in or exemption from 150

A survey of the history of film, both U.S. and international, from the beginnings in the late nineteenth century to the present.

ENGL 240. Introduction to American Indian Literature.

(Cross-listed with AM IN). (3-0) Cr. 3. F. Prereq: Credit in or exemption from ENGL 150

Appreciation of oral and written forms of American Indian literatures. Tropes and techniques in oral, visual and written texts. Focus on the role of American Indians in interdisciplinary approaches to modern social and environmental issues as expressed in literary works.

Meets U.S. Diversity Requirement

ENGL 250. Written, Oral, Visual, and Electronic Composition.

(3-0) Cr. 3. F.S.SS. Prereq: ENGL 150 or exemption from ENGL 150; sophomore classification or exemption from ENGL 150; credit for or concurrent enrollment in LIB 160

Analyzing, composing, and reflecting on written, oral, visual, and electronic (WOVE) discourse within academic, civic, and cultural contexts. Emphasis on supporting a claim and using primary and secondary sources. Continued development of communication portfolio.

ENGL 250H. Written, Oral, Visual, and Electronic Composition: Honors.

(3-0) Cr. 3. F. Prereq: Exemption from ENGL 150 and admission to Freshman Honors Program; credit for or concurrent enrollment in LIB 160

In-depth analysis, composition, and reflection on written, oral, visual, and electronic (WOVE) discourse within academic, civic, and cultural contexts. Emphasis on argumentation: developing claims, generating reasons, providing evidence. Individual sections organized by special topics. Development of communication portfolio.

ENGL 260. Introduction to Literary Study.

(3-0) Cr. 3. Prereq: Credit in or exemption from 150

Basic principles of literary study. Emphasis on writing of interpretive and critical essays. Particular attention to poetry. Designed for English majors.

ENGL 275. Analysis of Popular Culture Texts.

(Cross-listed with SP CM). (3-0) Cr. 3. F.S. Prereq: Credit in or equivalent of 250

Analysis of how information and entertainment forms persuade and manipulate audiences. Study of several forms that may include newspapers, speeches, television, film, advertising, fiction, and magazines. Special attention to verbal and visual devices.

ENGL 302. Business Communication.

(3-0) Cr. 3. F.S.SS. Prereq: ENGL 250, junior classification

Theory, principles and processes of effective written, oral, visual, and electronic communication typically encountered in business and the professions. Extensive practice in many areas of workplace communication, including letter, memo, and email correspondence; short proposals and reports; policies and procedures; job packet including letters of application and resumes; website analysis; brochures; and individual and team presentations.

ENGL 302H. Business Communication: Honors.

(3-0) Cr. 3. F.S.SS. Prereq: ENGL 250, junior classification

Theory, principles and processes of effective written, oral, visual, and electronic communication typically encountered in business and the professions. Extensive practice in many areas of workplace communication, including letter, memo, and email correspondence; short proposals and reports; policies and procedures; job packet including letters of application and resumes; website analysis; brochures; and individual and team presentations.

ENGL 303. Free-Lance Writing for Popular Magazines.

(3-0) Cr. 3. S. Prereq: ENGL 250, not open to freshmen

Practical workshop in writing nonfiction articles for popular magazines. Emphasis on writing, market research, preparation of manuscripts, methods of submission. Major goal of the course is production of marketable material.

ENGL 304. Creative Writing: Fiction.

(3-0) Cr. 3. F.S. Prereq: ENGL 250, not open to freshmen

Progresses from practice in basic techniques of fiction writing to fully developed short stories. Emphasis on writing, analytical reading, workshop criticism, and individual conferences.

ENGL 305. Creative Writing: Nonfiction.

(3-0) Cr. 3. F.S. Prereq: ENGL 250, not open to freshmen

Workshop in writing imaginative essays, both critical and personal. Analytical reading, development of literary techniques. Individual and small group conferences.

ENGL 306. Creative Writing: Poetry.

(3-0) Cr. 3. F.S. Prereq: ENGL 250, not open to freshmen

Progresses from traditional to contemporary forms. Emphasis on writing, analytical reading, workshop criticism, and individual conferences.

ENGL 308. Write Like a Woman.

(3-0) Cr. 3. F. Prereq: ENGL 250

Writing and reading interpretive fiction written by women. Emphasis on stories that embody a female literary life, gender-specific ways of creating characters and conflicts, analytical reading and writing, workshop criticism and shared commentaries. Includes multi-modal projects.

ENGL 309. Report and Proposal Writing.

(3-0) Cr. 3. F.S. Prereq: ENGL 250, junior classification

Introduction to the theory and practice of preparing and analyzing reports and proposals intended for businesses, governmental agencies, and/or private and corporate foundations. Individual assignments and group projects include textual and visual elements of print and electronic documents as well as oral presentations.

ENGL 310. Rhetorical Analysis.

(3-0) Cr. 3. F.S. Prereq: ENGL 250

Fundamental principles of rhetorical criticism. Focus on selected theories for analyzing cultural texts, including essays, speeches, film, technical and scientific documents, and websites. Emphasis on identifying artifacts, formulating research questions, applying methodologies, and understanding and practicing critical analysis through discussion and in writing.

ENGL 312. Biological Communication.

(3-0) Cr. 3. F.S. Prereq: ENGL 250

Emphasis on effective writing and communication methods in the biological sciences, presentation of research data, methods of bibliographic citation, ethical communication, use of oral and visual presentation methods for biological information, manuscript and report preparation. For students in the biological and related life sciences.

ENGL 313. Rhetorical Website Design.

(3-0) Cr. 3. Prereq: ENGL 250

Rhetorical principles of multimodal composing in hypertextual environments. Focus on writing according to web style guidelines, employing cascading stylesheets for layout and design, and using principles of information architecture to determine optimal site structure. Final project involves constructing interactive client site using latest web standards.

ENGL 314. Technical Communication.

(3-0) Cr. 3. F.S.SS. Prereq: ENGL 250, junior classification

Theories, principles, and processes of effective written, oral, visual, and electronic communication of technical information. Attention to major strategies for analyzing and adapting to audiences in various communication situations and composing technical discourse including organizing visual and verbal information. Extensive practice in many areas of technical communication, including instructions and procedures, proposals and reports, website analysis and design, and individual and team presentations.

ENGL 314H. Technical Communication: Honors.

(3-0) Cr. 3. F.S.SS. Prereq: ENGL 250, junior classification

Theories, principles, and processes of effective written, oral, visual, and electronic communication of technical information. Attention to major strategies for analyzing and adapting to audiences in various communication situations and composing technical discourse including organizing visual and verbal information. Extensive practice in many areas of technical communication, including instructions and procedures, proposals and reports, website analysis and design, and individual and team presentations.

ENGL 315. Creative Writing: Screenplays.

(3-0) Cr. 3. F. Prereq: ENGL 250, not open to freshmen

Stresses master scene technique of writing fully developed screenplays. Emphasis on movie techniques, writing, workshop criticism, analytical reading and viewing, and individual conferences.

ENGL 316. Creative Writing: Playwriting.

(Cross-listed with THTR). (3-0) Cr. 3. S. Prereq: ENGL 250, not open to freshmen

Progresses from production of scenes to fully developed one-act plays. Emphasis on action, staging, writing, analytical reading, workshop criticism, and individual conferences.

ENGL 330. Science Fiction.(3-0) Cr. 3. *Prereq: ENGL 250*

Study of science fiction from its origins in nineteenth-century to the present. May include study of specific types of science fiction, such as classic, cyberpunk, feminist, or apocalyptic narratives; and may include consideration of science fiction film and/or theory.

ENGL 332. Visual Communication of Quantitative Information.

(Cross-listed with STAT). (3-0) Cr. 3. Alt. S., offered even-numbered years.

Prereq: STAT 101, STAT 104, STAT 201 or STAT 226; ENGL 250

Communicating quantitative information using visual displays; visualizing data; interactive and dynamic data displays; evaluating current examples in the media; color, perception, and representation in graphs; interpreting data displays.

ENGL 335. Studies in Film.(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: ENGL 250*

Principles of film art and the traditional vocabulary of literature as applied to film. Influence of film on modes of thought and behavior.

ENGL 339. Literary Theory and Criticism.(3-0) Cr. 3. *Prereq: ENGL 260 and 3 additional credits in literature*

Study of selected texts of literary criticism, with attention to the purposes and practices of criticism.

ENGL 340. Women's Literature.(Cross-listed with W S). (3-0) Cr. 3. *Prereq: ENGL 250*

Historical and thematic survey of literature by and about women. May include autobiographies, journals, letters, poetry, fiction, and drama.

Meets U.S. Diversity Requirement

ENGL 344. U.S. Latino/a Literature.(3-0) Cr. 3. S. *Prereq: ENGL 250*

An introduction to the literature of Mexican Americans, Puerto Ricans, Cuban Americans and other Latino/a sub-groups. Special emphasis on themes such as ethnic relations and comparisons with EuroAmerican literary traditions.

Meets U.S. Diversity Requirement

ENGL 345. Women and Literature: Selected Topics.(Cross-listed with W S). (3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: ENGL 250*

Literature by women and/or dealing with the images of women, e.g., study of individual authors or related schools of authors; exploration of specific themes or genres in women's literature; analysis of recurrent images of women in literature.

Meets U.S. Diversity Requirement

ENGL 346. American Indian Literature.(Cross-listed with AM IN). (3-0) Cr. 3. *Prereq: ENGL 250*

Survey of literature by Native Americans from pre-Columbian tales and songs to contemporary novels and poetry.

Meets U.S. Diversity Requirement

ENGL 347. Studies in African American Literature.(Cross-listed with AF AM). (3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: ENGL 250*

Literature by African Americans, which may include study of individual authors, movements, themes, genres.

Meets U.S. Diversity Requirement

ENGL 349. Topics in Multicultural Literatures of the United States.(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: ENGL 250*

Literature by writers from U.S. multicultural groups. May include literature of several groups or focus upon one of the following: Asian Americans, African Americans, Latino/a Americans, American Indians.

Meets U.S. Diversity Requirement

ENGL 350. Rhetorical Traditions.(Cross-listed with CL ST, SP CM). (3-0) Cr. 3. S. *Prereq: ENGL 250*

Ideas about the relationship between rhetoric and society in contemporary and historical contexts. An exploration of classical and contemporary rhetorical theories in relation to selected topics that may include politics, gender, race, ethics, education, science, or technology.

ENGL 351. Scientific Thought and Literary Imagination.

(3-0) Cr. 3.

Study of texts across time periods and genres that may address the following topics: the influence of scientific thought on literature or literary imagination on science, representations of scientific discovery or disaster in literature, the origins of scientific thought as represented in literature, portrayals of scientific figures in literature.

ENGL 352. Gay and Lesbian Literature.(Cross-listed with W S). (3-0) Cr. 3. *Prereq: ENGL 250*

Literary portrayals of gay and lesbian lives and relationships from many different genres. Attention to changing definitions and representations of sexual orientation and gender identity over time.

Meets U.S. Diversity Requirement

ENGL 353. World Literature: Western Foundations through Renaissance.(Cross-listed with CL ST). (3-0) Cr. 3. F.S. *Prereq: ENGL 250*

Representative works from the drama, epics, poetry, and prose of the Ancient World through the late sixteenth century. May include Homer, Aeschylus, Sappho, Catullus, Dante, Marie de France, Boccaccio, Christine de Pizan, Cervantes, and others.

Meets International Perspectives Requirement.

ENGL 354. World Literature: Seventeenth Century to the Present.(3-0) Cr. 3. F. *Prereq: ENGL 250*

Global literatures in their various cultural and aesthetic contexts. Representative works, oral and written literature, including poetry, fiction, nonfiction, and drama.

Meets International Perspectives Requirement.

ENGL 355. Literature and the Environment.(Cross-listed with ENV S). (3-0) Cr. 3. *Prereq: ENGL 250*

Study of literary texts that address the following topics, among others: the relationship between people and natural/urban environments, ecocriticism, and the importance of place in the literary imagination.

ENGL 358. Myth and Fairytale.(3-0) Cr. 3. *Prereq: ENGL 250*

Study of traditional fairytales, myths, and legends from diverse cultures.

ENGL 359. Literature and the Arts.(3-0) Cr. 3. *Prereq: ENGL 250*

Study of texts that may include the following topics: the relationship between literature and other art forms (including painting, sculpture, dance, music, photography, and film); the representation of the arts in literature; the influences of other art forms on literature; the interrelation of art theory and literary theory.

ENGL 360. Studies in American Literature to 1800.(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: ENGL 250; sophomore classification*

Selected readings in American literature from its beginnings through the colonial period; may reflect themes, genres, or social and cultural contexts.

ENGL 362. Studies in 19th Century American Literature.(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: ENGL 250; sophomore classification*

Selected readings in American literature of the 19th century; may reflect themes, genres, or social and cultural contexts.

ENGL 364. Studies in American Literature: 1900 to the Present.(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: ENGL 250; sophomore classification*

Selected readings in American literature since 1900; may reflect themes, genres, or social and cultural contexts.

ENGL 370. Shakespeare.(3-0) Cr. 3. F.S. *Prereq: ENGL 250*

Reading and analysis of selected plays. Development of Shakespeare's dramatic art in its social and intellectual context.

Meets International Perspectives Requirement.

ENGL 373. Studies in British Literature: The Middle Ages.(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: ENGL 250; sophomore classification*

Selected readings in medieval literature from its beginnings through the fifteenth century; may reflect themes, genres, or social and cultural contexts.

ENGL 374. Studies in British Literature: The Renaissance.(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: ENGL 250; sophomore classification*

Selected readings in British literature from 1500 to 1660; may reflect themes, genres, or social and cultural contexts.

Meets International Perspectives Requirement.

ENGL 375. Studies in British Literature: The Restoration and 18th Century.(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: ENGL 250; sophomore classification*

Selected readings in British literature from 1660 to 1800; may reflect themes, genres, or social and cultural contexts.

Meets International Perspectives Requirement.

ENGL 376. Studies in British Literature.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: ENGL 250; sophomore classification*

Selected readings from British literature from the late eighteenth century to about 1900; may reflect themes, genres, or social and cultural contexts.

Meets International Perspectives Requirement.

ENGL 376A. Studies in British Literature: Romantic.

(3-0) Cr. 3. *Prereq: ENGL 250; sophomore classification*

Selected readings from British literature from the late eighteenth century to about 1900; may reflect themes, genres, or social and cultural contexts.

Meets International Perspectives Requirement.

ENGL 376B. Studies in British Literature: Victorian.

(3-0) Cr. 3. *Prereq: ENGL 250; sophomore classification*

Selected readings from British literature from the late eighteenth century to about 1900; may reflect themes, genres, or social and cultural contexts.

Meets International Perspectives Requirement.

ENGL 378. Studies in British Literature: 1900 to the Present.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: ENGL 250; sophomore classification*

Selected readings in British literature since 1900; may reflect themes, genres, or social and cultural contexts.

ENGL 389. Postcolonial Literature.

(3-0) Cr. 3. *Prereq: ENGL 250; sophomore classification*

Historical, thematic and theoretical study of postcolonial literatures from one or more of the following areas: Africa, South Asia, the Caribbean, and the Middle East. Irish and immigrant British writers may also be included.

Meets International Perspectives Requirement.

ENGL 393. The History of Children's Literature.

(3-0) Cr. 3. F. *Prereq: ENGL 250*

Origin and development of English and American children's literature through the early twentieth century. Special emphasis on nature, structure, and enduring themes of fantasy literature.

ENGL 395. Study and Travel.

Cr. arr. SS. *Prereq: Permission of instructor*

Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

Meets International Perspectives Requirement.

ENGL 395A. Study and Travel: Literature.

Cr. arr. SS. *Prereq: Permission of instructor*

Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 395B. Study and Travel: Creative Writing.

Cr. arr. SS. *Prereq: Permission of instructor*

Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 395C. Study and Travel: Linguistics.

Cr. arr. SS. *Prereq: Permission of instructor*

Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 395D. Study and Travel: Rhetoric and Professional Communication.

Cr. arr. SS. *Prereq: Permission of instructor*

Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 395E. Study and Travel: Teacher Education.

Cr. arr. SS. *Prereq: Permission of instructor*

Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 396. Teaching the Reading of Young Adult Literature.

(3-0) Cr. 3. S. *Prereq: ENGL 250*

Critical study and evaluation of themes, genres, and cultures found in young adult literature. Strategies of effective reading; instructional strategies including discussion techniques and use of technology; matching texts to reader needs and proficiencies. Evaluation of fiction, nonfiction, and media-based materials for use in school programs. Lesson planning.

ENGL 397. Practice and Theory of Teaching Writing in the Secondary Schools.

(3-0) Cr. 3. F.S. *Prereq: ENGL 219 or ENGL 220; application process initiated for admission to university teacher education program; concurrent enrollment in C I 280 (cr. 2); and background check initiated with state of Iowa Department of Criminal Investigation*

Introduction to teaching secondary language arts. Current theories and practices in the teaching of writing to secondary school students. Theories of rhetoric, approaches to teaching, lesson design and planning. Evaluating writing. Professional portfolio preparation.

ENGL 404. Creative Writing Workshop: Fiction.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S. *Prereq: ENGL 304*

Individual projects in short fiction on a workshop and conference basis. Readings in short fiction. Discussion of elements of narrative such as plot, point of view, characterization, theme, setting.

ENGL 405. Creative Writing Workshop: Nonfiction.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S. *Prereq: ENGL 305*

Individual projects in memoir, immersion journalism, character studies, and/or the personal essay on a workshop and conference basis. Readings in creative nonfiction.

ENGL 406. Creative Writing Workshop--Poetry.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S. *Prereq: ENGL 306*

Individual projects in poetry on a workshop and conference basis. Readings in poetry. Discussion of poetic elements such as image, sound, internal structure, rhythm, tone, figurative language.

ENGL 411. Technology, Rhetoric, and Professional Communication.

(3-0) Cr. 3. *Prereq: ENGL 310; ENGL 302, ENGL 309, ENGL 313, or ENGL 314; junior classification*

Seminar course on the implication of technologies, especially computer technology, for the writing and reading of business, technical, and academic texts. Extensive reading, discussion, and writing on selected technology-related topics.

ENGL 415. Business and Technical Editing.

(3-0) Cr. 3. S. *Prereq: ENGL 302, ENGL 309, or ENGL 314; junior classification*

Editing journal articles, research reports, technical manuals, newsletters, and proposals. Attention to editorial levels and styles, project management, editor-author relationships, and electronic editing.

ENGL 416. Visual Aspects of Business and Technical Communication.

(3-0) Cr. 3. F. *Prereq: ENGL 302, ENGL 309, or ENGL 314; junior classification*

Rhetoric of visual elements in business and technical communication. Issues in the design of text, charts, graphs, diagrams, schematics, illustrations, and other visual displays.

ENGL 417. Student Teaching.

Cr. arr. F.S. *Prereq: admission to teacher education, approval of coordinator the semester prior to student teaching*

Full-time teaching in content licensure area: long term and unit planning, lesson planning, classroom teaching practice.

ENGL 417E. Student Teaching: English and Literature.

(Cross-listed with C I). Cr. arr. F.S. *Prereq: ENGL 494, admission to teacher education, approval of coordinator the semester prior to student teaching*

Full-time teaching in secondary English: long term and unit planning, lesson planning, classroom teaching practice in English language arts.

ENGL 418. Seminar in Argumentation.

(3-0) Cr. 3. S. *Prereq: ENGL 310, junior classification*

Advanced seminar in theory and analysis with extensive practice in various modes of argument.

ENGL 420. History of the English Language.

(Cross-listed with LING). (3-0) Cr. 3. F.S. *Prereq: ENGL 219 or LING 219, ENGL 220 or LING 220*

Comparison of English to other languages by family background and by type. Analysis of representative Old, Middle, Early Modern and present-day English texts, including both literary works and non-literary documents.

ENGL 422. Women, Men, and the English Language.

(Cross-listed with LING, W S). (3-0) Cr. 3. S. *Prereq: ENGL 219 or LING 219*

The ways men and women differ in using language in varied settings and the ways in which language both creates and reflects gender divisions. Meets U.S. Diversity Requirement

ENGL 425. Second Language Learning and Teaching.

(Cross-listed with LING). (3-0) Cr. 3. S. Prereq: ENGL 219 or LING 219; junior classification

The process of second language learning and principles and techniques of teaching second languages. Learning and teaching in specific situations and for particular purposes. Current applications of technology in teaching and assessment.

ENGL 437. Grammatical Analysis.

(Cross-listed with LING). (3-0) Cr. 3. F. Prereq: ENGL 220 or LING 220; ENGL 219 or LING 219 or introductory course in linguistics; junior classification

Theories and methods for analysis of syntax and morphology.

ENGL 440. Seminar in British Literature.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: Completion of 9 credits of surveys; completion of or concurrent enrollment in ENGL 339; junior classification
Selected authors, movements, eras, or genres in British literature. Readings in criticism; required research paper.

ENGL 441. Seminar in American Literature.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: Completion of 9 credits of surveys; completion of or concurrent enrollment in ENGL 339; junior classification
Selected authors, movements, eras, or genres in American literature. Readings in criticism; required research paper.

ENGL 445. Seminar: Literature Crossing Boundaries.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: Completion of 9 credits of surveys; completion of or concurrent enrollment in ENGL 339; junior classification
Intensive study of selected literature that bridges traditional genre, period, national, or disciplinary boundaries. Readings in criticism; required research paper.

ENGL 450. Seminar in Literary Genres.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: Completion of 9 credits of surveys; completion of or concurrent enrollment in ENGL 339; junior classification
Intensive study of drama, film, fiction, poetry, or prose. Selected movements, eras, or national traditions. Readings in criticism; required research paper.

ENGL 460. Seminar in Gender and Ethnicity.

(Cross-listed with W S). (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: Completion of 9 credits of surveys; completion of or concurrent enrollment in ENGL 339; junior classification
Selected readings of various authors, movements, eras, or genres. Readings in criticism; required research paper.

ENGL 477. Seminar in Technical Communication.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: ENGL 302, ENGL 309, or ENGL 314

Intensive study of a selected topic that bridges theory and practice in technical communication. Required project that contributes to the understanding of an emerging issue in the profession.

ENGL 487. Internship in Business, Technical, and Professional Communication.

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS. Prereq: 9 credits in ENGL 302, ENGL 309, ENGL 313, ENGL 314, ENGL 415 (preferred), ENGL 416, or ENGL 477; junior classification; and permission of coordinator

An opportunity to write, edit, and design business and technical documents in a professional setting. Projects include reports, proposals, manuals, brochures, newsletters.

ENGL 489. Undergraduate Seminar.

(Cross-listed with LING). (3-0) Cr. 3. Repeatable. F. Prereq: 9 credits in English beyond ENGL 250

Intensive study of a selected topic in literature, criticism, rhetoric, writing, or language. Cross-listing with linguistics acceptable only when offered as a course in linguistics.

ENGL 490. Independent Study.

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 9 credits in English beyond ENGL 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

ENGL 490A. Independent Study: Literature.

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 9 credits in English beyond ENGL 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

ENGL 490B. Independent Study: Linguistics.

(Cross-listed with LING). Cr. arr. Repeatable, maximum of 9 credits. F.S. Prereq: 9 credits in English beyond ENGL 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee or Linguistics Adviser

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

ENGL 490C. Independent Study: Rhetoric, Teaching of Composition.

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 9 credits in English beyond ENGL 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

ENGL 490D. Independent Study: Criticism and Theory of Literature.

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 9 credits in English beyond ENGL 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

ENGL 490E. Independent Study: Instructional Methods and Research.

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 9 credits in English beyond ENGL 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

ENGL 490F. Independent Study: Creative Writing.

Cr. arr. Repeatable, maximum of 9 credits. F.S. Prereq: 9 credits in English beyond ENGL 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

ENGL 490G. Independent Study: Business/Technical Communication.

Cr. arr. Repeatable, maximum of 9 credits. F.S. Prereq: 9 credits in English beyond ENGL 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

ENGL 490H. Independent Study: Honors.

Cr. arr. Repeatable, maximum of 9 credits. F.S. Prereq: 9 credits in English beyond ENGL 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits of ENGL 490 may be used toward graduation.

ENGL 494. Practice and Theory of Teaching Literature in the Secondary Schools.

(Cross-listed with C I). (3-0) Cr. 3. F.S. Prereq: ENGL 310, ENGL 397, 9 other credits in English beyond ENGL 250, PSYCH 333, admission to teacher education program

Portfolio review. Current theories and practices in the teaching of literature to secondary school students. Integrating literary study and writing. Preparation and selection of materials. Classroom presentation. Unit planning. (Taken concurrently with C I 280, Cr. 2, and Sp Ed 450).

ENGL 497. Capstone Assessment.

Cr. 1. F.S. Prereq: Junior status

Must be taken in conjunction with a 400-level English course.

Courses primarily for graduate students, open to qualified undergraduates:**ENGL 500. Proseminar: Teaching English Composition.**

(3-0) Cr. 3. F. Prereq: Graduate classification; must be teaching Engl 150 or Engl 250 concurrently

Required of all new English teaching assistants. Introduction to the teaching of ISUComm Foundation Courses. Foundational and relevant newer composition theory and pedagogical methods related to ISUComm Foundation Courses objectives and their classroom enactment, including development of assignments and supporting activities, and evaluation of student projects.

ENGL 501. Research Methods in Rhetoric and Professional Communication.

(3-0) Cr. 3. *Prereq: 6 graduate credits in English*
Survey of the major qualitative and quantitative methods used in research on communication and language in academic and nonacademic settings.

ENGL 503. Theory and Research in Composition.

(3-0) Cr. 3. *Prereq: 6 graduate credits in English*
In-depth consideration of the theory and practice of composition pedagogy. Opportunities for actual classroom application.

ENGL 504. Teaching Business and Technical Communication.

(3-0) Cr. 3. F.S.SS. *Prereq: MA in English or closely related field and must be teaching ENGL 302, ENGL 309, or ENGL 314 concurrently*
Practicum in teaching college courses in business and technical communication. Emphasis on curriculum planning, textbook selection, assignment design, materials development, and assessment of student work.

ENGL 505. Technology in Business, Technical, and Professional Communication.

(3-0) Cr. 3. *Prereq: Graduate classification*
Seminar course examining the role of technology, especially computer technology, in communication practices within academic and workplace settings.

ENGL 506. Theory and Research in Professional Communication.

(3-0) Cr. 3. *Prereq: Admission to English Department graduate degree program*
Introduction to professional communication as a discipline, with emphasis on theories of communication and discourse that inform professional communication research and on trends and developments in that research and the field.

ENGL 507. Writing and Analyzing Professional Documents.

(3-0) Cr. 3. *Prereq: Admission to English Department graduate degree program*
Introduction to the theory and practice of planning, preparing, and presenting information in written, oral, and visual forms prepared for business, science, industry, and government. Guided readings. Team projects. Individual projects.

ENGL 508. Advanced Workshop in Academic Writing.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: 6 graduate credits*
Hands-on practice in writing academic discourse for publication; rhetorical analyses of student-selected academic journals; discussion of current trends in academic writing; professional perspectives on the referee process and on journal editorial decision making. Focus on the writing of selected short pieces (opinion essays, standard reviews, conference-length papers) and of article-length manuscripts.

ENGL 509. Writing Proposals and Grant Applications.

(3-0) Cr. 3. *Prereq: Graduate classification*
Introduction to the theory and practice of preparing and analyzing proposals and grant applications intended for businesses, governmental agencies, and/or private and corporate foundations. Individual assignments and group projects include text documents and oral presentations.

ENGL 510. Introduction to Computers in Applied Linguistics.

(Cross-listed with LING). (3-0) Cr. 3. F. *Prereq: Graduate classification*
Use of applications software for language teaching, linguistic analysis, and statistical analysis. Issues and problems in applied linguistics related to computer methods.

ENGL 511. Introduction to Linguistic Analysis.

(Cross-listed with LING). (3-0) Cr. 3. F. *Prereq: Graduate classification*
Principles and methods of linguistic analysis with emphasis on phonology, morphology, and syntax. Description of linguistic variation and current theoretical approaches to linguistics.

ENGL 512. Second Language Acquisition.

(Cross-listed with LING). (3-0) Cr. 3. F. *Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*
Theory, methods, and results of second language acquisition research with emphasis on approaches relevant to second language teaching.

ENGL 513. Language Assessment Practicum.

(Cross-listed with LING). (3-0) Cr. 3. F.S.SS. *Prereq: ENGL 519 or LING 519*
Advanced practicum in language assessment.

ENGL 514. Sociolinguistics.

(Cross-listed with LING). (3-0) Cr. 3. S. *Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*
Theories and methods of examining language in its social setting. Analysis of individual characteristics (e.g., age, gender, ethnicity, social class, region), interactional factors (e.g., situation, topic, purpose) and national policies affecting language use.

ENGL 515. Statistical Natural Language Processing.

(Cross-listed with HCI, LING). (3-0) Cr. 3. F. *Prereq: STAT 330 or equivalent, recommended ENGL 219 or LING 219, or ENGL 511 or LING 511*
Introduction to computational techniques involving human language and speech in applications such as information retrieval and extraction, automatic text categorization, word prediction, intelligent Web searching, spelling and grammar checking, speech recognition and synthesis, statistical machine translation, n-grams, POS-tagging, word-sense disambiguation, on-line lexicons and thesauri, markup languages, corpus analysis, and Python programming language.

ENGL 518. Teaching English as a Second Language Methods and Materials.

(Cross-listed with LING). (3-0) Cr. 3. F. *Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*
Introduction to approaches, methods, techniques, materials, curricular design, and assessment for various levels of ESL instruction. Attention to issues related to the teaching of listening, speaking, reading, writing, vocabulary, pronunciation, and culture.

ENGL 519. Second Language Assessment.

(Cross-listed with LING). (3-0) Cr. 3. S. *Prereq: ENGL 511 or LING 511*
Principles of second language assessment including reliability, validity, authenticity and practicality. Constructing, scoring, interpreting, and evaluating second language tests for a variety of situations.

ENGL 520. Computational Analysis of English.

(Cross-listed with HCI, LING). (3-0) Cr. 3. S. *Prereq: ENGL 510 or LING 510, and ENGL 511 or LING 511*
Concepts and practices for analysis of English by computer with emphasis on the applications of computational analysis to problems in applied linguistics such as corpus analysis and recognition of learner language in computer-assisted learning and language assessment.

ENGL 521. Teaching of Literature and the Literature Curriculum.

(3-0) Cr. 3. *Prereq: 6 credits in literature*
Examination of the roles of the literary work, reader, and teacher in literary study. Responses to literature. Place of literature in language arts. Study and development of curriculum materials for middle school, high school, and college levels of instruction.

ENGL 522. Literary Theory and Criticism.

(3-0) Cr. 3. *Prereq: 6 credits in literature*
Examination of the history, logic, and rhetoric of contemporary literary criticism and analysis.

ENGL 523. Introduction to Old English Language and Literature.

(3-0) Cr. 3. *Prereq: Course in medieval literature or history or history of the English language recommended*
Introductory study of Old English language and literature in prose and poetry, including extracts from Beowulf. Some attention to Anglo-Saxon culture.

ENGL 524. Literacy: Issues and Methods for Nonnative Speakers of English.

(Cross-listed with LING). (3-0) Cr. 3. F. *Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*
Theoretical and practical issues and techniques in the teaching of literacy in a variety of contexts, involving children and adults at basic skill levels and teens and adults in academic and vocational programs.

ENGL 525. Methods in Teaching Listening and Speaking Skills to Nonnative Speakers of English.

(Cross-listed with LING). (3-0) Cr. 3. S. *Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*
Theoretical and practical issues and techniques in the teaching of second language pronunciation, listening, and speaking skills. Topics will be relevant to those intending to teach in various contexts involving both K-12 and adult learners.

ENGL 526. Computer-Assisted Language Learning.

(Cross-listed with LING). (3-0) Cr. 3. S. *Prereq: ENGL 511 or LING 511 or equivalent*
Theory, research, and practice in computer use for teaching nonnative speakers of English. Methods for planning and evaluating computer-based learning activities.

ENGL 527. Discourse Analysis.

(Cross-listed with LING). (3-0) Cr. 3. S. *Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*
Methods and theoretical foundations for linguistic approaches to discourse analysis. Applications of discourse analysis to the study of texts in a variety of settings, including academic and research contexts.

ENGL 528. English for Specific Purposes.

(Cross-listed with LING). (3-0) Cr. 3. *Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*

Issues and techniques in analyzing, teaching, and assessing English for specific purposes. Topics include theories of specific purpose language use, analysis of learner needs in target language contexts, and syllabus and materials development for teaching and assessment.

ENGL 529. Multimedia Content Management.

(3-0) Cr. 3. *Prereq: ENGL 313*

Strategies for developing and delivering multimodal content via digital media. Focus on the principles of database design, interface development, usability testing, and collaborative content management within professional communication settings.

ENGL 531. Topics in the Study of Literature.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: 6 credits in literature*

Intensive study of literary genres, periods, movements, or themes; e.g., Literature and Historicism, Narrating the Feminine, Allegory.

ENGL 532. American Literature to 1865.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: 6 credits in literature*

Selected texts in American literature from Beginnings to the Civil War. Study may include Native American literature, the literature of European conquest, Colonial and Revolutionary periods, Early Republic, and Jacksonian Era, in critical and cultural contexts.

ENGL 533. British Literature to 1830.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: 6 credits in literature*

Selected texts from the Medieval, Renaissance, Restoration, Eighteenth-Century, and/or Romantic periods, in critical and cultural contexts.

ENGL 534. American Literature 1865 to the Present.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: 6 credits in literature*

Selected texts in American literature from the Civil War to the present. Study may include Realism, Naturalism, Modernism, and Postmodernism, with significant attention to race/ethnicity, gender, and identity, and to contemporary critical views. Range of authors and genres.

ENGL 535. British Literature 1830 to the Present.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: 6 credits in literature*

Selected texts from the Victorian, Edwardian, Modernist, and/or Contemporary periods, in critical and cultural contexts.

ENGL 537. Advanced Grammatical Analysis: Social, Individual, and Empirical Perspectives.

(Cross-listed with LING). (3-0) Cr. 3. F. *Prereq: ENGL 220 or LING 220; ENGL 219, LING 219, ENGL 511, LING 511, or introductory course in linguistics; graduate classification*

Analytic, functional, cognitive, corpus-based and pedagogical approaches to the analysis of syntax with emphasis on approaches used in applied linguistics.

ENGL 538. Fiction.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: 6 credits in literature*

Selected fiction writers in English; range of authors and genres. Emphasis on both male and female writers; attention to the relationships between fiction and cultural change.

ENGL 539. Poetry.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: 6 credits in literature*

Selected poets writing in English, considered in representative groups.

ENGL 540. Drama.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: 6 credits in literature*

Primary texts in dramatic genres from various literary periods, in critical and cultural contexts. Frequently concentrates on the English Renaissance and the Shakespearean stage.

ENGL 541. Autobiography, Biography, Memoir.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: 6 credits in literature*

Study of lifewriting, e.g., autobiography, biography, memoir, cross-genre writing, autobiographical criticism. Readings may be arranged by period, nationality, or subgenre (e.g., autobiography of childhood experience, celebrity auto/biography).

ENGL 542. Production Processes for Technical Documents.

(3-0) Cr. 3. *Prereq: Senior classification*

Overview of the principles of desktop publishing as practiced in the field of technical communication. Focus on theories of print document design and project management, as well as digital prepress techniques employed to produce documents using external print services. Requires extensive use of current desktop publishing software.

ENGL 543. Environmental Literature.

(3-0) Cr. 3. *Prereq: Graduate classification*

An exploration of the major genres that derive from literary encounters with the environment. Readings may come from various cultures and time periods, but about half of the texts will represent canonical American environmental literature from the 19th and 20th centuries.

ENGL 544. Postcolonial or Multicultural Literatures.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: 6 credits in literature*

U.S. multicultural literatures or colonial and postcolonial Anglophone literatures from various locations, in critical and cultural contexts. Development of literary traditions, discourses of race and gender, counter-storytelling, myths of origin, literary phases and movements. Readings in several genres.

ENGL 545. Women's Literature.

(Cross-listed with W S). (3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: 6 credits in literature*

Primary texts by women writers; historical, thematic, formal, or theoretical approaches; secondary readings; e.g., Nineteenth-Century Women Writers; American Women's Personal Narratives; Southern Women Writers of the U.S.

ENGL 546. Issues in the Study of Literature.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: 6 credits in literature*

Intensive study of current and emerging topics and problems concerning literature and its relationship to theory and to language study; e.g., Theory of Metaphor; Renegotiating the Canon; Feminist Theory.

ENGL 547. The History of Rhetorical Theory I: From Plato to Bacon.

(Cross-listed with SP CM). (3-0) Cr. 3. *Prereq: 6 credits in English*

Rhetorical theory from the classical period of ancient Greece and Rome through the Middle Ages to the early Renaissance; attention to its relation to the nature of knowledge, communication, practice, and pedagogy.

ENGL 548. The History of Rhetorical Theory II: From Bacon to the Present.

(Cross-listed with SP CM). (3-0) Cr. 3. *Prereq: 6 credits in English*

Rhetorical theory from the early modern period (Bacon, Descartes, and Locke) to the present; attention to its relation to the nature of knowledge, communication practice, and pedagogy.

ENGL 549. Multimedia Design in Professional Communication.

(3-0) Cr. 3. *Prereq: Senior classification*

Rhetorical principles of information-based multimedia design. Practical understanding of computer applications used in multimedia development. Focus on theoretical and practical elements of producing multimedia training programs in both education and industry. Work with interactive hypertext, digital audio, and non-linear video editing.

ENGL 550. Creative Writing: Craft and Professional Practice.

(3-0) Cr. 3. F. *Prereq: Admission into MFA Program in Creative Writing and Environment*

A multigenre craft course required of all incoming students in the MFA Program in Creative Writing and Environment. Students develop an understanding of craft and environmental writing across genres (poetry, fiction, nonfiction) as well as learn about editing and publication practice through the lens of a working literary journal, "Flyway: A Journal of Writing and Environment." Other course activities include presentations on the production practices of leading literary journals, individual editing projects, pragmatic tips for finding publication outlets for polished creative work, and a field trip to publishing houses.

ENGL 551. Master Workshop.

(3-0) Cr. 3. S. *Prereq: Fourth-semester or equivalent standing in the Creative Writing and Environment MFA program*

An advanced multi-genre creative writing workshop. Students work intensively on book-length manuscripts of fiction, creative nonfiction, or poetry.

ENGL 553. Workshop: Writing The Long Project.

(3-0) Cr. 3. Repeatable, maximum of 12 credits. *Prereq: ENGL 550 and graduate classification. Open to graduate students outside MFA in Creative Writing and Environment with permission of instructor*

Individual long creative writing project ideas developed in course. Portions of long creative writing project workshoped, revised, and discussed in conferences.

ENGL 554. Workshop: Fiction.

(3-0) Cr. 3. Repeatable, maximum of 12 credits. *Prereq: ENGL 550 and graduate classification. Open to graduate students outside MFA in Creative Writing and Environment with permission of instructor*

Individual projects in fiction on a workshop and conference basis. Readings in short fiction. Discussion of elements of narrative such as plot, point of view, characterization, theme, setting.

ENGL 555. Workshop: Nonfiction.

Cr. arr. Repeatable, maximum of 12 credits. *Prereq: ENGL 550 and graduate classification. Open to graduate students outside MFA in Creative Writing and Environment with permission of instructor*

Individual projects in memoir, immersion journalism, character studies, and/or the personal essay on a workshop and conference basis. Readings in creative nonfiction.

ENGL 556. Workshop: Poetry.

(3-0) Cr. 3. Repeatable, maximum of 12 credits. *Prereq: ENGL 550 and graduate classification. Open to graduate students outside MFA in Creative Writing and Environment with permission of instructor*

Individual projects in poetry on a workshop and conference basis. Readings in poetry. Discussion of poetic elements such as image, sound, internal structure, rhythm, tone, figurative language.

ENGL 557. Studies in Creative Writing.

(3-0) Cr. 3. Repeatable, maximum of 12 credits. *Prereq: Graduate classification. Open to graduate students outside MFA in Creative Writing and Environment with permission of instructor.*

Special topics course on ideas, issues, and techniques in creative writing. Subject matter may include specific genres, aspects of the creative writing process, or themes of particular interest. Significant readings and written work required; previous workshop experience helpful.

ENGL 558. Teaching Creative Writing.

(3-0) Cr. 3. *Prereq: Graduate classification*

Pedagogical approaches that are effective for grade-school through adult-education creative writing teaching. Writing exercises, workshops, text evaluation, and visits from creative writers.

ENGL 559. Creative Writing Teaching Internship.

Cr. 1-3. Repeatable. *Prereq: Permission of participating instructors*

Students assist in an introductory creative writing class. Some supervised teaching but mainly evaluation of submissions and individual conferences. Requirements and grades determined by participating instructors.

ENGL 560. Environmental Field Experience.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: ENGL 550 and graduate classification. Open to graduate students outside MFA in Creative Writing and Environment with permission of instructor*

Students spend a term on a project that requires fieldwork. Projects might include working for a federal, state, or private non-profit environmental organization or farm, or living and working in a specified natural area.

ENGL 582. Advanced Rhetorical Analysis.

(Cross-listed with SP CM). (3-0) Cr. 3.

Extended practice in close textual analysis of various kinds of rhetorical artifacts. Attention to important theoretical concepts used in rhetorical analysis and to historical controversies over the scope and function of rhetorical analysis.

ENGL 586. Visual Rhetoric in Professional Communication.

(3-0) Cr. 3. *Prereq: A course in professional communication*

Rhetorical theory and research in graphics, document design, and related principles of visual communication. Methods of designing texts, data displays, illustrations, and other visual elements in business and technical communication.

ENGL 587. Internship in Business, Technical, and Professional Communication.

(3-0) Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS. *Prereq: ENGL 507 plus 3 additional graduate credits in business and technical writing or composition and rhetoric, permission of instructor. Limited to master's and doctoral degree candidates in the field of rhetoric and professional communication*

An opportunity to write, edit, and design business and technical documents in a professional setting.

ENGL 588. Supervised Practice Teaching in Teaching English as a Second Language.

(Cross-listed with LING). (1-5) Cr. 3. F.S.SS. *Prereq: 9 credits toward the TESL/TEFL Certificate, 15 credits toward the TESL/AL master's degree, or 18 credits completed toward the ESL Endorsement option.*

Intensive observation of ESL instruction and supervised practice in teaching learners of English in a context appropriate to the student teacher's goals. ENGL 588 cannot be used for teacher licensure and cannot be taken during student teaching.

ENGL 589. Supervised Practicum in Literary Editing.

(3-0) Cr. 3. S. *Prereq: ENGL 550, at least one graduate creative writing workshop, permission of instructor*

Students assume editorial duties for "Flyway: A Journal of Writing and Environment," a nationally distributed literary journal: overseeing a staff, screening submissions, corresponding with authors, editing and proofing, assisting with layout, communicating with the printer, overseeing a contest, and promoting the magazine.

ENGL 590. Special Topics.

Cr. arr. Repeatable. *Prereq: Permission of the Director of Graduate Education according to guidelines available online*

ENGL 590A. Special Topics: Literature.

Cr. arr. Repeatable. *Prereq: Permission of the Director of Graduate Education according to guidelines available online*

ENGL 590B. Special Topics: Teaching English as a Second Language (TESL)/Applied Linguistics.

(Cross-listed with LING). Cr. arr. Repeatable. *Prereq: Permission of the Director of Graduate Education according to guidelines available online*

ENGL 590C. Special Topics: Composition and Rhetoric.

Cr. arr. Repeatable. *Prereq: Permission of the Director of Graduate Education according to guidelines available online*

ENGL 590E. Special Topics: Rhetoric and Professional Communication.

Cr. arr. Repeatable. *Prereq: Permission of the Director of Graduate Education according to guidelines available online*

ENGL 590F. Special Topics: Creative Writing.

Cr. arr. Repeatable. *Prereq: Permission of the Director of Graduate Education according to guidelines available online*

ENGL 590G. Special Topics: Applied Linguistics and Technology.

(Cross-listed with LING). Cr. arr. Repeatable. *Prereq: Permission of the Director of Graduate Education according to guidelines available online*

ENGL 591. Directed Readings.

Cr. arr. Repeatable.

ENGL 591A. Directed Readings: Literature.

Cr. arr. Repeatable.

ENGL 591B. Directed Readings: Teaching English as a Second Language (TESL)/Applied Linguistics.

(Cross-listed with LING). Cr. arr. Repeatable.

ENGL 591C. Directed Readings: Composition and Rhetoric.

Cr. arr. Repeatable.

ENGL 591E. Directed Readings: Rhetoric and Professional Communication.

Cr. arr. Repeatable.

ENGL 591F. Directed Readings: Creative Writing.

Cr. arr. Repeatable.

ENGL 591G. Directed Readings: Applied Linguistics and Technology.

(Cross-listed with LING). Cr. arr. Repeatable.

ENGL 592. Core Studies in Rhetoric and Professional Communication.

(Cross-listed with SP CM). (3-0) Cr. 3. Repeatable, maximum of 9 credits. *Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250* Seminar on topics central to the fields of rhetoric and professional communication or composition.

ENGL 592A. Core Studies in Rhetoric and Professional Communication: Rhetoric of Science and Technology.

(Cross-listed with SP CM). (3-0) Cr. 3. Repeatable, maximum of 9 credits. *Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250* Seminar on topics central to the fields of rhetoric and professional communication or composition.

ENGL 592B. Core Studies in Rhetoric and Professional Communication: Visual Rhetoric.

(Cross-listed with SP CM). (3-0) Cr. 3. Repeatable, maximum of 9 credits. *Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250* Seminar on topics central to the fields of rhetoric and professional communication or composition.

ENGL 592C. Core Studies in Rhetoric and Professional Communication: Multimodal Theory and Pedagogy.

(Cross-listed with SP CM). (3-0) Cr. 3. Repeatable, maximum of 9 credits. *Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250* Seminar on topics central to the fields of rhetoric and professional communication or composition.

ENGL 592D. Core Studies in Rhetoric and Professional Communication: Critical Cultural Rhetorics.

(Cross-listed with SP CM). (3-0) Cr. 3. Repeatable, maximum of 9 credits. *Prereq:* 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250 Seminar on topics central to the fields of rhetoric and professional communication or composition.

ENGL 595. Graduate Study and Travel.

Cr. arr. *Prereq:* Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 595A. Graduate Study and Travel: Literature.

Cr. arr. *Prereq:* Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 595B. Graduate Study and Travel: Creative Writing.

Cr. arr. *Prereq:* Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 595C. Graduate Study and Travel: Linguistics.

Cr. arr. *Prereq:* Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 595D. Graduate Study and Travel: Rhetoric and Professional Communication.

Cr. arr. *Prereq:* Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 595E. Graduate Study and Travel: Teacher Education.

Cr. arr. *Prereq:* Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 599. Creative Component.

Cr. 3. F.S.SS. *Prereq:* Graduate classification, permission of major professor

Courses for graduate students:**ENGL 602. Research Design in Rhetoric and Professional Communication.**

(3-0) Cr. 3.
A workshop for advanced graduate students in rhetoric and professional communication. Primary focus on qualitative methods.

ENGL 603. Seminar in Advanced Pedagogy in Rhetoric and Composition: Theory and Research.

(3-0) Cr. 3. *Prereq:* ENGL 503
Exploration of relationships between theory and practice in current pedagogy. Intensive examination of contemporary theories of poststructuralism, new media, feminism, postcolonialism, or cultural studies and their impact on current pedagogical practice. Participation in pedagogical research and theory building.

ENGL 611. Topics in Rhetorical Theory.

(3-0) Cr. 3. Repeatable. *Prereq:* ENGL 547 or ENGL 548
Rhetorical theory, criticism, and/or practice in relation to an historical period or a particular theoretical issue.

ENGL 623. Research Methods in Applied Linguistics.

(Cross-listed with LING). (3-0) Cr. 3. F. *Prereq:* ENGL 511 or LING 511, ENGL 517 or LING 517, ENGL 519 or LING 519
Survey of research traditions in applied linguistics. Focus on theoretical and practical aspects of quantitative and qualitative approaches to applied linguistic study, including experimental and quasiexperimental methods, classroom observation and research, introspective methods, elicitation techniques, case studies, interactional analysis, ethnography, and program evaluation. Computational tools and resources for linguistic research will be highlighted.

ENGL 626. Computer-Assisted Language Testing.

(Cross-listed with LING). (3-0) Cr. 3. F. *Prereq:* ENGL 510 or LING 510, ENGL 511 or LING 511, ENGL 519 or LING 519
Principles and practice for the use and study of computers and the Internet in second language assessment.

ENGL 630. Seminar in Technology and Applied Linguistics.

(Cross-listed with LING). (3-0) Cr. 3. Repeatable. *Prereq:* ENGL 510 or LING 510, ENGL 511 or LING 511
Topic changes each semester. Topics include advanced methods in natural language processing, technology and literacy in a global context, feedback in CALL programs, technology and pronunciation, and advances in language assessment.

ENGL 631. Organization and Administration of Multimodal Writing Programs.

(3-0) Cr. 3. *Prereq:* ENGL 500, ENGL 503, ENGL 504, or ENGL 603
Survey of the major components of writing instruction in academic and nonacademic settings. History, theory, organization, and evaluation of writing programs. Guided observation of writing program functions at various institutions and businesses.

ENGL 688. Practicum in Technology and Applied Linguistics.

(Cross-listed with LING). (1-5) Cr. 3. F.S.SS. *Prereq:* ENGL 510 or LING 510, ENGL 626 or LING 626, or equivalent; at least 2nd year PhD student in Applied Linguistics and Technology
Focus on integrating theoretical knowledge with practical expertise. Assess client needs; develop, integrate, and evaluate solutions. Practical understanding of computer applications used in multimedia development. Create web-based or CD-ROM-based multimedia materials. Work with advanced authoring applications.

ENGL 699. Research.

Cr. arr. Repeatable. F.S.SS. *Prereq:* Graduate classification, permission of major professor
Research.

Environmental Science

Interdepartmental Undergraduate Programs

Environmental Science provides an integrated, quantitative, and interdisciplinary approach to the study of environmental systems. The magnitude and complexity of environmental problems are creating a growing need for scientists with rigorous, interdisciplinary training in environmental science. The Environmental Science program is designed to prepare students for positions of leadership in this rapidly changing discipline. Environmental Science graduates have a solid foundation in biological and physical natural sciences and the specialized training necessary for integrated analysis of environmental systems.

Undergraduate Study

The Environmental Science undergraduate major is offered through both the College of Agriculture and Life Sciences and the College of Liberal Arts and Sciences. Environmental Science majors complete foundation courses in biology, chemistry, earth science, geology, physics and mathematics, plus a major consisting of an integrated core of Environmental Science courses and additional advanced course work in Environmental Science. Scientific rigor is stressed throughout the program, beginning with the foundation courses in the first two years of the curriculum. The upper level core courses emphasize a dynamic systems approach that provides a framework for integrating physical, chemical, and biological aspects of environmental systems.

Students seeking an Environmental Science major complete the following:

1. A foundation of approved supporting courses in science and mathematics including biology, chemistry, earth science, physics, calculus, and statistics.
2. 30 credits of course work in the major, including a required core of 15 credits.

A combined average grade of C or higher is required in courses applied in the major.

A complete listing of curriculum requirements and sample 4-year plans can be found on the Environmental Science website: http://www.ensci.iastate.edu/undergrad/degree_info.html

Graduate Study

Environmental Science offers an interdisciplinary graduate program leading to the M.S. and Ph.D. degrees with a major in Environmental Science. Faculty from the colleges of Agriculture and Life Sciences, Engineering, and Liberal Arts and Sciences cooperate to offer courses and research opportunities covering a broad array of environmental topics.

Applicants should have completed an undergraduate or masters degree in one of the biological, chemical, physical, or engineering sciences or should have equivalent preparation.

The Environmental Science graduate program emphasizes fundamental concepts and research, which at the same time address major environmental issues. The curriculum is designed to provide the interdisciplinary approach needed in Environmental Science education and research. In addition to work in their chosen area of specialization, students are afforded a broad exposure to the biological, chemical and physical aspects of environmental systems and the specialized training necessary for integrated analysis of these systems.

Courses primarily for undergraduates:

ENSCI 110. Orientation to Environmental Science.

(1-0) Cr. 1. F. *Prereq: Freshman classification in EnSci*
Overview of Environmental Science curriculum and discussion of professional opportunities. Offered on a satisfactory-fail basis only.

ENSCI 201. Introduction to Environmental Issues.

(Cross-listed with BIOL, ENV S). (2-0) Cr. 2. S.
Discussion of current and emerging environmental issues such as human population growth, energy use, loss of biodiversity, water resources, and climate change.

ENSCI 202. Exploration of Environmental and Sustainability Issues.

(1-0) Cr. 1. F. *Prereq: Credit or enrollment in ENSCI 201*
Exploration of specific environmental and sustainability issues; designed to complement ENSCI 201. Offered on a satisfactory-fail basis only.

ENSCI 203. Exploration of Environmental Science.

(1-0) Cr. 1. S. *Prereq: ENSCI 202.*
Continued exploration of specific environmental science issues developed in ENSCI 202. Topics may vary in different years. Offered on a satisfactory-fail basis only.

ENSCI 250. Environmental Geography.

(Cross-listed with ENV S). (3-0) Cr. 3. F.
The distribution, origins and functions of the earth's physical systems and the spatial relationship between human activity and the natural world.

ENSCI 251. Biological Processes in the Environment.

(Cross-listed with BIOL). (3-0) Cr. 3. S.
Plant and microbial processes in environmental systems including their interactions with human activities.

ENSCI 301. Natural Resource Ecology and Soils.

(Cross-listed with NREM). (3-3) Cr. 4. F. *Prereq: BIOL 211, BIOL 211L; FOR 201 or a second course in biology*
Effects of environmental factors on ecosystem structure and function using forest, prairie and agricultural ecosystems as models. Special emphasis is given to soil-forming factors and the role of soil in nutrient and water cycling and ecosystem dynamics. Additional emphasis is given to human influences on natural ecosystems and the role of perennial plant communities in agricultural landscapes.

ENSCI 312. Ecology.

(Cross-listed with A ECL, BIOL). (3-3) Cr. 4. F.SS. *Prereq: BIOL 211L and BIOL 212L*
Fundamental concepts and principles of ecology dealing with organisms, populations, communities and ecosystems. Laboratory and field exercises examine ecological principles and methods as well as illustrate habitats.

ENSCI 312I. Ecology.

(Cross-listed with A ECL, IA LL). Cr. 4. SS.
An introduction to the principles of ecology at the population, community and ecosystem level. Field studies of local lakes, wetlands and prairies are used to examine factors controlling distributions, interactions, and roles of plants and animals in native ecosystems.

ENSCI 324. Energy and the Environment.

(Cross-listed with ENV S, GEOL, MTEOR). (3-0) Cr. 3. S.
Renewable and non-renewable energy resources. Origin, occurrence, and extraction of fossil fuels. Nuclear, wind, geothermal, biomass, hydroelectric, and solar energy. Biofuels. Energy efficiency. Environmental effects of energy production and use, including air pollution, acid precipitation, coal ash, mountaintop removal mining, oil drilling, hydraulic fracturing, groundwater contamination, nuclear waste disposal, and global climate change. Carbon sequestration and geoengineering solutions for reducing atmospheric CO₂ concentrations.

ENSCI 345. Natural Resource Photogrammetry and Geographic Information Systems.

(Cross-listed with NREM). (2-3) Cr. 3. F. *Prereq: Junior classification*
Measurement and interpretation of aerial photos in resource management. Introduction to Geographic Information Systems (GIS) using ArcGIS including digitizing, development and query of attribute tables, georeferencing, and use of multiple GIS layers in simple spatial analyses.

ENSCI 360. Environmental Soil Science.

(Cross-listed with AGRON). (2-3) Cr. 3. S. *Prereq: AGRON 154 or ENSCI 250 or GEOL 201*
Application of soil science to contemporary environmental problems; comparison of the impacts that different management strategies have on short- and long-term environmental quality and land development. Emphasis on participatory learning activities.

ENSCI 381. Environmental Systems I: Introduction to Environmental Systems.

(Dual-listed with ENSCI 581). (Cross-listed with BIOL, ENV S, MICRO). Cr. 3-4. F. *Prereq: 12 credits of natural science including biology and chemistry*
Introduction to the structure and function of natural environmental systems. Emphasis on the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems.

ENSCI 382. Environmental Systems II: Analysis of Environmental Systems.

(Dual-listed with ENSCI 582). (Cross-listed with BIOL). (2-2) Cr. 3. S. *Prereq: ENSCI 381*
Continuation of EnSci 381. Systems approach to the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems.

ENSCI 390. Internship in Environmental Science.

Cr. arr. Repeatable. F.S.SS. *Prereq: Approval of the Environmental Science coordinator*
Supervised off-campus work experience in the field of environmental science. Offered on a satisfactory-fail basis only.

ENSCI 391. Apprenticeship.

Cr. arr. Repeatable. F.S.SS. *Prereq: Approval of the Environmental Science Coordinator*
Practical experience in an approved setting such as a research laboratory, government office, or private office. Offered on a satisfactory-fail basis only.

ENSCI 402. Watershed Hydrology.

(Dual-listed with ENSCI 502). (Cross-listed with GEOL, MTEOR, NREM). (3-3) Cr. 4. F. *Prereq: Four courses in physical or biological sciences or engineering; junior standing*
Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.

ENSCI 402I. Watershed Hydrology and Surficial Processes.

(Cross-listed with AGRON, IA LL). Cr. 4. SS. *Prereq: Four courses in physical or biological sciences or engineering*
Effects of geomorphology, soils, and land use on transport of water and materials (nutrients, contaminants) in watersheds. Fieldwork will emphasize investigations of the Iowa Great Lakes watershed.

ENSCI 404. Global Change.

(Dual-listed with ENSCI 504). (Cross-listed with AGRON, ENV S, MTEOR). (3-0) Cr. 3. S. *Prereq: Four courses in physical or biological sciences or engineering; junior standing*
Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change. Also offered online Alt. F, even-numbered years.

ENSCI 405. Environmental Biophysics.

(Dual-listed with ENSCI 505). (Cross-listed with AGRON, MTEOR). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: MATH 165 or MATH 182 or equivalent and some computer programming experience (any language)*
A description of the physical microenvironment in which organisms live. Emphasis on the movement of energy (heat and radiation) and mass (water and carbon) among organisms, the soil, and atmosphere. Applications to humans, other animals, plants, and plant communities.

ENSCI 406. World Climates.

(Cross-listed with AGRON, MTEOR). (3-0) Cr. 3. F. *Prereq: AGRON 206/MTEOR 206*
Distribution and causes of different climates around the world. Effects of climate and climate variations on human activities including society, economy and agriculture. Current issues such as climate change and international efforts to assess and mitigate the consequences of a changing climate. Semester project and in-class presentation required.
Meets International Perspectives Requirement.

ENSCI 407. Watershed Management.

(Dual-listed with ENSCI 507). (Cross-listed with ENV S, NREM). (3-3) Cr. 4. S. *Prereq: A course in general biology*
Managing human impacts on the hydrologic cycle. Field and watershed level best management practices for modifying the impacts on water quality, quantity and timing are discussed. Field project includes developing a management plan using landscape buffers.

ENSCI 408. GIS and Natural Resources Management.

(Dual-listed with ENSCI 508). (Cross-listed with A B E). (2-2) Cr. 3. F. *Prereq:* *Working knowledge of computers and Windows environment*
Introduction to fundamental concepts and applications of GIS in natural resources management with specific focus on watersheds. Topics include: basic GIS technology, data structures, database management, spatial analysis, and modeling; visualization and display of natural resource data. Case studies in watershed and natural resource management using ArcView GIS.

ENSCI 409. Field Methods in Hydrogeology.

(Dual-listed with ENSCI 509). (Cross-listed with GEOL). (0-4) Cr. 3. Alt. SS., offered even-numbered years. *Prereq:* *GEOL/ENSCI 402 or GEOL/ENSCI 411 or C E 473*

Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geochemical and water quality sampling, seepage meters, minipiezometers, stream gaging, and electronic instrumentation for data collection. Field trips to investigate water resource, water quality, and remediation projects.

ENSCI 411. Hydrogeology.

(Dual-listed with ENSCI 511). (Cross-listed with GEOL). (3-2) Cr. 4. F. *Prereq:* *Four courses in biological or physical sciences*

Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations.

ENSCI 414. Applied Groundwater Flow Modeling.

(Dual-listed with ENSCI 514). (Cross-listed with GEOL). (2-2) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* *GEOL 411 or C E 473; MATH 165 or MATH 181*

Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and post-audit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course.

ENSCI 415. Paleoclimatology.

(Dual-listed with ENSCI 515). (Cross-listed with GEOL). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* *Four courses in biological or physical science*

Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth's orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods; utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoclimatology and paleoecology of the late Quaternary (last ~1 million years).

ENSCI 416. Hydrologic Modeling and Analysis.

(Dual-listed with ENSCI 516). (Cross-listed with GEOL, MTEOR). (2-3) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* *Four courses in Earth science, meteorology, or engineering; junior standing*

Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

ENSCI 418. Stream Ecology.

(Dual-listed with ENSCI 518). (Cross-listed with A ECL). (2-3) Cr. 3. Alt. F., offered odd-numbered years. *Prereq:* *486*

Biological, chemical, physical, and geological processes that determine the structure and function of flowing water ecosystems. Current ecological theories as well as applications to stream management for water quality and fisheries.

ENSCI 419. Environmental Geochemistry.

(Dual-listed with ENSCI 519). (Cross-listed with GEOL). (2-2) Cr. 3. F. *Prereq:* *GEOL 402 or GEOL 411 or equivalent*

Geochemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling.

ENSCI 420. Environmental Engineering Chemistry.

(Cross-listed with C E). (2-3) Cr. 3. F. *Prereq:* *C E 326, CHEM 177 and CHEM 178, MATH 166*

Principles of chemical and physical phenomena applicable to the treatment of water and wastewater and natural waters; including chemical equilibria, reaction kinetics, acid-base equilibria, chemical precipitation, redox reactions, and mass transfer principles. Individual laboratory practicals and group projects required.

ENSCI 422I. Prairie Ecology.

(Cross-listed with IA LL). Cr. 4. SS. *Prereq:* *Familiarity with basic principles in biological sciences and ecology*

Basic patterns and underlying physical and biotic causes of both regional and local distributions of plants and animals of North American prairies; field and laboratory analyses and projects.

ENSCI 424. Air Pollution.

(Dual-listed with ENSCI 524). (Cross-listed with A B E, C E). (1-0) Cr. 1. *Prereq:* *Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics.*

Senior classification or above

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 424A. Air Pollution: Air quality and effects of pollutants.

(Dual-listed with ENSCI 524A). (Cross-listed with A B E, C E). (1-0) Cr. 1. *Prereq:* *Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics.*

Senior classification or above

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 424B. Air Pollution: Climate change and causes.

(Dual-listed with ENSCI 524B). (Cross-listed with A B E, C E). (1-0) Cr. 1. *Prereq:* *Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics.*

Senior classification or above

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 424C. Air Pollution: Transportation constraints.

(Dual-listed with ENSCI 524C). (Cross-listed with A B E, C E). (1-0) Cr. 1. *Prereq:* *Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics.*

Senior classification or above

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 424D. Air Pollution: Off-gas treatment technology.

(Dual-listed with ENSCI 524D). (Cross-listed with A B E, C E). (1-0) Cr. 1. *Prereq:* *Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics.*

Senior classification or above

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 424E. Air Pollution: Agricultural sources of pollution.

(Dual-listed with ENSCI 524E). (Cross-listed with A B E, C E). (1-0) Cr. 1. *Prereq:* *Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics.*

Senior classification or above

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 426. Stable Isotopes in the Environment.

(Dual-listed with ENSCI 526). (Cross-listed with GEOL). (3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* *Four courses in biological or physical science*

Introduction to the theory, methods and applications of stable isotopes. Primary focus on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic occurrence for elucidation of physical, chemical, biological, and environmental processes. Effects of plant physiology, photosynthesis, trophic structure, diffusion, evaporation, chemical precipitation, soil and atmospheric processes, and environmental factors on isotope abundance.

ENSCI 434. Contaminant Hydrogeology.

(Dual-listed with ENSCI 534). (Cross-listed with GEOL). (3-0) Cr. 3. S. *Prereq:* *GEOL 411 or equivalent*

Theory and practical considerations of fate and transport of solutes through porous geologic materials. Organic and inorganic contaminants in industrial and agricultural settings. Subsurface microbiology and biodegradation of aromatic and chlorinated hydrocarbons. Investigation of coupled processes (diffusion, advection, dispersion, sorption, and biodegradation) using computer models. Soil and groundwater monitoring and remediation strategies.

ENSCI 446. Integrating GPS and GIS for Natural Resource Management.

(Dual-listed with ENSCI 546). (Cross-listed with NREM). (2-3) Cr. 3. S. *Prereq:* *12 credits in student's major at 300 level or above, NREM 345 or equivalent experience with ArcGIS*

Emphasis on the use of GPS as a data collection tool for GIS. Basic theory of GPS. Use of Global Positioning System technology for spatial data collection and navigation. Post-processing and real-time correction of GPS data. GPS data transfer to GIS for mapping applications. Use of GIS to construct waypoints for use in GPS navigation.

ENSCI 451. Applied and Environmental Geophysics.

(Dual-listed with ENSCI 551). (Cross-listed with GEOL). (2-2) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: GEOL 100 or GEOL 201, MATH 181 or equivalent experience*

Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic - and resistivity-imaging systems and radar.

ENSCI 452. GIS for Geoscientists.

(Dual-listed with ENSCI 552). (Cross-listed with AGRON, GEOL). (2-2) Cr. 3. F. *Prereq: GEOL 100, GEOL 201 or equivalent*

Introduction to geographic information systems (GIS) with particular emphasis on geoscientific data. Uses ESRI's ArcGIS Desktop Software and extension modules. Emphasizes typical GIS operations and analyses in the geosciences to prepare students for advanced GIS courses.

ENSCI 459. Environmental Soil and Water Chemistry.

(Dual-listed with ENSCI 559). (Cross-listed with AGRON). (3-3) Cr. 4. F. *Prereq: Two semesters of college-level chemistry, MATH 140, AGRON 154 or AGRON 360; GEOL 100 and AGRON 354 recommended.*

An introduction to the chemical properties of soils, chemical reactions and transformations in soils and surface waters, and their impact on the environment. Topics include solution chemistry in soils and surface waters, solid-phase composition of soils, reactions at the solid-solution interface, and applications to contemporary environmental issues.

ENSCI 461I. Introduction to GIS.

(Cross-listed with ENV S, IA LL, L A). Cr. 4. SS.

Descriptive and predictive GIS modeling techniques, spatial statistics, and map algebra. Application of GIS modeling techniques to environmental planning and resource management.

ENSCI 463. Soil Formation and Landscape Relationships.

(Dual-listed with ENSCI 563). (Cross-listed with AGRON). (2-4) Cr. 4. S. *Prereq: AGRON 154 or AGRON 260*

Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Two weekend field trips. Credit for one of AGRON 463 or AGRON 463I may be applied for graduation.

ENSCI 463I. Soil Formation and Landscape Relationships.

(Dual-listed with ENSCI 563I). (Cross-listed with AGRON, IA LL). Cr. 4. Alt. SS., offered even-numbered years. *Prereq: AGRON 154 or AGRON 260*

Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use.

ENSCI 466. Ecosystem Service Management.

(Dual-listed with ENSCI 566). (Cross-listed with ENT, NREM). (2-3) Cr. 3. Alt. F., offered even-numbered years. *Prereq: permission of instructor*

Lecture and discussion of land use and conservation techniques for improving ecosystem services including: pollination of crops, biological control of pests, prevention of erosion and water quality improvement.

ENSCI 477. Soil Physics.

(Dual-listed with ENSCI 577). (Cross-listed with AGRON). (3-0) Cr. 3. S. *Prereq: Recommended: AGRON 154 MATH 166*

The physical soil system: the soil components and their physical interactions; transport processes involving water, air, and heat.

ENSCI 479. Surficial Processes.

(Dual-listed with ENSCI 579). (Cross-listed with GEOL). (2-2) Cr. 3. F. *Prereq: GEOL 100 or GEOL 201 or equivalent experience*

The study of physical processes that shape Earth's surface. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory includes topographic map interpretation and local field trips.

ENSCI 480. Engineering Analysis of Biological Systems.

(Cross-listed with A B E). (2-2) Cr. 3. F. *Prereq: A B E 380 or permission of the instructor*

Systems-level engineering analysis of biological systems. Economic and life-cycle analysis of bioresource production and conversion systems. Global energy and resource issues and the role of biologically derived materials in addressing these issues.

ENSCI 484. Ecosystem Ecology.

(Cross-listed with BIOL). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: Combined 12 credits in biology, chemistry, and physics.*

Introduction of the study of ecosystems and the biological and physical factors that influence their properties and dynamics. Conceptual foundations for ecosystem studies. Interactions among organisms, biological diversity, and ecosystem attributes. Quantitative analyses of accumulations, transformations, and fluxes of nutrients, water, and energy within and among ecosystems. Global change issues.

ENSCI 485. Soil and Environmental Microbiology.

(Dual-listed with ENSCI 585). (Cross-listed with AGRON, MICRO). (2-3) Cr. 3. F. *Prereq: AGRON 154 or AGRON 402, MICRO 201 (MICRO 201L recommended)*

The living organisms in the soil and what they do. Emphasis on soil biota composition, the carbon cycle and bioremediation, soil-plant-microbial relationships, and environmental issues.

ENSCI 486. Aquatic Ecology.

(Cross-listed with A ECL, BIOL). (3-0) Cr. 3. F. *Prereq: Biol 312 or EnSci 381 or EnSci 402 or NREM 301*

Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine, and wetland ecology.

ENSCI 486L. Aquatic Ecology Laboratory.

(Cross-listed with A ECL, BIOL). (0-3) Cr. 1. F. *Prereq: Concurrent enrollment in BIOL 486*

Field trips and laboratory exercises to accompany 486. Hands-on experience with aquatic research and monitoring techniques and concepts.

ENSCI 487. Microbial Ecology.

(Cross-listed with BIOL, MICRO). (3-0) Cr. 3. F. *Prereq: Six credits in biology and 6 credits in chemistry*

Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural systems.

ENSCI 488. GIS for Geoscientists II.

(Dual-listed with ENSCI 588). (Cross-listed with AGRON, GEOL). (2-2) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: GIS course, such as GEOL 452, CRP 451, CRP 452, NREM 345, NREM 446, AE 408 or equivalent*

GIS course with focus on the spatial analysis and modeling of raster data and triangulated irregular network (TIN) data. Uses ArcGIS and various extensions, such as Spatial Analyst, 3D Analyst, and ArcScene. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 588) a class project.

ENSCI 490. Independent Study.

Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of the instructor and approval of the Environmental Science coordinator*

ENSCI 490H. Independent Study: Honors.

Cr. arr. Repeatable. F.S.SS. Permission of instructor and approval of Environmental Science coordinator.

ENSCI 495. Current Topics and Case Studies in Environmental Science.

Cr. 1-3. *Prereq: Junior classification in Environmental Science, permission of instructor*

Current topics and case studies related to the analysis and management of environmental systems. Individual and/or group projects.

ENSCI 496. Travel Course.

Cr. arr. Repeatable. *Prereq: Permission of instructor*
Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings. A. International Tour B. Domestic Tour.

ENSCI 498. Cooperative Education.

Cr. R. Repeatable. F.S.SS. *Prereq: Permission of Environmental Science Coordinator*
Required of all cooperative education students. Students must register prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduates:**ENSCI 502. Watershed Hydrology.**

(Dual-listed with ENSCI 402). (Cross-listed with GEOL, MTEOR, NREM). (3-3) Cr. 4. F. *Prereq: Four courses in physical or biological sciences or engineering; junior standing*

Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.

ENSCI 504. Global Change.

(Dual-listed with ENSCI 404). (Cross-listed with AGRON, MTEOR). (3-0) Cr. 3. S. *Prereq:* Four courses in physical or biological sciences or engineering; junior, senior, or graduate standing

Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change.

ENSCI 505. Environmental Biophysics.

(Dual-listed with ENSCI 405). (Cross-listed with AGRON, MTEOR). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* MATH 165 or MATH 182 or equivalent and some computer programming experience (any language)

Hornbuckle. A description of the physical microenvironment in which organisms live. Emphasis on the movement of energy (heat and radiation) and mass (water and carbon) among organisms, the soil, and atmosphere. Applications to humans, other animals, plants, and plant communities. Semester project required.

ENSCI 507. Watershed Management.

(Dual-listed with ENSCI 407). (Cross-listed with NREM). (3-3) Cr. 4. S. *Prereq:* A course in general biology

Managing human impacts on the hydrologic cycle. Field and watershed level best management practices for modifying the impacts on water quality, quantity and timing are discussed. Field project includes developing a management plan using landscape buffers.

ENSCI 508. GIS and Natural Resources Management.

(Dual-listed with ENSCI 408). (Cross-listed with A B E). (2-2) Cr. 3. F. *Prereq:* Working knowledge of computers and Windows environment

Introduction to fundamental concepts and applications of GIS in natural resources management with specific focus on watersheds. Topics include: basic GIS technology, data structures, database management, spatial analysis, and modeling; visualization and display of natural resource data. Case studies in watershed and natural resource management using ArcView GIS. In addition to other assignments, graduate students will prepare research literature reviews on topics covered in class and develop enterprise applications.

ENSCI 508I. Aquatic Ecology.

(Cross-listed with IA LL, NREM). Cr. 4. SS. *Prereq:* Courses in ecology, chemistry, and physics

Analysis of aquatic ecosystems; emphasis on basic ecological principles; ecological theories tested in the field; identification of common plants and animals.

ENSCI 509. Field Methods in Hydrogeology.

(Dual-listed with ENSCI 409). (Cross-listed with GEOL). (0-4) Cr. 3. Alt. SS., offered even-numbered years. *Prereq:* MATH 402 or MATH 411 or C E 473

Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geochemical and water quality sampling, seepage meters, minipiezometers, stream gaging, and electronic instrumentation for data collection. Field trips to investigate water resource, water quality, and remediation projects.

ENSCI 511. Hydrogeology.

(Dual-listed with ENSCI 411). (Cross-listed with GEOL). (3-2) Cr. 4. F. *Prereq:* Four courses in biological or physical sciences

Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations.

ENSCI 514. Applied Groundwater Flow Modeling.

(Dual-listed with ENSCI 414). (Cross-listed with GEOL). (2-2) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* GEOL 411 or C E 473; MATH 165 or MATH 181

Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and post-audit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course.

ENSCI 515. Paleoclimatology.

(Dual-listed with ENSCI 415). (Cross-listed with GEOL). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* Four courses in biological or physical science

Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth's orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods; utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoclimatology and paleoecology of the late Quaternary (last ~ 1 million years).

ENSCI 516. Hydrologic Modeling and Analysis.

(Dual-listed with ENSCI 416). (Cross-listed with GEOL, MTEOR). (2-3) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* Four courses in earth science, meteorology, or engineering; junior standing

Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

ENSCI 518. Stream Ecology.

(Dual-listed with ENSCI 418). (Cross-listed with A ECL). (2-3) Cr. 3. Alt. F., offered odd-numbered years. *Prereq:* A ECL 486

Biological, chemical, physical, and geological processes that determine the structure and function of flowing water ecosystems. Current ecological theories as well as applications to stream management for water quality and fisheries.

ENSCI 519. Environmental Geochemistry.

(Dual-listed with ENSCI 419). (Cross-listed with GEOL). (2-2) Cr. 3. F. *Prereq:* GEOL 511 or equivalent

Geochemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling.

ENSCI 520. Environmental Engineering Chemistry.

(Dual-listed with ENSCI 420). (Cross-listed with C E). (2-3) Cr. 3. F. *Prereq:* CHEM 177 and CHEM 178, MATH 166

Principles of chemical and physical phenomena applicable to the treatment of water and wastewater and natural waters; including chemical equilibria, reaction kinetics, acid-base equilibria, chemical precipitation, redox reactions and mass transfer principles. Individual laboratory practicals and group projects required. Term paper and oral presentation.

ENSCI 521. Environmental Biotechnology.

(Cross-listed with C E). (2-2) Cr. 3. F. *Prereq:* C E 326

Fundamentals of biochemical and microbial processes applied to environmental engineering processes, role of microorganisms in wastewater treatment and bioremediation, bioenergetics and kinetics, metabolism of xenobiotic compounds, waterborne pathogens and parasites, and disinfection. Term paper and oral presentation.

ENSCI 522. Water Pollution Control Processes.

(Cross-listed with C E). (2-2) Cr. 3. *Prereq:* C E 521

Fundamentals of biochemical processes, aerobic growth in a single CSTR, multiple events in complex systems, and techniques for evaluating kinetic parameters; unit processes of activated sludge system, attached growth systems, stabilization and aerated lagoon systems, biosolids digestion and disposal, nutrient removal, and anaerobic treatment systems.

ENSCI 523. Physical-Chemical Treatment Process.

(Cross-listed with C E). (2-2) Cr. 3. *Prereq:* C E 520

Material and energy balances. Principles and design of physical-chemical unit processes; including screening, coagulation, flocculation, chemical precipitation, sedimentation, filtration, lime softening and stabilization, oxidation, adsorption, membrane processes, ion exchange and disinfection; recovery of resources from residuals and sludges; laboratory exercises and demonstrations; case studies in mineral processing and secondary industries.

ENSCI 524. Air Pollution.

(Dual-listed with ENSCI 424). (Cross-listed with A B E, C E). (1-0) Cr. 1. *Prereq:* Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics.

Senior classification or above

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 524A. Air Pollution: Air quality and effects of pollutants.

(Dual-listed with ENSCI 424A). (Cross-listed with A B E, C E). (1-0) Cr. 1. *Prereq:* Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics.

Senior classification or above

ENSCI 524B. Air Pollution: Climate change and causes.

(Dual-listed with ENSCI 424B). (Cross-listed with A B E, C E). (1-0) Cr. 1. *Prereq:* C E 524A; Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above

ENSCI 524C. Air Pollution: Transportation constraints.

(Dual-listed with ENSCI 424C). (Cross-listed with A B E, C E). (1-0) Cr. 1. *Prereq:* C E 524A; Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above

ENSCI 524D. Air Pollution: Off-gas treatment technology.

(Dual-listed with ENSCI 424D). (Cross-listed with A B E, C E). (1-0) Cr. 1. *Prereq:* C E 524A, C E 524B; *Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above*

ENSCI 524E. Air Pollution: Agricultural sources of pollution.

(Dual-listed with ENSCI 424E). (Cross-listed with A B E, C E). (1-0) Cr. 1. *Prereq:* C E 524A, C E 524B; *Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above*

ENSCI 526. Stable Isotopes in the Environment.

(Dual-listed with ENSCI 426). (Cross-listed with GEOL). (3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq:* *Four courses in biological or physical science* Introduction to the theory, methods and applications of stable isotopes. Primary focus on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic occurrence for elucidation of physical, chemical, biological, and environmental processes. Effects of plant physiology, photosynthesis, trophic structure, diffusion, evaporation, chemical precipitation, soil and atmospheric processes, and environmental factors on isotope abundance.

ENSCI 528. Solid and Hazardous Waste Management.

(Cross-listed with C E). (3-0) Cr. arr. *Prereq:* *C E 326 or background courses in both environmental chemistry and microbiology; junior or higher standing* Evaluation, characterization, assessment, planning and design of solid and hazardous waste management systems, regulatory requirements, material characterization and collection, minimization and recycling, energy and materials recovery, composting, off-gas treatment, incineration, stabilization, and landfill design. Design of treatment and disposal systems, including physical, chemical, and biological treatment, solidification, incineration, secure landfill design, and final disposal site closure plus restoration.

ENSCI 531. Design and Evaluation of Soil and Water Conservation Systems.

(Cross-listed with A B E). (2-3) Cr. 3. F. *Prereq:* *E M 378 or CH E 356* Hydrology and hydraulics in agricultural and urbanizing watersheds. Design and evaluation of systems for the conservation and quality preservation of soil and water resources. Use and analysis of hydrologic data in engineering design; relationship of topography, soils, crops, climate, and cultural practices in conservation and quality preservation of soil and water for agriculture. Small watershed hydrology, water movement and utilization in the soil-plant-atmosphere system, agricultural water management, best management practices, and agricultural water quality. Graduate students will prepare several research literature reviews on topics covered in the class in addition to the other assignments.

ENSCI 533. Erosion and Sediment Transport.

(Cross-listed with A B E). (3-0) Cr. 3. Alt. F., offered even-numbered years.

Prereq: *C E 372, MATH 266*

Soil erosion processes, modified universal soil loss equation and its application to conservation planning, sediment properties, initiation of sediment motion and over land flow, flow in alluvial channels and theory of sediment transport, channel stability, reserves sedimentation, wind erosion, BMPs for controlling erosion.

ENSCI 534. Contaminant Hydrogeology.

(Dual-listed with ENSCI 434). (Cross-listed with GEOL). (3-0) Cr. 3. S. *Prereq:* *GEOL 511 or equivalent*

Theory and practical considerations of fate and transport of solutes through porous geologic materials. Organic and inorganic contaminants in industrial and agricultural settings. Subsurface microbiology and biodegradation of aromatic and chlorinated hydrocarbons. Investigation of coupled processes (diffusion, advection, dispersion, sorption, and biodegradation) using computer models. Soil and groundwater monitoring and remediation strategies.

ENSCI 535. Restoration Ecology.

(Cross-listed with EEOB, NREM). (2-3) Cr. 3. F. *Prereq:* *BIOL 366 or BIOL 474 or graduate standing*

Theory and practice of restoring animal and plant diversity, structure and function of disturbed ecosystems. Restored freshwater wetlands, forests, prairies and reintroduced species populations will be used as case studies.

ENSCI 535I. Restoration Ecology.

(Cross-listed with A ECL, EEOB, IA LL). Cr. 4. Alt. SS., offered even-numbered years. *Prereq:* *A course in ecology*

Ecological principles for the restoration of native ecosystems; establishment (site preparation, selection of seed mixes, planting techniques) and management (fire, mowing, weed control) of native vegetation; evaluation of restorations. Emphasis on the restoration of prairie and wetland vegetation.

ENSCI 546. Integrating GPS and GIS for Natural Resource Management.

(Dual-listed with ENSCI 446). (Cross-listed with NREM). (2-3) Cr. 3. S. *Prereq:* *12 credits in student's major at 300 level or above, NREM 345 or equivalent experience with ArcGIS*

Emphasis on the use of GPS as a data collection tool for GIS. Basic theory of GPS. Use of Global Positioning System technology for spatial data collection and navigation. Post-processing and real-time correction of GPS data. GPS data transfer to GIS for mapping applications. Use of GIS to construct waypoints for use in GPS navigation.

ENSCI 551. Applied and Environmental Geophysics.

(Dual-listed with ENSCI 451). (Cross-listed with GEOL). (2-2) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* *GEOL 100 or GEOL 201, MATH 181 or equivalent experience or permission of instructor*

Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic- and resistivity-imaging systems and radar.

ENSCI 552. GIS for Geoscientists.

(Dual-listed with ENSCI 452). (Cross-listed with AGRON, GEOL). (2-2) Cr. 3. F. *Prereq:* *GEOL 100, GEOL 201 or equivalent*

Introduction to geographic information systems (GIS) with particular emphasis on geoscientific data. Uses ESRI's ArcGIS Desktop Software and extension modules. Emphasizes typical GIS operations and analyses in the geosciences to prepare students for advanced GIS courses.

ENSCI 553. Soil-Plant Relationships.

(Cross-listed with AGRON). (3-0) Cr. 3. F. *Prereq:* *AGRON 354*

Composition and properties of soils in relation to the nutrition and growth of plants.

ENSCI 558. Laboratory Methods in Soil Chemistry.

(Cross-listed with AGRON). (2-3) Cr. 3. Alt. F., offered even-numbered years.

Prereq: *AGRON 354 and CHEM 211*

Experimental and descriptive inorganic and organic analyses. Operational theory and principles of applicable instruments, including spectrophotometry, atomic and molecular absorption and emission spectroscopy, mass spectrometry, X-ray diffraction and fluorescence, gas and ion chromatography, and ion-selective electrodes.

ENSCI 559. Environmental Soil and Water Chemistry.

(Dual-listed with ENSCI 459). (Cross-listed with AGRON). (3-3) Cr. 4. F. *Prereq:* *AGRON 354 or ENSCI 360; CHEM 178; MATH 140. CHEM 211 or CHEM 231 recommended*

Thompson. An introduction to the chemical properties of soils, chemical reactions and transformations in soils and surface waters, and their impact on the environment. Topics include solution chemistry in soils and surface waters, solid-phase composition of soils, reactions at the solid-solution interface, chemical-equilibrium speciation programs, and applications to contemporary environmental issues.

ENSCI 563. Soil Formation and Landscape Relationships.

(Dual-listed with ENSCI 463). (Cross-listed with AGRON). (2-4) Cr. 4. S. *Prereq:* *AGRON 154 or AGRON 260*

Burras. Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Two weekend field trips. Credit for one of Agron 563 or 563I may be applied for graduation.

ENSCI 563I. Soil Formation and Landscape Relationships.

(Dual-listed with ENSCI 463I). (Cross-listed with AGRON, IA LL). Cr. 4. Alt. SS., offered even-numbered years. *Prereq:* *AGRON 154 or AGRON 260*

Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Credit for only Agron 563 or 563I may be applied for graduation.

ENSCI 564. Wetland Ecology.

(Cross-listed with EEOB). (3-0) Cr. 3. S. *Prereq:* *15 credits in biological sciences* Ecology, classification, creation and restoration, and management of wetlands. Emphasis on North American temperate wetlands.

ENSCI 564I. Wetland Ecology.

(Cross-listed with EEOB, IA LL). Cr. 4. SS. *Prereq:* *IA LL 321*

Ecology, classification, creation, restoration, and management of wetlands. Field studies will examine the composition, structure and functions of local natural wetlands and restored prairie pothole wetlands. Individual or group projects.

ENSCI 566. Ecosystem Service Management.

(Dual-listed with ENSCI 466). (Cross-listed with ENT, NREM). (2-1) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* *permission of instructor*

Lecture and discussion of land use and conservation techniques for improving ecosystem services including: pollination of crops, biological control of pests, prevention of erosion and water quality improvement.

ENSCI 571. Surface Water Hydrology.(Cross-listed with C E). (3-0) Cr. 3. *Prereq: C E 372*

Analysis of hydrologic data including precipitation, infiltration, evapotranspiration, direct runoff and streamflow; theory and use of frequency analysis; theory of streamflow and reservoir routing; use of deterministic and statistical hydrologic models. Fundamentals of surface water quality modeling, point and non-point sources of contamination. Design project.

ENSCI 572. Analysis and Modeling Aquatic Environments.(Cross-listed with C E). (3-0) Cr. 3. *Prereq: C E 372*

Principles of surface water flows and mixing. Introduction to hydrologic transport and water quality simulation in natural water systems. Advection, diffusion and dispersion, chemical and biologic kinetics, and water quality dynamics. Applications to temperature, dissolved oxygen, primary productivity, and other water quality problems in rivers, lakes and reservoirs. Deterministic vs. stochastic models.

ENSCI 573. Groundwater Hydrology.(Cross-listed with C E). (3-0) Cr. 3. *Prereq: C E 372*

Principles of groundwater flow, hydraulics of wells, super-position, slug and pumping tests, streamlines and flownets, and regional groundwater flow. Contaminant transport. Computer modeling. Individual and group projects.

ENSCI 575. Soil Formation and Transformation.

(Cross-listed with AGRON). (3-0) Cr. 3. Alt. F., offered even-numbered years.

Prereq: AGRON 463 or equivalent

Advanced study of soil formation, emphasizing relationships among soils, landscapes, environment, humans, and land use.

ENSCI 577. Soil Physics.(Dual-listed with ENSCI 477). (Cross-listed with AGRON). (3-0) Cr. 3. S. *Prereq:**Recommended: AGRON 154 and MATH 166*

Horton. The physical soil system: the soil components and their physical interactions; transport processes involving water, air, and heat.

ENSCI 578. Laboratory Methods in Soil Physics.(Cross-listed with AGRON). (0-3) Cr. 1. S. *Prereq: concurrent enrollment in**AGRON 477 or 577*

Methods of measuring soil physical properties such as texture, density, and water content, and transport of heat, water, and gases.

ENSCI 579. Surficial Processes.(Dual-listed with ENSCI 479). (Cross-listed with GEOL). (2-2) Cr. 3. F. *Prereq:**GEOL 100 or GEOL 201 or equivalent experience*

The study of physical processes that shape Earth's surface. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory includes topographic map interpretation and local field trips.

ENSCI 581. Environmental Systems I: Introduction to Environmental Systems.(Dual-listed with ENSCI 381). (Cross-listed with EEOB). Cr. 3-4. F. *Prereq: 12 credits of natural science including biology and chemistry*

Introduction to the structure and function of natural environmental systems. Emphasis on the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems.

ENSCI 582. Environmental Systems II: Analysis of Environmental Systems.(Dual-listed with ENSCI 382). (Cross-listed with EEOB). (2-2) Cr. 3. S. *Prereq: ENSCI 381*

Continuation of EnSci 381. Systems approach to the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems.

ENSCI 584. Advanced Ecosystem Ecology.

(Cross-listed with EEOB). (3-0) Cr. 3. Alt. S., offered even-numbered years.

Prereq: Combined 12 credits in biology, chemistry, and physics.

Advanced studies of ecosystems and the biological and physical factors that influence their properties and dynamics. Conceptual foundations and modern approaches to ecosystem studies. Interactions among organisms, biological diversity, and ecosystem attributes. Quantitative analyses of accumulations, transformations, and fluxes of nutrients, water, and energy within and among ecosystems. Global change issues.

ENSCI 585. Soil and Environmental Microbiology.

(Dual-listed with ENSCI 485). (Cross-listed with AGRON, MICRO). (2-3) Cr. 3. F.

Prereq: AGRON 154 or AGRON 402, MICRO 201 (MICRO 201L recommended)

Loynachan. The living organisms in the soil and what they do. Emphasis on soil biota composition, the carbon cycle and bioremediation, soil-plant-microbial relationships, and environmental issues.

ENSCI 586. Aquatic Ecology.(Dual-listed with ENSCI 486). (Cross-listed with EEOB). (3-0) Cr. 3. F. *Prereq:**ENSCI 301 or ENSCI 312 or ENSCI 381 or ENSCI 402*

Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine and wetland ecology.

ENSCI 586L. Aquatic Ecology Laboratory.(Dual-listed with ENSCI 486L). (Cross-listed with EEOB). (0-3) Cr. 1. F. *Prereq:**Concurrent enrollment in EEOB 586*

Field trips and laboratory exercises to accompany 586. Hands-on experience with aquatic research and monitoring techniques and concepts.

ENSCI 587. Microbial Ecology.

(Dual-listed with ENSCI 487). (Cross-listed with EEOB, MICRO). (3-0) Cr. 3. F.

Prereq: Six credits in biology and 6 credits in chemistry

Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural systems.

ENSCI 588. GIS for Geoscientists II.

(Dual-listed with ENSCI 488). (Cross-listed with AGRON, GEOL). (2-2) Cr. 3. Alt.

S., offered odd-numbered years. *Prereq: GIS course, such as GEOL 452, CRP 451, CRP 452, NREM 345, NREM 446, AE 408 or equivalent*

GIS course with focus on the spatial analysis and modeling of raster data and triangulated irregular network (TIN) data. Uses ArcGIS and various extensions, such as Spatial Analyst, 3D Analyst, and ArcScene. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 588) a class project.

ENSCI 590. Special Topics.Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of major professor in**Environmental Science faculty*

Literature reviews and conference in accordance with needs and interest of the student.

ENSCI 599. Creative Component.Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of major professor in**Environmental Science faculty*

Creative component for nonthesis master of science degree.

Courses for graduate students:**ENSCI 685. Advanced Soil Biochemistry.**

(Cross-listed with AGRON, MICRO). (2-0) Cr. 2. Alt. S., offered even-numbered

years. *Prereq: AGRON 585*

Chemistry of soil organic matter and biochemical transformations brought about by microorganisms and enzymes in soils.

ENSCI 690. Advanced Topics in Environmental Science.

Cr. 1. Repeatable. F.S.

Reports and discussion of recent research and literature.

ENSCI 698. Seminar in Environmental Science.

Cr. R. Repeatable. F.S.

Reports and discussion of recent research and literature.

ENSCI 699. Research.

Cr. arr. Repeatable. F.S.SS.

Environmental Studies

Interdepartmental Undergraduate Program

Environmental Studies deals with the relationship and interactions between humans and the environment. Students in any college at ISU may elect to take a secondary major or minor in Environmental Studies. The curriculum is designed to give students an understanding of current and emerging environmental issues and an appreciation of different perspectives regarding these issues. Courses are provided for students pursuing careers related to the environment and for others who simply want to know more about environmental issues.

Secondary Major

The Environmental Studies secondary major is taken in addition to one's first major and provides the breadth of preparation and integrated perspective necessary to understand environmental issues. Students seeking a major in Environmental Studies complete 24 credits of Env S coursework including:

At least one general survey course chosen from:

ENV S 101	Environmental Geology: Earth in Crisis
ENV S 120	Introduction to Renewable Resources
ENV S 173	Environmental Biology

ENV S 201	Introduction to Environmental Issues
At least one integrative/issues course chosen from:	
ENV S 160	Water Resources of the World
ENV S 204	Biodiversity
ENV S 324	Energy and the Environment
ENV S 342	World Food Issues: Past and Present
ENV S 404	Global Change
ENV S 424	Sustainable and Environmental Horticulture Systems
ENV S 450	Issues in Sustainable Agriculture
At least two human/societal perspectives courses chosen from:	
ENV S 293	Environmental Planning
ENV S 320	Ecofeminism
ENV S 334	Environmental Ethics
ENV S 345	Population and Society
ENV S 355	Literature and the Environment
ENV S 380	Environmental and Resource Economics
ENV S 382	Environmental Sociology
ENV S 383	Environmental Politics and Policies
ENV S 384	Religion and Ecology
ENV S 442	The Policy and Politics of Coastal Areas
ENV S 472	U. S. Environmental History
ENV S 484	Sustainable Communities
ENV S 491	Environmental Law and Planning

Beyond these three requirements, any Environmental Studies course and up to six credits of approved environmental coursework outside of Environmental Studies may be applied toward the 24 credit total for the major. Regardless of their home college, Environmental Studies majors must complete at least 9 credits of approved coursework in natural science. Unless prohibited by program or college rules, courses used to fulfill requirements of the Environmental Studies major may also be used to satisfy general education and other requirements of departments and colleges. A combined average grade of C or higher is required in courses applied to the major.

Regardless of their primary major, Environmental Studies graduates have a broad foundation in science and humanities, an understanding of major environmental issues, and an appreciation of the varied and sometimes opposing perspectives regarding these issues.

Minor

Students seeking a minor in Environmental Studies complete 15 credits of approved Environmental Studies coursework including:

At least one general survey course chosen from:	
ENV S 101	Environmental Geology: Earth in Crisis
ENV S 120	Introduction to Renewable Resources
ENV S 173	Environmental Biology
ENV S 201	Introduction to Environmental Issues
At least one integrative/issues course chosen from:	
ENV S 160	Water Resources of the World
ENV S 204	Biodiversity
ENV S 324	Energy and the Environment
ENV S 342	World Food Issues: Past and Present
ENV S 404	Global Change
ENV S 424	Sustainable and Environmental Horticulture Systems
ENV S 450	Issues in Sustainable Agriculture
At least two human/societal perspectives courses chosen from:	
ENV S 293	Environmental Planning
ENV S 320	Ecofeminism
ENV S 334	Environmental Ethics
ENV S 345	Population and Society
ENV S 355	Literature and the Environment
ENV S 380	Environmental and Resource Economics
ENV S 382	Environmental Sociology
ENV S 384	Religion and Ecology
ENV S 442	The Policy and Politics of Coastal Areas
ENV S 472	U. S. Environmental History

ENV S 484	Sustainable Communities
ENV S 491	Environmental Law and Planning

A combined average grade of C or higher is required in courses applied to the minor, and the minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

Courses primarily for undergraduates:

ENV S 101. Environmental Geology: Earth in Crisis.

(Cross-listed with GEOL). (3-0) Cr. 3. F.S.

An introduction to geologic processes and the consequences of human activity from local to global scales. Discussion of human population growth, resource depletion, pollution and waste disposal, global warming and ozone depletion, desertification, and geologic hazards such as earthquakes, landslides, flooding, and volcanism.

ENV S 108. Introduction to Oceanography.

(Cross-listed with GEOL). (3-0) Cr. 3. F.

Introduction to study of the oceans. Ocean exploration. Waves and currents. Shape, structure, and origin of the ocean basins. Sedimentary record of oceanic life. Composition of seawater and its significance for life. Ocean circulation and its influence on climate. Life of the oceans, including coral reefs. Use and misuse of ocean resources. Anthropogenic impacts on the oceanic environment.

ENV S 111. Geological Disasters.

(Cross-listed with GEOL). (1-0) Cr. 1. F.S.SS.

Introduction to the catastrophic geologic processes that disrupt ecosystems and human activity. Includes a discussion on the role of plate tectonics, the hydrologic cycle, and humans as the driving forces behind selected case studies on volcanic eruptions, earthquakes, tsunamis, landslides, and floods. Summer - online only.

ENV S 120. Introduction to Renewable Resources.

(Cross-listed with AGRON, NREM). (3-0) Cr. 3. F.S.

Overview of soil, water, plants, and animals as renewable natural resources in an ecosystem context. History and organization of resource management. Concepts of integrated resource management.

ENV S 130. Natural Resources and Agriculture.

(Cross-listed with NREM). (3-0) Cr. 3. S.

Survey of the ecology and management of fish, forest, and wildlife resources in areas of intensive agriculture, with emphasis on Iowa. Conservation and management practices for private agricultural lands. Designed for nonmajors.

ENV S 160. Water Resources of the World.

(Cross-listed with AGRON, GEOL, MTEOR). (3-0) Cr. 3. S.

Study of the occurrence, history, development, and management of world water resources. Basic hydrologic principles including climate, surface water, groundwater, and water quality. Historical and current perspectives on water policy, use, and the role of water in society and the environment.

ENV S 173. Environmental Biology.

(Cross-listed with BIOL). (3-0) Cr. 3. F.S.

An introduction to the structure and function of natural systems at scales from the individual to the biosphere and the complex interactions between humans and their environment. Discussions of human population growth, biodiversity, sustainability, resource use, and pollution. Does not satisfy biology major requirements.

ENV S 201. Introduction to Environmental Issues.

(Cross-listed with BIOL, ENSCI). (2-0) Cr. 2. S.

Discussion of current and emerging environmental issues such as human population growth, energy use, loss of biodiversity, water resources, and climate change.

ENV S 204. Biodiversity.

(Cross-listed with BIOL). (4-0) Cr. 2. S. *Prereq: One course in life sciences*

Survey of the major groups of organisms and biological systems. Definition, measurements, and patterns of distribution of organisms. Sources of information about biodiversity. Does not satisfy biology major requirements. Half semester course.

ENV S 220. Globalization and Sustainability.

(Cross-listed with ANTHR, GLOBE, M E, MAT E, SOC, T SC). (3-0) Cr. 3. F.S.

An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department. Meets International Perspectives Requirement.

ENV S 250. Environmental Geography.

(Cross-listed with ENSCI). (3-0) Cr. 3. F.

The distribution, origins and functions of the earth's physical systems and the spatial relationship between human activity and the natural world.

ENV S 260. Soils and Environmental Quality.

(Cross-listed with AGRON). (3-0) Cr. 3. F.S.

Role of soils in environmental quality and natural resources management. Emphasis on soil erosion and conservation, water quality, and environmental planning. Saturday field trip.

ENV S 270. Foundations in Natural Resource Policy and History.

(Cross-listed with L A, NREM). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

The development of natural resource conservation philosophy and policy from the Colonial Era to the present. North American wildlife, forestry, and environmental policy; national parks and other protected lands; federal and state agencies. Relationship to cultural contexts, including urban reform and American planning movement. Discussion of common pool resources, public and private lands.

ENV S 293. Environmental Planning.

(Cross-listed with C R P, DSN S). (3-0) Cr. 3. F.

Comprehensive overview of the field of environmental relationships and the efforts being made to organize, control, and coordinate environmental, aesthetic, and cultural characteristics of land, air, and water.

ENV S 320. Ecofeminism.(Cross-listed with W S). (3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq:* W S 201 or 3 credits in *Women's Studies at the 300 level or above*

Women's relationships with the earth, non-human nature, and other humans. The course explores the connections between society's treatment of women and nature; origins of ecofeminism and how it relates to the science of ecology, conventional and sustainable agriculture as well as how ecofeminism relates to other branches of feminist philosophy. Evaluation and critique of modern science, technology, political systems and SOLUTIONS will be included.

ENV S 324. Energy and the Environment.

(Cross-listed with ENSCI, GEOL, MTEOR). (3-0) Cr. 3. S.

Renewable and non-renewable energy resources. Origin, occurrence, and extraction of fossil fuels. Nuclear, wind, geothermal, biomass, hydroelectric, and solar energy. Biofuels. Energy efficiency. Environmental effects of energy production and use, including air pollution, acid precipitation, coal ash, mountaintop removal mining, oil drilling, hydraulic fracturing, groundwater contamination, nuclear waste disposal, and global climate change. Carbon sequestration and geoengineering solutions for reducing atmospheric CO₂ concentrations.

ENV S 334. Environmental Ethics.(Cross-listed with PHIL). (3-0) Cr. 3. F. *Prereq:* 3 credits in philosophy or junior classification

Thorough study of some of the central moral issues arising in connection with human impact on the environment, e.g., human overpopulation, species extinction, forest and wilderness management, pollution. Several world views of the proper relationship between human beings and nature will be explored.

ENV S 342. World Food Issues: Past and Present.(Cross-listed with AGRON, FS HN, T SC). (3-0) Cr. 3. F.S. *Prereq:* Junior classification

Issues in the agricultural and food systems of the developed and developing world. Emphasis on economic, social, historical, ethical and environmental contexts. Causes and consequences of overnutrition/undernutrition, poverty, hunger and access/distribution. Explorations of current issues and ideas for the future. Team projects.

Meets International Perspectives Requirement.

ENV S 342H. World Food Issues: Past and Present, Honors.(Cross-listed with AGRON, T SC). (3-0) Cr. 3. F.S. *Prereq:* Junior classification

Issues in the agricultural and food systems of the developed and developing world. Emphasis on economic, social, historical, ethical and environmental contexts. Causes and consequences of overnutrition/undernutrition, poverty, hunger and access/distribution. Explorations of current issues and ideas for the future. Team projects.

Meets International Perspectives Requirement.

ENV S 345. Population and Society.(Cross-listed with SOC). (3-0) Cr. 3. F. *Prereq:* SOC 134

Human population growth and structure; impact on food, environment, and resources; gender issues; trends of births, deaths, and migration; projecting future population; population policies and laws; comparison of the United States with other societies throughout the world.

Meets International Perspectives Requirement.

ENV S 355. Literature and the Environment.(Cross-listed with ENGL). (3-0) Cr. 3. *Prereq:* ENGL 250

Study of literary texts that address the following topics, among others: the relationship between people and natural/urban environments, ecocriticism, and the importance of place in the literary imagination.

ENV S 380. Environmental and Resource Economics.(Cross-listed with ECON). (3-0) Cr. 3. *Prereq:* ECON 101

Natural resource availability, use, conservation, and government policy, including energy issues. Environmental quality and pollution control policies.

ENV S 381. Environmental Systems I: Introduction to Environmental Systems.(Cross-listed with BIOL, ENSCI, MICRO). Cr. 3-4. F. *Prereq:* 12 credits of natural science including biology and chemistry

Introduction to the structure and function of natural environmental systems.

Emphasis on the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems.

ENV S 382. Environmental Sociology.(Cross-listed with SOC). (3-0) Cr. 3. F.S. *Prereq:* Soc 134 or 3 credits of ENV S

Environment-society relations; social construction of nature and the environment; social and environmental impacts of resource extraction, production, and consumption; environmental inequality; environmental mobilization and movements; U.S. and international examples.

ENV S 383. Environmental Politics and Policies.(Cross-listed with POL S). (3-0) Cr. 3. F. *Prereq:* sophomore classification

Major ideologies relation to conservation and ecology. Processes, participants, and institutions involved in state, national, and global environmental policymaking. Case studies of environmental controversies and proposals for policy reform.

ENV S 384. Religion and Ecology.

(Cross-listed with RELIG). (3-0) Cr. 3.

Introduction to concepts of religion and ecology as they appear in different religious traditions, from both a historical and contemporary perspective. Special attention to religious response to contemporary environmental issues.

Meets International Perspectives Requirement.

ENV S 390. Internship in Environmental Studies.Cr. arr. Repeatable. F.S.SS. *Prereq:* Approval of the Environmental Studies Coordinator

Practical experience with nature centers, government agencies, schools, private conservation groups, and other organizations. Offered on a satisfactory-fail basis only.

ENV S 404. Global Change.(Cross-listed with AGRON, ENSCI, MTEOR). (3-0) Cr. 3. S. *Prereq:* Four courses in physical or biological sciences or engineering; junior standing

Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change. Also offered online Alt. F, even-numbered years.

ENV S 407. Watershed Management.(Cross-listed with ENSCI, NREM). (3-3) Cr. 4. S. *Prereq:* A course in general biology

Managing human impacts on the hydrologic cycle. Field and watershed level best management practices for modifying the impacts on water quality, quantity and timing are discussed. Field project includes developing a management plan using landscape buffers.

ENV S 417. Urban and Peri-urban Watershed Assessment.(Cross-listed with L A). (2-3) Cr. 3. F. *Prereq:* Junior classification and 6 credits of natural science

Assessment and reduction of impacts in urban and peri-urban watershed areas. Course prepares students to work with various analysis methods for vegetation, topography, stormwater and stream condition as well as work with data from other disciplines. Emphasis on communicating with the public. Introductory GIS and GPS technologies are utilized. Learning is largely field-based.

ENV S 424. Sustainable and Environmental Horticulture Systems.

(Cross-listed with HORT). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

Inquiry into ethical issues and environmental consequences of horticultural cropping systems, production practices and managed landscapes. Emphasis on systems that are resource efficient, environmentally sound, socially acceptable, and profitable.

ENV S 442. The Policy and Politics of Coastal Areas.

(Cross-listed with POL S). (3-0) Cr. 3. SS.

Exploration of political implications of coastal policy. Issues include: "Carrying capacity," zoning, regulation of human development activities, trade-offs between conservation and jobs, the quality of coastal lifestyle, ways in which citizens participate in policy for coastal areas.

ENV S 450. Issues in Sustainable Agriculture.

(Cross-listed with AGRON). (3-0) Cr. 3. F.

Agricultural science as a human activity; contemporary agricultural issues from agroecological perspective. Comparative analysis of intended and actual consequences of development of industrial agricultural practices. Meets International Perspectives Requirement.

ENV S 460. Controversies in Natural Resource Management.(Cross-listed with NREM). (3-0) Cr. 3. F.S. *Prereq: NREM 120, and A ECL 312 or NREM 301, and Junior classification*

Analysis of controversial natural resource issues using a case approach that considers uncertainty and adequacy of information and scientific understanding. Ecological, social, political, economic, and ethical implications of issues will be analyzed.

ENV S 461. Introduction to GIS.

(Cross-listed with ENSCI, IA LL, L A). Cr. 4. SS.

Descriptive and predictive GIS modeling techniques, spatial statistics, and map algebra. Application of GIS modeling techniques to environmental planning and resource management.

ENV S 472. U. S. Environmental History.(Cross-listed with HIST). (3-0) Cr. 3. *Prereq: Sophomore classification*

Survey of the interactions of human communities with the North American environment. Focus on the period from presettlement to the present, with a particular concentration on natural resources, disease, settlement patterns, land use, and conservation policies.

ENV S 484. Sustainable Communities.(Cross-listed with C R P, DSN S). (3-0) Cr. 3. S. *Prereq: Junior classification*

The history and theory of sustainable community planning. Procedural and substantive dimensions. Case studies of communities engaged in sustainability planning. Use and development of indicators.

ENV S 490. Independent Study.Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor and approval of Environmental Studies coordinator***ENV S 490H. Independent Study: Honors.**Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor and approval of Environmental Studies coordinator.***ENV S 491. Environmental Law and Planning.**(Cross-listed with C R P, DSN S, L A). (3-0) Cr. 3. S. *Prereq: 6 credits in natural sciences*

Environmental law and policy as applied in planning at the local and state levels. Brownfields, environmental justice, water quality, air quality, wetland and floodplain management, and local government involvement in ecological protection through land use planning and other programs.

ENV S 496. Travel Course.Cr. arr. Repeatable. *Prereq: Permission of instructor*

Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings.

ENV S 496A. International Tour.Cr. arr. Repeatable. *Prereq: Permission of instructor*

Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings.

ENV S 496B. Domestic Tour.Cr. arr. Repeatable. *Prereq: Permission of instructor*

Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings.

Genetics, Development and Cell Biology

The Department of Genetics, Development and Cell Biology (GDCB) is dedicated to biological discovery and excellence in undergraduate and graduate education. The research and teaching mission of the department is to achieve a greater understanding of fundamental principles of life by focusing on basic cellular and subcellular processes, including genome dynamics, cell structure and function,

cellular response to environmental and developmental signals, and molecular mechanisms of development. Recognizing that student education is of paramount importance, GDCB strives for excellence in teaching and research. GDCB plays a leading role in undergraduate and graduate training through a variety of activities including traditional courses, undergraduate internships in research laboratories, and advanced graduate seminar and literature-based courses. Innovative approaches to learning are emphasized throughout the curriculum.

Undergraduate Study

The GDCB Department offers undergraduate majors in conjunction with other departments. Students interested in the areas of genetics, development and cell biology should major in Biology, Genetics or Bioinformatics and Computational Biology (BCBio). The Biology Major is administered and offered jointly by the GDCB and EEOB departments. The GDCB faculty, together with those in EEOB and BBMB, administer and offer the Genetics Major. Each of these majors is available through the College of Liberal Arts and Sciences or through the College of Agriculture and Life Sciences. BCBio is administered by GDCB and the Departments of Computer Science and Mathematics, and is available through the college of Liberal Arts and Sciences.

The Biology Major and the Genetics Major prepare students for a wide range of careers in biological sciences. Training in Biology or Genetics may lead to employment in teaching, research, or any of a variety of health-related professions. Some of these careers include biotechnology, human and veterinary medicine, agricultural sciences and life science education. BCBio majors are prepared for careers at the interfaces of biological, informational and computational sciences in the above fields. These majors are also excellent preparation for graduate study in bioinformatics, molecular genetics, cell and developmental biology, neuroscience and related fields. Faculty members in GDCB contribute to the undergraduate courses listed below. The full descriptions of these courses can be found in the Biology, Genetics and BCBio sections of the catalog.

BIOL 101	Introductory Biology	3
BIOL 110	Introduction to Biology	1
BIOL 111	Opportunities in Biology	0.5
BIOL 155	Human Biology	3
BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
BIOL 212	Principles of Biology II	3
BIOL 212L	Principles of Biology Laboratory II	1
BIOL 255	Fundamentals of Human Anatomy	3
BIOL 255L	Fundamentals of Human Anatomy Laboratory	1
BIOL 256	Fundamentals of Human Physiology	3
BIOL 256L	Fundamentals of Human Physiology Laboratory	1
BIOL 258	Human Reproduction	3
BIOL 313	Principles of Genetics	3
BIOL 313L	Genetics Laboratory	1
BIOL 314	Principles of Molecular Cell Biology	3
BIOL 328	Molecular and Cellular Biology of Human Diseases	3
BIOL 330	Principles of Plant Physiology	3
BIOL 352	Vertebrate Histology	4
BIOL 394	International Field Trips in Biology	1-4
BIOL 423	Developmental Biology	3
BIOL 423L	Developmental Biology Laboratory	1
BIOL 428	Topics in Cell Biology	3
BIOL 436	Neurobiology	3
BIOL 444	Introduction to Bioinformatics	4
BIOL 490	Independent Study	1-6
BIOL 494	Biology Internship	1-3
BIOL 495	Undergraduate Seminar	1-3
GEN 110	Genetics Orientation	1
GEN 409	Molecular Genetics	3
GEN 410	Analytical Genetics	3
GEN 490	Independent Study	1-5
GEN 491	Undergraduate Seminar	1
BCBIO 110	BCBio Orientation	0.5
BCBIO 211	Introduction to Bioinformatics and Computational Biology	3
BCBIO 401	Fundamentals of Bioinformatics and Computational Biology I	3

BCBIO 402	Fundamentals of Bioinformatics and Computational Biology II	3
BCBIO 444	Introduction to Bioinformatics	4

Graduate Study

Understanding the genetic blueprint and the functions of cells is critical to virtually all aspects of biology. The basic mission of the Department of Genetics, Development and Cell Biology is to achieve a greater understanding of fundamental principles of life. The GDCB faculty and students conduct hypothesis-driven research into the biology of animals, plants and microbes. While research in GDCB is often based on discovery and analysis of molecular mechanisms of life processes, a true understanding of living organisms will ultimately require the integration of molecular mechanisms in the context of dynamic structural components of the living cell. Thus, research efforts within GDCB use molecular, genetic, biochemical, computational and imaging techniques to study systems at increasingly complex levels of organization.

GDCB faculty contribute to a broad but integrated array of cutting-edge research topics, implementing interactive and multidisciplinary approaches that bridge conventional boundaries, and incorporating experimental and computational biology as complementary approaches. Examples include using genetics and molecular biology to investigate the cellular basis of development, or combining biochemical and computational approaches to study basic subcellular functions, signal transduction or metabolism.

The faculty in the GDCB department train graduate students in several interdepartmental majors/programs including Bioinformatics and Computational Biology, Ecology and Evolutionary Biology, Genetics, Immunobiology, Plant Biology, Interdisciplinary Graduate Studies, Microbiology, Molecular, Cellular and Developmental Biology, Neuroscience and Toxicology. Graduate work leading to both Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees are available.

Prospective graduate students need a sound background in the physical and biological sciences, as well as Mathematics and English. Interested students should check the links on the GDCB web site (www.gdcb.iastate.edu/) for specific admissions procedures and the latest information about individual faculty and their research programs. The interdepartmental majors and programs require submission of Graduate Record Examination (GRE) aptitude test scores. Advanced GRE scores are recommended. International students whose native language is other than English must also submit TOEFL scores with their application.

Students who are enrolled in the interdepartmental graduate majors and who have affiliations with GDCB are required to actively participate in seminars, research activities, and to show adequate progress and professional development while pursuing their degree. Completion of either the M.S. or Ph.D. degrees requires that research conducted by the student culminates in the writing and presentation of a thesis or dissertation. The Graduate College, the GDCB Faculty, and the individual student's major professor and Program of Study Committee provide requirements and guidelines for study. General information about graduate study requirements can be found at the web site for the Graduate College (www.grad-college.iastate.edu/) and requirements for the interdepartmental majors can be found by following the links from the GDCB web site above. Although not a formal requirement, the GDCB faculty recommends that students pursuing the Ph.D. include teaching experience in their graduate training.

Courses primarily for graduate students, open to qualified undergraduates:

GDCB 505. Entrepreneurship in Science and Technology.

(3-0) Cr. 3. Alt. F., offered even-numbered years.

High level success at modern science requires entrepreneurship both in and outside the laboratory. Scientists are in a unique position to not only think, but to thrive, "outside of the box" and take unorthodox approaches to research that lead to positive paradigm shifts in our lives. Exploration of many facets of science, technology, industry and commerce, with frequent guest lectures from entrepreneurs.

GDCB 508. Biotechnology in Agriculture, Food, and Human Health.

(3-0) Cr. 3. Prereq: BIOL 211 and BIOL 212

Scientific principles and techniques in biotechnology. Products and applications in agriculture, food, and human health. Ethical, legal, and social implications of biotechnology. A research paper is required for graduate credit.

GDCB 510. Transmission Genetics.

(3-0) Cr. 3. F. Prereq: GEN 410 or graduate standing

In-depth investigations of modern research practices of transmission genetics. Designed for students interested in genetic research. Topics include: Mendelian genetic analysis, analysis of genetic pathways, mutational analysis of gene function, chromosomal mechanics, genetic mapping, epigenetic inheritance, human genetic analysis.

GDCB 511. Molecular Genetics.

(Cross-listed with MCDB). (3-0) Cr. 3. S. Prereq: BIOL 313 and BBMB 405

The principles of molecular genetics: gene structure and function at the molecular level, including regulation of gene expression, genetic rearrangement, and the organization of genetic information in prokaryotes and eukaryotes.

GDCB 513. Plant Metabolism.

(Cross-listed with PLBIO). (2-0) Cr. 2. Alt. F., offered even-numbered years.

Prereq: BIOL 330, PHYS 111, CHEM 331; one semester of biochemistry recommended

Photosynthesis, respiration, and other aspects of plant metabolism.

GDCB 520. Genetic Engineering.

(Cross-listed with BBMB, MCDB). (3-0) Cr. 3. Alt. S., offered even-numbered years. Prereq: GEN 411 or BBMB 405

Strategies and rationale of recombinant DNA technologies. The methodology of genetic engineering in basic research and implications for applied research will be considered. Topics include: basic tools of molecular cloning, targeted mutagenesis, fluorescent proteins, protein expression systems, and transgenic model systems.

GDCB 528. Advances in Molecular Cell Biology.

(Cross-listed with MCDB). (3-0) Cr. 3. Alt. F., offered even-numbered years.

Prereq: Courses in general cell biology and biochemistry

Cell biological processes including cell signaling, cell division, intracellular trafficking, biogenesis of organelles, cell adhesion and motility.

GDCB 533. Advances in Developmental Biology.

(Cross-listed with MCDB). (3-0) Cr. 3. Alt. F., offered odd-numbered years. Prereq: BIOL 314 or Biol 423

Fundamental principles in multicellular development. Emphasis on cellular and molecular regulation of developmental processes, and experimental approaches as illustrated in the current literature.

GDCB 536. Statistical Genetics.

(Cross-listed with STAT). (3-0) Cr. 3. Alt. F., offered even-numbered years.

Prereq: STAT 401, STAT 447; GEN 320 or BIOL 313

Statistical models and methods for genetics covering models of population processes: selection, mutation, migration, population structure, and linkage disequilibrium, and inference techniques: genetic mapping, linkage analysis, and quantitative trait analysis. Applications include genetic map construction, gene mapping, genome-wide association studies (GWAS), inference about population structure, phylogenetic tree construction, and forensic and paternity identification.

GDCB 542. Introduction to Molecular Biology Techniques.

(Cross-listed with B M S, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification

Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

GDCB 542A. Introduction to Molecular Biology Techniques: DNA Techniques.

(Cross-listed with B M S, BBMB, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification

Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

GDCB 542C. Introduction to Molecular Biology Techniques: Cell Techniques.

(Cross-listed with B M S, BBMB, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S. Prereq: Graduate classification

Includes immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

GDCB 542D. Introduction to Molecular Biology Techniques: Plant Transformation.

(Cross-listed with B M S, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S. Prereq: Graduate classification

Includes Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

GDCB 542E. Introduction to Molecular Biology Techniques: Proteomics.

(Cross-listed with B M S, BBMB, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F. Prereq: Graduate classification

Includes two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

GDCB 542F. Introduction to Molecular Biology Techniques: Metabolomics.

(Cross-listed with B M S, BBMB, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F. *Prereq: Graduate classification*
Includes metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

GDCB 542G. Introduction to Molecular Biology Techniques: Genomic.

(Cross-listed with B M S, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S. *Prereq: Graduate classification*
Offered on a satisfactory-fail basis only.

GDCB 544. Introduction to Bioinformatics.

(Cross-listed with BCB, COM S, CPR E). (4-0) Cr. 4. F. *Prereq: MATH 165 or STAT 401 or equivalent*

Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: database searching, sequence alignment, gene prediction, RNA and protein structure prediction, construction of phylogenetic trees, comparative, functional genomics, and systems biology.

GDCB 545. Plant Molecular, Cell and Developmental Biology.

(Cross-listed with MCDB, PLBIO). (3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq: Biol 313, BIOL 314, BIOL 330 or BBMB 405*

Plant nuclear and organelle genomes; regulation of gene expression; hormone signaling; organization, function, and development of plant cells and subcellular structures; regulation of plant growth and development.

GDCB 556. Cellular, Molecular and Developmental Neuroscience.

(Cross-listed with B M S, NEURO). (3-0) Cr. 3. F. *Prereq: BIOL 335 or BIOL 436; physics recommended*

Fundamental principles of neuroscience including cellular and molecular neuroscience, nervous system development, sensory, motor and regulatory systems.

GDCB 557. Advanced Neuroscience Techniques.

(Cross-listed with NEURO). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: Neuro 556 or equivalent course*

Research methods and techniques; lectures, laboratory exercises and/or demonstrations representing individual faculty specialties.

GDCB 568. Bioinformatics II (Advanced Genome Informatics).

(Cross-listed with BCB, COM S, STAT). (3-0) Cr. 3. S. *Prereq: BCB 567, BBMB 301, BIOL 315, STAT 430, credit or enrollment in GEN 411*

Advanced sequence models. Basic methods in molecular phylogeny. Hidden Markov models. Genome annotation. DNA and protein motifs. Introduction to gene expression analysis.

GDCB 570. Bioinformatics IV (Computational Functional Genomics and Systems Biology).

(Cross-listed with BCB, COM S, CPR E, STAT). (3-0) Cr. 3. S. *Prereq: BCB 567, BIOL 315, COM S 311 and either 208 or 228, GEN 411, STAT 430*

Algorithmic and statistical approaches in computational functional genomics and systems biology. Elements of experiment design. Analysis of high throughput gene expression, proteomics, and other datasets obtained using system-wide measurements. Topological analysis, module discovery, and comparative analysis of gene and protein networks. Modeling, analysis, simulation and inference of transcriptional regulatory modules and networks, protein-protein interaction networks, metabolic networks, cells and systems: Dynamic systems, Boolean, and probabilistic models. Multi-scale, multi-granularity models. Ontology-driven, network based, and probabilistic approaches to information integration.

GDCB 590. Special Topics.

Cr. arr. Repeatable. *Prereq: Permission of instructor*

GDCB 596. Genomic Data Processing.

(Cross-listed with BCB, COM S). (3-0) Cr. 3. F. *Prereq: Some experience in computation*

Study the practical aspects of genomic data processing with an emphasis on hands-on projects. Topics include base-calling, sequence cleaning and contaminant removal; fragment assembly procedures and EST clustering methods; genome closure strategies and practices; sequence homology search and function prediction; and annotation and submission of GenBank reports. Next-generation sequencing topics like model genome resequencing, short-read assembly and transcriptome abundance measurement will also be covered.

Courses for graduate students:**GDCB 661. Current Topics in Neuroscience.**

(Cross-listed with BBMB, NEURO). (2-0) Cr. 2-3. Repeatable. Alt. S., offered even-numbered years. *Prereq: NEURO 556 (or comparable course) or permission of instructor*

Topics may include molecular and cellular neuroscience, neurodevelopment, neuroplasticity, neurodegenerative diseases, cognitive neuroscience, sensory biology, neural integration, membrane biophysics, neuroethology, techniques in neurobiology and behavior.

GDCB 679. Light Microscopy.

(Cross-listed with EEOB, MICRO). (2-9) Cr. 5. *Prereq: Permission of instructor*

Current theories encompassing light optics and their applications for specimen preservation, paraffin and resin sectioning, general staining, histochemistry, cytophotometry, immunocytochemistry, autoradiography, image digitization, processing and presentation, and digital macro- and micrography. Limit of 10 students.

GDCB 680. Scanning Electron Microscopy.

(Cross-listed with EEOB, MICRO). (2-9) Cr. 5. *Prereq: Permission of instructor*

Current theories encompassing scanning electron optics and their applications for high and low vacuum microscopy, specimen chemical and cryopreservation methods, x-ray microanalysis, backscattered and topographic imaging, image digitization, processing and presentation. Limit of 10 students.

GDCB 681. Transmission Electron Microscopy.

(Cross-listed with EEOB, MICRO). (2-9) Cr. 5. *Prereq: GDCB 679 and permission of instructor*

Current theories encompassing electron optics and their applications for chemical and physical specimen preservation, ultramicrotomy, general staining and cytochemistry, immunocytochemistry, autoradiography, negative staining and shadowing, x-ray microanalysis, image digitization, processing and presentation.

GDCB 690. Seminar in GDCB.

Cr. 1. Repeatable.

Research seminars by faculty, invited speakers, and graduate students. Offered on a satisfactory-fail basis only.

GDCB 691. Faculty Seminar.

Cr. 1. Repeatable.

Faculty research series.

GDCB 696. Research Seminar.

(Cross-listed with AGRON, BBMB, FOR, HORT, PLBIO). Cr. 1. Repeatable. F.S. Research seminars by faculty and graduate students. Offered on a satisfactory-fail basis only.

GDCB 698. Seminar in Molecular, Cellular, and Developmental Biology.

(Cross-listed with BBMB, MCDB, MICRO, V MPM). (2-0) Cr. 1-2. Repeatable. F.S. Student and faculty presentations.

GDCB 699. Research.

Cr. arr. Repeatable.

Research for thesis or dissertation. Offered on a satisfactory-fail basis only.

GDCB 699I. Research.

(Cross-listed with A ECL, ANTHR, EEOB, IA LL). Cr. 1-4. Repeatable.

Geological and Atmospheric Sciences

The Department of Geological and Atmospheric Sciences seeks to establish innovative teaching and outstanding research programs that apply fundamental principles of physics, chemistry, biology, and mathematics to cross-disciplinary problems related to the Earth sciences. As a basis for this mission, the Department maintains strength in fundamental topics of geology, meteorology, and hydrology that involve investigating the dynamic nature of the structure, composition, and interactive processes of the Earth and its component systems. Study of these systems includes the application of scientific principles to a wide range of environmental, agricultural, and natural-resource problems, so that through its teaching and research activities, the Department fosters a global perspective on the geosciences. Individual elements of study, such as atmospheric-circulation patterns, water cycling, geochemical interactions, glacier dynamics, or rock formation, are viewed not only in terms of their own intrinsic value, but also in terms of their role in the evolving Earth system. The Department recognizes that many fundamental advances in the geosciences are occurring at the interfaces with other disciplines and between subdisciplines in the field, so Department faculty strive to form mutually beneficial research and educational collaborations with other programs at Iowa State University and other institutions around the world by taking a leadership position in solving problems at these interfaces.

Undergraduate Study

The department offers courses in Geology and Meteorology. Majors can be earned in earth science (B.A., B.S.), geology (B.S.), and meteorology (B.S.). Candidates for all degrees must satisfy the requirements established by the College of Liberal Arts and Sciences (see Liberal Arts and Sciences, Curriculum). In addition, the department has requirements for each major.

The bachelor of science in Geology prepares the student for a professional career and/or graduate study in the geological sciences. Students selecting geology as a major will elect an option in traditional geology or environmental geology/hydrogeology. The traditional option prepares a student for employment in state and U.S. geological surveys, mineral and petroleum exploration, and graduate study in most aspects of geology. Required courses in this option include:

GEOL 100	The Earth	3
GEOL 100L	The Earth: Laboratory	1
GEOL 102	History of the Earth	3
GEOL 102L	History of the Earth: Laboratory	1
GEOL 302	Summer Field Studies	6
GEOL 315	Mineralogy and Earth Materials	3
GEOL 315L	Laboratory in Mineralogy and Earth Materials	1
GEOL 316	Optical Mineralogy	2
GEOL 356	Structural Geology	5
GEOL 365	Igneous and Metamorphic Petrology	3
GEOL 368	Sedimentology and Stratigraphy	4
GEOL 479	Surficial Processes	3
And 9 credits of geology electives		9
Total Credits		44

The environmental geology/hydrogeology option prepares a student for employment in environmental consulting, state and U.S. geological surveys, regulatory agencies, and graduate study in the environmental aspects of geology. Required courses in this option include:

GEOL 100	The Earth	3
GEOL 100L	The Earth: Laboratory	1
GEOL 102	History of the Earth	3
GEOL 102L	History of the Earth: Laboratory	1
GEOL 302	Summer Field Studies	6
GEOL 315	Mineralogy and Earth Materials	3
GEOL 315L	Laboratory in Mineralogy and Earth Materials	1
GEOL 316	Optical Mineralogy	2
GEOL 356	Structural Geology	5
GEOL 368	Sedimentology and Stratigraphy	4
GEOL 411	Hydrogeology	4
One of the following		3
GEOL 419	Environmental Geochemistry	
GEOL 426	Stable Isotopes in the Environment	
GEOL 434	Contaminant Hydrogeology	
GEOL 479	Surficial Processes	3
And 6 credits of geology electives		6
Total Credits		45

Required supporting courses include:

CHEM 177	General Chemistry I	4
CHEM 177L	Laboratory in General Chemistry I	1
CHEM 178	General Chemistry II	3
CHEM 178L	Laboratory in College Chemistry II	1
PHYS 111	General Physics	5
PHYS 112	General Physics	5
One of the following		4
MATH 165	Calculus I	
MATH 181	Calculus and Mathematical Modeling for the Life Sciences I	
One of the following		4
MATH 166	Calculus II	
MATH 182	Calculus and Mathematical Modeling for the Life Sciences II	

And 6 additional credits from an approved departmental list of courses in the science, engineering, or mathematical disciplines outside of geology

Total Credits	33
----------------------	-----------

No more than 9 credits in 490 may be counted toward a degree in Geology.

See Four-Year Graduation Plan: B.S. in Geology - Traditional Option

See Four-Year Graduation Plan: B.S. in Geology - Environmental-Geology/Hydrogeology Option

Minor - Geology

A minor in Geology may be earned by taking 15 credits of geology coursework, including:

GEOL 100	The Earth	3-4
& 100L	and The Earth: Laboratory	
or GEOL 201	Geology for Engineers and Environmental Scientists	
GEOL 102	History of the Earth	3
GEOL 102L	History of the Earth: Laboratory	1
Total Credits		7-8

The remainder should be at the 300 level or above.

Graduates work to understand natural processes on Earth and other planets. They are able to apply their knowledge of forces and factors that shape the Earth to reconstruct the past and anticipate the future. Graduates provide essential information for solving problems for resource management, environmental protection, and public health, safety, and welfare. They work as consultants on engineering and environmental problems, explorers for new minerals and hydrocarbon resources, researchers, teachers, writers, editors, and museum curators. Graduates are able to integrate field and laboratory data and to prepare reports. They are able to make presentations that include maps and diagrams that illustrate the results of their studies.

The study of Meteorology involves the description of the earth's atmosphere and the processes responsible for its behavior. Students majoring in Meteorology earn the bachelor of science. The major satisfies guidelines specified by the American Meteorological Society and meets education requirements for employment with the National Weather Service and the World Meteorological Organization. Successful preparation for professional or graduate work in Meteorology requires that the student develop and integrate a diverse range of skills and knowledge bases. These include weather observing, the physics and dynamics of the global atmosphere, application of new weather technologies, advanced mathematical tools, computer programming and modeling, and effective oral and written communication. The faculty view the senior thesis (MTEOR 499 Senior Research), in particular, as a capstone experience in which students demonstrate they have achieved this integration. Also, contemporary meteorology is an earth-system science with ties to a variety of human experiences. The electives and general education requirements of the college are further experiences that the meteorology student must integrate with their core meteorology knowledge in order to function effectively in a globally-oriented profession. The program requires the following courses:

MTEOR 111	Synoptic Applications	1
MTEOR 201	Introductory Seminar	R
MTEOR 206	Introduction to Weather and Climate	3
MTEOR 301	General Meteorology	4
MTEOR 311	Introduction to Synoptic Meteorology	2
MTEOR 341	Atmospheric Physics I	3
MTEOR 342	Atmospheric Physics II	3
MTEOR 411	Synoptic Meteorology	3
MTEOR 417	Mesoscale Forecasting Laboratory	3
MTEOR 432	Instrumentation and Measurements	3
MTEOR 443	Dynamic Meteorology I	3
MTEOR 454	Dynamic Meteorology II	3
MTEOR 499	Senior Research	2
Total Credits		33

An additional 9 credits must be chosen from:

MTEOR 402	Watershed Hydrology	4
MTEOR 404	Global Change	3
MTEOR 405	Environmental Biophysics	3
MTEOR 406	World Climates	3
MTEOR 407	Mesoscale Meteorology	3

MTEOR 452	Climate Modeling	3
MTEOR 490	Independent Study	1-3
GEOL 415	Paleoclimatology	3
or C E 372	Engineering Hydrology and Hydraulics	

Supporting work is required in areas at least equivalent to:

One of the following sequences		4
CHEM 163 & 163L	College Chemistry and Laboratory in College Chemistry	

Or

CHEM 177 & 177L	General Chemistry I and Laboratory in General Chemistry I	
COM S 207	Fundamentals of Computer Programming	3
PHYS 221	Introduction to Classical Physics I	5
PHYS 222	Introduction to Classical Physics II	5
MATH 165	Calculus I	4
MATH 166	Calculus II	4
MATH 265	Calculus III	4
MATH 266	Elementary Differential Equations	3
STAT 105	Introduction to Statistics for Engineers	3
SP CM 212	Fundamentals of Public Speaking	3
Total Credits		38

A grade of C or better (not C-) is required in each of the following courses to meet minimum graduation requirements for a bachelor of science degree in Meteorology:

MTEOR 206	Introduction to Weather and Climate	3
MTEOR 301	General Meteorology	4

Several co-op programs are available for upper division undergraduates. Although a range of opportunities exists for men and women who terminate their studies with a bachelor of science, students who meet the necessary academic standards are encouraged to continue their studies in a graduate program. For these students, additional coursework is recommended in a mathematical or physical science. Other students can choose a wide range of supporting courses that will contribute to their particular area of interest in meteorology.

See Four-Year Graduation Plan: B.S. in Meteorology - Path 1: For students prepared to start in calculus

See Four-Year Graduation Plan: B.S. in Meteorology - Path 2: For students needing preparatory mathematics prior to calculus

Minor - Meteorology

The department offers a minor in Meteorology which may be earned by completing 15 credits including MTEOR 111 Synoptic Applications (only 1 credit may count toward the minor), MTEOR 206 Introduction to Weather and Climate and MTEOR 301 General Meteorology. Further information concerning programs of study, including sample degree programs, is available from the department.

Major - Earth Science

The **Earth Science major** is a broad program that typically emphasizes an interdisciplinary field. Programs leading to the bachelor of science may be individually designed but will include required courses in Geology and Meteorology, and required supporting work in chemistry, physics, and mathematics. Specific programs have been designed for students interested in a geology, meteorology, or an environmental earth science emphasis. Programs leading to the bachelor of arts for earth science teaching are available. The latter program must satisfy the requirements of the Teacher Education Program (see Index, Teacher Education).

See Four-Year Graduation Plan: B.S. in Earth Science

See Four-Year Graduation Plan: B.A. in Earth Science

Communication Proficiency requirement: The department requires a grade of C or better in:

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
or ENGL 250H	Written, Oral, Visual, and Electronic Composition: Honors	
One of the following		3
ENGL 309	Report and Proposal Writing	
ENGL 314	Technical Communication	
ENGL 302	Business Communication	

JL MC 347	Science Communication	
-----------	-----------------------	--

Total Credits	9
---------------	---

Graduate Study

The department offers programs leading to the master of science and doctor of philosophy with majors in Earth Science, Geology, and Meteorology. Program options are available for the M.S. and Ph.D. degrees in earth science leading to careers in teaching. The department also cooperates in the interdepartmental major in Water Resources (see Index). Students desiring a major in the above fields normally will have a strong undergraduate background in the physical and mathematical sciences. Individuals desiring to enter a graduate program are evaluated by considering their undergraduate background and performance and their expressed goals.

Programs of study are designed on an individual basis in accordance with requirements of the Graduate College and established requirements for each departmental major. Additional coursework is normally taken in aerospace engineering, agronomy (soil science), chemistry, civil and construction engineering, computer engineering, computer science, engineering mechanics, materials engineering, mathematics, mechanical engineering, microbiology, physics, or statistics. Departmental requirements provide a strong, broad background in the major and allow considerable flexibility in the program of each individual.

A dissertation is required of all Ph.D. candidates.

M.S. students in Geology are required to complete a thesis. The M.S. in Earth Science is available to students electing the non-thesis (Creative Component) option in Geology or Meteorology. A non-thesis option is also offered for the M.S. degree in Meteorology.

Graduates in Geology specialize in a subdiscipline, but they comprehend and can communicate the basic principles of geology and supporting sciences. They possess the capacity for critical and independent thinking. They are able to write a fundable research proposal, evaluate current relevant literature, carry out the proposed research, and communicate the results of their research to peers at national meetings and to the general public. They work as consultants on engineering and environmental problems, explorers for new minerals and hydrocarbon resources, researchers, teachers, writers, editors, and museum curators.

All candidates for an advanced degree in Meteorology are expected to complete:

MTEOR 542	Physical Meteorology	3
MTEOR 543	Advanced Dynamic Meteorology I	3
MTEOR 552	Climate Modeling	3

In addition, students without prior synoptic course-work must complete MTEOR 511 Synoptic Meteorology; other students must complete:

MTEOR 507	Mesoscale Meteorology	3
AGRON 507	Mesoscale Meteorology	3
MTEOR 504	Global Change	3
or AGRON 504	Global Change	
MTEOR 605	Boundary-Layer Meteorology	3
or AGRON 505	Environmental Biophysics	

Graduates in Meteorology have a good comprehension of basic principles, a capacity for critical and independent thought and an ability to communicate effectively with scientific colleagues. They have an appropriate breadth in their understanding of meteorology with a suitable specialization. Graduates are able to undertake thorough research and explain the results in a scientifically reasonable fashion.

Courses primarily for undergraduates:

GEOL 100. The Earth.

(3-0) Cr. 3. F.S.SS.

How does the earth work, what is it made of, and how does it change through time? Plate tectonics, Earth materials, landforms, structures, climate, and natural resources. Emphasis on the observations and hypotheses used to interpret earth system processes. Students may also enroll in Geol 100L.

GEOL 100L. The Earth: Laboratory.

(0-2) Cr. 1. F.S. *Prereq: Credit or enrollment in GEOL 100*

Students will gain understanding of how Earth processes affect their lives and how they affect the Earth, and of the complex nature of the Earth and its processes. They will gain a deep knowledge of the methods used to understand the time scales and rates of Earth processes also through an applied research experience on groundwater and surface water.

GEOL 101. Environmental Geology: Earth in Crisis.

(Cross-listed with ENV S). (3-0) Cr. 3. F.S.

An introduction to geologic processes and the consequences of human activity from local to global scales. Discussion of human population growth, resource depletion, pollution and waste disposal, global warming and ozone depletion, desertification, and geologic hazards such as earthquakes, landslides, flooding, and volcanism.

GEOL 102. History of the Earth.(3-0) Cr. 3. S. *Prereq:* GEOL 100 or GEOL 201

The Earth's physical and biological evolution; concepts of global tectonics. Methods used to decipher earth history. Students majoring in geology must also enroll in Geol 102L.

GEOL 102L. History of the Earth: Laboratory.(0-2) Cr. 1. S. *Prereq:* Credit or enrollment in GEOL 102

Introduction to the use of sedimentary rocks and fossils in reconstructing the Earth's history.

GEOL 105. Gems and Gemstones.

(2-0) Cr. 1. F.

Offered in second half of the semester. Introduction to gems and gemstones, physical and optical properties of gems and gemstones, explanation of where gems come from and how they are found, how to distinguish between synthetic and naturally occurring gems, how the value of gems are determined, and the history of famous gems.

GEOL 106. Earth and Space Science for Elementary Education Majors.(Cross-listed with ASTRO). (2-0) Cr. 2. F.S. *Prereq:* Major in elementary or early childhood education.

Fundamental concepts of Earth and Space Science, including the solar system, weather and climate, water and soils, plate tectonics, and geologic hazards. Online course format.

GEOL 106L. Earth and Space Science for Elementary Education Majors: Laboratory.(Cross-listed with ASTRO). (0-2) Cr. 1. F.S. *Prereq:* Restricted to elementary and early childhood education majors; to be taken concurrently with GEOL 106/ASTRO 106

Inquiry-based lab exploring fundamental concepts of Earth and Space Science, including the solar system, weather and climate, water and soils, plate tectonics, and geologic hazards. Must be taken concurrently with GEOL/ASTRO 106.

GEOL 108. Introduction to Oceanography.

(Cross-listed with ENV S). (3-0) Cr. 3. F.

Introduction to study of the oceans. Ocean exploration. Waves and currents. Shape, structure, and origin of the ocean basins. Sedimentary record of oceanic life. Composition of seawater and its significance for life. Ocean circulation and its influence on climate. Life of the oceans, including coral reefs. Use and misuse of ocean resources. Anthropogenic impacts on the oceanic environment.

GEOL 109. Exploring Iowa Geology.

(1-0) Cr. 1. Repeatable, maximum of 2 times. F.

Introduction to Iowa geology through classroom lectures and up to four Saturday field trips to selected Iowa geological attractions. Students will learn basic geologic concepts such as geologic time, erosion and sedimentation, stratigraphy, glacial geology, and karst topography using Iowa examples.

GEOL 111. Geological Disasters.

(Cross-listed with ENV S). (1-0) Cr. 1. F.S.SS.

Introduction to the catastrophic geologic processes that disrupt ecosystems and human activity. Includes a discussion on the role of plate tectonics, the hydrologic cycle, and humans as the driving forces behind selected case studies on volcanic eruptions, earthquakes, tsunamis, landslides, and floods. Summer - online only.

GEOL 112. Geoscience Orientation.

(Cross-listed with MTEOR). (1-0) Cr. 1. F.

Orientation course for students enrolled in the Earth, Wind and Fire Learning Community. Provides an introduction to Iowa State University and meteorology, geology, and Earth science programs for students enrolled in the department's learning community. Activities include academic and social activities, talks and presentations on academic success, resume writing, and study abroad, as well as research talks by faculty members.

GEOL 160. Water Resources of the World.

(Cross-listed with AGRON, ENV S, MTEOR). (3-0) Cr. 3. S.

Study of the occurrence, history, development, and management of world water resources. Basic hydrologic principles including climate, surface water, groundwater, and water quality. Historical and current perspectives on water policy, use, and the role of water in society and the environment.

GEOL 201. Geology for Engineers and Environmental Scientists.

(2-2) Cr. 3. F.

Introduction to Earth materials and processes with emphasis on engineering and environmental applications.

GEOL 290. Independent Study.Cr. 2-4. Repeatable. *Prereq:* Permission of instructor**GEOL 298. Cooperative Education.**Cr. R. F.S.SS. *Prereq:* GEOL 100 or GEOL 201, GEOL 100L, GEOL 102, GEOL 102L, and permission of the department cooperative education coordinator; sophomore classification

Required of all cooperative education students. Students must register for this course prior to commencing the work period.

GEOL 302. Summer Field Studies.Cr. 6. SS. *Prereq:* GEOL 102, GEOL 356, GEOL 368

Geologic mapping; structural, stratigraphic, sedimentologic, metamorphic, geomorphic, and environmental analyses. Study areas in the Bighorn Basin and Wind River Range and excursions to Yellowstone and Grand Teton National Parks. A 6-week summer field course required of all geology majors.

GEOL 306. Geology Field Course.Cr. 1-2. Repeatable, maximum of 2 times. F.S. *Prereq:* GEOL 100 or GEOL 201

Weekly seminar introduces students to a selected geological region or theme that is visited on a required ten-day field excursion. Introduction to field-safety leadership.

GEOL 315. Mineralogy and Earth Materials.(3-0) Cr. 3. F. *Prereq:* GEOL 100 or GEOL 201, CHEM 177

Introduction to mineral classification, elementary crystal chemistry, crystal growth and morphology, mineral stability, and mineral associations.

GEOL 315L. Laboratory in Mineralogy and Earth Materials.(0-3) Cr. 1. F. *Prereq:* GEOL 100 or GEOL 201

Mineral identification methods, especially hand-specimen identification.

GEOL 316. Optical Mineralogy.(1-2) Cr. 2. F. *Prereq:* GEOL 100 or GEOL 201, CHEM 177, credit or enrollment in GEOL 315

Laboratory problems in mineral-identification methods utilizing optical microscopic techniques.

GEOL 324. Energy and the Environment.

(Cross-listed with ENSCI, ENV S, MTEOR). (3-0) Cr. 3. S.

Renewable and non-renewable energy resources. Origin, occurrence, and extraction of fossil fuels. Nuclear, wind, geothermal, biomass, hydroelectric, and solar energy. Biofuels. Energy efficiency. Environmental effects of energy production and use, including air pollution, acid precipitation, coal ash, mountaintop removal mining, oil drilling, hydraulic fracturing, groundwater contamination, nuclear waste disposal, and global climate change. Carbon sequestration and geoeengineering solutions for reducing atmospheric CO₂ concentrations.

GEOL 356. Structural Geology.(3-6) Cr. 5. S. *Prereq:* GEOL 100 or GEOL 201; PHYS 111

Principles of stress and strain. Brittle and ductile behavior of rocks. Description, classification, and mechanics of formation of fractures, faults, folds, foliation, and lineation. Plate tectonics and regional geology. Laboratory includes application of geometrical techniques to solve structural problems; emphasizes map interpretation and use of stereonet and computer methods.

GEOL 365. Igneous and Metamorphic Petrology.(2-3) Cr. 3. S. *Prereq:* GEOL 315, GEOL 315L, GEOL 316

Nature and origin of igneous and metamorphic rocks. Emphasis on important rock-forming environments and processes and their influence on rock characteristics. Laboratory includes thin section study of rock textures and mineralogy and the interpretation of these features.

GEOL 368. Sedimentology and Stratigraphy.(2-4) Cr. 4. F. *Prereq:* GEOL 102

Exploration of the interplay between weathering, sedimentation, sea-level change, tectonics, and life through time that creates sedimentary rocks and stratigraphic packages. Understanding of the historical development of sedimentary geology through the development of petrography, deep-earth sampling, geophysical technologies, and geochemistry. Field and laboratory problem sets illuminate lecture material.

GEOL 398. Cooperative Education.Cr. R. F.S.SS. *Prereq:* GEOL 100 or GEOL 201, GEOL 100L, GEOL 102, GEOL 102L, and permission of the department cooperative education coordinator; junior classification

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

GEOL 402. Watershed Hydrology.

(Dual-listed with GEOL 502). (Cross-listed with ENSCI, MTEOR, NREM). (3-3) Cr. 4. F. *Prereq:* Four courses in physical or biological sciences or engineering; junior standing

Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.

GEOL 409. Field Methods in Hydrogeology.

(Dual-listed with GEOL 509). (Cross-listed with ENSCI). (0-4) Cr. 3. Alt. SS., offered even-numbered years. *Prereq:* GEOL/ENSCI 402 or GEOL/ENSCI 411 or C E 473

Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geochemical and water quality sampling, seepage meters, minipiezometers, stream gaging, and electronic instrumentation for data collection. Field trips to investigate water resource, water quality, and remediation projects.

GEOL 411. Hydrogeology.

(Dual-listed with GEOL 511). (Cross-listed with ENSCI). (3-2) Cr. 4. F. *Prereq:* Four courses in biological or physical sciences

Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations.

GEOL 414. Applied Groundwater Flow Modeling.

(Dual-listed with GEOL 514). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* GEOL 411 or C E 473; MATH 165 or MATH 181

Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and post-audit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course.

GEOL 415. Paleoclimatology.

(Dual-listed with GEOL 515). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* Four courses in biological or physical science

Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth's orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods; utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoclimatology and paleoecology of the late Quaternary (last ~1 million years).

GEOL 416. Hydrologic Modeling and Analysis.

(Dual-listed with GEOL 516). (Cross-listed with ENSCI, MTEOR). (2-3) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* Four courses in Earth science, meteorology, or engineering; junior standing

Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

GEOL 419. Environmental Geochemistry.

(Dual-listed with GEOL 519). (Cross-listed with ENSCI). (2-2) Cr. 3. F. *Prereq:* GEOL 402 or GEOL 411 or equivalent

Geochemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling.

GEOL 420. Mineral Resources.

(Dual-listed with GEOL 520). (2-3) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* GEOL 365

Geology and geochemistry of non-metallic and metallic ore deposits. Major processes that concentrate metals in the Earth. Geochemical conditions of ore formation using stable-isotope and fluid-inclusion studies. Laboratory emphasizes the study of metallic ores.

GEOL 426. Stable Isotopes in the Environment.

(Dual-listed with GEOL 526). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* Four courses in biological or physical science

Introduction to the theory, methods and applications of stable isotopes. Primary focus on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic occurrence for elucidation of physical, chemical, biological, and environmental processes. Effects of plant physiology, photosynthesis, trophic structure, diffusion, evaporation, chemical precipitation, soil and atmospheric processes, and environmental factors on isotope abundance.

GEOL 434. Contaminant Hydrogeology.

(Dual-listed with GEOL 534). (Cross-listed with ENSCI). (3-0) Cr. 3. S. *Prereq:* GEOL 411 or equivalent

Theory and practical considerations of fate and transport of solutes through porous geologic materials. Organic and inorganic contaminants in industrial and agricultural settings. Subsurface microbiology and biodegradation of aromatic and chlorinated hydrocarbons. Investigation of coupled processes (diffusion, advection, dispersion, sorption, and biodegradation) using computer models. Soil and groundwater monitoring and remediation strategies.

GEOL 451. Applied and Environmental Geophysics.

(Dual-listed with GEOL 551). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* GEOL 100 or GEOL 201, MATH 181 or equivalent experience

Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic - and resistivity-imaging systems and radar.

GEOL 452. GIS for Geoscientists.

(Dual-listed with GEOL 552). (Cross-listed with AGRON, ENSCI). (2-2) Cr. 3. F. *Prereq:* GEOL 100, GEOL 201 or equivalent

Introduction to geographic information systems (GIS) with particular emphasis on geoscientific data. Uses ESRI's ArcGIS Desktop Software and extension modules. Emphasizes typical GIS operations and analyses in the geosciences to prepare students for advanced GIS courses.

GEOL 457. Exploration Seismology.

(Dual-listed with GEOL 557). (2-2) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* GEOL 100 or GEOL 201, MATH 181 or equivalent experience

Physics of elastic-wave propagation. Seismic surveys in environmental imaging, engineering, and petroleum exploration. Reflection and refraction techniques. Data collection, processing, and geological interpretation. Field work with state-of-the-art equipment.

GEOL 474. Glacial and Quaternary Geology.

(Dual-listed with GEOL 574). (2-2) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* GEOL 100 or GEOL 201 or equivalent experience

The study of glaciers and glacial processes. Discussion of glaciology, glacial sediment transport, glacial landforms, and Quaternary history. Laboratory emphasizes topographic map interpretation and the Quaternary landscapes of Iowa.

GEOL 479. Surficial Processes.

(Dual-listed with GEOL 579). (Cross-listed with ENSCI). (2-2) Cr. 3. F. *Prereq:* GEOL 100 or GEOL 201 or equivalent experience

The study of physical processes that shape Earth's surface. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory includes topographic map interpretation and local field trips.

GEOL 488. GIS for Geoscientists II.

(Dual-listed with GEOL 588). (Cross-listed with AGRON, ENSCI). (2-2) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* GIS course, such as GEOL 452, CRP 451, CRP 452, NREM 345, NREM 446, AE 408 or equivalent

GIS course with focus on the spatial analysis and modeling of raster data and triangulated irregular network (TIN) data. Uses ArcGIS and various extensions, such as Spatial Analyst, 3D Analyst, and ArcScene. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 588) a class project.

GEOL 490. Independent Study.

Cr. 1-4. Repeatable, maximum of 9 credits. *Prereq:* 6 credits in geology and permission of instructor

No more than 9 credits of Geol 490 may be counted toward graduation.

GEOL 495. Undergraduate Seminar.

Cr. 1. F.S. *Prereq:* Junior or senior classification

Weekly seminar on topics of current research interest.

GEOL 498. Cooperative Education.

Cr. R. F.S.S.S. *Prereq:* *Geol 100 or GEOL 201, GEOL 100L, GEOL 102, GEOL 102L, and permission of the department cooperative education coordinator; senior classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduates:

GEOL 502. Watershed Hydrology.

(Dual-listed with GEOL 402). (Cross-listed with ENSCI, MTEOR, NREM). (3-3) Cr. 4. F. *Prereq:* *Four courses in physical or biological sciences or engineering; junior standing*

Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.

GEOL 506. Geology Field Course.

Cr. 1-2. Repeatable, maximum of 2 times. F.S. *Prereq:* *Graduate classification*
Weekly seminar introduces students to a selected geological region or theme that is visited on a required ten-day field excursion. Graduate students are expected to assist in field teaching and safety leadership.

GEOL 507. Midwestern Geology Field Trip.

Cr. 1. Repeatable, maximum of 4 times. F. *Prereq:* *GEOL 365*
On-site inspection of various ore deposits, mining operations, and terrains dominated by igneous or metamorphic rocks. Offered on a satisfactory-fail basis only.

GEOL 509. Field Methods in Hydrogeology.

(Dual-listed with GEOL 409). (Cross-listed with ENSCI). (0-4) Cr. 3. Alt. SS., offered even-numbered years. *Prereq:* *GEOL/ENSCI 402 or GEOL/ENSCI 411 or C E 473*

Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geochemical and water quality sampling, seepage meters, minipiezometers, stream gaging, and electronic instrumentation for data collection. Field trips to investigate water resource, water quality, and remediation projects.

GEOL 511. Hydrogeology.

(Dual-listed with GEOL 411). (Cross-listed with ENSCI). (3-2) Cr. 4. F. *Prereq:* *Four courses in biological or physical sciences*
Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations.

GEOL 514. Applied Groundwater Flow Modeling.

(Dual-listed with GEOL 414). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* *GEOL 411 or C E 473; MATH 165 or MATH 181*
Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and post-audit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course.

GEOL 515. Paleoclimatology.

(Dual-listed with GEOL 415). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* *Four courses in biological or physical science*
Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth's orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods; utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoclimatology and paleoecology of the late Quaternary (last ~1 million years).

GEOL 516. Hydrologic Modeling and Analysis.

(Dual-listed with GEOL 416). (Cross-listed with ENSCI, MTEOR). (2-3) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* *Four courses in Earth science, meteorology, or engineering; junior standing*
Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

GEOL 519. Environmental Geochemistry.

(Dual-listed with GEOL 419). (Cross-listed with ENSCI). (2-2) Cr. 3. F. *Prereq:* *GEOL 402 or GEOL 411 or equivalent*
Geochemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling.

GEOL 520. Mineral Resources.

(Dual-listed with GEOL 420). (2-3) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* *GEOL 365*
Geology and geochemistry of non-metallic and metallic ore deposits. Major processes that concentrate metals in the Earth. Geochemical conditions of ore formation using stable-isotope and fluid-inclusion studies. Laboratory emphasizes the study of metallic ores.

GEOL 526. Stable Isotopes in the Environment.

(Dual-listed with GEOL 426). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* *Four courses in biological or physical science*
Introduction to the theory, methods and applications of stable isotopes. Primary focus on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic occurrence for elucidation of physical, chemical, biological, and environmental processes. Effects of plant physiology, photosynthesis, trophic structure, diffusion, evaporation, chemical precipitation, soil and atmospheric processes, and environmental factors on isotope abundance.

GEOL 534. Contaminant Hydrogeology.

(Dual-listed with GEOL 434). (Cross-listed with ENSCI). (3-0) Cr. 3. S. *Prereq:* *GEOL 411 or equivalent*
Theory and practical considerations of fate and transport of solutes through porous geologic materials. Organic and inorganic contaminants in industrial and agricultural settings. Subsurface microbiology and biodegradation of aromatic and chlorinated hydrocarbons. Investigation of coupled processes (diffusion, advection, dispersion, sorption, and biodegradation) using computer models. Soil and groundwater monitoring and remediation strategies.

GEOL 551. Applied and Environmental Geophysics.

(Dual-listed with GEOL 451). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* *GEOL 100 or GEOL 201, MATH 181 or equivalent experience*
Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic - and resistivity-imaging systems and radar.

GEOL 552. GIS for Geoscientists.

(Dual-listed with GEOL 452). (Cross-listed with AGRON, ENSCI). (2-2) Cr. 3. F. *Prereq:* *GEOL 100, GEOL 201 or equivalent*
Introduction to geographic information systems (GIS) with particular emphasis on geoscientific data. Uses ESRI's ArcGIS Desktop Software and extension modules. Emphasizes typical GIS operations and analyses in the geosciences to prepare students for advanced GIS courses.

GEOL 555. Environmental Soil Mineralogy.

(Cross-listed with AGRON). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* *AGRON 473, CHEM 178. Recommend: GEOL 311*
Structure and behavior of clay minerals, humic substances and biochar in soil environments, with emphasis on reactions and environmental implications.

GEOL 555L. Soil Clay Mineralogy Laboratory.

(Cross-listed with AGRON). (0-3) Cr. 1. Alt. S., offered odd-numbered years. *Prereq:* *Credit or enrollment in AGRON 555*
Application of X-ray diffraction, thermal analysis, infrared spectroscopy, and chemical analyses to identification and behavior of clay minerals in soils.

GEOL 557. Exploration Seismology.

(Dual-listed with GEOL 457). (2-2) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* *GEOL 100 or GEOL 201, MATH 181 or equivalent experience*
Physics of elastic-wave propagation. Seismic surveys in environmental imaging, engineering, and petroleum exploration. Reflection and refraction techniques. Data collection, processing, and geological interpretation. Field work with state-of-the-art equipment.

GEOL 558. Introduction to the 3D Visualization of Scientific Data.

(Cross-listed with COM S, HCI). (2-2) Cr. 3. Alt. S., offered odd-numbered years.

Prereq: Graduate-student standing in the mathematical or natural sciences
Introduction to visualizing scientific information with 3D computer graphics and their foundation in human perception. Overview of different visualization techniques and examples of 3D visualization projects from different disciplines (natural sciences, medicine, engineering). Class project in interactive 3D visualization using the OpenDX, VTK or a similar system.

GEOL 574. Glacial and Quaternary Geology.

(Dual-listed with GEOL 474). (2-2) Cr. 3. Alt. S., offered odd-numbered years.

Prereq: GEOL 100 or GEOL 201

The study of glaciers and glacial processes. Discussion of glaciology, glacial sediment transport, glacial landforms, and Quaternary history. Laboratory emphasizes topographic map interpretation and the Quaternary landscapes of Iowa.

GEOL 579. Surficial Processes.

(Dual-listed with GEOL 479). (Cross-listed with ENSCI). (2-2) Cr. 3. F. *Prereq:* GEOL 100 or GEOL 201 or equivalent experience

The study of physical processes that shape Earth's surface. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory includes topographic map interpretation and local field trips.

GEOL 588. GIS for Geoscientists II.

(Dual-listed with GEOL 488). (Cross-listed with AGRON, ENSCI). (2-2) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* GIS course, such as GEOL 452, CRP 451, CRP 452, NREM 345, NREM 446, AE 408 or equivalent

GIS course with focus on the spatial analysis and modeling of raster data and triangulated irregular network (TIN) data. Uses ArcGIS and various extensions, such as Spatial Analyst, 3D Analyst, and ArcScene. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 588) a class project.

GEOL 590. Special Topics.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

GEOL 590A. Special Topics: Surficial Processes.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

GEOL 590B. Special Topics: Stratigraphy.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

GEOL 590C. Special Topics: Sedimentation.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

GEOL 590D. Special Topics: Paleontology.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

GEOL 590E. Special Topics: Petrology.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

GEOL 590F. Special Topics: Structural Geology.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

GEOL 590G. Special Topics: Geochemistry.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

GEOL 590H. Special Topics: Hydrogeology.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

GEOL 590I. Special Topics: Earth Science.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

GEOL 590J. Special Topics: Mineral Resources.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

GEOL 590K. Special Topics: Geophysics.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

GEOL 590L. Special Topics: Mineralogy.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

GEOL 590M. Special Topics: Tectonics.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

GEOL 590N. Special Topics: Paleoecology and Paleoclimatology.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

GEOL 590O. Special Topics: Isotope Geochemistry.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

GEOL 590P. Special Topics: Computational Methods and GIS.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

GEOL 590R. Special Topics: Surface Hydrology.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

GEOL 590S. Special Topics: Oceanography.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

GEOL 595. Graduate Seminar.

(Cross-listed with MTEOR). Cr. 1. Repeatable. F.S. *Prereq:* Senior or graduate classification

Weekly seminar on topics of current research interest. All students seeking a graduate degree in geology must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

GEOL 595A. Graduate Seminar: Presentation Required.

(Cross-listed with MTEOR). (1-0) Cr. 1. Repeatable. F.S. *Prereq:* Senior or graduate classification

Weekly seminar on topics of current research interest. All students seeking a graduate degree in geology must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

GEOL 595B. Graduate Seminar: Attendance Only.

(Cross-listed with MTEOR). Cr. R. Repeatable. F.S. *Prereq:* Senior or graduate classification

Attendance only. Weekly seminar on topics of current research interest. All students seeking a graduate degree in geology must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

GEOL 599. Creative Component.

Cr. arr. Repeatable.

Courses for graduate students:**GEOL 610. Advanced Seminar.**

Cr. 1-3. Repeatable. F.S. *Prereq:* Graduate standing and permission of instructor

GEOL 610A. Advanced Seminar: Earth Materials.

Cr. 1-3. Repeatable. F.S. *Prereq:* Graduate standing and permission of instructor

GEOL 610B. Advanced Seminar: Economic Geology.

Cr. 1-3. Repeatable. F.S. *Prereq:* Graduate standing and permission of instructor

GEOL 610C. Advanced Seminar: Environmental Geochemistry.

Cr. 1-3. Repeatable. F.S. *Prereq:* Graduate standing and permission of instructor

GEOL 610D. Advanced Seminar: Geophysics.

Cr. 1-3. Repeatable. F.S. *Prereq:* Graduate standing and permission of instructor

GEOL 610E. Advanced Seminar: Geotectonics.

Cr. 1-3. Repeatable. F.S. *Prereq:* Graduate standing and permission of instructor

GEOL 610F. Advanced Seminar: Hydrogeology.

Cr. 1-3. Repeatable. F.S. *Prereq:* Graduate standing and permission of instructor

GEOL 610G. Advanced Seminar: Surficial Processes.

Cr. 1-3. Repeatable. F.S. *Prereq:* Graduate standing and permission of instructor

GEOL 610H. Advanced Seminar: Sedimentation and Stratigraphy.

Cr. 1-3. Repeatable. F.S. *Prereq:* Graduate standing and permission of instructor

GEOL 610I. Advanced Seminar: Paleoecology and Paleoclimatology.

Cr. 1-3. Repeatable. F.S. *Prereq:* Graduate standing and permission of instructor

GEOL 610J. Advanced Seminar: Isotope Geochemistry.

Cr. 1-3. Repeatable. F.S. *Prereq:* Graduate standing and permission of instructor

GEOL 610K. Advanced Seminar: Computational Methods and GIS.

Cr. 1-3. Repeatable. F.S. *Prereq:* Graduate standing and permission of instructor

GEOL 699. Research.

Cr. arr. Repeatable.

GEOL 699A. Research: Surficial Processes.

Cr. arr. Repeatable.

GEOL 699B. Research: Stratigraphy.

Cr. arr. Repeatable.

GEOL 699C. Research: Sedimentation.

Cr. arr. Repeatable.

GEOL 699D. Research: Paleontology.

Cr. arr. Repeatable.

GEOL 699E. Research: Petrology.

Cr. arr. Repeatable.

GEOL 699F. Research: Structural Geology.

Cr. arr. Repeatable.

GEOL 699N. Research: Paleoecology and Paleoclimatology.

Cr. arr. Repeatable.

GEOL 699O. Research: Isotope Geochemistry.

Cr. arr. Repeatable.

GEOL 699P. Research: Computational Methods and GIS.

Cr. arr. Repeatable.

GEOL 699R. Research: Surface Hydrology.

Cr. arr. Repeatable.

Courses primarily for undergraduates:**MTEOR 107. Severe and Hazardous Weather.**

(2-0) Cr. 1. F.

Understanding of atmospheric processes that play a role in creating severe and hazardous weather. Focus on thunderstorms, tornadoes, hurricanes, floods, blizzards, ice storms, and temperature extremes. Impacts on lives and property.

MTEOR 111. Synoptic Applications.(1-0) Cr. 1. Repeatable. F. *Prereq: Credit or enrollment in MATH 165*

Current weather discussions and introduction to synoptic-scale interpretation of meteorology. Application and use of calculus in meteorology. Course restricted to majors. Others with permission of instructor.

MTEOR 112. Geoscience Orientation.

(Cross-listed with GEOL). (1-0) Cr. 1. F.

Orientation course for students enrolled in the Earth, Wind and Fire Learning Community. Provides an introduction to Iowa State University and meteorology, geology, and Earth science programs for students enrolled in the department's learning community. Activities include academic and social activities, talks and presentations on academic success, resume writing, and study abroad, as well as research talks by faculty members.

MTEOR 160. Water Resources of the World.

(Cross-listed with AGRON, ENV S, GEOL). (3-0) Cr. 3. S.

Study of the occurrence, history, development, and management of world water resources. Basic hydrologic principles including climate, surface water, groundwater, and water quality. Historical and current perspectives on water policy, use, and the role of water in society and the environment.

MTEOR 201. Introductory Seminar.Cr. R. F. *Prereq: Credit or enrollment in PHYS 221*

An overview of the atmospheric sciences, the meteorology program at Iowa State, and the major research journals used in the discipline.

MTEOR 206. Introduction to Weather and Climate.

(Cross-listed with AGRON). (3-0) Cr. 3. F.S.

Basic concepts in weather and climate, including atmospheric measurements, radiation, stability, precipitation, winds, fronts, forecasting, and severe weather. Applied topics include global warming, ozone depletion, world climates and weather safety.

MTEOR 227. Computational Meteorology I.(3-1) Cr. 3. F. *Prereq: Credit or concurrent enrollment in MTEOR 206, credit or concurrent enrollment in PHYS 221*

An introduction to computer programming using FORTRAN with focus on meteorological applications. Emphasis on basics of good programming techniques and style through extensive practice in top-down design, writing, running, and debugging small programs. Topics include operations and functions, selective execution, repetitive execution, arrays, input/output, file processing, and subprograms. This course is designed for majors.

MTEOR 265. Scientific Balloon Engineering and Operations.

(Cross-listed with AER E). (0-2) Cr. 1. Repeatable. F.

Engineering aspects of scientific balloon flights. Integration of science mission objectives with engineering requirements. Operations team certification. FAA and FCC regulations, communications, and command systems. Flight path prediction and control.

MTEOR 298. Cooperative Education.Cr. R. F.S.SS. *Prereq: Permission of the department cooperative education coordinator; sophomore classification*

Required of all cooperative education students. Students must register for this course prior to commencing the work period.

MTEOR 301. General Meteorology.(4-0) Cr. 4. S. *Prereq: MATH 166, credit or enrollment in PHYS 222*

Global distribution of temperature, wind, and atmospheric constituents; atmospheric thermodynamics, radiative transfer, global energy balance, storms and clouds, introductory dynamics.

MTEOR 311. Introduction to Synoptic Meteorology.(1-2) Cr. 2. F. *Prereq: MTEOR 301*

Concepts of weather map plotting and analysis. Introduction to forecasting and to the use of real-time UNIDATA computer products.

MTEOR 321. Meteorology Internship.Cr. 1-2. Repeatable, maximum of 3 credits. F.S.SS. *Prereq: MTEOR 311; junior or senior standing; permission of co-op program coordinator; acceptance by sponsoring agency*

Supervised practical experience in a professional meteorological agency. Experiences may include providing weather information for radio, TV, utilities, government agencies, construction, or agribusiness.

MTEOR 324. Energy and the Environment.

(Cross-listed with ENSCI, ENV S, GEOL). (3-0) Cr. 3. S.

Renewable and non-renewable energy resources. Origin, occurrence, and extraction of fossil fuels. Nuclear, wind, geothermal, biomass, hydroelectric, and solar energy. Biofuels. Energy efficiency. Environmental effects of energy production and use, including air pollution, acid precipitation, coal ash, mountaintop removal mining, oil drilling, hydraulic fracturing, groundwater contamination, nuclear waste disposal, and global climate change. Carbon sequestration and geoeengineering solutions for reducing atmospheric CO₂ concentrations.

MTEOR 341. Atmospheric Physics I.(3-0) Cr. 3. F. *Prereq: PHYS 222, credit or enrollment in MATH 266, MTEOR 301.*

Basic laws of thermodynamics, thermodynamics of water vapor, mixtures of gases, stability, hydrostatics, cloud physics.

MTEOR 342. Atmospheric Physics II.(3-0) Cr. 3. S. *Prereq: MTEOR 341*

Precipitation physics, radar, atmospheric radiation, atmospheric optics, atmospheric electricity.

MTEOR 398. Cooperative Education.Cr. R. F.S.SS. *Prereq: Permission of the department cooperative education coordinator; junior classification*

Required of all cooperative education students. Students must register for this course prior to commencing the work period.

MTEOR 402. Watershed Hydrology.

(Dual-listed with MTEOR 502). (Cross-listed with ENSCI, GEOL, NREM). (3-3) Cr.

4. F. *Prereq: Four courses in physical or biological sciences or engineering; junior standing*

Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.

MTEOR 404. Global Change.

(Dual-listed with MTEOR 504). (Cross-listed with AGRON, ENSCI, ENV S). (3-0)

Cr. 3. S. *Prereq: Four courses in physical or biological sciences or engineering; junior standing*

Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change. Also offered online Alt. F, even-numbered years.

MTEOR 405. Environmental Biophysics.

(Dual-listed with MTEOR 505). (Cross-listed with AGRON, ENSCI). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: MATH 165 or MATH 182 or equivalent and some computer programming experience (any language)*

A description of the physical microenvironment in which organisms live. Emphasis on the movement of energy (heat and radiation) and mass (water and carbon) among organisms, the soil, and atmosphere. Applications to humans, other animals, plants, and plant communities.

MTEOR 406. World Climates.

(Cross-listed with AGRON, ENSCI). (3-0) Cr. 3. F. *Prereq: AGRON 206/MTEOR 206*

Distribution and causes of different climates around the world. Effects of climate and climate variations on human activities including society, economy and agriculture. Current issues such as climate change and international efforts to assess and mitigate the consequences of a changing climate. Semester project and in-class presentation required.

Meets International Perspectives Requirement.

MTEOR 407. Mesoscale Meteorology.

(Dual-listed with MTEOR 507). (Cross-listed with AGRON). (3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: Math 166 and Mteor 443*

Physical nature and practical consequences of mesoscale atmospheric phenomena. Mesoscale convective systems, fronts, terrain-forced circulations. Observation, analysis, and prediction of mesoscale atmospheric structure.

MTEOR 411. Synoptic Meteorology.

(Dual-listed with MTEOR 511). (1-4) Cr. 3. F. *Prereq: MTEOR 311, Credit or enrollment in MTEOR 454*

Current weather forecasting and discussion. Applications of atmospheric physics and dynamics in real-time weather situations. Use of UNIDATA computer products.

MTEOR 416. Hydrologic Modeling and Analysis.

(Dual-listed with MTEOR 516). (Cross-listed with ENSCI, GEOL). (2-3) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: Four courses in Earth science, meteorology, or engineering; junior standing*

Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

MTEOR 417. Mesoscale Forecasting Laboratory.

(1-5) Cr. 3. S. *Prereq: Credit or enrollment in MTEOR 411*

Real-time computer analysis of current weather, with emphasis on small-scale features. Studies of severe weather, lake-effect snow, CSI, cold-air damming.

MTEOR 432. Instrumentation and Measurements.

(2-2) Cr. 3. S. *Prereq: Credit or enrollment in STAT 105, MATH 266, PHYS 222* Measurement of meteorological variables and instruments used, including surface, upper air, and remote sensors; measurement errors, signal processing, recording and archiving; quality assurance.

MTEOR 443. Dynamic Meteorology I.

(3-0) Cr. 3. S. *Prereq: MTEOR 341*

Conservation laws, governing equations, circulation and vorticity. Development of quasi-geostrophic theory.

MTEOR 452. Climate Modeling.

(Dual-listed with MTEOR 552). (3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq: Mteor 301*

Developing and working with climate models based on fundamental physical principles that govern the climate systems of the Earth and other planets. Emphasis on coupled, nonlinear-system interactions of physical processes such as circulation dynamics, radiative transfer, and cloud/precipitation physics, starting with fairly simple 0- and 1-dimensional analytical and numerical models based on energy, mass, and momentum conservation. Observational study of seasonally evolving weather patterns that form climates around the world.

MTEOR 454. Dynamic Meteorology II.

(3-0) Cr. 3. F. *Prereq: MTEOR 443*

Planetary boundary layer, linear perturbation theory, atmospheric wave motions, baroclinic and convective instability, mesoscale circulations.

MTEOR 471. History of Modern Meteorology.

(Dual-listed with MTEOR 571). (1-0) Cr. 1. Alt. S., offered even-numbered years. *Prereq: MTEOR 341, MTEOR 342, MTEOR 411, MTEOR 443, MTEOR 452*

Development of meteorological theories and numerical weather prediction, discoveries of important meteorological phenomena, and impact of weather and climate on important historical events.

MTEOR 490. Independent Study.

Cr. 1-3. Repeatable, maximum of 9 credits. *Prereq: 6 credits in meteorology, permission of instructor*

No more than 9 credits in Mteor 490 may be counted toward graduation.

MTEOR 490A. Independent Study: Synoptic Meteorology..

Cr. 1-3. Repeatable, maximum of 9 credits. *Prereq: 6 credits in meteorology, permission of instructor*

No more than 9 credits in Mteor 490 may be counted toward graduation.

MTEOR 490B. Independent Study: Dynamic Meteorology..

Cr. 1-3. Repeatable, maximum of 9 credits. *Prereq: 6 credits in meteorology, permission of instructor*

No more than 9 credits in Mteor 490 may be counted toward graduation.

MTEOR 490C. Independent Study: Physical Meteorology..

Cr. 1-3. Repeatable, maximum of 9 credits. *Prereq: 6 credits in meteorology, permission of instructor*

No more than 9 credits in Mteor 490 may be counted toward graduation.

MTEOR 490D. Independent Study: Instrumentation..

Cr. 1-3. Repeatable, maximum of 9 credits. *Prereq: 6 credits in meteorology, permission of instructor*

No more than 9 credits in Mteor 490 may be counted toward graduation.

MTEOR 490E. Independent Study: Hydrology..

Cr. 1-3. Repeatable, maximum of 9 credits. *Prereq: 6 credits in meteorology, permission of instructor*

No more than 9 credits in Mteor 490 may be counted toward graduation.

MTEOR 498. Cooperative Education.

Cr. R. F.S.SS. *Prereq: Permission of the department cooperative education coordinator; senior classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

MTEOR 499. Senior Research.

(2-0) Cr. 2. F.

Required of all senior meteorology majors. Research projects in collaboration with faculty. Written and oral presentations of results at the end of the semester.

Courses primarily for graduate students, open to qualified undergraduates:**MTEOR 502. Watershed Hydrology.**

(Dual-listed with MTEOR 402). (Cross-listed with ENSCI, GEOL, NREM). (3-3) Cr. 4. F. *Prereq: Four courses in physical or biological sciences or engineering; junior standing*

Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.

MTEOR 504. Global Change.

(Dual-listed with MTEOR 404). (Cross-listed with AGRON, ENSCI). (3-0) Cr. 3. S. *Prereq: Four courses in physical or biological sciences or engineering; junior standing*

Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change. Also offered online Alt. F, even-numbered years.

MTEOR 505. Environmental Biophysics.

(Dual-listed with MTEOR 405). (Cross-listed with AGRON, ENSCI). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: MATH 165 or MATH 182 or equivalent and some computer programming experience (any language)*

Hornbuckle. A description of the physical microenvironment in which organisms live. Emphasis on the movement of energy (heat and radiation) and mass (water and carbon) among organisms, the soil, and atmosphere. Applications to humans, other animals, plants, and plant communities. Semester project required.

MTEOR 507. Mesoscale Meteorology.

(Dual-listed with MTEOR 407). (Cross-listed with AGRON). (3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: Math 166 and Mteor 443*

Physical nature and practical consequences of mesoscale atmospheric phenomena. Mesoscale convective systems, fronts, terrain-forced circulations. Observation, analysis, and prediction of mesoscale atmospheric structure.

MTEOR 511. Synoptic Meteorology.

(Dual-listed with MTEOR 411). (1-4) Cr. 3. F. *Prereq: MTEOR 311, Credit or enrollment in MTEOR 454*

Current weather forecasting and discussion. Applications of atmospheric physics and dynamics in real-time weather situations. Use of UNIDATA computer products.

MTEOR 516. Hydrologic Modeling and Analysis.

(Dual-listed with MTEOR 416). (Cross-listed with ENSCI, GEOL). (2-3) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* Four courses in earth science, meteorology, or engineering; junior standing

Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

MTEOR 518. Microwave Remote Sensing.

(Cross-listed with AGRON, E E). (3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* Math 265 or equivalent

Microwave remote sensing of Earth's surface and atmosphere using satellite-based or ground-based instruments. Specific examples include remote sensing of atmospheric temperature and water vapor, precipitation, ocean salinity, and soil moisture.

MTEOR 542. Physical Meteorology.

(3-0) Cr. 3. F. *Prereq:* MTEOR 342, MATH 266, PHYS 222

Planetary atmospheres, radiative equilibrium models, radiative transfer, the upper atmosphere, remote sounding from satellites.

MTEOR 543. Advanced Dynamic Meteorology I.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* MTEOR 455

The first half of a two semester sequence. Governing equations, scale analysis, simple types of wave motion in the atmosphere, instability theory.

MTEOR 544. Advanced Dynamic Meteorology II.

(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* MTEOR 543

Continuation of 543. General circulation and dynamics of zonally symmetric circulations, atmospheric energetics, nonlinear dynamics of planetary waves.

MTEOR 552. Climate Modeling.

(Dual-listed with MTEOR 452). (3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq:* Mteor 301

Developing and working with climate models based on fundamental physical principles that govern the climate systems of the Earth and other planets. Emphasis on coupled, nonlinear-system interactions of physical processes such as circulation dynamics, radiative transfer, and cloud/precipitation physics, starting with fairly simple 0- and 1-dimensional analytical and numerical models based on energy, mass, and momentum conservation. Observational study of seasonally evolving weather patterns that form climates around the world.

MTEOR 571. History of Modern Meteorology.

(Dual-listed with MTEOR 471). (1-0) Cr. 1. Alt. S., offered even-numbered years. *Prereq:* MTEOR 341, MTEOR 342, MTEOR 411, MTEOR 443, MTEOR 452

Development of meteorological theories and numerical weather prediction, discoveries of important meteorological phenomena, and impact of weather and climate on important historical events.

MTEOR 590. Special Topics.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor
Topics of current interest.

MTEOR 590A. Special Topics: Boundary-layer Meteorology.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor
Topics of current interest.

MTEOR 590B. Special Topics: Tropical Meteorology.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor
Topics of current interest.

MTEOR 590C. Special Topics: Mesoscale Meteorology.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor
Topics of current interest.

MTEOR 590D. Special Topics: Global Climate Systems.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor
Topics of current interest.

MTEOR 590E. Special Topics: Climate Modeling.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor
Topics of current interest.

MTEOR 590F. Special Topics: Numerical Weather Prediction.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor
Topics of current interest.

MTEOR 590G. Special Topics: Satellite Observations.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor
Topics of current interest.

MTEOR 590H. Special Topics: Statistical Methods in Meteorology.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor
Topics of current interest.

MTEOR 590I. Special Topics: Field Observations.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor
Topics of current interest.

MTEOR 590J. Special Topics: Low Frequency Modes.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor
Topics of current interest.

MTEOR 590K. Special Topics: Cloud Physics.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor
Topics of current interest.

MTEOR 590L. Special Topics: Atmospheric Radiation.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor
Topics of current interest.

MTEOR 590M. Special Topics: Hydrology.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor
Topics of current interest.

MTEOR 590N. Special Topics: Geophysical Fluid Dynamics.

Cr. 1-3. Repeatable. *Prereq:* Permission of instructor
Topics of current interest.

MTEOR 595. Graduate Seminar.

(Cross-listed with GEOL). Cr. 1. Repeatable. F.S. *Prereq:* Senior or graduate classification

Weekly seminar on topics of current research interest. All students seeking a graduate degree in geology must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

MTEOR 595A. Graduate Seminar: Presentation Required.

(Cross-listed with GEOL). (1-0) Cr. 1. Repeatable. F.S. *Prereq:* Senior or graduate classification

Weekly seminar on topics of current research interest. All students seeking a graduate degree in geology must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

MTEOR 595B. Graduate Seminar: Attendance Only.

(Cross-listed with GEOL). Cr. R. Repeatable. F.S. *Prereq:* Senior or graduate classification

Attendance only. Weekly seminar on topics of current research interest. All students seeking a graduate degree in geology must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

Courses for graduate students:**MTEOR 605. Boundary-Layer Meteorology.**

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* MTEOR 443 or equivalent-level course in engineering fluids

Atmospheric boundary-layer structure and dynamics. Diurnal and seasonal variations, turbulent fluxes and turbulence kinetic energy. Measurements and empirical relations for wind and temperature near the ground. Numerical simulation and applications to wind energy.

MTEOR 699. Research.

Cr. arr. Repeatable.

Greenlee School of Journalism and Communication

The Greenlee School of Journalism and Communication offers three majors. Students may complete a bachelor of arts degree in advertising, a bachelor of science degree in public relations or a bachelor of science degree in journalism and mass communication. Students majoring in advertising, public relations or journalism and mass communication may not seek second majors or minors in advertising, public relations or journalism and mass communication.

The unit, founded in 1905, has been continuously accredited every six years since 1948 by the Accrediting Council on Education in Journalism and Mass Communications and was last reaccredited in 2010. Accreditation is based on the principle that students need a broad-based, liberal arts education, as well as a solid core of courses within the discipline.

Undergraduate Study

Students who complete degrees in advertising, journalism and mass communication, or public relations are expected to develop competencies in 12 key areas:

- understand and apply the principles and laws of freedom of speech and press for the country in which the institution that invites ACEJMC is located, as well as receive instruction in and understand the range of systems of freedom of expression around the world, including the right to dissent, to monitor and criticize power, and to assemble and petition for redress of grievances;
- demonstrate an understanding of the history and role of professionals and institutions in shaping communications;
- demonstrate an understanding of gender, race ethnicity, sexual orientation and, as appropriate, other forms of diversity in domestic society in relation to mass communications;
- demonstrate an understanding of the diversity of peoples and cultures and of the significance and impact of mass communications in a global society;
- understand concepts and apply theories in the use and presentation of images and information;
- demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness and diversity;
- think critically, creatively and independently;
- conduct research and evaluate information by methods appropriate to the communications professions in which they work;
- write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve;
- critically evaluate their own work and that of others for accuracy and fairness, clarity, appropriate style and grammatical correctness;
- apply basic numerical and statistical concepts;
- apply current tools and technologies appropriate for the communications professions in which they work, and to understand the digital world.

Communication Proficiency Requirement

All majors in the School must earn a grade of C or better in ENGL 150 Critical Thinking and Communication (or be exempt) and ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H). These additional requirements apply:

Advertising majors must earn a C+ or better in:

JL MC 201	Reporting and Writing for the Mass Media	3
and one of		
ADV RT 334	Advertising Creativity	3
ADV RT 336	Advertising Account Management	3

Journalism and mass communication majors must earn a C+ or better in:

JL MC 201	Reporting and Writing for the Mass Media	3
and one of		
JL MC 202	Intermediate Reporting and Writing for the Mass Media	3
JL MC 206	Reporting and Writing for the Electronic Media	3

Public relations majors must earn a C+ or better in:

JL MC 201	Reporting and Writing for the Mass Media	3
P R 321	Public Relations Writing	3

The Advertising Major

The advertising major prepares students for careers in business and industry or for graduate education. Students majoring in advertising find career opportunities in professions requiring applied communication expertise. Graduates are qualified for positions in the creative and account sides of advertising within businesses, agencies and media.

To receive a bachelor of arts degree in advertising, a student must earn at least 120 credits. A minimum of 72 credits must come from courses other than ADVRT, P R or JL MC. At least 50 of these credits must come from the liberal arts and sciences. Overall, at least 45 credits must be from 300-level courses or above. Advertising majors are required to take:

MKT 340	Principles of Marketing	3
SP CM 212	Fundamentals of Public Speaking	3

STAT 101	Principles of Statistics (or another approved statistics course)	4
----------	--	---

The degree requirements allow for a minimum of 34 credits and a maximum of 48 credits to be taken in ADVRT, JL MC, or P R. These include:

JL MC 101	Mass Media and Society	3
JL MC 110	Orientation to Journalism and Communication	1
JL MC 201	Reporting and Writing for the Mass Media (C+ or better)	3
ADV RT 230	Advertising Principles	3
ADV RT 301	Research and Strategic Planning for Advertising and Public Relations	3
ADV RT 334	Advertising Creativity (C+ or better in ADVRT 334 or ADVRT 336)	3
or ADV RT 336	Advertising Account Management	
ADV RT 434	Advertising Campaigns	3
or ADV RT 436	Advertising Portfolio Practicum	
JL MC 460	Law of Mass Communication	3
JL MC 499	Professional Media Internship	3

Additional recommended courses and requirements for the advertising major are available from the Greenlee School.

The School requires a minor, second major, or a Designated Area of Concentration (DAC) made up of 21 credits with at least 12 credits from the 300-level or above. All courses for the minor, second major, or DAC must be taken outside of ADVRT, P R, or JL MC.

Advertising majors may not pursue a second major or minor in public relations or journalism and mass communication.

The Journalism and Mass Communication Major

The journalism and mass communication major prepares students for careers that involve all aspects of news and information. Emphasis is placed on generating ideas, organizing, writing, editing and presenting information for various media platforms and audiences. Students work with advisers to develop a program of study that prepares them for work in communication-specific areas including broadcast media, magazines and/or newspapers, photo journalism, science communication or visual communication and online/multimedia.

To receive a bachelor of science degree in journalism and mass communication, a student must earn at least 120 credits. A minimum of 72 credits must come from courses other than ADVRT, P R, or JL MC. At least 50 of these credits must come from the liberal arts and sciences. Overall, at least 45 credits must be from 300-level or above. Journalism and mass communication majors are required to take:

STAT 101	Principles of Statistics (or another approved statistics course)	4
----------	--	---

The degree requirements allow for a minimum of 34 credits and a maximum of 48 credits to be taken in ADVRT, P R, and JL MC. These include:

JL MC 101	Mass Media and Society	3
JL MC 110	Orientation to Journalism and Communication	1
JL MC 201	Reporting and Writing for the Mass Media	3
JL MC 202	Intermediate Reporting and Writing for the Mass Media (C+ or better in JL MC 202 or JL MC 206)	3
or JL MC 206	Reporting and Writing for the Electronic Media	
JL MC 460	Law of Mass Communication	3
JL MC 499	Professional Media Internship	3

Additional recommended courses and requirements for the journalism and mass communication major are available from the Greenlee School.

The School requires a minor, second major, or a Designated Area of Concentration (DAC) made up of 21 credits with at least 12 credits from the 300-level or above. All courses for the minor, second major, or DAC must be taken outside of ADVRT, P R, or JL MC.

Journalism and mass communication majors may not pursue a second major or minor in advertising or public relations.

The Public Relations Major

The public relations major provides students with the concepts, skills, and expertise needed to help organizations build mutually beneficial relationships with diverse publics. The knowledge and tools students develop through the P R curriculum ensure they can enter any field from corporate communication

to government affairs to a public relations firm. The professional internship experience coupled with coursework that focuses heavily on writing, research, and strategic planning provides opportunities for students to practice and refine their skills.

To receive a bachelor of science degree in public relations, a student must earn at least 120 credits. A minimum of 72 credits must come from courses other than ADVRT, P R, or JL MC. At least 50 of these credits must come from the liberal arts and sciences. Overall, at least 45 credits must be from 300-level or above. Public relations majors are required to take:

STAT 101	Principles of Statistics	4
----------	--------------------------	---

The degree requirements allow for a minimum of 34 credits and a maximum of 48 credits to be taken in ADVRT, P R, and JL MC. These include:

JL MC 101	Mass Media and Society	3
JL MC 110	Orientation to Journalism and Communication	1
P R 220	Principles of Public Relations	3
JL MC 201	Reporting and Writing for the Mass Media	3
P R 301	Research and Strategic Planning for Advertising and Public Relations	3
P R 321	Public Relations Writing	3
P R 424	Public Relations Campaigns	3
JL MC 460	Law of Mass Communication	3

Additional recommended courses and requirements for the public relations major are available from the Greenlee School.

The School requires a minor or second major or a Designated Area of Concentration (DAC) made up of 21 credits with at least 12 credits from the 300-level or above. All courses for the minor, second major, or DAC must be taken outside of ADVRT and JL MC.

Public relations majors may not pursue a second major or minor in advertising or journalism and mass communication.

Minors

The Greenlee School offers a minor in advertising and a minor in journalism and mass communication.

For a minor in advertising or journalism and mass communication, students complete 15 credits, including JL MC 101. The other 12 credits, at least 9 of which must be from Iowa State University, are selected from course offerings in the advertising and journalism and mass communication majors, including:

6 credits from the following: 6

ADVRT 230	Advertising Principles	
ADVRT 301	Research and Strategic Planning for Advertising and Public Relations	
ADVRT 335	Advertising Media Planning	
P R 220	Principles of Public Relations	
P R 301	Research and Strategic Planning for Advertising and Public Relations	
P R 305	Publicity Methods	
JL MC 341	Contemporary Magazine Publishing	
JL MC 242	Visual Principles for Mass Communicators	

6 credits from the following: 6

JL MC 401	Mass Communication Theory	
JL MC 406	Media Management	
JL MC 453	Electronic Media Technology and Public Policy	
JL MC 454	Critical Analysis and History of the Moving Image	
JL MC 461	History of American Journalism	
JL MC 462	Media Ethics, Freedom, Responsibility	
JL MC 464	Journalism and Literature	
JL MC 474	Communication Technology and Social Change	
JL MC 476	World Communication Systems	
JL MC 477	Ethnicity, Gender, Class and the Media	
ADVRT 497	Special Topics in Communication	
JL MC 497	Special Topics in Communication	

Journalism and mass communication or public relations majors may not minor in advertising, and advertising and public relations majors may not minor in journalism and mass communication.

Graduate Study

The Greenlee School of Journalism and Communication offers work for a master of science degree in journalism and mass communication.

Majors plan a program of study in one of two tracks:

I. Communication as theory and research -- The School offers advanced academic preparation in communication theory and research leading to the master of science degree. Graduate work prepares students to use and contribute to research and scholarship in the field of communication. The degree requires a thesis or creative component based on original research, which must be defended successfully before a committee at the end of the program.

Areas of research emphasis include: science and risk communication, media performance, media effects, advertising, public relations, political communication, communication technology, law and ethics, international communication, visual communication and emerging media.

II. Professional and Strategic Communication -- The School offers advanced professional study in journalism and mass communication leading to the master of science degree. Graduate work prepares students for professional careers in a variety of mass communication fields. Students with limited training or experience in journalism and mass communication may include skills courses in their programs, but the credits for those courses will not count toward the graduate degree. The degree requires either a creative component or thesis.

All students must complete four core courses:

JL MC 592	Introduction to Graduate Study in Journalism and Mass Communication	R
JL MC 501	Theories of Mass Communication	3
JL MC 502	Communication Research Methods	4
JL MC 598	Seminars in Mass Communication	1-3

Each student selects elective courses based on his/her area of emphasis and career goal, in consultation with the student's major professor and Program of Study Committee.

The Greenlee School graduate program offers minor work for students majoring in other departments. The M.S. minor requires:

JL MC 501, JL MC 510 and one other course in journalism and mass communication for a total of 9 credits taken within the Greenlee School.

Courses primarily for undergraduates:

ADVRT 230. Advertising Principles.

(3-0) Cr. 3. F.S.SS.

Historical, social, economic and legal aspects of advertising. Evaluations of advertising research, media, strategy and appeals. Study of the creation of advertising.

ADVRT 301. Research and Strategic Planning for Advertising and Public Relations.

(Cross-listed with P R). (3-0) Cr. 3. F.S. *Prereq:* ADVRT 230 or P R 220; *Sophomore classification*

The use of primary and secondary research for situations, organizations and the public. Formation and development of strategic plans for public relations and advertising students.

Meets International Perspectives Requirement.

ADVRT 334. Advertising Creativity.

(2-2) Cr. 3. *Prereq:* Minimum of C+ in JL MC 201; ADVRT 301/P R 301

Development and execution of creative advertising materials. Copywriting, art direction and computer applications. Creative strategy development, execution and evaluation.

ADVRT 335. Advertising Media Planning.

(3-0) Cr. 3. F.S. *Prereq:* ADVRT/P R 301

Concepts of media planning and selection in the development, execution and evaluation of advertising campaigns. Characteristics and capabilities of the advertising media. Utilization of market segmentation, consumer buying and media audience databases.

ADVRT 336. Advertising Account Management.

(3-0) Cr. 3. F.S. *Prereq:* Minimum of C+ in JL MC 201; ADVRT/P R 301

Fundamentals of account management with emphasis on leadership, sales techniques, relationship building, presentation skills, and strategic thinking. Includes aspects of agency communications, team building, client management, evaluating creative concepts and media plans, and developing strategic proposals and campaign recommendations.

ADV RT 390. Professional Skills Development.

(Cross-listed with JL MC, P R). Cr. 1-3. Repeatable, maximum of 6 credits. F.S. Prereq: *Minimum of C+ in JL MC 201; other vary by topic. Instructor permission for non-majors.*

Check School for course availability. For Greenlee School majors: repeatable, maximum of 3 credits apply toward major requirements.

ADV RT 434. Advertising Campaigns.

(3-0) Cr. 3. F.S. Prereq: *Minimum of C+ in ADV RT 334 or ADV RT 336, and major status*

Development of advertising campaigns for business and social institutions. Projects involve budgeting, media selection, market analysis, campaign strategy and creative execution.

ADV RT 435. Advertising Competition.

Cr. 1-3. Repeatable, maximum of 3 credits. S. Prereq: *Permission of instructor, Junior/senior standing strongly recommended*
Preparation of materials for regional and national competitions.

ADV RT 436. Advertising Portfolio Practicum.

(2-2) Cr. 3. S. Prereq: *Minimum of C+ in ADV RT 334, non-majors with instructor permission*

Advanced advertising writing and design. Emphasis on creative strategy, problem solving and execution of creative materials in print, broadcast and online media for a variety of clients.

ADV RT 497. Special Topics in Communication.

(Cross-listed with JL MC, P R). Cr. 1-3. Repeatable, maximum of 6 credits. F.S. Seminars or one-time classes on topics of relevance to students in communication. Greenlee School majors: repeatable, maximum of 3 credits toward major requirements; 6 credits maximum.

Courses primarily for undergraduates:**JL MC 101. Mass Media and Society.**

(3-0) Cr. 3. F.S.SS.

Communication theory models and their application to the mass media; the mass communication process; organization, characteristics and responsibilities of the mass media; media literacy process.

JL MC 110. Orientation to Journalism and Communication.

(1-0) Cr. 1. F.S.

Orientation to professional and pre-professional opportunities, writing for the mass media and curriculum requirements in the Greenlee School. Basic media writing preparation. Offered on a satisfactory-fail basis only.

JL MC 201. Reporting and Writing for the Mass Media.

(1-4) Cr. 3. F.S.Alt. SS., offered irregularly. Prereq: *ENGL 250 (or testout) and JL MC 110.*

Generating story ideas, exercising news judgment and gathering information via interviews, observation and documentary sources to produce news and informational material for the mass media. Emphasis on analyzing and organizing information, as well as accuracy and principles of good writing. Use of AP Style.

JL MC 202. Intermediate Reporting and Writing for the Mass Media.

(2-2) Cr. 3. F.S. Prereq: *Minimum of C+ in JL MC 201*

Writing for newspapers, magazines and online media. Enhancing and refining skills in developing sources and generating story ideas. Information-gathering techniques, reporting and writing.

JL MC 206. Reporting and Writing for the Electronic Media.

(2-3) Cr. 3. F.S. Prereq: *Minimum of C+ in JL MC 201*

Researching, organizing, and writing for radio, television and online media. Basic principles of news programming and storytelling across electronic media platforms. An emphasis on development, content and structure.

JL MC 242. Visual Principles for Mass Communicators.

(3-0) Cr. 3. F.S.Alt. SS., offered irregularly.

Understanding and analysis of the visual message. Visual perception, visual communication theory, design syntax, design elements and how they are applied in journalism and mass communication.

JL MC 306. Electronic Media Production.

(2-2) Cr. 3. F.S. Prereq: *Minimum of C+ in JL MC 201*

Introduction to studio production using professional equipment. Course focus on visual concepts, maintenance and practical operation of studio equipment.

JL MC 308. Electronic News Gathering and Production.

(2-3) Cr. 3. F.S. Prereq: *Minimum of C+ in JL MC 201.*

Field techniques in single-camera video production used to shoot and edit visual stories. Introduction to electronic news gathering.

JL MC 310. Fundamentals of Photojournalism.

(2-2) Cr. 3. F.S. Prereq: *Minimum of C+ in JL MC 201*

Basic photojournalism techniques. Includes camera operation, lighting, composition and photo reproduction techniques for print or computer-mediated applications. Emphasis on using the camera as a reporting tool. Basic use of digital imaging and editing software. Ethical issues involving photojournalism. A digital SLR camera is required.

JL MC 312. Advanced Techniques in Photojournalism.

(2-2) Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly. Prereq: *JL MC 310 or permission of instructor*

Advanced techniques and problem solving, both ethical and technical, for photographers who seek to be members of newsgathering teams. Photographic storytelling using a combination of audio and still photography techniques to report stories for print and web publications. Hands on experience with latest digital imaging technology. A digital SLR camera is required.

JL MC 315. Multimedia Production.

(2-2) Cr. 3. F.S. Prereq: *JL MC 308 or JL MC 310 or JL MC 316 or equivalent computer design proficiency*

Visual storytelling concepts and principles for evaluating, constructing and designing information for the Web and other electronic publication systems. Issues of ethics and ownership of work pertinent to the new media.

JL MC 316. Introduction to Digital Publishing.

(2-2) Cr. 3. F.S.Alt. SS., offered irregularly. Prereq: *Credit or enrollment in JL MC 242 and C+ or better in JL MC 201*

Digital publishing and beginning techniques in layout, photo editing and vector artwork. Application of visual principles to design simple print projects.

JL MC 317. Publishing for Mobile Devices.

(2-2) Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly. Prereq: *JL MC 316 or equivalent computer design proficiency and JL MC 310 or 315.*

Creating, designing and publishing content for mobile devices (e.g., cell phones and tablets). Use of digital publishing tools (e.g., In Design). Exposure to animation and video editing software.

JL MC 341. Contemporary Magazine Publishing.

(Dual-listed with JL MC 541). (3-0) Cr. 3. F.S. Prereq: *Junior classification*

Analysis of magazine industry and specific audiences served by print and online magazines. Editorial procedures and policies, advertising, circulation, and history of the industry. Individual study of magazines.

JL MC 344. Feature Writing.

(2-2) Cr. 3. F. Prereq: *Minimum of C+ in JL MC 202 or JL MC 206 or JL MC 321*

Reporting and writing short- and long- form stories for magazines, newspapers, corporate communication and the Web. Focus on departmental stories, personal essays, trend or conflict articles and personality profiles. Emphasis on immersion reporting. Majors may not apply both 344 and Engl 303 toward graduation.

JL MC 346. Public Affairs Reporting.

(2-2) Cr. 3. S. Prereq: *Minimum of C+ in JL MC 202 or JL MC 206 or JL MC 321*

Reporting and writing about government, business, and other institutions; identification of and access to public records; investigative reporting techniques; developing major stories about government and nonprofit organizations; and ethical issues.

JL MC 347. Science Communication.

(Dual-listed with JL MC 547). (2-2) Cr. 3. S. Prereq: *Minimum of C+ in JL MC 202 or JL MC 206 or JL MC 321 for Journalism and Mass Communication majors; and ADV RT 336 for Advertising majors. Nonmajors and minors by permission of instructor.*

Reporting and writing about science and technology topics for general audiences. Outlets for stories include print, broadcast and online media. Story topics include reporting about basic, applied sciences and social sciences, as well as ethical, political and policy issues related to science and technology.

JL MC 349. News and Feature Editing.

(1-5) Cr. 3. S. Prereq: *Minimum of C+ in JL MC 202 or JL MC 206 or JL MC 321*

Editing content for multiple platforms, including websites, magazines, newspapers, and newsletters. Adapting material for audiences, including selection and organization of text and visuals, grammar, punctuation, usage, logic and accuracy. Designing print and online layouts. Using search engine optimization and social media to promote content.

JL MC 354. Advanced Electronic Media Production.

(2-3) Cr. 3. Prereq: *JL MC 206.*

Application of advanced television techniques: writing, producing, and managing live and recorded information programs.

JL MC 390. Professional Skills Development.

(Cross-listed with ADVRT, P R). Cr. 1-3. Repeatable, maximum of 6 credits. F.S. Prereq: Minimum of C+ in JL MC 201; other vary by topic. Instructor permission for non-majors.

Check School for course availability. For Greenlee School majors: repeatable, maximum of 3 credits apply toward major requirements.

JL MC 401. Mass Communication Theory.

(3-0) Cr. 3. Prereq: Junior classification

Theory and research in mass communication processes and effects; the scientific process; methods of measuring, evaluating and reporting mass communication research.

JL MC 406. Media Management.

(Dual-listed with JL MC 506). (3-0) Cr. 3. Prereq: Junior classification

Decision-making functions of media. Basic media market analysis, media organization and management, circulation and audience development, technological developments affecting management decisions, and relationships with labor and regulatory agencies that affect media operations.

JL MC 449. Editorial Strategies.

(3-0) Cr. 3. S. Prereq: JL MC 242, JL MC 316, JL MC 349 or concurrent enrollment; junior classification

Skills and strategies for editorial decision-making and management, including short and long range issue planning. Developing proposals, business plans and prototypes for content, design and layouts of publications for multiple platforms and diverse audiences, including new and existing online and print magazines, newspapers, newsletters and websites. Editing complex manuscripts, with continued emphasis on grammar, punctuation, usage, syntax and logic.

JL MC 453. Electronic Media Technology and Public Policy.

(3-0) Cr. 3. Prereq: Junior classification

Issues and policies affecting historical, contemporary and future developments of electronic media and their technologies.

JL MC 454. Critical Analysis and History of the Moving Image.

(3-0) Cr. 3. Prereq: Junior classification

Evolution of motion picture and television content and other visual technologies. Theories and techniques for evaluating and critiquing film and video.

JL MC 460. Law of Mass Communication.

(3-0) Cr. 3. F.S. Prereq: Minimum of C+ in JL MC 201; junior classification.

Nonmajors by permission of instructor.

First Amendment law, libel, privacy, obscenity, contempt, copyright, trademark, the Federal Communications Act; laws affecting advertising, legal publication, and other business activities of the media.

JL MC 461. History of American Journalism.

(3-0) Cr. 3. Prereq: Junior classification

Role of the mass media, including advertising and public relations, in shaping the social, economic and political history of America; impact of change in these areas on the development, traditions and philosophies of the media.

JL MC 462. Media Ethics, Freedom, Responsibility.

(3-0) Cr. 3. F. Prereq: Junior classification

Ethics and professionalism in the practice of journalism, public relations and advertising.

JL MC 464. Journalism and Literature.

(3-0) Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly. Prereq: Junior classification

A study of journalism's impact on literary writing and literature's impact on journalism, as seen through the works of esteemed American author-journalists.

JL MC 474. Communication Technology and Social Change.

(Cross-listed with T SC). (3-0) Cr. 3. Prereq: Junior classification

Examination of historical and current communication technologies, including how they shape and are shaped by the cultural and social practices into which they are introduced.

Meets International Perspectives Requirement.

JL MC 476. World Communication Systems.

(Dual-listed with JL MC 576). (3-0) Cr. 3. Prereq: Junior classification

World communication systems and social, political, and economic factors determining flow, character, and volume of news. Impact of media information and entertainment content on nations and societies. Comparative analysis of role and impact of traditional modes of communication, the mass media, and computer-mediated systems.

Meets International Perspectives Requirement.

JL MC 477. Ethnicity, Gender, Class and the Media.

(3-0) Cr. 3. F.S.SS. Prereq: Junior classification

Portrayals of ethnic groups, gender, and social class in the media in news, advertising, information and entertainment; the effects of mass media on social issues and population groups.

Meets U.S. Diversity Requirement

JL MC 490. Independent Study in Communication.

Cr. arr. Prereq: Junior classification and contract with supervising professor to register

Independent studies are research-based. Students may study problems associated with a medium, a professional specialization, a philosophical or practical concern, a reportorial method or writing technique, or a special topic in their field. Credit is not given for working on student or professional media without an accompanying research component. No more than 3 credits of JL MC 490 may be used toward a degree in journalism and mass communication or advertising.

JL MC 497. Special Topics in Communication.

(Cross-listed with ADVRT, P R). Cr. 1-3. Repeatable, maximum of 6 credits. F.S.

Seminars or one-time classes on topics of relevance to students in communication. Greenlee School majors: repeatable, maximum of 3 credits toward major requirements; 6 credits maximum.

JL MC 499. Professional Media Internship.

Cr. 3. Repeatable, maximum of 6 credits. F.S.SS. Prereq: JL MC majors: minimum of C+ in JL MC 202 or JL MC 206 or JL MC 321; ADVRT majors: minimum of C+ in JL MC 201; ADVRT 301; All students, junior classification, formal faculty adviser approval

Required of all Greenlee School majors. A 400-hour internship in the student's journalism and mass communication or advertising specialization. Assessment based on employer evaluations, student reports and faculty reviews. Available only to Greenlee School majors. Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified undergraduates:

JL MC 501. Theories of Mass Communication.

(3-0) Cr. 3. F. Prereq: 6 credits in social science or admission to the graduate program

Historical overview of mass communication theories. Examination of major areas of research activity and theoretical development related to organization, functions, and effects of mass communication.

JL MC 502. Communication Research Methods.

(3-2) Cr. 4. S. Prereq: JL MC 501 or equivalent communication theory course

Research methods in journalism and mass communication, including problem selection, sampling, hypothesis formulation, research design, data collection and analysis. Designing a research strategy appropriate for a variety of communication-related questions and assessing the appropriateness, validity, and generalizability of research results.

JL MC 506. Media Management.

(Dual-listed with JL MC 406). (3-0) Cr. 3. S. Prereq: 6 credits in social science

(economics highly recommended) or admission to the graduate program

Decision-making functions of media. Basic media market analysis, media organization and management, circulation and audience development, technological developments affecting management decisions, and relationships with labor and regulatory agencies that affect media operations.

JL MC 510. Strategies of Communication.

(3-0) Cr. 3. Prereq: JL MC 501

The process of developing professional communication and persuasion strategies, with emphasis on problem definition, behavioral objectives, situation analysis, strategy formulation, and justification through application of communication theories and research.

JL MC 520. Public Relations Theory and Methods.

(3-0) Cr. 3. Prereq: 6 credits in social science.

Theories and research methods applied to the study and practice of public relations.

JL MC 521. Theories of Visual Communication.

(3-0) Cr. 3. F.Alt. S., offered irregularly. Prereq: 6 credits in social science

Explores the theoretical frameworks in visual communication, including concepts of perception, visual language, visual persuasion, and the social, political and cultural implications of the use of images. Understanding of the function of images in changing knowledge, attitudes and behavior.

JL MC 541. Contemporary Magazine Publishing.

(Dual-listed with JL MC 341). (3-0) Cr. 3. F.S. Prereq: Junior classification

Analysis of magazine industry and specific audiences served by print and online magazines. Editorial procedures and policies, advertising, circulation, and history of the industry. Individual study of magazines.

JL MC 547. Science Communication.

(Dual-listed with JL MC 347). (2-2) Cr. 3. S. *Prereq: Minimum of C+ in JL MC 202 or JL MC 206 or JL MC 321 for Journalism and Mass Communication majors; and ADVRT 336 for Advertising majors. Nonmajors and minors by permission of instructor.*

Reporting and writing about science and technology topics for general audiences. Outlets for stories include print, broadcast and online media. Story topics include reporting about basic, applied sciences and social sciences, as well as ethical, political and policy issues related to science and technology.

JL MC 560. Risk Perception and Communication.

(3-0) Cr. 3. F. *Prereq: Graduate standing, 6 graduate social science credits.* Study of risk communication principles, models and theories applicable to any risk communication situation. Emphasis on science, technology and risk issues encountered in e.g., food, agriculture and veterinary medicine. Examines roles of scientists and communicators in cultivating a public informed about scientific and technological issues.

JL MC 561. Media and Society: Interrelationships.

(3-0) Cr. 3. Alt. F., offered irregularly. S. *Prereq: 6 credits in social science* Media roles and functions in society: Interplay and interrelationships between the media and a variety of social actors and forces: the mutual influence between social factors and mass media.

JL MC 574. Communication Technologies and Social Change.

(Cross-listed with T SC). (3-0) Cr. 3. *Prereq: 6 credits in social science* Personal, organizational, and social implications of the use of communication technologies. Includes theories and empirical research across the continuum of perspectives, from techno-utopianism through an anti-technology stance. Meets International Perspectives Requirement.

JL MC 576. World Communication Systems.

(Dual-listed with JL MC 476). (3-0) Cr. 3. World communication systems and social, political, and economic factors determining flow, character, and volume of news. Impact of media information and entertainment content on nations and societies. Comparative analysis of role and impact of traditional modes of communication, the mass media and computer-mediated systems. Meets International Perspectives Requirement.

JL MC 590. Special Topics.

Cr. arr. Repeatable. *Prereq: Permission of instructor*

JL MC 590A. Special Topics: Media Studies.

Cr. arr. Repeatable. *Prereq: Permission of instructor*

JL MC 590B. Special Topics: Professional Specialization.

Cr. arr. Repeatable. *Prereq: Permission of instructor*

JL MC 590C. Special Topics: Research Problems and Methods.

Cr. arr. Repeatable. *Prereq: Permission of instructor*

JL MC 590D. Special Topics: Technique and Style.

Cr. arr. Repeatable. *Prereq: Permission of instructor*

JL MC 590E. Special Topics: Specialized Communication.

Cr. arr. Repeatable. *Prereq: Permission of instructor*

JL MC 591. Professional Internship.

Cr. 1-2. F.S.S.S. *Prereq: Permission of instructor* Supervised internship experience. Offered on a satisfactory-fail basis only.

JL MC 592. Introduction to Graduate Study in Journalism and Mass Communication.

Cr. R. F. *Prereq: Graduate classification* Overview of advanced study in journalism and mass communication with special emphasis on requirements for obtaining the master of science degree.

JL MC 598. Seminars in Mass Communication.

Cr. 1-3. Repeatable.

JL MC 598A. Seminars in Mass Communication: Audiences and Effects.

Cr. 1-3. Repeatable.

JL MC 598B. Seminars in Mass Communication: Communication Technology.

Cr. 1-3. Repeatable.

JL MC 598C. Seminars in Mass Communication: Professional Communication.

Cr. 1-3. Repeatable.

JL MC 598D. Seminars in Mass Communication: Development Communication.

Cr. 1-3. Repeatable.

JL MC 598E. Seminars in Mass Communication: Evaluation Methods.

Cr. 1-3. Repeatable.

JL MC 598F. Seminars in Mass Communication: International Communication.

Cr. 1-3. Repeatable.

JL MC 598G. Seminars in Mass Communication: Mass Communication History.

Cr. 1-3. Repeatable.

JL MC 598H. Seminars in Mass Communication: Mass Communication Law.

Cr. 1-3. Repeatable.

JL MC 598I. Seminars in Mass Communication: Media Management.

Cr. 1-3. Repeatable.

JL MC 598J. Seminars in Mass Communication: Research Methods.

Cr. 1-3. Repeatable.

JL MC 598K. Seminars in Mass Communication: Society and Mass Communication.

Cr. 1-3. Repeatable.

JL MC 598L. Seminars in Mass Communication: Journalism and Mass Communication Education.

Cr. 1-3. Repeatable.

JL MC 598M. Seminars in Mass Communication: Visual Communication.

Cr. 1-3. Repeatable.

JL MC 598N. Seminars in Mass Communication: Broadcast Communication.

Cr. 1-3. Repeatable.

JL MC 598O. Seminars in Mass Communication: Communication Theory.

Cr. 1-3. Repeatable.

JL MC 598P. Seminars in Mass Communication: Computer Mediated Communication.

Cr. 1-3. Repeatable.

JL MC 598Q. Seminars in Mass Communication: Science, Technology and Risk Communication..

Cr. 1-3. Repeatable.

JL MC 599. Creative Component.

Cr. arr. *Prereq: Approved creative component proposal*

Courses for graduate students:**JL MC 699. Thesis Research.**

Cr. arr. Repeatable. *Prereq: Approved thesis proposal*

History

The History department offers courses leading to the B.A. and B.S. degrees in history, the M.A. degree in history, the M.A. and Ph.D. degrees in the history of technology and science, and the Ph.D. degree in agricultural history and rural studies.

The department offers a variety of survey courses (200 series) for first- and second-year students as either general education courses or as introductions to advanced courses in history or other subject areas. In addition to 200-level survey courses, it offers advanced undergraduate courses in the history of Europe, Asia, Africa, Latin America, the United States, technology and science, agriculture, and other selected topics.

Undergraduate Study

The History Major

For a description of the undergraduate curriculum with a major in History see Liberal Arts and Sciences, Curriculum. History majors may earn either a bachelor of arts or bachelor of science degree. The minimum required for a major in history is 36 credits, of which at least 24 must be in courses numbered 300 or above. Students may take a maximum of 12 credits at the 200-level, a maximum of 15 credits at the 300-level, and must take a minimum of 12 credits at the 400-level or above. A minimum of 15 credits numbered 300 or above must be taken in residence at Iowa State. The department will accept a maximum of 6 credits of cross-listed courses originating in another teaching department toward the major degree. Candidates for the B.A. must complete two years of university-level study in one foreign language or the equivalent.

Objectives for History Majors

1. Display the appropriate level of cognitive knowledge of historical themes and events based upon the student's course of study

2. Display an understanding of past cultures and social organizations, based on the course of study
3. Develop the fundamental methodological skills of the historical craft:- The ability to contextualize and analyze primary source evidence.- Familiarity with the concepts of historical argument and interpretation, and the ability to formulate effective argumentation in written and oral forms.- Awareness of the basic historiography in selected research area.- The ability to conduct research and to write a historical essay based upon primary and secondary source research
4. Display a sophisticated understanding of the relationship between past events and the present. For purposes of outcomes assessment, all History majors must complete three credits of HIST 495 Historiography and Research Writing or, if qualified and willing, one graduate level writing/research seminar.

Communication Proficiency requirement: History majors must receive a grade of C or better in each of ENGL 150 and ENGL 250 (or ENGL 250H), and HIST 495 or any graduate seminar.

For a description of the major in History as preparation for professional programs, see Preprofessional Study. Students majoring in History may also earn a second major in International Studies; see Inter-national Studies.

Majors must distribute their courses across geographic and chronological areas such that they take at least 3 credits at the 300-level or above in five of the following six areas:

- U.S. history, European history, African/Asian/Latin American history
- Ancient history (pre-500), medieval and early-modern history (ca. 500-1750), and modern history (post-1750)

Individual courses may fulfill both a geographic and a chronological area. For example, a course on nineteenth century France may count as both European history and modern history. No single course, however, may be used to fulfill more than one geographic and one chronological area. If a course stretches significantly across two or more areas, students will select which geographic and/or which chronological area they want the course to fulfill. The History Department undergraduate adviser should be consulted as to which courses fulfill what areas. HIST 495 Historiography and Research Writing may not be used to fulfill any area.

Minor

The department offers a minor in History, which may be earned with 15 credits in History courses, of which at least 9 must be in courses numbered 300 or above, excluding HIST 490 Independent Study. A minimum of 9 credits numbered 300 or above must be taken at Iowa State. The College of Liberal Arts and Sciences requires students to earn a C or higher in at least 6 of the required 300-level credits. A student may count a maximum of 3 hours of cross-listed courses originating in another teaching department toward the minor in History. The History minor is most frequently chosen by students majoring in Political Science, English, Journalism, Computer Science, and Business.

Graduate Study

Graduate students may take any 400-level history course except 490 and 495 for graduate credit. Students may complete a maximum of 9 credits of 400-level History courses for a graduate degree in history. Students may take an additional 3 credits of 400-level course work outside of the History Department.

Most history graduate courses are either proseminars or seminars. Proseminars acquaint students with the historical literature of a field and prepare them for careers in teaching and research. Seminars require students to conduct original historical research and to write research papers reporting the results.

The M.A. in history includes three options. See the departmental website on the M.A. in History for a full discussion of the options and requirements. An M.A. in History serves as the basis for continued study in history, as well as preparation for careers in law, education, business, and government service. For international students, a TOEFL score of 600 is required at the time of admission.

The Ph.D. in agricultural history and rural studies is designed as a Ph.D. program, but students without an M.A. in history will be expected to qualify for the departmental M.A. in history while progressing toward the doctorate. In some cases, the M.A. may be recommended as the terminal degree. Thirty semester hours of graduate credit are required for the M.A. and 72 for the Ph.D. Students who continue beyond the M.A. are expected to pass preliminary examinations in four areas of specialization, complete a dissertation, and defend it orally in the Ph.D. final examination. See the departmental website on the program for a full description of requirements.

Courses primarily for undergraduates:

HIST 195. Introduction to History.

(1-0) Cr. 1. *Prereq: classification as history major*
Introduction to the discipline of history and how historians think and work. Focus on research methodologies, writing and analytical practices of historians, and specialization in the discipline.

HIST 201. Introduction to Western Civilization I.

(3-0) Cr. 3. F.
Western civilization from ancient Mediterranean world to 1500. Social and cultural developments; economic and political ideas and institutions; problems of historical change and continuity.
Meets International Perspectives Requirement.

HIST 202. Introduction to Western Civilization II.

(3-0) Cr. 3. S.
Western civilization from 1500 to present. Social and cultural developments; economic and political ideas and institutions; problems of historical change and continuity.
Meets International Perspectives Requirement.

HIST 207. Chinese Civilization.

(3-0) Cr. 3.
Origins, development, decline and transformation of China from earliest times to present.
Meets International Perspectives Requirement.

HIST 221. Survey of United States History I.

(3-0) Cr. 3-5. F.
Colonial foundations: revolution, confederation, and constitution; nationalism and democracy; sectional disunity, Civil War, and reunion.

HIST 222. Survey of United States History II.

(3-0) Cr. 3. S.
Industrialization; emergence as a great power; boom and depression; war, internationalism and Cold War; modern industrial society.

HIST 240. Latina/o History.

(3-0) Cr. 3.
Historical and cultural heritage of Latinas/os in the United States. The histories of Mexican, Puerto Rican, Cuban, and other Latin American peoples in the U.S. emphasizing political and cultural convergence and congruencies.
Meets U.S. Diversity Requirement

HIST 280. Introduction to History of Science I.

(3-0) Cr. 3. F.
Ideas of nature from ancient Greece to the seventeenth-century scientific revolution.
Meets International Perspectives Requirement.

HIST 281. Introduction to History of Science II.

(3-0) Cr. 3. S.
Science from seventeenth-century scientific revolution to Darwin and Einstein.
Meets International Perspectives Requirement.

HIST 284. Wonders of the World, Ancient to Early Modern.

(3-0) Cr. 3. F.
Starting from the classical "Seven Wonders of the World," examines machines, structures, buildings, innovations, and technologies from Sumer, Egypt, Greece, and Rome, through China, Latin America, and the Islamic world, up to Europe's Industrial Revolution. Topics include developments in warfare and weaponry, architecture, agriculture, printing, religious ceremony, entertainment, and major engineering achievements.
Meets International Perspectives Requirement.

HIST 285. Modern Wonders of the World.

(3-0) Cr. 3. S.
Examines machines, structures, buildings, innovations, and technologies from the Industrial Revolution to the twenty-first century, including the US, Europe, Asia, and Middle East. Topics include developments in manufacturing, communication, electrification, automobiles, airplanes, warfare, computers, the atom bomb, and major engineering achievements.

HIST 304. Cultural Heritage of the Ancient World.

(Cross-listed with CL ST). (3-0) Cr. 3. *Prereq: Sophomore classification*
Historical examination of art, literature, thought, and religious beliefs of major civilizations of the ancient Mediterranean countries until the end of the 8th century.

HIST 307. American Popular Culture.

(3-0) Cr. 3. *Prereq: Sophomore classification*
Social practices, beliefs and material traits of everyday life in America from the mid-19th century to the present. Includes literature, music, theater and other entertainments. Dime novels, vaudeville, rock and roll music, Hollywood and establishment of professional athletic leagues are among the cultural artifacts and phenomena considered.

HIST 316. History of Medieval Europe, 300-1500.(3-0) Cr. 3. *Prereq: Sophomore classification*

Survey of political, social, and cultural developments in western Europe for the entire medieval period, 300-1500.

HIST 318. History of Early Modern Europe, 1450-1789.(3-0) Cr. 3. *Prereq: Sophomore classification*

Survey of major themes in the social, political, cultural, and religious history of early modern Europe, including the eras of renaissance and reformation, the age of exploration, development of the modern individual and household, and enlightenment.

HIST 321. History of the Mediterranean World.(3-0) Cr. 3. *Prereq: Sophomore classification.*

Southern Europe and North Africa, Classical Greece to the seventeenth century: political, social and cultural developments, including economic growth, trade, and interaction of cultures, with focus on the rise and decline of early modern Mediterranean states.

HIST 323. Science and Religion.(Cross-listed with RELIG). (3-0) Cr. 3. *Prereq: Sophomore classification*

History of changing interplay of science and religion in our understanding nature, from the trial of Galileo to the reception of Darwin.

Meets International Perspectives Requirement.

HIST 325. Society and Politics in England, 1525-1700.(3-0) Cr. 3. *Prereq: Sophomore classification*

Social, cultural, demographic, and economic experiences. Religious Reformation. Growth of the State (and Empire) and political institutions.

HIST 336. History of Modern China I.(3-0) Cr. 3. *Prereq: Sophomore classification*

China from 1644 to 1912; internal and external stimuli on traditional structure leading to reform and revolution.

Meets International Perspectives Requirement.

HIST 337. History of Modern China II.(3-0) Cr. 3. *Prereq: Sophomore classification*

China from 1912 to present; search for a new order and continuing Chinese revolution.

Meets International Perspectives Requirement.

HIST 338. Modern Japanese History.(3-0) Cr. 3. *Prereq: Sophomore classification*

Japan 1600 to the present; emphasis on transformation of feudal Japan into a post-industrial society.

Meets International Perspectives Requirement.

HIST 339. US-Asian Relations.(3-0) Cr. 3. *Prereq: Sophomore classification*

A survey of US-East Asian (Japan, China, Korea) relations from the late 18th century to the end of the Cold War.

Meets International Perspectives Requirement.

HIST 340. History of Latin America I.(3-0) Cr. 3. *Prereq: Sophomore classification*

Colonial Latin America from European discovery and colonization to wars for independence.

HIST 341. History of Latin America II.(3-0) Cr. 3. *Prereq: Sophomore classification*

Modern Latin America national origins from 1800 to present.

Meets International Perspectives Requirement.

HIST 353. History of African Americans I.(Cross-listed with AF AM). (3-0) Cr. 3. *Prereq: Sophomore classification*

Examines African roots of black culture and the African American experience in the United States from the colonial period through the Civil War. Topics include Atlantic Slave Trade, slavery and American identity, abolition, the emergence of Black Nationalism, and black participation in the Civil War.

Meets U.S. Diversity Requirement

HIST 354. History of African Americans II.(Cross-listed with AF AM). (3-0) Cr. 3. *Prereq: Sophomore classification*

Explores African American political thought and political action from Reconstruction to the present. Topics include rise of Jim Crow segregation, urban migration, Garvey movement, Harlem Renaissance, Depression and world wars, Pan-Africanism, civil rights, Black Power, and black feminism.

Meets U.S. Diversity Requirement

HIST 355. Early American Republic.(3-0) Cr. 3. *Prereq: Sophomore classification*

Examination of the United States from the Constitutional Convention up to the Mexican War. Topics include the Washington, Jefferson, and Jackson administrations, the War of 1812, slavery and the South, economic and social development, Westward expansion and reform.

HIST 356. U.S. Civil War and Reconstruction Era.(3-0) Cr. 3. *Prereq: Sophomore classification*

Examination of the social and economic contradictions that led to Civil War and the reconstruction of American freedom and democracy. Topics include the Mexican War, sectional conflict and the crisis of disunion, economic, political and social aspects of civil war, emancipation, and reconstruction.

HIST 360. U.S. 1900 to 1945.(3-0) Cr. 3. *Prereq: Sophomore classification*

America in transition and crisis: Progressivism, World War I, the twenties, the Great Depression, and World War II.

HIST 361. U.S. 1945 to the Present.(3-0) Cr. 3. *Prereq: Sophomore classification*

Modern American history with an emphasis on political, socio-cultural, ethno-racial, and military history. Topics include the Cold War, the wars in Korea and Vietnam, civil rights and Black/ethnic Power, modern feminism, and the conservative movement.

HIST 365. History of American Agriculture I.(3-0) Cr. 3. *Prereq: Sophomore classification*

North American agricultural development to 1865. American Indian agricultural systems, European background and agricultural revolution, agriculture in the colonial era, early republic and antebellum period.

HIST 366. History of American Agriculture II.(3-0) Cr. 3. *Prereq: Sophomore classification*

American agricultural development since 1865. Post-Civil War adjustments; westward expansion; economic boom and bust; mechanization; Dust Bowl and environmental challenges; Great Depression and New Deal; changing rural life; scientific and technological advances; farm crisis and late twentieth century challenges.

HIST 367. Topics in American Agriculture.(3-0) Cr. 3. *Prereq: Sophomore classification*

Thematic approach to the development of the American agricultural system. Topics vary; examples include food and agriculture, animals in agriculture, and systems of production.

HIST 370. History of Iowa.(3-0) Cr. 3. *Prereq: Sophomore classification*

Survey of major social, cultural and economic developments in Iowa from the late 1700s. Emphasis on minority groups, pioneer life, early economic development, industrial development, educational and religious development, and outstanding personalities.

HIST 374. Women and Men in the Ancient Mediterranean World.(Cross-listed with CL ST, W S). (3-0) Cr. 3. *S. Prereq: Any one course in Cl St, W S, Latin, or Greek*

Chronological and topical survey of the status of women and men, focusing on sex/gender issues in the Ancient Mediterranean world; study of constructs of the female and the feminine. Readings from ancient and modern sources. Emphasis on ancient Near East, Egypt, Greece, and Rome.

Meets International Perspectives Requirement.

HIST 380. History of Women in Science, Technology, and Medicine.(Cross-listed with W S). (3-0) Cr. 3. *Prereq: Sophomore classification*

History of women's relationship to the fields of science, technology, and medicine, as students and professionals, consumers, subjects and patients, family members, workers and citizens. Concentrates especially on 19th and 20th century United States, concluding with an examination of current issues of special interest to women in science, technology, and medicine.

Meets U.S. Diversity Requirement

HIST 383. Technology, Public Science, and European Culture, 1715-Present.(3-0) Cr. 3. *Prereq: Sophomore classification*

A survey from the Age of Enlightenment to the end of the twentieth century of the relationship between science, technology, and public or popular culture in a comparative European context (including Russia and the former Soviet Union).

Meets International Perspectives Requirement.

HIST 386. History of Women in America.

(Cross-listed with W S). (3-0) Cr. 3. *Prereq: Sophomore classification*
A survey of social, economic, and political aspects of women's role from colonial era to present; emphasis on employment, education, concepts of sexuality, and changing nature of the home.
Meets U.S. Diversity Requirement

HIST 388. History of Modern Astronomy.

(3-0) Cr. 3. *Prereq: Sophomore classification*
Changing conception of the universe from Galileo to Edwin Hubble and beyond.

HIST 389. American Military History.

(3-0) Cr. 3. *Prereq: Sophomore classification*
American military history from the colonial wars to the present, including Revolutionary War, Mexican War, Civil War, First and Second World Wars, Korean War, Vietnam War, and Gulf Wars.
Meets International Perspectives Requirement.

HIST 390. World Military History.

(3-0) Cr. 3. *Prereq: Sophomore classification*
Covers military history from the Napoleonic era through the mid- and late-19th century wars, the First and Second World Wars, and wars of national liberation and regional conflicts since 1945.
Meets International Perspectives Requirement.

HIST 391. American Diplomatic History.

(3-0) Cr. 3. *Prereq: Sophomore classification*
A study of US foreign relations during the twentieth century, including the rise to global power, the First World War, diplomacy during prosperity and depression, the Second World War, the Cold War, relations with Latin America, East and South Asia, and Africa, the search for markets, and the perceptions of American foreign policy held by the US, its allies and adversaries, and others.

HIST 396. Topics in History.

(3-0) Cr. 3. *Prereq: Sophomore classification or permission of instructor*
Specialized topics in history; topics vary each time offered.

HIST 396A. Topics in History: Europe.

(3-0) Cr. 3. Repeatable, maximum of 9 credits. *Prereq: Sophomore classification or permission of instructor*
Specialized topics in history; topics vary each time offered.

HIST 396B. Topics in History: U.S. and North America.

(3-0) Cr. 3. Repeatable, maximum of 9 credits. *Prereq: Sophomore classification or permission of instructor*
Specialized topics in history; topics vary each time offered.

HIST 396C. Topics in History: Global.

(3-0) Cr. 3. Repeatable, maximum of 9 credits. *Prereq: Sophomore classification or permission of instructor*
Specialized topics in history; topics vary each time offered.

HIST 402. Greek Civilization.

(Cross-listed with CL ST). (3-0) Cr. 3. *Prereq: Sophomore classification*
Ancient Greece from the Bronze Age to the Hellenistic period; evolution of the Greek polis and its cultural contributions, with a particular emphasis on the writings of Herodotus and Thucydides.

HIST 403. Roman Civilization.

(Cross-listed with CL ST). (3-0) Cr. 3. *Prereq: Sophomore classification*
Ancient Rome from the Regal Period to the fall of the Western Empire; evolution of Roman institutions and Rome's cultural contributions studied through original sources.

HIST 404. Roman Social History.

(Cross-listed with CL ST). (3-0) Cr. 3. *Prereq: Sophomore classification*
Examines major topics in Roman social history during the late Republic and early Empire, such as class, family, slavery, religion, and the economy.

HIST 405. History of the Early Middle Ages.

(3-0) Cr. 3. *Prereq: Sophomore classification*
General coverage of political, economic, social, and cultural developments in early medieval Europe, 300-1000; in depth coverage of particular issues and topics.

HIST 406. History of the High Middle Ages.

(3-0) Cr. 3. *Prereq: Sophomore classification*
General coverage of political, economic, social, and cultural developments in high medieval Europe, 1000-1300; in-depth coverage of particular issues and topics.

HIST 407. History of the Late Middle Ages.

(3-0) Cr. 3. *Prereq: Sophomore classification*
General coverage of political, social, and cultural developments of high medieval Europe, 1300-1500; in-depth coverage of particular issues and topics including the medieval origins of Renaissance and Reformation.

HIST 408. Europe, 1500-1648.

(3-0) Cr. 3. *Prereq: Sophomore classification*
Renaissance; Protestantism and the Age of Catholic reform; social, cultural, and economic changes; global expansion; religious warfare.

HIST 411. European Economic History, 1450-1789.

(3-0) Cr. 3. *Prereq: Sophomore classification*
Survey of major themes in European economic history, including property rights, agriculture, and rural economic development; lordship and its consequences; demography and urbanization; consequences of war and fiscal policy; colonial empires and world trade; and Agricultural and First Industrial Revolutions.

HIST 414. European Cultural and Intellectual History.

(3-0) Cr. 3. *Prereq: Sophomore classification*
A study of the development of key themes in European thought: nature, man, God, society, history, and creativity from Rousseau to Post-Modernism.

HIST 419. History of Modern France.

(3-0) Cr. 3. *Prereq: Sophomore classification*
From absolutism to revolution and the rise of modern democracy.

HIST 420. France's Revolutionary Century, 1715-1815.

(3-0) Cr. 3. *Prereq: Sophomore classification*
An in-depth investigation of the French Revolution, its causes and consequences, beginning in the Ancien Regime and ending with the fall of Napoleon.

HIST 421. History of Russia I.

(3-0) Cr. 3. *Prereq: Sophomore classification*
Russia to 1850. Origins of Russian people; Byzantine influences; Mongol invasion; rise of Moscow; Westernization.
Meets International Perspectives Requirement.

HIST 422. History of Russia II.

(3-0) Cr. 3. *Prereq: Sophomore classification*
Russia since 1850. Reform and revolution; transformation of society; USSR as a world power; recent changes.
Meets International Perspectives Requirement.

HIST 427. Crime and Policing in England 1550-1850.

(3-0) Cr. 3. *Prereq: Sophomore classification*
Course examines different forms and ideas of criminality and the nature and development of law enforcement in England between 1550 and 1856. Significant issues will include the nature of criminal records and statistics, the legal system, the politics of the law and its links with social relations, policing, female crime, juvenile delinquency, organized crime, riots, "social crime," and the treatment of crime in creative literary texts.

HIST 428. Punishment, Mentalities, and Society in England, 1550-1868.

(3-0) Cr. 3. *Prereq: Sophomore classification*
Explores the history of punishing criminals in England and shows how interdisciplinary perspectives, ideas, and practices of punishment are related to mentalities, and socio-economic change. Issues of significance examined: violence, civility, manners, madness, public punishment, execution, imprisonment, transportation, mercy, the rise of asylums, and penal reform.

HIST 429. "Monstrous London": London's Histories 1500-1800.

(3-1) Cr. 3-4. *Prereq: Sophomore classification*
Study of London's social, economic, cultural, political, and environmental history 1500-1800, using both quantitative and qualitative methods to examine contemporary and secondary sources. Course combines standard lecture and discussion format with one week of intensive study abroad for 4th hour of course credit.

HIST 431. Modern England.

(3-0) Cr. 3. *Prereq: Sophomore classification*
England since 1850. Parliamentary and constitutional development; social reform and economic change; imperial Britain; welfare state.

HIST 450. Colonial America.

(3-0) Cr. 3. *Prereq: Sophomore classification*
Exploration, colonization, and development of political, economic, religious, and cultural institutions of North American colonies before 1754. Topics also include social history, emergence of African-American slavery, relations with American Indians.

HIST 451. American Revolutionary Era.

(3-0) Cr. 3. *Prereq: Sophomore classification*
Participants, ideas, and events leading to independence and the foundation of the United States, 1754 to 1789. Topics include political, military, social, cultural history, also issues of gender and race relations.

HIST 456. American Family History.(3-0) Cr. 3. *Prereq: Sophomore classification*

The impact on American families from colonial times onward of agricultural change, industrialization, urbanization, and wars and depressions.

HIST 460. The Great Plains.(3-0) Cr. 3. *Prereq: Sophomore Classification*

History of the Great Plains from prehistoric period. Emphasis on agricultural and rural development, Native Americans, cattle ranching, land policy, agrarian reform movements and federal policy.

HIST 461. The Rural South.(3-0) Cr. 3. *Prereq: Sophomore classification*

History of the American South from colonial period to present. Emphasis on economic, social, and political change in this rural region.

HIST 465. The American West.(3-0) Cr. 3. *Prereq: Sophomore classification*

History of trans-Mississippi West from 1800 to present, concentrating on settlement and regional identity. Emphasis on the state, the environment, urbanization, agriculture, Native Americans, and minority communities.

HIST 468. History of Rural America.(3-0) Cr. 3. *Prereq: Sophomore classification*

History of rural America from the colonial period to the present. Emphasizes immigration, ethnicity, religion, social and cultural change, and agriculture in relation to rural settlement, institution building, demographic change, gender, class, and political and economic development.

HIST 472. U. S. Environmental History.(Cross-listed with ENV S). (3-0) Cr. 3. *Prereq: Sophomore classification*

Survey of the interactions of human communities with the North American environment. Focus on the period from presettlement to the present, with a particular concentration on natural resources, disease, settlement patterns, land use, and conservation policies.

HIST 473. Civil Rights and Ethnic Power.(3-0) Cr. 3. *Prereq: Sophomore classification*

Comparative history of the civil rights and ethnic power movements (Chicano movement, American Indian movement, Puerto Rican civil rights, Asian movement) in the U.S. from World War II to the present. Topics include institutional foundations, leadership, gender and racial dynamics, and the convergences and divergences of these differing ethnic struggles for rights. Meets U.S. Diversity Requirement

HIST 474. Tradition and Transformation of China's Foreign Affairs.(3-0) Cr. 3. *Prereq: Sophomore classification*

Evolution of China's external relations from the antiquities to our own times; conceptions, practices, and relationships that characterized the inter-state relations of the so-called "Chinese world order," interactions between "Eastern" and "Western," and "revolutionary" and "conventional" modes of international behaviors.

HIST 479. China and the Cold War.(3-0) Cr. 3. *Prereq: Sophomore classification*

Important events in China's Cold War involvement, connections between domestic and foreign affairs, factors and rationales in China's foreign policy making the relationship between China's Cold War experience and recent developments.

HIST 480. Field Experience for Secondary Teaching Preparation.Cr. 0.5-2. Repeatable, maximum of 2 times. F.S. *Prereq: Permission of area coordinator required prior to enrollment*

Observation and participation in a variety of school settings after admission to the teacher preparation program. (S/F grading may be used in some offerings of some sections.).

HIST 480A. Pre-Student Teaching Experience III: History/Social Sciences.(Cross-listed with C I). Cr. 2. Repeatable, maximum of 2 times. F. *Prereq: Admission to Teacher Education*

Supervised participation in a 5-12 school setting. Permission of History/Social Sciences coordinator required prior to enrollment. 1/2 day of time needed. Clinical Supervision Level 3.

HIST 482. Birth, Death, Medicine, and Disease.(3-0) Cr. 3. *Prereq: Sophomore classification*

History of medicine, sickness, and public health from ancient times to the twenty-first century in the US, Europe, and around the world. Topics include changing ideas of health and illness, development of doctors and hospitals, social and ethical issues in health care, and epidemics from cholera to AIDS.

HIST 488. American Stuff, Colonial Times to the Present.(3-0) Cr. 3. *Prereq: Sophomore classification*

Examines inventions, machines, innovations, artifacts, and material culture in the US, from homespun cloth and the Colt revolver through the transcontinental railroad and Model T, to the Big Mac and iPod.

HIST 490. Independent Study.(3-0) Cr. 1-3. Repeatable, maximum of 6 credits. *Prereq: 9 credits in history; permission of department chair*

Reading and reports on problems selected in conference with each student. No more than 6 credits of Hist 490 may be counted toward graduation with a major in History. No credits of Hist 490 may count toward a minor in History.

HIST 495. Historiography and Research Writing.(3-0) Cr. 3. F.S. *Prereq: Senior history majors with at least 12 credits of 300+ level history courses*

Variable topics seminar that focuses on historiographical and research skills and writing. Required of majors.

HIST 496. Advanced Topics in History.(3-0) Cr. 3. *Prereq: Sophomore classification or permission of instructor.*

Specialized topics in history, topics vary each time offered.

HIST 496A. Advanced Topics in History: Europe.(3-0) Cr. 3. Repeatable, maximum of 9 credits. *Prereq: Sophomore classification or permission of instructor.*

Specialized topics in history, topics vary each time offered.

HIST 496B. Advanced Topics in History: U.S. and North America.(3-0) Cr. 3. Repeatable, maximum of 9 credits. *Prereq: Sophomore classification or permission of instructor.*

Specialized topics in history, topics vary each time offered.

HIST 496C. Advanced Topics in History: Global.(3-0) Cr. 3. Repeatable, maximum of 9 credits. *Prereq: Sophomore classification or permission of instructor.*

Specialized topics in history, topics vary each time offered.

HIST 498. Methods of Teaching History/Social Sciences.(Cross-listed with C I). (3-0) Cr. 3. F.S. *Prereq: Concurrent enrollment in HIST*

480A; Admission to teacher education and 30 credits in subject-matter field
Concurrent enrollment in 480A; Admission to teacher education and 30 credits in subject-matter field. Theories and processes of teaching and learning secondary history/social sciences. Emphasis on development and enactment of current methods, assessments, and curriculum materials for providing appropriate learning experiences.

Courses primarily for graduate students, open to qualified undergraduates:**HIST 510. Proseminar in East Asian History.**(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Readings in East Asian history. Topics vary each time offered.**HIST 511. Proseminar in American History.**(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Readings in American history. Topics vary each time offered.**HIST 511A. Proseminar in American History: Colonial Period.**(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Readings in American history. Topics vary each time offered.**HIST 511B. Proseminar in American History: Nineteenth Century.**(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Readings in American history. Topics vary each time offered.**HIST 511C. Proseminar in American History: Twentieth Century.**(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Readings in American history. Topics vary each time offered.**HIST 511D. Proseminar in American History: Environment.**(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Readings in American history. Topics vary each time offered.**HIST 511E. Proseminar in American History: Social and Cultural.**(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Readings in American history. Topics vary each time offered.**HIST 512. Proseminar in European History.**(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Readings in European history.**HIST 512A. Proseminar in European History, Ancient.**(Cross-listed with CL ST). (3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Readings in European history.

HIST 512B. Proseminar in European History: Medieval and Early Modern.

(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Readings in European history.

HIST 512C. Proseminar in European History: Modern.

(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Readings in European history.

HIST 513. Proseminar in Latin American History.

(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Readings in Latin American history. Topics vary each time offered.

HIST 530. Proseminar in Modern Russian/Soviet History.

(3-0) Cr. 3. Repeatable. *Prereq: HIST 422*
Readings in modern Russian history. Topics vary each time offered.

HIST 550. Proseminar in European Rural and Agricultural History.

(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*

HIST 550A. Proseminar in European Rural and Agricultural History: Modern European Rural Life.

(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*

HIST 550B. Proseminar in European Rural and Agricultural History: Twentieth Century Europe.

(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*

HIST 552. Proseminar in American Rural and Agricultural History.

(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*

HIST 552A. Proseminar in American Rural and Agricultural History: American Agriculture.

(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*

HIST 552B. Proseminar in American Rural and Agricultural History: Agrarian Reform Movements.

(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*

HIST 552C. Proseminar in American Rural and Agricultural History: Midwestern Rural Society.

(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*

HIST 552D. Proseminar in American Rural and Agricultural History: Women in Rural Life.

(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*

HIST 575. Seminar in General History of Technology.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: Permission of instructor*
The history of technology with emphasis on the historical literature, differing interpretations of major problems, and problems identified for college-level teaching and for further scholarly research.

HIST 583. Historical Methods.

(3-0) Cr. 3.
Study of evidence, theory, and methods.

HIST 583A. Historical Narrative.

(3-0) Cr. 3. *Prereq: Permission of instructor.*
Study of evidence, theory, and methods.

HIST 583B. Historical Methods: Statistical Evidence and Analysis.

(3-0) Cr. 3. *Prereq: Permission of instructor.*
Study of evidence, theory, and methods.

HIST 583C. Issues in Historiography.

(3-0) Cr. 3. Repeatable, maximum of 9 credits. *Prereq: Permission of instructor.*
Study of evidence, theory, and methods.

HIST 586. Proseminar in Women's History and Feminist Theory.

(Cross-listed with W S). (3-0) Cr. 3. *Prereq: Permission of instructor*
Feminism as a movement and feminist theory from the early modern period to the present as it relates to the writing of women's history. Analysis of interpretations of European and U.S. women's history from patriarchal and postmodernist perspectives.

HIST 590. Special Topics.

Cr. 1-3. Repeatable. *Prereq: Permission of instructor*

HIST 593. Seminar in American History.

(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Topics vary each time offered.

HIST 593A. Seminar in American History: Colonial Period.

(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Topics vary each time offered.

HIST 593B. Seminar in American History: Nineteenth Century.

(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Topics vary each time offered.

HIST 593C. Seminar in American History: Twentieth Century.

(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Topics vary each time offered.

HIST 593D. Seminar in American History: Environmental.

(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Topics vary each time offered.

HIST 594. Seminar in European History.

(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Topics vary each time offered.

HIST 594A. Seminar in European History: Ancient.

(Cross-listed with CL ST). (3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Topics vary each time offered.

HIST 594B. Seminar in European History: Medieval and Early Modern.

(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Topics vary each time offered.

HIST 594C. Seminar in European History: Modern.

(3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor*
Topics vary each time offered.

Courses for graduate students:**HIST 610. Seminar on American Rural Life.**

(3-0) Cr. 3. Repeatable, maximum of 9 credits. *Prereq: Permission of instructor*
Emphasis varies each time offered.

HIST 699. Research.

Cr. 1-6. Repeatable.
Graduate student thesis research.

International Studies

Interdepartmental Undergraduate Major and Minor, Administered by the College of Liberal Arts and Sciences

Through a combination of coursework and study abroad, students who complete a secondary major or minor in International Studies can prepare for careers or advanced study in the international arena, such as foreign service, journalism, advocacy organizations, scientific or research institutions, business, nongovernmental development organizations (NGOs), humanitarian agencies, environmental organizations, human rights organizations, think tanks, international agriculture, and engineering. Students in International Studies gain an understanding of global issues, learn to communicate across cultures, and develop awareness of cultural ideas and attitudes.

A secondary major and a minor in International Studies are available for undergraduates. The program requirements are structured around a combination of a designated Topical Module and a Geographic Region, both selected by the student. Each student's program of study is designed to reflect opportunities at Iowa State University as well as the academic, intellectual, and professional interests of the student.

Secondary Major

A student seeking a secondary major in International Studies must successfully complete two core courses plus courses in a selected Geographic Region and Topical Module; demonstrate proficiency in a language relevant to the selected geographic region (see below); and participate in a required study, service, or work abroad program (see below).

Requirements for the Secondary Major in International Studies:

- INTST 235 Introduction to International Studies
- INTST 430 Seminar in International Studies
- 9 credits of coursework (at least 6 of which are numbered 300 or above) from one of the following Geographic Regions:
 - Africa and the Middle East
 - Asia
 - Latin America
 - Western Europe
 - Russia, East Europe and Central Asia
- 9 credits of coursework (at least 6 of which are numbered 300 or above) from one of the following Topical Modules:
 - Global Environmental Issues
 - Globalization and Economic Development
 - International Issues in Science and Technology
 - International Communication

- International Conflict
- Social and Cultural Change
- 3 additional credits of coursework selected from either the Geographic Region or Topical Module.
- Proficiency in a world language that is relevant to the selected geographic region. This can be achieved by completing the 202 level (or higher) of the language or by passing an approved exam.
- Study, service, or internship abroad for a minimum of 3 weeks, earning a minimum of 3 credits. The credits must be transferable Iowa State.

The major must include a minimum of 12 credits not used to meet any other department, college, or university requirement.

Minor

A student seeking a minor in International Studies must successfully complete two core courses plus courses in a selected Geographical Region and Topical Module; demonstrate proficiency in a language relevant to the selected geographic region (see below); and participate in a required study, service, or work abroad program (see below).

Requirements for the Minor in International Studies:

- INTST 235 Introduction to International Studies
- INTST 430 Seminar in International Studies
- 6 credits of coursework (at least 3 of which are numbered 300 or above) from one of the following Geographic Regions:
 - Africa and the Middle East
 - Asia
 - Latin America
 - Western Europe
 - Russia, East Europe and Central Asia
- 6 credits of coursework (at least 3 of which are numbered 300 or above) from one of the following Topical Modules:
 - Global Environmental Issues
 - Globalization and Economic Development
 - International Issues in Science and Technology
 - International Communication
 - International Conflict
 - Social and Cultural Change
- Proficiency in a world language that is relevant to the selected geographic region. This can be achieved by completing the 202 level (or higher) of the language or by passing an approved exam.
- Study, service, or internship abroad for a minimum of 3 weeks, earning a minimum of 3 credits. The credits must be transferable Iowa State.

The minor must include a minimum of 9 credits not used to meet any other department, college, or university requirement.

Language Proficiency

Students with a major or minor in International Studies fulfill the Language Proficiency requirement through one of the following options:

- Completion of two years of university-level language instruction in a single world language that is relevant to the selected geographic region, as demonstrated by completion of a foreign language course numbered 202 or higher. Students whose first language is not English must still meet this requirement if their first language is not relevant to their selected geographic region.
- Passing an examination given by the Department of World Languages and Cultures or otherwise certifying proficiency equivalent to two years of college-level study. Students proficient in languages not offered at ISU may petition for special consideration.
- Intensive study abroad experience that includes in-the-field-use of a language other than English. Individual prior approval of the International Studies Director is required for this option.

Study/Service/Work Abroad Experience

Students with a major or minor in International Studies are required to complete an international experience (study, service, or internship) of a minimum of three weeks in duration. Longer experiences are recommended but not required. Up to 12 credits of coursework taken abroad can be applied to the major if it is approved by the International Studies Program Director.

Liberal Arts and Sciences Cross-Disciplinary Studies

Cross-disciplinary studies in the College of Liberal Arts and Sciences encompass a variety of interdisciplinary and cross-disciplinary areas of study as well as courses that cross established departmental lines. Students may enroll in Program courses; declare majors or minors where offered, or develop an Interdisciplinary Studies major built upon Program offerings. Certificates are also available as separate foci of studies beyond a student's major or minor. (see Index for Program courses).

Cross-Disciplinary Programs

African and African American Studies Program

(Minor only) African and African American Studies

American Indian Studies Program

(Minor only) American Indian Studies

Biological/Premedical Illustration Program

(Major or minor) Biological/Pre-Medical Illustration

Classical Studies

(Minor only) Classical Studies

Communication Studies

(Major or minor) Communication Studies

Criminal Justice Studies

(Minor only) Criminal Justice Studies

Environmental Science

(Major or minor) Environmental Science

Environmental Studies

(Major or Secondary minor) Environmental Studies

Honors Program in Liberal Arts and Sciences

Honors Program

Interdisciplinary Studies Program (Major only)

(Degree Tracks: Criminology and Criminal Justice Studies; Classical Studies)

Interdisciplinary Studies

International Studies Program

(Second major or minor) International Studies

Linguistics Program

(Major or minor; graduate minor) Linguistics

Premedical and Preprofessional Health Programs

Preprofessional Study

Sustainability Program

(Minor only) Interdisciplinary Minor in Sustainability (<http://www.las.iastate.edu/sustainability>)

Teacher Education Program

Teacher Education

Technology and Social Change

(Minor, graduate minor) Technology and Social Change

U.S. Latino/a Studies Program

U.S. Latino/a Studies is devoted to the study of Mexican Americans, Puerto Ricans, Cuban Americans and other groups of people living in the United States who trace their ancestry to the Spanish-speaking countries of Latin America, and who comprise the fastest growing ethnic groups in America. U.S. Latino/a Studies is to be distinguished from Latin American Studies, which focuses on people living in Latin America. The methodology of U.S. Latino/a Studies is cross-disciplinary, drawing from the methods established in anthropology, sociology, political science, economics, history, literary studies, and other fields.

In addition to the general requirements of a major in Interdisciplinary Studies, a major in Interdisciplinary Studies focusing on U.S. Latino/a Studies would require the completion of 24 credits related to U.S. Latino/a Studies such course to be approved by the program director. At least 15 of the 24 credits must be in courses numbered 300 and above. These 24 credits in the major focusing on U.S. Latino/a Studies must include the following courses, each of which is worth three credits: LAS 211 (Introduction to Latino/a Studies), Hist 240 (Latino/a History), Psych 347 (Latino/a Psychology), Soc 332 (The Latino/Latina Experience in U.S. Society), and Hist 345 (U. S. Immigration). The student must have an average grade of C in the required courses of the major. Fulfillment of the foreign language requirement with Spanish is strongly recommended, but not required. For a list of other eligible courses and more information on the U.S. Latino/a Studies Program, contact the program director, Dr. Loreto Prieto.

Women's and Gender Studies Program

(Major or minor) Women's and Gender Studies Program (http://catalog.iastate.edu/collegeofliberalartsandsciences/women_sstudies)

Certificate Programs

Community Leadership and Public Service

(Certificate only) Community Leadership and Public Service Certificate

Latin American Studies

(Certificate only) Latin American Studies Certificate (<http://www.las.iastate.edu/international-study-abroad/latin-american-studies-certificate>)

Courses primarily for undergraduates:

LAS 101. Orientation for Open Option and Preprofessional Students.

(1-0) Cr. 0.5. F. S.

First 8 weeks. Introduction to all undergraduate colleges. Provides information about university resources and services, assists with a successful academic transition to the university, and helps initiate the process of identifying academic major(s) and eventual career paths. Required of all first-year students in Open Option and Preprofessional Programs. Offered on a satisfactory-fail basis only.

LAS 103. Frontiers of the Discipline.

(1-0) Cr. 1. S.

Learning Community/ Seminar focusing entirely on the "cutting edge" research activities of faculty members. Offered on a satisfactory-fail basis only.

LAS 103A. Frontiers of the Discipline: General.

(1-0) Cr. 1. S.

Learning Community/ Seminar focusing entirely on the "cutting edge" research activities of faculty members. Offered on a satisfactory-fail basis only.

LAS 103B. Frontiers of the Discipline: Humanities.

(1-0) Cr. 1. S.

Learning Community/ Seminar focusing entirely on the "cutting edge" research activities of faculty members. Offered on a satisfactory-fail basis only.

LAS 103C. Frontiers of the Discipline: Communication.

(1-0) Cr. 1. S.

Learning Community/ Seminar focusing entirely on the "cutting edge" research activities of faculty members. Offered on a satisfactory-fail basis only.

LAS 103D. Frontiers of the Discipline: Mathematics and Natural Sciences.

(1-0) Cr. 1. S.

Learning Community/ Seminar focusing entirely on the "cutting edge" research activities of faculty members. Offered on a satisfactory-fail basis only.

LAS 103E. Frontiers of the Discipline: Social Sciences.

(1-0) Cr. 1. S.

Learning Community/ Seminar focusing entirely on the "cutting edge" research activities of faculty members. Offered on a satisfactory-fail basis only.

LAS 125. Connections.

(1-0) Cr. 1. F. *Prereq: First year student*

Links a large lecture class with a small learning community / seminar. In each case the professor teaching the large lecture facilitates a small weekly seminar. Informal discussions about critical issues of the day connected to lecture topics through films, public lectures and other events which students and the faculty leader attend. Offered on a satisfactory-fail basis only.

LAS 125A. Connections: General.

(1-0) Cr. 1. F. *Prereq: First year student*

Links a large lecture class with a small learning community / seminar. In each case the professor teaching the large lecture facilitates a small weekly seminar. Informal discussions about critical issues of the day connected to lecture topics through films, public lectures and other events which students and the faculty leader attend. Offered on a satisfactory-fail basis only.

LAS 125B. Connections: Humanities.

(1-0) Cr. 1. F. *Prereq: First year student*

Links a large lecture class with a small learning community / seminar. In each case the professor teaching the large lecture facilitates a small weekly seminar. Informal discussions about critical issues of the day connected to lecture topics through films, public lectures and other events which students and the faculty leader attend. Offered on a satisfactory-fail basis only.

LAS 125C. Connections: Communication.

(1-0) Cr. 1. F. *Prereq: First year student*

Links a large lecture class with a small learning community / seminar. In each case the professor teaching the large lecture facilitates a small weekly seminar. Informal discussions about critical issues of the day connected to lecture topics through films, public lectures and other events which students and the faculty leader attend. Offered on a satisfactory-fail basis only.

LAS 125D. Connections: Mathematics and Natural Sciences.

(1-0) Cr. 1. F. *Prereq: First year student*

Links a large lecture class with a small learning community / seminar. In each case the professor teaching the large lecture facilitates a small weekly seminar. Informal discussions about critical issues of the day connected to lecture topics through films, public lectures and other events which students and the faculty leader attend. Offered on a satisfactory-fail basis only.

LAS 125E. Connections: Social Sciences.

(1-0) Cr. 1. F. *Prereq: First year student*

Links a large lecture class with a small learning community / seminar. In each case the professor teaching the large lecture facilitates a small weekly seminar. Informal discussions about critical issues of the day connected to lecture topics through films, public lectures and other events which students and the faculty leader attend. Offered on a satisfactory-fail basis only.

LAS 140. Advancing Citizenship Together Learning Community Seminar.

(1-0) Cr. 1. Repeatable, maximum of 2 credits.

First semester of required seminar for participants in the ACT (Advancing Citizenship Together) Learning Community. Builds citizenship skills with a focus on women's issues and politics, and includes a service-learning component. Offered on a satisfactory-fail basis only.

LAS 170. Leadership ISU.

(0-2) Cr. 1. F. *Prereq: Freshman or sophomore classification*

An introductory leadership course for first-year and second-year students. Students will gain a basic understanding of leadership skill development and resources available to student leaders at Iowa State University. Course content will be delivered through a variety of methods such as guest speakers, team building exercises, and small group discussions. Students will be expected to complete several out of class assignments to apply the leadership skills they have learned. Offered on a satisfactory-fail basis only.

LAS 201. Professional Employment Preparation.

(1-0) Cr. 1. *Prereq: 2nd semester freshman or transfer student within the College of Liberal Arts and Sciences.*

Exploration, development, and practice of techniques utilized to develop and implement a comprehensive career plan and conduct a professional internship or employment search with emphasis on preparing resumes, cover letters, application materials, interviewing techniques, and overall professional behaviors throughout the recruiting process. Offered on a satisfactory-fail basis only.

LAS 211. Introduction to U.S. Latino/a Studies.

(Cross-listed with US LS). (3-0) Cr. 3. S.

History and current lives of the Latino/a peoples in the United States, including Mexican, Cuban, Puerto Rican, Dominican, and South and Central Americans, as well as information specific to Iowa Latino/as. Through readings, class discussions, writing assignments, guest speakers and community-based learning, students will acquire accurate information and a solid understanding of US Latino/a. Elements of Latino/a culture including historical, sociological, educational, psychological, economic, and political facets.

Meets U.S. Diversity Requirement

LAS 225. Introduction to Asian American Studies.

(3-0) Cr. 3.

An interdisciplinary and chronological examination of Asian American immigration experiences from the early 19th century to the 21st century. Focus on how these immigration histories are accompanied by changing racial constructions. Discussion of racial stereotyping, the model minority myth, identity development, and efforts for social justice.

Meets U.S. Diversity Requirement

LAS 290. Special Projects.

Cr. 1-3. Repeatable. F.S.SS. *Prereq: Freshman or sophomore classification; Permission of the director of the Catt Center for LAS 290G.; other topics need: permission of the dean of the College of Liberal Arts and Sciences.*

LAS 290A. Special Projects: LAS Ambassadors..

Cr. 1-3. Repeatable. F.S.SS. *Prereq: Freshman or sophomore classification; Permission of the director of the Catt Center for LAS 290G.; other topics need: permission of the dean of the College of Liberal Arts and Sciences.*

LAS 290B. Special Projects: Advising Project.

Cr. 1-3. Repeatable. F.S.SS. *Prereq: Freshman or sophomore classification; Permission of the director of the Catt Center for LAS 290G.; other topics need: permission of the dean of the College of Liberal Arts and Sciences.*

LAS 290C. Special Projects: Pre-Law Project.

Cr. 1-3. Repeatable. F.S.SS. *Prereq: Freshman or sophomore classification; Permission of the director of the Catt Center for LAS 290G.; other topics need: permission of the dean of the College of Liberal Arts and Sciences.*

LAS 290D. Special Projects: General.

Cr. 1-3. Repeatable. F.S.SS. *Prereq: Freshman or sophomore classification; Permission of the director of the Catt Center for LAS 290G.; other topics need: permission of the dean of the College of Liberal Arts and Sciences.*

LAS 290G. Special Projects: Catt Center Project.

Cr. 1-3. Repeatable. F.S.SS. *Prereq: Freshman or sophomore classification; Permission of the director of the Catt Center for LAS 290G.; other topics need: permission of the dean of the College of Liberal Arts and Sciences.*

LAS 291. Service Learning.

Cr. 1-4. Repeatable, maximum of 6 credits. *Prereq: Permission of the dean of the College of Liberal Arts and Sciences*

Service work as appropriate to the student's degree program. Academic work under faculty supervision may include written project, report, and guided reading. Offered on a satisfactory-fail basis only.

LAS 291A. Service Learning: General.

Cr. 1-4. Repeatable, maximum of 6 credits. *Prereq: Permission of the dean of the College of Liberal Arts and Sciences*

Service work as appropriate to the student's degree program. Academic work under faculty supervision may include written project, report, and guided reading. Offered on a satisfactory-fail basis only.

LAS 291B. Service Learning: U.S. Diversity Project.

Cr. 1-4. Repeatable, maximum of 6 credits. *Prereq: Permission of the dean of the College of Liberal Arts and Sciences*

Service work as appropriate to the student's degree program. Academic work under faculty supervision may include written project, report, and guided reading. Offered on a satisfactory-fail basis only.

LAS 291C. Service Learning: International Perspectives Project.

Cr. 1-4. Repeatable, maximum of 6 credits. *Prereq: Permission of the dean of the College of Liberal Arts and Sciences*

Service work as appropriate to the student's degree program. Academic work under faculty supervision may include written project, report, and guided reading. Offered on a satisfactory-fail basis only.

LAS 298. Internship/Co-op.

Cr. R. F.S.SS. *Prereq: Permission of Liberal Arts and Sciences Career Services; sophomore classification*

Students participating in an internship or co-op on a full-time basis must register for this course prior to beginning their work experience to remain in full-time student status. Offered on a satisfactory-fail basis only.

LAS 322. Leadership Styles and Strategies in a Diverse Society.

(Cross-listed with CL PS). (3-0) Cr. 3. *Prereq: Sophomore classification*
Developing and practicing leadership skills through understanding personal leadership styles, leadership theory and communication theory, including how they relate to gender issues and cultural diversity; exploring personality types, communication styles, and leadership styles, networking and developing mentoring relationships; setting goals and participating in leadership opportunities and service.

Meets U.S. Diversity Requirement

LAS 350. Topics in Interdisciplinary Studies.

(3-0) Cr. 1-4. Repeatable, maximum of 8 credits.

LAS 350A. Topics in Interdisciplinary Studies: Interdisciplinary.

(3-0) Cr. 1-4. Repeatable, maximum of 8 credits.

LAS 350B. Topics in Interdisciplinary Studies: Humanities.

(3-0) Cr. 1-4. Repeatable, maximum of 8 credits.

LAS 350C. Topics in Interdisciplinary Studies: Mathematics and Nature Science.

(3-0) Cr. 1-4. Repeatable, maximum of 8 credits.

LAS 350D. Topics in Interdisciplinary Studies: Social Sciences.

(3-0) Cr. 1-4. Repeatable, maximum of 8 credits.

LAS 385. The Holocaust.

(3-0) Cr. 3. F.S.SS.

An examination of the religious, social, scientific, and historical contexts for the Nazi destruction of European Jewry. Topics covered include anti-Semitism, German Volkish philosophy, eugenics, World War II, the Final Solution, rescuers, and contemporary issues.

Meets International Perspectives Requirement.

LAS 398. Internship/Co-op.

Cr. R. F.S.SS. *Prereq: Permission of Liberal Arts and Sciences Career Services; junior classification*

Students participating in an internship or co-op on a full-time basis must register for this course prior to beginning their work experience to remain in full-time student status.

LAS 490. Independent Study.

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. *Prereq: Permission of the instructor for LAS 490G; other topics need: permission of the dean of the College of Liberal Arts and Sciences*

No more than 9 credits of LAS 490 may be applied toward graduation.

LAS 490A. Independent Study: General.

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. *Prereq: Permission of the instructor for LAS 490G; other topics need: permission of the dean of the College of Liberal Arts and Sciences*

No more than 9 credits of LAS 490 may be applied toward graduation.

LAS 490E. Independent Study: Entrepreneurial Studies.

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. *Prereq: Permission of the instructor for LAS 490G; other topics need: permission of the dean of the College of Liberal Arts and Sciences*

No more than 9 credits of LAS 490 may be applied toward graduation.

LAS 490G. Independent Study: Catt Center Project.

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. *Prereq: Permission of the instructor for LAS 490G; other topics need: permission of the dean of the College of Liberal Arts and Sciences*

No more than 9 credits of LAS 490 may be applied toward graduation.

LAS 491. Service Learning.

Cr. 1-4. F.S.SS. *Prereq: Permission of the dean of the College of Liberal Arts and Sciences*

Service work as appropriate to the student's degree program. Academic work under faculty supervision may include written project, report, and guided reading.

LAS 491A. Service Learning: General.

Cr. 1-4. F.S.SS. *Prereq: Permission of the dean of the College of Liberal Arts and Sciences*

Service work as appropriate to the student's degree program. Academic work under faculty supervision may include written project, report, and guided reading.

LAS 491B. Service Learning: U.S. Diversity Project.

Cr. 1-4. F.S.SS. *Prereq: Permission of the dean of the College of Liberal Arts and Sciences*

Service work as appropriate to the student's degree program. Academic work under faculty supervision may include written project, report, and guided reading. Meets U.S. Diversity Requirement

LAS 491C. Service Learning: International Perspectives Project.

Cr. 1-4. F.S.SS. *Prereq: Permission of the dean of the College of Liberal Arts and Sciences*

Service work as appropriate to the student's degree program. Academic work under faculty supervision may include written project, report, and guided reading. Meets International Perspectives Requirement.

LAS 498. Internship/Co-op.

Cr. R. F.S.SS. *Prereq: Permission of Liberal Arts and Sciences Career Services; senior classification*

Students participating in an internship or co-op on a full-time basis must register for this course prior to beginning their work experience to remain in full-time student status.

LAS 499. Internship.

Cr. 1-4. Repeatable. F.S.SS. *Prereq: Permission of Liberal Arts and Sciences Career Services*

Work experience in professional setting appropriate to the student's degree program. Academic work under faculty supervision may include written projects, reports, and guided reading.

Liberal Studies

The bachelor of liberal studies degree (B.L.S.) was established by the three Iowa Regent universities to meet the needs of Iowans who want to earn a college degree but whose circumstances present obstacles to completing a traditional on-campus degree program. The degree may be earned from Iowa State University, the University of Iowa, or the University of Northern Iowa.

The B.L.S. is a general studies degree in the liberal arts. There is no traditional major. Instead, students take coursework in three areas of distribution. These areas may be focused in a single discipline or diversified over several disciplines. With the assistance of a B.L.S. adviser, students can structure a program that meets their individual educational, vocational or personal goals.

Up to three-fourths of the total degree requirements can be transferred from accredited institutions. Work done in community colleges or other accredited colleges and universities can be applied toward the degree, as can applicable courses taken at any of the three Iowa Regent universities, whether on or off campus.

The B.L.S. program has no residence requirements. To complete the degree, students may earn credits through distance-learning formats as well as regular on-campus courses. Students may also earn credits by proficiency or test-out examinations.

Admission

Admission to the B.L.S. program is open to persons who meet either of the following levels of previous educational attainment:

Hold the associate in arts (A.A.) or associate in science (A.S.) degree from an accredited two-year college. (Holders of the associate in applied science or associate in applied arts degree are not automatically eligible, although some courses may be found applicable upon review.)

Have at least 60 semester credits of collegiate work acceptable toward graduation at ISU with a total cumulative grade point average of at least 2.00 (a C average).

Requirements for the B.L.S. Degree

The B.L.S. candidate must earn a total of 120 credits in accordance with requirements listed below. Courses taken at Iowa State University on a pass/not pass basis may be counted toward graduation only as electives. No more than 9 credits of 490 (Independent Study) courses in a single discipline may be counted toward graduation.

General Education Requirements 46 cr.

Basic English Composition	6
World language *	8
Arts and humanities	12
Mathematics, statistics, or computer science	3
Natural sciences	8
Social sciences	9
Distribution Requirements **	36
Electives	38
Total Credits	120

*The requirement may be met by completion of three or more years of high school study in one world language. A list of courses acceptable in the general education groups can be obtained from the college office.

**A minimum of 12 credits is required in each of three of the five distribution areas listed below.

Humanities (literature, philosophy, history, religion, art and music appreciation)

Communications and arts (journalism, speech, writing, drama, art, world language)

Natural sciences and mathematical disciplines (chemistry, physics, biology, geological and atmospheric sciences, mathematics, statistics, computer science)

Social sciences (sociology, psychology, economics, political science, anthropology, geography)

Professional fields (business, education, family and consumer sciences, social work, agriculture, engineering, nursing)

At least 24 upper-level credits are required in the three distribution areas with a minimum of 6 upper-level credits in each of the areas.

Other Requirements

Included in the total of 120 credits must be the following:

45 upper-level credits from a four-year college

30 credits from ISU earned during the junior/and or senior year.

Three credits of course work in U.S. Diversity and 3 credits in International Perspectives.

A grade average of at least 2.00 (a C average) in all coursework applied to the B.L.S. degree, in all upper-level coursework, and in all work completed after admission to the B.L.S. program.

Proficiency in communication demonstrated by completion of an approved composition course from a four-year college.

Linguistics

(Interdepartmental Program)

Undergraduate Study

Linguistics is a cross-disciplinary program in the College of Liberal Arts and Sciences designed to meet the needs of students interested in various aspects of language—its structure, history, varieties, meanings, and uses. The program includes courses in anthropology, communication disorders, computer science, English, psychology, and speech communication and world languages and cultures, thus providing a multi-disciplinary approach to the study of human language.

Courses in linguistics serve as background for students interested in any career that involves working with language, such as teaching English both as a first and as a second language, second language studies, psycholinguistics, cross-cultural communication, linguistic anthropology, computational linguistics, speech-language pathology, and audiology.

In the College of Liberal Arts and Sciences, courses in linguistics can be applied as electives or as part of the group requirements. They may also be used in a minor or in a major.

Majors in linguistics complete a minimum of 36 hours in linguistics with a grade of C or better in each linguistics course. Courses specifically required are:

LING 119	Introduction to World Languages	3
LING 120	Computers and Language	3
LING 207	Introduction to Symbolic Logic	3
LING 219	Introduction to Linguistics	3
LING 220	Descriptive English Grammar	3
LING 309	Introduction to Culture and Language	3
LING 371	Phonetics and Phonology	3
LING 413	Psychology of Language	3
LING 420	History of the English Language	3
LING 437	Grammatical Analysis	3

In addition, linguistics majors must choose 6 credits of courses from one or more of the following areas:

Communication Disorders

LING 275	Introduction to Communication Disorders	3
LING 286	Communicating with the Deaf	3
LING 471	Language Development	3

Computers and Linguistics

LING 510	Introduction to Computers in Applied Linguistics	3
LING 520	Computational Analysis of English	3
LING 526	Computer-Assisted Language Learning	3

Second Language Studies

LING 425	Second Language Learning and Teaching	3
LING 487	Methods in Secondary School World Language Instruction	3
LING 518	Teaching English as a Second Language Methods and Materials	3
LING 519	Second Language Assessment	3
LING 524	Literacy: Issues and Methods for Nonnative Speakers of English	3
LING 525	Methods in Teaching Listening and Speaking Skills to Nonnative Speakers of English	3

Sociolinguistics and Language

LING 305	Language, Thought and Action	3
LING 422	Women, Men, and the English Language	3
LING 514	Sociolinguistics	3
LING 527	Discourse Analysis	3

Spanish Linguistics

LING 352	Introduction to Spanish Phonology	3
LING 462	Contrastive Analysis of Spanish/ English for Translators	3
LING 463	Hispanic Dialectology	3

Additional courses in linguistics are available through study abroad, especially LING 395X. Majors in linguistics must show proficiency in a foreign language equivalent to that achieved after two years of university-level study. Alternatively, majors in linguistics can demonstrate university-level study in two foreign languages of at least one year each.

See also the 4-year plan grid for Linguistics showing courses by semester.

Minors in linguistics are individually tailored to the interests of the student, who consults with the linguistics adviser to develop the minor program of study. All minors must have a minimum of 15 credits in linguistics, of which 6 must be in courses numbered over 300. All programs must include LING 219 Introduction to Linguistics.

Communication Proficiency requirement: The linguistics program requires grades of C+ or better in each of the following:

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
or ENGL 250H	Written, Oral, Visual, and Electronic Composition: Honors	
LIB 160	Information Literacy	1

Continuing ENGL Proficiency is based on one course from ENGL 305, ENGL 314, a WLC 370-379 course, or a CL ST 370-379 course.

For information about using linguistics courses in an interdisciplinary studies major, see Liberal Arts and Sciences, Cross-Disciplinary Studies.

Graduate Study

A graduate minor in linguistics permits students to investigate various aspects of linguistics, emphasizing the ability to think about language in a systematic and disciplined way and to apply the methods of the field to research problems in their own disciplines. Graduate courses for the minor may be cross-listed with courses in Anthropology, Communication Disorders, Computer Science, English, Psychology, and World Languages and Cultures.

For the master's degree, a declared minor consists of 9 credits in linguistics including two foundation courses:

LING 511	Introduction to Linguistic Analysis	3
One of the following:		3

LING 514	Sociolinguistics	
LING 527	Discourse Analysis	
LING 537	Advanced Grammatical Analysis: Social, Individual, and Empirical Perspectives	
And one elective from the list of courses approved for graduate credit		3
Total Credits		9

For the Ph.D. degree, the minor consists of 12 credits in linguistics including:

LING 511	Introduction to Linguistic Analysis	3
LING 537	Advanced Grammatical Analysis: Social, Individual, and Empirical Perspectives	3
And two electives from the list of courses approved for graduate credit		6
Total Credits		12

Additional courses beyond those listed below may be used as electives. The chair of the supervisory committee can provide information about these.

At least one member of the linguistics faculty will serve on a student's program of study committee. A list of faculty members may be obtained from the Linguistics program website. Ph.D. candidates will write one section of the preliminary examination on an area of linguistics. Students in Teaching English as a Second Language/Applied Linguistics are not eligible for a graduate minor in linguistics.

Courses primarily for undergraduates:

LING 101. Introduction to the Study of Linguistics.

(1-0) Cr. 1. S.

Cross-disciplinary perspectives on the study of linguistics. Applications of linguistics to real world problems. Careers in linguistics.

LING 119. Introduction to World Languages.

(Cross-listed with WLC). (3-0) Cr. 3.

Study of language diversity and the personal, social and political effects of diversity. Language families, attitudes toward language and language use, language and culture, multilingualism, foreign language learning, written codes, official languages, and language policy.

Meets International Perspectives Requirement.

LING 120. Computers and Language.

(Cross-listed with ENGL). (3-0) Cr. 3.

Introduction to the use of linguistic knowledge in computer applications today and the basic computational techniques used in such applications. The development of these techniques throughout the history of computational linguistics. How the study of language has contributed to the advancement of technology and how certain computational problems have influenced the way linguists study language.

LING 207. Introduction to Symbolic Logic.

(Cross-listed with PHIL). (3-0) Cr. 3. S.

Introduction to fundamental logical concepts and logical symbolism. Development of natural deduction through first order predicate logic with identity. Applications to arguments in ordinary English and to philosophical issues. Linguistics majors should take LING/PHIL 207 as early as possible.

LING 219. Introduction to Linguistics.

(Cross-listed with ENGL). (3-0) Cr. 3. F.S. *Prereq: Sophomore classification*

Introduction to linguistic concepts and principles of linguistic analysis with English as the primary source of data. Sound and writing systems, sentence structure, vocabulary, and meaning. Issues in the study of usage, regional and social dialects, language acquisition, and language change.

LING 220. Descriptive English Grammar.

(Cross-listed with ENGL). (3-0) Cr. 3. F.S. *Prereq: ENGL 250*

Overview of grammatical structures and functions. Parts of speech; phrase, clause, and sentence structure; sentence types and sentence analysis; rhetorical grammar and sentence style; terminology. Not a remedial, English composition, or ESL course.

LING 275. Introduction to Communication Disorders.

(Cross-listed with CMDIS). (3-0) Cr. 3.

Survey of nature, causes, and types of major communication disorders including phonological, adult and child language, voice, cleft palate, fluency, and hearing disorders.

LING 286. Communicating with the Deaf.

(Cross-listed with CMDIS). (3-0) Cr. 3.

Learn to communicate with the deaf using Signed English and Signed Pidgin English. Other topics covered include types, causes, and consequences of hearing loss, hearing technology (hearing aids, assistive listening devices, and cochlear implants), education of hearing-impaired children, Deaf culture, and the history of manual communication.

Meets U.S. Diversity Requirement

LING 305. Language, Thought and Action.(Cross-listed with SP CM). (3-0) Cr. 3. *Prereq: ENGL 250*

The study of symbolic processes and how meaning is conveyed in words, sentences, and utterances; discussion of modern theories of meaning; and an exploration of relationships among language, thought and action.

LING 309. Introduction to Culture and Language.

(Cross-listed with ANTHR). (3-0) Cr. 3. *Prereq: ANTHR 201 recommended*
Introduction to study of language, culture and society from an anthropological perspective. Focus on language and thought, ethnography of speaking, discourse and narrative, writing and literacy, and media communication. Discussion of key theories and methods of linguistic anthropology.
Meets International Perspectives Requirement.

LING 331. Theory of Computing.(Cross-listed with COM S). (3-1) Cr. 3. F.S. *Prereq: Minimum of C- in COM S 228, MATH 166, and in COM S 330 or CPR E 310; ENGL 250*

Models of computation: finite state automata, pushdown automata and Turing machines. Study of grammars and their relation to automata. Limits of digital computation, unsolvability and Church-Turing thesis. Chomsky hierarchy and relations between classes of languages.

LING 352. Introduction to Spanish Phonology.(Cross-listed with SPAN). (3-0) Cr. 3. F.S. *Prereq: SPAN 301, SPAN 303 or SPAN 304*

An introductory study of the articulation, classification, distribution, and regional variations of the sounds of the Spanish language. Taught in Spanish.
Meets International Perspectives Requirement.

LING 354. Introduction to Spanish-English Interpretation.(Dual-listed with LING 554). (Cross-listed with SPAN). (3-0) Cr. 3. F.S. *Prereq: SPAN 351*

Introduction to the theory, methods, techniques, and problems of consecutive and simultaneous interpretation. Consideration of material from business, agriculture, law, design, medicine, literature, advertisement, and sports. Taught in Spanish.
Meets International Perspectives Requirement.

LING 371. Phonetics and Phonology.(Cross-listed with CMDIS). (3-0) Cr. 3. *Prereq: ENGL 219*

Analysis of speech through study of individual sounds, their variations, and relationships in context; English phonology; practice in auditory discrimination and transcription of sounds of American English; description of speech sounds in terms of their production, transmission, and perception.

LING 413. Psychology of Language.(Cross-listed with PSYCH). (3-0) Cr. 3. *Prereq: PSYCH 101*

Introduction to psycholinguistics. Topics may include origin of language, speech perception, language comprehension, reading, bilingualism, brain bases of language, and computational modeling of language processes.

LING 420. History of the English Language.(Cross-listed with ENGL). (3-0) Cr. 3. F.S. *Prereq: ENGL 219 or LING 219, ENGL 220 or LING 220*

Comparison of English to other languages by family background and by type. Analysis of representative Old, Middle, Early Modern and present-day English texts, including both literary works and non-literary documents.

LING 422. Women, Men, and the English Language.(Cross-listed with ENGL, W S). (3-0) Cr. 3. S. *Prereq: ENGL 219 or LING 219*

The ways men and women differ in using language in varied settings and the ways in which language both creates and reflects gender divisions.
Meets U.S. Diversity Requirement

LING 425. Second Language Learning and Teaching.(Cross-listed with ENGL). (3-0) Cr. 3. S. *Prereq: ENGL 219 or LING 219; junior classification*

The process of second language learning and principles and techniques of teaching second languages. Learning and teaching in specific situations and for particular purposes. Current applications of technology in teaching and assessment.

LING 437. Grammatical Analysis.(Cross-listed with ENGL). (3-0) Cr. 3. F. *Prereq: ENGL 220 or LING 220; ENGL 219 or LING 219 or introductory course in linguistics; junior classification*

Theories and methods for analysis of syntax and morphology.

LING 462. Contrastive Analysis of Spanish/ English for Translators.(Cross-listed with SPAN). (3-0) Cr. 3. *Prereq: SPAN 351*

Linguistic study of the major differences between the Spanish and English grammatical systems and their applications in the translation of Spanish to English. Taught in Spanish.

LING 463. Hispanic Dialectology.(Cross-listed with SPAN). (3-0) Cr. 3. *Prereq: SPAN 352*

Intensive study of the phonology, morphosyntax and lexicon of the Hispanic dialects of Spain and Latin America in their historical context. Taught in Spanish.
Meets International Perspectives Requirement.

LING 471. Language Development.(Cross-listed with CMDIS). (3-0) Cr. 3. *Prereq: CMDIS 275 or PSYCH 230 or ENGL 219 or LING 219*

Theories and developmental processes related to the components of language (semantics, syntax, morphology, phonology, and pragmatics); the development of metalinguistic knowledge; theories and developmental processes of reading.

LING 486. Methods in Elementary School World Language Instruction.(Cross-listed with C I, WLC). (3-0) Cr. 3. F. *Prereq: 25 credits in a world language*
Planning, implementation, and assessment of standards-based, student-centered, and thematic instruction in the elementary (K-8) classroom. Special emphasis on K-8 students' communicative skills, cultural knowledge, and content learning.**LING 487. Methods in Secondary School World Language Instruction.**(Cross-listed with C I, WLC). (3-0) Cr. 3. F. *Prereq: 25 credits in a world language, admission to the teacher education program*

Theories and principles of contemporary world language learning and teaching. Special emphasis on designing instruction and assessments for active learning.

LING 489. Undergraduate Seminar.(Cross-listed with ENGL). (3-0) Cr. 3. Repeatable. F. *Prereq: 9 credits in English beyond ENGL 250*

Intensive study of a selected topic in literature, criticism, rhetoric, writing, or language. Cross-listing with linguistics acceptable only when offered as a course in linguistics.

LING 490B. Independent Study: Linguistics.(Cross-listed with ENGL). Cr. arr. Repeatable, maximum of 9 credits. F.S. *Prereq: 9 credits in English beyond ENGL 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee or Linguistics Adviser*

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

LING 490D. Independent Study: Linguistic Anthropology.(Cross-listed with ANTHR). Cr. 1-5. Repeatable, maximum of 9 credits. *Prereq: 9 credits in anthropology.*

No more than 9 credits of Anthr 490 may be counted toward graduation.

Courses primarily for graduate students, open to qualified undergraduates:**LING 510. Introduction to Computers in Applied Linguistics.**(Cross-listed with ENGL). (3-0) Cr. 3. F. *Prereq: Graduate classification*

Use of applications software for language teaching, linguistic analysis, and statistical analysis. Issues and problems in applied linguistics related to computer methods.

LING 511. Introduction to Linguistic Analysis.(Cross-listed with ENGL). (3-0) Cr. 3. F. *Prereq: Graduate classification*

Principles and methods of linguistic analysis with emphasis on phonology, morphology, and syntax. Description of linguistic variation and current theoretical approaches to linguistics.

LING 512. Second Language Acquisition.(Cross-listed with ENGL). (3-0) Cr. 3. F. *Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*

Theory, methods, and results of second language acquisition research with emphasis on approaches relevant to second language teaching.

LING 513. Language Assessment Practicum.(Cross-listed with ENGL). (3-0) Cr. 3. F.S.SS. *Prereq: ENGL 519 or LING 519*

Advanced practicum in language assessment.

LING 514. Sociolinguistics.(Cross-listed with ENGL). (3-0) Cr. 3. S. *Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*

Theories and methods of examining language in its social setting. Analysis of individual characteristics (e.g., age, gender, ethnicity, social class, region), interactional factors (e.g., situation, topic, purpose) and national policies affecting language use.

LING 515. Statistical Natural Language Processing.

(Cross-listed with ENGL, HCI). (3-0) Cr. 3. F. *Prereq:* STAT 330 or equivalent, recommended ENGL 219 or LING 219, or ENGL 511 or LING 511

Introduction to computational techniques involving human language and speech in applications such as information retrieval and extraction, automatic text categorization, word prediction, intelligent Web searching, spelling and grammar checking, speech recognition and synthesis, statistical machine translation, n-grams, POS-tagging, word-sense disambiguation, on-line lexicons and thesauri, markup languages, corpus analysis, and Python programming language.

LING 518. Teaching English as a Second Language Methods and Materials.

(Cross-listed with ENGL). (3-0) Cr. 3. F. *Prereq:* ENGL 511 or LING 511 or an introductory course in linguistics

Introduction to approaches, methods, techniques, materials, curricular design, and assessment for various levels of ESL instruction. Attention to issues related to the teaching of listening, speaking, reading, writing, vocabulary, pronunciation, and culture.

LING 519. Second Language Assessment.

(Cross-listed with ENGL). (3-0) Cr. 3. S. *Prereq:* ENGL 511 or LING 511

Principles of second language assessment including reliability, validity, authenticity and practicality. Constructing, scoring, interpreting, and evaluating second language tests for a variety of situations.

LING 520. Computational Analysis of English.

(Cross-listed with ENGL, HCI). (3-0) Cr. 3. S. *Prereq:* ENGL 510 or LING 510, and ENGL 511 or LING 511

Concepts and practices for analysis of English by computer with emphasis on the applications of computational analysis to problems in applied linguistics such as corpus analysis and recognition of learner language in computer-assisted learning and language assessment.

LING 524. Literacy: Issues and Methods for Nonnative Speakers of English.

(Cross-listed with ENGL). (3-0) Cr. 3. F. *Prereq:* ENGL 511 or LING 511 or an introductory course in linguistics

Theoretical and practical issues and techniques in the teaching of literacy in a variety of contexts, involving children and adults at basic skill levels and teens and adults in academic and vocational programs.

LING 525. Methods in Teaching Listening and Speaking Skills to Nonnative Speakers of English.

(Cross-listed with ENGL). (3-0) Cr. 3. S. *Prereq:* ENGL 511 or LING 511 or an introductory course in linguistics

Theoretical and practical issues and techniques in the teaching of second language pronunciation, listening, and speaking skills. Topics will be relevant to those intending to teach in various contexts involving both K-12 and adult learners.

LING 526. Computer-Assisted Language Learning.

(Cross-listed with ENGL). (3-0) Cr. 3. S. *Prereq:* ENGL 511 or LING 511 or equivalent

Theory, research, and practice in computer use for teaching nonnative speakers of English. Methods for planning and evaluating computer-based learning activities.

LING 527. Discourse Analysis.

(Cross-listed with ENGL). (3-0) Cr. 3. S. *Prereq:* ENGL 511 or LING 511 or an introductory course in linguistics

Methods and theoretical foundations for linguistic approaches to discourse analysis. Applications of discourse analysis to the study of texts in a variety of settings, including academic and research contexts.

LING 528. English for Specific Purposes.

(Cross-listed with ENGL). (3-0) Cr. 3. *Prereq:* ENGL 511 or LING 511 or an introductory course in linguistics

Issues and techniques in analyzing, teaching, and assessing English for specific purposes. Topics include theories of specific purpose language use, analysis of learner needs in target language contexts, and syllabus and materials development for teaching and assessment.

LING 537. Advanced Grammatical Analysis: Social, Individual, and Empirical Perspectives.

(Cross-listed with ENGL). (3-0) Cr. 3. F. *Prereq:* ENGL 220 or LING 220; ENGL 219, LING 219, ENGL 511, LING 511, or introductory course in linguistics; graduate classification

Analytic, functional, cognitive, corpus-based and pedagogical approaches to the analysis of syntax with emphasis on approaches used in applied linguistics.

LING 554. Introduction to Spanish-English Interpretation.

(Dual-listed with LING 354). (Cross-listed with SPAN). (3-0) Cr. 3. F.S. *Prereq:* SPAN 351

Introduction to the theory, methods, techniques, and problems of consecutive and simultaneous interpretation. Consideration of material from business, agriculture, law, design, medicine, literature, advertisement, and sports. Taught in Spanish. Meets International Perspectives Requirement.

LING 588. Supervised Practice Teaching in Teaching English as a Second Language.

(Cross-listed with ENGL). (1-5) Cr. 3. F.S.SS. *Prereq:* 9 credits toward the TESL/TEFL Certificate, 15 credits toward the TESL/AL master's degree, or 18 credits completed toward the ESL Endorsement option.

Intensive observation of ESL instruction and supervised practice in teaching learners of English in a context appropriate to the student teacher's goals. ENGL 588 cannot be used for teacher licensure and cannot be taken during student teaching.

LING 590. Special Topics.

(Cross-listed with ENGL). Cr. arr. Repeatable. *Prereq:* Permission of the English Department Graduate Studies Committee according to guidelines available in the department office

LING 590B. Special Topics: Teaching English as a Second Language (TESL)/Applied Linguistics.

(Cross-listed with ENGL). Cr. arr. Repeatable. *Prereq:* Permission of the Director of Graduate Education according to guidelines available online

LING 590G. Special Topics: Applied Linguistics and Technology.

(Cross-listed with ENGL). Cr. arr. Repeatable. *Prereq:* Permission of the Director of Graduate Education according to guidelines available online

LING 591. Studies in Applied Linguistics.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq:* 6 credits in TESL/Applied Linguistics

Intensive study of applied linguistic theory as it relates to specific issues in language acquisition, teaching, or use.

LING 591B. Directed Readings: Teaching English as a Second Language (TESL)/Applied Linguistics.

(Cross-listed with ENGL). Cr. arr. Repeatable.

LING 591G. Directed Readings: Applied Linguistics and Technology.

(Cross-listed with ENGL). Cr. arr. Repeatable.

Courses for graduate students:**LING 623. Research Methods in Applied Linguistics.**

(Cross-listed with ENGL). (3-0) Cr. 3. F. *Prereq:* ENGL 511 or LING 511, ENGL 517 or LING 517, ENGL 519 or LING 519

Survey of research traditions in applied linguistics. Focus on theoretical and practical aspects of quantitative and qualitative approaches to applied linguistic study, including experimental and quasiexperimental methods, classroom observation and research, introspective methods, elicitation techniques, case studies, interactional analysis, ethnography, and program evaluation. Computational tools and resources for linguistic research will be highlighted.

LING 626. Computer-Assisted Language Testing.

(Cross-listed with ENGL). (3-0) Cr. 3. F. *Prereq:* ENGL 510 or LING 510, ENGL 511 or LING 511, ENGL 519 or LING 519

Principles and practice for the use and study of computers and the Internet in second language assessment.

LING 630. Seminar in Technology and Applied Linguistics.

(Cross-listed with ENGL). (3-0) Cr. 3. Repeatable. *Prereq:* ENGL 510 or LING 510, ENGL 511 or LING 511

Topic changes each semester. Topics include advanced methods in natural language processing, technology and literacy in a global context, feedback in CALL programs, technology and pronunciation, and advances in language assessment.

LING 688. Practicum in Technology and Applied Linguistics.

(Cross-listed with ENGL). (1-5) Cr. 3. F.S.SS. *Prereq:* ENGL 510 or LING 510, ENGL 626 or LING 626, or equivalent; at least 2nd year PhD student in Applied Linguistics and Technology

Focus on integrating theoretical knowledge with practical expertise. Assess client needs; develop, integrate, and evaluate solutions. Practical understanding of computer applications used in multimedia development. Create web-based or CD-ROM-based multimedia materials. Work with advanced authoring applications.

Mathematics

Undergraduate Study

For the undergraduate curriculum in liberal arts and sciences, major in mathematics, leading to the degree bachelor of science, see Liberal Arts and Sciences, Curriculum.

The program in mathematics offers training suitable for students planning to enter secondary school teaching, to work in mathematics and computation for industry or government, or to continue their studies in graduate school. Students may satisfy the major requirements in several ways, suitable for various career objectives. Graduates can construct rigorous arguments to demonstrate mathematical facts. They can communicate their mathematical methods to others and can justify their assumptions.

Traditional Program

The traditional program of study for mathematics majors gives students a thorough grounding in mathematics. Graduates understand a broad range of mathematical topics and are familiar with a broad range of mathematical models. They have skills for solving problems in diverse situations. The program allows flexibility for specialization, and students are encouraged to steer their education according to career objectives. This traditional program of study requires:

MATH 101	Orientation in Mathematics	1
MATH 165	Calculus I	4
MATH 166	Calculus II	4
MATH 201	Introduction to Proofs	3
MATH 265	Calculus III	4
MATH 317	Theory of Linear Algebra	3-4
or MATH 407	Applied Linear Algebra	
MATH 301	Abstract Algebra I	3
MATH 414	Analysis I	3
MATH 266	Elementary Differential Equations	3-4
or MATH 267	Elementary Differential Equations and Laplace Transforms	
Mathematics courses at the 300 level or above		15
One of the following:		2
MATH 492	Undergraduate Seminar	
C I 480C	Pre-Student Teaching Experience III: Mathematics ¹	
Total Credits		45-47

¹ C I 480C is available only for students seeking secondary school certification.

The courses listed above must include one of the sequences:

MATH 301	Abstract Algebra I	6
& MATH 302	and Abstract Algebra II	
MATH 373	Introduction to Scientific Computing	6
& MATH 481	and Numerical Methods for Differential Equations	
MATH 304	Combinatorics	6
& MATH 314	and Graphs Theory	
MATH 414	Analysis I	6
& MATH 415	and Analysis II	
MATH 435	Geometry I	6
& MATH 436	and Geometry II	

Communication Proficiency requirement:

ENGL 150	Critical Thinking and Communication ²	3
One of the following:		3
ENGL 250	Written, Oral, Visual, and Electronic Composition ²	
ENGL 250H	Written, Oral, Visual, and Electronic Composition: Honors ²	
One of the following:		3
MATH 491	Undergraduate Thesis ³	
ENGL 302	Business Communication	
ENGL 305	Creative Writing: Nonfiction	
ENGL 309	Report and Proposal Writing	
ENGL 314	Technical Communication	
JL MC 201	Reporting and Writing for the Mass Media	

- The department requires a grade of C- or better.
- With departmental approval.

Mathematics Plus

The Mathematics Plus option is for students who wish to establish a clear strength in a field of application of mathematics. They obtain the mathematics major by pursuing study of mathematics, through the upper division level, complementary to their application area. This program makes double majors more feasible and is appropriate for students who plan on employment or graduate study in the application field. It is not intended for students who plan on graduate study in mathematics. For more information, see the mathematics department web site or consult an adviser in mathematics.

Secondary Education

For certification requirements for teaching of mathematics in grades 5-12, see the Mathematics Department and School of Education web sites or consult an adviser.

Recommendations

The department strongly recommends that each student majoring in mathematics include in the program substantial supporting work beyond the minimum general education requirement of the college in one or more areas of application of mathematics, such as other mathematical sciences, engineering, natural science, or social science. In particular, it recommends that each student take:

COM S 207	Fundamentals of Computer Programming	3
COM S 208	Intermediate Computer Programming	3
PHYS 221	Introduction to Classical Physics I	5
PHYS 222	Introduction to Classical Physics II	5
STAT 341	Introduction to the Theory of Probability and Statistics I	3
STAT 342	Introduction to the Theory of Probability and Statistics II	3

It also recommends that students contemplating graduate study in mathematics acquire a reading knowledge of French, German, or Russian.

Credits Not Counted

Credits earned in the following cannot be counted toward graduation by mathematics majors:

MATH 104	Introduction to Probability	3
MATH 105	Introduction to Mathematical Ideas	3
MATH 140	College Algebra	3
MATH 142	Trigonometry and Analytic Geometry	3
MATH 150	Discrete Mathematics for Business and Social Sciences	3
MATH 151	Calculus for Business and Social Sciences	3
MATH 160	Survey of Calculus	4
MATH 181	Calculus and Mathematical Modeling for the Life Sciences I	4
MATH 182	Calculus and Mathematical Modeling for the Life Sciences II	4
MATH 195	Mathematics for Elementary Education I	3
MATH 196	Mathematics for Elementary Education II	3

Minor in Mathematics

The department offers a minor in mathematics, which may be earned by credit in the following:

MATH 201	Introduction to Proofs	3
MATH 265	Calculus III	4
MATH 301	Abstract Algebra I	3
One of the following		
MATH 266	Elementary Differential Equations	3
MATH 267	Elementary Differential Equations and Laplace Transforms	4
One of the following		
MATH 317	Theory of Linear Algebra	4
MATH 407	Applied Linear Algebra	3

Graduate Study

The department offers programs leading to a Master of Science or Doctor of Philosophy degree in mathematics or applied mathematics, as well as minor work

for students whose major is in another department. The department also offers a program leading to the degree of Master of School Mathematics (M.S.M.).

Students desiring to undertake graduate work leading to the M.S. or Ph.D. degree should prepare themselves by taking several upper division mathematics courses. It is desirable that these credits include introduction to analysis and abstract algebra.

The M.S. degree requires a student to take at least 30 credit hours and to write a creative component or thesis. Additionally, students must pass a comprehensive oral examination over their coursework and their creative component or thesis. See the online Mathematics Graduate Handbook for specific requirements.

The Ph.D. degree requires a student to take 48 credit hours of coursework in addition to research hours, pass written qualifying examinations, pass an oral preliminary exam, and perform an original research project culminating in a dissertation which is defended by an oral exam. Ph.D. candidates must have at least one year of supervised teaching experience. See the on-line Mathematics Graduate Handbook for specific requirements.

The M.S.M. degree is primarily for in-service secondary mathematics teachers. Students desiring to pursue the M.S.M degree should present some undergraduate work in mathematics beyond calculus. Candidates for the M.S.M. degree must write an approved creative component and pass a comprehensive oral examination over their course work and their creative component.

Courses primarily for undergraduates:

MATH 010. High School Algebra.

(4-0) Cr. arr. F.S.

For students who do not have adequate facility with topics from high school algebra or do not meet the algebra admission requirement. The course is divided into tracks of one- and two-semester lengths. For most students a diagnostic exam will determine which track must be taken. Students will receive a grade in MATH 25 or MATH 30 respectively depending on the level of material covered. Satisfactory completion of MATH 30 is recommended for students planning to take MATH 140, MATH 142, or MATH 151, while MATH 25 is sufficient for MATH 104, MATH 105, MATH 150, MATH 195, STAT 101 or STAT 105. Students must complete MATH 30 to remove a deficiency in the algebra admission requirement. Topics include signed numbers, polynomials, rational and radical expressions, exponential and logarithmic expressions, and equations. Offered on a satisfactory-fail basis only.

MATH 025. High School Algebra.

(4-0) Cr. arr. F.S.

Students should initially enroll in MATH 10. See description of MATH 10. Offered on a satisfactory-fail basis only.

MATH 030. High School Algebra.

(4-0) Cr. arr. F.S.

Students should initially enroll in MATH 10. See description of MATH 10. Offered on a satisfactory-fail basis only.

MATH 101. Orientation in Mathematics.

(1-0) Cr. 1. F.S.

For new majors. Academic policies and procedures. Campus resources and opportunities available to students. Careers and programs of study in mathematics. Mathematical reasoning, culture and resources. Description of main branches of mathematics. Offered on a satisfactory-fail basis only.

MATH 104. Introduction to Probability.

(3-0) Cr. 3. F.S.SS. *Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry*

Permutations, combinations, probability, binomial and multinomial theorems, expected value, and applications. Either MATH 104 or MATH 150 may be counted toward graduation, but not both.

MATH 105. Introduction to Mathematical Ideas.

(3-0) Cr. 3. F.S.SS. *Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry*

Topics from mathematics and mathematical applications with emphasis on their nontechnical content.

MATH 140. College Algebra.

(3-1) Cr. 3. F.S.SS. *Prereq: Satisfactory performance on placement exam, 2 years of high school algebra; 1 year of high school geometry*

Coordinate geometry, quadratic and polynomial equations, functions, graphing, rational functions, exponential and logarithmic functions, inverse functions, quadratic inequalities. Students in the College of Liberal Arts and Sciences may not count MATH 140, MATH 142, or MATH 195 toward the General Education Requirements.

MATH 142. Trigonometry and Analytic Geometry.

(2-1) Cr. 3. F.S.SS. *Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry, or enrollment in MATH 140*

May be taken concurrently with MATH 140. Trigonometric functions and their inverses, solving triangles, trigonometric identities and equations, graphing, polar coordinates, complex numbers, conic sections, parametric equations. Students in the College of Liberal Arts and Sciences may not count MATH 140, MATH 142, or MATH 195 toward General Education Requirements.

MATH 150. Discrete Mathematics for Business and Social Sciences.

(2-1) Cr. 3. F.S.SS. *Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry*

Linear equations and inequalities, matrix algebra, linear programming, discrete probability. Either MATH 104 or MATH 150 may be counted toward graduation, but not both.

MATH 151. Calculus for Business and Social Sciences.

(2-1) Cr. 3. F.S.SS. *Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry*

Differential calculus, applications to max-min problems, integral calculus and applications. Will not serve as prerequisite for MATH 265 or MATH 266. Only one of MATH 151, MATH 160, the sequence MATH 165-MATH 166, or the sequence MATH 181-MATH 182 may be counted towards graduation.

MATH 160. Survey of Calculus.

(4-0) Cr. 4. F.S. *Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of geometry*

Analytic geometry, derivatives and integrals of elementary functions, partial derivatives, and applications. Will not serve as a prerequisite for MATH 265 or MATH 266. Only one of MATH 151, MATH 160, the sequence MATH 165-MATH 166, or the sequence MATH 181-MATH 182 may be counted towards graduation.

MATH 165. Calculus I.

(4-0) Cr. 4. F.S.SS. *Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of geometry, 1 semester of trigonometry or enrollment in MATH 142*

Differential calculus, applications of the derivative, introduction to integral calculus. Only one of Math 151 or 160 or the sequence MATH 165-MATH 166, or the sequence MATH 181-MATH 182 may be counted towards graduation.

MATH 166. Calculus II.

(4-0) Cr. 4. F.S.SS. *Prereq: Minimum of C- in MATH 165 or high math placement scores*

Integral calculus, applications of the integral, infinite series. Only one of MATH 151, MATH 160, the sequence MATH 165-MATH 166, or the sequence MATH 181-MATH 182 may be counted towards graduation.

MATH 166H. Calculus II, Honors.

(4-0) Cr. 4. F. *Prereq: Permission of instructor and MATH 165 or high math placement scores*

Integral calculus, applications of the integral, infinite series. Additional material of a theoretical, conceptual, computational, or modeling nature. Some of the work may require more ingenuity than is required for MATH 166. Preference will be given to students in the University Honors Program. Only one of MATH 151 or MATH 160, the sequence MATH 165-MATH 166, or the sequence MATH 181-MATH 182 may be counted towards graduation.

MATH 181. Calculus and Mathematical Modeling for the Life Sciences I.

(4-0) Cr. 4. F.S. *Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry, 1 semester of trigonometry or enrollment in MATH 142*

Exponential and logarithm functions, difference equations, derivatives, and applications of the derivative. Examples taken from biology. Only one of MATH 151, MATH 160, the sequence MATH 165- MATH 166, or the sequence MATH 181-MATH 182 may be counted towards graduation.

MATH 182. Calculus and Mathematical Modeling for the Life Sciences II.

(4-0) Cr. 4. S. *Prereq: MATH 181*

Integration, first and second order differential equations, applications of the definite integral, introduction to multivariable calculus. Examples taken from biology. Only one of MATH 151, MATH 160, the sequence MATH 165-MATH 166, or the sequence MATH 181-MATH 182 may be counted towards graduation.

MATH 195. Mathematics for Elementary Education I.

(2-2) Cr. 3. F.S. *Prereq:* Satisfactory performance on placement exam, 2 years high school algebra, 1 year of high school geometry, enrollment in elementary education or early childhood education

Theoretical and hands-on models, mathematical analysis of: elementary students' thinking, standard and non-standard algorithms, and properties related to whole number operations; structure of the decimal system; linear measurement, and two- and three-dimensional geometric shapes and spatial sense; algebra as it relates to elementary curricula. Students in the College of Liberal Arts and Sciences may not count MATH 140, MATH 142, or MATH 195 toward General Education Requirements.

MATH 196. Mathematics for Elementary Education II.

(2-2) Cr. 3. F.S. *Prereq:* Minimum of C- in MATH 195 and enrollment in elementary education or early childhood education.

Integer, fraction and decimal operations through analysis of properties, theoretical and hands-on models, mathematical analysis of elementary students' thinking, standard and non-standard algorithms: two- and three-dimensional measurement; probability, statistics, algebra as it relates to elementary curricula/ teaching profession.

MATH 201. Introduction to Proofs.

(3-0) Cr. 3. F.S. *Prereq:* MATH 166 or MATH 166H

Logic and techniques of proof including induction. Communicating mathematics. Writing proofs about sets, functions, real numbers, limits, sequences, infinite series and continuous functions.

MATH 207. Matrices and Linear Algebra.

(3-0) Cr. 3. F.S.SS. *Prereq:* 2 semesters of calculus

Systems of linear equations, determinants, vector spaces, linear transformations, orthogonality, least-squares methods, eigenvalues and eigenvectors. Emphasis on methods and techniques. Only one of MATH 207 and MATH 317 may be counted toward graduation.

MATH 265. Calculus III.

(4-0) Cr. 4. F.S.SS. *Prereq:* Minimum of C- in MATH 166 or MATH 166H

Analytic geometry and vectors, differential calculus of functions of several variables, multiple integrals, vector calculus.

MATH 265H. Calculus III, Honors.

(4-0) Cr. 4. F.S. *Prereq:* Permission of the instructor; and MATH 166 or MATH 166H

Analytic geometry and vectors, differential calculus of functions of several variables, multiple integrals, vector calculus. Additional material of a theoretical, conceptual, computational, or modeling nature. Some of the work may require more ingenuity than is required in MATH 265. Preference will be given to students in the University Honors Program.

MATH 266. Elementary Differential Equations.

(3-0) Cr. 3. F.S.SS. *Prereq:* Minimum of C- in MATH 166 or MATH 166H

Solution methods for ordinary differential equations. First order equations, linear equations, constant coefficient equations. Eigenvalue methods for systems of first order linear equations. Introduction to stability and phase plane analysis.

MATH 267. Elementary Differential Equations and Laplace Transforms.

(4-0) Cr. 4. F.S.SS. *Prereq:* Minimum of C- in MATH 166 or MATH 166H

Same as MATH 266 but also including Laplace transforms and series solutions to ordinary differential equations.

MATH 268. Laplace Transforms.

(1-0) Cr. 1. F.S.SS. *Prereq:* MATH 266

Laplace transforms and series solutions to ordinary differential equations. Together, MATH 266 and MATH 268 are the same as MATH 267.

MATH 290. Independent Study.

Cr. 1-3. Repeatable. *Prereq:* Permission of the instructor.

Independent study.

MATH 290H. Independent Study, Honors.

Cr. 1-3. Repeatable. *Prereq:* Permission of the instructor.

Independent study.

MATH 297. Intermediate Topics for School Mathematics.

(2-2) Cr. 3. F. *Prereq:* Enrollment in elementary education and minimum of C- in MATH 196

Mathematical reasoning and topics in Euclidean and non-Euclidean geometry including transformations, congruence, and similarity. Exploration of probability with simulations. Use of technology to learn and teach mathematics.

MATH 298. Cooperative Education.

Cr. R. Repeatable, maximum of 2 times. F.S.SS. *Prereq:* Permission of the department cooperative education coordinator; sophomore classification

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

MATH 301. Abstract Algebra I.

(3-0) Cr. 3. F.S. *Prereq:* MATH 166 or MATH 166H, MATH 317 or MATH 407, and grade of C- or better in MATH 201

Theory of groups. Homomorphisms. Quotient groups. Introduction to rings. Emphasis on writing proofs.

MATH 302. Abstract Algebra II.

(3-0) Cr. 3. S. *Prereq:* MATH 301

Theory of rings and fields. Introduction to Galois theory. Emphasis on writing proofs.

MATH 304. Combinatorics.

(3-0) Cr. 3. F. *Prereq:* MATH 166 or MATH 166H; MATH 201 or experience with proofs

Enumeration strategies involving permutations, combinations, partitions, binomial coefficients, inclusion-exclusion principle, recurrence relations, generating functions. Additional topics selected from probability, algebraic combinatorics, and applications.

MATH 314. Graphs Theory.

(3-0) Cr. 3. S. *Prereq:* MATH 166 or MATH 166H; MATH 201 or experience with proofs

Structure and extremal properties of graphs. Topics are selected from: trees, networks, colorings, paths and cycles, connectivity, planarity, directed graphs, matchings, Ramsey theory, forbidden structures, enumeration, applications.

MATH 317. Theory of Linear Algebra.

(4-0) Cr. 4. F.S. *Prereq:* MATH 166; credit or enrollment in MATH 201

Systems of linear equations, determinants, vector spaces, inner product spaces, linear transformations, eigenvalues and eigenvectors. Emphasis on writing proofs and results. Only one of MATH 207 and MATH 317 may be counted toward graduation.

MATH 331. Topology.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* MATH 301

Set theory, metric spaces, topological spaces, continuity, connectedness, functions, homeomorphisms, compactness, and topological invariants. Examples from surfaces, knots, and various abstract objects. Emphasis on writing proofs.

MATH 341. Introduction to the Theory of Probability and Statistics I.

(Cross-listed with STAT). (3-0) Cr. 3. F.S. *Prereq:* MATH 265 (or MATH 265H)

Probability; distribution functions and their properties; classical discrete and continuous distribution functions; multivariate probability distributions and their properties; moment generating functions; simulation of random variables and use of the R statistical package. Credit for both Stat 341 and 447 may not be applied toward graduation.

MATH 342. Introduction to the Theory of Probability and Statistics II.

(Cross-listed with STAT). (3-0) Cr. 3. F.S. *Prereq:* STAT 341; MATH 207 or MATH 317

Transformations of random variables; sampling distributions; confidence intervals and hypothesis testing; theory of estimation and hypothesis tests; linear model theory; use of the R statistical package for simulation and data analysis.

MATH 350. Number Theory.

(Cross-listed with COM S). (3-0) Cr. 3. S. *Prereq:* MATH 166

Divisibility, integer representations, primes and divisors, linear diophantine equations, congruences, and multiplicative functions. Applications to cryptography.

MATH 365. Complex Variables with Applications.

(3-0) Cr. 3. S. *Prereq:* MATH 265

Functions of a complex variable, including differentiation, integration and series expansions, residues, evaluation of integrals, conformal mapping.

MATH 373. Introduction to Scientific Computing.

(3-0) Cr. 3. F. *Prereq:* MATH 265

Vector and matrix programming and graphing in MATLAB for scientific applications. Polynomial interpolation and approximation. Systems of linear equations and numerical linear algebra. Numerical differentiation and integration. Newton methods for solving nonlinear equations and optimization in one and several variables. Fast Fourier transform. Emphasis on effective use of mathematical software and understanding of its strengths and limitations.

MATH 385. Introduction to Partial Differential Equations.

(3-0) Cr. 3. F.S. *Prereq:* MATH 265 and one of MATH 266, MATH 267

Separation of variables methods for elliptic, parabolic, and hyperbolic partial differential equations. Topics from Fourier series, Sturm-Liouville theory, Bessel functions, spherical harmonics, and method of characteristics.

MATH 397. Teaching Secondary Mathematics Using University Mathematics.

(2-2) Cr. 3. S. Prereq: MATH 201, MATH 301

Coursework in university mathematics including calculus, abstract algebra, discrete mathematics, geometry, and other topics as it relates to teaching mathematics in grades 5-12.

MATH 398. Cooperative Education.Cr. R. Repeatable, maximum of 2 times. F.S.SS. Prereq: Permission of the department cooperative education coordinator; junior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.**MATH 407. Applied Linear Algebra.**

(Dual-listed with MATH 507). (3-0) Cr. 3. F. Prereq: MATH 207 or MATH 317

Advanced topics in applied linear algebra including eigenvalues, eigenvalue localization, singular value decomposition, symmetric and Hermitian matrices, nonnegative and stochastic matrices, matrix norms, canonical forms, matrix functions. Applications to mathematical and physical sciences and engineering.

MATH 414. Analysis I.

(3-0) Cr. 3. F.S.SS. Prereq: Minimum of C- in MATH 201

Introduction to properties and basic topology of the real numbers. A careful development of calculus of functions of a real variable: limits, continuity, differentiation, integration, series.

MATH 415. Analysis II.

(3-0) Cr. 3. S. Prereq: MATH 414; MATH 265; and MATH 317 or MATH 407

Sequences and series of functions of a real variable, uniform convergence, power series and Taylor series, Fourier series, topology of n-dimensional space, implicit function theorem, calculus of the plane and 3-dimensional space. Additional topics may include metric spaces or Stieltjes or Lebesgue integration.

MATH 421. Logic for Mathematics and Computer Science.

(Cross-listed with COM S). (3-0) Cr. 3. S. Prereq: MATH 301 or MATH 307 or MATH 317 or COM S 330

Propositional and predicate logic. Topics selected from Horn logic, equational logic, resolution and unification, foundations of logic programming, reasoning about programs, program specification and verification, model checking and binary decision diagrams, temporal logic and modal logic.

MATH 435. Geometry I.

(3-0) Cr. 3. F. Prereq: MATH 207 or MATH 317

Euclidean geometry. Points, lines, circles, triangles, congruence, similarity, properties invariant under rigid motions. Synthetic, analytic, and axiomatic methods.

MATH 436. Geometry II.

(3-0) Cr. 3. S. Prereq: MATH 435

Continuation of Euclidean geometry with topics from elliptic, projective, or hyperbolic geometry. Emphasis on analytic methods.

MATH 439. Mathematics of Fractals and Chaos.

(3-0) Cr. 3. Alt. F., offered odd-numbered years. Prereq: MATH 265

Iteration of maps; classification of periodic points; Julia sets and the Mandelbrot set; fractals and fractal dimension; chaos.

MATH 481. Numerical Methods for Differential Equations.

(Cross-listed with COM S). (3-0) Cr. 3. S. Prereq: MATH 265 and either MATH 266 or MATH 267; knowledge of a programming language

First order Euler method, high order Runge-Kutta method, and multistep method for solving ordinary differential equations. Finite difference and finite element methods for solving partial differential equations. Local truncation error, stability, and convergence for finite difference method. Numerical solution space, polynomial approximation, and error estimate for finite element method.

MATH 490. Independent Study.Cr. 1-3. Repeatable, maximum of 9 credits. Prereq: Permission of instructor.
No more than 9 credits of Math 490 or Math 490H may be counted toward graduation.**MATH 490H. Independent Study: Honors.**Cr. 1-3. Repeatable, maximum of 9 credits. Prereq: Permission of the instructor.
No more than 9 credits of Math 490 or 490H may be counted toward graduation.**MATH 491. Undergraduate Thesis.**

Cr. 2-3.

Writing a formal mathematics paper. Upon approval by the department, the paper will satisfy the departmental advanced English requirement.

MATH 492. Undergraduate Seminar.

(2-0) Cr. 2. S. Prereq: Permission of instructor

Introduction to mathematics research, a participating seminar on advanced topics in mathematics. Mathematical literature search, reading a mathematical article with the guidance of the instructor, mathematical presentation. Seminar content varies.

MATH 497. Teaching Secondary School Mathematics.

(Cross-listed with C I). (3-0) Cr. 3. F. Prereq: 15 credits in college mathematics and admission to a teacher licensure program, concurrent enrollment in C I 426 or C I 526; C I 480C

Theory and methods for teaching mathematics in grades 5-12. Includes critical examination of instructional strategies, curriculum materials, learning tools, assessment methods, Common Core State Standards-Mathematics, and equity issues.

MATH 498. Cooperative Education.Cr. R. Repeatable, maximum of 2 credits. F.S.SS. Prereq: Permission of the department cooperative education coordinator; senior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.**Courses primarily for graduate students, open to qualified undergraduates:****MATH 501. Introduction to Real Analysis.**

(3-0) Cr. 3. F. Prereq: MATH 265 and (MATH 307 or MATH 317)

A development of the real numbers. Study of metric spaces, completeness, compactness, sequences, and continuity of functions. Differentiation and integration of real-valued functions, sequences of functions, limits and convergence, equicontinuity.

MATH 502. Topology.

(3-0) Cr. 3. S. Prereq: MATH 414 or MATH 501

Introduction to general topology. Topological spaces, continuous functions, connectedness, compactness. Topics selected from countability and separation axioms, metrization, and complete metric spaces. Topics in algebraic topology.

MATH 504. Abstract Algebra I.

(3-0) Cr. 3. F. Prereq: MATH 302

Algebraic systems and their morphisms, with emphasis on groups and rings.

MATH 505. Abstract Algebra II.

(3-0) Cr. 3. S. Prereq: MATH 504

Continuation of Math 504. Algebraic systems and their morphisms, with emphasis on modules and fields.

MATH 507. Applied Linear Algebra.

(Dual-listed with MATH 407). (3-0) Cr. 3. F. Prereq: MATH 207 or MATH 317

Advanced topics in applied linear algebra including eigenvalues, eigenvalue localization, singular value decomposition, symmetric and Hermitian matrices, nonnegative and stochastic matrices, matrix norms, canonical forms, matrix functions. Applications to mathematical and physical sciences and engineering.

MATH 510. Linear Algebra.

(3-0) Cr. 3. F. Prereq: MATH 307 or MATH 317

Advanced topics in linear algebra including canonical forms; unitary, normal, Hermitian and positive-definite matrices; variational characterizations of eigenvalues.

MATH 511. Functions of a Single Complex Variable.

(3-0) Cr. 3. S. Prereq: MATH 414 or MATH 501

Theory of analytic functions, integration, topology of the extended complex plane, singularities and residue theory, maximum principle.

MATH 515. Real Analysis I.

(3-0) Cr. 3. F. Prereq: MATH 414 or MATH 501

Lebesgue measure and Lebesgue integral, one variable differentiation theory, product integration, Lp spaces.

MATH 516. Real Analysis II.

(3-0) Cr. 3. S. Prereq: MATH 515

Metric spaces, topological spaces, compactness, abstract theory of measure and integral, differentiation of measures, Banach spaces.

MATH 517. Finite Difference Methods.

(3-0) Cr. 3. S. Prereq: MATH 481 or MATH 561

Finite difference methods for partial differential equations, with emphasis on parabolic and hyperbolic equations, and other partial differential equations from application areas. Topics include convergence, stability and implementation issues.

MATH 519. Methods of Applied Mathematics I.(3-0) Cr. 3. F. *Prereq: MATH 414 or MATH 501*

Techniques of classical and functional analysis with applications to differential equations and integral equations. Vector spaces, metric spaces, Hilbert and Banach spaces, Sobolev spaces and other function spaces, contraction mapping theorem, distributions, Fourier series and Fourier transform, linear operators, spectral theory of differential and integral operators, Green's functions and boundary value problems, weak solutions of partial differential equations and variational methods, calculus in Banach spaces and applications.

MATH 520. Methods of Applied Mathematics II.(3-0) Cr. 3. S. *Prereq: MATH 519*

Continuation of Math 519.

MATH 525. Numerical Analysis of High Performance Computing.(Cross-listed with COM S, CPR E). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: CPR E 308 or MATH 481; experience in scientific programming; knowledge of FORTRAN or C*

Introduction to parallelization techniques and numerical methods for state-of-the-art high performance computers. A major component will be a final project in an area related to each student's research interests.

MATH 533. Cryptography.(Cross-listed with CPR E, INFAS). (3-0) Cr. 3. S. *Prereq: MATH 301 or CPR E 310 or COM S 330*

Basic concepts of secure communication, DES and AES, public-key cryptosystems, elliptic curves, hash algorithms, digital signatures, applications. Relevant material on number theory and finite fields.

MATH 535. Steganography and Digital Image Forensics.(Cross-listed with CPR E, INFAS). (3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: E E 524 or MATH 307 or COM S 330*

Basic principles of covert communication, steganalysis, and forensic analysis for digital images. Steganographic security and capacity, matrix embedding, blind attacks, image forensic detection and device identification techniques. Related material on coding theory, statistics, image processing, pattern recognition.

MATH 540. Seminar in Mathematics Education.(1-0) Cr. 1. SS. *Prereq: Enrollment in the Master of School Mathematics program or professional studies in education*

Research studies in mathematics learning and teaching, exemplary practices in mathematics education, and current state and national trends in the mathematics curriculum in grades K-12. Students in MSM take each of 540A, 540B, and 540C. Topics are offered on a 3-year cycle. .A. Assessment, equity, and teaching of statistics. Offered SS 2017. .B. Geometry and discrete mathematics, and problem solving. Offered SS 2015. .C. Teaching of analysis, algebra, and the use of technology. Offered SS 2016.

MATH 540A. Seminar in Mathematics Education: Assessment, equity, and teaching of statistics..(1-0) Cr. 1. *Prereq: Enrollment in the Master of School Mathematics program or professional studies in education*

Research studies in mathematics learning and teaching, exemplary practices in mathematics education, and current state and national trends in the mathematics curriculum in grades K-12. Topics are offered on a 3-year cycle. Offered SS 2017.

MATH 540B. Seminar in Mathematics Education: Geometry and discrete mathematics, and problem solving..(1-0) Cr. 1. *Prereq: Enrollment in the Master of School Mathematics program or professional studies in education*

Research studies in mathematics learning and teaching, exemplary practices in mathematics education, and current state and national trends in the mathematics curriculum in grades K-12. Offered on a 3-year cycle. Offered SS 2015.

MATH 540C. Seminar in Mathematics Education: Teaching of analysis, algebra, and the use of technology..(1-0) Cr. 1. *Prereq: Enrollment in the Master of School Mathematics program or professional studies in education*

Research studies in mathematics learning and teaching, exemplary practices in mathematics education, and current state and national trends in the mathematics curriculum in grades K-12. Topics are offered on a 3-year cycle. Offered SS 2016.

MATH 545. Intermediate Calculus.(4-0) Cr. 4. *Prereq: 3 semesters of calculus and enrollment in the master of school mathematics program*

Offered on a 3-year cycle, offered SS. 2016. The fundamental concepts of calculus which are critical to the effective understanding of the material in first year calculus. Emphasis is on a constructivist approach to learning, cooperative groups, problem solving, and use of technology.

MATH 546. Algorithms in Analysis and Their Computer Implementation.(2-2) Cr. 3. *Prereq: 3 semesters in calculus or concurrent enrollment in 545 and enrollment in the master of school mathematics program*

Offered on a 3- year cycle, offered SS. 2016. The use of technology in secondary mathematics with an emphasis on the exploration and implementation of algorithms.

MATH 547. Discrete Mathematics and Applications.(4-0) Cr. 4. *Prereq: Enrollment in the master of school mathematics program*

Offered on a 3-year cycle, offered SS. 2015. Applications of graph theory, game theory, voting theory, recursion, combinatorics, and algebraic structures. Issues in integrating discrete topics into the secondary curriculum. Use of the computer to explore discrete mathematics.

MATH 549. Intermediate Geometry.(3-0) Cr. 3. *Prereq: MATH 435 or equivalent and enrollment in the master of school mathematics program*

Offered on a 3-year cycle, offered SS. 2015. A study of geometry which includes metrics, the group of isometries, and the group of similarities. Specific spaces studied normally include the Euclidean plane, the 2-sphere, projective 2-space, and hyperbolic geometry. Emphasis on analytical methods. Incorporation of geometry software.

MATH 554. Introduction to Stochastic Processes.(Cross-listed with STAT). (3-0) Cr. 3. F. *Prereq: STAT 542*

Markov chains on discrete spaces in discrete and continuous time (random walks, Poisson processes, birth and death processes) and their long-term behavior. Optional topics may include branching processes, renewal theory, introduction to Brownian motion.

MATH 557. Ordinary Differential Equations and Dynamical Systems.(3-0) Cr. 3. F. *Prereq: MATH 415 or MATH 501*

The initial-value problem, existence and uniqueness theorems, continuous dependence on parameters, linear systems, stability and asymptotic behavior of solutions, linearization, dynamical systems, bifurcations, and chaotic behavior.

MATH 561. Numerical Analysis I.(3-0) Cr. 3. F. *Prereq: MATH 414 or MATH 501*

Approximation theory, including polynomial spline interpolation and best approximation; numerical differentiation and integration; numerical methods for ordinary differential equations.

MATH 562. Numerical Analysis II.(3-0) Cr. 3. S. *Prereq: MATH 317*

Numerical linear algebra including eigenvalue problems; numerical solution of nonlinear equations.

MATH 565. Continuous Optimization.(3-0) Cr. 3. S. *Prereq: MATH 265 and one of MATH 317, 507, 510*

Theory and methods for constrained and unconstrained optimization. Steepest-descent, conjugate gradient, Newton and quasi-Newton, line search and trust-region, first and second order necessary and sufficient conditions, quadratic and general nonlinear programming.

MATH 566. Discrete Optimization.(3-0) Cr. 3. F. *Prereq: MATH 317 or MATH 507 or MATH 510*

Algorithms for linear programming, integer and combinatorial optimization. Linear programming, duality theory, simplex algorithm; the solution of the shortest-path, minimal spanning tree, max-flow/min-cut, minimal cost flow, maximum matching, and traveling salesman problems; integer linear programming, branch-and-bound, local and global search algorithms.

MATH 574. Optimal Control.(3-0) Cr. 3. S. *Prereq: E E 577*

The optimal control problem. Variational approach. Pontryagin's principle, Hamilton-Jacobi equation. Dynamic programming. Time-optimal, minimum fuel, minimum energy control systems. The regulator problem. Structures and properties of optimal controls.

MATH 575. Introduction to Robust Control.(3-0) Cr. 3. *Prereq: E E 577*

Introduction to modern robust control. Model and signal uncertainty in control systems. Uncertainty description. Stability and performance robustness to uncertainty. Solutions to the H2, Hoo, and l1 control problems. Tools for robustness analysis and synthesis.

MATH 576. Digital Feedback Control Systems.

(3-0) Cr. 3. F. *Prereq:* E E 475 or AER E 432 or M E 411 or 414 or MATH 415; and MATH 267

Sampled data, discrete data, and the z-transform. Design of digital control systems using transform methods: root locus, frequency response and direct design methods. Design using state-space methods. Controllability, observability, pole placement, state estimators. Digital filters in control systems. Microcomputer implementation of digital filters. Finite wordlength effects. Linear quadratic optimal control in digital control systems. Simulation of digital control systems.

MATH 577. Linear Systems.

(Cross-listed with AER E, E E, M E). (3-0) Cr. 3. F. *Prereq:* E E 324 or AER E 331 or MATH 415; and MATH 307

Linear algebra review. Least square method and singular value decomposition. State space modeling of linear continuous-time systems. Solution of linear systems. Controllability and observability. Canonical description of linear equations. Stability of linear systems. State feedback and pole placements. Observer design for linear systems.

MATH 578. Nonlinear Systems.

(Cross-listed with AER E, E E, M E). (3-0) Cr. 3. S. *Prereq:* E E 577

Linear vs nonlinear systems. Phase plane analysis. Bifurcation and center manifold theory. Lyapunov stability. Absolute stability of feedback systems. Input-output stability. Passivity theory and feedback linearization. Nonlinear control design techniques.

MATH 590. Independent Study.

Cr. arr. Repeatable.

MATH 591. Orientation for Mathematics Graduate Students I.

(0.5-0) Cr. 0.5. F.

Fall semester orientation seminar. Required for graduate students in Mathematics and Applied Mathematics. Topics include teaching at the university level and communication of mathematics. Offered on a satisfactory-fail basis only.

MATH 592. Orientation for Mathematics Graduate Students II.

(0.5-0) Cr. 0.5. S.

Spring semester orientation seminar. Required for graduate students in Mathematics and Applied Mathematics. Topics include teaching at the university level and communication of mathematics. Offered on a satisfactory-fail basis only.

MATH 595. Special Topics.

Cr. arr. Repeatable.

MATH 599. Creative Component.

Cr. arr.

Courses for graduate students:**MATH 601. Mathematical Logic.**

(3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq:* MATH 504

Model theory of propositional and predicate logic, the Soundness Theorem, the Compactness Theorem, the Goedel-Henkin Completeness Theorem, the Incompleteness Theorem, computability theory. As time permits: modal and temporal logic, set theory (the continuum hypothesis). Emphasis on the relationship between 'provable' and 'true' and the relationship between 'computable' and 'definable'.

MATH 605. Design Theory and Association Schemes.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* MATH 504

Combinatorial designs and Latin squares. Construction methods including finite fields. Error-correcting codes. Adjacency matrices and algebraic combinatorics.

MATH 606. Enumerative Combinatorics and Ordered Sets.

(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* MATH 504

Ordered sets and lattices. Generating functions. Moebius inversion and other enumeration methods.

MATH 607. Modern (Structural) Graph Theory.

(3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq:* MATH 504

Structural and extremal theory of graphs. Topics include basic structures (trees, paths and cycles), networks, colorings, connectivity, topological graph theory, Ramsey theory, forbidden graphs and minors, introduction to random graphs, applications.

MATH 608. Extremal Graph Theory.

(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* Math 607

Study of extremal graph problems and methods. Topics include Szemerédi's regularity lemma, generalizations of the theorems of Turan and Ramsey, and the theory of random graphs.

MATH 610. Seminar.

Cr. arr.

MATH 615. General Theory of Algebraic Structures I.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* MATH 504

First semester of full-year course. Subalgebras, homomorphisms, congruence relations, and direct products. Lattices and closure operators. Varieties and quasivarieties of algebras, free algebras, Birkhoff's theorems, clones, Mal'cev conditions. Advanced topics.

MATH 616. General Theory of Algebraic Structures II.

(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* MATH 615

Continuation of MATH 615.

MATH 617. Category Theory.

(3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq:* MATH 504

Categories and functors and their applications.

MATH 618. Representation Theory.

(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* MATH 504

Representations of algebraic structures. Content varies by semester.

MATH 624. Manifolds, Tensors and Differential Geometry.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq:* MATH 501 or MATH 515

Topics selected from: Geometry of curves and surfaces. Manifolds, coordinate systems. Tensors, differential forms, Riemannian metrics. Connections, covariant differentiation, curvature tensors.

MATH 633. Functional Analysis.

(3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq:* MATH 515

Fundamental theory of normed linear spaces and algebras, such as topology and continuity, duality and spectral theory, emphasizing aspects that provide a framework for the study of boundary-value problems, eigenvalue problems, harmonic analysis, analytic function theory, and modern operator theory.

MATH 641. Foundations of Probability Theory.

(Cross-listed with STAT). (3-0) Cr. 3. F. *Prereq:* MATH 414 or MATH 501 or equivalent course.

Sequences and set theory; Lebesgue measure, measurable functions. Absolute continuity of functions, integrability and the fundamental theorem of Lebesgue integration. General measure spaces, probability measure, extension theorem and construction of Lebesgue-Stieljes measures on Euclidean spaces. Measurable transformations and random variables, induced measures and probability distributions. General integration and expectation, Lp-spaces and integral inequalities. Uniform integrability and absolute continuity of measures. Probability densities and the Radon-Nikodym theorem. Product spaces and Fubini-Tonelli theorems.

MATH 642. Advanced Probability Theory.

(Cross-listed with STAT). (3-0) Cr. 3. S. *Prereq:* STAT 641, or STAT 543 and MATH 515.

Probability spaces and random variables. Kolmogorov's consistency theorem. Independence, Borel-Cantelli lemmas and Kolmogorov's 0 - 1 Law. Comparing types of convergence for random variables. Sums of independent random variables, empirical distributions, weak and strong laws of large numbers. Convergence in distribution and its characterizations, tightness, characteristic functions, central limit theorems and Lindeberg-Feller conditions. Conditional probability and expectation. Discrete parameter martingales and their properties and applications.

MATH 645. Advanced Stochastic Processes.

(Cross-listed with STAT). (3-0) Cr. 3. S.

Weak convergence. Random walks and Brownian motion. Martingales. Stochastic integration and Ito's Formula. Stochastic differential equations and applications.

MATH 646. Mathematical Modeling of Complex Physical Systems.

(Cross-listed with PHYS). (3-0) Cr. 3. S.

Modeling of the dynamics of complex systems on multiple scales: Classical and dissipative molecular dynamics, stochastic modeling and Monte-Carlo simulation; coarse grained nonlinear dynamics, interface propagation and spatial pattern formation.

MATH 655. Partial Differential Equations I.

(3-0) Cr. 3. F. *Prereq:* MATH 515 or MATH 519

Study of model problems of elliptic, parabolic and hyperbolic types, first order equations, conservation laws, transform methods, introduction to linear partial differential equations of arbitrary order, fundamental solutions.

MATH 656. Partial Differential Equations II.

(3-0) Cr. 3. S. *Prereq:* MATH 655

Sobolev spaces, general theory of second order linear elliptic, parabolic and hyperbolic partial differential equations, first order linear hyperbolic systems, variational methods, fixed point methods.

MATH 666. Finite Element Methods.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq: MATH 516 or MATH 520 or MATH 561 or MATH 656*

Elements of functional analysis; Sobolev spaces; variational principles and weak formulations; approximation theory in finite element spaces; analysis of finite element methods; implementation issues; applications.

MATH 680. Advanced Topics.

Cr. 3. Repeatable.

MATH 680A. Advanced Topics: Algebra.

Cr. 3. Repeatable.

MATH 680B. Advanced Topics: Analysis.

Cr. 3. Repeatable.

MATH 680C. Advanced Topics: Applied Mathematics.

Cr. 3. Repeatable.

MATH 680D. Advanced Topics: Combinatorics.

Cr. 3. Repeatable.

MATH 680E. Advanced Topics: Differential Equations.

Cr. 3. Repeatable.

MATH 680F. Advanced Topics: Linear Algebra.

Cr. 3. Repeatable.

MATH 680G. Advanced Topics: Logic and Foundations.

Cr. 3. Repeatable.

MATH 680H. Advanced Topics: Number Theory.

Cr. 3. Repeatable.

MATH 680I. Advanced Topics: Numerical Analysis.

Cr. 3. Repeatable.

MATH 680J. Advanced Topics: Optimization.

Cr. 3. Repeatable.

MATH 680K. Advanced Topics: Probability.

Cr. 3. Repeatable.

MATH 680L. Advanced Topics: Topology.

Cr. 3. Repeatable.

MATH 699. Research.

Cr. arr. Repeatable.

Military Science

The Military Science Department does not offer an academic degree and is embedded within the College of Liberal Arts and Sciences as an interdisciplinary program. The mission of the department is derived directly from regulations governing Army Reserve Officers' Training Corps (AROTC), which are issued by the Army Cadet Command and Army Training and Doctrine Command and cannot be modifiable by this department.

Freshmen Year Learning Outcomes

The student will have a working knowledge of the following areas: The Role of the Army, Roles and Origins of the Army, Army Customs and Traditions, Branches (Jobs) in the Army and Military Operations and Tactics.

Sophomore Year Learning Outcomes

The student will have a working knowledge of the following areas: The Role of an Officer, Role of the Officer and Noncommissioned Officer, communications, code of conduct, first aid, principles of war and military operations and tactics.

Junior Year Learning Outcomes

The student will have a working knowledge of the following areas: Small Unit Training, Command and Staff Functions, Nuclear, Biological and Chemical Warfare, Law of War, Weapons, Human Behavior, Math Reasoning, Computer Science and Military Operations and Tactics.

Senior Year Learning Outcomes

The student will have a working knowledge of the following areas: Transition to Becoming an Officer, Military Justice, Intelligence and Electronic Warfare, Army Personnel Management, Army Logistics, Post and Installation Support and Military Operations and Tactics.

The mission of the Army Reserve Officers' Training Corps (AROTC) is to commission the future leaders of the United States Army. Since ROTC produces over 65 percent of the Army's Officer Corps, our task is one of the most important undertakings in the Army and our country today. We seek top quality college

students. We train these potential leaders, assess their abilities, and challenge them with the highest standards of profession/professionalism. Those who successfully complete the program, receive a commission as a second lieutenant in the U.S. Army. A commission as an Army officer affords the opportunity to pursue a profession in one or several of the 300 different jobs held by Army officers. Students may request to serve as an officer in either the active army, or part time in the Army Reserve or National Guard. Regardless of the method of service, officers in today's Army can be proud to know that they are doing their share in the defense of the United States of America.

The ISU Military Science program is divided into two segments, the basic program and the advanced program. The basic program (courses numbered 101-290) is designed primarily for freshmen and sophomores. No military obligation is incurred by a person participating in the basic program. The basic program is designed to be informative and to acquaint students with the military as a profession. The basic program or an allowed substitute is a prerequisite for the advanced program. Financial assistance is available on a competitive basis.

Persons interested in Military Science should visit the department located on the second floor of the Armory (east side).

Basic Program

These courses are primarily for freshmen and sophomore students and, except for persons with prior military service and basic training graduates, are required for entry into the advanced program. Each scholarship cadet in the Basic Program receives a monthly allowance (freshmen \$300; sophomore \$350) for up to 10 months. The curriculum is designed to train freshmen and sophomores in individual and team skills. It also helps the Professor of Military Science identify individual leader developmental needs.

Advanced Program

These courses are for students who have completed the basic program (or received equivalent credit) and are mandatory for potential commissioning upon contracting at the beginning of their junior year. Each cadet receives a monthly allowance (junior \$450; senior \$500) for up to 10 months. These courses are primarily taught to academic juniors and seniors.

Successful completion normally obligates the student to military service on active or reserve duty. In addition to the advanced program of study, a student (cadet) will be expected to pass the Army Physical Fitness Test (precondition for commissioning) each semester and continually maintain military appearance standards in both personal grooming and uniform. Physical fitness training is regularly conducted outside of class and laboratory hours in a separate course, M S 150 Army Physical Readiness. Students are encouraged to attend and participate in this class.

Professional Military Science Education (PME) coursework outside of the military science curriculum is also a precondition to commissioning. The PME component consists of Basic Academic proficiency standards. These standards are explained to prospective students as they consider enrollment in the advanced program. Army Uniforms will be worn at least once a week. The 300-level courses are designed to prepare cadets for the Leader Development and Assessment Course, which is a 32 day summer internship/training program where cadets are trained to Army standards, develop leadership skills, and have their officer potential evaluated. The 400-level courses are the final preparation for commissioning as a second lieutenant in the United States Army. Students must meet academic alignment criteria and receive basic program credit before entering the advanced program.

The College of Liberal Arts and Science offers a minor in Military Studies. Requirements for the minor include taking a minimum of 15 credits of ROTC instruction, which may be taken from one or a number of the ROTC programs. At least 6 credits must be in courses numbered 300 or above.

Courses primarily for undergraduates:

M S 101. Introduction to Military Science.

(1-0) Cr. 1. F. *Prereq: Concurrent enrollment in M S 101L required*

Examines the role of a Cadet in the Army Reserve Officer Training Corps and a Lieutenant in the United States Army. The course explores a military culture whose ultimate success is determined by the character and proficiency of its' leaders. Instruction introduces students to the cultural heritage and history of the U.S. Army. Students will begin to understand the structure of the U.S. Army and how it functions as an organization and institution. The curriculum promotes the development of students' communication skills to enhance their ability to transmit ideas. The class examines how the Army's cultural values drive the development of leadership in the Officer Corps. Hands-on activities enable students to gain insight on the skills and abilities required of cadets and officers interacting with civilians and soldiers.

M S 101L. Basic Leadership Laboratory I.

(0-2) Cr. 1. F. *Prereq: Concurrent enrollment in M S 101 required*
 Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. This concept provides a constant learning environment as they learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Marching, rifle firing, and tactical patrolling; students gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students' physical and medical eligibility.

M S 102. Structure and Function of the U.S. Army.

(1-0) Cr. 1. S. *Prereq: Concurrent enrollment in M S 102L required*
 Instructs students on the fundamental skills and proficiencies required of Cadets in the Army Reserve Officer Training Corps and Officers in the United States Army. Allows students to explore the Army culture whose ultimate success is determined by the character and proficiency of its' leaders. Students will gain an insight to the effects of human behavior and communication on the function of the Army's basic unit structures. Special focus is given to the emphasis the Army puts on the development and character of the leader and how that affects the culture and operation of the Army as an institution. Students will develop an understanding of the role that morals and ethics play in becoming an Army Officer and leading American Soldiers. Introduction to basic officer/soldier skills will elucidate the complex role of the Officer in the modern Army.

M S 102L. Basic Leadership Laboratory II.

(0-2) Cr. 1. S. *Prereq: Concurrent enrollment in M S 102 required*
 Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. Provides a constant learning environment as they learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Students also learn various military tasks such as marching, rifle firing, and tactical patrolling; gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students' physical and medical eligibility.

M S 150. Army Physical Readiness.

(0-3) Cr. 1. Repeatable. F.S.
 This lab is designed to use basic military skills and instruction to develop confidence, leadership, and physical fitness. The team approach is utilized in the instruction and application of Army physical fitness requirements. Students will learn various Army physical fitness techniques as well as how to conduct physical fitness sessions. Teaching locations include Lied Recreation Center, Beyer Hall, State Gym as well as around campus. Full participation in all events will be determined based on students physical and medical eligibility.

M S 201. Principles of Leadership and Communication Skills.

(2-0) Cr. 2. F. *Prereq: Concurrent enrollment in M S 201L required*
 Explores the development of leadership and communication skills by understanding and studying the principles, traits, and dynamics of leadership and effective communication techniques. These include; leadership dimensions, human behavior, time management skills, stress management, values and ethics, decision making process, problem solving skills, team building exercises, communication techniques, briefing skills, delegating, nutrition, fitness, and counseling. Leadership assessment programs, role playing, active class participation, speeches, country briefs, and video clips are used to enhance and reinforce the instruction.

M S 201L. Basic Leadership Laboratory III.

(0-2) Cr. 1. F. *Prereq: Concurrent enrollment in M S 201 required*
 Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. Learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Students also learn various military tasks such as marching, rifle firing, and tactical patrolling; gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students' physical and medical eligibility.

M S 202. Map Reading and Land Navigation.

(2-0) Cr. 2. S. *Prereq: Concurrent enrollment in M S 202L required*
 Class focuses on the characteristics and features of the earth's land mass and how to apply different methods of conducting navigation on land. These methods include; by use of topographical maps, compasses, aerial photographs, military maps, symbols, and all their practical application. These navigation techniques are used in class in conjunction with patrolling techniques and squad movement exercises. Students will utilize verbal and non-verbal communication, communication techniques, and briefing techniques during this class. Students are also assigned to read one professional book from the Army Reading List and complete a written review of the book in the Army writing style.

M S 202L. Basic Leadership Laboratory IV.

(0-2) Cr. 1. S. *Prereq: Concurrent enrollment in M S 202 required*
 Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. Learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Students also learn various military tasks such as marching, rifle firing, and tactical patrolling; gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students' physical and medical eligibility.

M S 250. Advanced Army Physical Readiness I.

(0-5) Cr. 2. F. *Prereq: Successfully complete M S 150 and permission of Department Chair*
 Students learn to plan and conduct physical fitness sessions, following Army physical fitness readiness requirements. Development of physical fitness plan and leadership of training sessions. Participation determined by students' physical and medical eligibility.

M S 251. Advanced Army Physical Readiness II.

(0-5) Cr. 2. S. *Prereq: Successfully complete M S 150 and M S 250*
 Students learn to plan and conduct physical fitness sessions, following Army physical fitness readiness requirements. Development of physical fitness plan, and leadership of training sessions. Participation determined by students' physical and medical eligibility.

M S 283. The U.S. Army in American Society to 1917.

(3-0) Cr. 3. F.
 Survey of U.S. Army history focused on the Army's social and cultural interactions from colonial wars up to the First World War. Examines the roles of race and culture in Army structure and operations.

M S 290. Independent Study: Basic Military Study.

Cr. 1-3. Repeatable, maximum of 12 credits. F.S.SS. *Prereq: Permission of the Chair of Military Science Department*
 Investigation of an approved topic. Must result in a professional journal-worthy paper on ethics, current military issues, interpersonal communications, or leadership development.

M S 301. Methods of Instructing Military Skills.

(3-0) Cr. 3. F. *Prereq: Completion of the basic Military Science program, concurrent enrollment in M S 301L, and permission of the Chair of the Military Science Department*
 Develops student's proficiency in analyzing, planning, and executing complex operations within a military organizational structure. Students are given situational opportunities and then measured on their leadership abilities through systematic feedback. Student's evaluations are based on sixteen leadership dimensions within the realms of values, attributes, skills, and actions. Students develop an understanding of human cultural heritage and history, as it pertains to the armed forces.

M S 301L. Advanced Leadership Laboratory I.

(0-4) Cr. 1. F. *Prereq: Completion of the basic program, concurrent enrollment in M S 301 and permission of the Chair of the Military Science Department*
 The lab compliments M S 301 by providing opportunities to practice the lessons from class. On-the-job training and evaluation provided by the ROTC cadre. Developing training programs, structuring laboratories, presenting classes, planning various events, and accepting responsibility for the leadership labs. Participating in the Water Survival test, Army Physical Fitness test and the Land Navigation test are required.

M S 302. Applied Leadership.

(3-0) Cr. 3. S. *Prereq:* Completion of the basic Military Science program, concurrent enrollment in M S 302L and permission of the Chair of the Military Science Department

Prepares students to attend the Leadership Develop and Assessment Course at Fort Lewis, Washington in which they will be assigned specific and situational tasks to accomplish by providing purpose, motivation, and direction to fellow students across the nation. Students will learn how to identify sixteen leadership dimensions in the under classmen and provide specific feedback on their leadership behaviors. Students will develop their oral communication skills about the plans developed by the class, through small group presentation settings. Students will develop methods of studying human behavior.

M S 302L. Advanced Leadership Laboratory II.

(0-4) Cr. 1. S. *Prereq:* Completion of the basic program, concurrent enrollment in M S 302 and permission of the Chair of the Military Science Department

The lab compliments M S 302 by providing opportunities to practice the lessons from class. On-the-job training and evaluation provided by the ROTC cadre. Developing training programs, structuring laboratories, presenting classes, planning various events, and accepting responsibility for the leadership labs. Participating in the Water Survival Test, Army Physical Fitness Test and the Land Navigation test required.

M S 401. Seminar: The Military Team.

(3-0) Cr. 3. F. *Prereq:* Completion of the basic program, concurrent enrollment in M S 401L and permission of the Chair of the Military Science Department

Develops student proficiency in analyzing and evaluating leadership behaviors, such as values, attributes, skills, and actions. Students are given situational opportunities to assess leadership and provide feedback to other students placed in leadership roles. Students will be measured by their ability to both give and receive systematic and specific feedback on leadership behaviors. Students will develop their ability to communicate thoughts and ideas orally through small group presentations and group discussions. Students will supervise and evaluate the planning and execution of complex operations within a military organizational structure.

M S 401L. Advanced Leadership Laboratory III.

(0-4) Cr. 1. F. *Prereq:* Completion of the basic program, concurrent enrollment in M S 401 and permission of the Chair of the Military Science Department

The lab compliments the instruction from class by demonstrating the indelible link between personal values and successful leadership. On-the-job training and evaluation provided by the ROTC cadre. Developing training programs, structuring laboratories, presenting classes, planning various events, and accepting responsibility for the leadership labs.

M S 402. Seminar: The Professional Military Officer.

(3-0) Cr. 3. S. *Prereq:* Completion of the basic program, concurrent enrollment in M S 402L and permission of the Chair of the Military Science Department

Explores the dynamics of leading in the complex situations of current military operations in a contemporary world. Students will examine the differences in customs, courtesies and operational principles in the face of international terrorism. Students will also explore aspects of interaction with nongovernmental organizations, civilians and media in a war zone and foreign national governments. The course uses case studies, scenarios, and practical exercises, which prepare the student to face complex ethical and practical demands of leading soldiers within a multifaceted military organizational structure.

M S 402L. Advanced Leadership Laboratory IV.

(0-4) Cr. 1. S. *Prereq:* Completion of the basic program, concurrent enrollment in M S 402 and permission of the Chair of the Military Science Department

The lab compliments the instruction from class by demonstrating the indelible link between personal values and successful leadership. On-the-job training and evaluation provided by the ROTC cadre. Developing training programs, structuring laboratories, presenting classes, planning various events, and accepting responsibility for the leadership labs.

M S 490. Independent Study: Advanced Military Study.

(1-0) Cr. 1. Repeatable, maximum of 4 credits. F.S.SS. *Prereq:* M S 301, M S 302, M S 401 and M S 402 and permission of the Chair of the Military Science Department

Investigation of an approved topic. Must result in a professional journal-worthy paper on ethics, current military issues, interpersonal communications, or leadership development.

Military Studies

Interdepartmental Minor

The Military Studies program is designed for students interested in learning about military skills and careers. The mission of the Reserve Officers' Training Corps (ROTC) programs is threefold. First, students are developed mentally,

morally, and physically in order to make them strong leaders. Second, a desire for development in mind and character is instilled in students so they may assume the highest responsibilities of command, citizenship, and government. Finally, students are imbued with the highest ideals of duty, honor, and loyalty in order to graduate with a basic professional background and motivation toward their careers.

The Military Science, Naval Science and Air Force Aerospace departments accomplish this mission through detailed courses of instruction occurring throughout a typical student's college career. All academic courses offered by these departments focus on the development of professional military skills and their application. Each department offers courses unique to its branch of the military. Students in Army ROTC classes gain an appreciation for ground warfare and doctrine, while students in Naval Science develop an appreciation for naval surface and maritime engineering. The Air Force Aerospace Studies curriculum familiarizes students with Air Force structure and doctrine. On a broader scale, all three departments offer courses promoting leadership and sound management practices that investigate the military's role in American domestic and foreign policy, and can be employed in any career path.

Military Science, Naval Science and Air Force Aerospace courses are offered in the interdepartmental Military Studies program in the following participating departments: Military Science, Naval Science and Air Force Aerospace.

Undergraduate Study

Undergraduate study in this program provides the student with an opportunity to develop a minor in Military Studies. The three Iowa State University ROTC programs offer over 64 credits of specialized coursework. The minor in Military Studies is open to any Iowa State University student.

Undergraduate students may minor in Military Studies by taking 15 credits of coursework from a combination of any of the three ROTC programs - regardless of whether or not a commission in the Armed Forces is tendered. At least 6 of the 15 credits must be in courses numbered 300 or above.

Music

Administered by the Department of Music and Theatre

Undergraduate Study

The Department of Music and Theatre offers a strong undergraduate music program, where students study with full-time faculty professionals in a supportive environment that encourages students to become their best.

The music curriculum provides:

1. A comprehensive program of professional studies for students who wish to prepare for careers in music, including teaching, performance, and composition, and for students who plan to pursue graduate studies in music.
2. Courses in music literature, theory and areas of performance for all students, regardless of major.

The department embodies the land-grant philosophy of service to the people of the state with a faculty of active scholars, teachers, and artists committed to excellence in teaching, creative/scholarly work, and arts outreach. The department is an accredited institutional member of the National Association of Schools of Music (NASM).

The Theatre Program is administered by the Department of Music and Theatre (see Index, Theatre and Performing Arts.)

Minor in Music

Candidates for the minor in music will complete 19 credits in music including:

MUSIC 221	Introduction to Music Theory	3
MUSIC 231	Materials of Music I	3
Two of the following		6
MUSIC 102	Introduction to Music Listening	
MUSIC 120	Introduction to Music Literature and Styles	
or MUSIC 302		Masterpieces of Music and Art in Western Culture.
MUSIC 304	History of Rock 'n' Roll	
MUSIC 383	History of Music I	
4 credits chosen from the following		4
MUSIC 111	Wind Ensemble	
MUSIC 113	Jazz Ensemble	
MUSIC 115	Symphonic Band	

MUSIC 141	Lyrica Women's Choir
MUSIC 151	Oratorio Chorus
MUSIC 161	Iowa State Singers
MUSIC 181	Symphony Orchestra
MUSIC 301	Opera Studio
MUSIC 321	Advanced Ensemble
MUSIC 118	Applied Music: Non-majors
MUSIC 318	Applied Music: Non-majors
MUSIC 290F	Special Problems: Applied Music

At least 6 of the 19 credits must be in courses numbered 300 and above taken at ISU with a grade of C or better. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

Students pursuing a music minor must meet the audition requirements and/or prerequisites for all courses they wish to take.

Minor in Music Technology

Candidates for the minor in music technology will complete 15 credits including:

MUSIC 246	Introduction to Music Technology	2
MUSIC 346	MIDI and Digital Audio Techniques	3
MUSIC 446	Electronic Music Synthesis	3
7 credits from the following		7
COM S 107	Applied Computer Programming	
COM S 207	Fundamentals of Computer Programming	
or COM S 227	Introduction to Object-oriented Programming	
COM S 208	Intermediate Computer Programming	
COM S 228	Introduction to Data Structures	
COM S 229	Advanced Programming Techniques	
COM S 309	Software Development Practices	
CPR E 329	Software Project Management	
E E 201	Electric Circuits	
E E 224	Signals and Systems I	
E E 324	Signals and Systems II	
M E 451	Engineering Acoustics	
PHYS 198	Physics of Music	
S E 319	Software Construction and User Interfaces	
MUSIC 101	Fundamentals of Music	
or MUSIC 105	Basic Musicianship	
MUSIC 102	Introduction to Music Listening	
MUSIC 118	Applied Music: Non-majors	
MUSIC 120	Introduction to Music Literature and Styles	
or MUSIC 302	Masterpieces of Music and Art in Western Culture.	
MUSIC 221	Introduction to Music Theory	
MUSIC 222	Introduction to Aural Theory and Music Technology	
MUSIC 231	Materials of Music I	
MUSIC 232	Aural Theory I	
MUSIC 304	History of Rock 'n' Roll	
MUSIC 318	Applied Music: Non-majors	
MUSIC 331	Materials of Music II	
MUSIC 332	Aural Theory II	
MUSIC 337	Materials of Music III	
MUSIC 338	Aural Theory III	
MUSIC 383	History of Music I	
MUSIC 384	History of Music II	
MUSIC 472	History of American Music	
MUSIC 490I	Independent Study: Electronic Music	
Total Credits		15

Music courses that may be taken by music majors to meet the requirements for the Music Technology minor are limited to the following:

MUSIC 246	Introduction to Music Technology	2
MUSIC 346	MIDI and Digital Audio Techniques	3
MUSIC 446	Electronic Music Synthesis	3
MUSIC 490I	Independent Study: Electronic Music	arr †

MUSIC 590I	Special Topics: Electronic Music	arr †
------------	----------------------------------	-------

† Arranged with instructor.

Bachelor of Music students may not count PHYS 198 in the Music Technology minor.

At least six of the fifteen credits must be taken at Iowa State University in courses numbered 300 or above with a grade of C or higher. The minor must include at least nine credits not used to meet any other department, college, or university requirement. Students pursuing a minor in music technology must meet the audition requirements and/or prerequisites for all music courses they wish to take.

Curricula Available to Music Majors

Students interested in pursuing an emphasis in music theater should see Index, Theater and Performing Arts.

Bachelor of Music

This curriculum leads to the degree bachelor of music. This degree is more specialized and contains fewer general education requirements than the bachelor of arts degree with a major in music. Students in this curriculum choose between options in education, performance, and composition. To obtain a bachelor of music degree, a student must earn a minimum of 125-146.5 credits (depending on the option chosen) including a minimum of 32 credits in residence at Iowa State University and a minimum of 45 advanced credits in courses numbered 300 or above and must meet all of the requirements specified below.

Courses taken on a pass/not pass basis may be counted toward the required total credits, and may be used to meet the advanced credit requirement, if appropriate, but may not be used to satisfy any other graduation requirement.

Degree Requirements

GENERAL EDUCATION REQUIREMENTS (Students choosing the music education option should consult their advisers.) 32 cr.

Social Science:	6	
Humanities:	6	
MUSIC 383	History of Music I	3
MUSIC 384	History of Music II	3
PHYS 198	Physics of Music	3
Mathematics, Physical and Biological Sciences	6	
Electives (not Music)	5	
OTHER REQUIREMENTS 15 Cr.		
ENGL 150	Critical Thinking and Communication *	3
ENGL 250	Written, Oral, Visual, and Electronic Composition *	3
LIB 160	Information Literacy	1
World Languages and Cultures	8	
MUSIC CORE 47 CR.		
MUSIC 120	Introduction to Music Literature and Styles	3

MUSIC 490I	Independent Study: Electronic Music	
Electives		3
Total Credits		31

Bachelor of Arts—Music Major

A more general degree than the bachelor of music, the bachelor of arts degree requires no formal specialization. It includes more general education requirements and provides a broader course of academic study.

For the undergraduate curriculum in Liberal Arts and Sciences, major in music, leading to the degree bachelor of arts, see Liberal Arts and Sciences, Curriculum.

Candidates for the degree bachelor of arts with a music major will normally complete 48 credits of music including the following required courses:

4 credits:		4
MUSIC 119	Applied Music for Majors	
MUSIC 120	Introduction to Music Literature and Styles	3
4 credits:		4
MUSIC 219	Applied Music: Majors	

MUSIC 221	Introduction to Music Theory	3
MUSIC 222	Introduction to Aural Theory and Music Technology	2
MUSIC 231	Materials of Music I	3
MUSIC 232	Aural Theory I	1
MUSIC 319	Applied Music: Majors	2
MUSIC 331	Materials of Music II	3
MUSIC 332	Aural Theory II	1
MUSIC 337	Materials of Music III	3
MUSIC 338	Aural Theory III	1
MUSIC 383	History of Music I	3
MUSIC 384	History of Music II	3
4 credits from		4
MUSIC 111	Wind Ensemble	
MUSIC 113	Jazz Ensemble	
MUSIC 115	Symphonic Band	
MUSIC 141	Lyrica Women's Choir	
MUSIC 151	Oratorio Chorus	
MUSIC 161	Iowa State Singers	
MUSIC 181	Symphony Orchestra	
MUSIC 321	Advanced Ensemble	
MUSIC 301	Opera Studio	
Music Electives		8
Total Credits		48

Bachelor of arts students whose chief professional interest lies in research are encouraged to minor in world languages and cultures, history, literature, or philosophy.

General Requirements

Entrance Audition.

In order to be accepted as a music major, a prospective student must pass an entrance audition for the applied faculty in his/her performance area (piano, organ, woodwinds, strings, percussion, brass, or voice). Passing the audition is dependent on the demonstration of performance skills appropriate for college level instruction and the potential to perform at a professional level. In addition, the number of students accepted must balance with the space available in the corresponding applied studios. Once accepted, a student must complete a placement examination in keyboard skills. This examination is normally given by members of the departmental faculty the week preceding the opening of classes for fall semester.

Seminars and Recitals.

All music majors enrolled for applied music courses will attend a weekly 1-hour seminar in their areas, departmental recitals, and 12 recitals of their choosing each semester.

Ensemble Requirement.

See the options above for additional ensemble requirements.

All Bachelor of Music students:

Enrollment in an ensemble course, chosen from the lists below, each semester of full-time enrollment (except during student teaching) is required.

Students in a music education options:

At least six semesters of large ensemble and one semester of chamber music ensemble, chosen from the lists below, are required. One semester of 114A may count as a large ensemble.

Bachelor of Music students in options other than education:

At least 2 semesters of large ensemble and one semester of chamber music ensemble, chosen from the lists below, are required.

Large Ensembles:

MUSIC 111	Wind Ensemble	1
MUSIC 115	Symphonic Band	1
MUSIC 141	Lyrica Women's Choir	1
MUSIC 151	Oratorio Chorus	1

MUSIC 161	Iowa State Singers	1
MUSIC 181	Symphony Orchestra	1

Chamber music ensembles:

MUSIC 113	Jazz Ensemble	1
MUSIC 161	Iowa State Singers	1
MUSIC 301	Opera Studio	1-3
MUSIC 321	Advanced Ensemble	1

Continuation Examination

To be approved for continuation as a music major on the junior level, and enroll in Music 319, a student must pass a continuation examination taken normally at the end of the fourth semester as a music major. Before taking this examination, the student must complete the requisite forms as well as write an essay including:

1. his/her personal goals
2. a self-assessment of his/her progress thus far
3. an assessment of what he/she expects to accomplish before graduation

The student taking the Continuation Examination performs for a Continuation Examination Committee. Requirements include the performance of three works representing different periods or styles selected by, and studied with, the applied teacher, a self-prepared piece, and sight reading. The student must display acceptable solo ability and performance techniques in at least one of the applied areas. A written evaluation will be given each student following his/her performance. This evaluation will include a candid assessment of the student's potential to achieve his/her goals. In addition, the student may arrange to meet with members of the Continuation Examination Committee at a later date to discuss the results of his/her Continuation Examination. See Piano Proficiency below. For details and forms go to: <http://www.music.iastate.edu>

Piano Proficiency Requirement

All music majors must demonstrate proficiency in functional skills at the piano. Keyboard music majors (students whose primary instrument is piano or organ) accomplish this through courses in their curricula. All other students accomplish this by satisfactorily completing Music 228. All entering non-keyboard music majors with previous piano experience meet with the class piano instructor, usually the week before classes start in the fall semester, to determine the appropriate piano class (127, 128, 227, 228) for their initial piano enrollment. Some students are deemed to have met the piano proficiency at this time. Non-keyboard music majors with no previous piano experience should enroll in Music 127, Class Piano I. Continuous enrollment in piano classes is REQUIRED until successful completion of the piano proficiency requirement. **Important:** The piano proficiency must be met, either through completion of Music 228 or demonstration of proficiency, to pass the continuation examination. Failure to do so could delay a student's graduation. All students must fulfill the piano proficiency requirement in order to pass the continuation examination and enroll in Music 319.

Graduation Proficiency

To be recommended for graduation, a music student should demonstrate to the music faculty mature acquaintance with performance styles, technique, and repertoire. All music majors will participate in departmental recitals to the satisfaction of the department. Candidates for the bachelor of music degree will present a graduation recital.

Communication Proficiency requirement: The department requires a grade of C– or better in each of ENGL 150 and ENGL 250 (or ENGL 250H). In addition the Communication Proficiency must be certified through one of the following options:

1. Certification of writing skills, by the instructor, after completion of one of the following:

MUSIC 120	Introduction to Music Literature and Styles	3
MUSIC 383	History of Music I	3
MUSIC 384	History of Music II	3
MUSIC 472	History of American Music	3
MUSIC 473	Music of the Baroque and Classical Eras	3
MUSIC 475	Music of the Romantic Era	3

(Passing one of these courses does not automatically satisfy the requirements for Communication Proficiency.)

2. Satisfactory completion of an advanced writing course:

ENGL 302	Business Communication	3
ENGL 305	Creative Writing: Nonfiction	3
ENGL 314	Technical Communication	3

Learning Outcomes and Assessment

Music graduates will understand and demonstrate:

1. Knowledge of music cultural heritage and history
2. Appreciation for musical creativity, reasoning, and the aesthetic value of music
3. Knowledge of organization and structures of music
4. Analytical skills necessary for listening, performing, and teaching
5. Skills necessary to perform music from a variety of periods, styles, and genres
6. Necessary abilities to communicate ideas musically, verbally, and in writing
7. Awareness of the diversity of musical ideas throughout the world's cultures
8. For Music Education students: success in meeting the ISU Teaching Standards as outlined by the University Teacher Education Program

Assessment measures include the continuation examination, graduating senior surveys and exit interviews, public performances, senior projects, course grades, teacher certification (for music education students), and the National Association of Schools of Music accreditation review.

Courses primarily for undergraduates:

MUSIC 101. Fundamentals of Music.

(1-2) Cr. 2. F.S. *Prereq:* Ability to read elementary musical notation

Notation, recognition, execution and analysis of scales, intervals, triads, and rhythm; key signatures; time signatures; transposition. Open to non-majors only.

MUSIC 102. Introduction to Music Listening.

(3-0) Cr. 3. F.S.SS.

Expansion of the music listening experiences for the general student through greater awareness of differences in techniques of listening, performance media, and materials of the art. The course focuses on the elements of music: rhythm, melody, harmony, form, and style, and how these elements are used in musics of different cultures and time periods. Ability to read or perform music not required. Meets International Perspectives Requirement.

MUSIC 105. Basic Musicianship.

(1-4) Cr. 3. F.S. *Prereq:* Performing arts major status or permission of instructor.

Beginning keyboard techniques, sight-reading, and ear training. Basic materials of music: notation, scales, intervals, key signatures, time signatures, rhythm, and harmony.

MUSIC 111. Wind Ensemble.

(0-3) Cr. 1. Repeatable. F.S. *Prereq:* Open to all students by audition

Emphasis on significant extended compositions for wind and percussion instruments. Performances include formal concerts on campus and the annual tour.

MUSIC 112. Concert Band.

(0-2) Cr. 1. Repeatable. F.S. *Prereq:* Open to all students who have performed on a wind or percussion instrument in high school band or orchestra

Repertoire includes the broad spectrum of band music. Two concerts are presented each semester.

MUSIC 113. Jazz Ensemble.

(0-2) Cr. 1. Repeatable. F.S. *Prereq:* Open to all students by audition

Designed to explore various styles and trends in contemporary jazz.

MUSIC 114. Marching and Pep Bands.

(0-5) Cr. 1. Repeatable.

Performances at athletic events.

MUSIC 114A. Marching and Pep Bands: Marching Band.

(0-5) Cr. 1. Repeatable. F.

Membership determined by audition and band application. Auditions held for woodwind, brass, percussion, flag, and twirler positions. Presentation of pre-game and half time shows at each home football game; additional performances are also scheduled on and off campus. Audition information is listed on the band website (www.music.iastate.edu/org/marching).

MUSIC 114B. Marching and Pep Bands: Pep Band.

(0-5) Cr. 1. Repeatable. S. *Prereq: Students selected by audition from members of MUSIC 114A.*

Performances at basketball games.

MUSIC 115. Symphonic Band.

(0-3) Cr. 1. Repeatable. F.S. *Prereq: Open to all students by audition*

Stresses high quality wind literature. Performances include formal concerts on campus.

MUSIC 118. Applied Music: Non-majors.

(0.5-0) Cr. 1-2. Repeatable. F.S. *Prereq: Audition, permission of instructor*

Applied music for the general student.

MUSIC 118A. Applied Music: Non-majors: Voice.

(0.5-0) Cr. 1-2. Repeatable. F.S. *Prereq: Audition, permission of instructor*

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 118B. Applied Music: Non-majors: Piano.

(0.5-0) Cr. 1-2. Repeatable. F.S. *Prereq: Audition, permission of instructor*

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 118C. Applied Music: Non-majors: Organ.

(0.5-0) Cr. 1-2. Repeatable. F.S. *Prereq: Audition, permission of instructor*

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 118D. Applied Music: Non-majors: Strings.

(0.5-0) Cr. 1-2. Repeatable. F.S. *Prereq: Audition, permission of instructor*

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 118E. Applied Music: Non-majors: Carillon.

(0.5-0) Cr. 1-2. Repeatable. F.S. *Prereq: Audition, permission of instructor*

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 118F. Applied Music: Non-majors: Woodwinds.

(0.5-0) Cr. 1-2. Repeatable. F.S. *Prereq: Audition, permission of instructor*

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 118G. Applied Music: Non-majors: Brass.

(0.5-0) Cr. 1-2. Repeatable. F.S. *Prereq: Audition, permission of instructor*

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 118I. Applied Music: Non-majors: Percussion.

(0.5-0) Cr. 1-2. Repeatable. F.S. *Prereq: Audition, permission of instructor*

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 118K. Applied Music: Non-majors: Harpsichord.

(0.5-0) Cr. 1-2. Repeatable. F.S. *Prereq: Audition, permission of instructor*

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 119. Applied Music for Majors.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*

Applied music for music majors.

MUSIC 119A. Applied Music for Majors: Voice.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119B. Applied Music for Majors: Piano.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119C. Applied Music for Majors: Organ.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119D. Applied Music for Majors: Strings.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119E. Applied Music for Majors: Carillon.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119F. Applied Music for Majors: Woodwinds.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119G. Applied Music for Majors: Brass.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119I. Applied Music for Majors: Percussion.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119K. Applied Music for Majors: Harpsichord.

(0.5-2) Cr. 1-3. Repeatable. F.S.SS. *Prereq: Audition, permission of instructor; restricted to music majors*

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 120. Introduction to Music Literature and Styles.

(3-0) Cr. 3. S. *Prereq: MUSIC 221; music major status or permission of instructor*

Directed studies via aural analysis for music majors with emphasis on the materials of music, form and aesthetic issues. Introduction to style and literature of the major performance media in context of historical chronology. Fundamentals of score reading and performance terminology. Only one of Music 120 and 302 can count toward graduation.

MUSIC 127. Class Study in Piano I.

(0-2) Cr. 1. F.S. *Prereq: Music major status or permission of instructor*

Beginning keyboard technique, transposition, harmonization, ensemble and solo repertory, and sight-reading skills.

MUSIC 128. Class Study in Piano II.

(0-2) Cr. 1. F.S. *Prereq: MUSIC 127 or permission of instructor*

Continuation of beginning keyboard technique, transposition, harmonization, ensemble and solo repertory, and sight-reading skills.

MUSIC 131. Vocal Jazz Ensemble: "Off the Record".

(0-2) Cr. 1. Repeatable. *Prereq: Open by audition and permission of instructor; concurrent enrollment in one of the following: MUSIC 141, MUSIC 151, MUSIC 161*

Small mixed chorus specializing in advanced vocal jazz techniques. Performances on and off campus.

MUSIC 141. Lyrica Women's Choir.

(0-3) Cr. 1. Repeatable. F.S. *Prereq: Open to all female students by audition*

Large chorus; emphasis on fundamental vocal and choral skills, wide variety of literature. Campus concerts each semester.

MUSIC 151. Oratorio Chorus.

(0-3) Cr. 1. Repeatable. F.S. *Prereq: Open to all students by audition*

Advanced skills required, high quality literature. Campus concerts each semester, some concerts in conjunction with orchestras. Men's and women's choirs separately and in combination.

MUSIC 151A. Oratorio Chorus: Cantamus Women's Choir.

(0-3) Cr. 1. Repeatable. F.S. *Prereq: Open to all students by audition*

Advanced skills required, high quality literature. Campus concerts each semester, some concerts in conjunction with orchestras. Men's and women's choirs separately and in combination.

MUSIC 151B. Oratorio Chorus: Statesmen Men's Choir.

(0-3) Cr. 1. Repeatable. F.S. *Prereq: Open to all students by audition*

Advanced skills required, high quality literature. Campus concerts each semester, some concerts in conjunction with orchestras. Men's and women's choirs separately and in combination.

MUSIC 161. Iowa State Singers.

(0-5) Cr. 1. Repeatable. F.S. *Prereq: Open to all students by audition*
 Concert choir specializing in performance of advanced music literature,
 Renaissance through contemporary. Campus concerts, annual spring tour.

MUSIC 181. Symphony Orchestra.

(0-4) Cr. 1. Repeatable. F.S. *Prereq: Open to all students by audition*
 Reading, preparation, and performance of standard repertoire. Five or six concerts
 annually plus occasional off-campus appearances.

MUSIC 219. Applied Music: Majors.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted
 to music majors*
 Applied music for music majors.

MUSIC 219A. Applied Music: Majors: Voice.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted
 to music majors*
 (.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is
 expected. Weekly seminar required.

MUSIC 219B. Applied Music: Majors: Piano.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted
 to music majors*
 (.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is
 expected. Weekly seminar required.

MUSIC 219C. Applied Music: Majors: Organ.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted
 to music majors*
 (.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is
 expected. Weekly seminar required.

MUSIC 219D. Applied Music: Majors: Strings.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted
 to music majors*
 (.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is
 expected. Weekly seminar required.

MUSIC 219E. Applied Music: Majors: Carillon.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted
 to music majors*
 (.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is
 expected. Weekly seminar required.

MUSIC 219F. Applied Music: Majors: Woodwinds.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted
 to music majors*
 (.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is
 expected. Weekly seminar required.

MUSIC 219G. Applied Music: Majors: Brass.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted
 to music majors*
 (.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is
 expected. Weekly seminar required.

MUSIC 219I. Applied Music: Majors: Percussion.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted
 to music majors*
 (.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is
 expected. Weekly seminar required.

MUSIC 219K. Applied Music: Majors: Harpsichord.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted
 to music majors*
 (.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is
 expected. Weekly seminar required.

MUSIC 221. Introduction to Music Theory.

(3-0) Cr. 3. F. *Prereq: Music major status or permission of instructor; concurrent
 enrollment in MUSIC 222 recommended*
 Fluent identification and application of the elements of music and music notation.
 The study of two-voice species counterpoint as an introduction to voice-leading
 principles in common practice period music.

MUSIC 222. Introduction to Aural Theory and Music Technology.

(0-4) Cr. 2. F. *Prereq: Music major status or permission of instructor; credit or
 enrollment in MUSIC 221*
 Aural discrimination of musical elements and patterns as demonstrated by
 proficiency in ear training, sight singing, and related musicianship skills.
 Introduction to technological equipment and software used in the study of music.

MUSIC 227. Class Study in Piano III.

(0-2) Cr. 1. F.S. *Prereq: MUSIC 128 or permission of instructor*
 Intermediate keyboard technique, transposition, harmonization, improvisation,
 repertory, and sight-reading skills. Introduction to score reading, hymn playing,
 and accompanying at the piano.

MUSIC 228. Class Study in Piano IV.

(0-2) Cr. 1. F.S. *Prereq: MUSIC 227 or permission of instructor*
 Continuation of intermediate keyboard technique, transposition, harmonization,
 improvisation, repertory, score reading, hymn playing, and accompanying at the
 piano.

MUSIC 231. Materials of Music I.

(3-0) Cr. 3. S. *Prereq: MUSIC 221; concurrent enrollment in MUSIC 232
 recommended*
 Harmonic, melodic, and rhythmic materials of the common practice period.
 Application of these materials in analysis and writing. Techniques of melodic
 construction, formal design, and harmonization.

MUSIC 232. Aural Theory I.

(0-3) Cr. 1. S. *Prereq: MUSIC 222; credit or enrollment in MUSIC 231*
 Development of sight singing, ear training, and related musical skills with
 emphasis on melodic, harmonic and rhythmic materials from the common practice
 period.

MUSIC 246. Introduction to Music Technology.

(2-0) Cr. 2. F.S. *Prereq: MUSIC 101, MUSIC 105, or MUSIC 221, or permission of
 instructor*
 Introduction to audio and MIDI applications using a digital audio workstation.
 Includes fundamentals of audio editing and mixing, MIDI theory, practical projects
 in software-based musical arrangements and composition.

MUSIC 248. Technology in Music Instruction.

(2-0) Cr. 2. S. *Prereq: MUSIC 221 and MUSIC 222*
 Introduction to computer software applications used in musical arrangements
 and presentations, practical introduction to audio and MIDI technologies in lab-
 based music instruction, basic recording/sound reinforcement and music website
 management. Intended for Music Education Majors.

MUSIC 265. Music in Elementary Education.

(2-0) Cr. 2. F.S. *Prereq: HD FS 102 or PSYCH 230*
 Experiencing and understanding the fundamentals of music through singing,
 playing classroom instruments, body movement, reading notation, listening, and
 creative activities. Developing lesson plan strategies and sequence, exploring
 multicultural musics, integrating music with other subjects in the elementary
 classroom, and evaluating aspects of musical learning.

MUSIC 266. Introduction to Music Education.

(1-2) Cr. 2. S. *Prereq: Concurrent enrollment in MUSIC 280K*
 Required for first-year majors in music education. Historical, philosophical, and
 social foundations of music education; music curricula overview including goals of
 the music program, and contemporary and international curriculum development;
 psychology of teaching music including discipline techniques. Preparation for
 required observations in area schools.

MUSIC 280K. Pre-Student Teaching Experience I: Music.

(Cross-listed with C I). Cr. 0.5. Repeatable. S.
 Pre-student teaching experience in music in school settings. Permission of Music
 coordinator required prior to enrollment. Clinical Experience Level 1. Offered on a
 satisfactory-fail basis only.

MUSIC 290. Special Problems.

Cr. arr. Repeatable. F.S. *Prereq: Permission of instructor; 12 credits in music,
 approval of department head*
 Independent study.

MUSIC 290A. Special Problems: Education.

Cr. arr. Repeatable. F.S. *Prereq: Permission of instructor; 12 credits in music,
 approval of department head*
 Independent study in music education.

MUSIC 290B. Special Problems: Theory.

Cr. arr. Repeatable. F.S. *Prereq: Permission of instructor; 12 credits in music,
 approval of department head*
 Independent stud in music theory.

MUSIC 290C. Special Problems: Composition.

Cr. arr. Repeatable. F.S. *Prereq: Permission of instructor; 12 credits in music,
 approval of department head*
 Independent study in music composition.

MUSIC 290D. Special Problems: History.

Cr. arr. Repeatable. F.S. *Prereq: Permission of instructor; 12 credits in music, approval of department head*
Independent study in music history.

MUSIC 290E. Special Problems: Literature.

Cr. arr. Repeatable. F.S. *Prereq: Permission of instructor; 12 credits in music, approval of department head*
Independent study in music literature.

MUSIC 290F. Special Problems: Applied Music.

Cr. arr. Repeatable. F.S. *Prereq: Permission of instructor; 12 credits in music, approval of department head*
Independent study in applied music.

MUSIC 290G. Special Problems: Conducting.

Cr. arr. Repeatable. F.S. *Prereq: Permission of instructor; 12 credits in music, approval of department head*
Independent study in conducting.

MUSIC 290H. Special Problems, Honors.

Cr. arr. Repeatable. F.S. *Prereq: Permission of instructor; 12 credits in music, approval of department head*
Independent honors project in music.

MUSIC 290J. Special Problems: Business.

Cr. arr. Repeatable. F.S. *Prereq: Permission of instructor; 12 credits in music, approval of department head*
Independent study in music business.

MUSIC 301. Opera Studio.

Cr. 1-3. Repeatable. F.S. *Prereq: Permission of instructor*
Study of selected opera scenes, chamber operas, and works from contemporary and classical music theater. Basic stagecraft, role interpretation, production.

MUSIC 301A. Opera Studio: Opera/Operetta.

Cr. 1-3. Repeatable. F.S. *Prereq: Permission of instructor*
Study of selected opera scenes and chamber operas. Basic stagecraft, role interpretation, production.

MUSIC 301B. Opera Studio: Music Theater.

Cr. 1-3. Repeatable. F.S. *Prereq: Permission of instructor*
Study of selected works from contemporary and classical music theater. Basic stagecraft, role interpretation, production.

MUSIC 302. Masterpieces of Music and Art in Western Culture..

(3-0) Cr. 3. S. *Prereq: MUSIC 102*
Exploration of several great works of classical music in light of the artistic culture in which they were composed; and trends in musical styles as well as individual composers' personalities over history through listening and discussion. Some concert attendance is required outside of class. An ability to read music is not required, but is recommended. Non-majors only. Only one of Music 120 and 302 can count toward graduation.

MUSIC 304. History of Rock 'n' Roll.

(3-0) Cr. 3. S. *Prereq: MUSIC 101, MUSIC 102, MUSIC 221, or MUSIC 222*
Rock 'n' Roll from the mid 1950s through the 1990s, focusing on the development of rock styles from its roots in blues, folk, country, and pop. Expansion of listening experience through study of song forms, musical instruments of rock, and the socio-political significance of song lyrics. Examinations, research paper or in class presentation required. Ability to read or perform music not required.
Meets U.S. Diversity Requirement

MUSIC 318. Applied Music: Non-majors.

(0.5-0) Cr. 1-2. Repeatable. F.S. *Prereq: Audition, permission of instructor*
Applied music for students other than music majors.

MUSIC 318A. Applied Music: Non-majors: Voice.

(0.5-0) Cr. 1-2. Repeatable. F.S. *Prereq: Audition, permission of instructor*
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 318B. Applied Music: Non-majors: Piano.

(0.5-0) Cr. 1-2. Repeatable. F.S. *Prereq: Audition, permission of instructor*
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 318C. Applied Music: Non-majors: Organ.

(0.5-0) Cr. 1-2. Repeatable. F.S. *Prereq: Audition, permission of instructor*
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 318D. Applied Music: Non-majors: Strings.

(0.5-0) Cr. 1-2. Repeatable. F.S. *Prereq: Audition, permission of instructor*
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 318E. Applied Music: Non-majors: Carillon.

(0.5-0) Cr. 1-2. Repeatable. F.S. *Prereq: Audition, permission of instructor*
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 318F. Applied Music: Non-majors: Woodwinds.

(0.5-0) Cr. 1-2. Repeatable. F.S. *Prereq: Audition, permission of instructor*
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 318G. Applied Music: Non-majors: Brass.

(0.5-0) Cr. 1-2. Repeatable. F.S. *Prereq: Audition, permission of instructor*
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 318I. Applied Music: Non-majors: Percussion.

(0.5-0) Cr. 1-2. Repeatable. F.S. *Prereq: Audition, permission of instructor*
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 318K. Applied Music: Non-majors: Harpsichord.

(0.5-0) Cr. 1-2. Repeatable. F.S. *Prereq: Audition, permission of instructor*
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 319. Applied Music: Majors.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*
Applied music for music majors.

MUSIC 319A. Applied Music: Majors: Voice.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 319B. Applied Music: Majors: Piano.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 319C. Applied Music: Majors: Organ.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 319D. Applied Music: Majors: Strings.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 319E. Applied Music: Majors: Carillon.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 319F. Applied Music: Majors: Woodwinds.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 319G. Applied Music: Majors: Brass.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 319I. Applied Music: Majors: Percussion.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 319K. Applied Music: Majors: Harpsichord.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 321. Advanced Ensemble.

(0-3) Cr. 1. Repeatable. F.S. *Prereq: Advanced proficiency and performing ability, permission of instructor*

Performance in chamber music ensembles that demand high proficiency.

MUSIC 321A. Advanced Ensemble: Voice.

(0-3) Cr. 1. Repeatable. F.S. *Prereq: Advanced proficiency and performing ability, permission of instructor*

Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

MUSIC 321B. Advanced Ensemble: Piano.

(0-3) Cr. 1. Repeatable. F.S. *Prereq: Advanced proficiency and performing ability, permission of instructor*

Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

MUSIC 321C. Advanced Ensemble: Organ.

(0-3) Cr. 1. Repeatable. F.S. *Prereq: Advanced proficiency and performing ability, permission of instructor*

Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

MUSIC 321D. Advanced Ensemble: Strings.

(0-3) Cr. 1. Repeatable. F.S. *Prereq: Advanced proficiency and performing ability, permission of instructor*

Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

MUSIC 321F. Advanced Ensemble: Woodwinds.

(0-3) Cr. 1. Repeatable. F.S. *Prereq: Advanced proficiency and performing ability, permission of instructor*

Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

MUSIC 321G. Advanced Ensemble: Brass.

(0-3) Cr. 1. Repeatable. F.S. *Prereq: Advanced proficiency and performing ability, permission of instructor*

Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

MUSIC 321I. Advanced Ensemble: Percussion.

(0-3) Cr. 1. Repeatable. F.S. *Prereq: Advanced proficiency and performing ability, permission of instructor*

Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

MUSIC 321J. Advanced Ensemble: Mixed instruments/voice.

(0-3) Cr. 1. Repeatable. F.S. *Prereq: Advanced proficiency and performing ability, permission of instructor*

Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

MUSIC 324. English and Italian Diction for Singing.

(2-0) Cr. 2. Alt. F., offered even-numbered years. *Prereq: Credit or enrollment in MUSIC 118A or MUSIC 119A*

The international phonetic alphabet and its application to correct pronunciation of English and Italian in singing.

MUSIC 325. French and German Diction for Singing.

(2-0) Cr. 2. Alt. S., offered odd-numbered years. *Prereq: Credit or enrollment in MUSIC 118A or MUSIC 119A*

The international phonetic alphabet and its application to correct pronunciation of French and German in singing.

MUSIC 327. Functional Piano.

(0-3) Cr. 2.

Emphasis on sight reading, three and four-part score reading, improvisation, accompanying, and advanced harmonization.

MUSIC 327A. Functional Piano: Keyboard majors..

(0-3) Cr. 2. *Prereq: MUSIC 228 or permission of instructor*

Emphasis on sight reading, three and four-part score reading, improvisation, accompanying, and advanced harmonization.

MUSIC 327B. Functional Piano: Voice Majors.

(0-3) Cr. 2. S. *Prereq: MUSIC 228 or permission of instructor*

Emphasis on sight reading, three and four-part score reading, improvisation, accompanying, and advanced harmonization.

MUSIC 331. Materials of Music II.

(3-0) Cr. 3. F. *Prereq: MUSIC 231; concurrent enrollment in 332 recommended*

Harmonic, melodic, and rhythmic materials of the common practice period. Application of these materials in analysis and writing. Techniques of melodic construction, formal design, and harmonization.

MUSIC 332. Aural Theory II.

(0-2) Cr. 1. F. *Prereq: MUSIC 232; credit or enrollment in 331*

Development of sight singing, ear training, and related musical skills with emphasis on melodic, harmonic and rhythmic materials from the eighteenth and nineteenth centuries.

MUSIC 337. Materials of Music III.

(3-0) Cr. 3. S. *Prereq: MUSIC 331; concurrent enrollment in MUSIC 338 recommended*

Writing and analysis based on musical styles since 1900.

MUSIC 338. Aural Theory III.

(0-2) Cr. 1. S. *Prereq: MUSIC 332; credit or enrollment in MUSIC 337*

Development of sight singing, ear training, and related musical skills with emphasis on melodic, harmonic and rhythmic materials from the nineteenth and twentieth centuries.

MUSIC 346. MIDI and Digital Audio Techniques.

(3-0) Cr. 3. S. *Prereq: MUSIC 246 or permission of instructor*

Advanced MIDI and digital audio programming applications for composition and live performance.

MUSIC 350. Instrumental Techniques: Strings.

(0-2) Cr. 1. F. *Prereq: Instrumental music education majors: concurrent enrollment in MUSIC 358B. Limited to music majors*

Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

MUSIC 351. Instrumental Techniques: Clarinet, Flute, Saxophone.

(1-2) Cr. 2. S. *Prereq: Instrumental music education majors: concurrent enrollment in MUSIC 358B. Limited to music majors*

Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

MUSIC 352. Instrumental Techniques: Oboe, Bassoon.

(0-2) Cr. 1. F. *Prereq: MUSIC 351 or permission of instructor. Instrumental music education majors: concurrent enrollment in MUSIC 358B. Limited to music majors*

Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

MUSIC 353. Instrumental Techniques: Trumpet, Horn.

(0-2) Cr. 1. F. *Prereq: Instrumental music education majors: concurrent enrollment in MUSIC 358B. Limited to music majors*

Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

MUSIC 354. Instrumental Techniques: Trombone, Baritone, Tuba.

(0-2) Cr. 1. S. *Prereq: MUSIC 353 or permission of instructor. Instrumental music education majors: concurrent enrollment in MUSIC 358B. Limited to music majors*

Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

MUSIC 355. Instrumental Techniques: Percussion.

(0-2) Cr. 1. S. *Prereq: Instrumental music education majors: concurrent enrollment in MUSIC 358B. Limited to music majors*

Techniques and skills required to teach percussion instruments in the schools. Techniques for performing and teaching snare drum, keyboard percussion instruments, timpani, band and orchestral hand instruments, drum set, and Latin percussion. Intended for instrumental music education students.

MUSIC 358. Lab Ensemble.

Cr. R. Repeatable.

Review and selection of appropriate literature for ensembles of differing levels and abilities; conducting and rehearsal experience. Intended for music education students.

MUSIC 358A. Lab Ensemble: Choral.

Cr. R. Repeatable. F.Alt. S., offered odd-numbered years.

Sight singing, conducting, and accompanying experience in conjunction with 362A. Required of all vocal music education majors every semester offered.

MUSIC 358B. Lab Ensemble: Instrumental.

Cr. R. Repeatable. F.S.

Performance on secondary instruments. Includes experiences with singing and vocal techniques. Required of all instrumental music education majors in those semesters when enrolled in 350, 351, 352, 353, 354, 355, or 362B. Offered on a satisfactory-fail basis only.

MUSIC 360. Voice Pedagogy.

(2-0) Cr. 2. Alt. S., offered even-numbered years. *Prereq: MUSIC 319A or vocal proficiency examination*

Physical, acoustical, and musical properties of the vocal instrument, including a survey of important texts and articles on singing and voice production.

MUSIC 361. Conducting I.

(1-2) Cr. 2. F. *Prereq: MUSIC 231, MUSIC 232, Music major status or permission of instructor*

Introduction to conducting; score reading and analysis. Conveying musical ideas through appropriate gestures. Leadership role of the conductor.

MUSIC 362. Conducting II.

(1-2) Cr. 2.

MUSIC 362A. Conducting II: Choral Conducting Techniques.

(1-2) Cr. 2. Alt. S., offered odd-numbered years. *Prereq: Music major status or permission of instructor; MUSIC 361; concurrent enrollment in MUSIC 358A and MUSIC 141, MUSIC 151, or MUSIC 161.*

Advanced baton technique, score preparation and interpretation of choral repertoire.

MUSIC 362B. Conducting II: Instrumental Conducting Techniques.

(1-2) Cr. 2. S. *Prereq: Music major status or permission of instructor; MUSIC 361; concurrent enrollment in MUSIC 358B*

Advanced baton technique. Score preparation. Specific problems of large instrumental ensembles.

MUSIC 366. Methods of Music Education.

(2-0) Cr. 2. F. *Prereq: Concurrent enrollment (1 cr.) in MUSIC 480K and SP ED 401; MUSIC 266 and admission into teacher education.*

Music education strategies and materials including development of appropriate objectives and plans for general music classes utilizing traditional and multicultural musics, evaluating musical learning; overview of Orff Schulwerk, Kodaly, and Dalcroze approaches; music in special education; required teaching in lab settings and observations in area schools.

MUSIC 367. Choral Literature.

(2-0) Cr. 2. Alt. S., offered even-numbered years. *Prereq: MUSIC 361 recommended*

Overview of choral repertoire from the sixteenth century to the present, including accessible works for the young conductor.

MUSIC 368. Marching Band and Jazz Ensemble Techniques.

(2-0) Cr. 2. Alt. S., offered odd-numbered years. *Prereq: Credit or enrollment in MUSIC 362B recommended*

Techniques and materials for teaching marching band in the high school; philosophy, computer assisted drill design, music analysis, band set up, and other related skills. Jazz style, articulation, phrasing, materials and teaching techniques for secondary school jazz ensembles.

MUSIC 383. History of Music I.

(3-0) Cr. 3. F. *Prereq: MUSIC 120; music major status or permission of instructor*
History of the stylistic and cultural development of music: Middle Ages through Baroque.

Meets International Perspectives Requirement.

MUSIC 384. History of Music II.

(3-0) Cr. 3. S. *Prereq: MUSIC 383; music major status or permission of instructor*
History of the stylistic and cultural development of music: Classical through contemporary music.

Meets International Perspectives Requirement.

MUSIC 415. Literature and Pedagogy in Applied Music.

Cr. 1-4. Repeatable. F.S. *Prereq: Permission of instructor*
Includes experience in technology relative to the particular discipline.

MUSIC 415A. Literature and Pedagogy in Applied Music: Voice.

Cr. 1-4. Repeatable. F.S. *Prereq: Permission of instructor*
Includes experience in technology relative to the particular discipline.

MUSIC 415B. Literature and Pedagogy in Applied Music: Piano.

Cr. 1-4. Repeatable. F.S. *Prereq: Permission of instructor*
Includes experience in technology relative to the particular discipline.

MUSIC 415C. Literature and Pedagogy in Applied Music: Organ.

Cr. 1-4. Repeatable. F.S. *Prereq: Permission of instructor*
Includes experience in technology relative to the particular discipline.

MUSIC 415D. Literature and Pedagogy in Applied Music: Strings.

Cr. 1-4. Repeatable. F.S. *Prereq: Permission of instructor*
Includes experience in technology relative to the particular discipline.

MUSIC 415E. Literature and Pedagogy in Applied Music: Carillon.

Cr. 1-4. Repeatable. F.S. *Prereq: Permission of instructor*
Includes experience in technology relative to the particular discipline.

MUSIC 415F. Literature and Pedagogy in Applied Music: Woodwinds.

Cr. 1-4. Repeatable. F.S. *Prereq: Permission of instructor*
Includes experience in technology relative to the particular discipline.

MUSIC 415G. Literature and Pedagogy in Applied Music: Brass.

Cr. 1-4. Repeatable. F.S. *Prereq: Permission of instructor*
Includes experience in technology relative to the particular discipline.

MUSIC 415I. Literature and Pedagogy in Applied Music: Percussion.

Cr. 1-4. Repeatable. F.S. *Prereq: Permission of instructor*
Includes experience in technology relative to the particular discipline.

MUSIC 415J. Literature and Pedagogy in Applied Music: Jazz Pedagogy and Performance.

Cr. 1-4. Repeatable. F.S. *Prereq: Permission of instructor*
Includes experience in technology relative to the particular discipline.

MUSIC 417. Student Teaching.

Cr. 8-12. F.S. *Prereq: Minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

MUSIC 417R. Student Teaching: Music-Elementary.

(Dual-listed with MUSIC 517R). (Cross-listed with C I). Cr. arr. F.S. *Prereq: Minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

MUSIC 417S. Student Teaching: Music-Secondary.

(Dual-listed with MUSIC 517S). (Cross-listed with C I). Cr. arr. F.S. *Prereq: Minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

MUSIC 419. Applied Music: Majors.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*
Applied music for music majors.

MUSIC 419A. Applied Music: Voice.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419B. Applied Music: Piano.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419C. Applied Music: Organ.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419D. Applied Music: Strings.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419E. Applied Music: Carillon.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419F. Applied Music: Woodwinds.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq: Audition, permission of instructor; restricted to music majors*
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419G. Applied Music: Brass.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq:* *Audition, permission of instructor; restricted to music majors*

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419I. Applied Music: Percussion.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq:* *Audition, permission of instructor; restricted to music majors*

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419K. Applied Music: Harpsichord.

(1-2) Cr. 1-3. Repeatable. F.S. *Prereq:* *Audition, permission of instructor; restricted to music majors*

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 420. Junior/Senior Recital.

Cr. R. Repeatable. F.S.SS. *Prereq:* *Advanced performing ability, permission of instructor, concurrent registration in Music 319 or 419.*

Performance of advanced repertory in a public concert. Preparation of program notes. Offered on a satisfactory-fail basis only.

MUSIC 440. Seminar in Music Theory.

(3-0) Cr. 3. Repeatable. S. *Prereq:* *MUSIC 337, MUSIC 338*

Various topics in music theory including analysis, counterpoint, arranging, pedagogy, and psychology of music. Content will vary. Contact the Department of Music for the current year offering.

MUSIC 446. Electronic Music Synthesis.

(3-0) Cr. 3. F. *Prereq:* *MUSIC 246 or permission of instructor*

Techniques of digital sound synthesis, software synthesizer design, and electronic music composition.

MUSIC 464. Instrumental Administration, Materials, and Methods.

(2-0) Cr. 2. Alt. S., offered even-numbered years. *Prereq:* *Credit or enrollment in MUSIC 362B recommended*

Instructional materials and methods appropriate for teaching instrumental music in elementary, middle school, and high school music programs. Required observations in area schools. Intended for instrumental music education students.

MUSIC 465. Choral Materials and Methods.

(2-0) Cr. 2. F. *Prereq:* *Concurrent enrollment in MUSIC 358A and MUSIC 141, MUSIC 151, or MUSIC 161*

Instructional materials and methods appropriate for teaching choral music in the secondary school. Emphasis on pedagogy and rehearsal techniques. Required observations in area schools. Intended for vocal music education students.

MUSIC 466. Program Development and Evaluation in Music Education.

(2-1) Cr. 2. F. *Prereq:* *Continuation Examination passed; MUSIC 362, MUSIC 366, concurrent enrollment (1 cr.) in MUSIC 480K*

Developing a rationale for music education; music program development; evaluation of music curricula, programs and facilities; professional growth of the teacher; preparation for student teaching and the job market. Required observations in area schools.

MUSIC 472. History of American Music.

(3-0) Cr. 3. *Prereq:* *Ability to read music; 9 credits from music, American literature, American history, art history*

History and development of the sacred and secular music in North America from approximately 1600 to the present, exploring the diverse cultural backgrounds that have contributed to the variety of contemporary musical styles.

Meets U.S. Diversity Requirement

MUSIC 473. Music of the Baroque and Classical Eras.

(3-0) Cr. 3. *Prereq:* *MUSIC 383, MUSIC 384*

Offered F. 2011. Detailed survey of instrumental, vocal, choral, and keyboard music from 1600 to 1825.

MUSIC 475. Music of the Romantic Era.

(3-0) Cr. 3. *Prereq:* *MUSIC 383, MUSIC 384*

Offered F. 2012. Detailed survey of instrumental, vocal, choral, and keyboard music from 1825 to 1910.

MUSIC 476. Music of the Twentieth Century.

(3-0) Cr. 3. *Prereq:* *MUSIC 383, MUSIC 384*

Offered S 2013. Detailed survey of instrumental, vocal, choral, and keyboard music from 1900 to the present.

MUSIC 480. Field Experience for Secondary Teaching Preparation.

(Cross-listed with C I). Cr. 0.5-2. Repeatable, maximum of 2 times. F.S. *Prereq:* *Permission of area coordinator required prior to enrollment*
Observation and participation in a variety of school settings after admission to the teacher preparation program. Offered on a satisfactory-fail basis only.

MUSIC 480K. Pre-Student Teaching Experience III: Music.

(Cross-listed with C I). Cr. 1. Repeatable, maximum of 2 times. F.S. *Prereq:* *Admission to teacher education*

Participation in a K-12 school setting. Cross-listed with Music 480K. Permission of Music coordinator required prior to enrollment. Clinical Experience Level 2. Offered on a satisfactory-fail basis only.

MUSIC 490. Independent Study.

Cr. arr. Repeatable. F.S.SS. *Prereq:* *Permission of instructor; 12 credits in music, approval of department head*

MUSIC 490A. Independent Study: Education.

(Cross-listed with C I). Cr. arr. Repeatable. F.S.SS. *Prereq:* *Permission of instructor; 12 credits in music, approval of department head*

MUSIC 490B. Independent Study: Theory.

Cr. arr. Repeatable. F.S.SS. *Prereq:* *Permission of instructor; 12 credits in music, approval of department head*

MUSIC 490C. Independent Study: Composition.

Cr. arr. Repeatable. F.S.SS. *Prereq:* *Permission of instructor; 12 credits in music, approval of department head*

MUSIC 490D. Independent Study: History.

Cr. arr. Repeatable. F.S.SS. *Prereq:* *Permission of instructor; 12 credits in music, approval of department head*

MUSIC 490E. Independent Study: Literature.

Cr. arr. Repeatable. F.S.SS. *Prereq:* *Permission of instructor; 12 credits in music, approval of department head*

MUSIC 490F. Independent Study: Applied Music.

Cr. arr. Repeatable. F.S.SS. *Prereq:* *Permission of instructor; 12 credits in music, approval of department head*

MUSIC 490G. Independent Study: Conducting.

Cr. arr. Repeatable. F.S.SS. *Prereq:* *Permission of instructor; 12 credits in music, approval of department head*

MUSIC 490H. Independent Study: Honors.

Cr. arr. Repeatable. F.S.SS. *Prereq:* *Permission of instructor; 12 credits in music, approval of department head*

MUSIC 490I. Independent Study: Electronic Music.

Cr. arr. Repeatable. F.S.SS. *Prereq:* *Permission of instructor; 12 credits in music, approval of department head*

Courses primarily for graduate students, open to qualified undergraduates:**MUSIC 517R. Student Teaching: Music-Elementary.**

(Dual-listed with MUSIC 417R). (Cross-listed with C I). Cr. arr. F.S. *Prereq:* *Minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*

Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

MUSIC 517S. Student Teaching: Music-Secondary.

(Dual-listed with MUSIC 417S). (Cross-listed with C I). Cr. arr. F.S. *Prereq:* *Minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching*

Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

MUSIC 590. Special Topics.

Cr. arr. Repeatable. F.S.SS. *Prereq:* *Permission of instructor, approval of department head*

MUSIC 590A. Special Topics: Education.

Cr. arr. Repeatable. F.S.SS. *Prereq:* *Permission of instructor, approval of department head*

MUSIC 590B. Special Topics: Theory.

Cr. arr. Repeatable. F.S.SS. *Prereq:* *Permission of instructor, approval of department head*

MUSIC 590C. Special Topics: Composition.

Cr. arr. Repeatable. F.S.SS. *Prereq:* *Permission of instructor, approval of department head*

MUSIC 590D. Special Topics: History.

Cr. arr. Repeatable. F.S.SS. *Prereq:* *Permission of instructor, approval of department head*

MUSIC 590E. Special Topics: Literature.

Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor, approval of department head*

MUSIC 590F. Special Topics: Applied Music.

Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor, approval of department head*

MUSIC 590G. Special Topics: Conducting.

Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor, approval of department head*

MUSIC 590I. Special Topics: Electronic Music.

Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor, approval of department head*

Naval Science

The Department of Naval Science is embedded within the College of Liberal Arts and Sciences as an interdisciplinary program but does not offer an academic degree. The courses offered by the Department are developed by the Department of the Navy. The Naval Science Department and Naval ROTC (NROTC) Program develop individuals mentally, morally, and physically, and imbue in them the highest ideals of duty and loyalty, in order to commission them upon graduation as Navy and Marine Corps officers. Program graduates possess a basic professional background, are motivated towards careers in the Naval Service, and have a potential for future development in mind and character so as to assume the highest responsibilities of command, citizenship, and government. Emphasis is placed on the core values of courage, honor and commitment.

Naval Science courses are open to any ISU student who has met the course prerequisites. To participate in the Naval ROTC Program, students must apply through one of two programs: the NROTC Scholarship Program (full scholarship; which includes a book stipend, tuition, laboratory fees, uniforms, and a monthly stipend), or the College Program (nonscholarship, with limited financial assistance). Applicants for the Scholarship Program are selected through a comprehensive nationwide competition. Applicants for the College Program are selected by the Professor of Naval Science from among students already in attendance at, or selected for admission by, the university. The College Program involves limited financial assistance for each of the last two academic years. Upon application, students choose between the Navy Option and Marine Corps Option, for the purposes of training focus. NROTC students pursue their studies like other university students except that they must meet certain additional requirements that will prepare them to serve as naval officers upon graduation.

A Marine Corps Option student incurs a minimum 4 -year active duty military obligation as a commissioned officer after graduation; a Navy Option student incurs a minimum 5-year active duty obligation.

Further information is available from the Professor of Naval Science, Iowa State University.

While in the NROTC Program, Scholarship Program students will participate (with pay) in at-sea training cruises during the summer. College Program students will participate in at-sea training during the summer between their Junior and Senior year only. Students are also exposed to regular and extracurricular activities that teach leadership principles and help them decide which field of the Navy or Marine Corps they wish to enter. These activities also include weekly leadership laboratory periods and opportunities for involvement in several student societies.

Undergraduate Study

Naval science courses are primarily for those students in the NROTC program, however, other university students may also enroll. Students enrolled in the NROTC program must fulfill the following requirements:

N S 111	Introduction to Naval Science	3
N S 212	Seapower and Maritime Affairs	3
N S 220	Leadership and Management	3
N S 230	Navigation	3
N S 320	Naval Ship Systems I (Engineering)	3
N S 330	Naval Ship Systems II (Weapons)	3
N S 410	Naval Operations and Seamanship	3
N S 412	Leadership and Ethics	3
N S 440	Senior Naval Science Seminar	1

Marine option students will complete:

N S 111	Introduction to Naval Science	3
N S 212	Seapower and Maritime Affairs	3
N S 220	Leadership and Management	3

N S 321	Evolution of Warfare	3
N S 412	Leadership and Ethics	3
N S 421	Evolution of Amphibious Warfare	3
N S 440	Senior Naval Science Seminar	1

1. All NROTC students must complete one course in American military history or national security policy. A course in non-western culture or religion is also required of all Navy-option students.
2. All Navy option scholarship students must successfully complete MATH 165 Calculus I and MATH 166 Calculus II by the end of the sophomore year and PHYS 221 and PHYS 222 by the end of the junior year.
3. In addition to the normal Naval Science courses, all NROTC students are required to participate in laboratory periods that supplement the various academic courses. The Leadership Lab emphasizes human relations principles, teaches basic military formations, movements, commands, courtesies, and honors, and provides practice in unit leadership. Non NROTC program students enrolled in Naval Science courses are not required to participate in laboratory periods.
4. Navy option scholarship students are encouraged to major in engineering and physical sciences to meet the technological requirements of the modern Navy, however Navy-option students and Marine Corps-option students may pursue any major leading to a Bachelor's Degree.
5. The College of Liberal Arts and Sciences offers a minor in military studies. Requirements for the minor include taking a minimum of 15 credits of ROTC instruction, which may be taken from any of the three ROTC programs offered on campus. At least 6 credits must be in courses numbered 300 or above.

For basic undergraduate curriculum requirements, see Liberal Arts and Sciences, Curriculum; or Engineering, Curricula.

Courses primarily for undergraduates:

N S 111. Introduction to Naval Science.

(3-0) Cr. 3. F.

Introduction to the organization, regulations, and capabilities of the US Navy, with emphasis on mission and principal warfare components.

N S 212. Seapower and Maritime Affairs.

(3-0) Cr. 3. S.

An historical survey of sea power in terms of national domestic environments, foreign policy, and the evolution of maritime forces with trends in technology, doctrine, and tactics. The student will develop an understanding of the role the US Navy has played in the nation's history, both in peace and war. Naval events, forces and policies will be studied as elements in the shaping of the national consciousness and sense of purpose. Course content will include the development of the concept of sea power, the role of various warfare components of the Navy, the implementation of sea power as an instrument of national policy, the evolution of naval tactics, and the influence of maritime affairs around the world.

N S 220. Leadership and Management.

(3-0) Cr. 3. Alt. F., offered even-numbered years.

Introduction to the basic concepts of management and organization, their application to operations and personnel management. Experiential approach to learning principles of leadership and management by examining various management theories and their applications. Skills are developed in the areas of communication, counseling, control, direction, management, and leadership through active guided participation.

N S 230. Navigation.

(3-0) Cr. 3. S. *Prereq: Sophomore classification*

Study of the fundamentals of marine navigation used by ships at sea; includes practical exercises in piloting using visual and electronic means. In-depth discussion of laws that govern conduct of vessels in national and international waters. Course is supplemented with review and analysis of case studies involving actual navigation incidents.

N S 320. Naval Ship Systems I (Engineering).

(3-0) Cr. 3. F. *Prereq: PHYS 221, sophomore classification*

An introduction to naval engineering with emphasis on the equipment and machinery involved in the conversion of energy for propulsion and other purposes aboard the major ship types of the U.S. fleet. Basic concepts of the theory and design of steam, gas turbine, diesel, and nuclear propulsion. Introduction to ship design, stability, hydrodynamic forces, compartmentation, electrical and auxiliary systems.

N S 321. Evolution of Warfare.

(3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq: Sophomore classification*
Evolution of warfare from 3500 B.C. to contemporary times; analysis of the impact of historical precedents on modern military thought and action; emphasis on the historical development of military tactics, strategy, and technology.

N S 330. Naval Ship Systems II (Weapons).

(3-0) Cr. 3. S. *Prereq: PHYS 221, sophomore classification*
Introduction to the theory and principles of operation of naval weapon systems. Included coverage of types of weapons and fire control systems, capabilities and limitations; theory of target acquisition, identification and tracking; basics of naval ordnance.

N S 410. Naval Operations and Seamanship.

(3-0) Cr. 3. F. *Prereq: Senior classification*
Study of tactical naval operations; employs practical use of maneuvering boards together with shiphandling principles to arrive at tactical shipboard maneuvering solutions. Study also of naval command and control, communications, and the Naval Warfare Doctrine.

N S 412. Leadership and Ethics.

(3-0) Cr. 3. S. *Prereq: Requirements for NROTC students - N S 111, N S 212 or HIST 389, N S 220, N S 230, N S 320, N S 330 and N S 410*

Basic background concerning the duties and responsibilities of the junior naval officer and division officer in the areas of integrity and ethics, human resources management, personnel management, material management, and the administration of discipline. Preparation for responsibilities encountered immediately upon commissioning.

N S 421. Evolution of Amphibious Warfare.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq: Sophomore classification*
Defines the concept of amphibious operations, origins, and development from 600 B.C., focusing on the history and development of amphibious warfare, the principles and techniques of amphibious warfare and the application of principles and techniques to selected examples from recent history.

N S 440. Senior Naval Science Seminar.

(1-0) Cr. 1. F.S. *Prereq: Senior classification*
Current leadership issues in the US Navy which will challenge the newly commissioned officer. Opportunities to analyze, provide solutions, and discuss actions related to a variety of real world situations.

N S 490. Independent Study.

Cr. 1-3. Repeatable, maximum of 9 credits. *Prereq: Senior classification and prior approval of Naval Science Department Chair, 6 credits in Naval Science*
No more than 9 credits of N S 490 may be counted toward graduation.

Officer Education Programs

Iowa State University offers Reserve Officers Training Corps (ROTC) programs for the professional training of officers for the Army, Air Force, Navy and Marines.

The purpose of these programs is to provide an avenue for interested students to become reserve or regular officers in one of the United States military services, and the university regards this training as the foundation for possible careers in the military. The Air Force and the Navy require a period of active duty service upon completion of the ROTC program. Graduates from Army ROTC serve in either active Army, the Army Reserve, or the National Guard.

All students enrolled in advanced ROTC programs receive financial allowances, which are described under Student Financial Aid. Scholarships are also available for all services as outlined in the section on financial aid.

For specific courses and programs see also Air Force Aerospace Studies, Military Science, and Naval Science.

Philosophy and Religious Studies

Philosophy - Undergraduate Study

Philosophy tries to make sense of human experience and reality through critical reflection and argument. The questions it treats engage and provoke all of us, and they occupy an important place in our intellectual tradition: Are there objective standards for deciding what is right and wrong, or is morality merely a subjective matter? Is capitalism morally acceptable? Do I have a will, and is it free? How do my words and thoughts come to be about the world? Does God exist? Can machines think? How are mind and body related? Students in philosophy classes will be exposed to arguments on both sides of such questions, and they will be encouraged to develop and rationally defend their own positions.

Philosophy is not an isolated discipline. It enjoys mutually beneficial exchanges with many fields of study within the humanities and sciences. Philosophers develop tools that allow them to examine critically the assumptions and implications of the social and natural sciences, religion, and law.

The study of philosophy provides several benefits. It emphasizes rigorous understanding of problems, together with careful analysis of the strengths and weaknesses of the available solutions. It encourages clarity in the presentation of one's own ideas, as well as sensitivity in the consideration of the ideas of others. The study of philosophy therefore encourages one to develop skills and habits that are useful not only in philosophy, but in other areas as well. Philosophy students historically do well, for example, in law and medical schools.

However, one should not think that philosophy is only valuable in academic settings. Philosophical questions arise in many areas of family, business, and civic life. Philosophers strive to face these questions with the kind of intellectual honesty that leads to respect for the views of others, and continual reassessment of their own. In this way, the study of philosophy fosters values and attitudes that are helpful for responding to a lifetime of intellectual challenges.

The degree program in philosophy requires a minimum of 33 credits, plus the zero credit PHIL 492 course. The following courses compose the core program of the major from which 15 credits shall be chosen. Additionally, two courses at the 400 level or above (other than PHIL 490 and PHIL 492) are required.

Ethical theory: One course required.

PHIL 330	Ethical Theory	3
PHIL 335	Social and Political Philosophy	3
PHIL 535	Contemporary Political Philosophy	3

History: Two courses required.

PHIL 310	Ancient Philosophy	3
PHIL 314	17th Century Philosophy	3
or PHIL 315	18th Century Philosophy	

Metaphysics and Epistemology: One course required.

PHIL 364	Metaphysics: God, Minds, and Matter	3
PHIL 366	Truth, Belief and Reason	3
PHIL 380	Philosophy of Science	3

Logic:

PHIL 207 Introduction to Symbolic Logic is required.

Minor in Philosophy

The department offers a minor in philosophy which may be earned by completing a total of 15 credits in philosophy. At least 9 credits must be in courses numbered 300 or above. Students may want to emphasize specific areas by taking 15 hours of courses chosen from the following:

Philosophy of Science:

PHIL 201	Introduction to Philosophy	3
PHIL 206	Introduction to Logic and Scientific Reasoning	3
or PHIL 207	Introduction to Symbolic Logic	
PHIL 314	17th Century Philosophy	3
PHIL 315	18th Century Philosophy	3
PHIL 380	Philosophy of Science	3
PHIL 381	Philosophy of the Social and Behavioral Sciences	3
PHIL 480	Controversies in Science	3
PHIL 483	Philosophy of Biology	3
PHIL 485	Philosophy of Physics	3

History of Philosophy:

PHIL 201	Introduction to Philosophy	3
PHIL 310	Ancient Philosophy	3
PHIL 314	17th Century Philosophy	3
PHIL 315	18th Century Philosophy	3
PHIL 316	19th Century Continental Philosophy	3
PHIL 317	20th and 21st Century Continental Philosophy	3

PHIL 318	20th and 21st Century Anglo-American Philosophy	3
PHIL 460	Epistemology and Metaphysics	3

Law, Social Values and Policy:

PHIL 230	Moral Theory and Practice	3
PHIL 235	Ethical Issues in A Diverse Society	3
PHIL 331	Moral Problems in Medicine	3
PHIL 332	Philosophy of Law	3
PHIL 333	Family Ethics	3
PHIL 335	Social and Political Philosophy	3
PHIL 336	Bioethics and Biotechnology	3
PHIL 338	Feminist Philosophy	3
PHIL 343	Philosophy of Technology	3
PHIL 430	Value Theory	3
PHIL 535	Contemporary Political Philosophy	3

Communication Proficiency requirement: The department requires a grade of C or better in each of ENGL 150 and ENGL 250 (or ENGL 250H), and approval of writing by instructor of any philosophy course 300 level or above, to be designated by the student.

Religious Studies - Undergraduate Study

Religious studies gives students the opportunity to investigate and reflect on the world's religions in an objective, critical, and appreciative manner. Though there is emphasis in religious studies on the wide variety of religious phenomena as well as on the various methods in the study of religion, the aim is to help students develop their own integrated understanding of the nature of religion and its role in individual and social life.

Graduates of the religious studies program have knowledge of the religious diversity in the United States and the world. They have the ability to interpret religion empathetically and critically and to compare and contrast historical and contemporary differences and similarities of religious systems. They understand ways in which religion influences and is influenced by the historical, social, and cultural contexts in which religious systems function. Graduates often pursue careers in non-profit, community organizations; apply to professional schools or graduate programs; or enter seminaries to prepare for ministry.

The program provides students with the following opportunities: to major or minor in religious studies, to fulfill group requirements, to take religious studies courses that are integrated into another major, to take religious studies courses as electives, and to develop an interdisciplinary studies major. (See the professor in charge of the religious studies program for advice.)

The major in religious studies seeks to provide both breadth and depth. Breadth is provided through the exploration of the world's various religious traditions and through exposure to a variety of theoretical approaches and methodologies in the academic study of religion. Depth is achieved through specialized courses in particular religious traditions and particular issues in the study of religions, culminating in research seminars. The objective is to expose the student to various components of the discipline of Religious Studies and by doing so develop skills that are valuable in a number of careers and that provide the necessary foundation for pursuing graduate studies.

Students who select Religious Studies as a major usually do so with an interest in complementing another major. An inherently interdisciplinary field, Religious Studies is an ideal complement for another liberal arts major but can also complement other fields, such as natural sciences, business, and education.

Students pursuing a major in religious studies must complete a minimum of 33 credits, including the following requirements:

RELIG 205	Introduction to World Religions	3
or RELIG 210	Religion in America	
Two courses from Bible or Western Religions		
RELIG 220	Introduction to the Bible	
RELIG 242	History of Christianity: Beginnings to the Reformation	
RELIG 243	History of Christianity: The Reformation to the Present	
RELIG 280	Introduction to Catholicism	
RELIG 321	Old Testament	
RELIG 322	New Testament	3
RELIG 333	Introduction to Judaism	3
or RELIG 358	Introduction to Islam	
One course from Asian Religions		
RELIG 352	Religious Traditions of India	3

RELIG 355	Religious Traditions of China	
One course from Religion, Culture and Society		
RELIG 324	Christianity and Science	3
RELIG 334	African American Religious Experience	
RELIG 336	Women and Religion	
RELIG 342	Religion and U.S. Latino/a Literature	
RELIG 439	Goddess Religions	
RELIG 377	Social Dimensions of Religion	
RELIG 380	Catholic Social Thought	
RELIG 453	Buddhism	
Required Courses		
RELIG 475	Seminar: Issues in the Study of Religion	3
RELIG 485	Theory and Method in Religious Studies	3
Minimum of 12 credits of elective Religious Studies courses		12
Total Credits		33

The program offers a minor that may be earned by completing a total of 15 credits in religious studies including either RELIG 205 Introduction to World Religions or RELIG 210 Religion in America. Nine hours must be in courses at the 300 level or above (no more than 3 hours of seminar and no more than 3 hours of independent study).

Communication Proficiency requirement: The department requires a grade of C or better in each of ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors), and requires one 300 level course in religious studies in which writing is evaluated as acceptable.

Students may choose to do a senior thesis under the supervision of a religious studies faculty adviser. This option may earn 3-6 credits toward the completion of the major.

Philosophy - Graduate Study

The department offers work for a graduate minor in philosophy. For those taking the M.A. or M.S., the minor requirement is two courses above 300 (but not PHIL 490 each taken in conjunction with PHIL 590. For those taking the Ph.D., the requirement is four courses above 300, at least one of which is above 400 (but not PHIL 490) each taken in conjunction with PHIL 590. Interested students should ask the chair to assign a minor adviser.

The department participates in the interdepartmental program in general graduate studies. (See Index.)

Religious Studies - Graduate Study

The program offers courses for nonmajor graduate credit in religious studies as supporting work in other fields. Religious studies may also be one of the three areas used for the interdisciplinary graduate studies master's degree.

Courses primarily for undergraduates:

PHIL 201. Introduction to Philosophy.

(3-0) Cr. 3. F.S.SS.

It has been rumored that the unexamined life is not worth living. Philosophy is an attempt to begin examining life by considering such questions as: What makes us human? What is the world ultimately like? How should we relate to other people? Is there a god? How can we know anything about these questions? Understanding questions of this kind and proposed answers to them is what this course is all about.

PHIL 206. Introduction to Logic and Scientific Reasoning.

(3-0) Cr. 3. F.S.SS.

Basic principles of critical reasoning and argument evaluation. A consideration of basic forms of argumentation in science and everyday life. Application to contemporary issues and controversies.

PHIL 207. Introduction to Symbolic Logic.

(Cross-listed with LING). (3-0) Cr. 3. S.

Introduction to fundamental logical concepts and logical symbolism. Development of natural deduction through first order predicate logic with identity. Applications to arguments in ordinary English and to philosophical issues. Linguistics majors should take LING/PHIL 207 as early as possible.

PHIL 230. Moral Theory and Practice.

(3-0) Cr. 3. F.S.SS.

Investigation of moral issues in the context of major ethical theories of value and obligation; e.g., punishment, abortion, economic justice, job discrimination, world hunger, and sexual morality. Emphasis on critical reasoning and argument analysis.

PHIL 235. Ethical Issues in A Diverse Society.

(3-0) Cr. 3. S.

This course will examine a range of arguments on diversity issues. Topics will include: the social status of women, the moral status of sexuality and homosexuality, the nature and role of racism in contemporary society, the relationship between biology, gender roles and social status, and various proposals for change from a variety of political perspectives.

Meets U.S. Diversity Requirement

PHIL 310. Ancient Philosophy.(Cross-listed with CL ST). (3-0) Cr. 3. F. *Prereq: PHIL 201*

Survey of ancient Greek philosophy, focusing on the pre-Socratics, Plato, and Aristotle. Questions concerning being, knowledge, language, and the good life are treated in depth.

PHIL 314. 17th Century Philosophy.(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: PHIL 201*

Readings from philosophers such as Hobbes, Descartes, Spinoza, Leibniz, and Locke. Changing conceptions of knowledge, self, and deities in response to Galileo's new science and post-reformation challenge to ecclesiastical authority.

PHIL 315. 18th Century Philosophy.(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: PHIL 201*

Readings from philosophers such as Berkeley, Hume, and Kant. Development of Enlightenment thought. Issues include idealism, causation, freedom, and knowledge regarding science, ethics, and deities.

PHIL 316. 19th Century Continental Philosophy.(3-0) Cr. 3. F. *Prereq: PHIL 201*

The thought of Hegel, Marx, Nietzsche, and their contemporaries. Various perspectives on the philosophy of history, the nature of reason and subjectivity, the contrast between dialectical and nondialectical philosophy, and the relationship between philosophy and society.

PHIL 317. 20th and 21st Century Continental Philosophy.(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq: PHIL 201*

Major movements of 20th and 21st century thought, such as Phenomenology, Critical Theory, Post-structuralism, Postmodernism, and Feminism. Issues include the assumptions and limits of Western metaphysics, the nature of reason, the relationship between language and power.

PHIL 318. 20th and 21st Century Anglo-American Philosophy.(3-0) Cr. 3. S. *Prereq: PHIL 201*

Major movements in recent and contemporary philosophy such as realism, logical positivism, ordinary language philosophy, and naturalism. Russell, Wittgenstein, Quine and other leading figures. Topics include knowledge of the material world, mind, language, values, and philosophical method.

PHIL 320. Existentialism and Its Critics.(3-0) Cr. 3. F. *Prereq: PHIL 201*

An investigation of Existentialism and its critics in historical and cultural context. Emphasis on existential phenomenology and French existentialism, and on criticisms. Existential Marxism and Heidegger's later philosophy.

PHIL 330. Ethical Theory.(3-0) Cr. 3. F. *Prereq: PHIL 201 or PHIL 230*

Study of major theories of morality and the good life. Includes such topics as moral psychology, practical reasoning, and virtue theory.

PHIL 331. Moral Problems in Medicine.(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: PHIL 230 or junior classification*

In-depth study of some of the central moral problems arising in medicine, e.g., abortion, euthanasia, patients' rights, health care professionals' duties and responsibilities, allocation of medical resources. Major moral theories will be examined and applied.

PHIL 332. Philosophy of Law.(Cross-listed with CJ ST). (3-0) Cr. 3. F.S. *Prereq: PHIL 201 or PHIL 230*

Extent of our obligation to obey the law; what constitutes just punishment; how much of the immoral should be made illegal? Relation of these questions to major theories of law and the state. Discussion of such concepts as coercion, equality, and responsibility.

PHIL 333. Family Ethics.(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: 3 credits in philosophy*
Moral dimensions of marriage and love, parent-child relations, domestic work, and moral education. Can parents and children be friends? What do children "owe" their parents? Is there a feminist mode of moral thinking?.**PHIL 334. Environmental Ethics.**(Cross-listed with ENV S). (3-0) Cr. 3. F. *Prereq: 3 credits in philosophy or junior classification*

Thorough study of some of the central moral issues arising in connection with human impact on the environment, e.g., human overpopulation, species extinction, forest and wilderness management, pollution. Several world views of the proper relationship between human beings and nature will be explored.

PHIL 335. Social and Political Philosophy.(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: PHIL 201 or PHIL 230*

Foundations of social and political life. The basis of political organization, the nature of social and political institutions, rights and authority, justice. Original texts.

PHIL 336. Bioethics and Biotechnology.(3-0) Cr. 3. *Prereq: PHIL 201 or PHIL 230 or PHIL 235*

In-depth study of some central moral issues in the life sciences, e.g., genetic screening and testing, genetically engineered plants and animals, risk analysis, biotechnology patents, research ethics, biodiversity, the impact of biotechnology on society and the environment. Major moral theories will be discussed and applied. (Phil 336 contains almost no similarities to Phil 331.)

PHIL 338. Feminist Philosophy.(Cross-listed with W S). (3-0) Cr. 3. F. *Prereq: 3 credits in philosophy or women's studies recommended*

A critical, theoretical examination of the oppression of women, especially as it relates to issues of race, class, and sexual orientation. How concepts such as sex and gender, self and other, nature and nurture, complicate our understanding of what it means to be a woman. Historical and contemporary feminist philosophers addressing topics such as violence, sexuality, pornography, political power, family structure and women's paid and unpaid labor.

Meets U.S. Diversity Requirement

PHIL 340. Aesthetics.(3-0) Cr. 3. F. *Prereq: PHIL 201 or PHIL 230*

Is liking all there is to appreciating works of art or natural beauty? We will examine our appreciative experiences, talk about such experiences (e.g., art criticism), and what makes them valuable. Do the different arts have common values? How are their differences important?.

PHIL 343. Philosophy of Technology.(Cross-listed with T SC). (3-0) Cr. 3. F.S. *Prereq: 6 credits of social science or T SC 341 and 3 credits of social science*

Moral and other philosophical problems related to developments in technology. Topics may include conditions under which technological innovations contribute to human emancipation, relationship of technology and democracy, utility and limits of technical rationality, and problems of ensuring that benefits of technological advance are communally shared. Topics discussed with reference to such issues as contemporary developments in microelectronics, technology transfer to the Third World, etc.

PHIL 350. Philosophy of Religion.(Cross-listed with RELIG). (3-0) Cr. 3. F. *Prereq: PHIL 201*

The value and truth of religious life and belief. Mystical experience; religious faith and language; arguments for God's existence; the problem of evil; miracles; and religion and morality. Historical and contemporary readings.

PHIL 364. Metaphysics: God, Minds, and Matter.(3-0) Cr. 3. S. *Prereq: 3 credits in philosophy*

A survey of classical and contemporary views on some basic metaphysical issues. Issues discussed include: Does God exist? Do you have a mind and, if so, how does it relate to your body? What is the nature of cause and effect? Do objects have any essential properties? How can we account for properties objects have in common?.

PHIL 366. Truth, Belief and Reason.(3-0) Cr. 3. F. *Prereq: PHIL 201 or permission of instructor*

This course focuses on significant topics in theory of knowledge, including the value of true beliefs, the role of sense experience in supporting our theoretical views, and the place of reason in human nature. Historical and contemporary views will be considered.

PHIL 380. Philosophy of Science.(3-0) Cr. 3. F. *Prereq: PHIL 201 or 6 credits in a science*

Introduction to the philosophy of science. A variety of basic problems common to the natural and social sciences: the nature of explanation, the structure of theories, the unity of science, and the distinction between science and nonscience.

PHIL 381. Philosophy of the Social and Behavioral Sciences.(3-0) Cr. 3. S. *Prereq: PHIL 201 or 6 credits in the social sciences*

Methodological, ideological, and doctrinal issues about the social and behavioral sciences against the background of influence of the natural sciences. Focus is on the historical and cultural background of 19th and 20th century western thought.

PHIL 398. Cooperative Education.

Cr. R. F.S.SS. *Prereq: Permission of the department cooperative education coordinator; junior classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

PHIL 430. Value Theory.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. *S. Prereq: PHIL 230*

Theoretical and normative issues in ethics, aesthetics, religious thought, or political philosophy. Topics vary each time offered.

PHIL 450. Persons and Causes.

(3-0) Cr. 3. Repeatable, maximum of 1 times. *F. Prereq: 3 credits in philosophy; PHIL 207 strongly encouraged*

Personal identity, agency, free will, moral responsibility, causation, future contingents, and time will be discussed. What makes a person the same person over time? Do humans have free will? Are we not morally responsible if our actions are inevitable consequences of the past and the laws of nature? What distinguishes causes from non-causes? Are there facts about the future?.

PHIL 460. Epistemology and Metaphysics.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. *S. Prereq: 6 credits in philosophy*
Issues in epistemology and metaphysics. Topics vary each time offered.

PHIL 465. Brains, Minds, and Computers.

(3-0) Cr. 3. *F. Prereq: PHIL 201*

Examination of concepts such as computability, intelligence, programming, and free will; and of arguments about whether any human capacity is forever beyond realization in a machine.

PHIL 480. Controversies in Science.

(3-0) Cr. 3. Repeatable. *S. Prereq: 3 credits in philosophy or 6 credits in a natural or social science*

Philosophical treatment of a branch of science that has (or has had) significant social, political, religious and/or moral implications. Possible topics include: the IQ debate, implications of Darwinism, the Galileo affair, the role of values in science, critical analysis of current science policy (e.g., the Human Genome Project).

Topics will be arranged to meet the needs of interested students. Often team taught by a philosopher and a scientist from the relevant discipline.

PHIL 483. Philosophy of Biology.

(3-0) Cr. 3. *S. Prereq: 3 credits in philosophy or 3 credits in biology*

Biology is powerful, both as a science and in its effects on our culture. Philosophy of biology evaluates this power. Possible topics include: What makes sciences such as evolutionary theory, ecology or molecular biology so good at explaining things? What is life? Can evolution account for design? What role does chance play in evolution? Has there been progress in the evolution of life on earth? What can sociobiology tell us about human nature, behavior and culture?.

PHIL 485. Philosophy of Physics.

(3-0) Cr. 3. *Prereq: 3 credits in Philosophy or 3 credits in Physics*

S. Conceptual and philosophical issues relating to the interpretation of theories in classical and modern physics. May include one or more of the following topics: the relationship between mathematics and the physical world; Newtonian physics (determinism and predictability); thermodynamics and statistical physics (the nature of probability; entropy and the direction of time); relativistic physics (indeterminism; realism and nonlocality; consciousness and the role of the observer).

PHIL 490. Independent Study.

Cr. 1-4. Repeatable, maximum of 9 credits. *Prereq: 6 credits in philosophy; permission of instructor, approval of chair.*

Guided reading and research on special topics selected to meet needs of advanced students. No more than 9 credits of Phil 490 may be counted toward graduation.

PHIL 490H. Independent Study, Honors.

Cr. 1-4. Repeatable, maximum of 9 credits. *Prereq: 6 credits in philosophy; permission of instructor, approval of chair.*

Guided reading and research on special topics selected to meet needs of advanced students. No more than 9 credits of Phil 490 may be counted toward graduation.

PHIL 492. Graduating Senior Survey.

Cr. R. F.S. *Prereq: Graduating senior*

Final presentation for graduation and the future. Outcomes assessment activities. Offered on a satisfactory-fail basis only.

PHIL 496. Ecology and Society.

(Dual-listed with PHIL 596). (3-0) Cr. 3. *Prereq: Graduate classification in biological or environmental sciences/studies with at least one course in ecology*

Analysis of conceptual and methodological debates in ecology. Historical development of competing research traditions and philosophies. Topics include i) methodological issues in ecological science, ii) conceptual issues in theoretical ecology, iii) conceptual issues in applied ecology, iv) relation of ecology to environmental and social issues.

Courses primarily for graduate students, open to qualified undergraduates:

PHIL 535. Contemporary Political Philosophy.

(Cross-listed with POL S). (3-0) Cr. 3. *Alt. S., offered odd-numbered years.*

Prereq: 6 credits of philosophy or political science

Examination of theories of justice proposed by contemporary political philosophers. Analysis of the philosophical foundations of perspectives such as liberalism, libertarianism, communitarianism, socialism, feminism. Normative assessments of socio-political institutions.

PHIL 548. Summer Bioethics Workshop for Teachers.

Cr. 1. SS.

Topics include moral theory, pedagogical issues in teaching bioethics, and substantive current issues in bioethics.

PHIL 590. Special Topics in Philosophy.

Cr. 2-4. Repeatable. *Prereq: Permission of instructor, 9 credits in philosophy*

PHIL 590A. Special Topics in Philosophy: History of Philosophy.

Cr. 2-4. Repeatable. *Prereq: Permission of instructor, 9 credits in philosophy*

PHIL 590B. Special Topics in Philosophy: Epistemology and Metaphysics.

Cr. 2-4. Repeatable. *Prereq: Permission of instructor, 9 credits in philosophy*

PHIL 590C. Special Topics in Philosophy: Value Theory.

Cr. 2-4. Repeatable. *Prereq: Permission of instructor, 9 credits in philosophy*

PHIL 590D. Special Topics in Philosophy: Logic and Philosophy of Science.

Cr. 2-4. Repeatable. *Prereq: Permission of instructor, 9 credits in philosophy*

PHIL 596. Ecology and Society.

(Dual-listed with PHIL 496). (3-0) Cr. 3. *Prereq: Graduate classification in biological or environmental sciences/studies with at least one course in ecology*

Analysis of conceptual and methodological debates in ecology. Historical development of competing research traditions and philosophies. Topics include i) methodological issues in ecological science, ii) conceptual issues in theoretical ecology, iii) conceptual issues in applied ecology, iv) relation of ecology to environmental and social issues.

Courses primarily for undergraduates:

RELIG 205. Introduction to World Religions.

(3-0) Cr. 3. F.S.SS.

An introduction to the academic study of religions, including myths, beliefs, rituals, values, social forms. Examples chosen from oral cultures and major religions of the world.

Meets International Perspectives Requirement.

RELIG 210. Religion in America.

(3-0) Cr. 3. F.S.SS.

Introductory study of the major beliefs, practices, and institutions of American Judaism, Catholicism, Protestantism, and Islam with emphasis on the diversity of religion in America, and attention to issues of gender, race, and class.

Meets U.S. Diversity Requirement

RELIG 220. Introduction to the Bible.

(3-0) Cr. 3. F.S.

Basic overview of the contents of the Old and New Testament in light of their ancient socio-historical background, and with attention to a variety of interpretations and relevance to modern American society.

RELIG 242. History of Christianity: Beginnings to the Reformation.

(3-0) Cr. 3. F.S.SS.

A survey of the major historical developments in Christian thought and practice that shaped Christianity from the time of Jesus through the late medieval period. Attention given to significant persons and major events, including those involving relations with Judaism and Islam.

Meets International Perspectives Requirement.

RELIG 243. History of Christianity: The Reformation to the Present.

(3-0) Cr. 3. F.S.SS.

A survey of the major events, issues, and persons that contributed to the Protestant Reformation, the Catholic Counter-Reformation, and the proliferation of Christian denominations. Attention to selected responses of churches to major sixteenth-early twenty-first century developments.

RELIG 280. Introduction to Catholicism.

(3-0) Cr. 3. F.

An explanation of the beliefs, spirit, and practices of Roman Catholicism, including its understanding of God, sacramentality, the human person, and community, and its relationship to other forms of Christianity and other world religions.

RELIG 321. Old Testament.

(3-0) Cr. 3. F.

An in-depth study of the literature and religion of ancient Israel in light of recent archaeological discoveries, research about the ancient Near East, and a variety of interpretations.

RELIG 322. New Testament.

(3-0) Cr. 3. S.

A detailed survey of the sacred scriptures of Christianity in light of recent archaeological discoveries and historical research about their Greco-Roman and Jewish background.

RELIG 323. Science and Religion.(Cross-listed with HIST). (3-0) Cr. 3. *Prereq: Sophomore classification*

History of changing interplay of science and religion in our understanding nature, from the trial of Galileo to the reception of Darwin.

Meets International Perspectives Requirement.

RELIG 324. Christianity and Science.(3-0) Cr. 3. S. *Prereq: BIOL 101, or another science course taught at ISU*

Examines major challenges to Christianity's understandings of creation posed by the sciences; attention given to the relations of Christianity and science, and to Christianity's responses to ecological issues.

RELIG 328. American Indian Religions.

(Cross-listed with AM IN). (3-0) Cr. 3.

An introduction to the beliefs and rituals of Native American religious traditions, with attention to cultural and historical contexts and implications.

Meets U.S. Diversity Requirement

RELIG 333. Introduction to Judaism.

(3-0) Cr. 3.

An introduction to basic Judaism. Special attention is given to Jewish sacred texts, rituals, social practices, and modern forms.

Meets International Perspectives Requirement.

RELIG 334. African American Religious Experience.(Cross-listed with AF AM). (3-0) Cr. 3. F. *Prereq: Prior course work in Religious Studies or African American Studies recommended*

Examination of African-American experience from the perspective of black religion with attention to political, economic, social, theological and artistic expressions, including music, that serve the life of African-American communities."

Meets U.S. Diversity Requirement

RELIG 336. Women and Religion.(Cross-listed with W S). (3-0) Cr. 3. F. *Prereq: RELIG 205, RELIG 210 or W S 201 recommended*

Examines the status of women in various religions, feminist critiques of religious structures and belief systems, and contemporary women's spirituality movements.

Meets U.S. Diversity Requirement

RELIG 340. Magic, Witchcraft, and Religion.(Dual-listed with RELIG 540). (Cross-listed with ANTHR). (3-0) Cr. 3. S. *Prereq: ANTHR 201 or ANTHR 306*

Survey of global religious belief and practice from an anthropological perspective. Emphasis on myth and ritual, shamanism, magic, witchcraft, beliefs in spirits, conceptions of the soul, mind and body relationships, and healing and therapeutic practices. Discussion of religious response to dramatic political and social change; effects of globalization on religious practice.

Meets International Perspectives Requirement.

RELIG 342. Religion and U.S. Latino/a Literature.

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

A study of the religious behavior and attitudes expressed in the literature of Mexican Americans, Puerto Ricans, Cuban Americans and other groups of people living in the U.S. who trace their ancestry to the Spanish-speaking countries of Latin America.

Meets U.S. Diversity Requirement

RELIG 348. Psychology of Religion.(Cross-listed with PSYCH). (3-0) Cr. 3. *Prereq: Nine credits in psychology*

Survey of psychological theory and research investigating religious and spiritual attitudes, beliefs and practices.

RELIG 350. Philosophy of Religion.(Cross-listed with PHIL). (3-0) Cr. 3. F. *Prereq: PHIL 201*

The value and truth of religious life and belief. Mystical experience; religious faith and language; arguments for God's existence; the problem of evil; miracles; and religion and morality. Historical and contemporary readings.

RELIG 352. Religious Traditions of India.(3-0) Cr. 3. *Prereq: Prior course work in World Religions or Anthropology required*

Examines a variety of the religious traditions of India, including Hindu, Jain, Buddhist, Sikh, and South Asian Islamic traditions, through texts, practices, and media.

Meets International Perspectives Requirement.

RELIG 355. Religious Traditions of China.

(3-0) Cr. 3. F.

The Religious Traditions of China. Chinese religious traditions in ancient and modern expression; indigenous forms of religious practice; development of high/deep traditions of Confucianism and Taoism; impact of religions such as Buddhism, Islam, and Christianity. Religious influences and changes in contemporary China.

Meets International Perspectives Requirement.

RELIG 356. African Religions.(3-0) Cr. 3. *Prereq: Prior course work in African, African-American or Religious Studies or Anthropology required*

An introduction to the teachings, practices, and history of the religions that originated in Africa and other religions that have gained substantial followings among African peoples.

Meets International Perspectives Requirement.

RELIG 358. Introduction to Islam.

(3-0) Cr. 3.

An introduction to Islamic religion, culture, and society from 700 to the present.

Meets International Perspectives Requirement.

RELIG 360. Religious Ethics.

(3-0) Cr. 3.

Investigates different religious ethical theories and traditions of reasoning about practical moral issues (e.g., abortion, the just distribution of wealth, environmental ethics). Explores in detail the relationship between religious beliefs and moral practice.

RELIG 367. Christianity in the Roman Empire.

(Cross-listed with CL ST). (3-0) Cr. 3.

An historical introduction to the rise of Christianity in the Roman empire, with special attention to the impact of Greco-Roman culture on the thought and practice of Christians and the interaction of early Christians with their contemporaries.

RELIG 370. Religion and Politics.(Cross-listed with POL S). (3-0) Cr. 3. *Prereq: Sophomore classification.*

The interaction of religion and politics in the U.S. from both an historical and contemporary perspective, as well as the role of religion in politics internationally.

RELIG 376. Classical Archaeology.

(Cross-listed with ANTHR, CL ST). (3-0) Cr. 3. S.

Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.

Meets International Perspectives Requirement.

RELIG 376A. Classical Archeology: Bronze Age and Early Iron Age Greece.

(Cross-listed with ANTHR, CL ST). (3-0) Cr. 3. S.

Bronze Age (Minoan and Mycenaean palatial cultures) and Early Iron Age Greece (ca 3000-700 BCE). Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.

Meets International Perspectives Requirement.

RELIG 376B. Classical Archeology: Archaic through Hellenistic Greece (ca 700-30 BCE).

(Cross-listed with ANTHR, CL ST). (3-0) Cr. 3. S.

Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.

Meets International Perspectives Requirement.

RELIG 377. Social Dimensions of Religion.

(Cross-listed with SOC). (3-0) Cr. 3. *Prereq: Prior course work in Religious Studies recommended.*

The influence of religion in society, both as a conservator of values and as a force for social change.

RELIG 380. Catholic Social Thought.

(3-0) Cr. 3. S.

Examines biblical roots of and major developments in Catholic social thought. Contemporary issues such as human rights, economic justice, the environment, and war and peace will be treated using principles of Catholic ethics, social analysis, official church documents, and contributions of notable theologians and activists.

RELIG 384. Religion and Ecology.

(Cross-listed with ENV S). (3-0) Cr. 3.

Introduction to concepts of religion and ecology as they appear in different religious traditions, from both a historical and contemporary perspective. Special attention to religious response to contemporary environmental issues. Meets International Perspectives Requirement.

RELIG 439. Goddess Religions.

(Cross-listed with W S). (3-0) Cr. 3. *Prereq: RELIG 205 recommended*

Exploration of the foundational myths of Goddess spirituality, including historical and cross-cultural female images of the divine and their modern usage by American women.

RELIG 453. Buddhism.

(3-0) Cr. 3. S.

The various Buddhist paths to realize enlightenment and freedom. Special attention to meditation and yoga and their relationship to altered states of consciousness and to social contexts.

Meets International Perspectives Requirement.

RELIG 475. Seminar: Issues in the Study of Religion.

(3-0) Cr. 3. Repeatable, maximum of 6 times. *Prereq: 6 credits in religious studies*

Topic changes each time offered. Closed to freshmen. Sophomores must have approval of instructor.

RELIG 485. Theory and Method in Religious Studies.

(3-0) Cr. 3. *Prereq: 6 credits in Religious Studies or permission of instructor*

Examines the variety of theories and methods employed in the study of religion. Application of these methods to various religions of the world.

RELIG 490. Independent Study.

Cr. 1-3. Repeatable, maximum of 9 credits. *Prereq: 6 credits in religious studies and permission of instructor, approval of chairman.*

Guided reading and research on special topics selected to meet the needs of advanced students. No more than 9 credits of Relig 490 may be counted toward graduation.

RELIG 490H. Independent Study: Honors.

Cr. 1-3. Repeatable, maximum of 9 credits. *Prereq: 6 credits in religious studies and permission of instructor, approval of chairman.*

Guided reading and research on special topics selected to meet the needs of advanced students. No more than 9 credits of Relig 490 may be counted toward graduation.

RELIG 491. Senior Thesis.

Cr. 3.

Written under the supervision of a Religious Studies faculty advisor.

RELIG 494. Special Studies in Religious Research Languages.

Cr. 2-3. Repeatable. *Prereq: 6 credits in Religious Studies and permission of instructor*

Courses primarily for graduate students, open to qualified undergraduates:**RELIG 540. Magic, Witchcraft, and Religion.**

(Dual-listed with RELIG 340). (Cross-listed with ANTHR). (3-0) Cr. 3. S. *Prereq: 6 credits in anthropology, ANTHR 201 or ANTHR 306 recommended*

Survey of global religious belief and practice from an anthropological perspective. Emphasis on myth and ritual, shamanism, magic, witchcraft, beliefs in spirits, conceptions of the soul, mind and body relationships, and healing and therapeutic practices. Discussion of religious response to dramatic political and social change; effects of globalization on religious practice.

Meets International Perspectives Requirement.

RELIG 590. Special Topics in Religious Studies.

Cr. 1-3. Repeatable. *Prereq: Permission of instructor, 9 credits in religious studies*

Undergraduate Study

For the undergraduate curriculum in liberal arts and sciences, major in physics, leading to the degree bachelor of science, see Liberal Arts and Sciences, Curriculum.

Physics and astronomy are basic natural sciences which attempt to describe and provide an understanding of both our world and our universe. Physics serves as the underpinning of many different disciplines including the other natural sciences and technological areas. Graduates are proficient in the methods of rigorous scientific analysis, relevant mathematical techniques, and modern computational and laboratory methods. They have a broad knowledge of physics, including mechanics, electricity and magnetism, thermodynamics, and modern physics. They are able to communicate clearly and effectively at general and technical levels. They are prepared to pursue a wide range of careers as a professional physicist, astronomer, or science educator. They are also prepared to pursue advanced studies and careers in areas as diverse as engineering, medicine, law, and business administration. Many opportunities exist for students who terminate their studies with a bachelor's degree, especially when combined with technology studies in other areas. Students who meet the necessary scholastic standards often continue their studies in a graduate college, exploring and contributing to new developments in the field.

The department normally expects each student majoring in physics to complete at least the following courses:

PHYS 241	Principles and Symmetries in Classical Physics I	5
PHYS 242	Principles and Symmetries in Classical Physics II	5
PHYS 321	Introduction to Modern Physics I	3
PHYS 321L	Introductory Laboratory in Modern Physics I	1
PHYS 322	Introduction to Modern Physics II	3
PHYS 322L	Introductory Laboratory in Modern Physics II	1
PHYS 304	Thermal Physics	3
PHYS 306	Physics of Wave Motion	3
PHYS 361	Classical Mechanics	3
PHYS 362	Intermediate Mechanics	3
PHYS 364	Electricity and Magnetism I	3
PHYS 365	Electricity and Magnetism II	3
MATH 317	Theory of Linear Algebra	4
and 3 credits of laboratory work chosen from		3
PHYS 310	Electronic Instrumentation for Experimental Physics	
PHYS 311	Intermediate Laboratory	
PHYS 311T	Intermediate Laboratory for Secondary Physics Teachers	
PHYS 470L	Applied Physics Laboratory	
or		
ASTRO 344L	Astronomy Laboratory	

*PHYS 221 and PHYS 222 may be substituted for PHYS 241 and PHYS 242.

All students are required to earn at least 5 credits in laboratory work in physics in addition to the laboratory components of PHYS 241 and PHYS 242. These 5 credits must be in courses numbered 304 or higher or in approved substitutions. All students must earn at least 26 credits in physics and astronomy courses numbered 304 or higher. The basic list of expected courses is not a rigid requirement and changes in this basic list will be approved by the department curriculum committee on recommendation of the student's adviser when such changes will better serve the student's needs. In particular, students planning a physics major and also seeking certification for high school teaching may, with the approval of their adviser, follow a significantly different program designed to meet their particular needs; these students should consult the department for further information. Further information concerning programs of study, including sample degree programs, is available from the department.

Students majoring in physics who wish an emphasis in astronomy/astrophysics should consider a minor in astronomy (see below). Those planning graduate work in physics or astronomy/astrophysics should add to the basic list the courses PHYS 480 and PHYS 481. Other useful courses include:

MATH 365	Complex Variables with Applications	3
PHYS 496	Modern Optics	3
STAT 447	Statistical Theory for Research Workers	4
One or more of the following may also be added according to interest		
ASTRO 405	Astrophysical Cosmology	
PHYS 421	Ultrafast Laser Science and Spectroscopy	
PHYS 432	Molecular and Cell Biophysics	

Physics and Astronomy

PHYS 461	Physics of Biomolecules
PHYS 511	Condensed Matter Physics I
PHYS 526	Particle and Nuclear Physics
PHYS 541	General Relativity

The department offers a minor in physics which may be earned by completing 20 credits in physics courses chosen as follows:

PHYS 241	Principles and Symmetries in Classical Physics I	5
PHYS 242	Principles and Symmetries in Classical Physics II	5
PHYS 321	Introduction to Modern Physics I	3

One of the following

PHYS 321L	Introductory Laboratory in Modern Physics I
PHYS 322L	Introductory Laboratory in Modern Physics II
PHYS 310	Electronic Instrumentation for Experimental Physics
PHYS 311	Intermediate Laboratory
PHYS 311T	Intermediate Laboratory for Secondary Physics Teachers

Other acceptable courses

PHYS 304	Thermal Physics
PHYS 306	Physics of Wave Motion
PHYS 322	Introduction to Modern Physics II
PHYS 361	Classical Mechanics
PHYS 362	Intermediate Mechanics
PHYS 364	Electricity and Magnetism I
PHYS 365	Electricity and Magnetism II
PHYS 421	Ultrafast Laser Science and Spectroscopy
PHYS 432	Molecular and Cell Biophysics
PHYS 461	Physics of Biomolecules
PHYS 480	Quantum Mechanics I
PHYS 481	Quantum Mechanics II
PHYS 496	Modern Optics

*PHYS 221 and PHYS 222 may be substituted for PHYS 241 and PHYS 242

The department offers a minor in astronomy which may be earned by completing 15 credits chosen as follows:

ASTRO courses *	12-15
3 credits from the following (if only 12 Astro credits)	3
PHYS 304	Thermal Physics
PHYS 321	Introduction to Modern Physics I
PHYS 361	Classical Mechanics
PHYS 362	Intermediate Mechanics
PHYS 364	Electricity and Magnetism I
PHYS 365	Electricity and Magnetism II
PHYS 480	Quantum Mechanics I
PHYS 481	Quantum Mechanics II
PHYS 496	Modern Optics

* must include ASTRO 344L Astronomy Laboratory and may include one of the courses ASTRO 120 The Sky and the Solar System, ASTRO 150 Stars, Galaxies, and Cosmology or ASTRO 250 Astronomy Bizarre

12 or more credits must be at the 300 level or higher. Note that only ASTRO 344L may be used to satisfy both the requirements of a physics major and an astronomy minor.

Communication Proficiency requirement: The department requires a grade of C or better in each of ENGL 150 and ENGL 250 (or ENGL 250H), and a C- or better in ENGL 302, ENGL 305, ENGL 309 or ENGL 314. Students are also encouraged to study at least one foreign language.

The expected outcomes for students in these programs are:

1. a broad knowledge of physics, including mechanics, electricity and magnetism, thermodynamics, wave motion and modern physics
2. proficiency in laboratory methods
3. proficiency in modern scientific computational methods
4. a sound foundation in the liberal arts including proficiency in communication skills.

In addition to the performance on exams and course grades, information on evaluating of the success in meeting these goals is obtained by:

1. an annual written survey of all students majoring in the program
2. an annual written survey of all graduating seniors
3. a periodic written survey of program alumni
4. student evaluations of all courses
5. adviser evaluations
6. a bimonthly meeting of program majors with the department chair

Graduate Study

The department offers studies for the degrees master of science and doctor of philosophy with majors at both levels in applied physics, astrophysics, condensed matter physics, high energy physics, nuclear physics, and physics; and minor credit courses for students majoring in other departments.

Facilities of various research groups of the department, the Ames Laboratory, and the Applied Science Center, including the Microelectronics Research Center, are available for research.

Students with bachelor's degrees in physics or astronomy from other institutions ordinarily will qualify for graduate study at Iowa State provided they have satisfactorily completed course work similar to that suggested for undergraduate majors here intending to go on to graduate school. In some cases additional instruction at the intermediate level may be required.

Graduates have a broad understanding of physical science, as well as mastery of state-of-the-art methods in their area of specialization. They are able to communicate effectively to a wide range of audiences, from the general public to research colleagues. Their skills in rigorous scientific thinking prepare them for leadership in the broader community. They are skilled in carrying out research, communicating research results, and soliciting research support. They have considerable teaching experience. They have developed problem solving skills that prepare them for careers in either industry or academia.

All candidates for an advanced degree in physics are expected to complete:

PHYS 531	Statistical Mechanics	3
PHYS 564	Advanced Classical Mechanics	3
PHYS 571	Electricity and Magnetism I	3
PHYS 572	Electricity and Magnetism II	3
PHYS 591	Quantum Physics I	4
PHYS 592	Quantum Physics II	4

Candidates for an advanced degree in applied physics are expected to complete:

PHYS 571	Electricity and Magnetism I	3
PHYS 591	Quantum Physics I	4
PHYS 470L	Applied Physics Laboratory	2-5
PHYS 699	Research	
PHYS 572	Electricity and Magnetism II	3
or PHYS 531	Statistical Mechanics	

Candidates for an advanced degree in astrophysics should complete:

PHYS 531	Statistical Mechanics	3
PHYS 564	Advanced Classical Mechanics	3
PHYS 571	Electricity and Magnetism I	3
PHYS 591	Quantum Physics I	4
ASTRO 505	Astrophysical Cosmology	3
ASTRO 510	Observational Astrophysics	3

Astrophysics Ph.D. candidates must take at least three of the 580 level Astro courses, while candidates for the Research Masters must take at least two 580 level Astro courses.

Except for the applied physics major where a thesis is always required, the degree master of science is offered both with and without thesis. For all areas of study except applied physics the basic requirements for the M.S. are the same: at least 30 credits of acceptable graduate work must be completed, not less than 21 of which must be in physics or astronomy. Students must complete not less than 6 credits from outside their major area, with 3 credits being required from outside the department, and 3 credits from a 500 or 600 level course in another area of specialization. Students choosing a M.S. degree with thesis may apply up to 8 credits of 699 but no credits of 599 toward the minimum 30 credits. Students choosing a degree without thesis should apply 2 credits of 599, but may not apply any credits of 699 toward the minimum 30 credits.

Students whose major area is applied physics must complete at least 30 credits of acceptable graduate work for the M.S. degree and not less than 19 credits of these must be in the required courses listed above; the remaining 11 credits of the 30 credit minimum may be chosen freely either from within the student's major

area or from without and either from the department or outside, but it should be noted that not more than 3 credits of PHYS 699 Research may be applied toward the 30 credit minimum.

In addition to course work in the major area of study, all candidates for the Ph.D. degree must complete 12 credits from outside this area. Of these 6 must be taken from other departments and 6 must be taken from the department with the additional constraint that this latter 6 must include at least one 500 or 600 level introductory course in another area of specialization. Each candidate for the Ph.D. degree is required to teach one year of elementary physics or astronomy.

Graduate students interested in a physics minor should contact the department for requirements.

Courses primarily for undergraduates:

ASTRO 102. North Star Astronomy.

Cr. 1. F.S.

An entirely web-based course covering topics in observing the sky and navigation by the stars for students with little or no previous experience. The course combines material on common naked-eye phenomena, such as daily and seasonal variations in the sky, with information on how these helped navigators determine where they are on Earth. The course "lectures" are on-line, interactive units with build in exercises, hands-on (offline) activities and layers of help. Graded homework and quizzes are administered via Web-CT. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

ASTRO 103. Evening Star.

Cr. 1. F.S.

An entirely web-based course covering topics in celestial mechanics ("Rocket science!") for students with little or no previous experience. It combines the geography of the solar system with discussion of methods of traveling to the other planets. The course "lectures" are on-line, interactive units with built-in exercises, hands-on (offline) activities, and layers of help. Graded homework and quizzes are administered via WebCT. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

ASTRO 106. Earth and Space Science for Elementary Education Majors.

(Cross-listed with GEOL). (2-0) Cr. 2. F.S. *Prereq: Major in elementary or early childhood education.*

Fundamental concepts of Earth and Space Science, including the solar system, weather and climate, water and soils, plate tectonics, and geologic hazards. Online course format.

ASTRO 106L. Earth and Space Science for Elementary Education Majors: Laboratory.

(Cross-listed with GEOL). (0-2) Cr. 1. F.S. *Prereq: Restricted to elementary and early childhood education majors; to be taken concurrently with GEOL 106/ASTRO 106*

Inquiry-based lab exploring fundamental concepts of Earth and Space Science, including the solar system, weather and climate, water and soils, plate tectonics, and geologic hazards. Must be taken concurrently with GEOL/ASTRO 106.

ASTRO 120. The Sky and the Solar System.

(3-0) Cr. 3. F.S.SS.

For the nonscientist. The sky: constellations; motions of the sun, moon, and planets; seasons and the calendar; eclipses. The solar system: origin and evolution; characteristics of the sun, planets, satellites, comets, meteorites, and asteroids. Extensive use of the planetarium is included. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

ASTRO 125L. The Sky and the Solar System Laboratory.

(0-2) Cr. 1. F.S. *Prereq: Concurrent or previous enrollment in ASTRO 120*
Laboratory course to accompany Astro 120. Students carry out practical exercises involving naked eye and telescopic observing to explore and reinforce ideas covered in Astro 120. Activities based on a sky-simulation computer program and other weather-independent exercises are also included.

ASTRO 150. Stars, Galaxies, and Cosmology.

(3-0) Cr. 3. F.S.

For the nonscientist. Observational aspects of stellar astronomy: motions, distances, sizes, spectra; types of stars; variability; binary systems. Stellar evolution: the birth, life, and death of stars, including supernovae, neutron stars, and black holes. The Milky Way Galaxy: clouds of matter in space, the structure and evolution of our galaxy. Other galaxies, clusters of galaxies, quasars. Theories of the origin of the universe.

ASTRO 250. Astronomy Bizarre.

(3-0) Cr. 3. S. *Prereq: ASTRO 120 or ASTRO 150*

For the nonscientist. New and exciting topics in modern astronomy. Galaxy and star formation. Black holes and pulsars. Colliding galaxies. Quasars. Cosmology, the Big Bang and the future of the universe. Prospects and searches for extraterrestrial life.

ASTRO 290. Independent Study.

Cr. 1-4. Repeatable. *Prereq: Permission of instructor*

ASTRO 342. Introduction to Solar System Astronomy.

(3-0) Cr. 3. F. *Prereq: PHYS 222*

Analytical and comparative studies of solar system objects-planets, satellites, rings, asteroids, comets, meteoroids, and interplanetary dust-with emphasis on the physical processes affecting them, their interactions, and their evolution. Orbital mechanics, including perturbations, stability, and resonances. Tidal forces and effects. Radiation laws and thermal physics with applications. Brief study of the sun as a star, and of stellar evolution. Origin and evolution of the solar system. Detection of other planetary systems.

ASTRO 344L. Astronomy Laboratory.

(1-6) Cr. 3. F. *Prereq: PHYS 222*

Experiments in optical astronomy. Observational techniques, ranging from stellar photometry to CCD imaging. Available instruments include a variety of small telescopes up to 14-inch in size. Class meets at Fick Observatory south of Boone.

ASTRO 346. Introduction to Astrophysics.

(3-0) Cr. 3. S. *Prereq: PHYS 222*

Basic radiation theory; spectra. Observational determination of stellar properties; spectral classification. Binary systems. Stellar structure and evolution. White dwarfs, neutron stars, black holes. The Galaxy: structure and composition; the interstellar medium. Other galaxies; active galaxies; cosmology.

ASTRO 405. Astrophysical Cosmology.

(Dual-listed with ASTRO 505). (3-0) Cr. 3. S. *Prereq: ASTRO 346 or permission of instructor*

Introduction to modern cosmology; mathematical and observational fundamentals associated with the origin, structure, and evolution of the Universe. Scale of the Universe, Hubble's Law, the cosmic microwave background, Big Bang nucleosynthesis, the origin of elements, dark energy and the accelerating universe, and dark matter. For senior undergraduates and graduate students in all areas of physics.

ASTRO 450. Undergraduate Research.

Cr. 1-6. Repeatable. F.S.SS. *Prereq: Permission of instructor*
Research under supervision of astronomy faculty.

ASTRO 450L. Undergraduate Research.

Cr. 1-6. Repeatable. F.S.SS. *Prereq: ASTRO 344L and permission of instructor*
Laboratory or observational project under supervision of astronomy faculty.

ASTRO 490. Independent Study.

Cr. 1-4. Repeatable, maximum of 9 credits. *Prereq: 6 credits in astronomy, permission of instructor*
No more than 9 credits of Astro 490 may be counted toward graduation.

ASTRO 490H. Independent Study: Honors.

Cr. 1-4. Repeatable, maximum of 9 credits. *Prereq: 6 credits in astronomy, permission of instructor*
No more than 9 credits of Astro 490 may be counted toward graduation.

Courses primarily for graduate students, open to qualified undergraduates:

ASTRO 505. Astrophysical Cosmology.

(Dual-listed with ASTRO 405). (3-0) Cr. 3. S. *Prereq: ASTRO 346 or permission of instructor*

Introduction to modern cosmology; mathematical and observational fundamentals associated with the origin, structure, and evolution of the Universe. Scale of the Universe, Hubble's Law, the cosmic microwave background, Big Bang nucleosynthesis, the origin of elements, dark energy and the accelerating universe, and dark matter. For senior undergraduates and graduate students in all areas of physics.

ASTRO 510. Observational Astrophysics.

(2-3) Cr. 3. Alt. F., offered odd-numbered years. *Prereq: ASTRO 405 or ASTRO 505 or permission of instructor*

Techniques in optical and near-IR astronomy, including spectroscopy and CCD photometry. Emphasis on projects involving proficiency in the use of research telescopes and modern instrumentation. Project topics range from photometric studies of pulsating and binary star systems to deep CCD imaging of faint nebulae and galaxies.

ASTRO 580. Stellar Astrophysics.

(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: ASTRO 405 or ASTRO 505 or permission of the instructor*

The interior structure and atmospheric properties of stars: Stellar structure equations and constitutive relations: energy generation, energy transport by radiation and convection; equation of state, nuclear energy generation and nucleosynthesis. Numerical and analytic solutions to the equations of structure and evolution. Observational connections through the theory of radiative transfer. Line and continuum processes and sources of opacity. Non-LTE and statistical equilibrium. Line profiles. Interpretation of stellar spectra: temperature, pressure, and abundance determinations. Stellar evolution from formation to final phases.

ASTRO 582. High Energy Astrophysics.

(3-0) Cr. 3. Alt. F., offered even-numbered years. *Prereq: ASTRO 405 or ASTRO 505 or permission of the instructor*

Interactions of high-energy particles, non-thermal radiation processes, spectral evolution of non-thermal systems, cosmic rays, active galactic nuclei, pulsars, neutrinos, measurement techniques for relativistic charged particles, high energy photons, and neutrinos.

ASTRO 584. Galactic Astronomy.

(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: ASTRO 405 or ASTRO 505 or permission of instructor*

Overall structure of our Galaxy and the interstellar medium. Physical processes in the interstellar medium (e.g., heating and cooling mechanisms, turbulence). Observational techniques for studying the interstellar medium. Kinematics and chemical evolution of the Galaxy.

ASTRO 586. Extragalactic Astronomy.

(3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq: ASTRO 405 or ASTRO 505 or permission of the instructor*

Galaxy evolution, dynamics of external galaxies, evolution and classification of galaxies, groups and clusters of galaxies, extragalactic radio sources, quasars, structure formation, cosmological models and their observational consequences.

ASTRO 590. Special topics.

Cr. arr. Repeatable.

ASTRO 599. Creative Component.

Cr. arr. *Prereq: Permission of instructor*

Individually directed study of research-level problems for students electing the nonthesis M.S. option in astronomy.

Courses for graduate students:**ASTRO 650. Advanced Seminar.**

(1-0) Cr. 1. Repeatable. F.S.

Topics of current interest in astronomy and astrophysics. Offered on a satisfactory-fail basis only.

ASTRO 660. Advanced Topics in Astronomy and Astrophysics.

Cr. 1-3. Repeatable. F.S.

Topics in stellar, galactic, and extragalactic astronomy, including stellar evolution, solar physics, variable stars, compact objects, the interstellar medium, active galaxies and quasars, formation and evolution of galaxies, cosmology, high energy astrophysics, advanced observational techniques, and astrophysical applications of hydrodynamics.

ASTRO 675. Advanced Stellar Astrophysics.

(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: ASTRO 580 or permission of instructor*

Advanced topics in stellar astrophysics. Dynamic and extended atmospheres, chromospheres, coronae, and stellar winds. MHD, stellar activity, and dynamo theory. Radiative transfer and the transition from extended atmospheres to the interstellar medium. Diffusive processes in stellar atmospheres and interiors. Techniques for quantitative analysis of planetary and stellar spectra including detailed modeling and spectrum synthesis. Evolution in interacting binaries. Nucleosynthesis II. Variable stars. Supernovae. Neutron stars and black holes.

ASTRO 699. Research.

Cr. arr. Repeatable.

Courses primarily for undergraduates:**PHYS 101. Physics for the Nonscientist.**

(3-0) Cr. 3. F.S.

Survey of the principal areas of both classical and modern physics. Emphasis on the nature of the physical universe and the application of physical principles to life in the modern world. Not suitable to meet a general physics requirement for natural science majors.

PHYS 102L. Physical Sciences for Elementary Education.

(Cross-listed with CHEM). (1-5) Cr. 3. S. *Prereq: MATH 195 or MATH 140*

Introduction to physics and chemistry via weekly, guided-inquiry laboratories. Topics to include states of matter and changes in states of matter, sound, light, electricity, magnetism, heat, forces and how they are related to an object's motion.

PHYS 111. General Physics.

(4-2) Cr. 5. F.S.SS. *Prereq: 1 1/2 years of high school algebra, 1 year of geometry, 1 semester of trigonometry*

General background in physical concepts, principles, and methods for those who do not plan advanced study in physics or engineering. Mechanics, fluids, heat and thermodynamics, vibrations, waves, sound.

PHYS 112. General Physics.

(4-2) Cr. 5. F.S.SS. *Prereq: PHYS 111*

General background in physical concepts, principles, and methods for those who do not plan advanced study in physics or engineering. Electricity and magnetism, ray and wave optics, topics in modern physics.

PHYS 115. Physics for the Life Sciences.

(4-0) Cr. 4. F.S. *Prereq: high school: 1 1/2 yr. algebra, 1 yr. geometry, 1 semester trigonometry*

Emphasis on basic physics principles applied to biological problems. Topics include mechanics, fluids, thermodynamics, heat, light, sound, electricity and magnetism. A coordinated laboratory, Physics 115 laboratory is available.

PHYS 115L. Laboratory in Physics for the Life Sciences.

(0-2) Cr. 1. F.S.

Experiments related to the elementary topics of physics for the life sciences. Mechanics, fluids, thermodynamics, heat, light, sound, electricity and magnetism.

PHYS 198. Physics of Music.

(2-2) Cr. 3. F.

Introductory level course on sound for nonphysics majors. Properties of pure tones and harmonics; human perception of sound; room acoustics; scales; production, and analysis of musical by voice, string, woodwind, brass, and percussion instruments. Not suitable to meet a general physics requirement for natural science majors

PHYS 199. Introductory Seminar.

Cr. R. F.

(1-1) Gain experience in key skills that physicists/astronomers use routinely, but are rarely explicitly taught in formal courses. Participate in faculty-led discussions on frontier areas and careers. Offered on a satisfactory-fail basis only.

PHYS 221. Introduction to Classical Physics I.

(4.5-1) Cr. 5. F.S.SS. *Prereq: Credit or enrollment in MATH 166*

For engineering and science majors. 3 hours of lecture each week plus 3 recitations and 1 laboratory every 2 weeks. Elementary mechanics including kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation. Heat, thermodynamics, kinetic theory of gases; waves and sound.

PHYS 221H. Introduction to Classical Physics I: Honors.

(4.5-1) Cr. 5. F.S. *Prereq: Credit or enrollment in MATH 166*

For engineering and science majors. 3 hours of lecture each week plus 3 recitations and 1 laboratory every 2 weeks. Elementary mechanics including kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation. Heat, thermodynamics, kinetic theory of gases; waves and sound.

PHYS 222. Introduction to Classical Physics II.

(4-2) Cr. 5. F.S.SS. *Prereq: PHYS 221 OR PHYS 241, MATH 166*

3 hours of lecture each week plus 1 recitation and 1 laboratory each week. Electric forces and fields. Electrical currents; DC circuits. Magnetic forces and fields: LR, LC, LCR circuits; Maxwell's equations; ray optics and image formation; wave optics; topics in modern physics.

PHYS 222H. Introduction to Classical Physics II: Honors.

(4-2) Cr. 5. F.S. *Prereq: PHYS 221 OR PHYS 241, MATH 166*

3 hours of lecture each week plus 1 recitation and 1 laboratory each week. Electric forces and fields. Electrical currents; DC circuits. Magnetic forces and fields: LR, LC, LCR circuits; Maxwell's equations; ray optics and image formation; wave optics; topics in modern physics.

PHYS 241. Principles and Symmetries in Classical Physics I.

(4.5-1) Cr. 5. F. *Prereq: credit or enrollment in MATH 166*

Covers all of mechanics; Kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation, and extremum principles. Topics in kinetic theory, thermodynamics, waves and sound.

PHYS 241H. Principles and Symmetries in Classical Physics I, Honors..(4.5-1) Cr. 5. F. *Prereq: credit or enrollment in MATH 166*

Covers all of mechanics; Kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation, and extremum principles. Topics in kinetic theory, thermodynamics, waves and sound.

PHYS 242. Principles and Symmetries in Classical Physics II.(4-2) Cr. 5. S. *Prereq: PHYS 221 or PHYS 241, credit or enrollment in MATH 166*

Electrostatics, potentials and fields, currents, fields of moving charges, the magnetic field, electromagnetic induction, DC and AC circuits, Maxwell's equations and electromagnetic waves, electric and magnetic fields in matter. Topics in optics, special relativity and modern physics.

PHYS 242H. Principles and Symmetries in Classical Physics II, Honors (Spring)..(4-2) Cr. 5. S. *Prereq: PHYS 221 or PHYS 241, credit or enrollment in MATH 166*

Electrostatics, potentials and fields, currents, fields of moving charges, the magnetic field, electromagnetic induction, DC and AC circuits, Maxwell's equations and electromagnetic waves, electric and magnetic fields in matter. Topics in optics, special relativity and modern physics.

PHYS 290. Independent Study.Cr. 1-4. Repeatable. *Prereq: Permission of instructor***PHYS 298. Cooperative Education.**Cr. R. F.S.SS. *Prereq: Permission of the department cooperative education coordinator; sophomore classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

PHYS 302. The Challenge of Contemporary Physics.(3-0) Cr. 3. S. *Prereq: Sophomore classification*

A largely nonmathematical but intellectually challenging exploration of physics, which assumes no previous work in the field. Selected material from classical and modern physics establishes the conceptual framework for the study of major areas of contemporary physics, culminating in the discussion of topics at the frontier of present knowledge. Topics vary yearly and may include quarks, lasers, superconductivity, fission and fusion, solid state devices, gravitational waves, string theory, facilities, left handed materials, and quantum computing. Not suitable to meet a general physics requirement for natural science majors.

PHYS 304. Thermal Physics.(3-0) Cr. 3. F. *Prereq: PHYS 222, MATH 266*

Concepts of temperature, entropy, and other characteristic thermodynamic functions, with application to macroscopic properties of matter. The laws of thermodynamics. Introduction to statistical mechanics, including quantum statistics. Application to black body radiation, crystalline vibrations, magnetic ions in solids, electronic heat capacity of metals. Phase transformations and chemical reactions.

PHYS 306. Physics of Wave Motion.(3-0) Cr. 3. S. *Prereq: PHYS 222, credit or enrollment in MATH 267*

Oscillating systems including damped and forced oscillations; fluids, geometric optics, water waves, the wave equation, Fourier and Laplace transforms, non-uniform media, cylindrical and spherical waves, polarization, interference and diffraction, transmission lines, non-linear waves.

PHYS 310. Electronic Instrumentation for Experimental Physics.(2-4) Cr. 4. F. *Prereq: PHYS 222; MATH 166*

Common electrical instruments; power supplies; transducers; passive and active devices, analog integrated circuits, including filters and amplifiers; digital integrated circuits; signal transmission and enhancement.

PHYS 311. Intermediate Laboratory.Cr. 1-2. Repeatable. S. *Prereq: PHYS 322*

Experiments in classical and modern physics performed independently by each student.

PHYS 311T. Intermediate Laboratory for Secondary Physics Teachers.(0-6) Cr. 3. Repeatable. S. *Prereq: PHYS 112 or PHYS 222*

Experiments in classical and modern physics performed independently by each student. For students preparing for a career in high school teaching.

PHYS 321. Introduction to Modern Physics I.(3-0) Cr. 3. F. *Prereq: PHYS 222, credit or enrollment in MATH 266*

Quantum nature of matter: photons, de Broglie's postulate: wave-like properties of matter; Bohr's model of hydrogen atom; Schrodinger equations in one dimension: energy quantization; detailed solutions for potential steps, barriers and wells; one-electron atoms, spin and magnetic interactions; ground states, optical and x-ray excitations of multi-electron atoms.

PHYS 321L. Introductory Laboratory in Modern Physics I.(0-2) Cr. 1. F. *Prereq: Credit or enrollment in PHYS 321*

Experiments related to the foundations of modern physics. The dual wave and particle character of electrons and photons, statistics, interferometry and x-ray spectroscopy.

PHYS 322. Introduction to Modern Physics II.(3-0) Cr. 3. S. *Prereq: PHYS 321*

Quantum statistics; lasers; physics of molecules. Properties of solids, including electron band structure, superconductivity and magnetism. Nuclear physics, including nuclear sizes and masses, stability, decay modes, reactions, fission and fusion. Elementary particles, including strangeness, charm, and quarks. Fundamental forces of nature.

PHYS 322L. Introductory Laboratory in Modern Physics II.(0-2) Cr. 1. S. *Prereq: Credit or enrollment in PHYS 322*

Experiments related to the foundations of modern physics. Radioactive decay, elementary particles, Hall effect, quantization, spectroscopy, statistics and instrumentation.

PHYS 361. Classical Mechanics.(3-0) Cr. 3. S. *Prereq: PHYS 222, MATH 265, credit or enrollment in MATH 266*

Newtonian mechanics including forced oscillations, central forces and orbital motion, collisions, moving frames of reference, Lagrange's equations.

PHYS 362. Intermediate Mechanics.(3-0) Cr. 3. F. *Prereq: PHYS 361*

Rigid body motion; small oscillations, normal modes. Special relativity including length contraction, time dilation, simultaneity, Lorentz transformation, 4-vector covariant formalism, relativistic mechanics.

PHYS 364. Electricity and Magnetism I.(3-0) Cr. 3. F. *Prereq: PHYS 222*

Static electric and magnetic fields, potential theory; electromagnetism, Maxwell's equations.

PHYS 365. Electricity and Magnetism II.(3-0) Cr. 3. S. *Prereq: PHYS 364*

Relativistic electromagnetic theory; radiation and propagation of electromagnetic waves; interaction with matter.

PHYS 389. Junior Seminar.

Cr. R. S.

Recommended for all junior physics majors. Career opportunities: graduate school programs and application, job placement, alternative careers, basic skills needed for the job market competition. Offered on a satisfactory-fail basis only.

PHYS 398. Cooperative Education.Cr. R. F.S.SS. *Prereq: Permission of the department cooperative education coordinator; junior classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

PHYS 399. Seminar on Secondary School Physics.Cr. 1-2. Repeatable, maximum of 2 credits. F. *Prereq: Permission of instructor*

Review of materials and curricula for secondary school physics presented and discussed by members of the class. Required for approval to teach physics in secondary schools.

PHYS 421. Ultrafast Laser Science and Spectroscopy.(Dual-listed with PHYS 521). (3-0) Cr. 3. F. *Prereq: PHYS 321, PHYS 365, or equivalent with permission of instructor*

Introduction to ultrafast lasers, nonlinear optics, and their applications. Topics selected from: basic optics, atom-photon interactions, electrodynamics of condensed matter, laser physics, ultrafast and nonlinear optics, ultrashort pulse generation, broadband pulse generation, time-resolved spectroscopy and instrumentation.

PHYS 432. Molecular and Cell Biophysics.(Dual-listed with PHYS 532). (3-0) Cr. 3. S. *Prereq: PHYS 304 or CHEM 325.*

Quantitative description of biological systems using basic physical laws, including a brief discussion of a variety of biophysical techniques. Topics include: thermodynamics, chemical equilibrium, gene expression, structure and physical properties of nucleic acids and proteins, folding of nucleic acids and proteins, chemical kinetics, catalysis, allosteric enzymes, cell membrane structure and physical properties, and machines in cell membranes.

PHYS 450. Undergraduate Research.Cr. 1-6. Repeatable. F.S.SS. *Prereq: Permission of instructor*

Theoretical research under supervision of physics faculty.

PHYS 450L. Undergraduate Research.Cr. 1-6. Repeatable. F.S.SS. *Prereq: PHYS 311, permission of instructor*

Laboratory project under supervision of physics faculty.

PHYS 461. Physics of Biomolecules.

(Dual-listed with PHYS 561). (3-0) Cr. 3. F. *Prereq: PHYS 304 or CHEM 325, BBMB 301, or permission of instructor*
Cell and Molecular Biophysics. Physical techniques used to characterize the structure, dynamics and properties of biomolecules with emphasis on single molecule techniques.

PHYS 470L. Applied Physics Laboratory.

Cr. 2-5. Repeatable. F.S.SS. *Prereq: PHYS 322 and permission of instructor*
Studies in modern experimental techniques via experimentation and simulation in various areas of applied physics, e.g. superconductivity, optical spectroscopy, nuclear magnetic resonance, electron spin resonance, x-ray diffraction, and computation of electronic and structural properties of matter.

PHYS 480. Quantum Mechanics I.

(3-0) Cr. 3. F. *Prereq: PHYS 322, MATH 385*

First semester of a full-year course. A systematic development of the formalism and applications of quantum mechanics. Solutions to the time independent Schrodinger equation for various one-dimensional potentials including the harmonic oscillator; operator methods; Heisenberg picture; angular momentum; the hydrogen atom; spin; symmetry properties.

PHYS 481. Quantum Mechanics II.

(3-0) Cr. 3. S. *Prereq: PHYS 480*

Continuation of 480. Addition of angular momentum; charged particles in electromagnetic fields; time-independent perturbation theory; variational principles; WKB approximation; interaction picture; time-dependent perturbation theory; adiabatic approximation; scattering; selected topics in radiation theory; quantum paradoxes.

PHYS 490. Independent Study.

Cr. 1-4. Repeatable, maximum of 9 credits. *Prereq: 6 credits in physics, permission of instructor*

No more than 9 credits of Phys 490 may be counted toward graduation.

PHYS 490H. Independent Study, Honors.

Cr. 1-4. Repeatable, maximum of 9 credits. *Prereq: 6 credits in physics, permission of instructor*

No more than 9 credits of Phys 490 may be counted toward graduation.

PHYS 496. Modern Optics.

(Cross-listed with E E). (3-0) Cr. 3. S. *Prereq: Credit or enrollment in PHYS 322, PHYS 365, and PHYS 480*

Review of wave and electromagnetic theory; topics selected from: reflection/refraction, interference, geometrical optics, Fourier analysis, dispersion, coherence, Fraunhofer and Fresnel diffraction, holography, quantum optics, nonlinear optics.

PHYS 498. Cooperative Education.

Cr. R. F.S.SS. *Prereq: Permission of the department cooperative education coordinator; senior classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduates:**PHYS 501. Oral Communication of Physics Seminar.**

(2-0) Cr. 1. Repeatable. F.

A practical introduction to communication methods in physics and astronomy classrooms and professional settings. For graduate physics majors only. Offered on a satisfactory-fail basis only.

PHYS 502. Introductory Research Seminar.

Cr. R. F.

(1-1) Discussion by research staff of their research areas, expected thesis research work, and opportunities in the field. For graduate physics majors only. Offered on a satisfactory-fail basis only.

PHYS 511. Condensed Matter Physics I.

(3-0) Cr. 3. F. *Prereq: PHYS 304, credit or enrollment in PHYS 481*

First semester of a full-year course. Free electron model; crystal symmetry; band theory of solids; transport properties; Fermi surface; phonons; semiconductors; crystal surfaces; magnetism; superconductivity.

PHYS 512. Condensed Matter Physics II.

(3-0) Cr. 3. S. *Prereq: PHYS 511*

Continuation of 511. Free electron model; crystal symmetry; band theory of solids; transport properties; Fermi surface; phonons; semiconductors; crystal surfaces; magnetism; superconductivity.

PHYS 521. Ultrafast Laser Science and Spectroscopy.

(Dual-listed with PHYS 421). Cr. 3. F. *Prereq: PHYS 321, PHYS 365, or equivalent with permission of instructor*

Introduction to ultrafast lasers, nonlinear optics, and their applications. Topics selected from: basic optics, atom-photon interactions, electrostatics of condensed matter, laser physics, ultrafast and nonlinear optics, ultrashort pulse generation, broadband pulse generation, time-resolved spectroscopy and instrumentation.

PHYS 526. Particle and Nuclear Physics.

(4-0) Cr. 4. S. *Prereq: Credit or enrollment in PHYS 481*

Basic properties and structures of nuclei, hadrons, and elementary particles; weak and strong interactions; the Standard Model; accelerators and detectors; nuclear models; nuclear decay and stability; nuclear astrophysics; the Higgs mechanism; the CKM matrix; running coupling constants; relativistic heavy-ion collisions; selected topics beyond the standard model such as SUSY and grand unification.

PHYS 528. Mathematical Methods for the Physical Sciences.

(3-0) Cr. 3. F. *Prereq: MATH 266 or MATH 267*

Fast-paced coverage of mathematical techniques needed for advanced analysis in the physical sciences, particularly for quantum mechanics and electrodynamics. Linear vector spaces and operators. Linear differential equations for time-evolution and steady-state problems, Green's functions and propagators, Sturm-Liouville problems. Functions of a complex variable, calculus of residues, series expansions, integral transforms and applications.

PHYS 531. Statistical Mechanics.

(3-0) Cr. 3. S. *Prereq: PHYS 304 and credit or enrollment in PHYS 481, MATH 465, credit or enrollment in MATH 365 or MATH 426*

Thermodynamic properties of systems of many particles obeying Boltzmann, Fermi-Dirac, and Bose-Einstein statistics; microcanonical, canonical, and grand canonical ensembles and their application to physical problems; density matrices; introduction to phase transitions; renormalization group theory; kinetic theory and fluctuations.

PHYS 532. Molecular and Cell Biophysics.

(Dual-listed with PHYS 432). (3-0) Cr. 3. S. *Prereq: PHYS 304 or CHEM 325.*

Quantitative description of biological systems using basic physical laws, including a brief discussion of a variety of biophysical techniques. Topics include: thermodynamics, chemical equilibrium, gene expression, structure and physical properties of nucleic acids and proteins, folding of nucleic acids and proteins, chemical kinetics, catalysis, allosteric enzymes, cell membrane structure and physical properties, and machines in cell membranes.

PHYS 534. Symmetry and Group Theory in Physics.

(3-0) Cr. 3. S. *Prereq: Credit or enrollment in PHYS 481*

Theory of groups and group representations; introduction to both point and continuous groups, and their applications in physics.

PHYS 535. Physics of Semiconductors.

(Cross-listed with E E). (3-3) Cr. 4. *Prereq: E E 311 and E E 332*

Basic elements of quantum theory, Fermi statistics, motion of electrons in periodic structures, crystal structure, energy bands, equilibrium carrier concentration and doping, excess carriers and recombination, carrier transport at low and high fields, space charge limited current, photo-conductivity in solids, phonons, optical properties, amorphous semiconductors, heterostructures, and surface effects. Laboratory experiments on optical properties, carrier lifetimes, mobility, defect density, doping density, photo-conductivity, diffusion length of carriers.

PHYS 536. Physics of Semiconductor Devices.

(Cross-listed with E E). (3-0) Cr. 3. *Prereq: E E 535*

P-n junctions, band-bending theory, tunneling phenomena, Schottky barriers, heterojunctions, bipolar transistors, field-effect transistors, negative-resistance devices and optoelectronic devices.

PHYS 541. General Relativity.

(3-0) Cr. 3. F. *Prereq: PHYS 362, MATH 307 or MATH 317*

Tensor analysis and differential geometry developed and used to formulate Einstein field equations. Schwarzschild and Kerr solutions. Other advanced topics may include gravitational radiation, particle production by gravitational fields, alternate gravitational theories, attempts at unified field theories, cosmology.

PHYS 551. Computational Physics.

(0-4) Cr. 2. S. *Prereq: PHYS 365, credit or enrollment in PHYS 481*

Use of modern computational techniques to analyze topics in classical and modern physics. Offered on a satisfactory-fail basis only.

PHYS 561. Physics of Biomolecules.

(Dual-listed with PHYS 461). (3-0) Cr. 3. F. *Prereq: PHYS 304 or CHEM 325, BBMB 301, or permission of instructor; graduate student classification in Science/Engineering*

Cell and Molecular Biophysics. Physical techniques used to characterize the structure, dynamics and properties of biomolecules with emphasis on single molecule techniques.

PHYS 564. Advanced Classical Mechanics.

(3-0) Cr. 3. S. *Prereq: PHYS 362, MATH 426, MATH 465*

Variational principles, Lagrange's equations, Hamilton's canonical equations, canonical transformations, Hamilton-Jacobi theory, infinitesimal transformations, classical field theory, canonical perturbation theory, classical chaos.

PHYS 571. Electricity and Magnetism I.

(3-0) Cr. 3. F. *Prereq: PHYS 365, MATH 426*

Electrostatics, magnetostatics, boundary value problems, Maxwell's equations, wave phenomena in macroscopic media, wave guides.

PHYS 572. Electricity and Magnetism II.

(3-0) Cr. 3. S. *Prereq: PHYS 571*

Special theory of relativity, least action and motion of charged particles in electromagnetic fields, radiation, collisions between charged particles, multipole fields, radiation damping.

PHYS 590. Special Topics.

Cr. arr. Repeatable. *Prereq: Permission of instructor*
Topics of current interest.

PHYS 590A. Nuclear Physics.

Cr. arr. Repeatable. *Prereq: Permission of instructor*
Topics of current interest.

PHYS 590B. Condensed Matter Physics.

Cr. arr. Repeatable. *Prereq: Permission of instructor*
Topics of current interest.

PHYS 590C. High Energy Physics.

Cr. arr. Repeatable. *Prereq: Permission of instructor*
Topics of current interest.

PHYS 590D. Physics.

Cr. arr. Repeatable. *Prereq: Permission of instructor*
Topics of current interest.

PHYS 590E. Applied Physics.

Cr. arr. Repeatable. *Prereq: Permission of instructor*
Topics of current interest.

PHYS 590F. Biophysics.

Cr. arr. Repeatable. *Prereq: Permission of instructor*
Topics of current interest.

PHYS 591. Quantum Physics I.

(4-0) Cr. 4. F. *Prereq: PHYS 481*

First semester of a full-year course. Postulates of quantum mechanics; time-dependent and time-independent Schrodinger equations for one-, two-, and three-dimensional systems; theory of angular momentum; Rayleigh-Schrodinger time-independent perturbation theory.

PHYS 592. Quantum Physics II.

(4-0) Cr. 4. S. *Prereq: PHYS 591*

Continuation of 591. Variational theorem and WKB method; time-dependent perturbation theory and 2nd quantization of the EM field in Coulomb gauge; method of partial waves and Born approximation for scattering by central potentials; identical particles and symmetry; Dirac and Klein-Gordon equation for free particles; path integral formalism.

PHYS 599. Creative Component.

Cr. arr. *Prereq: Permission of instructor*

Individually directed study of research-level problems for students electing the nonthesis M.S. degree option.

Courses for graduate students:**PHYS 611. Quantum Theory of Condensed Matter.**

(3-0) Cr. 3. S. *Prereq: PHYS 512 and PHYS 681 or permission of instructor.*
Quasiparticles in condensed matter: phonons, magnons, photons, electrons. Quantum theory of interacting many body systems: Green's functions and diagrammatic techniques.

PHYS 624. Advanced Nuclear Physics.

(3-0) Cr. 3. *Prereq: PHYS 526 and PHYS 592*

Microscopic few-body and many-body theory; theory of effective Hamiltonians; relativistic nuclear physics; nuclear effects in hadron-nucleus, lepton-nucleus, and nucleus-nucleus reactions.

PHYS 625. Physics of Strong Interactions.

(3-0) Cr. 3. *Prereq: PHYS 681*

Quark model; Quantum Chromodynamics (QCD); perturbation methods for QCD; effective field theories for pions and nucleons; finite temperature field theories; quark-gluon plasma; phase transitions in QCD.

PHYS 637. Elementary Particle Physics I.

(3-0) Cr. 3. *Prereq: PHYS 526 and PHYS 592*

First semester of a full year course. Properties of leptons, bosons, and quarks and their interactions; quantum chromodynamics, Glashow-Weinberg-Salam model, grand unification theories, supersymmetry; modern theoretical techniques and tests of the Standard Model.

PHYS 638. Elementary Particle Physics II.

(3-0) Cr. 3. *Prereq: PHYS 637*

Continuation of 637. Properties of leptons, bosons, and quarks and their interactions; quantum chromodynamics, Glashow-Weinberg-Salam model, grand unification theories, supersymmetry, and superstring theory; modern theoretical techniques.

PHYS 646. Mathematical Modeling of Complex Physical Systems.

(Cross-listed with MATH). (3-0) Cr. 3. S.

Modeling of the dynamics of complex systems on multiple scales: Classical and dissipative molecular dynamics, stochastic modeling and Monte-Carlo simulation; coarse grained nonlinear dynamics, interface propagation and spatial pattern formation.

PHYS 650. Advanced Seminar.

(1-0) Cr. 1. Repeatable. F.S.

Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 650A. Nuclear Physics.

(1-0) Cr. 1. Repeatable. F.S.

Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 650B. Condensed Matter Physics.

(1-0) Cr. 1. Repeatable. F.S.

Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 650C. High Energy Physics.

(1-0) Cr. 1. Repeatable. F.S.

Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 650D. Physics.

(1-0) Cr. 1. Repeatable. F.S.

Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 650E. Applied Physics.

(1-0) Cr. 1. Repeatable. F.S.

Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 650F. Biophysics.

(1-0) Cr. 1. Repeatable. F.S.

Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 660. Advanced Topics in Physics.

Cr. 1-3. Repeatable. F.S.

Courses on advanced topics and recent developments.

PHYS 660A. Nuclear Physics.

Cr. 1-3. Repeatable. F.S.

Courses on advanced topics and recent developments.

PHYS 660B. Condensed Matter Physics.

Cr. 1-3. Repeatable. F.S.

Courses on advanced topics and recent developments.

PHYS 660C. High Energy Physics.

Cr. 1-3. Repeatable. F.S.

Courses on advanced topics and recent developments.

PHYS 660D. Physics.

Cr. 1-3. Repeatable. F.S.

Courses on advanced topics and recent developments.

PHYS 660E. Applied Physics.

Cr. 1-3. Repeatable. F.S.

Courses on advanced topics and recent developments.

PHYS 660F. Biophysics.

Cr. 1-3. Repeatable. F.S.

Courses on advanced topics and recent developments.

PHYS 681. Quantum Field Theory I.(3-0) Cr. 3. F. *Prereq:* PHYS 564, PHYS 572, PHYS 592

Quantization of fields (canonical and path integral); Feynman rules; introduction to gauge theories; Quantum Electrodynamics; radiative corrections; renormalization and renormalization group.

PHYS 682. Quantum Field Theory II.(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq:* PHYS 681

Continuation of 681. Systematics of renormalization; renormalization group methods; symmetries; spontaneous symmetry breaking; non-abelian gauge theories; the Standard Model and beyond; special topics.

PHYS 699. Research.Cr. arr. Repeatable. *Prereq:* Instructor permission required
Graduate research.

Political Science

Undergraduate Study

For the undergraduate curriculum in Liberal Arts and Sciences, with major in political science, leading to the degree of Bachelor of Arts, see Liberal Arts and Sciences, Curriculum.

The study of political science is designed to enable students to understand the nature of politics, public values, and the institutions and processes of politics in their various forms.

Students completing a major in political science will understand and be able to interrelate the leading theories, literature, and approaches in the subfields of American government, political theory and methods, international relations, and comparative politics. Graduates can analyze and formulate effective argumentation in written and oral forms, including the ability to appreciate and accommodate diverse political ideas, and the ability to collect and critique information and ideas of others in support of original arguments. Graduates appreciate the knowledge and civic responsibilities required for effective participation in political life.

The political science major is often chosen by students preparing for a career in law. Students with this goal should consult with the department in selecting courses. See also Preprofessional Study.

Several internship options are available to the political science major, offering students the opportunity to experience practical application of the knowledge learned in academic courses.

Requirements for the Major:

For the purpose of defining undergraduate requirements in the Department of Political Science, the Department employs four subfields within the discipline, with the following courses in each:

I. Theory and Methods

POL S 235	Introduction to Ethics and Politics	3
POL S 313	Special Topics in Theory and Methods	2
POL S 334	Politics and Society	3
POL S 335	Science, Technology, and Public Policy	3
POL S 356	Theories of International Politics	3
POL S 306	Public Opinion and Voting Behavior	3
POL S 430	Foundations of Western Political Thought	3
POL S 431	Modern Political Thought	3
POL S 470	Public Choice	3
POL S 480	Ethics and Public Policy	3
POL S 487	Electronic Democracy	3
POL S 490B	Independent Study: Theory and Method	arr †
Total Credits		32 †

† Arranged with instructor.

II. American Government and Politics

POL S 215	Introduction to American Government	3
POL S 305	Political Behavior	3
POL S 310	State and Local Government	3
POL S 311	Municipal Government and Politics	3
POL S 312	Special Topics in American Government and Politics	2

POL S 318	Campaign and Elections	3
POL S 319	Law and Politics	3
POL S 320	American Judicial Process	3
POL S 334	Politics and Society	3
POL S 335	Science, Technology, and Public Policy	3
POL S 344	Public Policy	3
POL S 358	United States Foreign Policy	3
POL S 359	Current Issues in American Foreign Policy	3
POL S 360	American Institutions: Congress	3
POL S 361	American Institutions: The Presidency	3
POL S 363	American Institutions: Media	3
POL S 364	Political Parties and Interest Groups	3
POL S 370	Religion and Politics	3
POL S 371	Introduction to Public Administration	3
POL S 385	Women in Politics	3
POL S 383	Environmental Politics and Policies	3
POL S 413	Intergovernmental Relations	3
POL S 417	Campaign Rhetoric	3
POL S 420	Constitutional Law	3
POL S 421	Constitutional Freedoms	3
POL S 442	The Policy and Politics of Coastal Areas	3
POL S 475	Management in the Public Sector	3
POL S 476	Administrative Law	3
POL S 480	Ethics and Public Policy	3
POL S 490A	Independent Study: American Government and Politics	arr †

† Arranged with instructor.

III. Comparative Politics

POL S 241	Introduction to Comparative Government and Politics	3
POL S 314	Special Topics in Comparative Politics	2
POL S 340	Politics of Developing Areas	3
POL S 343	Latin American Government and Politics	3
POL S 346	European Politics	3
POL S 347	African Politics	3
POL S 349	Politics of Russia and the Soviet Successor States	3
POL S 350	Politics of the Middle East	3
POL S 442	The Policy and Politics of Coastal Areas	3
POL S 485	Comparative Public Administration	3
POL S 490C	Independent Study: Comparative Politics	arr †

† Arranged with instructor.

IV. International Relations

POL S 251	Introduction to International Politics	3
POL S 315	Special Topics in International Relations	2
POL S 356	Theories of International Politics	3
POL S 357	International Security Policy	3
POL S 358	United States Foreign Policy	3
POL S 359	Current Issues in American Foreign Policy	3
POL S 381	International Political Economy	3
POL S 422	International Law	3
POL S 452	Comparative Foreign Policy	3
POL S 453	International Organizations	3
POL S 485	Comparative Public Administration	3
POL S 487	Electronic Democracy	3
POL S 490D	Independent Study: International Relations	arr †

† Arranged with instructor.

To complete the major in Political Science a student must earn 33 semester credits of courses in Political Science subject to the following conditions:

1. Students must satisfactorily complete POL S 101 and POL S 301.
2. Students must complete at least 3 credits in each of the four subfields listed above. Students may apply only one half-semester mini-course (POL S 312, , POL S 314, POL S 315) in each group.
3. Political Science courses in which a student has a grade of D+ or lower will not count for the major but can be counted as electives.
4. At least 18 credits of Political Science courses must be numbered 300 or above.
5. Students must pass one statistics course from among STAT 101, STAT 104, STAT 226 or .
6. No more than six credits of POL S 490, POL S 496, POL S 497, or POL S 499 (alone or in combination) can be used to fulfill any of these requirements. A maximum of three credits of POL S 490 can be applied to meet any of the four subfield requirements.
7. A maximum of six credits from half-semester mini-courses (POL S 312, POL S 313, POL S 314, POL S 315) can be applied to satisfy the above requirements.
8. At least 15 credits of Political Science coursework must be earned at Iowa State University.
9. Advanced Communication Skills: Majors must earn at least a C+ in each of ENGL 150 and ENGL 250. Those who do not must complete ENGL 309 or ENGL 314 with a minimum grade of C. Majors must also complete POL S 395.

The department offers a minor in political science that may be earned by completing 15 credits beyond the 100-level of coursework in political science, nine of which must be at the 300 level or above. A student minoring in Political Science normally will be expected to take at least 9 credits in Political Science coursework at Iowa State University. Only 3 credits of POL S 490 or POL S 499, alone or in combination, and only 2 credits of POL S 312-315 may be included in the total of 15 credits required for the minor. All minors in the College of Liberal Arts and Science required a minimum of 6 credits in courses numbered 300 and above taken at ISU with a minimum grade C. Credits earned in Pol S 496, 497, or 499, offered on a satisfactory/fail basis only, will not fulfill this requirement.

Graduate Study

Master of Arts (M.A.)

The department offers work for a Master of Arts degree (M.A.), with a major in political science, and minor for students in other departments. The department also offers work for a Master of Public Administration (MPA) degree or a Graduate Certificate of Public Management (GCPM) for those interested in an educational certificate program that requires less work than a full masters program. In addition, the Political Science Department offers work for the Master of Science in Information Assurance. Information with detailed requirements for all graduate degrees may be obtained at the department's web page at www.pols.iastate.edu/graduate-students/.

The M.A. program is designed to enable its graduates to engage in governmental research, enter public service or private industry, teach, or pursue further graduate study. Graduate students may also wish to work for certification for high school or junior college teaching. A thesis is required for this degree. The department also has a joint Master of Arts/Juris Doctor (M.A./J.D.) program with the Law School of Drake University. Detailed information for the M.A./J.D. can be found at the ISU Political Science webpage as well as the Drake Law School website (under Joint Degree): <http://www.law.drake.edu/>. Students wishing to pursue this joint degree must submit separate applications to both Drake University and Iowa State University and be accepted by both institutions.

M.A. graduates have a broad substantive understanding of the political process and the academic study of politics. They also have in-depth knowledge of one or more subfields in political science. Graduates are skilled at conducting research and preparing thorough research summaries. They are able to identify and address complex political questions, taking into account related ethical, legal, economic, and social issues.

The prerequisites for major graduate work in the M.A. program normally are completion of at least 15 credits in political science, the GRE (Graduate Record Examination), one year of a foreign language (equivalent to 8 semester hours) and a course in basic statistics (equivalent to STAT 101). If the basic statistics requirement has not been met, the student may remedy the deficiency by passing equivalent courses, for which no graduate credit will be received. During their program of study, all students are expected to complete STAT 401, POL S 502, and a thesis. Students normally do concentrated course work in at least one of the following four areas: international relations, comparative politics, public policy, or American politics. The student's program of study committee may require additional work.

Students in other graduate programs may obtain a minor in political science by completing at least 9 credits of political science courses, including one of the proseminars. Interested students should consult the Graduate College Handbook for additional information on graduate minors.

Master of Science in Information Assurance (MSIA or InfAs)

The Master of Science in Information Assurance (MSIA, also referred to as InfAs) is a multi-disciplinary program designed to provide students with diverse backgrounds and interests the opportunity to obtain professional training in the emerging field of information assurance. The core of the MSIA program is built around a series of courses taught in Electrical and Computer Engineering, Mathematics, and Computer Science that introduce students to software and hardware aspects of cryptography and computer security. The program also recognizes, however, that information assurance-defined in terms of security, privacy, access, and reliability-is not simply a technical problem but also involves important societal dimensions, including policy, education, ethics, and management. Recognizing that political science offers many potential intersections with information assurance (e.g., public sector management of information technology; forensics and computer crime; information technology policy and law; information technology and international relations; information warfare; etc.), students with interests in these areas are encouraged to select the Department of Political Science as their home department.

Students opting to pursue a MSIA degree through the Department of Political Science can expect to acquire skills and background knowledge relevant to a career in public policy or public sector management of information assurance technologies. The MSIA degree can also help prepare students who wish to go on to pursue a PhD in information politics and policy.

Students interested in the MSIA degree program should consider Political Science as a home department if their future career and/or educational interests lie in such areas as: institutional issues related to the Internet and information technologies; electronic government and electronic democracy; information technology, international security, and information warfare; information technology policy and law; and public administration and public sector management of information technology.

Admission requirements generally follow the same guidelines as the M.A. or MPA in Political Science. Degree requirements are specified by the InfAs program in cooperation with Political Science. More in-depth information on the program can be found at: <http://www.pols.iastate.edu/infoassur.shtml>.

Public Policy and Administration

The Public Policy and Administration program offers work for the professional Master of Public Administration degree (MPA). The program is designed to educate and train students for careers in management and policy analysis at the federal, state, and local levels of government, and nonprofit sector management. The program serves a diverse student body, including pre-service students and in-service employees in government and nonprofit organizations. The curriculum covers a broad range of public administration and policy topics, including organizational and administrative processes, eGovernment, leadership, organizational change dynamics, human resource management, budgeting, cost benefit analysis, financial management, policy analysis, and ethics. The program offers three concentrations: Public Management, eGovernment and Management of Information Technology, and Policy Analysis.

The MPA degree requires 37 credits, which includes (a) 15 credits in core competency, (b) 9 credits in one of the concentration areas, (c) 4 credits in other required courses, (d) up to 7 credits of electives, and (e) 3 credits of creative component (a capstone project) or a minimum of 3 credits of research (thesis). Pre-service students are encouraged to obtain an internship for 3 credits.

The Program also offers a Graduate Certificate of Public Management program (GCPM), which requires a completion of 15 credits: 9 credits in the core, and two additional courses in the area of student interest. Some classes are available via videoconferencing, streaming video, one week and executive weekend formats, and online.

The Program also offers joint master's degrees with the Department of Community and Regional Planning (25 credits in each program plus a six credit thesis), and the interdisciplinary Information Assurance program (30 credits). The requirement for all double degrees consists of 22 credits from each discipline for a total of 54 credits. Under the rules of the Graduate College a graduate student may pursue a joint degree between any two disciplines of their interest. Interested students are encouraged to consult the ISU's Graduate Handbook. The minimum requirements for all double degrees consist of 22 credits from each program.

Requirements for admission are a graduate school application, an essay stating purposes for study, college transcripts, the GRE (waived for those with

five or more years of public or nonprofit sector experience), three letters of recommendation, and the TOEFL for international students.

The department cooperates in the interdepartmental majors in transportation and water resources, and an interdepartmental minor in gerontology (see Index).

Refer to the Schedule of Classes (<http://classes.iastate.edu/>) or consult the Public Policy and Administration (MPA) web page (<http://mpa.las.iastate.edu/>) for up-to-date scheduling information.

Courses primarily for undergraduates:

POL S 101. Orientation to Political Science.

(2-0) Cr. 1. F.S. *Prereq: Political Science and Open Option majors only or permission of the instructor*

Introduction to the discipline and sub-fields of Political Science, including an introduction to analytical thinking, and research skills relevant to political science. Orientation to university, college, and departmental structure, policies, and procedures; student roles and responsibilities; degree planning and career awareness. Offered on a satisfactory-fail basis only.

POL S 215. Introduction to American Government.

(3-0) Cr. 3. F.S.SS.

Fundamentals of American democracy; constitutionalism; federalism; rights and duties of citizens; executive, legislative, and judicial branches of government; elections, public opinion, interest groups, and political parties.

POL S 235. Introduction to Ethics and Politics.

(3-0) Cr. 3. F.SS.

Introduction to moral controversies surrounding political issues such as violence, deception, corruption, civil disobedience, democracy, justice, equality, and freedom. Students will read classic and contemporary texts and consider political applications.

POL S 241. Introduction to Comparative Government and Politics.

(3-0) Cr. 3. F.S.

Basic concepts and major theories; application to selected political systems, including non-western political systems. Meets International Perspectives Requirement.

POL S 251. Introduction to International Politics.

(3-0) Cr. 3. F.S.

Dynamics of interstate relations pertaining to nationalism, the nation state; peace and war; foreign policy making; the national interest; military capability and strategy; case studies of transnational issues, such as population, food, energy, and terrorism. Meets International Perspectives Requirement.

POL S 298. Cooperative Education.

Cr. R. F.S.SS. *Prereq: Permission of department cooperative education coordinator; sophomore classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

POL S 301. Introduction to Empirical Political Science Research.

(3-0) Cr. 3. F.S.SS. *Prereq: 3 credits in political science; one statistics course required; sophomore classification*

Techniques of quantitative and qualitative political research and analysis. Development and analysis of concepts and theories. Methods of data collection, research design, and critical thinking. Applications of statistics to political research.

POL S 305. Political Behavior.

(3-0) Cr. 3. F. *Prereq: Sophomore classification*

Empirical theories and descriptions of political behavior, including decision-making, opinion, and attitudes, with an emphasis on groups and political elites.

POL S 306. Public Opinion and Voting Behavior.

(3-0) Cr. 3. S. *Prereq: 6 credits in political science or sophomore classification*

The formation of political opinions and attitudes, political participation, and voting behavior of the general public, and their influences on American politics; polling as a means of assessing public opinions and behaviors.

POL S 310. State and Local Government.

(3-0) Cr. 3. S. *Prereq: 3 credits in political science*

Role of state and local governments in the American federal system. Structures of participation: political parties, elections, interest groups. Major governmental institutions: legislative, executive, and judicial. Structure and functions of local governments.

POL S 311. Municipal Government and Politics.

(3-0) Cr. 3. F. *Prereq: POL S 215*

Legal position of municipal corporation; forms of organization; administration of municipal services; problem-solving in municipal government; urban and metropolitan political process; implications of federal urban policies.

POL S 312. Special Topics in American Government and Politics.

(3-0) Cr. 2. F.S. *Prereq: Sophomore classification*

Half-semester courses on selected topical issues in American government and politics. Designated repeat in Pol S 312 is not permitted. Use of Pol S 312 credit in Pol S major and minor is limited. See Undergraduate Study for information.

POL S 313. Special Topics in Theory and Methods.

(1.5-0) Cr. 2. F.S. *Prereq: Sophomore classification*

Half-semester course on selected topical issues in theory and methods in political science. Designated repeat in Pol S 313 is not permitted. Use of Pol S 313 credit in Pol S major and minor is limited. See Undergraduate Study for information.

POL S 314. Special Topics in Comparative Politics.

(1.5-0) Cr. 2. F.S. *Prereq: Sophomore classification*

Half-semester course on selected topical issues in comparative politics. Designated repeat in Pol S 314 is not permitted. Use of Pol S 314 credit in Pol S major and minor is limited. See Undergraduate Study for information.

POL S 315. Special Topics in International Relations.

(1.5-0) Cr. 2. F.S. *Prereq: Sophomore classification*

Half-semester course on selected topical issues in international relations. Designated repeat in Pol S 315 is not permitted. Use of Pol S 315 credit in Pol S major and minor is limited. See Undergraduate Study for information. Meets International Perspectives Requirement.

POL S 318. Campaign and Elections.

(3-0) Cr. 3. Alt. F., offered even-numbered years.

Methods and techniques of political campaigns in general elections. Supervised participation in candidate and political party campaign activities required.

POL S 319. Law and Politics.

(3-0) Cr. 3. F.S. *Prereq: Sophomore standing; POL S 215 recommended*

An evaluation of the American judicial system as it relates to controversial topics emphasizing the relationship between law and politics. Primary emphasis on topics such as statutory construction, judicial review, the proper role of the judiciary, vagueness and ambiguity in law, competing constitutional philosophies, executive branch concerns, and relative power of different branches. Credit for both Pol S 319 and 230 may not be applied toward graduation.

POL S 320. American Judicial Process.

(Cross-listed with CJ ST). (3-0) Cr. 3. S. *Prereq: POL S 215*

An overview of the American judicial process. Emphasis on specific topics such as application of constitutional rights to the states (particularly the Fourth, Fifth, Sixth, and Fourteenth Amendments), mechanics of judicial opinions, constitutional philosophies of Supreme Court Justices, decisions of first impression, and the value and scope of precedent.

POL S 333. Democracy and Diversity in America.

(3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: Sophomore classification.*

Examination of competing Americans' conceptions of democracy as strategies for responding to the racial, religious, ethnic, gender, and economic diversity of the inhabitants of America. Connections to contemporary debates about topics such as immigration, affirmative action, multicultural education, religion, and minority representation. Meets U.S. Diversity Requirement

POL S 334. Politics and Society.

(Cross-listed with SOC). (3-0) Cr. 3. F. *Prereq: A course in political science or sociology*

The relationship between politics and society with emphasis on American society. Discussion of theories of inequality, power, social movements, elites, ruling classes, democracy, and capitalism.

POL S 335. Science, Technology, and Public Policy.

(3-0) Cr. 3. S.

Examines the history and political dynamics of public science and technology policies. Examines differences in political and technological orientations. Assessment of the roles of politics, media, engineering, science, and private business in the formation public policies that put heavy reliance on or seek to advance science and technology.

POL S 340. Politics of Developing Areas.

(3-0) Cr. 3. Alt. S., offered even-numbered years.

Examination of economic and political development as they relate to the political process of developing states. Impact of social and technological change on political systems of developing areas. Some case studies.

POL S 343. Latin American Government and Politics.

(3-0) Cr. 3.

Political institutions, processes, and contemporary issues. Selected countries examined intensively to illustrate generalizations. Role of parties, military, church, human rights, women, environmental issues, interest groups, ideology, and globalization.

POL S 344. Public Policy.

(3-0) Cr. 3. S.

How agendas come to be set in public policy, theories describing the policy-making process, forces molding policy choices and the impact of such choices.

POL S 345. Immigration Policy.(3-0) Cr. 3. *Prereq: Junior or Senior classification*

Political, economic, and social factors that affect immigration policy in the United States and abroad. Systematic analysis and implications of different types of immigration policies in countries sending and receiving immigrants.

POL S 346. European Politics.

(3-0) Cr. 3. S.

Comparative study of political institutions of Europe and the European Union; emphasis on parties, elections, and governmental structures. Substance and process of public policies in selected problem areas.

POL S 347. African Politics.

(3-0) Cr. 3. F.

Major trends in African politics over the last 150 years and current issues facing Africans today. Basic African geography. Topics include democratization, economic development, civil conflict, ethnic politics and foreign aid. Meets International Perspectives Requirement.

POL S 349. Politics of Russia and the Soviet Successor States.

(3-0) Cr. 3. Alt. F., offered even-numbered years.

Nation-states of the former Soviet Union. Analysis of Soviet Communist system 1917-85 and the politics and revolutionary conflict leading to the dissolution of the Soviet Union from 1985 through 1991. Problems of post-Soviet nation-states of Russia and Central Eurasia since 1991.

Meets International Perspectives Requirement.

POL S 350. Politics of the Middle East.

(3-0) Cr. 3. S.

Introduction to the Middle East as a region and to issues of political importance to the Middle East and its place in the world. Topics covered include Islam, regional conflicts and alliances, local leaders, economic issues, and gender and social relations.

Meets International Perspectives Requirement.

POL S 354. War and the Politics of Humanitarianism.(Cross-listed with ANTHR). (3-0) Cr. 3. S. *Prereq: Pol S 235, Pol S 251, or Anthr 230*

Humanitarianism as a system of thought and a system of intervention in conflict and post-conflict situations: role of humanitarian organizations and actors in addressing human suffering caused by conflict or war military action as a form of humanitarian intervention.

Meets International Perspectives Requirement.

POL S 356. Theories of International Politics.

(3-0) Cr. 3.

Introduction to essential theoretical concepts and approaches, both classical and contemporary on world politics including realism, empiricism, liberalism, and postpositivism; for example, war and conflict, peace and cooperation, political economy, crisis decision-making, systemic theory, dependence and interdependence.

POL S 357. International Security Policy.

(3-0) Cr. 3. F.

The major theoretical approaches in security policy -- strategy and deterrence, game theory, bargaining theory, compellence, and coercive diplomacy, and crisis diplomacy. Illustration of these various approaches through historical and contemporary cases.

POL S 358. United States Foreign Policy.(3-0) Cr. 3. F. *Prereq: POL S 215 or POL S 251, or HIST 467 or HIST 470 or HIST 471*

U.S. foreign policy since World War II with emphasis on changing American values in foreign policy, the role of the President, Congress, and the bureaucracy in policy making, and a survey of current foreign policy issues and problems.

POL S 359. Current Issues in American Foreign Policy.(3-0) Cr. 3. S. *Prereq: POL S 215, POL S 251, or POL S 358*

Examination of contemporary U.S. foreign policy issues (e.g., U.S. policy in the Middle East; defense budgeting in the post-Cold War era; conventional and nuclear arms control policy). The course will explore alternate methods to analyze policy, survey the evolution of each issue, and discuss different policy alternatives.

POL S 360. American Institutions: Congress.(3-0) Cr. 3. *Prereq: POL S 215*

Theory and practice of representation and deliberation in the legislative branch of the republic; operations of Congress in terms of its committees, leadership, legislative and oversight processes, partisan politics, electoral campaigns, service to local and special electoral campaigns, service to local and special interests, and interactions with the President.

POL S 361. American Institutions: The Presidency.(3-0) Cr. 3. F. *Prereq: POL S 215*

Creation and historical development of the office of chief executive; character and behavior of past chief executives; selection and control; powers, roles, functions; executive staff; relations with Congress, press, public opinion.

POL S 363. American Institutions: Media.(3-0) Cr. 3. *Prereq: Sophomore standing*

Course surveys the influence of mass media organizations, forms, techniques, and technologies on the practices and expectations of American politics.

Evaluates the role of media in the political process, exploring the extents to which media promotes or discourages political participation. Topics will examine the influence and political uses of news coverage, political advertising, political debates, talk radio, film, the Internet, and media spectacles.

POL S 364. Political Parties and Interest Groups.(3-0) Cr. 3. F. *Prereq: POL S 215; sophomore classification*

Nature of political parties and interest groups, their relation to each other, and their effects on American politics. Topics include party identification, party organization and mobilization, factionalism, lobbying, campaign contributions and financing, and the effects of special interests on public law.

POL S 370. Religion and Politics.(Cross-listed with RELIG). (3-0) Cr. 3. *Prereq: Sophomore classification.*

The interaction of religion and politics in the U.S. from both an historical and contemporary perspective, as well as the role of religion in politics internationally.

POL S 371. Introduction to Public Administration.(3-0) Cr. 3. F. *Prereq: Sophomore classification*

A survey of the historic and contemporary administrative realities that contribute to the unique challenges of public governance at the administrative and managerial levels of international, national, state, and local government. This introductory course explores the essential issues and competencies involved in the efficient, effective, and ethical provision of public goods and services. Critical topics addressed in the course include crisis management, intergovernmental relations, social equity, public-private partnerships, and privatization.

POL S 381. International Political Economy.

(3-0) Cr. 3. S.

Introduction to the theoretical perspectives on international political economy. Exploration of specific issues such as the changing international trade regime, international finance, and Third World development under conditions of globalization.

POL S 383. Environmental Politics and Policies.(Cross-listed with ENV S). (3-0) Cr. 3. F. *Prereq: sophomore classification*

Major ideologies relation to conservation and ecology. Processes, participants, and institutions involved in state, national, and global environmental policymaking. Case studies of environmental controversies and proposals for policy reform.

POL S 385. Women in Politics.

(Cross-listed with W S). (3-0) Cr. 3. S.

Examination of the entry and participation of women in politics in the United States and other countries including a focus on contemporary issues and strategies for change through the political process.

Meets U.S. Diversity Requirement

POL S 395. Advanced Writing in Political Science.

Cr. R. F.S.SS.

Taken in conjunction with 300- or 400-level Political Science courses. Offered on a satisfactory-fail basis only.

POL S 398. Cooperative Education.Cr. R. F.S.SS. *Prereq: Permission of department cooperative education coordinator; junior classification*

Required of all cooperative education students. Students must register for this course prior to commencing work period.

POL S 413. Intergovernmental Relations.(Dual-listed with POL S 513). (3-0) Cr. 3. S. *Prereq: 6 credits in American government*

Theories and practices of the American federal system. Politics and policy making among federal, state, and local governments.

POL S 417. Campaign Rhetoric.

(Cross-listed with SP CM). (3-0) Cr. 3. Alt. F., offered even-numbered years.

Prereq: SP CM 212

Backgrounds of candidates for state and national elections; selected speeches and issues; persuasive strategies and techniques of individual speakers.

POL S 420. Constitutional Law.

(3-0) Cr. 3. F. *Prereq: POL S 215; junior classification*

Development of the United States Constitution through judicial action; influence of public law and judicial interpretations upon American government and society.

POL S 421. Constitutional Freedoms.

(3-0) Cr. 3. S. *Prereq: POL S 320 or POL S 420*

Leading Supreme Court cases interpreting the Bill of Rights and the Fourteenth Amendment. Emphasis on religion, speech, privacy, due process, and equal protection.

POL S 422. International Law.

(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: POL S 215 or POL S 251; junior classification*

Development of the principles of international law of peace and war; analysis of theories concerning its nature and fundamental conceptions; its relation to national law; problems of international legislation and codification.

POL S 430. Foundations of Western Political Thought.

(Cross-listed with CL ST). (3-0) Cr. 3. *Prereq: 6 credits in political science, philosophy, or European history*

Study of original texts in political thought ranging from the classical period to the renaissance. Topics such as justice, freedom, virtue, the allocation of political power, the meaning of democracy, human nature, and natural law.

POL S 431. Modern Political Thought.

(Dual-listed with POL S 531). (3-0) Cr. 3. *Prereq: 6 credits in political science, philosophy, or European history*

Study of original texts in political thought ranging from the Reformation to the French Revolution and its aftermath. Topics such as justice, freedom, rights, democracy, toleration, property, power, skepticism, and normative views of international politics.

POL S 442. The Policy and Politics of Coastal Areas.

(Dual-listed with POL S 542). (Cross-listed with ENV S). (3-0) Cr. 3. SS.

Exploration of political implications of coastal policy. Issues include: "Carrying capacity," zoning, regulation of human development activities, trade-offs between conservation and jobs, the quality of coastal lifestyle, ways in which citizens participate in policy for coastal areas.

POL S 452. Comparative Foreign Policy.

(Dual-listed with POL S 552). (3-0) Cr. 3. S. *Prereq: POL S 251*

Various theoretical approaches to explain foreign policy making and behavior through the use of case studies of selected nations.

Meets International Perspectives Requirement.

POL S 453. International Organizations.

(3-0) Cr. 3. S. *Prereq: POL S 251*

Private and public organizations such as the United Nations, other specialized agencies, and multinational organizations, and their influence on our daily lives.

POL S 470. Public Choice.

(3-0) Cr. 3. *Prereq: ECON 101*

Application of economics to political science in the study of nonmarket decision-making. Behavior of bureaucrats, elected officials, and voters. Market failure, collective action, representative democracies, direct democracies, logrolling, voter paradoxes, and game theory.

POL S 475. Management in the Public Sector.

(Dual-listed with POL S 575). (3-0) Cr. 3. F. *Prereq: POL S 371*

Literature and research on organizational behavior and management theory with emphasis on applied aspects of managing contemporary public sector organizations. Topics include distinctions between public and private organizations, leadership, productivity, employee motivation, organizational structure, and organizational change.

POL S 476. Administrative Law.

(Dual-listed with POL S 576). (3-0) Cr. 3. Alt. S., offered even-numbered years.

Prereq: POL S 215; junior classification

Constitutional problems of delegation of governmental powers, elements of fair administrative procedures, judicial control over administrative determinations.

POL S 477. Government, Business, and Society.

(Dual-listed with POL S 577). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

Prereq: Junior classification

Diverse perspectives on the changing roles and relationships of business, government and society so as to open the way for more effective policy decisions on corporate-government affairs. Topics may include the changing economy; transformation of workplace and community conditions; consumerism; social responsibilities of businesses; economic policies and regulations; and politics in the business-government relationship.

POL S 480. Ethics and Public Policy.

(Dual-listed with POL S 580). (3-0) Cr. 3. *Prereq: 6 credits in political science*

Study of decision making approaches and application to case studies. Topics such as the different roles of public officials, proper scope and use of administrative discretion, and the admissibility of religious, political, and philosophical commitments in governmental decision making.

POL S 485. Comparative Public Administration.

(Dual-listed with POL S 585). (3-0) Cr. 3. F.

Comparisons of government bureaucratic structures and processes in major world regions, trends and issues of administrative and management reforms, globalization and other contemporary challenges to state administrative structures and policies, skills needed to evaluate and implement public management reforms.

POL S 487. Electronic Democracy.

(Dual-listed with POL S 587). (3-0) Cr. 3. *Prereq: Sophomore standing or instructor approval*

The impact of computers, the Internet, and the World Wide Web on politics and policy. The positive and negative effects on information technology (IT) on selected topics such as freedom, power and control, privacy, civic participation, the sense of "community," "virtual cities," interest group behavior, the new media, campaigns, elections, and voting will be examined.

POL S 490. Independent Study.

Cr. arr. Repeatable, maximum of 9 credits. F.S. *Prereq: 6 credits in political science*

Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

POL S 490A. Independent Study: American Government and Politics.

Cr. arr. Repeatable, maximum of 9 credits. F.S. *Prereq: 6 credits in political science*

Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

POL S 490B. Independent Study: Theory and Method.

Cr. arr. Repeatable, maximum of 9 credits. F.S. *Prereq: 6 credits in political science*

Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

POL S 490C. Independent Study: Comparative Politics.

Cr. arr. Repeatable, maximum of 9 credits. F.S. *Prereq: 6 credits in political science*

Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

POL S 490D. Independent Study: International Relations.

Cr. arr. Repeatable, maximum of 9 credits. F.S. *Prereq: 6 credits in political science*

Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

POL S 490E. Independent Study: Extended credit.

Cr. 1-2. Repeatable, maximum of 9 credits. F.S. *Prereq: 6 credits in political science*

Extra study for any 300-Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

POL S 490G. Independent Study: Catt Center Project.

Cr. arr. Repeatable, maximum of 9 credits. F.S. *Prereq: 6 credits in political science*

Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

POL S 490H. Independent Study: Honors.

Cr. arr. Repeatable, maximum of 9 credits. F.S. *Prereq: 6 credits in political science*

Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

POL S 491. Senior Thesis.

Cr. 3. *Prereq: 21 credits of POL S and permission of instructor*
Written under the supervision of a Political Science faculty advisor.

POL S 496. Teaching Internship in Political Science.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S. *Prereq: 12 credits in political science and permission of instructor*

Undergraduate teaching experience through assisting an instructor with an introductory course in political science. Offered on a satisfactory-fail basis only.

POL S 497. Research Internship in Political Science.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S. *Prereq: 12 credits in political science and permission of instructor*

Undergraduate research experience through assisting on a scholarly project with an instructor in political science. Offered on a satisfactory-fail basis only.

POL S 498. Cooperative Education.

Cr. R. F.S.SS. *Prereq: Permission of department cooperative education coordinator; senior classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

POL S 499. Internship in Political Science.

Cr. arr. F.S.SS. *Prereq: 6 credits in political science; junior or senior classification; and permission of internship coordinator*

Work experience with a specific nongovernmental or governmental agency at the local, state, national, or international level, combined with academic work under faculty supervision. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified undergraduates:**POL S 502. Political Analysis and Research.**

(3-0) Cr. 3. F. *Prereq: 6 credits in political science*

Scope and methods of political science. Introduction to theoretical approaches and analytical reasoning in political science. Relationship of theory and data. Research design.

POL S 504. Proseminar in International Politics.

(3-0) Cr. 3. S. *Prereq: 6 credits in political science or graduate standing*

An overview of the major theoretical and empirical works in the study of international politics and foreign policy. Among the major theoretical approaches surveyed and applied to international politics are realism, neo-realism, liberalism, functionalism, rational choice theory, game theory, and decision-making theory. Seminal writings by leading scholars will be reviewed.

POL S 505. Proseminar in Comparative Politics.

(3-0) Cr. 3. F. *Prereq: 6 credits in political science or graduate standing*

Major theoretic approaches to the study of comparative politics -- varying concepts and definitions of society and policy, administrative traditions, institutional arrangements, political behavior, etc. Contrasting research method designs.

POL S 506. Proseminar in American Politics.

(3-0) Cr. 3. S. *Prereq: 6 credits in political science or graduate standing*

A presentation of the major theories and research on American government and politics. Substantive topics include modern democratic theory, institutional performance, and mass political behavior. A variety of research methodologies are examined, including normative theory, behavioralism, and rational choice analysis.

POL S 507. Proseminar in Public Policy.

(3-0) Cr. 3. F. *Prereq: Six credits in political science or graduate standing*

An overview of the major theoretical approaches and empirical methods relevant to the study of public policy. Emphasis is placed on agenda setting, policy formation, policy sustainability, and policy analysis. Seminal writings by leading scholars will be reviewed. Leading quantitative and qualitative methodological tools for analyzing policy are presented.

POL S 510. State Government and Politics.

(3-0) Cr. 3. Alt. F., offered even-numbered years. Alt. S., offered odd-numbered years. *Prereq: POL S 310*

Comparative analysis of state political systems. Role of interest groups, political parties, legislatures, courts, and governors in state politics. Possible determinants of public policy outputs at the state level.

POL S 513. Intergovernmental Relations.

(Dual-listed with POL S 413). (3-0) Cr. 3. S. *Prereq: 6 credits of American government*

Theories and practices of the American federal system. Politics and policy making among federal, state, and local governments.

POL S 515. Biorenewables Law and Policy.

(Cross-listed with BRT). (3-0) Cr. 3. F.

Evaluation of the biorenewables field as it relates to the areas of law and policy. Primary emphasis on the following topics: concerns that motivated the development and expansion of the biorenewables field, a history of the interactions between biorenewable pathways. U.S. law and policy and controversies that have arisen from these interactions and their effects.

POL S 525. Mass Political Behavior.

(3-0) Cr. 3. *Prereq: 6 credits in Political Science or graduate standing*

An in-depth survey of the theoretical, empirical, and methodological works concerning mass political behavior in the United States. Substantive topics include political attitudes and ideologies, public opinion and voting behavior, and political psychology. Methods for studying mass behavior include survey research and experimental approaches.

POL S 531. Modern Political Thought.

(Dual-listed with POL S 431). (3-0) Cr. 3. *Prereq: 6 credits in political science, philosophy, or European history*

Study of original texts in political thought ranging from the Reformation to the French Revolution and its aftermath. Topics such as justice, freedom, rights, democracy, toleration, property, power, skepticism, and normative views of international politics.

POL S 533. E-government and Information Policy.

(3-0) Cr. 3. S.

Overview of the legal and policy context of E-government development. Topics include the legal and regulatory policies on information management in governments, and public policies that use information technologies to address economic and social concerns and their impacts on citizens and governmental organizations.

POL S 534. Legal and Ethical Issues in Information Assurance.

(Cross-listed with CPR E, INFAS). (3-0) Cr. 3. S. *Prereq: Graduate classification; CPR E 531 or INFAS 531*

Legal and ethical issues in computer security. State and local codes and regulations. Privacy issues.

POL S 535. Contemporary Political Philosophy.

(Cross-listed with PHIL). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq: 6 credits of philosophy or political science*

Examination of theories of justice proposed by contemporary political philosophers. Analysis of the philosophical foundations of perspectives such as liberalism, libertarianism, communitarianism, socialism, feminism. Normative assessments of socio-political institutions.

POL S 542. The Policy and Politics of Coastal Areas.

(Dual-listed with POL S 442). (3-0) Cr. 3. SS.

Exploration of political implications of coastal policy. Issues include: "Carrying capacity," zoning, regulation of human development activities, trade-offs between conservation and jobs, the quality of coastal lifestyle, ways in which citizens participate in policy for coastal areas.

POL S 544. Comparative Public Policy.

(3-0) Cr. 3. Alt. F., offered even-numbered years. Alt. S., offered odd-numbered years. *Prereq: 6 credits in political science*
Examines how, why and to what effect governments deal with substantive policy problems differently. Environmental factors, ideologies, cultures, domestic policy making processes, and interest groups.

POL S 552. Comparative Foreign Policy.

(Dual-listed with POL S 452). (3-0) Cr. 3. S. *Prereq: POL S 251*
Various theoretical approaches to explain foreign policy making and behavior through the use of case studies of selected nations.
Meets International Perspectives Requirement.

POL S 560. American Political Institutions.

(3-0) Cr. 3. *Prereq: 6 credits in American government*
Examination of policy-making and governance in a separation of powers system. Interaction between the chief executive, the legislature, administrative agencies, and the public. How political and legal forces affect policy makers and are reflected in public policies and programs.

POL S 569. Foundations of Public Administration.

(3-0) Cr. 3. F. *Prereq: Graduate classification*
An examination of the social, political, intellectual, and environmental factors contributing to the historical development and central issues of American Public Administration. Exploration of classic and contemporary texts of public administration emphasizing constitutional and civic roles of public servants, administrative responsibility in democratic governance and justice, and essential frameworks to identify managerial skills, perspectives, and resources for effective, equitable public service.

POL S 570. Politics and Management of Nonprofit Organizations.

(3-0) Cr. 3. *Prereq: Graduate classification*
Discussion of contemporary issues and perspectives shaping the policy development and management of national and international nonprofit organizations. Topics include an historic overview of nonprofit and philanthropic perspectives; exploration of nonprofit organization roles in public service provision; review of the legal framework influencing nonprofit governance; and consideration of capacity building issues such as strategic planning, board development, fundraising, human resources, and volunteer management.

POL S 571. Organizational Theory in the Public Sector.

(3-0) Cr. 3. F. *Prereq: Graduate classification*
Major theories of administrative organization, including motivations of administrators and organizations, comparisons of organizational arrangements, factors affecting organizational arrangements, and formal and informal decision-making structures.

POL S 572. Public Finance and Budgeting.

(3-0) Cr. 3. S. *Prereq: Graduate classification*
Topics such as the fiscal role of government in a mixed economy; evaluation of sources of public revenue and credit; administrative, political, and institutional aspects of the budget and the budgetary process; alternative budget formats; skills required to analyze public revenue and spending. Spreadsheet use required.

POL S 573. Public Personnel Administration.

(3-0) Cr. 3. S. *Prereq: Graduate classification*
Course discusses the history and development of high performance personnel administration in the public and nonprofit sectors regarding strategic planning, employee rights and responsibilities, performance assessment, collective bargaining, and civil service systems. Emphasized basic competencies in the essential human resource management tools in the areas of recruitment, retention, employee development, compensation, discipline, and conflict resolution.

POL S 574. Policy and Program Evaluation.

(3-0) Cr. 3. F. *Prereq: Graduate classification*
Integration, application, and utilization of public administration and public policy concepts in the interpretation of results and effectiveness of public programs and the prediction of consequences for policymakers and administrators.

POL S 575. Management in the Public Sector.

(Dual-listed with POL S 475). (3-0) Cr. 3. F. *Prereq: POL S 371*
Literature and research on organizational behavior and management theory with emphasis on applied aspects of managing contemporary public sector organizations. Topics include distinctions between public and private organizations, leadership, productivity, employee motivation, organizational structure, and organizational change.

POL S 576. Administrative Law.

(Dual-listed with POL S 476). (3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: POL S 215; junior classification*
Constitutional problems of delegation of governmental powers, elements of fair administrative procedures, judicial control over administrative determinations.

POL S 577. Government, Business, and Society.

(Dual-listed with POL S 477). (3-0) Cr. 3. F. *Prereq: Graduate classification*
Diverse perspectives on the changing roles and relationships of business, government, and society so as to open the way for more effective policy decisions on corporate-government affairs. Topics may include the changing economy; transformation of workplace and community conditions; consumerism; social responsibilities of businesses; economic policies and regulations; and politics in the business-government relationship.

POL S 580. Ethics and Public Policy.

(Dual-listed with POL S 480). (3-0) Cr. 3. *Prereq: 6 credits in political science*
Study of decision making approaches and application to case studies. Topics such as the different roles of public officials, proper scope and use of administrative discretion, and the admissibility of religious, political, and philosophical commitments in governmental decision making.

POL S 581. International Political Economy.

(3-0) Cr. 3. F. *Prereq: 6 credits in political science*
An overview of the international political economy since the end of World War II. Special emphasis on national (primarily U.S.) development assistance and agricultural/food politics and policies, and those of the international food organizations, the World Bank, and the regional development banks.

POL S 582. Environmental Politics and Policies.

(3-0) Cr. 3. F. *Prereq: 3 credits in political science or 3 credits in Environmental Studies; graduate classification*
Major ideologies relating to conservation and ecology. Processes, participants, and institutions involved in state, national, and global environmental policymaking. Case studies of environmental controversies and proposals for policy reform.

POL S 585. Comparative Public Administration.

(Dual-listed with POL S 485). (3-0) Cr. 3.
Comparison of government bureaucratic structures and processes in major world regions; trends and issues of administrative and management reforms; globalization and other contemporary challenges to state administrative structures and policies; skills needed to evaluate and implement public management reforms.

POL S 587. Electronic Democracy.

(Dual-listed with POL S 487). (3-0) Cr. 3. *Prereq: Sophomore standing or instructor approval*
The impact of computers, the Internet, and the World Wide Web on politics and policy. The positive and negative effects on information technology (IT) on selected topics such as freedom, power and control, privacy, civic participation, the sense of "community," "virtual cities," interest group behavior, the new media, campaigns, elections, and voting will be examined.

POL S 590. Special Topics.

Cr. 2-5. Repeatable. F.S. *Prereq: 15 credits in political science, written permission of instructor*

POL S 590A. Special Topics: American Political Institutions.

Cr. 2-5. Repeatable. F.S. *Prereq: 15 credits in political science, written permission of instructor*

POL S 590B. Special Topics: Public Law.

Cr. 2-5. Repeatable. F.S. *Prereq: 15 credits in political science, written permission of instructor*

POL S 590C. Special Topics: Political Theory and Methodology.

Cr. 2-5. Repeatable. F.S. *Prereq: 15 credits in political science, written permission of instructor*

POL S 590D. Special Topics: Comparative Government.

Cr. 2-5. Repeatable. F.S. *Prereq: 15 credits in political science, written permission of instructor*

POL S 590E. Special Topics: International Relations.

Cr. 2-5. Repeatable. F.S. *Prereq: 15 credits in political science, written permission of instructor*

POL S 590F. Special Topics: Policy Process.

Cr. 2-5. Repeatable. F.S. *Prereq: 15 credits in political science, written permission of instructor*

POL S 590G. Special Topics: Public Administration and Public Policy.

Cr. 2-5. Repeatable. F.S. *Prereq: 15 credits in political science, written permission of instructor*

POL S 590I. Special Topics: Internship.

Cr. 2-5. Repeatable. F.S. *Prereq: 15 credits in political science, written permission of instructor*

POL S 590T. Special Topics: Teaching Preparation.

Cr. 2-5. Repeatable. F.S. *Prereq: 15 credits in political science, written permission of instructor*

POL S 598. Graduate Student Internship.

Cr. 3-6. Repeatable, maximum of 6 credits. F.S. *Prereq: 15 credits in political science, permission of the instructor*

Supervised internship with administrative agencies, legislative organizations, judicial branch offices, and nonprofit groups.

POL S 599. Creative Component.

Cr. arr.

Courses for graduate students:**POL S 610. Graduate Seminars.**

(3-0) Cr. 3. Repeatable. F.S. *Prereq: 15 credits in political science*

POL S 610A. Graduate Seminars: American Political Institutions.

(3-0) Cr. 3. Repeatable. F.S. *Prereq: 15 credits in political science*

POL S 610B. Graduate Seminars: Public Law.

(3-0) Cr. 3. Repeatable. F.S. *Prereq: 15 credits in political science*

POL S 699. Thesis.

Cr. arr. Repeatable.

Psychology

Undergraduate Study

For college-level requirements in undergraduate curricula leading to the degrees of bachelor of arts and bachelor of science, see Liberal Arts and Sciences, Curriculum.

An undergraduate major in psychology may be taken as liberal arts education, as preparation for graduate study in psychology, or as background for professional education in law and in the health professions. A student with a bachelor's degree in psychology may qualify for a variety of positions including those in social sciences, mental health, corrections, rehabilitation, developmental disability centers, business, management, and public opinion surveying. Depending on professional goals, a minor in another discipline may be desirable. Students should consult with their academic advisers early in their undergraduate curriculum. The requirements of the program enable graduates to understand and apply the scientific principles, facts, and basic methods of psychology in their personal and professional activities. Graduates will demonstrate an understanding of the scientific method and will be able to apply that understanding to the study of human behavior and the study of mental processes. They will also demonstrate the ability to effectively communicate their knowledge of psychological concepts through both writing and speech. Graduates will demonstrate a respect for individual and cultural differences and for the ethical issues that relate to the practice of psychology in both research and clinical settings. Professional work with a job title of psychologist in academic, business, clinical, government, and school settings requires graduate degrees.

The major must include the following psychology courses each with a minimum grade of C- and an overall average of C or better:

PSYCH 101	Introduction to Psychology *	3
PSYCH 102	Laboratory in Introductory Psychology *	1
PSYCH 111	Orientation to Psychology	0.5
PSYCH 301	Research Design and Methodology *	3
PSYCH 440	Psychological Measurement I *	3

The major also must include at least one course from four of the following six areas:

Area A

PSYCH 230	Developmental Psychology
-----------	--------------------------

PSYCH 335	Abnormal Psychology of Children and Adolescents
-----------	---

Area B

PSYCH 280	Social Psychology
PSYCH 380	Social Cognition

Area C

PSYCH 310	Brain and Behavior
PSYCH 315	Drugs and Behavior

Area D

PSYCH 312	Sensation and Perception
PSYCH 313	Learning and Memory
PSYCH 316	Cognitive Psychology
PSYCH 318	Thinking and Decision Making

Area E

PSYCH 360	Personality Psychology
PSYCH 460	Abnormal Psychology

Area F

PSYCH 250	Psychology of the Workplace
PSYCH 350	Human Factors in Technology

Three additional 3-credit courses in psychology 9

Three additional 3-credit courses in psychology must be taken. Area courses may be used to meet this requirement, but variable credit courses (PSYCH 291, PSYCH 470, PSYCH 490, PSYCH 491, and PSYCH 492) may not.

In accordance with college requirements, a C or better average is required in the courses used to satisfy the major.

Departmental requirements for the B.A. and B.S. include the following supporting courses:

6 credits in Philosophy including	6	
PHIL 201	Introduction to Philosophy (not 207)	3
Two of the following		
BIOL 101	Introductory Biology (or higher)	
BIOL 155	Human Biology (or 255 or 256)	
CHEM 163	College Chemistry (or higher)	
BIOL 258	Human Reproduction	
STAT 101	Principles of Statistics (or higher) *	4
MATH 104	Introduction to Probability (or 150 or higher) **	3

* minimum grade of C-

** excluding MATH 105 Introduction to Mathematical Ideas

Students electing a B.S. degree also must complete PSYCH 302 Research Methods in Psychology with a minimum grade of C- and a minimum of 10 additional supporting credits in supporting courses from the list of courses in the LAS Gen Ed Natural Sciences and Mathematical Disciplines Area (or approved departmental list) as follows: three credits in mathematics, six credits in natural sciences, and one additional credit in a laboratory course.

Students electing a B.A. degree also must complete an ISU approved minor.

The department offers a minor in psychology. The minor requires completing 18 credits in psychology, including PSYCH 101 Introduction to Psychology and PSYCH 301 Research Design and Methodology, each with a minimum grade of C-. At least 9 of the 18 credits must be in 300 level courses (or above), but no more than three credits total may be from PSYCH 291 Introductory Research Experience, PSYCH 490 Independent Study, PSYCH 491 Research Practicum, and PSYCH 492 Fieldwork Practicum. A C- or better is required in each course used to satisfy the minor and a C average or better is required in courses used to satisfy the minor. Contact the psychology advising office for more information.

Communication Proficiency requirement

The department requires a grade of:

C or better in:

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
or ENGL 250H	Written, Oral, Visual, and Electronic Composition: Honors	

C- or better in one of the following:

PSYCH 302	Research Methods in Psychology	3
ENGL 302	Business Communication	3

ENGL 309	Report and Proposal Writing	3
ENGL 314	Technical Communication	3

Four Year Plan

Freshman		Credits	Credits

Graduate Study

The department offers work for the degree of doctor of philosophy in psychology. A master of science may be earned as part of that degree.

The department offers a doctoral specialization in counseling psychology (APA accredited) and doctoral areas of concentration in cognitive psychology and social psychology.

A basic goal of graduate study in the Department of Psychology is to provide all students with a broad base of knowledge in psychological science, as well as exposure to the content and methodological skills necessary for effective performance in teaching, research and professional practice. Accordingly, graduates have an extensive knowledge of psychological principles and the conceptual and quantitative skills to conduct psychological research, communicating the results to the scientific community, students in the classroom, and the general public. Graduates in applied programs have specialized knowledge in counseling and program development. They are skilled in delivering such programs and services to diverse clientele in a variety of settings.

The department also participates in the interdepartmental programs in human computer interaction and neuroscience (<http://www.hci.iastate.edu/Academics/index.php>), and in the interdepartmental minor in gerontology (http://www.gerontology.iastate.edu/?expand=graduate_program).

A formal class and a supervised practicum in the teaching of psychology is recommended for all doctoral students whose future plans may include teaching at the college level. A 12-month internship in a training site or agency approved by the faculty is required of all doctoral students in counseling psychology.

Courses primarily for undergraduates:

PSYCH 101. Introduction to Psychology.

(3-0) Cr. 3. F.S.SS.

Fundamental psychological concepts derived from the application of the scientific method to the study of behavior and mental processes. Applications of psychology.

PSYCH 101H. Introduction to Psychology: Honors.

(2-2) Cr. 3. F. Prereq: Enrollment in the University Honors Program

Fundamental psychological concepts derived from the application of the scientific method to the study of behavior and mental processes. Applications of psychology.

PSYCH 102. Laboratory in Introductory Psychology.

(0-2) Cr. 1. F.S. Prereq: Credit or enrollment in PSYCH 101

Laboratory to accompany 101.

PSYCH 111. Orientation to Psychology.

Cr. 0.5. F.S.

Program requirements and degree/career options. Required of psychology majors. Offered on a satisfactory-fail basis only.

PSYCH 112. Psychology Learning Community Seminar.

(1-0) Cr. 1. Repeatable, maximum of 2 credits. F.S. Prereq: Participation in Freshman Learning Community

Topics include orientation to academic program requirements, career awareness, strategies for successful transition to college, connections with other disciplines, and applying psychology via service learning opportunities. Offered on a satisfactory-fail basis only.

PSYCH 131. Academic Learning Skills.

(0-2) Cr. 1. F.S.

Efficient methods of time management, goal setting and motivation, and other learning strategies such as note-taking, reading, and test preparation. Offered on a satisfactory-fail basis only.

PSYCH 132. Motivation and Academic Learning Skills.

(0-2) Cr. 1. Repeatable. F.S. Prereq: PSYCH 131

Continued development of academic learning skills with an emphasis on motivation and application of learning strategies. Offered on a satisfactory-fail basis only.

PSYCH 230. Developmental Psychology.

(3-0) Cr. 3. F.S.SS.

Life-span development of physical traits, cognition, intelligence, language, social and emotional behavior, personality, and adjustment.

PSYCH 250. Psychology of the Workplace.

(3-0) Cr. 3.

Survey of theories and research methods of psychology applied to the workplace. Consideration of employee selection, training, performance evaluation, leadership, work groups, employee motivation, job attitudes and behaviors, organizational culture, organizational development, human factors, and job design from the scientist-practitioner approach.

PSYCH 280. Social Psychology.

(3-0) Cr. 3. F.S.SS.

Individual human behavior in social contexts. Emphasis on social judgments and decisions, attitudes, perceptions of others, social influence, aggression, stereotypes, and helping.

PSYCH 291. Introductory Research Experience.

Cr. 1-4. Repeatable, maximum of 4 credits. F.S. Prereq: PSYCH 101, sophomore classification, and permission of instructor.

Beginning level supervised research experience in a faculty laboratory. Offered on a satisfactory-fail basis only.

PSYCH 301. Research Design and Methodology.

(3-0) Cr. 3. F.S.SS. Prereq: STAT 101; 1 course in psychology

Overview of the principal research techniques used in psychology with an emphasis on the statistical analysis of psychological data.

PSYCH 302. Research Methods in Psychology.(2-2) Cr. 3. F.S. *Prereq: PSYCH 301, ENGL 250*

Discussion of and experience in designing research studies, collecting and analyzing data, and preparing research reports in psychology.

PSYCH 310. Brain and Behavior.(3-0) Cr. 3. F.S. *Prereq: PSYCH 101*

Survey of basic concepts in the neurosciences with emphasis on brain mechanisms mediating sensory processes, arousal, motivation, learning, and abnormal behavior.

PSYCH 312. Sensation and Perception.(3-0) Cr. 3. F.S. *Prereq: PSYCH 101*

Survey of the physiology and psychology of human sensory systems including vision, audition, smell, taste, the skin senses, and the vestibular senses.

PSYCH 313. Learning and Memory.(3-0) Cr. 3. F.S. *Prereq: PSYCH 101*

Survey of fundamental concepts and theories related to learning and memory derived from human and animal research.

PSYCH 314. Motivation.(3-0) Cr. 3. F.S. *Prereq: PSYCH 101*

Theory and research on motivation at biological, environmental, and psychological levels. Topics include emotion, eating, sex, music, addictions, incentives, goal performance, personality, coping, self-determination and purpose.

PSYCH 315. Drugs and Behavior.(3-0) Cr. 3. F.S. *Prereq: PSYCH 101*

Biologically based examination of the effects of drugs on behavior and social interactions, including recreational drugs and drugs used in the treatment of psychiatric and neurological disorders.

PSYCH 316. Cognitive Psychology.(3-0) Cr. 3. F.S. *Prereq: PSYCH 101*

Overview of human cognition, including sensation and perception, attention, memory, education, language, and judgment and decision making.

PSYCH 318. Thinking and Decision Making.(3-0) Cr. 3. F.S. *Prereq: PSYCH 101; STAT 101 or MATH 104 or equivalent*

Understanding human reasoning and decision making, including evaluating evidence, judging probabilities, emotional influences, and social dilemmas, with emphasis on the mechanisms that underlie decision making.

PSYCH 333. Educational Psychology.(Cross-listed with C I). (3-0) Cr. 3. F.S. *Prereq: PSYCH 230 or HD FS 102, application to the teacher education program or major in psychology*

Classroom learning with emphasis on theories of learning and cognition, and instructional techniques. Major emphasis on measurement theory and the classroom assessment of learning outcomes.

PSYCH 335. Abnormal Psychology of Children and Adolescents.(3-0) Cr. 3. F.S. *Prereq: PSYCH 101; PSYCH 230 or HDFS 102*

Psychopathology of children and adolescents, including childhood depression and anxiety disorders. Consideration of multiple probable causes and corresponding therapies.

PSYCH 346. Psychology of Women.(Cross-listed with W S). (3-0) Cr. 3. F.S. *Prereq: 2 courses in psychology including PSYCH 101*

Survey of theory and research related to major biological, interpersonal, and cultural issues affecting girls' and women's psychological development and behavior.

Meets U.S. Diversity Requirement

PSYCH 347. U.S. Latino/a Psychology.(3-0) Cr. 3. S. *Prereq: Two courses in Psychology including PSYCH 101*

Historical, political, and social contexts of psychological and mental health constructs in terms of their validity and utility for use in Latino/a people in the U.S. Unique aspects of psychological functioning particular to Latino/a peoples in the U.S.

Meets U.S. Diversity Requirement

PSYCH 348. Psychology of Religion.(Cross-listed with RELIG). (3-0) Cr. 3. *Prereq: Nine credits in psychology*

Survey of psychological theory and research investigating religious and spiritual attitudes, beliefs and practices.

PSYCH 350. Human Factors in Technology.(3-0) Cr. 3. F. *Prereq: PSYCH 101; junior classification*

Understanding human behavior and cognition in the context of modern technologies. Focus on emergent interactive technologies, human computer interaction, user centered design, usability analysis, and usability testing.

PSYCH 360. Personality Psychology.(3-0) Cr. 3. F.S.SS. *Prereq: PSYCH 101*

Historical and contemporary theory and research on development and expression of personality with a focus on normal functioning.

PSYCH 380. Social Cognition.(3-0) Cr. 3. *Prereq: PSYCH 101 or PSYCH 280*

How people understand themselves and others, including attribution, social categories and schemas, the self, social inference, stereotypes, and prejudice.

PSYCH 381. Social Psychology of Small Group Behavior.(Cross-listed with SOC). (3-0) Cr. 3. S. *Prereq: SOC 305 or PSYCH 280*

A survey of small group theory and research from an interdisciplinary, social psychological perspective.

PSYCH 383. Psychology and Law.(3-0) Cr. 3. F.S. *Prereq: PSYCH 101 or PSYCH 280*

Survey of topics in the interface between psychology and the legal system including but not limited to theories of crime, policing, eyewitness reliability, jury behavior, competence and insanity, and trial processes.

PSYCH 386. Media Psychology.Cr. 3. F.S.SS. *Prereq: PSYCH 101 or PSYCH 230 or PSYCH 280*

Theories and research on the psychological mechanisms (e.g., attitudes, perceptions, emotions, arousal) by which media influence children and adults. Topics include media violence, educational media, advertising, music, video games, media literacy, and ratings.

PSYCH 401. History of Psychology.(3-0) Cr. 3. F.S. *Prereq: 4 courses in psychology*

Philosophy and science backgrounds of psychology. Development of theories and causes of events in academic and applied psychology.

PSYCH 410. Behavioral Neurology.(3-0) Cr. 3. F. *Prereq: PSYCH 101; PSYCH 310 or equivalent*

Examination of the neuroanatomical foundation of cognition, affect, and action from a neurological perspective. Focus on basic and applied research with neurological patients.

PSYCH 411. Evolutionary Psychology.(3-0) Cr. 3. S. *Prereq: Junior classification, three courses in psychology; one course in biology*

Examination of the application of the principles of evolutionary biology to the understanding of human behavior. Evolutionary perspectives on brain development, cognition, language, mating behavior, sex differences, altruism, artistic behavior, and criminal behavior are explored. Arguments by those critical of the evolutionary approach to psychology are also examined.

PSYCH 413. Psychology of Language.(Cross-listed with LING). (3-0) Cr. 3. *Prereq: PSYCH 101*

Introduction to psycholinguistics. Topics may include origin of language, speech perception, language comprehension, reading, bilingualism, brain bases of language, and computational modeling of language processes.

PSYCH 422. Counseling Theories and Techniques.(3-0) Cr. 3. F. *Prereq: 3 courses in psychology*

Overview of the major counseling theories and techniques, with emphasis on the key concepts of each theory, the role of the counselor, therapeutic goals, and the main techniques derived from each theory.

PSYCH 422L. Laboratory in Counseling Theory and Techniques.(0-2) Cr. 1. F. *Prereq: Three classes in psychology and credit or enrollment in PSYCH 422.*

Learn basic counseling skills such as active listening, reflecting feelings, empathy, confrontation, immediacy and self-disclosure. Supervised practice using basic counseling skills.

PSYCH 440. Psychological Measurement I.(2-2) Cr. 3. F.S.SS. *Prereq: PSYCH 301 and 9 credits in psychology, STAT 101*

Principles of psychological measurement, including concepts of reliability and validity; interpretation of scores; factors influencing performance; construction and use of measures of ability, achievement, and personality.

PSYCH 450. Industrial Psychology.(3-0) Cr. 3. F.S. *Prereq: 2 courses in psychology including PSYCH 101, STAT 101*

Theory, content and methods of industrial psychology related to the effective operation of organizations. Application of psychology principles to topics including different approaches used to select employees, how to conduct performance appraisals, and how to train and keep employees safe. Work attitudes and behaviors of employees as well as relevant legal issues. Statistics including regression and correlation are used.

PSYCH 460. Abnormal Psychology.

(3-0) Cr. 3. F.S.SS. *Prereq:* 3 courses in psychology including PSYCH 101
Description of major forms of maladaptation including anxiety, mood disorders, personality disorders, substance dependence, and schizophrenia. Factors in the development of behavior deviations. Research pertinent to the description, development, and maintenance of abnormal behavior.

PSYCH 470. Seminar in Psychology.

(1-0) Cr. 1-3. Repeatable. *Prereq:* 12 credits in psychology
Current topics in psychological research and practice in the following areas.

PSYCH 470A. Seminar in Psychology: Counseling.

(1-0) Cr. 1-3. Repeatable. *Prereq:* 12 credits in psychology

PSYCH 470B. Seminar in Psychology: Experimental.

(1-0) Cr. 1-3. Repeatable. *Prereq:* 12 credits in psychology

PSYCH 470C. Seminar in Psychology: Individual Differences.

(1-0) Cr. 1-3. Repeatable. *Prereq:* 12 credits in psychology

PSYCH 470D. Seminar in Psychology: Social.

(1-0) Cr. 1-3. Repeatable. *Prereq:* 12 credits in psychology

PSYCH 484. Psychology of Close Relationships.

(3-0) Cr. 3. *Prereq:* 9 credits in psychology including PSYCH 280
Theories and research concerning the functions, development, and deterioration of close relationships. Influence of psychological processes on friendship, romantic, marital, and family relationships. Topics include mate selection, interdependence, trust and commitment, power and dominance in relationships, sexuality, divorce, gender roles, and family interaction.

PSYCH 485. Health Psychology.

(3-0) Cr. 3. F. *Prereq:* Junior classification, 6 credits in psychology
Application of psychological theory and research methods to issues in physical health. Psychological factors in illness prevention, health maintenance, treatment of illness, recovery from injury and illness, and adjustment to chronic illness.

PSYCH 487. Human Agression.

(3-0) Cr. 3. S. *Prereq:* PSYCH 230, PSYCH 301; PSYCH 313, PSYCH 316, or PSYCH 380

Theory and research on development and occurrence of human aggression; implications for prevention and treatment.

PSYCH 488. Cultural Psychology.

(3-0) Cr. 3. *Prereq:* PSYCH 280 and PSYCH 301; junior classification
Examination of the ways that cultural beliefs, values, and ideologies shape cognitive, developmental, social and other psychological phenomena. Meets International Perspectives Requirement.

PSYCH 490. Independent Study.

Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS. *Prereq:* Junior classification, 6 credits in psychology, and permission of instructor
Supervised reading in an area of psychology. Writing requirement. No more than 9 credits of Psych 490 may be counted toward a degree in psychology.

PSYCH 491. Research Practicum.

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. *Prereq:* Junior classification, permission of instructor, and credit or enrollment in PSYCH 301
Supervised research in an area of psychology. Primarily for students intending to pursue graduate education. No more than 9 credits of Psych 491 may be counted toward a degree in psychology.

PSYCH 492. Fieldwork Practicum.

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. *Prereq:* Junior classification, 12 credits in psychology, and permission of instructor
Supervised fieldwork in one of the following applied psychology settings. Offered on a satisfactory-fail basis only. No more than 9 credits of Psych 492 may be counted toward a degree in psychology.

PSYCH 492A. Fieldwork Practicum: Human Services.

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. *Prereq:* Junior classification, 12 credits in psychology and permission of instructor
Offered on a satisfactory-fail basis only.

PSYCH 492B. Fieldwork Practicum: I/O Psychology.

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. *Prereq:* Junior classification, 12 credits in psychology including PSYCH 450 or PSYCH 250 and enrollment in PSYCH 450, and permission of instructor.
Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified undergraduates:

PSYCH 501. Foundations of Behavioral Research.

(3-0) Cr. 3. F.S. *Prereq:* STAT 401 or equivalent
Ethical issues, research design, sampling design, measurement issues, power and precision analysis, interpretation of statistical results in non-experimental, quasi-experimental, and experimental research, use of statistical packages.

PSYCH 508. Research Methods in Applied Psychology.

(3-0) Cr. 3. *Prereq:* PSYCH 440 and PSYCH 501 or STAT 401
Methods and issues in applied psychological research. Role of theory in research, fidelity of measurement, selection of subjects, sampling, ethical issues, experimenter bias, data collection methods, power analysis, and professional standards for writing research articles. Emphasis on research methodological issues, not statistical issues.

PSYCH 516. Advanced Cognition.

(3-0) Cr. 3. F.S. *Prereq:* PSYCH 316
Theoretical models and empirical research in human cognition including perception, attention, memory, concepts/categorization, imagery, and judgment and decision making.

PSYCH 517. Psychopharmacology.

(3-0) Cr. 3. *Prereq:* PSYCH 310, PSYCH 315, or equivalent and permission of instructor
Fundamentals of drug-behavior interactions with emphasis on psychoactive drugs and their use in experimental, therapeutic, and social settings.

PSYCH 519. Cognitive Neuropsychology.

(3-0) Cr. 3. *Prereq:* PSYCH 310 and PSYCH 316 or PSYCH 313; graduate classification or permission of instructor
Psychological models and related neurological substrates underlying cognition in normal and brain-damaged individuals.

PSYCH 521. Cognitive Psychology of Human Computer Interaction.

(Cross-listed with HCI). (3-0) Cr. 3. *Prereq:* Graduate classification or instructor approval
Biological, behavioral, perceptual, cognitive and social issues relevant to human computer interactions.

PSYCH 522. Scientific Methods in Human Computer Interaction.

(Cross-listed with HCI). (3-0) Cr. 3. Alt. S., offered odd-numbered years. *Prereq:* PSYCH 521 and STAT 101 or equivalent
Basics of hypothesis testing, experimental design, analysis and interpretation of data, and the ethical principles of human research as they apply to research in human computer interaction.

PSYCH 533. Educational Psychology of Learning, Cognition, and Memory.

(Cross-listed with C I). (3-0) Cr. 3. F.
Learning, cognition, and memory in educational/training settings.

PSYCH 538. Developmental Disabilities.

(Cross-listed with HD FS). (3-0) Cr. 3. Alt. F., offered odd-numbered years. *Prereq:* 9 credits in human development and family studies or psychology or permission of instructor
Theories, research, and current issues regarding the intersection of development and disabilities. Investigation of interventions with individuals and families. (on-line course offering via Distance Education).

PSYCH 542. Applied Psychological Measurement.

(3-0) Cr. 3. F. *Prereq:* PSYCH 440
Principles of psychological measurement, including concepts of reliability and validity; interpretation of scores; factors influencing performance; test construction and use of measures of intelligence, ability, achievement, vocational interest, and personality. Ethical and multicultural issues in measurement.

PSYCH 544. Practicum in Assessment.

(2-1) Cr. 2. F.S. *Prereq:* PSYCH 542 and admission into the PhD program in counseling psychology
Supervised practice in designing and implementing observational systems and in administering, scoring, interpreting, and reporting individual tests.

PSYCH 560. Advanced Personality Psychology.

(3-0) Cr. 3. *Prereq:* 4 courses in psychology, including PSYCH 360
Advanced analysis of contemporary theory and research on personality measurement, development, heritability, and social expression.

PSYCH 561. Psychopathology and Behavior Deviations.

(3-0) Cr. 3. *Prereq:* PSYCH 460
Examination of theoretical perspectives and current research pertinent to the major forms of adult dysfunction including: adjustment, anxiety, mood, somatoform, dissociative, sexual and gender identity, personality, schizophrenic, eating, and substance abuse disorders.

PSYCH 562. Personality Assessment.

(3-0) Cr. 3. Prereq: PSYCH 360, PSYCH 440, PSYCH 542, and PSYCH 501 or STAT 401 and admission to the PhD program in counseling psychology
Principles, concepts, and methods of personality assessment. Though not a practicum course, exposure is given to a variety of objective, projective, and situational tests.

PSYCH 580. Advanced Social Psychology: Psychological Perspectives.

(3-0) Cr. 3. Prereq: 4 courses in psychology, including PSYCH 280
Current theories, methods, and research in social psychology with an emphasis on cognitive and interpersonal processes such as attribution, social cognition, attitude change, attraction, aggression, and social comparison.

PSYCH 590. Special Topics.

Cr. arr. Repeatable. Prereq: 12 credits in psychology, and permission of instructor
Guided reading on special topics or individual research projects in the following areas.

PSYCH 590A. Special Topics: Counseling.

Cr. arr. Repeatable. Prereq: 12 credits in psychology, and permission of instructor

PSYCH 590Q. Special Topics: Cognitive.

Cr. arr. Repeatable. Prereq: 12 credits in psychology, and permission of instructor

PSYCH 590R. Special Topics: Social.

Cr. arr. Repeatable. Prereq: 12 credits in psychology, and permission of instructor

PSYCH 590Z. Special Topics: General.

Cr. arr. Repeatable. Prereq: 12 credits in psychology, and permission of instructor

PSYCH 592. Seminar in Psychology.

(1-0) Cr. 1-3. Repeatable. Prereq: 12 hours in psychology or graduate classification.

Seminar in the following areas.

PSYCH 592C. Seminar in Psychology: Developmental.

(1-0) Cr. 1-3. Repeatable. F.S. Prereq: 12 hours in psychology or graduate classification.

PSYCH 592P. Seminar in Psychology: Research Methods and Psychometrics.

(1-0) Cr. 1-3. Repeatable. Prereq: 12 hours in psychology or graduate classification.

PSYCH 592Z. Seminar in Psychology: General.

(1-0) Cr. 1-3. Repeatable. Prereq: 12 hours in psychology or graduate classification.

PSYCH 594. Quantitative Behavioral Methods.

(1-0) Cr. 1. F.S. Prereq: PSYCH 501 or equivalent
Specialized quantitative methods for social and behavioral research problems in the following areas.

PSYCH 594A. Quantitative Behavioral Methods: Classical psychometric theory.

(1-0) Cr. 1. F.S. Prereq: PSYCH 501 or equivalent

PSYCH 594B. Quantitative Behavioral Methods: Modern psychometric methods.

(1-0) Cr. 1. F.S. Prereq: PSYCH 501 or equivalent

PSYCH 594C. Quantitative Behavioral Methods: Construct validation.

(1-0) Cr. 1. F.S. Prereq: PSYCH 501 or equivalent

PSYCH 594D. Quantitative Behavioral Methods: Multi-dimensional scaling.

(1-0) Cr. 1. F.S. Prereq: PSYCH 501 or equivalent

PSYCH 594E. Quantitative Behavioral Methods: Cluster Analysis.

(1-0) Cr. 1. F.S. Prereq: PSYCH 501 or equivalent

PSYCH 594F. Quantitative Behavioral Methods: Meta-analysis.

(1-0) Cr. 1. F.S. Prereq: PSYCH 501 or equivalent

PSYCH 594G. Quantitative Behavioral Methods: Longitudinal analysis.

(1-0) Cr. 1. F.S. Prereq: PSYCH 501 or equivalent

PSYCH 594I. Quantitative Behavioral Methods: Focus Groups.

(1-0) Cr. 1. F.S. Prereq: PSYCH 501 or equivalent

PSYCH 595. Seminar in Social Psychology.

Cr. 1-3. Repeatable. F.S. Prereq: 12 credits in Psychology
Seminar in the following areas in social psychology.

PSYCH 595A. Seminar in Social Psychology: Social Cognition.

Cr. 1-3. Repeatable. F.S. Prereq: 12 credits in Psychology

PSYCH 595B. Seminar in Social Psychology: Aggression.

Cr. 1-3. Repeatable. F.S. Prereq: 12 credits in Psychology

PSYCH 595C. Seminar in Social Psychology: Culture.

Cr. 1-3. Repeatable. F.S. Prereq: 12 credits in Psychology

PSYCH 595D. Seminar in Social Psychology: Attitudes and Attitude Change.

Cr. 1-3. Repeatable. F.S. Prereq: 12 credits in Psychology

PSYCH 595E. Seminar in Social Psychology: Psychology and Law.

Cr. 1-3. Repeatable. F.S. Prereq: 12 credits in Psychology

PSYCH 595G. Seminar in Social Psychology: Close Relationships.

Cr. 1-3. Repeatable. F.S. Prereq: 12 credits in Psychology

PSYCH 595I. Seminar in Social Psychology: General.

Cr. arr. Repeatable. F.S. Prereq: 12 credits in Psychology

PSYCH 596. Seminar in Counseling Psychology.

Cr. arr. Repeatable. F.S. Prereq: 12 credits in Psychology
Seminar in the following areas in counseling psychology.

PSYCH 596A. Seminar in Counseling Psychology: Supervision.

Cr. arr. Repeatable. F.S. Prereq: 12 credits in Psychology

PSYCH 596B. Seminar in Counseling Psychology: Research.

Cr. arr. Repeatable. F.S. Prereq: 12 credits in Psychology

PSYCH 596C. Seminar in Counseling Psychology: Multicultural.

Cr. arr. Repeatable. F.S. Prereq: 12 credits in Psychology

PSYCH 596D. Seminar in Counseling Psychology: Professional Issues and Ethics.

Cr. arr. Repeatable. F.S. Prereq: 12 credits in Psychology

PSYCH 596E. Seminar in Counseling Psychology: General.

Cr. arr. Repeatable. F.S. Prereq: 12 credits in Psychology

PSYCH 597. Internship in Psychology.

Cr. R. Prereq: M.S. degree candidacy; permission of instructor
Full-time, non-clinical, supervised experience in a setting relevant to psychology. Intended for master's degree level internships.

PSYCH 598. Seminar in Cognitive Psychology.

Cr. arr. Repeatable. F.S. Prereq: PSYCH 516, PSYCH 501 or STAT 401.
Seminar in the following areas in cognitive psychology.

PSYCH 598A. Seminar in Cognitive Psychology: Attention and Perception.

Cr. arr. Repeatable. F.S. Prereq: PSYCH 516, PSYCH 501 or STAT 401

PSYCH 598B. Seminar in Cognitive Psychology: Memory.

Cr. arr. Repeatable. F.S. Prereq: PSYCH 516, PSYCH 501 or STAT 401

PSYCH 598C. Seminar in Cognitive Psychology: Cognitive Neuroscience.

Cr. arr. Repeatable. F.S. Prereq: PSYCH 516, PSYCH 501 or STAT 401

PSYCH 598D. Seminar in Cognitive Psychology: Judgment and Decision Making.

Cr. arr. Repeatable. F.S. Prereq: PSYCH 516, PSYCH 501 or STAT 401

PSYCH 598E. Seminar in Cognitive Psychology: Evolution.

Cr. arr. Repeatable. F.S. Prereq: PSYCH 516, PSYCH 501 or STAT 401

PSYCH 598F. Seminar in Cognitive Psychology: Language.

Cr. arr. Repeatable. F.S. Prereq: PSYCH 516, PSYCH 501 or STAT 401

PSYCH 598G. Seminar in Cognitive Psychology: Applied.

Cr. arr. Repeatable. F.S. Prereq: PSYCH 516, PSYCH 501 or STAT 401

PSYCH 598I. Seminar in Cognitive Psychology: General.

Cr. arr. Repeatable. F.S. Prereq: PSYCH 516, PSYCH 501 or STAT 401

PSYCH 599. Creative Component.

Cr. arr.
Offered on a satisfactory-fail basis only.

Courses for graduate students:**PSYCH 601. History of Philosophy of Psychology.**

(3-0) Cr. 3. Prereq: 4 courses in psychology
Origins of psychology in philosophical, medical, and related thought. Development as an independent discipline in the nineteenth and twentieth centuries as a science and as a practice including traditional and contemporary theory and philosophy.

PSYCH 605. Multi-level Modeling.

(Cross-listed with HD FS). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: HD FS 503 and HD FS 505 or STAT 404 or permission of instructor
Rationale for and interpretation of random coefficient models. Strategies for the analysis of multi-level and panel data including models for random intercepts, random slopes, and growth curves. Applications including HLM, SAS, PROC MIX, and MPLUS.

PSYCH 621. Psychological Counseling -Theory and Process.

(3-0) Cr. 3. F. *Prereq:* 3 courses in psychology and permission of instructor
Overview of major counseling theories with emphases upon: key concepts of theories, the role of the counselor, and applications of theory in fostering client change.

PSYCH 621L. Psychological Counseling -Theory and Process: Techniques in Counseling.

(0-6) Cr. 3. F. *Prereq:* permission of instructor required
Development of basic counseling skills and techniques through observation, role-playing, case studies, and supervised counseling sessions.

PSYCH 623. Vocational Behavior.

(3-0) Cr. 3. *Prereq:* 3 courses in psychology or graduate classification
Theoretical views, research, and issues in career development through the life span. Methods of career counseling, including appraisal interviewing, assessment, test interpretation, and use of information sources.

PSYCH 626. Group Counseling.

(2-2) Cr. 3. *Prereq:* Graduate classification
Theory, research, ethical issues, and therapeutic considerations relevant to group counseling. Participation in lab exercises for development of group counseling skills and observation of ongoing groups.

PSYCH 633. Teaching of Psychology.

(3-0) Cr. 3. *Prereq:* Enrollment in doctoral degree program in psychology, completion of at least 1 year of graduate study, permission of instructor
Orientation to teaching of psychology at college level: academic issues and problems, instructional and evaluative techniques.

PSYCH 691. Practicum in Psychology.

Cr. arr. F.S. *Prereq:* *Prereq:* Permission of instructor
Supervised practice and experience in the following fields of specialization in applied psychology.

PSYCH 691A. Practicum in Psychology: Counseling (Beginning).

Cr. 1-3. Repeatable, maximum of 6 credits. F.S. *Prereq:* PSYCH 621L

PSYCH 691B. Practicum in Psychology: Counseling (Intermediate).

Cr. 1-3. Repeatable, maximum of 6 credits. F.S. *Prereq:* Permission of instructor, PSYCH 691A

PSYCH 691C. Practicum in Psychology: Counseling (Advanced).

Cr. 1-3. Repeatable, maximum of 6 credits. F.S. *Prereq:* Permission of instructor, PSYCH 691A, PSYCH 691B

PSYCH 691D. Practicum in Psychology: Counseling (Advanced External Practicum).

Cr. 1-3. Repeatable, maximum of 6 credits. F.S. *Prereq:* Permission of instructor, PSYCH 691A, PSYCH 691B

PSYCH 691G. Practicum in Psychology: Group Counseling.

Cr. 1-3. F.S. *Prereq:* *Prereq:* Permission of instructor, PSYCH 626, PSYCH 691A

PSYCH 691S. Practicum in Psychology: Supervision.

Cr. 1-3. F.S. *Prereq:* Permission of instructor, PSYCH 592A, PSYCH 621L

PSYCH 691T. Practicum in Psychology: Teaching.

Cr. 1-3. Repeatable, maximum of 6 credits. F.S. *Prereq:* Permission of instructor, PSYCH 633
Offered on a satisfactory-fail basis only.

PSYCH 691Z. Practicum in Psychology: General.

Cr. 1-3. Repeatable, maximum of 6 credits. F.S. *Prereq:* Permission of instructor

PSYCH 692. Research Seminar.

(1-0) Cr. 1-3. Repeatable. *Prereq:* Permission of instructor
Research seminar in the following areas.

PSYCH 692A. Research Seminar: Counseling.

(1-0) Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

PSYCH 692Q. Research Seminar: Cognitive.

(1-0) Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

PSYCH 692R. Research Seminar: Social.

(1-0) Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

PSYCH 692Z. Research Seminar: General.

(1-0) Cr. 1-3. Repeatable. *Prereq:* Permission of instructor

PSYCH 697. Internship in Counseling Psychology.

Cr. R. *Prereq:* Ph.D. candidacy in the Counseling Psychology program, approved dissertation proposal, and permission of instructor
Full time supervised predoctoral internship experience in a setting relevant to counseling psychology.

PSYCH 699. Research.

Cr. arr. Repeatable.
Offered on a satisfactory-fail basis only.

Sociology

Undergraduate Study in Sociology

The Department of Sociology offers course work leading to either a bachelor of arts or bachelor of science in sociology, or a minor in sociology. Additionally, a bachelor of science in Public Service and Administration in Agriculture is offered. The department offers course work for the Interdisciplinary Studies major in Criminology and Criminal Justice and a minor in Criminal Justice Studies.

Graduates of all these programs will understand and demonstrate:

1. general knowledge of sociology
2. research methods in sociology
3. critical thinking skills
4. application of sociology to pressing social issues
5. sociological and professional values
6. information technology skills
7. communication skills
8. personal and career development

Graduates understand how social institutions, communities, and organizations work and change; they can examine the causes and consequences of conformity, deviance, and inequality. They can apply sociological understanding of human behavior to practical work situations and everyday life. Graduates can read critically, think independently, and communicate effectively about social issues and social policy.

Sociology Major (College of Liberal Arts and Sciences)

A major in sociology can serve as a liberal arts education; as preparation for various positions in social service and related occupations in business and industry; as background for professional education in such areas as law and theology or as a basis for graduate professional training as a sociologist in academic, government, business, and industrial settings.

Departmental requirements for sociology majors include the following supporting courses:

One of the following

ENGL 302	Business Communication	
ENGL 309	Report and Proposal Writing	
ENGL 314	Technical Communication	
STAT 101	Principles of Statistics	3-4
or STAT 104	Introduction to Statistics	
At least 3 additional credits with a Mathematics designator		3

A program of study that meets the needs and interests of the student and department requirements will be developed in consultation with the major adviser. Programs of study will include

SOC 115	Orientation to Sociology	R
SOC 134	Introduction to Sociology	3
SOC 302	Research Methods for the Social Sciences	3
SOC 305	Social Psychology: A Sociological Perspective	3
SOC 401	Contemporary Sociological Theories	3
Social Institutions Component (one of the following)		3
SOC 310	Community	
SOC 334	Politics and Society	
SOC 377	Social Dimensions of Religion	
SOC 380	Sociology of Work	
SOC 420	Complex Organizations	
SOC 485	Sociology of the Family	
Social Inequality Component (one of the following)		3
SOC 327	Sex and Gender in Society	
SOC 328	Sociology of Masculinities and Manhood	
SOC 330	Ethnic and Race Relations	
SOC 331	Social Class and Inequality	
SOC 332	The Latino/Latina Experience in U.S. Society	

SOC 345	Population and Society	
SOC 411	Social Change in Developing Countries	
SOC 435	Urban Society	
9 credits of 300-400 level courses		9
3 credits of 200-300-400 level courses		3

Majors must receive grades of C or better in and ENGL 250 Written, Oral, Visual, and Electronic Composition, and a grade of C or better in either or ENGL 309 Report and Proposal Writing or ENGL 314 Technical Communication. Programs leading to a bachelor of arts degree will emphasize additional coursework in groups I, II and IV of the general education requirements. Programs leading to a bachelor of science degree will emphasize additional coursework in groups III and IV of the general education requirements. Some of the possible fields of concentration are criminal justice systems, community (urban and rural) sociology, family sociology, sociology of work, social science teaching, research methods and statistics, social change and development, complex organizations, human population and ecology, social inequality, social psychology, and sociological theory.

Sociology Minor

The department offers a minor in sociology which may be earned by completing 15 credits in sociology including:

SOC 134	Introduction to Sociology	3
Social Institutions Component (one of the following)		3
SOC 310	Community	
SOC 334	Politics and Society	
SOC 377	Social Dimensions of Religion	
SOC 380	Sociology of Work	
SOC 420	Complex Organizations	
SOC 485	Sociology of the Family	
Social Inequality Component (one of the following)		3
SOC 327	Sex and Gender in Society	
SOC 328	Sociology of Masculinities and Manhood	
SOC 330	Ethnic and Race Relations	
SOC 331	Social Class and Inequality	
SOC 332	The Latino/Latina Experience in U.S. Society	
SOC 345	Population and Society	
SOC 411	Social Change in Developing Countries	
SOC 435	Urban Society	
SOC 305	Social Psychology: A Sociological Perspective	3
or SOC 381	Social Psychology of Small Group Behavior	
Additional 3 credits in Sociology courses		3

At least 9 of the 15 credits must be at the 300 level or higher, 6 of these credits must be taken at Iowa State with a minimal grade of C.

Graduate Study

The department offers work for the degrees master of science and doctor of philosophy with majors in sociology and rural sociology and minor work for students majoring in other departments. The department offers concentrations in a number of areas, e.g., community studies and development; sociology of families, inequality, food systems, agriculture and environment; methodology; social change and development; criminology; the economy, organizations and work; and social psychology. The Department of Sociology does not offer a nonthesis master's program.

Graduates have a broad understanding of sociology, address complex societal problems, and communicate effectively with scientific colleagues and the general public in both formal and informal settings. They understand sociological theory, conduct research, and are prepared to educate college students and contribute to public policy. Although the department stipulates no language requirement for either the degree master of science or the degree doctor of philosophy, specifying competence in one or more languages may be desirable in some instances.

The department also participates in the interdepartmental program in interdepartmental majors in sustainable agriculture, transportation and water resources, and interdepartmental minors in gerontology.

Course requirements are listed below. Information about examinations, theses and dissertations, P.O.S. committees and other requirements are available on the Sociology Department web site.

Ph.D. Core Degree Requirements

Although responsibility for determining the student's course work resides with the POS committee, the Sociology Department has core courses that must be taken by all students. A graduate course taken elsewhere can be substituted for the Ph.D. core requirements with approval by the Departmental Officer of Graduate Education (DOGE) in consultation with the faculty.

A minimum of 72 semester credits (including master's degree credits) is required for graduation.

Required Courses for the Ph.D. Degree

STAT 404	Regression for Social and Behavioral Research	3
SOC 506	Classical Sociological Theory	3
SOC 511	Research Methodology for the Social Sciences	3
SOC 512	Applied Multivariate Statistics for Social and Behavioral Research	3
SOC 513	Qualitative Research Methods	3
SOC 520	Social Psychology: A Sociological Perspective	3
SOC 534	Race, Class and Gender Inequality	3
SOC 591	Orientation to Sociology	1
SOC 607	Contemporary Sociological Theory	3
SOC 699	Dissertation Research	8

No more than 12 credits of 590 (special topics) may be applied toward the Ph.D. degree requirements (72 credits).

Ph.D. Minor / Co-Major Requirements

Required Courses for the Ph.D. Minor

SOC 506	Classical Sociological Theory	3
SOC 511	Research Methodology for the Social Sciences	3
SOC 607	Contemporary Sociological Theory	3

One of the following three courses:

SOC 512	Applied Multivariate Statistics for Social and Behavioral Research	
SOC 513	Qualitative Research Methods	
SOC 613	Structural Equation Models for Social and Behavioral Research	

And other Sociology courses (at least one of which must be at the 600 level) for a total of 24 credits in Sociology.

Required Courses for the Ph.D. Co-Major

STAT 404	Regression for Social and Behavioral Research	3
SOC 506	Classical Sociological Theory	3
SOC 511	Research Methodology for the Social Sciences	3

One Course in Advanced Methodology:

SOC 512	Applied Multivariate Statistics for Social and Behavioral Research	
SOC 513	Qualitative Research Methods	
SOC 613	Structural Equation Models for Social and Behavioral Research	

One Course in Advanced Sociology

SOC 520	Social Psychology: A Sociological Perspective	
SOC 534	Race, Class and Gender Inequality	
SOC 591	Orientation to Sociology	1
SOC 607	Contemporary Sociological Theory	3
SOC 699	Dissertation Research	8

Co-Major Requirements for the Graduate Program in Sustainable Agriculture
The Graduate Program in Sustainable Agriculture (GPSA) develops student competence and expertise in the design, implementation, and evaluation of sustainable agricultural systems. The program's curriculum satisfies the formal requirements for the MS and Ph.D. degrees, as established by the ISU Graduate College, and fosters transdisciplinary and systems-level thinking.

The Department does not offer double majors in sociology. For admission to the co-major program contact the graduate program coordinator.

M.S. Core Degree Requirements

Although responsibility for determining the student's course work resides with the POS committee, the Sociology Department has core courses that must be taken by all students. A graduate course taken elsewhere can be substituted for the core

requirements with approval by the Departmental Officer of Graduate Education (DOGE) in consultation with the faculty.

Required Courses for the M.S. Degree

STAT 401	Statistical Methods for Research Workers	4
SOC 506	Classical Sociological Theory	3
SOC 511	Research Methodology for the Social Sciences	3
SOC 591	Orientation to Sociology	1
SOC 599	Research for Master's Thesis	6

A minimum of 30 semester credits is required for the M.S. degree.

No more than 6 credits of 590 (special topics) may be applied toward the M.S. degree requirements (30 credits).

M.S. Minor / Co-Major Requirements

Required Courses for the M.S. Minor

SOC 506	Classical Sociological Theory	3
SOC 511	Research Methodology for the Social Sciences	3

One additional course in sociology, or STAT 401, for a minimum of 9 credits.

Required Courses for the M.S. Co-Major

STAT 401	Statistical Methods for Research Workers	4
SOC 506	Classical Sociological Theory	3
SOC 511	Research Methodology for the Social Sciences	3

Three additional courses in sociology for a total of 19 credits.

The department does not offer double majors in sociology at the graduate level. Admission requirements to the co-major program are the same as for the major.

Co-Major Requirements for the Graduate Program in Sustainable Agriculture

The Graduate Program in Sustainable Agriculture (GPSA) develops student competence and expertise in the design, implementation, and evaluation of sustainable agricultural systems. The program's curriculum satisfies the formal requirements for the MS and PhD degrees, as established by the ISU Graduate College, and fosters transdisciplinary and systems-level thinking.

Public Service and Administration in Agriculture Major (College of Agricultural and Life Sciences)

The Public Service and Administration in Agriculture major is designed for students who desire an interdisciplinary education to pursue a career with agriculturally related governmental and nonprofit agencies, or with businesses and industries that are concerned with public services in agriculture, natural resources or rural communities. Students will explore the planning and implementing of rural and agriculturally related programs in organizations, communities (town, city, or county), multicounty areas, states, regions, and at the federal level.

Total Degree Requirement: 128 cr.

Only 65 cr. from a two-year institution may apply which may include up to 16 technical cr.; 9 P-NP cr. of free electives; 2.00 minimum GPA.

International Perspective: 3 cr.

U.S. Diversity: 3 cr.

Communications Proficiency (C or better):

6 credits of English Composition	6
Three credits of Speech Fundamentals	3

Communication/Library:

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
SP CM 212	Fundamentals of Public Speaking	3
P R 305	Publicity Methods	3
LIB 160	Information Literacy	1

Humanities and Social Sciences: 6 cr.

3 credits from approved humanities list	3
3 credits from approved social science list	3

Ethics: 3 cr.

3 cr. from approved list.

Life Sciences: 6 cr.

BIOL 101	Introductory Biology	3
or BIOL 211	Principles of Biology I	
Three credits from approved life sciences list		3
Total Credits		6

Mathematical and Physical Sciences: 12 cr.

MATH 150	Discrete Mathematics for Business and Social Sciences	3
STAT 101	Principles of Statistics	4
Five credit hours from:		
MTEOR 206	Introduction to Weather and Climate	3
AGRON 206	Introduction to Weather and Climate	3
or ASTRO, CHEM, GEOL, PHYS.		
Total Credits		13

Sociology 15 cr.

SOC 110	Orientation to Public Service and Administration in Agriculture	R
SOC 325	Transition in Agriculture	3
or SOC 382	Environmental Sociology	
SOC 415	Dynamics of Social Change	3
SOC 420	Complex Organizations	3
or SOC 380	Sociology of Work	
SOC 464	Strategies for Community Engagement	3
Total Credits		12

Economics and Agricultural Education and Studies: 16 cr.

ECON 101	Principles of Microeconomics	3
ECON 102	Principles of Macroeconomics	3
ECON 235	Introduction to Agricultural Markets	3
or ECON 380	Environmental and Resource Economics	
ECON 344	Public Finance	3
AGEDS 451	Agricultural Law	4
Total Credits		16

Political Sciences: 15 cr.

POL S 215	Introduction to American Government	3
POL S 310	State and Local Government	3
POL S 371	Introduction to Public Administration	3
POL S 475	Management in the Public Sector	3
C R P course		3
Total Credits		15

Additional Pol S, Econ, or Soc at 300 level or above.

Agricultural Sciences: 9 cr.

Complete 9 cr. from MTEOR 206 Introduction to Weather and Climate or Agron, An S, AST, Ent, FS HN, Hort, or NREM.

Area of Concentration: 15 cr.

Complete 15 cr. from approved specialization area.

Courses primarily for undergraduates:

SOC 110. Orientation to Public Service and Administration in Agriculture.

Cr. R. F. Survey of public service and administration in agriculture. Exploration of career tracks and career planning. Recommended during first semester of freshman year or as soon as possible after transfer into the department.

SOC 115. Orientation to Sociology.

Cr. R. F.S. Orientation to sociology. A familiarization with University and LAS College requirements and procedures. Occupational tracks and career options open to sociology; introduction to career planning. Recommended during first semester of freshman year, or as soon as possible after transfer into the department. Offered on a satisfactory-fail basis only.

SOC 134. Introduction to Sociology.

(3-0) Cr. 3. F.S.SS.

Social interaction and group behavior with emphasis on the scientific study of contemporary U.S. society, including issues relating to socialization, inequality, and changing rural and urban communities. Analysis of relationships among the institutions of family, religion, political participation, work, and leisure.

SOC 134H. Introduction to Sociology: Honors..

(3-0) Cr. 3. F.S.SS.

Social interaction and group behavior with emphasis on the scientific study of contemporary U.S. society, including issues relating to socialization, inequality, and changing rural and urban communities. Analysis of relationships among the institutions of family, religion, political participation, work, and leisure.

SOC 219. Sociology of Intimate Relationships.(3-0) Cr. 3. F.S.SS. *Prereq: SOC 134*

Analysis of intimate relationships among couples using a sociological perspective. Attention is given to singlehood; dating and courtship; sexuality; mate selection, cohabitation, and marriage. Relationship quality, communication, conflict and dissolution of these types of relationship will also be explored.

SOC 220. Globalization and Sustainability.

(Cross-listed with ANTHR, ENV S, GLOBE, M E, MAT E, T SC). (3-0) Cr. 3. F.S.

An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department. Meets International Perspectives Requirement.

SOC 230. Rural Society in Transition.

(3-0) Cr. 3. F.S.

Introduction to the causes and consequences of social and economic change affecting rural people and places. Uses a sociological perspective to examine social structures, social change, and social relationships within rural society. Topics include community, population change, inequality, rural economy, structure of agriculture, social and environmental impacts of resource extraction.

SOC 235. Social Problems and American Values.(3-0) Cr. 3. F.S. *Prereq: SOC 134*

Sociological concepts, theories and methods to analyze the causes and consequences of social problems. Social problems discussed may include crime, substance abuse, income inequalities, discrimination, poverty, race relations, health care, family issues, and the environment. How American culture and values shape societal conditions, public discourse and policy. Meets U.S. Diversity Requirement

SOC 241. Youth and Crime.(Cross-listed with CJ ST). (3-0) Cr. 3. F. *Prereq: SOC 134*

An examination of delinquency that focuses on the relationship between youth as victims and as offenders, social and etiological features of delinquency, the role of the criminal justice system, delinquents' rights, and traditional and alternative ways of dealing with juvenile crime.

SOC 302. Research Methods for the Social Sciences.(3-0) Cr. 3. F.S. *Prereq: SOC 134; STAT 101; or concurrent enrollment in STAT 101*

Introduction to the principal research methods used in sociology, including survey research, interviewing, content analysis, experiments, ethnographies, focus groups, historical analysis, and analysis of secondary data. Instruction on sampling and the principles of validity and reliability underlying quantitative and qualitative methods. Training in data analysis using statistical software packages.

SOC 305. Social Psychology: A Sociological Perspective.(3-0) Cr. 3. F.S.SS. *Prereq: SOC 134*

Examination of human behavior in a social environment with emphasis on development of the self, interpersonal relations, attitudes, and small groups.

SOC 310. Community.(3-0) Cr. 3. F.S. *Prereq: SOC 134*

Analysis of evolving theory and research of community as an ideal type, an ecological system, a political economy, and an interactional field; examination of the impact of economic, cultural, social and political infrastructures on community power structures and change processes in a global era.

SOC 325. Transition in Agriculture.(3-0) Cr. 3. S. *Prereq: SOC 134 or permission of instructor*

The impacts of agricultural changes on farm families, rural communities, and consumers. Past, present, and future trends in family farms and their social implications.

SOC 327. Sex and Gender in Society.(Cross-listed with W S). (3-0) Cr. 3. F.S.SS. *Prereq: SOC 134*

How the biological fact of sex is transformed into a system of gender stratification. The demographics and social positions of women and men in the family, education, media, politics, and the economy. Theories of the social-psychological and sociological bases for behavior and attitudes of women and men. The relationship between gender, class, and race. Meets U.S. Diversity Requirement

SOC 328. Sociology of Masculinities and Manhood.(Cross-listed with W S). (3-0) Cr. 3. S. *Prereq: SOC 134 or W S 201*

Examination of socially constructed and idealized images of manhood, the nature of social hierarchies and relations constructed on the basis of imagery, ideologies, and norms of masculinity. Theories on gender (sociological, psychological, and biological). Particular attention given to theory and research on gender variations among men by race, class, ethnicity, sexual orientation, physical ability and age. Meets U.S. Diversity Requirement

SOC 330. Ethnic and Race Relations.(Cross-listed with AF AM). (3-0) Cr. 3. F.S.SS. *Prereq: SOC 134*

Analysis of ethnic and race relations, particularly in America; emphasis on the sociology and psychology of race and ethnic relations. Meets U.S. Diversity Requirement

SOC 331. Social Class and Inequality.(3-0) Cr. 3. F.S.SS. *Prereq: SOC 134*

Social stratification and processes resulting in social and economic inequalities; implications of status, class, and poverty for people of different races, ethnicities, and gender. Meets U.S. Diversity Requirement

SOC 332. The Latino/Latina Experience in U.S. Society.(3-0) Cr. 3. F. *Prereq: SOC 134*

Examination of the social, historical, economic and political experience of varied Latino ethnic groups in the U.S. - primarily focusing on Mexican, Puerto Ricans, and Cubans.

Meets U.S. Diversity Requirement

SOC 334. Politics and Society.(Cross-listed with POL S). (3-0) Cr. 3. F. *Prereq: A course in political science or sociology*

The relationship between politics and society with emphasis on American society. Discussion of theories of inequality, power, social movements, elites, ruling classes, democracy, and capitalism.

SOC 340. Deviant and Criminal Behavior.(Cross-listed with CJ ST). (3-0) Cr. 3. S.SS. *Prereq: SOC 134*

Theory and research on the etiology of types of social deviance; issues relating to crime, antisocial behavior and social policies designed to control deviant behavior.

SOC 341. Criminology.(Cross-listed with CJ ST). (3-0) Cr. 3. F. *Prereq: SOC 134*

The nature of crime and criminology; the concept of crime; statistics and theories of criminality; major forms of crime; official responses to crime and control of crime.

SOC 345. Population and Society.(Cross-listed with ENV S). (3-0) Cr. 3. F. *Prereq: SOC 134*

Human population growth and structure; impact on food, environment, and resources; gender issues; trends of births, deaths, and migration; projecting future population; population policies and laws; comparison of the United States with other societies throughout the world.

Meets International Perspectives Requirement.

SOC 351. Police and Society.(Cross-listed with CJ ST). (3-0) Cr. 3. F.S. *Prereq: SOC 241 or CJ ST 240*

Introduction and overview of law enforcement in the United States. Theory and research on police history, function, and organization; constitutional issues of policing; and critical topics, such as community policing, officer discretion and decision-making, corruption, use of force, and racial profiling. The course illustrates the interconnections between communities, police organizations, citizens, and criminal offenders.

SOC 352. Punishment, Corrections, and Society.(Cross-listed with CJ ST). (3-0) Cr. 3. F.S. *Prereq: SOC 241 or CJ ST 240*

Introduction and overview of corrections in the United States. Theory and research on probation, parole, intermediate sanctions, prison, inmate society, inmate behavior and misconduct, capital punishment, recidivism, correctional treatment, rehabilitation, and offender reintegration into society.

SOC 362. Applied Ethics in Agriculture.

(Cross-listed with ECON). (3-0) Cr. 3. *Prereq: ECON 101 or SOC 134, junior or senior status in the College of Agriculture*

Identify major ethical issues and dilemmas in the conduct of agricultural and agribusiness management and decision making. Discuss and debate proper ethical behavior in these issues and situations and the relationship between business and personal ethical behavior.

SOC 377. Social Dimensions of Religion.

(Cross-listed with RELIG). (3-0) Cr. 3. *Prereq: Prior course work in Religious Studies recommended.*

The influence of religion in society, both as a conservator of values and as a force for social change.

SOC 380. Sociology of Work.

(3-0) Cr. 3. F.S. *Prereq: SOC 134*

Inequalities (gender, race, class) related to jobs, occupations, firms, and industries. Satisfaction, rewards, alienation, discrimination, and other topics of importance to workers are examined.

SOC 381. Social Psychology of Small Group Behavior.

(Cross-listed with PSYCH). (3-0) Cr. 3. S. *Prereq: SOC 305 or PSYCH 280*

A survey of small group theory and research from an interdisciplinary, social psychological perspective.

SOC 382. Environmental Sociology.

(Cross-listed with ENV S). (3-0) Cr. 3. F.S. *Prereq: Soc 134 or 3 credits of ENV S*

Environment-society relations; social construction of nature and the environment; social and environmental impacts of resource extraction, production, and consumption; environmental inequality; environmental mobilization and movements; U.S. and international examples.

SOC 401. Contemporary Sociological Theories.

(3-0) Cr. 3. F.S.SS. *Prereq: 9 credits in sociology*

Both historical and modern social theories as applied to understanding and researching the social world.

SOC 402. White-Collar Crime.

(Cross-listed with CJ ST). (3-0) Cr. 3. S. *Prereq: SOC 241 or CJ ST 240*

Introduction and overview of white-collar crime as a form of deviance. Theory and research on occupational, corporate, and organizational offending; prevalence, costs, and consequences of white-collar crime; predictors and correlates of white-collar crime; and political, business, and public policy responses to white-collar crime.

SOC 411. Social Change in Developing Countries.

(3-0) Cr. 3. S. *Prereq: SOC 134 plus 3 credits in social sciences*

Social change and development in developing countries; international interdependence; causes and consequences of persistent problems in agriculture, city growth, employment, gender equality, basic needs; local and worldwide efforts to foster social change and international development. Meets International Perspectives Requirement.

SOC 412. Senior Seminar on Career Development.

(1-0) Cr. 1. F. *Prereq: Most of major core courses, senior classification*

Transition from student to professional. Career development procedures including self-assessment, short- and long-term goals, strategies for the job search, development of contacts and sources, resumes and interviews. Enrollment preferred in first semester as senior. Offered on a satisfactory-fail basis only.

SOC 415. Dynamics of Social Change.

(3-0) Cr. 3. F. *Prereq: SOC 134 plus 3 credits in social sciences*

Examination of public responses to complex and controversial innovations, such as environmentalism, feminism, stem-cell research, same-sex marriage, large-scale hog lots, and others. Strategies for gaining adoption/rejection of controversial innovations. Applications to topics in agriculture, development, business, and marketing. Credit for only Soc 415 or 515 may be applied toward graduation.

SOC 420. Complex Organizations.

(3-0) Cr. 3. F.SS. *Prereq: SOC 134 plus 3 credits in social sciences*

Study of bureaucracies and other large organizations as social systems through the perspective of basic social processes and structural variables. Incorporates topics of organizational effectiveness, power and change.

SOC 435. Urban Society.

(3-0) Cr. 3. Alt. S., offered even-numbered years. *Prereq: SOC 134 plus 3 credits in social sciences*

Development of cities and urban systems; human and spatial ecology; urban transformation, decline, and revitalization; poverty; immigration; homelessness; residential segregation; housing policy; urban social movements; local governance; alternative solutions and planning for cities; international comparisons.

SOC 460. Criminal and Juvenile Justice Practicum.

(Cross-listed with CJ ST). Cr. 3-12. Repeatable, maximum of 12 credits. F.S.SS.

Prereq: Junior or senior classification; permission of criminal justice studies coordinator; major or minor in sociology, or criminal justice studies minor

Study of the criminal and juvenile justice systems and social control processes. Supervised placement in a police department, prosecutor's office, court, probation and parole department, penitentiary, juvenile correctional institution, community-based rehabilitation program, or related agency. Offered on a satisfactory-fail basis only. Not more than a total of 12 credits of field experience (Soc 454 and 460) may be counted toward graduation. No credits in Soc 460 may be used to satisfy minimum sociology requirements for sociology majors.

SOC 464. Strategies for Community Engagement.

(3-0) Cr. 3. S.SS. *Prereq: 6 credits in sociology*

Project-focused engagement in community issues and initiatives. A broad range of strategies will be addressed, including popular education, applied research, network analysis and mapping, policy focused work, action research, curriculum development, community organizing, and organizational development.

SOC 484. Topical Studies in Criminal and Juvenile Justice.
